

Hungary Day of Patriots and Military 21 May 2011

To our NTM-A Soldiers from Hungary,

Your many colleagues in NATO Training Mission – Afghanistan would like to send their best wishes as you and your countrymen celebrate the Day of Patriots and Military.

Just as the name of your defense forces translates to Corps of Homeland Defenders, we are grateful that you are a part of our mission to assist our Afghan partners to become the defenders of their homeland.

From the Engineering School in the Northern Region, to the Logistics School in the Capital Region and the Mi-35 advising team at Kabul Airport, your efforts are true examples of Hungary's commitment to developing an enduring Afghan National Security Force. Your country honors its military on Armed Forces Day by calling you patriots. We appreciate all that you do to bring a patriot's spirit to those with whom you serve.

On this special day we salute the Magyar Honvédség. Thanks for a job well done!

V/r -- Bill
