Dear Sir or Madame:

I am writing this letter in favor of Option #2 under the Alternative Standards for Alcohol Sources in Flavored Malt Beverages (FMB). As an employee of a company that delivers malt beverages it would be the most logical option to choose. If option number two wasn't picked you could hurt many of my fellow employees, cause possible layoffs, and hurt my company financially. I also feel that malt beverages are not the equivalent to that of a spirits so they are placed under the same category.

Sincerely,

Anthony Simmons
