(4) Furnish the original of DA Form 4187, or a copy of it with the attesting certificate attached as shown in figure 9-1-5 (procedure 9-1, DA Pam 600-8) to the trial counsel.

6. Standard Installation/Division Personnel Systems. SIDPERS is a standard, automated integrated personnel system. It provides personnel data support at the corps, division, installation, brigade, battalion, and unit levels. SIDPERS is an integral part of the Army's Personnel Information System (PERSINS). Strength accounting is one of its major functions.

7. When to account for personnel. *a.* Personnel will be accounted for only from actual arrival date or specified reporting date (whichever is earlier) (unless the exception in *b*(2) below applies) to actual departure date (if *b*(3) below applies) or date of separation, date dropped from the rolls, date dropped from strength, or date of death.

b. Report gains and losses to SIDPERS as follows:

(1) *Accessions and separations.* Effective on the actual date of accession or separation.

(2) *Arrivals.* Effective on the actual date the service member arrives. As an exception, officials at separation transfer points will submit personnel arrivals on the reporting date (stated in the orders directing assignment to the separation transfer point). This procedure applies even though the service member preprocessed for separation before taking separation leave. Dates for reporting to the separation transfer point will be as stated in DA Pam 600-8-11, table 2-1-2. If separation leave is taken, it may be canceled only if one of the following conditions is met:

(*a.*) The member returns to the unit of assignment that granted the leave.

(*b.*) The member reports to a military organization for permissive travel to return to the unit of assignment. Travel will be at the member's own expense.

(3) *Departures.* Effective on the actual date the soldier leaves. This applies even when departure precedes separation leave if he or she is being

reassigned to a separation transfer point for separation. Also, the soldier will be reported as departed in transit (DA Pam 600-8-1, procedure 2-11) to the separation transfer point. The reassignment for separation processing order will include the reporting data. (Leave and travel are transient time.) The reporting date on the orders is for strength accounting. Actual processing will be done at the separation transfer point before departing on separation (terminal) leave. If the soldier is being separated through a military personnel office (MILPO) and is taking separation leave, the soldier will be kept on the rolls of his or her last permanent unit until the date of separation.

(4) *Assigned-not-joined.* Soldiers will be reported assigned-not-joined on the reporting date (for oversea assignment, 9 days after the availability date stated in the reassignment order) if he or she fails to report. (Soldiers remain in transient status.)

8. Accountability of non-Army personnel. *a.* When assigned or attached by Army orders to an organization of the Active Army, the following personnel will be accounted for under SIDPERS:

(1) US Navy, Marine Corps, Air Force, and Coast Guard personnel.

(2) Commissioned officers of the US Public Health Service and the National Oceanic and Atmospheric Administration.

~~*b.* Members of the ARNG or USAR will be accounted for as attached when ordered to one of the following:~~

(1) Initial active duty for training (IADT) (under the Special Reserve Components Program (SRCP)).

(2) Active duty for training (ADT) (30 days or more).

(3) Active duty support (ADS).

(4) Active Guard or Reserve status.

9. The Central Transient Accounting System. *a.* The Central Transient Accounting System (CTAS) will account for transient personnel. The CTAS covers departure from one unit to arrival or specified reporting date at the gaining unit. Losing commanders will report changes in the soldier's status (e.g. deletions, diversions, and defer-

SK-1-20-Apr-83
current
SS

ments) to gaining commanders. In case of a deferment, the losing commander will notify the gaining commander of the soldier's new reporting date.

b. Transients are military personnel who are in travel, proceed, leave en route, or temporary duty (TDY) en route status while executing permanent change of station (PCS) orders.

c. Transients do not include military members who are—

(1) TDY for training en route on a PCS. (Such personnel are counted as students.)

(2) Moving to or between initial entry courses of instruction (counted as trainees). (Members traveling from the last initial entry course to the first duty station will be counted as transients.)

(3) Taking part in an organized unit move while under continuous control of the unit commander (counted as operating strength).

10. Active Army Military Manpower Accounting. a. *Total Strength.*

Active duty military personnel will be counted and reported as part of Active Army strength beginning on the date of their enlistment, their reporting to active duty, or their return to military control. They will continue to be counted until separation, release from active duty, retirement, death, or loss from military control. Personnel will be counted as gains to active military strength on the effective date of the gain action. They will be dropped from military strength on the effective date of the loss action. Comparable effective date procedures will be followed for changes in status within military strength, such as transfers between operating strength and "Individuals" (c below) accounts.

b. *Operating Strength.* The total strength of personnel assigned to tables of organization and equipment (TOE) or tables of distribution and allowances (TDA) units. Encompasses all personnel except "Individuals" and is called "force structure strength" by DOD.

c. *Individuals Accounts Strength.* All personnel counted as trainees, transients, holdees, students, and USMA cadets.

11. Nonaccountable personnel. a. The following

personnel will not be accessed to the Active Army strength:

(1) Members of the US Navy, Marine Corps, Air Force, Coast Guard.

(2) Commissioned officers of the US Public Health Service and the National Oceanographic and Atmospheric Administration attached by Army orders for duty with an organization of the Active Army.

(3) Members of USAR and ARNG ordered to IADT (under the SRCP), ADT, ADS, or Active Duty Guard/Reserve.

b. Active duty military personnel excluded from military strength may be entitled to pay and benefits as military members. Exclusion from military strength reporting does not, by itself, affect the status as an active duty member.

c. Although nonaccountable personnel (a above) are not accessed to the Active Army strength, a DA Form 2475-2 (Personnel Data—SIDPERS) must be kept for each when on duty with the Active Army (DA Pam 600-8-1, procedure 5-1). A DA Form 4187 must also be completed (DA Pam 600-8, procedure 9-1). (DA Form 4187 will not be prepared for foreign personnel.)

12. Attached personnel. Persons being attached for duty or training must meet one of the following conditions:

a. Duty or training for 30 days or more at a unit serviced by another SIDPERS Interface Branch (SIB).

Training at an Army service school
~~b. Duty or training at an Army service school.~~
(regardless of length of period).

c. Duty at an organization (regardless of length of period) to which the attached persons are serviced by the same SIB as their unit of assignment.

d. Duty at an installation while initiating action for a compassionate reassignment, hardship discharge, diversion, health problems, lost records, orders, baggage, or seeking treatment for drug or alcohol abuse. (The person will be attached until the case has been resolved.)

e. Duty as members of the USAR and ARNG ordered to IADT under the SRCP ADT, ADS, or Active Duty Guard/Reserve status.

13. Types of strength changes. *a. Accessions.* Any accession officially increases the overall strength of the Active Army. Accessions will be reported when persons first become members of the Active Army. Accessions are also required when a person changes military personnel class (e.g. on release from active duty as an enlisted member and immediate entry into active duty as a warrant officer).

b. Separations. A separation officially decreases the overall accountable strength, by status, of the Active Army. Separations result when a member is released from active duty, is discharged, retires, is dismissed, resigns, is dropped from the rolls, is dropped from strength, or dies.

c. Immediate reenlistment. An immediate reenlistment is a simultaneous separation and accession to the Active Army.

d. Dropped from the rolls of an organization. When a person is dropped from the rolls, the overall accountable strength of the organization is officially decreased. A person will be dropped from the rolls of an organization as stated in AR 630-10, paragraph 3-2.

e. Arrivals. All arrivals officially increase the overall accountable strength of the organization. Arrivals will be reported effective as of the date the person arrives at the organization. (See exception in para 7b(2).)

f. Departures. Departures officially decrease the overall accountable strength of the organization. Departures will be reported effective as of the date the person departs the organization for assignment to another organization.

g. Assigned-not-joined. A person in an assigned-not-joined status causes an official increase in the in transit incoming strength of an organization. A person will be reported as assigned-not-joined effective on the reporting date. If the person fails to arrive on or before the reporting date, he or she will be reported as assigned-not-joined 9 days after the availability date for oversea assignment.

h. Deaths. Deceased personnel cause an official decrease in the overall accountable strength of the organization. Deaths will be reported at the organization level effective the date of death.

i. Dropped from strength. A prisoner sentenced to confinement in a domestic, civil, or foreign penal institution (or detained in a foreign country) for 6 months or more will be dropped from military strength when his or her sentence begins. Personnel sentenced to confinement with a bad conduct or a dishonorable discharge will be dropped from military strength upon approval of discharge by the convening authority, even though the person remains in military confinement or on appellate leave without pay.

j. Prisoners. A prisoner is a service member who has been convicted by military or civilian court, without bad conduct or a dishonorable discharge, and sentenced to confinement from 30 days to less than 6 months.

k. Prisoners of war. Prisoners of war and missing personnel will be dropped from the rolls on the date their status is officially declared.

l. Patients. Service members will be reassigned to a medical holding detachment and counted as "Individual" strength in applicable manpower reports only in the following cases:—

(1) When being hospitalized exceeds or is expected to exceed 90 days.

(2) When a service member is hospitalized because of an injury received in a combat area.

(3) When a long stay in the hospital makes return to duty unlikely.

(4) When reassignment of transient personnel or members separated from their units must occur to insure efficient personnel management.

m. Attachment. Attachments officially increase the overall accountable attached strength of an organization. They will be reported effective the date members arrive at the reporting units from their parent unit. Attachments do not affect the unit of attachment operating strength nor the accountable assigned strength of the soldier's parent unit of assignment.

n. Relief from attachment. The overall accountable attached strength of the organization is officially decreased when personnel are relieved from attachment. This decrease will be reported effective

tive the date the person attached departs the unit for return to his or her parent unit.

o. Return to military control. Persons who return to military control from a deserter or dropped from strength status cause an increase in the strength of the organization. This return will be reported effective the day the person returns or the date civilian authorities notify military officials that the service member is ready for pickup.

p. Assignment of deserters. Deserters convicted of a civil offense or committed by a civil court order will be assigned to a local personnel control facility and accessed to the Army strength, effective the first day of confinement and commitment, unless covered by paragraph 13i.

14. Reporting forms and documents. The following forms and documents will be used to report unit and PAC strength. Detailed instructions for preparing the strength reports are in DA Pam 600-8, DA Pam 600-8-1, and DA Pam 600-8-2.

a. DA Form 647 (Personnel Register) and DA Form 647-1 (Personnel Register).

b. DA Form 2475-2 (Personnel Data—SIDPERS).

c. DA Form 4187 (Personnel Action).

g. Accountable Strength Summary, section III, Personnel Transaction Register By Unit (SIDPERS PO1 Report) (PTRU).

h. Unit Personnel Accountability Notices (SIDPERS C40 Report).

15. Preparing, maintaining, and controlling forms and reports. *a.* The unit commander (or representative) will insure the accuracy of information recorded on DA Form 647, DA Form 647-1, DA Form 2475-2, and DA Form 4187; Personnel Strength Zero Balance Report (SIDPERS C27 Report (PZB)) (RCS: CSGPA-1223; Accountable Strength Summary, section III, Personnel Transaction Register by Unit (SIDPERS PO1 Report) (PTRU); and Unit Personnel Accountability Notices (SIDPERS C40 Report). These forms and reports apply to assigned or attached personnel. Information recorded on the forms and reports will comply with procedures in DA Pam 600-8 and DA Pam 600-8-1.

b. Additional guidance for assigned and attached personnel is as follows—

(1) *Assigned personnel.* A DA Form 2475-2 will be prepared for each assigned soldier. (Privacy Act mandatory disclosure of items shown on

this form is also required.) Copy 3 of DA Form 4187 will be kept when a duty status change has been reported. As an exception, replacement or transient activities that process persons within 30 days and persons for whom DA Form 4187, section II (required by DA Pam 600-8, procedure 9-1) has not been prepared, are exempt. Replacement or transient activities are designated as transient activities (replacement battalions or detachments, reception stations, separation transfer points or similar units) to process incoming or outgoing personnel for further assignment to TOE or TDA units or for separation.

(2) *Attached personnel.* A DA Form 2475-2 and copy 3 of DA Form 4187, if any, will be kept for each soldier attached to a specific unit for duty or training. In addition, attachment, relief from, and other reportable changes occurring during the period of attachment will be reported to the SIB servicing the unit of attachment (DA Pam 600-8-1, and DA Pam 600-8-2). (Duty status changes must be reported even if the service member is attached less than 30 days.)

16. Authenticating DA Form 4187. Copies of DA Form 4187, maintained by the unit or the battalion PAC, may be used as public documents in a court-martial. On request, the unit commander or authorized person will furnish the third copy of DA Form 4187, or a copy of it with an attesting certificate attached (DA Pam 600-8, fig. 9-1-6) to the trial counsel. The person verifying DA Form 4187 and the attesting certificate is limited to the use of the official files or unit records of the PAC. This person must be authorized in writing. The following persons will be authorized to verify DA Form 4187:

- a. Commissioned or warrant officers.
- b. DA civilians (GS 7 and above) or enlisted members (E6 and above) in the position of unit personnel officer.
- c. Adjutants or Assistant Adjutants (commissioned and warrant officers only).
- d. Personnel staff noncommissioned officers.
- e. First sergeants.
- f. PAC supervisors.

g. Other authorized persons (E6 and above) appointed in writing by the commander.

17. Form 647 and DA Form 647-1. a. DA Form 647 and DA Form 647-1 are source documents for SIDPERS. They are used to register military personnel on arrival or departure from Army installations on PCS, change of assignment and the administrative unit, or temporary duty. They may also be used for recording passes, leave, visitors, etc.

b. Follow DA Pam 600-8, procedure 9-7, when completing either of these forms for arriving or departing personnel. (A form need not be prepared for a regular Army trainee who arrives at a basic combat training or one stop training unit from a reception station located at the same station.)

18. Personnel Strength Zero Balance Report (SIDPERS C27 Report) (PZB) (RCS: CSGPA-1223). The personnel strength zero balance report provides a historical record of a unit's strength. It consists of two parts.

a. Part I informs the commander of the compared totals in duty status categories on the SIDPERS Organization Master File reported strength and the SIDPERS Personnel File (SPF) accountable strength.

b. Part II provides a means of totaling the strength of a unit "by name" for each person assigned or attached to the unit.

19. Use of the Personnel Strength Zero Balance Report. (SIDPERS C27 Report) (PZB) (RCS: CSGPA-1223). a. A personnel strength reconciliation will be completed for the following per DA Pam 600-8-1, procedure 4-7, unless otherwise directed by HQDA:

- (1) Each subunit of a parent unit.
- (2) Each parent unit not composed of subunits (e.g., separate ambulance company).
- (3) Each detachment temporarily located outside the unit, when directed by the unit commander.
- (4) Each detachment whose permanent station is different from that of the main body of the unit.

(5) Each element of the unit performing a special function, when directed by the unit commander.

(6) Each Army Reserve unit when on annual training.

(7) Each provisional unit organized by local commanders, when directed by the commander concerned. All personnel of provisional units will be reported as attached to the provisional unit and as assigned-absent on temporary duty in the unit of permanent assignments (AR 220-5, para 7).

b. When units referred to in a above are temporarily without personnel, a report of strength need not be completed until these personnel are assigned or attached.

c. On the date that the strength of the unit is zero, part I of the report, (a above) will be prepared by SIB. This report will include a statement that the unit is temporarily without personnel.

d. Following preparation of the zero balance report, the MILPO will continue to insure that the "no personnel" unit is properly monitored. The review will provide the needed data to determine if the unit should retain its "no personnel" status or if it should be removed from the active rolls. If it is decided that the unit should be removed from the active rolls---

(1) Insure that all personnel have been properly removed from the SPF.

(2) Produce a SIDPERS C27 Report with a statement that the unit has been abolished and the effective date of the unit's abolishment.

(3) Insure that all personnel with duty status other than PDY (present for duty) are reassigned by competent authority. Examples are personnel who are AWOL or hospitalized.

20. Preparation of the Personnel Strength Zero Balance Report (SIDPERS C27 Report) (PZB) (RCS: CSGPA-1223). a. A strength reconciliation will be completed monthly by the PAC or unit using the latest SIDPERS C27 Report. The SIB will normally furnish the SIDPERS C27 report. This report will show the correct duty status of each assigned and attached person. The report will be effective the last day of the month.

b. Additions and deletions will be printed legibly in block capital letters and in ink. Care will be taken to keep the SIDPERS C27 Report neat and legible. The original copy that is reconciled be-

document with long-term reference and audit value. It comes a permanent historical document and will be filed per AR 340-2, file #715-08 (for TOE units) and per AR 340-18-7, file #715-08 for TDA units.
The procedures in DA Pam 600-8-1, procedure 4-7, will be followed to insure that the unit is in zero balance. *file 340-18-7*

c. Whenever there is insufficient space on the SIDPERS C27 report for entries or in those cases where a SIDPERS C27 report cannot be provided by SIDPERS (as in para 19a(1), (5), and (6)), plain bond paper may be used to make a SIDPERS C27 Report.

21. Preparation of SIDPERS change reports.

Units and MILPO will prepare and submit SIDPERS change reports per DA Pam 600-8-1, chapter 2 and DA Pam 600-8-2, chapter 2. The MILPO will prepare DA Form 3805, DA Form 3806, DA Form 3807, and DA Form 3808 and submit them per DA Pam 600-8-2, procedure 6-1.

22. Immediate Reenlistments, Extensions of Enlistments, and Separation Documents. a. The documents listed below will be included in an enlisted service member's official military personnel file. This file is located at the US Army Enlisted Records and Evaluation Center, Fort Benjamin Harrison, IN 46249.
