

Navy Voting Assistance Program

The U.S. Navy's Voting Assistance Program consists of providing voting and enfranchisement assistance to all the Navy sailors, Department of the Navy employee's and their families around the world. The Voting program ensures that all Navy personnel receive timely and accurate information regarding state and federal elections through all communications means available. The support structure, which is consistently changing, consists of 16 regional commanders who provide election materials and information to 97 installations, which then filters the information throughout the Navy. Due to the overall importance of the right for all department of Navy personnel and their families to register and vote, the Secretary of Defense has mandated all service members and their families have access to election information and materials 24-hours a day, 7-days a week, 365-days of the year. The Navy has provided hotlines via various communications means to include: telephone, electronic mail, internet and postal mail. The Navy Voting Program has a commitment to the democratic process for all its sailors serving locally and abroad.

Navy Voting Assistance Program Action Officer

Voting Assistance Officer Training is now available online on the NKO Homepage under "References"
