E **Digital Audio Recording Project**

Digital audio recordings are now available to the public via internet access to the PACER system. In March 2010, the Judicial Conference approved the plan to make digital audio recordings available on PACER after a two-year pilot project showed significant public interest in accessing these files. The new digital files cost \$2.40.

The presiding judge determines if the audio recording will be posted on PACER. Digital audio recording is used in most bankruptcy and many district courts (where magistrate judges account for most of the usage).

The following seven courts provide access to audio files through the PACER system: the U.S. District Courts in Nebraska and the Eastern District of Pennsylvania; the U.S. Bankruptcy Courts in the Eastern District of North Carolina, Northern District of Alabama, Southern District of New York, Rhode Island and Maine.
