Washington, DC 20436

**MEMORANDUM ON PROPOSED TARIFF LEGISLATION  
of the 109<sup>th</sup> Congress<sup>1</sup>**

[Date approved: August 24, 2006]<sup>2</sup>

**Bill No. and sponsor:** S. 3110 (Mr. Sam Brownback of Kansas)

**Proponent name, location:** Spirit Aerosystems, Inc., Wichita, KS.

**Other bills on product (109<sup>th</sup> Congress only):** None.<sup>3</sup>

**Nature of bill:** Temporary duty suspension through December 31, 2009.

**Retroactive effect:** None.

**Suggested article description(s) for enactment (including appropriate HTS subheading(s)):**

Seals of polyester fabric bonded over a silicone rubber core, designed for use in airplanes (currently provided for in subheading 5911.90.00).

**Check one:**      Same as that in bill as introduced.  
                   Different from that in bill as introduced (see Technical comments section).

**Product information, including uses/applications and source(s) of imports:**

These seals are specifically designed for use in airplanes and are primarily manufactured by third party contractors in the United Kingdom and Turkey. Ten pending bills cover various seals specifically designed for use in airplanes and comprising polyester fabric bonded onto a silicone core. These seals are then affixed to their applicable positions on airplane parts. The silicone core provides malleable airtight seals while the polyester fabric enhances the structural integrity of the seal and provides a barrier against dirt. Various properties would effectively be required by the phrase "designed for use in airplanes," such as that the goods be fireproof or fire resistant.

**Technical comments:**<sup>4</sup>

It is suggested that this bill and Senate bills 3097, 3098, 3099, 3100, 3101, 3102, 3103, 3104, and 3105 be combined into one bill to simplify administration of the duty suspension for related products and to reduce the cost of applying 10 different bills that differ slightly but use terms not defined elsewhere in the HTS. Moreover, the proponent is unable to provide additional technical information that could be used to develop separate article descriptions or to supply separate estimated import and revenue loss data.<sup>5</sup> The estimated revenue loss set forth in this report therefore represents the combined value for the above Senate bills.

---

<sup>4</sup> The Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only the U.S. Customs Service is authorized to issue a binding ruling on this matter. The Commission believes that the U.S. Customs Service should be consulted prior to enactment of the bill.
