

Appendix 1. Preliminary compilation of MPA-CRs in the U.S. and F.A.S., subject to review and comment by the appropriate management authorities. Coastal MPAs without submerged lands and seasonal closures are not included in this table. “No-take” is defined as complete protection from harvest, with no extraction allowed within the boundaries of the MPA. Please see the footnotes at the end of the chart for details on column heading definitions.

	<u>Management Agency</u>	<u>Estimate of Coral Reef Habitat (acres)</u>	<u>Marine Area (acres)</u>	<u>Terrestrial Area (acres)</u>	<u>Total Area (acres)</u>	<u>Year of Designation</u>	<u>Approximate Percent of Marine Area No-Take</u>		<u>Number of On-site Staff in the MPA</u>
							<u>Designated</u>	<u>Effective</u>
