

The U.S. Office of Special Counsel (OSC) employs approximately 110 employees. Most of these individuals engage in reviews, investigations, and prosecutions of prohibited personnel practices, prohibited political activity, and other wrongdoing by government employees.

A small number of employees in the headquarters office in Washington, DC, and in three field offices outside the Washington area (in Dallas, TX, Detroit, MI, and Oakland, CA), are authorized to use government-issued charge cards for micro-purchases of software, ADP equipment, and/or office supplies. The point of contact for OSC micro-purchase card activities is:
