

UNITED STATES INTERNATIONAL TRADE COMMISSION
Washington, DC 20436

**MEMORANDUM ON PROPOSED TARIFF LEGISLATION
of the 110th Congress¹**

[Date approved: July 22, 2008]²

Bill No. and sponsor: H.R. 5430 (Mr. Keith Ellison of Minnesota).

Proponent name,³ location: Entegris, Inc., Billerica, MA.

Other bills on product (110th Congress only): None.

Nature of bill: Temporary duty suspension through December 31, 2011.

Retroactive effect: None.

Suggested article description(s) for enactment (including appropriate HTS subheading(s)):

Porous hollow filaments of perfluoroalkoxy (PFA) copolymer resin, the foregoing certified by the importer as having pore sizes of less than 0.05 microns and with a maximum fiber diameter of 1 mm (provided for in HTS subheading 5404.19.80).

Check one: Same as that in bill as introduced.
 Different from that in bill as introduced (see Technical comments section).

Product information, including uses/applications and source(s) of imports:

The subject hollow synthetic filaments are made from perfluoroalkoxy (PFA), a type of fluoropolymer with a low coefficient of friction and high resistance to various chemical solvents, acids, and bases. This resin is extruded through a spinneret to form long filaments, which can then be broken or cut into fibers. Fibers produced from these PFA filaments are used in the manufacture of filters for the semiconductor industry and gas exchange and ozonation products used in semiconductor manufacturing. Dutiable U.S. imports of all products classified in HTS subheading 5404.19.80 (a broader group than is covered by this bill) totaled just over \$24 million in 2007. Germany was the largest supplier of dutiable imports, with about \$9.1 million in shipments; other suppliers included Italy, Japan, China, Taiwan, and Korea. The product covered by this bill is believed to be supplied primarily by Japan.

Technical comments:⁴

The article description should be amended as shown on page 1, to be more consistent with other tariff provisions. Because criteria needed to define the product would require laboratory testing for verification, the importer certification is proposed as a way to assist Customs and Border Protection officials in administering the provision.

⁴ The Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only the U.S. Customs Service is authorized to issue a binding ruling on this matter. The Commission believes that the U.S. Customs Service should be consulted prior to enactment of the bill.
