## CHAPTER 1 INTRODUCTION

This is the 78th annual report of the U.S. International Trade Commission on domestic production and sales of synthetic organic chemicals and the raw materials from which they are made. The report, along with the quarterly report titled *Preliminary Report on U.S. Production of Selected Synthetic Organic Chemicals (Including Synthetic Plastics and Resin Materials)*, is prepared under investigation No. 332-135, Synthetic Organic Chemicals Reports. This investigation is conducted under the authority of section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1322(g)), for the purpose of collecting data and preparing public reports on synthetic organic chemicals, plastics materials, medicinal chemicals, pesticides, and other organic chemical products. The annual report presents data aggregated in the format of the *Harmonized Tariff Schedule of the United States (HTS)* on an 8-digit HTS basis. Data have been supplied by approximately 616 producers. Primary manufacturers of reported products are identified by manufacturers' names and/or divisions.

Data contained in this report are compiled primarily from Commission questionnaires sent to domestic producers and represent the best data available to the Commission. The data include the total output of each company's plants, i.e., the quantities produced for consumption within the producing plant, as well as the quantities produced for domestic and foreign sale. The quantities reported as produced, therefore, generally exceed the quantities reported as sold. Some of these differences, however, are attributable to changes in inventory. While the data supplied in the questionnaires are checked against data previously supplied by the submitting firm and with data supplied by other domestic producers, data are not independently verified by direct Commission examination of the books of companies furnishing information. Data contained in this report should not be used for investment and other purposes without independent verification.

Three summary tables are provided to provide comparability to data published in previous years. Table 2-1 presents data aggregated by product use. Tables 2-2 and 2-3 provide data in a more detailed format for dyes and for synthetic organic pigments.

Statistics on products and groups of products are provided in as great detail in table 3-1 as is possible without revealing the operations of individual producers. Statistics for an individual chemical or

group of chemicals are given only when there are three or more producers, no one or two of which may be predominant. Moreover, even when there are three or more producers, statistics are not given if there is any possibility that their publication would violate the statutory provisions relating to unlawful disclosure of information accepted in confidence by the Commission.<sup>1</sup> In instances where data were not publishable, the data were recompiled at successively higher levels of aggregation to determine publishability. These levels at the item level are assigned the label "Residual Total," while at higher levels of HTS detail they are assigned the label of "HTS level residual total." Categories labeled this way have been assigned "xx" as the last two characters in the HTS classification (e.g., 222222XX, 2222XX).

Data are reported by producers for only those items where the volume of production or sales or value of sales exceeds certain minimums, as specified in the questionnaires. Data are usually supplied in terms of undiluted materials; however, for reporting purposes, products of 95 percent or greater purity are considered to be 100 percent pure. Commercial concentrations are applicable for dyes, certain plastics and resins, and a few solvents; such concentrations are specifically noted.

Appendix A is a directory, alphabetized by the names of the manufacturers reporting in all sections and which includes their general corporate phone numbers and office addresses.

Appendix B is an alphabetical index of all the products in this edition of the report with corresponding HTS classifications. The HTS classifications presented in the report are not intended to be, and will not be, binding upon the U.S. Customs Service and should not be considered as formal or informal rulings or advice.

Appendix C is a listing of the analysts assigned to individual HTS classifications. Not all of the analysts listed were involved in the preparation of the report. The telephone numbers of those that were involved are listed at the end of the analyst assignment listing.

As specified in the reporting instructions sent to manufacturers, production and sales (unless otherwise specified) are defined as follows:

**"PRODUCTION** is the total quantity of a commodity made available by **ORIGINAL**

<sup>1</sup> 18 U.S.C. § 1905 and 44 U.S.C. § 3508.

**MANUFACTURERS ONLY** within the customs territory of the United States (includes the 50 states, the District of Columbia, and Puerto Rico). It covers synthetic organic chemicals, specified crudes from petroleum and coal tar, and certain chemically described natural products, such as, alkaloids, enzymes, and perfume isolates. It is the sum--expressed in terms of 100% active ingredient unless otherwise specified in the reporting instructions--of the quantities:

Produced, separated, and consumed in the same plant or establishment. A Commodity is considered separated either when it is isolated from the reactive system or when it is not isolated, but weighed, analyzed, or otherwise measured. This includes by-products and co-products that are not classifiable as waste materials;

Produced and not isolated, but directly converted to a finished or semifinished item not included in this report (e.g., polyester film, polyurethane tires, nylon fiber, bar soap, etc.). (See specific instructions in individual sections);

Produced and transferred to other plants or establishments of the same firm or 100% owned subsidiaries or affiliates;

Produced and sold to, or bartered with, other firms (including less than 100% owned subsidiaries);

Produced *for others* under toll agreements (see general instructions);  
Produced and held in stock.

**PRODUCTION EXCLUDES:**

Purification of a commodity, which is purchased by, or transferred from within, the company, unless inclusion of such processing is specifically requested in the reporting instructions for individual sections;

Intermediate products which are formed in the manufacturing process, but are not isolated from the reaction system--that is, not weighed, analyzed, or otherwise measured; except such products as described above as being produced and not isolated, but directly converted to a finished or semifinished item. Materials that are used in the process but which are recovered for re-use or sale; Waste products having no economic significance.

**SALES** are actual quantities of commodities sold by **ORIGINAL MANUFACTURERS ONLY**. Sales include the quantity and value of:

Shipments of a commodity for domestic use or for export, or segregation in a warehouse when title has passed to the purchaser in a bona fide sale;

Shipments of a commodity produced for you *by others* under toll agreement;

Shipments to subsidiary or affiliated companies, provided the ownership is less than 100%.

**SALES EXCLUDE:**

All intra-company transfers within a corporate entity;

All shipments to 100% owned subsidiary or affiliated companies;

All resales of imported or purchased material, including materials obtained by barter;

All shipments of commodity produced *for others* under toll agreements.

**VALUE OF SALES** is the net dollar receipts of sales f.o.b. plant or warehouse, or delivered. F.o.b. values are preferred, but if they are not readily available from your records, delivered values are acceptable."

Chemical Name	HTS <sup>1</sup> No.
Chloropropyltrimethoxysilane	29310050
3-Chloropropyl-2,5-xylyl ether	29095045
2-Chloropyridine	29333950
2-(6-Chloro-2-quinoxalinyloxy phenoxy propionyl acid ethyl ester (Quizalofod ethyl)	29334030
Chlorosulfonated polyethylene (CSM) type	39019010
Chlorothiazide	29342035
$\alpha$ -Chlorotoluene (Benzyl chloride)	29036920
3-Chloro-p-toluidine [NH <sub>2</sub> = 1]	29214360
2-Chloro-6-(trichloromethyl)pyridine	29333925
1-Chloro-2,2,2-trifluoroethyl difluoromethyl ether	29091910
Chlorotrifluoroethylene (Trifluorovinyl chloride)	29034000
2-Chloro-1,1,2-trifluoroethyl methyl ether	29091910
Chlorotrifluoromethane (F-13)	29034000
2-Chloro-N-[[[4-(trifluoromethoxy)phenyl]amino]carbonyl]benzamide	29242919
5-[2-Chloro-4-(trifluoromethyl)phenoxy]-2-introbenzoic acid, sodium salt	29189020
Chlorotrimethylsilane	29310050
Chlorpheniramine maleate	29333937
Chlorpheniramine tannate	29333937
Chlorpromazine hydrochloride	29343004
Chlorpropamide	29379980
Cholecalciferol (vitamin D <sub>3</sub> )	29362950

## COMMITTEE ON WAYS AND MEANS

U.S. HOUSE OF REPRESENTATIVES  
WASHINGTON, DC 20515-6348

PHILLIP D. MOSELEY, CHIEF OF STAFF

JANICE MAYS, MINORITY CHIEF COUNSEL

October 17, 1995

The Honorable Peter Watson  
Chairman  
U.S. International Trade Commission  
500 E Street, S.W.  
Washington, D.C. 20436

Dear Mr. Chairman:

This letter is in regard to two reports prepared by the International Trade Commission (ITC) in response to requests by the Committee on Ways and Means, pursuant to section 332 of the Tariff Act of 1930. The purpose of this letter is to advise you of changes in the reporting requirements for: (1) Synthetic Organic Chemicals (332-135); and, (2) U.S. Auto Industry: Monthly (332-207).

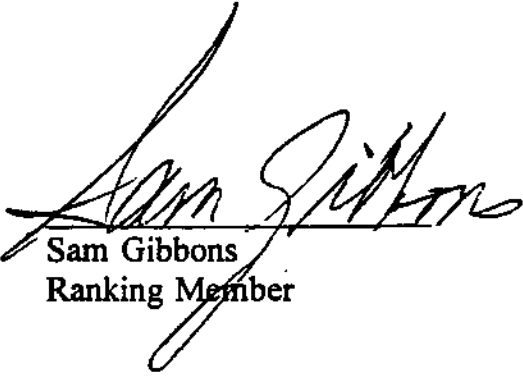

On April 27, 1988, the Committee on Ways and Means requested the ITC to prepare and publish a report on synthetic organic chemicals (SAC), including chemical production and sales data. These reports are published quarterly and annually. This request did not include a sunset date. It is the view of this Committee that publication of these reports by the ITC is neither cost-effective nor essential to ensuring the competitiveness of U.S. industry. The Committee requests that the ITC terminate publication of the quarterly and annual SAC reports by October 1, 1996. This should provide ample time for users to identify and develop alternative sources for this information.

On February 12, 1985, the Committee on Ways and Means requested the ITC to prepare monthly reports monitoring the rising import share of the U.S. market for automobiles. This request did not include a sunset date. In an effort to improve the cost-effectiveness of this report, the Committee requests that the ITC change its publication schedule from monthly to quarterly reports, effective the date of this letter.

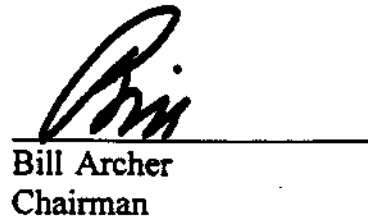

In addition, by January 1996 the ITC should move to annual publication and, finally, termination of the report by January 1998. As with the SAC reports, this schedule for termination provides ample time for users to identify and develop alternative sources for this information.

The ITC should notify all parties currently receiving these reports of these changes. The ITC should also provide both the Committee on Ways and Means and the Committee on Finance with its calculation of expected net savings from these changes.

Sincerely,

Sam Gibbons  
Ranking Member

Bill Archer  
Chairman

## **APPENDIX E**

### **THE COMMISSION'S NOTICE OF PHASEOUT OF REPORT SERIES AND TERMINATION OF INVESTIGATION**

4,740,775. The complaint further alleges that there exists an industry in the United States as required by subsection (a)(2) of section 337.

The complainant requests that the Commission institute an investigation and, after a hearing, issue a permanent exclusion order and permanent cease and desist orders.

**ADDRESSES:** The complaint, except for any confidential information contained therein, is available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street, S.W., Room 112, Washington, D.C. 20436, telephone 202-205-1802. Hearing-impaired individuals are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on 202-205-1810.

**FOR FURTHER INFORMATION CONTACT:** Mary Jane Boswell, Esq., Office of Unfair Import Investigations, U.S. International Trade Commission, telephone 202-205-2582.

**Authority:** The authority for institution of this investigation is contained in section 337 of the Tariff Act of 1930, as amended, and in section 210.10 of the Commission's Rules of Practice and Procedure, 19 CFR 210.10.

**SCOPE OF INVESTIGATION:** Having considered the complaint, the U.S. International Trade Commission, on November 20, 1995, ORDERED THAT—

(1) Pursuant to subsection (b) of section 337 of the Tariff Act of 1930, as amended, an investigation be instituted to determine whether there is a violation of subsection (a)(1)(B) of section 337 in the importation into the United States, the sale for importation, or the sale within the United States after importation of certain starter kill vehicle security systems by reason of infringement of claims 7 or 8 of U.S. Letters Patent 4,740,775, and whether there exists an industry in the United States as required by subsection (a)(2) of section 337.

(2) For the purpose of the investigation so instituted, the following are hereby named as parties upon which this notice of investigation shall be served:

(a) The complainant is—Code-Alarm, Inc., 950 East Whitcomb, Madison Heights, Michigan 48071-6408.

(b) The respondents are the following companies alleged to be in violation of section 337, and are the parties upon which the complaint is to be served: Directed Electronics, Inc., 2560 Progress Drive, Vista, California 92083; Nutek Company, 150 Muhhsin Road, Section 3, Taipei, Taiwan

(c) Mary Jane Boswell, Esq., Office of Unfair Import Investigations, U.S. International Trade Commission, 500 E Street, S.W., Room 401-I, Washington, DC 20436, who shall be the Commission investigative attorney, party to this investigation; and

(3) For the investigation so instituted, the Honorable Paul J. Luckern is designated as the presiding administrative law judge.

Responses to the complaint and the notice of investigation must be submitted by the named respondents in accordance with section 210.13 of the Commission's Rules of Practice and Procedure, 19 CFR § 210.13. Pursuant to section 201.16(d) and 210.13(a) of the Commission's Rules, 19 CFR §§ 201.16(d) and 210.13(a), such responses will be considered by the Commission if received not later than 20 days after the date of service of the complaint. Extensions of time for submitting responses to the complaint will not be granted unless good cause therefor is shown.

Failure of a respondent to file a timely response to each allegation in the complaint and in this notice may be deemed to constitute a waiver of the right to appear and contest the allegations of the complaint and this notice, and to authorize the administrative law judge and the Commission, without further notice to the respondent, to find the facts to be as alleged in the complaint and this notice and to enter both an initial determination and a final determination containing such findings, and may result in the issuance of a limited exclusion order or a cease and desist order or both directed against such respondent.

Issued: November 21, 1995.

By order of the Commission.

Donna R. Koehnke,  
Secretary.

#### [Investigation 332-135]

#### Synthetic Organic Chemicals (SOC) Reports

**AGENCY:** International Trade Commission.

**ACTION:** Phaseout of report series and termination of investigation.

**EFFECTIVE DATE:** November 14, 1995.

**SUMMARY:** The Commission has published both the annual and the quarterly reports on synthetic organic chemicals (SOC) on an annual basis since 1917 (the one exception being

1931). Beginning in 1982, the annual and quarterly data were collected and published through self-initiated investigation No. 332-135 under the authority of section 332(b) of the Tariff Act of 1930. Effective May 13, 1988, that authority was changed to section 332(g) at the request of the House Committee on Ways and Means. Notice of this action was published in the Federal Register of May 25, 1988 (53 FR 18912).

By letter of October 17, 1995, the Committee on Ways and Means requested that the Commission terminate publication of the quarterly and annual SOC Reports by October 1, 1996. Accordingly, the Commission will publish a final annual report in 1995 and quarterly reports covering all quarters through June 1996. The Commission will terminate the investigation effective October 1, 1996.

**FOR FURTHER INFORMATION CONTACT:** Information may be obtained from Ms. Elizabeth Nesbitt (202-205-3355), Energy, Chemicals, and Textiles Division, Office of Industries, or from Mr. William Gearhart, Office of the General Counsel (202-205-3091). The media should contact Ms. Margaret O'Laughlin, Office of Public Affairs (202-205-1819). Hearing impaired individuals are advised that information on this matter can be obtained by contacting the TDD terminal on (202-205-1810).

By order of the Commission.

Issued: November 20, 1995.

#### [Investigation 332-207]

#### The U.S. Automobile Industry Monthly Report on Selected Economic Indicators

**AGENCY:** International Trade Commission.

**ACTION:** Phaseout of report series and termination of investigation.

**SUMMARY:** In December 1980, the House Committee on Ways and Means requested that the Commission provide it with monthly data on U.S. automobile imports, sales, production, and prices. In December 1980, the Commission instituted Investigation No. 332-121, U.S. Automobile Industry Monthly Report on Selected Economic Indicators. The request by the Committee for monthly data on the automobile industry was renewed four times during 1981-85, with the final request in 1985 having no fixed date for termination.

## Other Recent USITC Publications

***The Year In Trade 1994*** (USITC Publication 2894, July 1995). PRINTED COPIES MUST BE PURCHASED FROM GPO. One of the government's most comprehensive reviews of U.S. trade-related activities, covering major multilateral, regional and bilateral developments during the year. This year's edition provides a practical guide to recent changes in U.S. international trade laws resulting from the implementation of the Uruguay Round Agreements, a progress report on the formal establishment of the World Trade Organization (WTO), and a review of continuing negotiations in services. It also examines three important regional trade developments -- the North American Free-Trade Agreement's first year of operation, the meeting of Asia-Pacific Economic Cooperation leaders, and the Summit of the Americas. (To order from GPO, indicate stock number 049-000-00069-3 and send your check for \$15.00 (\$18.75 foreign) per copy or provide your VISA or MasterCard number and expiration date to: Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954 (FAX to 202-512-2250).) (Also available on the ITC Internet server; see address below.)

***Impact of the Caribbean Basin Economic Recovery Act on U.S. Industries and Consumers, Tenth Report, 1994*** (Inv. 332-227, USITC Publication 2927, September 1995). PRINTED COPIES MUST BE PURCHASED FROM GPO. This annual publication highlights developments under the Caribbean Basin Economic Recovery Act (CBERA), which lowers duties for most products imported from designated Caribbean countries. The report is the primary government source of data on U.S. trade with the Caribbean and Central American region, providing product-by-product import data, identifying U.S. industries likely to face import competition from Caribbean suppliers, and analyzing investment in the region as an indicator of future trade flows. (To order from GPO, indicate stock number 049-000-00078-2 and send your check for \$4.00 (\$5.00 foreign) or provide your VISA or MasterCard number and expiration date to: Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954 (FAX to 202-512-2250).)

***Production Sharing: Use of U.S. Components and Materials in Foreign Assembly Operations, 1990-1993*** (Inv. 332-237, USITC Publication 2886, May 1995). PRINTED COPIES MUST BE PURCHASED FROM GPO. This report, updated each year, assesses by industry sector the products and countries that make use of the production sharing provisions of the Harmonized Tariff Schedule of the United States, which provide reduced tariff treatment for eligible goods that are processed in foreign locations but contain U.S.-made components. This year's report also compares production sharing in the Caribbean with assembly operations in Mexico and in selected East Asian countries. (To order from GPO, indicate stock number 049-000-00073-1 and send your check for \$8.50 (\$10.63 foreign) per copy or provide your VISA or MasterCard number and expiration date to: Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954 (FAX to 202-512-2250).) (Also available on the ITC Internet server; see address below.)

***U.S. Imports of Textiles and Apparel Under the Multifiber Arrangement: Annual Report for 1994*** (Inv. 332-343, USITC Publication 2884, April 1995). This report is the third of three annual reports on U.S. imports of textiles and apparel under the Multifiber Arrangement (MFA). The MFA is a multilateral agreement which provides a general framework and guiding principles for the negotiation of bilateral agreements between textile importing and exporting countries, or for unilateral action by an importing country if an agreement cannot be reached. The United States maintains quotas on MFA goods from some 40 countries that supply almost 80 percent of the import volume of such products.

***Annual Report on the Impact of the Andean Trade Preference Act on U.S. Industries and Consumers and on Drug Crop Eradication and Crop Substitution*** (Inv. 332-352, USITC Publication 2926, September 1995). PRINTED COPIES MUST BE PURCHASED FROM GPO. The Andean Trade Preference Act was signed into law in December 1991 as part of the United States' "war on drugs" to promote broad-based economic development, stimulate investment in nontraditional industries, and diversify the export base of the four countries in the Andean mountain region of South America -- Bolivia, Colombia, Ecuador, and Peru -- that cultivate the coca plants from which most of the world's cocaine is produced. ATPA reduces or eliminates tariffs for over 6,000 Andean products. This is the ITC's second annual report in this series. (To order from GPO, indicate stock number 049-000-00079-1 and send your check for \$4.50 (\$5.63 foreign) or provide your VISA or MasterCard number and expiration date to: Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954 (FAX to 202-512-2250).)
