

# American Time Use Survey (ATUS) Data Dictionary:

2009 ATUS-CPS File

Variables collected in the  
Current Population Survey (CPS)

July 2010

## Important Information about the ATUS Data Dictionary (ATUS-CPS)

### Introduction

The American Time Use Survey (ATUS) is sponsored by the Bureau of Labor Statistics and conducted by the U.S. Census Bureau. The purpose of this document is to provide information about the variables available on one of the 2009 ATUS data files, the ATUS-CPS file. Variables that also appear on the Activity Summary file are identified.

The ATUS-CPS file contains information collected in the Current Population Survey (CPS) interviews about persons selected to participate in ATUS and members of their households. The file has one record for each household member. **The CPS interviews were conducted two to five months prior to the ATUS interview. For this reason, some of the information on the ATUS-CPS file was out of date at the time of the ATUS interview. When possible, it is best to use variables collected in ATUS rather than their CPS counterparts.**

This data dictionary lists all the variables available on the ATUS-CPS file and their valid values. It also provides directions on how to read the data dictionary.

Three additional data dictionaries describe other 2009 ATUS files:

- ATUS Interview Data Dictionary: Describes the variables that were collected and assigned in the ATUS interview. The variables described are available on the Roster file, Activity file, Activity Summary file, Who file and Respondent file.
- Survey Methodology Data Dictionary: Describes the variables available on the Case History file and the Call History file.
- Trips Data Dictionary: Describes the variables available on the Trips file.

These additional data dictionaries are available on the ATUS Web site at [www.bls.gov/tus/dictionaries](http://www.bls.gov/tus/dictionaries).

## Naming Conventions and Definitions

Variables on the ATUS-CPS file are named according to ATUS and CPS rules (the only two exceptions to these rules are the variables OCCURNUM and QSTNUM):

- The first character of the variable name identifies the level of the variable (whether it refers to a person, a household, a household location, or an ATUS variable)
- The second character of the variable name identifies the variable type (whether it is unedited, edited, a recode, an allocation flag, or topcoded)
- The remaining characters consist of a descriptive name

The table below lists the meaning of the first character in more detail.

First Character	Level of Variable	Definition
G	CPS Geography variable	<p>Geography variables are collected in CPS and identify a household location. For example, GESTFIPS gives the FIPS state code for the location of the household.</p> <p>Geography variables have separate values for each household in the ATUS-CPS file. Thus, they are the same for each member of the household. They are only found in the ATUS-CPS file and not in any of the other ATUS files (except GTMETSTA, which is also found on the Activity Summary file).</p>
H	CPS Household variable	<p>Household variables are collected in CPS and describe a household characteristic. For example, HRNUMHOU gives the total number of persons living in the household.</p> <p>Household variables have separate values for each household in the ATUS-CPS file. Thus, they are the same for each member of the household. They are only found in the ATUS-CPS file and not in any of the other ATUS files.</p>
P	CPS Person variable	<p>Person variables are collected in CPS and describe a characteristic of a person. For example, PRTAGE gives the age of an individual.</p> <p>Person variables have separate values for each person in the ATUS-CPS file. They are only found in the ATUS-CPS file and not in any of the other ATUS files (except PEEDUCA, PTDTRACE, and PEHSPNON, which are also found on the Activity Summary file).</p>
T	ATUS variable	<p>ATUS variables ("T" for time use) are collected through ATUS interviews.</p> <p>There are only three ATUS variables in the ATUS-CPS file. Two of these are the ATUS case ID (TUCASEID) and ATUS person line number (TULINENO); these variables are used for linking the ATUS-CPS file to other ATUS files. The third variable is TRATUSR, which identifies those persons who responded to the ATUS interview.</p>

The following table gives more information regarding the second character of the variable name (note that the variables on the Activity Summary file that start with a lowercase "t" do not follow these rules).

Second character	Variable Type	Definition
U	Unedited Variable	<p>An unedited variable generally is produced by the Computer Assisted Telephone Interview (CATI) or Computer Assisted Personal Interview (CAPI) instrument and is either collected or assigned during the interview.</p> <p>"U" variables on ATUS-CPS file are either person ("P"), household ("H"), or ATUS ("T") variables.</p>
E	Edited Variable	<p>An edited variable is one that has gone through an editing process (a process checking for consistency). Values of edited variables are almost always equal to values of the corresponding unedited variables. Data differ when a value is allocated or imputed by the processing system based on CPS allocation rules. Allocations are typically performed when the unedited variable contains a missing value or a value of "don't know" or "refused."</p> <p>An edited version of a variable exists only if that variable goes through an editing process. If there are no edits for a variable, then only an unedited version of the variable exists.</p> <p>"E" variables on the ATUS-CPS file can be either person ("P"), household ("H"), or geography ("G") variables.</p>
R	Recode	<p>A recode is a variable calculated by the processing system from a combination of other items on the file. For example, PRMJOC1 is the major occupation code for the respondent's main job; this is not a response to a question but rather a variable that summarizes (or "groups") the more finely detailed occupation variable PEIO1OCD.</p> <p>Recodes on the ATUS-CPS file are either person ("P"), household ("H"), or ATUS ("T") variables.</p>
X	Allocation Flag	<p>Each edited person or household variable has a corresponding allocation flag indicating the nature of the allocation. For example, if PUSEX is blank, PESEX would be allocated and have the corresponding allocation flag of PXSEX = 41 (blank to allocated value). See the section on allocation flags for the complete list of values. There are three "X" variables that do not have corresponding "E" variables but rather correspond to "R" or "T" variables (PXAGE, PXRACE1, and PXINUSYR).</p> <p>"X" variables on the ATUS-CPS file can be either person ("P") or household ("H") variables.</p>
T	Topcode Indicator	<p>These variables indicate topcoding, or the assigning of maximum values. Three topcode variables on the ATUS-CPS file are indicator flags that relate to earnings, and the others are variables that have been topcoded.</p> <p>Topcode Indicator variables on the ATUS-CPS file can be either person ("P") variables or geography variables ("G").</p>

Using these rules, variables can be more readily understood based on their names. For example, the variable PESEX can be broken down as follows:

- The first character “P” indicates that this is a person-level variable that was collected or created through the CPS interviews
- The second character “E” indicates that this variable went through an editing process; it also means that there will be a corresponding allocation flag, PXSEX, to indicate the nature of the allocation
- The final part of the variable name, “SEX,” is descriptive

Some questions asked in the CPS interviews allow for more than one response. For such multiple entry questions, there is a separate variable for each possible response. Each variable has the same descriptive name but a different (sequential) number. For example, respondents can provide up to six answers to the question “You said you have been trying to find work – how did you go about looking?” The variable names are PULKDK1, PULKDK2, PULKDK3, etc.

Not all CPS variables are on the ATUS-CPS file. When there is an edited variable, the corresponding unedited variable is usually omitted from the files. This is typically done to protect the confidentiality of CPS or ATUS respondents as required by law. If an unedited variable is included on the files, it generally means that an edited version does not exist and that the unedited version cannot be used to identify individual respondents.

## ATUS Data Files

### 1) ATUS-CPS File

This file contains most of the variables on the CPS files for households selected to participate in ATUS, whether or not there was a completed ATUS interview.

There is a record for each person in the households from which an individual was selected to participate in ATUS. However, the ATUS-CPS file represents households as they were at the time of the CPS interview (also referred to as CPS Month-In-Sample 8 data or CPS MIS-8 data). **The information on the ATUS-CPS file was collected two to five months before the ATUS interview and in some cases was out of date at the time of the ATUS survey.** Because household composition can change, the ATUS Roster file may contain more individuals for the same household. If an individual moved into the household after the CPS interview, CPS information will not be available for that person. Those persons who are no longer living in the household at the time of the ATUS interview are not included on the ATUS-CPS file.

In addition to updating the household roster, many of the CPS questions related to employment, earnings, and school enrollment are re-asked in the ATUS interview. **When possible, it is better to use a more up-to-date variable from the ATUS interview than a variable from the ATUS-CPS file.** However, some information is not re-asked in the ATUS interview, such as race and educational attainment, and is available only on the ATUS-CPS file.

A simplified example is shown below (the actual ATUS-CPS file contains many more variables). The TUCASEID identifies each ATUS case, and the TULINENO identifies each individual in the household. In the example below, TUCASEID 20090100234567 has three persons residing in the household, while TUCASEID 20090100234570 and TUCASEID 20090100234585 have one person. Each household member has the same TUCASEID and a different TULINENO.

The example includes a household variable (HUFAMINC), a geography variable (GEREG), and two person variables (PEMARITL and PRTAGE). All members of the same household have the same value for HUFAMINC (family income) and GEREG (region) because the variables describe a given household. Each household member has an individual value for PEMARITL (marital status) and PRTAGE (age). Some household members do not have information for all person variables. For example, TULINENO 3 of TUCASEID 20090100234567 is missing (value = -1) marital status (PEMARITL). This is because PRMARITL is not defined for individuals younger than 15.

TUCASEID	TULINENO	HUFAMINC	GEREG	PEMARITL	PRTAGE
20090100234567	1	12	1	1	45
20090100234567	2	12	1	1	44
20090100234567	3	12	1	-1	12
20090100234570	1	7	3	3	70
20090100234585	1	13	2	4	57

## 2.) ATUS Activity Summary File

The ATUS Activity Summary file contains information about the total number of minutes each respondent spent doing each activity. The file also includes selected variables from the ATUS Respondent, ATUS Roster, and ATUS-CPS files. **The Activity Summary file contains variables not described in this data dictionary. Variables beginning with a lower-case "t" correspond to specific activity codes; definitions for each activity code can be found in the 2009 Activity Lexicon ([www.bls.gov/tus/lexiconwex2009.pdf](http://www.bls.gov/tus/lexiconwex2009.pdf)).**

There is one record for each ATUS respondent.

A simplified example of the ATUS Activity Summary file appears below. The variable TUCASEID is the unique identifier for each respondent and the variable TEAGE, which also appears on the ATUS Roster file, shows each respondent's age. The variable t010101 contains the total number of minutes each respondent spent doing activity 010101, "sleeping"; the variable t010102 contains the total number of minutes each respondent spent doing activity 010102, "sleeplessness."

The ATUS Activity Summary file contains more variables describing each activity as well as many more lines than the example below.

TUCASEID	TEAGE	t010101	t010102
20090101020210	26	480	0
20090101020211	53	430	30
20090101020212	76	457	0
20090101020213	16	600	0

**Differences between ATUS-CPS File and CPS File**

Most of the variables available on the CPS file also are available on the ATUS-CPS file, but there are some variables that appear on one file and not on the other. Some of these variables do not exist on one of the files, and others correspond to variables with different names.

The table below lists the variables that are missing from either the 2009 ATUS-CPS file or the August 2008 to October 2009 CPS files and shows whether there is a corresponding variable.

<b>CPS Variable</b>	<b>Definition of Variable</b>	<b>ATUS Variable</b>
<b>Variables on CPS Files that have no corresponding variable on the 2009 ATUS-CPS File</b>		
GTCBSA	CBSA FIPS code	No corresponding variable
GTCSA	Consolidated Statistical Area	
GTCO	County code	
GTCBSAST	Principle City/Balance Status	
GTINDVPC	Individual Principle City	
GTCBSASZ	Metropolitan Area (CBSA) Size	
HWHHWGT	Household weight	
PWCMPWGT	Composite weight	
PWFMWGT	Family weight	
PWLGWGT	Longitudinal weight	
PWORWGT	Outgoing rotation weight	
PWSSWGT	Second stage weight	
PWVETWGT	Veteran weight	
PRCHLD	Presence of own children by selected age group	
<b>Variables on CPS Files that have corresponding variables on the 2009 ATUS-CPS File</b>		
PEAGE	Person's age as of survey week	PRTAGE
PRINUSYR	Immigrant's year of entry	PRINUYER
<b>Variables on the 2009 ATUS-CPS File that have no corresponding variable on CPS Files</b>		
No corresponding variable	ATUS case ID	TUCASEID
	ATUS person line number	TULINENO
	Scrambled pseudo PSU cluster	GEPSEUCL
	Scrambled pseudo PSU collapsed stratum	GEPSEUST
	ATUS respondent	TRATUSR

CPS variable information found in this document is based on the CPS data dictionaries and data files found at [www.bls.census.gov/cps/datamain.htm](http://www.bls.census.gov/cps/datamain.htm). It is important to note that CPS data from other sources can have different names, different formats, or different default values for the same variables.

**Valid Values**

Each variable has a number of valid values or a range of valid values. For example, the variable PESEX has two valid values: 1 for male and 2 for female. The variable PRTAGE, on the other hand, has a range of valid values—any entry between 0 and 85 (except 81 through 84) is considered valid. Individual valid values or a range of valid values are listed under each variable in the data dictionary. A few variables have so many valid values that they are not included in the data dictionary; instead, they are provided in an appendix or a separate document. (References to these are included as a “Note” under the relevant variables in the data dictionary.) One example of such a variable is PEIO1ICD, which identifies the industry code of the respondent’s main job.

Many variables have the following possible valid values:

<b>Value</b>	<b>Description</b>
-1	Blank
-2	Don’t know
-3	Refused

Since so many variables have these possible values, they are not shown as valid entries for each item.

Two variables on the ATUS-CPS file do not list either valid values or a range of valid values. These are identifying variables: the primary identifier for ATUS cases (TUCASEID) and the primary identifier for CPS cases (HRHHID).

## Allocation Flags

For every person-level or household-level edited item (or all "PE" and "HE" variables), there is a corresponding allocation flag whose second character is "X." All remaining characters of the two variables' names are the same. For example, PXSEX is the allocation flag for PESEX.

All allocation flags have the following list of possible values:

0	Value – no change
1	Blank – no change
2	Don't know – no change
3	Refused – no change
10	Value to value
11	Blank to value
12	Don't know to value
13	Refused to value
20	Value to longitudinal value
21	Blank to longitudinal value
22	Don't know to longitudinal value
23	Refused to longitudinal value
30	Value to allocated longitudinal value (unused)
31	Blank to allocated longitudinal value (unused)
32	Don't know to allocated longitudinal value (unused)
33	Refused to allocated longitudinal value (unused)
40	Value to allocated value
41	Blank to allocated value
42	Don't know to allocated value
43	Refused to allocated value
50	Value to blank
52	Don't know to blank
53	Refused to blank

Each digit of these valid values identifies how and why edited variables were allocated.

The first digit indicates how the allocation was made to the "E" (or edited) variable.

First Digit	
0 or Blank	No change between "U" variable and "E" variable
1	"E" variable changed to a value
2	"E" variable changed to a longitudinal value (the corresponding value from a prior CPS interview)
3	"E" variable changed to an allocated longitudinal value (the corresponding allocated value from a prior CPS interview) - unused
4	"E" variable changed to allocated value
5	"E" variable changed to a blank

The second digit indicates why the "U" variable was allocated, whether the value was changed, missing, don't know, or refused.

Second Digit	
0	"U" variable was equal to some value
1	"U" variable was blank (or -1)
2	"U" variable was don't know (or -2)
3	"U" variable was refused (or -3)

All "X" variables follow this standard format. One ATUS-CPS variable (PRCITFLG) is an allocation flag with the standard list of 53 variables and yet does not follow the standard naming convention. PRCITFLG is an allocation flag for PRCITSHP (citizenship status).

Two other variables (PRERNWAL and PRHERNAL) indicate allocation and do not follow the “X” variable values; these variables have values of either 0 or 1, with 1 indicating that other variables (PRERNWA and PRERNHLY respectively) have been allocated.

All “PE” and “HE” variables have a corresponding “X” variable. However, there are three “X” variables that correspond to an “R” variable rather than an “E” variable. These are:

PXRACE1	PRDTRACE: allocation flag
PXAGE	PRTAGE: allocation flag
PXINUSYR	PRINUYER: allocation flag

### Edited Universe

Edited variables and recodes are defined for certain universes, and these are listed in the data dictionary. For example, PEMJNUM (number of jobs) is only defined for those who have indicated that they have more than one job. Therefore, the universe for PEMJNUM is PEMJOT = 1 (PEMJOT is the multiple job status of the individual, and a value of 1 indicates that the individual has more than one job).

Certain variables might initially appear to be the same because their descriptions are very similar. These variables are different in that they were asked of different groups of survey respondents. For example, the variables PEERNH1O and PEERNH2 both have the same question text of “Excluding overtime pay, tips, and commissions, what is your hourly rate of pay on your main job?” The difference between these two variables has to do with which group of respondents was asked each question, and this can be determined by looking at the edited universe. PEERNH1O was asked of respondents with PEERNPER = 1, or those who said it was easiest to report their earnings hourly. PEERNH2, on the other hand, was asked of respondents who said it was easiest to report their earnings some other way than hourly even though they were paid hourly.

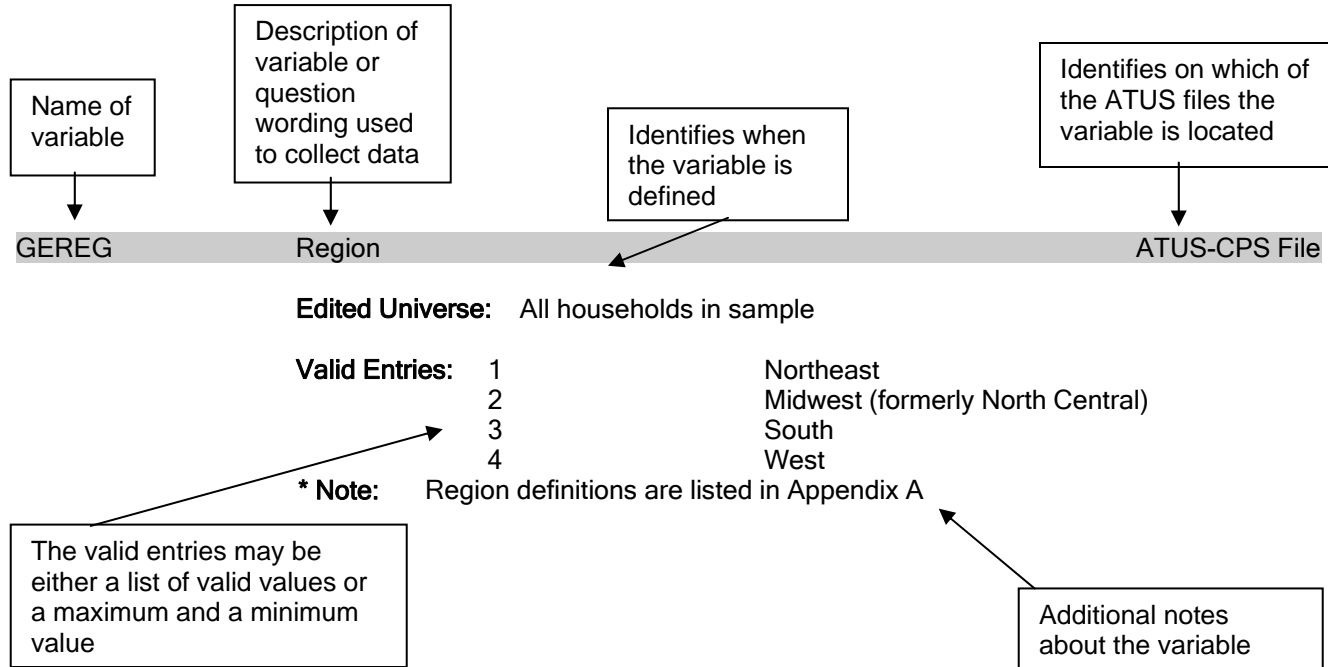

### CPS Design and Methodology

More information on CPS design and methodology can be found in CPS Technical Paper 66 at [www.census.gov/prod/2006pubs/tp-66.pdf](http://www.census.gov/prod/2006pubs/tp-66.pdf).

**Organization of the Data Dictionary**

Variables are listed in the data dictionary in alphabetical order.

Below is a sample entry from the ATUS-CPS data dictionary:

**Frequently Used Variables**

The ATUS files have many variables and users may sometimes have difficulty determining which ones to use. A list of the most commonly used ATUS variables is available at [www.bls.gov/tus/freqvariables.pdf](http://www.bls.gov/tus/freqvariables.pdf).

## Linking ATUS Files

Each of the ATUS files contains useful information, but in order to produce most estimates, the files need to be linked. All of the files contain the variable TUCASEID, which is the ATUS identification number. Two other variables that can be used for linking in conjunction with TUCASEID are TULINENO (person line number) and TUACTIONITY\_N (activity line number). For more information on linking ATUS files, please see [www.bls.gov/tus/howto.htm#linking](http://www.bls.gov/tus/howto.htm#linking).

## Linking ATUS Files to the Final CPS Interview

The ATUS files can also be linked to the CPS files using information on the ATUS-CPS file. Cases on the ATUS-CPS file can be linked to their final CPS interview. Because the last CPS interview occurs two to five months before the ATUS interview, CPS files from August 2007 to October 2008 link to the 2009 ATUS-CPS file. More detailed information about linking ATUS files to CPS files is available in Appendix K of the ATUS User's Guide ([www.bls.gov/tus/atususersguide.pdf](http://www.bls.gov/tus/atususersguide.pdf)).

CPS files can be downloaded from the CPS Web site at [www.bls.census.gov/cps/datamain.htm](http://www.bls.census.gov/cps/datamain.htm). CPS variable information found in this document is based on the CPS microdata files found on this Web site. It is important to note that CPS data from other sources can have different names, different formats, or different default values for the same variables.

## Changes between ATUS 2003 to 2009 Data Files

Those wishing to use multiple years of ATUS data should be aware of changes to ATUS survey methods between years. From 2003 to 2009, there are a number of new, discontinued, and changed variables. For a list of these changes, see the ATUS changes document ([www.bls.gov/tus/changes.pdf](http://www.bls.gov/tus/changes.pdf)). Additionally, there are some differences from the 2003 to 2009 Activity Coding Lexicons. A document detailing these differences can be found at [www.bls.gov/tus/lexiconchanges.pdf](http://www.bls.gov/tus/lexiconchanges.pdf).

## 2009 ATUS Data Dictionary: Public ATUS-CPS Data

Name	Description	File
GEPSEUCL	Scrambled pseudo primary sampling unit (PSU) cluster	ATUS-CPS File
	<b>Edited Universe:</b> All households in sample	
	<b>Valid Entries:</b> 20 16000	Min Value Max Value
GEPSEUST	Scrambled pseudo primary sampling unit (PSU) collapsed stratum	ATUS-CPS File
	<b>Edited Universe:</b> All households in sample	
	<b>Valid Entries:</b> 100 6000	Min Value Max Value
GEREG	Region	ATUS-CPS File
	<b>Edited Universe:</b> All households in sample	
	<b>Valid Entries:</b> 1 Northeast 2 Midwest (formerly North Central) 3 South 4 West	
	<b>* Note:</b> Region definitions are listed in Appendix A	
GESTCEN	Census state code	ATUS-CPS File
	<b>Edited Universe:</b> All households in sample	
	<b>Valid Entries:</b> 11 95	Min Value Max Value
	<b>* Note:</b> Census state codes are listed in Appendix A	
GESTFIPS	Federal Processing Information Standards (FIPS) state code	ATUS-CPS File
	<b>Edited Universe:</b> All households in sample	
	<b>Valid Entries:</b> 01 56	Min Value Max Value
	<b>* Note:</b> FIPS state codes are listed in Appendix A	
GTMETSTA	Metropolitan status (2000 definitions)	ATUS-CPS File, Activity Summary File
	<b>Edited Universe:</b> All households in sample	
	<b>Valid Entries:</b> 1 Metropolitan 2 Non-metropolitan 3 Not identified	
	<b>* Note:</b> GTMETSTA is based on MSA definitions from the 2000 Decennial Census and is not comparable to GEMETSTA (available on 2003 and 2004 ATUS-CPS files).	
HEHOUSUT	Edited: type of housing unit	ATUS-CPS File
	<b>Edited Universe:</b> All households in sample	
	<b>Valid Entries:</b> 1 House, apartment, flat 2 Housing unit in nontransient hotel, motel, etc. 3 Housing unit permanent in transient hotel, motel 4 Housing unit in rooming house	

Name	Description	File
	<b>Edited Universe:</b> All households in sample	
	<b>Valid Entries:</b> 5 Mobile home or trailer with no permanent room added 6 Mobile home or trailer with 1 or more rooms added 7 Housing unit not specified above 8 Quarters not housing unit in rooming/boarding house 9 Unit not permanent in transient hotel/motel 10 Unoccupied tent site or trailer site 11 Student quarters in college dorm 12 Other unit not specified above	
HEPHONEO	Edited: is a telephone interview acceptable?	ATUS-CPS File
	<b>Edited Universe:</b> HETELHHD = 1 or HETELAVL = 1	
	<b>Valid Entries:</b> 0 Unknown 1 Yes 2 No	
HETELAVL	Edited: is there a telephone elsewhere on which people in this household can be contacted?	ATUS-CPS File
	<b>Edited Universe:</b> HETELHHD = 2	
	<b>Valid Entries:</b> 1 Yes 2 No	
HETELHHD	Edited: is there a telephone in this house/apartment?	ATUS-CPS File
	<b>Edited Universe:</b> HRINTSTA = 1	
	<b>Valid Entries:</b> 1 Yes 2 No	
HETENURE	Edited: are your living quarters owned, rented for cash, or occupied without payment of cash rent?	ATUS-CPS File
	<b>Edited Universe:</b> HRINTSTA = 1	
	<b>Valid Entries:</b> 1 Owned or being bought by a household member 2 Rented for cash 3 Occupied without payment of cash rent	
HRHHID	Household ID (15-digit identifier)	ATUS-CPS File
	<b>Edited Universe:</b> All households in sample	
HRHHID2	Household ID part 2 (5-digit identifier)	ATUS-CPS File
	<b>Edited Universe:</b> All households in sample	
	<b>Valid Entries:</b> 1 Min Value 99999 Max Value	
HRHTYPE	Household type	ATUS-CPS File
	<b>Edited Universe:</b> All households in sample	
	<b>Valid Entries:</b> 1 Husband/wife primary family (neither Armed Forces) 2 Husband/wife primary family (either/both Armed Forces) 3 Unmarried civilian male - primary family householder 4 Unmarried civilian female - primary family householder	

Name	Description	File
	<b>Valid Entries:</b> 5	Primary family householder - respondent in Armed Forces, unmarried
	6	Civilian male primary individual
	7	Civilian female primary individual
	8	Primary individual householder - respondent in Armed Forces
	9	Group quarters with family
	10	Group quarters without family
HRINTSTA	Interview status	ATUS-CPS File
	<b>Edited Universe:</b> All households in sample	
	<b>Valid Entries:</b> 1	Interview
HRLONGLK	Longitudinal link indicator	ATUS-CPS File
	<b>Edited Universe:</b> All households in sample	
	<b>Valid Entries:</b> 0	Replacement household - no link to prior month
	2	Link to previous month
HRMIS	Month in sample	ATUS-CPS File
	<b>Edited Universe:</b> All households in sample	
	<b>Valid Entries:</b> 8	Month in sample 8 (MIS-8)
HRMONTH	Month of interview	ATUS-CPS File
	<b>Edited Universe:</b> All households in sample	
	<b>Valid Entries:</b> 1	Min Value
	12	Max Value
HRNUMHOU	Total number of persons in the household (household members)	ATUS-CPS File
	<b>Edited Universe:</b> All households in sample	
	<b>Valid Entries:</b> 0	Min Value
	16	Max Value
	<b>* Note:</b> This number reflects the number of people who were living in the household at the time of the final CPS interview (MIS-8) and may not match the total number of persons listed for each TUCASEID on the ATUS-CPS file. Those persons who are no longer living in the household at the time of the ATUS interview are eliminated from the ATUS-CPS file.	
HRYEAR4	Year of interview	ATUS-CPS File
	<b>Edited Universe:</b> All households in sample	
	<b>Valid Entries:</b> 2008	Min Value
	2009	Max Value
HUBUS	Does anyone in this household have a business or a farm?	ATUS-CPS File
	<b>Valid Entries:</b> 1	Yes
	2	No
HUBUSL1	PULINENO of farm or business owner (first owner)	ATUS-CPS File
	<b>Valid Entries:</b> 1	Min Value
	99	Max Value
HUBUSL2	PULINENO of farm or business owner (second owner)	ATUS-CPS File
	<b>Valid Entries:</b> 1	Min Value
	99	Max Value

Name	Description	File
HUBUSL3	PULINENO of farm or business owner (third owner)	ATUS-CPS File
	<b>Valid Entries:</b> 1 Min Value	
	99 Max Value	
HUBUSL4	PULINENO of farm or business owner (fourth owner)	ATUS-CPS File
	<b>Valid Entries:</b> 1 Min Value	
	99 Max Value	
HUFAMINC	Family income	ATUS-CPS File
	<b>Valid Entries:</b> 1 Less than \$5,000	
	2 \$5,000 to \$7,499	
	3 \$7,500 to \$9,999	
	4 \$10,000 to \$12,499	
	5 \$12,500 to \$14,999	
	6 \$15,000 to \$19,999	
	7 \$20,000 to \$24,999	
	8 \$25,000 to \$29,999	
	9 \$30,000 to \$34,999	
	10 \$35,000 to \$39,999	
	11 \$40,000 to \$49,999	
	12 \$50,000 to \$59,999	
	13 \$60,000 to \$74,999	
	14 \$75,000 to \$99,999	
	15 \$100,000 to \$149,999

## APPENDIX A-1

Detailed Industry Codes using 2002 Census Industry Classification system  
(PRDTIND1 and PRDTIND2)

Detailed Industry Code	Description	Census Industry Code
1	Agriculture	0170-0180, 0290
2	Forestry, logging, fishing, hunting, and trapping	0190-0280
3	Mining	0370-0490
4	Construction	770
5	Nonmetallic mineral product manufacturing	2470-2590
6	Primary metals and fabricated metal products	2670-2990
7	Machinery manufacturing	3070-3290
8	Computer and electronic product manufacturing	3360-3390
9	Electrical equipment, appliance manufacturing	3470, 3490
10	Transportation equipment manufacturing	3570-3690
11	Wood product manufacturing	3770-3870
12	Furniture and fixtures manufacturing	3890
13	Miscellaneous and not specified manufacturing	3960-3990
14	Food manufacturing	1070-1290
15	Beverage and tobacco product manufacturing	1370, 1390
16	Textile, apparel, and leather manufacturing	1470-1790
17	Paper manufacturing and printing	1870-1990
18	Petroleum and coal products manufacturing	2070, 2090
19	Chemical manufacturing	2170-2290
20	Plastics and rubber products manufacturing	2370-2390
21	Wholesale trade	4070-4590
22	Retail trade	4670-5790
23	Transportation and warehousing	6070-6390
24	Utilities	0570-0690
25	Publishing industries (except internet)	6470-6490
26	Motion picture and sound recording industries	6570, 6590
27	Broadcasting (except internet)	6670
28	Internet publishing and broadcasting	6675
29	Telecommunications	6680, 6690
30	Internet service providers and data processing services	6692, 6695
31	Other information services	6770, 6780
32	Finance	6870-6970
33	Insurance	6990
34	Real estate	7070
35	Rental and leasing services	7080-7190
36	Professional, scientific, and technical services	7270-7490
37	Management of companies and enterprises	7570
38	Administrative and support services	7580-7780
39	Waste management and remediation services	7790
40	Educational services	7860-7890
41	Hospitals	8190

Detailed Industry Code	Description	Census Industry Code
42	Health care services, except hospitals	7970-8180, 8270, 8290
43	Social assistance	8370-8470
44	Arts, entertainment, and recreation	8560-8590
45	Traveler accommodation	8660, 8670
46	Food services and drinking places	8680, 8690
47	Repair and maintenance	8770-8890
48	Personal and laundry services	8970-9090
49	Membership associations and organizations	9160-9190
50	Private households	9290
51	Public administration	9370-9590
52	Armed Forces	9890

## APPENDIX A-2

Detailed Industry Codes using the 2007 Census Industry Classification system  
(PRDTIND1 and PRDTIND2)

Detailed Industry Code	Description	Census Industry Code
1	Agriculture	0170-0180, 0290
2	Forestry, logging, fishing, hunting, and trapping	0190-0280
3	Mining	0370-0490
4	Construction	770
5	Nonmetallic mineral product manufacturing	2470-2590
6	Primary metals and fabricated metal products	2670-2990
7	Machinery manufacturing	3070-3290
8	Computer and electronic product manufacturing	3360-3390
9	Electrical equipment, appliance manufacturing	3470, 3490
10	Transportation equipment manufacturing	3570-3690
11	Wood product manufacturing	3770-3870
12	Furniture and fixtures manufacturing	3890
13	Miscellaneous and not specified manufacturing	3960-3990
14	Food manufacturing	1070-1290
15	Beverage and tobacco product manufacturing	1370, 1390
16	Textile, apparel, and leather manufacturing	1470-1790
17	Paper manufacturing and printing	1870-1990
18	Petroleum and coal products manufacturing	2070, 2090
19	Chemical manufacturing	2170-2290
20	Plastics and rubber products manufacturing	2370-2390
21	Wholesale trade	4070-4590
22	Retail trade	4670-5790
23	Transportation and warehousing	6070-6390
24	Utilities	0570-0690
25	Publishing industries (except internet)	6470-6490
26	Motion picture and sound recording industries	6570, 6590
27	Broadcasting (except internet)	6670
28	Internet publishing and broadcasting	6672
29	Telecommunications	6680, 6690
30	Internet service providers and data processing services	6695
31	Other information services	6770, 6780
32	Finance	6870-6970
33	Insurance	6990
34	Real estate	7070
35	Rental and leasing services	7080-7190
36	Professional, scientific, and technical services	7270-7490
37	Management of companies and enterprises	7570
38	Administrative and support services	7580-7780
39	Waste management and remediation services	7790
40	Educational services	7860-7890

Detailed Industry Code	Description	Census Industry Code
41	Hospitals	8190
42	Health care services, except hospitals	7970-8180, 8270, 8290
43	Social assistance	8370-8470
44	Arts, entertainment, and recreation	8560-8590
45	Traveler accommodation	8660, 8670
46	Food services and drinking places	8680, 8690
47	Repair and maintenance	8770-8890
48	Personal and laundry services	8970-9090
49	Membership associations and organizations	9160-9190
50	Private households	9290
51	Public administration	9370-9590
52	Armed Forces	9890
