For processing Federal Employee Compensation Act claims seeking monetary, medical, and similar benefits for injuries or deaths sustained by civilian employees while performing assigned duties. Data is collected for incident notification to safety personnel responsible for Occupational Safety and Health Act (OSHA) recording. Safety claim records are used to support DoD management responsibilities under the applicable regulations and to obtain appropriate injury compensation benefits for qualifying employees or their dependents.

Records are maintained for the purpose of auditing the State itemized listings of Unemployment Compensation charges, identifying erroneous charges and requesting credits from the State Employment Security Agencies (SESAs), and tracking the charges to ensure that credits are received from the appropriate State jurisdictions.

Individual's name, Social Security Number (SSN), date of birth, component, occupation, assignment and duty location information, wages, benefits, entitlement data necessary to injury or unemployment claim management, Department of Labor/Office of Workers' Compensation Programs (DOL/OWCP) Claim data, authorization for medical care, related DoD personnel records such as timekeeping and payroll data, reports descriptive of the incident and extent of injury for use in DOL/OWCP adjudication of the claim, initial notification to agency Safety personnel for Occupational Safety and Health Act (OSHA) reporting purposes and reports related to payment of benefits through SESA offices.

(2) Briefly describe the privacy risks associated with the PII collected and how these risks are addressed to safeguard privacy.

Records are maintained in a controlled facility. Physical entry is restricted by the use of locks and is accessible only to authorized personnel. Access to records is limited to person(s) responsible for servicing the record in performance of their official duties and who are properly screened and cleared for a need-to-know. Access to computerized data is restricted by strong passwords, which are changed every 60 days according to agency security policy.

Electronic Data Interchange (EDI) data transfer between DOL and CPMS is sent/received in a secured X12 format and transferred using a CDFTP (provided to CPMS by DOL). DOL Weekly, Monthly and Quarterly data is accessed through DOL's server using a username/password. This server is accessed using a CDFTP (provided to CPMS by DOL).
