UNITED STATES INTERNATIONAL TRADE COMMISSION

---

WASHINGTON, DC 20436

April 9, 2003

To Whom It May Concern:

The enclosed questionnaire pertains to the United States International Trade Commission's investigation concerning DRAMs and DRAM modules. The investigation is being conducted under the provisions of section 701 of the Tariff Act of 1930.

In this investigation the Commission must determine whether an industry in the United States is materially injured or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports from Korea of DRAMs and DRAM modules that have been found to be subsidized.

The business proprietary information you supply in this questionnaire or in connection therewith will be so treated by the Commission and will not be disclosed except as may be required by law. Your response will be consolidated with the responses of other firms and will form much of the statistical base for the Commission's determination. The questions in the questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible.

Please return the completed questionnaire to the Commission by no later than **May 9, 2003**. If you have any questions concerning the questionnaire or other matters related to the investigation, please contact Mary Messer (202-205-3193) of the Commission's staff. Correspondence may be sent to the above address or via FAX to 202-205-3205.

Sincerely,

Robert Carpenter  
Director
