

AUTHORIZATION AND CONSENT (Dec 2005)

(a) The Government authorizes and consents to all use and manufacture of any invention described in and covered by a United States patent in the performance of this subcontract.

(b) The Seller agrees to include, and require inclusion of, the following, suitably modified to identify the parties, in all subcontracts at any tier expected to exceed \$100,000:

(1) FAR 52.227-1, without Alternate 1, in subcontracts for supplies or services (including construction, architect-engineer services, and materials, supplies, models, samples, and design or testing services).

(2) FAR 52.227-1, Alternate 1, in research and development subcontracts (including those for construction and architect-engineer services calling exclusively for research and development work or exclusively for experimental work), unless both complete performance and delivery are outside the United States, its possessions, and Puerto Rico.

(c) Omission of an authorization and consent clause from any subcontract, including those valued at or below \$100,000, does not affect this authorization and consent.
