**Lesson Title:** Resilience Training for Basic Combat Training (Red Phase)

**Action Text:** Apply an evidence-based approach to optimizing resilience and mental fitness to achieve the goal of being successful during BCT (Red Phase) training

**Condition:**

Given a group of Warriors in a Basic Combat Training (Red Phase) environment

**Standard:**

Applying an evidence-based approach to optimizing resilience and mental fitness will consist of:

1. Discussion of resilience, teamwork, buddy aid, and our initial reactions to situations and events
2. Identification of techniques to "check and adjust" initial reactions and energy management to ensure optimal performance

**Remarks:** SRT for Basic Combat Training (Red Phase) is the building block for all Comprehensive Military Resilience Training (CMRT) and was designed as core competency for Basic Combat Training (BCT) and One-Station Unit Training (OSUT). This training module provides a foundation for resilience concepts and skills. First, the training identifies the importance of mental fitness and teamwork. Second, the training reviews the need to distinguish between factors that can and cannot be controlled. Third, the training focuses on identifying different types of initial reactions and how those reactions can be adjusted. Throughout this two-hour module, specific examples and scenarios for emphasizing how Warriors take care of themselves and their battle buddies is provided.

**Lesson Title:** Resilience Training for Basic Combat Training (Red Phase)

**Action** Apply an evidence-based approach to optimizing resilience and mental fitness to achieve the goal of being successful during BCT (Red Phase) training

**Text:**

**Condition:**

Given a group of Warriors in a Basic Combat Training (Red Phase) environment

**Standard:**

Applying an evidence-based approach to optimizing resilience and mental fitness will consist of:

1. Discussion of resilience, teamwork, buddy aid, and our initial reactions to situations and events
2. Identification of techniques to "check and adjust" initial reactions and energy management to ensure optimal performance

**Remarks:** SRT for Basic Combat Training (Red Phase) is the building block for all Comprehensive Military Resilience Training (CMRT) and was designed as core competency for Basic Combat Training (BCT) and One-Station Unit Training (OSUT). This training module provides a foundation for resilience concepts and skills. First, the training identifies the importance of mental fitness and teamwork. Second, the training reviews the need to distinguish between factors that can and cannot be controlled. Third, the training focuses on identifying different types of initial reactions and how those reactions can be adjusted. Throughout this two-hour module, specific examples and scenarios for emphasizing how Warriors take care of themselves and their battle buddies is provided.
