

# TANK FIRE INFORMATION

Uinta-Wasatch-Cache National Forest

Date: September 21, 2012

Fire Name: Tank

Cause: Lightning (started September 2, 2012)

Location: Swinging Bridge Canyon and the head of Tank Canyon

Acreage: 50 acres of sparse, dense vegetation

Terrain: Very steep and rugged; firefighter access is extremely difficult and hazardous

Resources: Fire is being monitored daily by Forest Service personnel; one squad and one engine

Fire Behavior: Creeping, smoldering, smoke visible; due to current weather conditions, fire growth and smoke has been minimal

Strategy: Continue to monitor daily

Impacts to public: no threat to structures/trails/resources in the area; no closures in effect
