6. PROCEDURES

6.1. DoD Components shall submit automated data in the form of electronic

accounting machine (EAM) cards (punched cards) for this report along with a hard-copy report (printout) of the data. If facilities for producing EAM cards are unavailable, DoD Components may provide data coded on 80-column, punched-card transcript sheets if requested and approved in advance.

6.2. The hard-copy report format, EAM card (punched card) transcript format, data preparation instructions, and input quality control edit specifications are contained in enclosures E3., E4., E5., and E6., respectively.

6.3. DoD Components shall prepare one data record for total numbers of military and civilian personnel located in CONUS, Alaska, Hawaii, each U.S. territory and possession, each foreign country, and special locations and regions (afloat) as defined in enclosure E2.

6.3.1. The two-letter country codes listed in enclosure E4 to DIAM 65-18 (reference (b)), as supplemented with the special location and regional water area codes listed in enclosure E2, shall be used to identify and code each location used in this report.

6.3.2. DoD Components shall report the location for personnel in the United States by CONUS, Alaska, and Hawaii. DoD Components will not provide a data record for the entire United States.

6.3.3. DoD Components shall report personnel in Germany, using the following separate and distinct locations: (1) Federal Republic of Germany, including West Berlin; and (2) German Democratic Republic, including East Berlin.

6.3.4. Data to reflect personnel strength in Okinawa shall be included in the data record for Japan submitted by the Military Departments.

6.3.5. For personnel in European NATO countries, the Military Departments shall submit a supplemental record to reflect U.S. military personnel permanently stationed ashore and those assigned to rotational units as described in paragraph 6.4.2. below.

6.4. The Military Departments shall report military personnel at their current operating location unless modified hereafter. The following special categories of active duty military personnel shall be reported at the locations indicated below:

6.4.1. Members on temporary duty (either TDY or TAD) for less than 30 days at their recorded duty station.

6.4.2. Members assigned to rotational units if the units are on temporary duty (either TDY or TAD) for a period of 30 days or more at their current operating location.

6.4.3. Members on temporary duty (either TDY or TAD) for a period of 30 days or more at their current operating location, unless compliance would require extensive changes to existing reporting systems and an exception has been requested and approved in advance. (When an exception is approved, the next major change to the reporting system of the DoD Component concerned shall provide for reporting temporary duty in accordance with this paragraph.)

6.4.4. Members who are absent without official leave (AWOL) at their recorded duty station.

6.4.5. Patients at their recorded duty station.

6.4.6. Military prisoners at their recorded duty station.

6.4.7. Military transients in one data record. Transients shall include all active duty military personnel in travel, proceed, leave en route, or temporary duty en route status while on permanent change of station (PCS) orders to execute an accession, a separation, a training, an operational, or a rotational move.

6.4.7.1. This paragraph includes personnel in PCS status between duty stations, awaiting transportation or en route change of orders, in leave status while on PCS orders that involve a "no cost" move, en route from an overseas or CONUS duty station for separation or en route from training to a permanent duty assignment.

6.4.7.2. A more detailed breakdown of personnel to be included or excluded appears in Program Element 887320 of DoD 7045.7-H (reference (c)).

6.7. A limited number of personnel (less than 0.01 percent of total personnel) who are located in foreign countries (excluding U.S. territories and possessions) may be reported as undistributed if absolutely necessary to compensate for problems associated with generating reports from automated systems.

6.8. For civilian personnel, DoD Components shall report Office of Management and Budget ceiling personnel for direct hire U.S. citizens and foreign nationals, included on line 29 of Standard Form (SF) 113-A, Monthly Report of Federal Civilian Employment, in accordance with DoD Instruction 7730.18 (reference (d)).
