September 3, 2003

Attn: TTB Notice No. 4 Chief, Regulations and Procedures Division Alcohol and Tobacco Tax and Trade Bureau P.O. Box 50221 Washington, D.C. 20091-0221

Dear Sir or Madam:

I support the proposed standard of composition for Flavored Malt Beverages("FMB's"), as set forth by the Tax and Trade Bureau("TTB") in TTB Notice No.4 of March 2003. This proposal is essential to the beer industry as it clearly delineates the difference between beer and other alcohol beverages, requiring that the alcohol content in FMB's derived from distilled alcohol not exceed 0.5% in or to be classified as "beer".

My company, Anheuser-Busch, regards this proposed rule as a critical step towards consistent classification of these products. Maintaining an orderly marketplace and helping to sustain consistency of federal alcohol beverage categories are primary concerns of the brewing induslxv. Federal leadership in this area is critical as state definitions of "beer," "malt beverage," and "spirits" are often similar, Thus, your proposed rule will likely be followed at the state level, helping to maintain a clear and distinct definition that will guarantee consistent tax, licensing, and distribution policies for each category.

Furthermore, any alternative to the TTB proposal will likely trigger disruptive state legislative and regulatory actions. These measures could have significant ramifications for our industry and for thousands of alcohol beverage licensees, most of which are small businesses.

I reaffirm my company's support for the proposed "0.5% standard for FMB's. It s consistency with historical interpretations of federal regulations will help maintain an orderly marketplace and the integrity of the beer category.

Sincerely

Greg Coffelt Sr. Key Account Manager Anheuser-Busch, Inc.
