

About the GSA Vendor and Customer Self Service (VCSS) web site

This guide is designed to be an introduction to key VCSS features and benefits.

As part of a larger effort to modernize our financial management, GSA has created the Vendor and Customer Self Service web site (VCSS) for billing and collections. This brochure will give you an introduction to selected features of VCSS and a quick look at what you can do on this new web site.

What you can do with VCSS

The VCSS web site will provide GSA customers like you with online access to your GSA billing and accounts receivable data, as well as let you correspond with us about your statements and payments.

VCSS has many benefits for both you and us, including:

- Improving the speed, efficiency and management of your accounts payable process by giving you access to timely and accurate information
- Improving your account security and access control
- Reducing our environmental impact by using less paper
- Furthering the goals of both the Open Government Directive and government-wide efforts to standardize financial management

To access VCSS, go to <http://vcss.gsa.gov>

In the examples that follow, we've selected four screenshots from the VCSS web site that highlight some of its key functions:

- Access the main sections of VCSS
- View account information
- View and print statements
- Correspond with GSA

Step-by-step instructions on how to use these features, as well as the many others that are available on VCSS, can be found on the web site.

Access the main sections of VCSS

The home page shows a summary of your outstanding balances and provides links to key sections of VCSS.

The screenshot shows the GSA Vendor and Customer Self Service (VCSS) interface. At the top, there are navigation links for Home, Notices, Personal Information, Preferences, Site Map, Help, and About. Below this is a welcome message for Lora Reid dated August 15, 2011, with links for Sign Out and Contact Us. The main navigation bar includes Accounts, Statements, Payments, Correspondence, External Applications, and Bookmarks. The breadcrumb trail shows VCSS > Accounts > Account Summary.

The "Account Summary" section features a search criteria form. A red circle with the number 5 highlights the search criteria fields, which include:

If you were already registered in WebBill, we've automatically registered you for VCSS. You already should have received a new User ID and password by email.

If you weren't already registered in WebBill when VCSS was launched, you can register as a new user. Go to <http://vcss.gsa.gov> and select the account registration option.

Once you've received your User ID and password, you can confirm which accounts you are already registered to access through VCSS by going to the accounts section of the VCSS web site. You can also request access to additional accounts through VCSS—your request will be automatically sent to the appropriate Account Administrator for approval.
