### From the NLM History Of Medicine

- Expand our reach to serve a wider audience
- Lead and engage the digital present and future

RML Goal: Develop collaborations among Network members and other organizations to improve access to and sharing of biomedical information resources throughout the nation

Outcome: Librarians are aware of and have access to historical collections within the region as well as those from the National Library of Medicine

Activity: Promote history of medicine resources within the region

### Digital Collections: Medicine in the Americas

Digitized American medical books dating from 1610 to 1920, made possible in part through NLM's participation in the [Medical Heritage Library](#), a digital curation collaborative among a group of the world's leading medical libraries.

### Digital Collections: Films and Video

Digitized historical public health and training films using a prototype full-text search and delivery platform for online motion picture content.

### Digital Collections: Cholera Online

Digitized English language monographs from the History of Medicine collections dating from 1817 to 1900 dealing with the cholera pandemics of that period.

## Featured Collections

**Digital Collections** is the National Library of Medicine's free online archive of biomedical books and videos. All the content in Digital Collections is in the public domain and freely available worldwide. Digital Collections provides unique access to NLM's rich, historical resources.

Digital Collections uses a suite of open source and NLM-created software. For more information on the development and technical description of Digital Collections, see the NLM Digital Repository Project information page.

## Featured Items from the Collections

To view one of the 20 "Featured Items from the Collections" on the Wall, click on the image, then click on the  pop-up window symbol ([See Help](#)). For videos, a short segment will automatically begin to play. The latest version of [Adobe Flash Player](#) is required to use the Wall.

# Read books online or on your Kindle....

<http://www.archive.org/details/medicalheritagelibrary/>

The screenshot shows the Internet Archive website interface. At the top, there is a navigation bar with links for Home, American Libraries, Canadian Libraries, Universal Library, Community Texts, Project Gutenberg, Children's Library, Biodiversity Heritage Library, and Additional Collections. A search bar is present with a 'GO!' button and an 'Advanced Search' link. The user is identified as 'Anonymous User' with a 'login or join us' link and an 'Upload' button.

The main content area displays the details for the book 'Water-cure for ladies : a popular work on the health, diet, and regimen of females and children, and the prevention and cure of diseases; with a full account of the processes of water-cure; illustrated with various cases (1844)'. The author is listed as 'Shew, Marie Louise; Shew, Joel, 1816-1855'. The subject is 'Women's Health'. The publisher is 'New-York : Wiley and Putnam'. The language is 'English'. The digitizing sponsor is 'Open Knowledge Commons and Yale University, Cushing/Whitney Medical Library'. The book contributor is 'Yale University, Cushing/Whitney Medical Library'. The collection is 'medicalheritagelibrary; cushingwhitnymedicallibrary; americana'. A full catalog record is available in MARCXML format.

On the left side, there is a 'View the book' section with a thumbnail image of the book cover. Below the thumbnail, there are links for 'Read Online' (~168 pg, 4.0 M), 'PDF' (9.1 M), 'EPUB', 'Kindle' (~168 pg), 'Daisy' (~168 pg), 'Full Text' (209.0 K), and 'DiVu' (2.2 M). There is also a link for 'All Files: HTTP' and a 'Help reading texts' link.

Below the 'View the book' section, there is a 'Resources' section with a 'Bookmark' link.

At the bottom of the page, there is a 'Reviews' section with a 'Write a review' link and a note that the book has been reviewed 21 times.

A green arrow points from the 'Full Text' link in the 'View the book' section to the 'Reviews' section.

A yellow callout box with a blue border contains the text: 'What is the first title listed under Recently Reviewed Items? (1892)'.

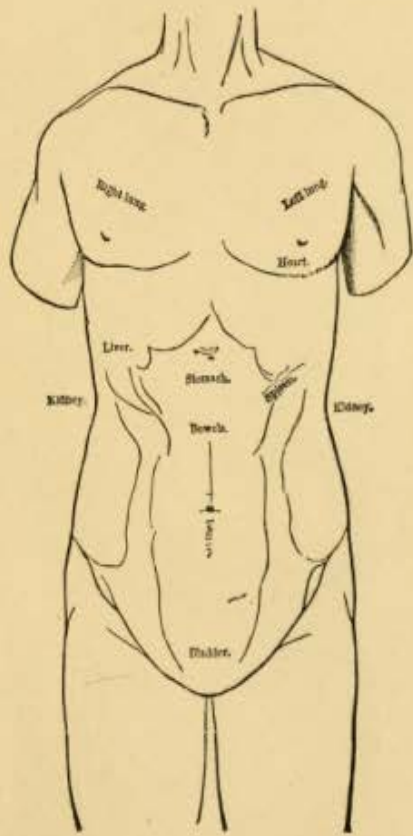

What is the first title listed under Recently Reviewed Items? (1892)

# Oral Histories

<http://www.nlm.nih.gov/hmd/manuscripts/oh.html>

The screenshot shows the NLM Oral Histories website. At the top, there is a navigation bar with links for Databases, Find, Read, Learn, Explore NLM, Research at NLM, and NLM for You. A search bar is located on the right. Below the navigation bar, there is a red banner with the text "History of Medicine" and "History Home | About Us | Visit Us | Contact Us | Tours | FAQs | Copyright | HMD Site Map".

The main content area is titled "History Home" and features a section for "Oral History Collections". This section includes a paragraph describing the collections and a "Cross-Collection Search" box with a search input field and a "Search" button. Below the search box are two links: "Browse Archives and Manuscripts Oral Histories Collection" and "Browse Fitzhugh Mullan Primary Care Collection".

A red box highlights a specific record in the "Oral History Collections Online" section. The record details are as follows:

<b>Author:</b>	Vargo, Frank G., Mrs., 1911-
<b>Title:</b>	Mrs. Frank G. Vargo : an oral history [sound recording] / interviewed by John Duffy and Martin Kaufman, June 19, 1968.
<b>Scope Note:</b>	One in a series of oral history interviews with advocates and practitioners of homeopathy.
<b>Biographical Note:</b>	At the time of the interview Mrs. Vargo was secretary of the American Foundation for Homeopathy.
<b>Subject terms:</b>	Homeopathy Therapeutics
<b>Audio:</b>	<a href="#">Link to MP3 (opens in new window)</a>

A red arrow points to the "Audio" field, specifically to the "Link to MP3" text. Below the audio link is a "View entire transcript" button. Underneath, there is a "Contents" section with a list of links: "Page i - Title Page", "Page ii - Table of Contents", "Page iii - Preface", "Page iv - Preface", "Page 1", "Page 1", and "Page 2".

At the bottom of the page, there is a footer with copyright information, the NLM logo, and a "USA.gov" logo. The footer text includes: "Copyright | Privacy | Accessibility | Site Map | Contact Us", "U.S. National Library of Medicine, 8600 Rockville Pike, Bethesda, MD 20894", "National Institutes of Health, Health & Human Services", "Freedom of Information Act", and "Metadata | Permanence level: Permanent: Dynamic Content".

[About this Project](#)

### Estelle Brodman

Interviewers: Audrey K. Berteau, Loretta Stucki, Barbara Halbrook, Betty Kulifay, Millard Johnson

Date: November 22, 1978

Identifier: OH052

Approximate Length: 17 leaves

Biographical Information: Medical librarian (1914-2007). Assistant librarian for reference service at the National Medical Library of the Bernard Becker Medical Library

*LS: When did you become interested in the research aspects of information science and bibliographic control?*

Well, I don't know that I ever was not. To me, research is just another way of looking at the world. If you're interested in libraries and you're interested in the research aspects of libraries, if you're interested in bibliography, you look at them and you say, "What would happen if?" or "Why did this happen and how can it be changed?" It sounds better to say research, but it's just a child's examining the world.

## Resources for Teaching MedlinePlus

### MedlinePlus Tour

- MedlinePlus Tour in [English](#) and [Spanish](#) - A narrated tour of the main features of MedlinePlus. It runs about 8 minutes and requires Flash version 8 or above.
- Download the MedlinePlus tour in [English](#) and [Spanish](#) for use when no Internet connection is available.

Who could use  
this?  
How can you  
promote this to  
them?

The screenshot shows the MedlinePlus website interface. At the top, it says "MedlinePlus Trusted Health Information for You" and "A service of the U.S. National Library of Medicine NIH National Institutes of Health". There are navigation links for Home, About MedlinePlus, Site Map, FAQs, and Contact Us. A search bar is present with a "GO" button. Below the search bar are three main navigation buttons: "Health Topics", "Drugs & Supplements", and "Videos & Cool Tools". An "ESPAÑOL" button is also visible. The main content area features the title "Understanding Medical Words: A Tutorial from the National Library of Medicine". Below the title, it states: "This tutorial teaches you about medical words. You'll learn about how to put together parts of medical words. You'll also find quizzes to see what you've learned." It also mentions: "You will need Flash Player to view the programs." There are three bullet points: "Download the [Flash Player](#) for free.", "Note for users of assistive technology: This tutorial is a flash movie that contains changing content and interactive quizzes. You may be required to use additional keyboard commands to navigate the content depending on the software you use to browse the Web.", and "Use the controls on the bottom left of the screen to adjust the volume or to turn off the sound." Below this text is a thumbnail image of the tutorial interface, which shows a doctor and two children sitting on a purple couch. The thumbnail has a title "Understanding Medical Words" and "A tutorial from the National Library of Medicine". At the bottom of the thumbnail are several navigation buttons: "Introduction", "Break it up", "Word Roots", "Beginnings & Endings", "Quiz Time", "Abbreviations", and "Learn More". Below the thumbnail is a "Start the tutorial" button.

**Abstract:** The Special Collections Department of the McGoogan Library of Medicine at the University of Nebraska Medical Center in Omaha holds a collection of rare and important medical books, journals, and manuscripts; equipment, instruments, and other objects related to the health sciences; the official records and archives of the University of Nebraska Medical Center, and private manuscript collections with an emphasis in the health sciences, especially as they relate to Nebraska specifically. The collection also holds photographs, works of art, and other ephemera.

Materials in the collection do not circulate. Use is restricted to the library with a staff member present at all times. These materials include: all materials housed in the rare book rooms, all materials housed in the history of medicine area, and history of medicine vertical file materials (e.g. clippings, reprints, scrapbooks, reports, realia. SERVICES: Photocopying of rare books and archival materials may be allowed but all photocopying must be done by the library staff. Photographs may be made of some materials through scanning in the library's learning resources center. These materials will be available 8.30 a.m. - 4.00 p.m. Monday - Friday, and access will be controlled according to established procedures. For use of these materials, make an appointment in advance with the Special

## Fact Sheet

### Access to Audiovisual Materials

The National Library of Medicine (NLM) has over 60,000 audiovisual programs in almost 40 formats. The AV collection is in English and several foreign languages, among them, Spanish, French, German, Russian, Japanese, Chinese, Turkish, and Arabic. Over 6,300 are of historical interest.

#### Lending Policy

- Most audiovisuals are available for loan to any library in the United States.
- Individuals must borrow these materials through a local library.
- For more information on borrowing audiovisuals, see the [Fact Sheet - Interlibrary Loan](http://www.nlm.nih.gov/pubs/factsheets/ill.html) at <http://www.nlm.nih.gov/pubs/factsheets/ill.html>.

#### Stock Images & Footage

- The [Images from the History of Medicine](http://www.nlm.nih.gov/hmd/ihm/) is a database of nearly 70,000 images of photographs, artwork, and printed texts illustrating the social and historical aspects of medicine, which may be viewed at <http://www.nlm.nih.gov/hmd/ihm/>.
- For a [list of companies](http://www.nlm.nih.gov/services/stockshot.html) that provide stock images or media footage, go to <http://www.nlm.nih.gov/services/stockshot.html>. The NLM does not provide stock image or media footage.

#### Copying Materials

- You may not duplicate audiovisual or computer programs from the NLM collection.

# The future...

The screenshot shows the website for the Berkman Center for Internet & Society at Harvard University. The navigation bar includes links for ABOUT, PEOPLE, RESEARCH, PUBLICATIONS, TEACHING, EVENTS, INTERACTIVE, NEWSROOM, and GET INVOLVED. The main content area features an article titled "RB 185: The Next Generation Library" with a sub-header "Radio Berkman" and "Stories from the Deep Internet". The article text discusses the future of public libraries, mentioning the Digital Public Library of America (DPLA) and the National Archives. A search bar is visible in the top right. Below the article, there is a "related content" section with several links. At the bottom of the article, there are download media options for MP3 audio (7 mb) and OGG audio (9 mb).

**RB 185: The Next Generation Library**

What would a digital version of your public library look like? There's more to it than e-books and digital reading devices. Librarians, scholars, innovators, and techno-wizards are collaborating under the mantle of the Digital Public Library of America (DPLA) to build a next generation public library. Such a thing could incorporate one or more of many different elements: a set of physical buildings; a purely digital archive with an open API layer for coders to play around with; a full fledged digital lending library. And when the DPLA converge on the National Archives in Washington, DC this Friday (you can check out the agenda and tune in to a livestream here) they'll get to work out just a few of those ideas. Today, a special report from Benjamin Naddaf-Hafrey who spoke to a few of the minds behind the DPLA.

# Contribute to “New Media”

- i.e. Horizon Report

The screenshot shows the web interface for the 2011 Horizon Report. At the top, the title "2011 HORIZON REPORT" is displayed in large, bold, black letters, with "THE WEB VERSION" in smaller text below it. Below the title is a navigation bar with four buttons: "TABLE OF CONTENTS" (with a book icon), "COMMENTS" (with a list icon), "COMMENTERS" (with a person icon), and "GENERAL COMMENTS" (with a speech bubble icon). The main content area is titled "Table of Contents" and lists 13 items, each with a number and a count in parentheses. The items are: 1. Executive Summary (0), 2. Key Trends (0), 3. Critical Challenges (2), 4. Technologies to Watch (2), 5. The Horizon Project (0), 6. One Year or Less: Electronic Books (3), 7. One Year or Less: Mobiles (0), 8. Two to Three Years: Augmented Reality (0), 9. Two to Three Years: Game-Based Learning (1), 10. Four to Five Years: Gesture-Based Computing (0), 11. Four to Five Years: Learning Analytics (0), 12. Methodology (0), and 13. 2011 Horizon Project Advisory Board (0). To the right of the list is a thumbnail image of the report cover, which features a scenic view of a beach and mountains under a blue sky. The text on the cover reads "THE HORIZON REPORT" and "2011 EDITION". Below the thumbnail, there is a link that says "Download the 2011 Horizon Report PDF • ePub".

# Crowd Sourcing

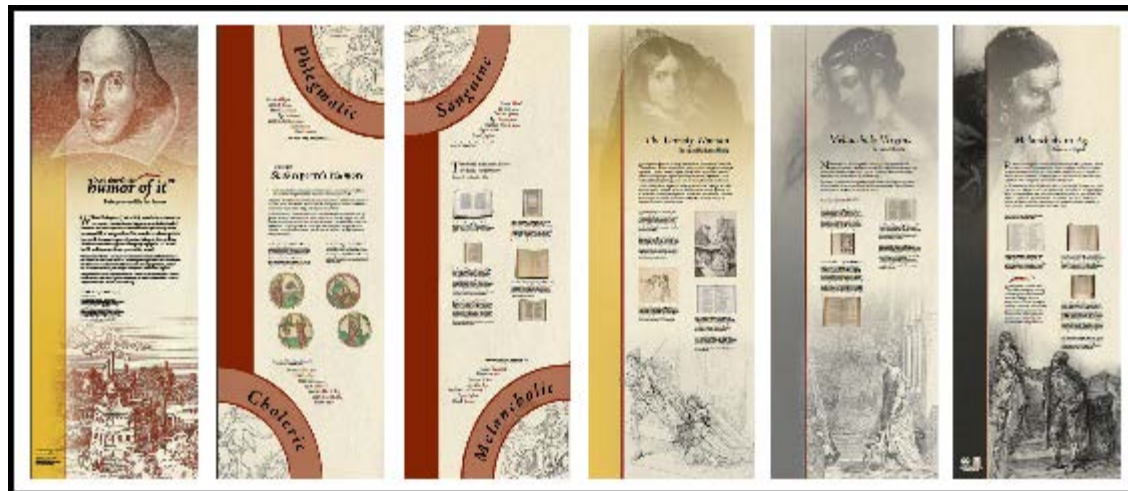

- For example ...
  - local publications of more than 50 World War I hospitals in U.S.
  - Held by a national institution, with local roots
  - Connect collections to locales of their origins, map them? By RML?

# What can you do?

- Promote these resources in your institution in a printed or online publication
- Lead a “class” or brown-bag session
- Use the resources in your own presentations (and be sure to give credit to NLM!)
- Sign up for a traveling exhibition!

# Contact Information
