

# United States<sup>®</sup> Census 2010

The U.S. Census Bureau  
is issuing a call to action for  
every resident of our nation:  
**“BE COUNTED IN 2010.”**

## The Census: A Snapshot

- What:** The census is a count of everyone residing in the United States.
- Who:** All U.S. residents must be counted—people of all races and ethnic groups, both citizens and non-citizens.
- When:** Census Day is April 1, 2010. Questionnaire responses should represent the household as it exists on this day. More detailed socioeconomic information will be collected annually from a small percentage of the population through the **American Community Survey**.
- Why:** The U.S. Constitution requires a national census once every 10 years. The census will show state population counts and determine representation in the U.S. House of Representatives.
- How:** Census questionnaires will be delivered or mailed to households via U.S. mail in March 2010; many households will receive a replacement questionnaire in early April. Census workers also will visit households that do not return questionnaires.

## A Complete Count: The Importance of Census Data

- Businesses use demographic and economic census data to locate retail stores, new housing and other facilities.
- Every year, the federal government can allocate more than \$400 billion to states and communities based, in part, on census data.
- Census data guide local decision-makers on where to build new roads, hospitals, housing, schools and more.
- Census data determine representation in the U.S. House of Representatives and in state and local governments.

## 2010 Census Questionnaire: Quick, Easy and Confidential

- With only 10 questions, the 2010 Census questionnaire is one of the shortest questionnaires in history and takes just 10 minutes to complete.
- By law, the Census Bureau cannot share an individual's census questionnaire responses with anyone, including other federal agencies and law enforcement entities.
