

Parent-Teen Activity Series

Tip of the Month

If your family is facing a relocation, being prepared can provide a certain amount of stability. Figure out what can be sent ahead (if going overseas) and what must be kept with you as you travel. Get a "Welcome Packet" and find a sponsor for you and your teens. Find out about the duty station, surrounding community, and schools before you arrive. Ask insiders for the "scoop" so you'll know what to expect. Be cautious about these perspectives and keep an open mind in order to make this experience as positive as possible.
