Persons interested in being placed on a mailing list for future NPRMs should contact the FAA's Office of Rulemaking, (202) 267-9677, to request a copy of Advisory circular No. 11-2A, Notice of Proposed Rulemaking distribution System, which describes the application procedure.

The Proposal

The FAA is considering an amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 to establish Class E airspace at Brunswick, ME to provide airspace required to support the standard instrument approach procedures developed for the new Brunswick Executive Airport (BXM). The Brunswick Executive Airport uses the same facilities as the former Brunswick Naval Air Station (NAS). This Class E airspace, therefore, covers largely the same airspace encompassed by the controlled airspace area that was defined for the former Brunswick NAS and was removed in September 2010 upon closure of the NAS. See, 75 FR 57848, Docket No. FAA-2010-0248. This new Class E airspace extending upward from 700 feet above the surface would be established for the safety and management of IFR operations conducted to and from the new BXM airport and the new standard instrument approach procedures (SIAPs) developed for that airport.

Class E airspace designations are published in Paragraph 6005 of FAA

order 7400.9U, dated August 18, 2010, and effective September 15, 2010, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This proposed rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This proposed regulation is within the scope of that authority as it would establish Class E airspace at Brunswick Executive Airport, Brunswick, ME.

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR Part 71 as follows:

1. The authority citation for Part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9U, Airspace Designations and Reporting Points, dated August 18, 2010, effective September 15, 2010, is amended as follows:

Antidisruptive Practices Authority

AGENCY: Commodity Futures Trading Commission.

ACTION: Advance notice of proposed rulemaking; notice of termination.

SUMMARY: On November 2, 2010, the Commodity Futures Trading Commission ("Commission") issued in the **Federal Register** an advance notice of proposed rulemaking ("ANPR"). In

this ANPR, the Commission requested public comment to assist it with promulgating rules and regulations to implement the disruptive practices set forth in section 4c(a) of the Commodity Exchange Act ("CEA"), as amended by section 747 of the Dodd-Frank Wall Street Reform and Consumer Protection Act ("Dodd-Frank Act"). After considering the comments that were submitted in response to the ANPR, the Commission decided not to issue any regulations at this time relating to new section 4c(a). Instead, the Commission is publishing today elsewhere in the **Federal Register** a proposed order interpreting new section 4c(a)(5). The Commission is also terminating the ANPR issued on November 2, 2010.

DATES: Effective March 18, 2011.
