Chief, Regulations & Procedures Div
Att: Notice 4
Alcohol & Tobacco Tax & Trade Bureau
Washington, D.C. 20091

Dear Chief,

I am in support of the 5 1/49 standard for fmbs. We agree that a change may be necessary but to not change the standard to the radical degree that the large brewers are pushing. Bud and Coors have their agenda involving these products which is to limit the sales of fmbs by using a national approach and using the ATF to their advantage. Please listen to the thousands of grocery, bar, restaurants and others who will be hurt severely if the decision is to radically change the standards of the current fmbs. We do not need to lose any more jobs in the U.S. and I am afraid that it could happen.

Thank you

John Brady
