and animal activity as part of a project called *Nature's Notebook*. The *Nature's Notebook* forms are used to record phenology (e.g., timing of leafing or flowering of plants and reproduction or migration of animals) as part of a nationwide effort to understand and predict how plants and animals respond to environmental variation and changes in weather and climate. Contemporary data collected through *Nature's Notebook* are quality-checked, described and made publicly available; data are used to inform decision-making in a variety of contexts, including agriculture, drought monitoring, and wildfire risk assessment. Phenological information is also critical for the management of wildlife, invasive species, and agricultural pests, and for understanding and managing risks to human health and welfare, including allergies, asthma, and vector-borne diseases. Participants may contribute phenology information to *Nature's Notebook* through a browser-based web application or via mobile applications for iPhone and Android operating systems, meeting GPEA requirements. The web application interface consists several components: User registration, a searchable list of 877 plant and animal species which can be observed; a "profile" for each species that contains information about the species including its description and the appropriate monitoring protocols; a series of interfaces for registering as an observer, registering a site, registering plants and animals at a site, generating datasheets to take to the field, and a data entry page that mimics the datasheets.

**Frequency of Collection:** On occasion. During the Spring and Fall seasons when phenology is changing quickly, we recommend respondents make observations twice per week.

**Estimated Number and Description of Respondents:** In addition to those users already registered, we expect an additional 1,027 users will register each year. These respondents are members of the public, registered with *Nature's Notebook*.

**Estimated Annual Responses:** 501,130.

**Estimated Annual burden hours:** 17,032.

**Estimated Reporting and Recordkeeping "Non-Hour Cost" Burden:** We estimate the non-hour cost burden to be \$3.34. This cost applies to new observers and includes material used to mark sites or plants during the first observation. Marking helps to ensure reporting consistency for future observations.

**Public Disclosure Statement:** The PRA (44 U.S.C. 3501, *et seq.*) provides that an

agency may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

**Comments:** We are soliciting comments as to: (a) Whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) how to enhance the quality, usefulness, and clarity of the information to be collected; and (d) how to minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology. Please note that the comments submitted in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee we will be able to do so.

The list is updated from the notice published on October 1, 2010 (75 FR 60810) and the October 27, 2010 (75 FR 66124—Supplemental).

**FOR FURTHER INFORMATION CONTACT:** Gail Veney, Bureau of Indian Affairs, Division of Tribal Government Services, Mail Stop 4513-MIB, 1849 C Street

NW., Washington, DC 20240. Telephone number: (202) 513-7641.

**SUPPLEMENTARY INFORMATION:** This notice is published pursuant to Section 104 of the Act of November 2, 1994 (Pub. L. 103-454; 108 Stat. 4791, 4792), and in exercise of authority delegated to the Assistant Secretary—Indian Affairs under 25 U.S.C. 2 and 9 and 209 DM 8.

Published below is a list of federally acknowledged tribes in the contiguous 48 states and in Alaska. This list updates the list published on October 1, 2010, to reflect an addition published in an October 27, 2010 Notice, and one other addition and various name changes and corrections. To aid in identifying tribal name changes, the tribe's former name is included with the new tribal name. To aid in identifying corrections, the tribe's previously listed name is included with the tribal name. We will continue to list the tribe's former or previously listed name for several years before dropping the former or previously listed name from the list.

The listed entities are acknowledged to have the immunities and privileges available to other federally acknowledged Indian tribes by virtue of their government-to-government relationship with the United States as well as the responsibilities, powers, limitations and obligations of such tribes. We have continued the practice of listing the Alaska Native entities separately solely for the purpose of facilitating identification of them and reference to them given the large number of complex Native names.

Dated: August 6, 2012.

**Michael S. Black,**

*Acting Assistant Secretary—Indian Affairs.*
