Lincoln and Douglas : the debates that defined America

Allen C. Guelzo
New York, NY : Simon & Schuster, 2008.

973.68 GUE

What carried this one-term congressman from obscurity to fame was his Senate campaign against the country's most formidable politician, Stephen A. Douglas, in the summer and fall of 1858. Lincoln challenged Douglas directly in one of his greatest speeches--"A house divided against itself cannot stand"--and confronted Douglas on the questions of slavery and the inviolability of the Union in seven fierce debates. Of course, the great issue was slavery. Douglas was the champion of letting states and territories decide for themselves whether to legalize slavery. Lincoln drew a moral line, arguing that no majority could ever make slavery right. Lincoln lost that Senate race to Douglas, though he came close to toppling the "Little Giant," but he emerged a predominant national figure. Guelzo's book brings alive their debates and this whole year of campaigns, and underscores their centrality in the greatest conflict in American history.

"By the time

he came to write the Second Inaugural Address..., he was quite consciously in the business of interpreting the war and its deeper meaning, not just for his contemporaries but for what he elsewhere called the 'vast future.'

This intellectual biography uncovers the heart of Lincoln's public philosophy and places his ideals and presidential decisions within the context of his times. Lind dispels the popular image of Lincoln as a self-made man and a naive, inspired genius, and shows that the president was very much a product of his time and place, influenced by the pragmatism of his fellow Kentuckian Henry Clay, and by Enlightenment thinking. Lind asserts that Lincoln fought the Civil War not to free the slaves, or even to preserve the Constitution, but to ensure the survival of democracy.
