

UNITED STATES INTERNATIONAL TRADE COMMISSION
Washington, DC 20436

**MEMORANDUM ON PROPOSED TARIFF LEGISLATION
of the 109th Congress¹**

[Date approved: August 2, 2006]²

Bill No. and sponsor: S. 2685 (Mr. Richard G. Lugar of Indiana).

Proponent name, location: SCHOTT North America, Inc., Vincennes, Indiana.

Other bills on product (109th Congress only): S. 2808.

Nature of bill: Renewal of temporary duty provision through December 31, 2009.³

Retroactive effect: None.

Suggested article description(s) for enactment (including appropriate HTS subheading(s)):

Rolled glass in sheets, yellow-green in color, not finished or edged-worked, textured on one surface, suitable for incorporation in cooking stoves, ranges, or ovens described in subheading 8516.60.40 (provided for in subheading 7003.12.00 or 7003.19.00).

Check one: Same as that in bill as introduced.⁴
 Different from that in bill as introduced (see Technical comments section).

Product information, including uses/applications and source(s) of imports:

The bill would cover rolled rectangular sheets of glass that are yellow-green in color, not finished or edge-worked, and textured on one surface. The glass composition is specifically formulated to yield a glass-ceramic material upon further heat treatment. These sheets are cut to shape and subjected to further manufacturing operations including heat treatment to produce a glass-ceramic material for cooktop applications. The glass-ceramic cooktop conceals the heating elements when not in use and facilitates cleaning of the cooktop. Glass-ceramic cooktops are used primarily in smooth-top electric ranges, but they are also used in gas appliances. The principal sources of imports provided for in subheading 7003.19.00 are France and Germany. The principal source of imports provided for in subheading 7003.12.00 is Japan.

³ Heading 9902.70.03, as originally enacted, expired on December 31, 2003.

⁴ The proposed provision's article description is identical to that of the provision the bill would delete. It would be possible to reinstate this duty suspension simply by deleting the present expiration date "On or before 12/31/03" from the heading and inserting the new one.

Estimated effect on customs revenue:

HTS subheading: 7003.12.00 OR 7003.19.00

Technical comments:⁵

Because this tariff heading is still in the HTS (though its duty treatment has expired), it is suggested that the bill could be redrafted merely to delete the present expiration date and replace it with the new one.

⁵ The Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only the U.S. Customs Service is authorized to issue a binding ruling on this matter. The Commission believes that the U.S. Customs Service should be consulted prior to enactment of the bill.
