Technical comments:⁴

The Commission staff notes that HTS heading 9902.29.22 provided a temporary duty suspension for the subject product that expired on December 31, 2006. The Commission staff suggests that heading

⁴ The Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only the U.S. Customs Service is authorized to issue a binding ruling on this matter. The Commission believes that the U.S. Customs Service should be consulted prior to enactment of the bill.

9902.29.22 be used to renew the duty suspension by deleting the date in the effective period column and inserting "12/31/2011". The Commission staff notes that heading 9902.29.22 contains the correct subheading reference, 2933.99.79, whereas the bill contains an incorrect subheading reference. In addition, the Commission staff suggests that the article description of HTS heading 9902.29.22 be modified to use the chemical name on page 1 of this report because the chemical name in HTS heading 9902.29.22 is misspelled.
