This may not necessarily be the same vendor who provides the credit union's share and loan system, physically hosts the web server which runs the website, or provides the access to the Internet.
2. If the credit union does not have a website and plans to add one in the future, please provide the following information. If you have a website, skip this question.

- a. **Type of Website** - If the credit union is planning to add a Website, identify the type that best describes the degree of information and/or services that will be offered online:

 - c. Provide the planned date of implementation
3. **Organizational Email** - Provide the e-mail address used by the credit union to communicate with members and the general public. This typically is an e-mail address that is not assigned to a person, but is accessed by multiple employees.
 4. **Internet Access** - If anyone can access the internet from any computer located at the credit union, check "Yes" to this question. Otherwise, check "No."
 5. **Internal Wireless Network** - Check "Yes" if any communication on the credit union's network is accomplished using a wireless rather than a wired connection. This applies to all IEEE 802.11 technologies and related technologies. Also answer "Yes" to this question if communication between the primary data processing site and a branch is done wirelessly. For example, using line of site broadcast towers between the main office and a branch a few miles away. This information will not be released to the public. Otherwise, check "No."

This type of product is also called "Turnkey" and in many cases is a complete accounting package (share, loan, general ledger, subsidiaries, teller operations, cash operations, etc.). In most cases, the credit union will install and maintain the hardware to run the software at its office(s). The vendor generally maintains control over software programming and provides updates, patches, fixes, and new releases on a regular or predetermined basis. In some cases, clients may request the vendor to customize the software for their particular needs.

3. **Vendor Online Service Bureau** – Hardware and software systems reside at the vendor's location with the exception of those systems a credit union requires in order to access and transmit data to the vendor. Most, if not all, data processing occurs at the vendor's site. Service bureau vendors generally provide reports (paper, electronic, microfiche, or other) on a regular basis. Connection is made to a service bureau through dial-up connections, private lines, the Internet, frame relay, or other Wide Area Network (WAN) services. The service provided may be real-time (transaction post upon data entry) or batch processing (data is accumulated throughout a predetermined time period and then transmitted to the vendor for processing at predetermined intervals).
 4. **CU Developed In-House System** – The credit union developed, and generally maintains, the software onsite. The credit union has responsibility for the hardware and software systems. Generally, in-house developed credit unions will maintain a data center (data processing department) staffed with hardware and software personnel.

- 3. Equity Method

Note:

- If your credit union wholly-owns the CUSO or owns a “controlling financial interest” (assumed at ownership of 50% or more of the voting stock), the CUSO’s books and records should be consolidated with your credit union’s books and records (as if the two were one entity) for reporting on pages 1 – 5 of the call report.
- If your credit union has “ability to exert significant influence” over operations of the CUSO (assumed at ownership of 20% or more but less than 50% of the voting stock of the CUSO), the credit union’s investment in the CUSO should be reflected in its books and records using the equity method of accounting.
- If your credit union owns less than 20% of the voting stock of the CUSO, the credit union should account for its CUSO investment using the cost method of accounting.

Investment in CUSO - Report the amount that represents the unimpaired value of the credit union’s CUSO investment as measured under generally accepted accounting principles on an unconsolidated basis. The amount reported should be measured under either:

Credit unions required under GAAP to report their investment in a CUSO on the equity basis are not penalized for exceeding their “investment in and loans to” CUSO limit as a result of the CUSO operating profitably and the value of the investment increasing. Unimpaired aggregate cash outlay is the means by which the regulatory limitation is measured. If the credit union does not have any aggregate cash outlay, enter zero.

 5. The FCU fully amortizes the loan;
 6. The FCU sets a minimum length of membership requirement of at least one month;
 7. The FCU charges an application fee to all members applying for a new loan that reflects the actual cost of processing the application, but in no case may the application fee exceed \$20; and

Minority Credit Union Questions

Provide an answer (yes or no) to the two questions below in the boxes provided. If yes, check the boxes as applicable, identifying the minority groups (as referenced in Section 342(g) of the Dodd-Frank Act) represented by your current or potential members and current management officials. Management officials include board, supervisory committee, and credit committee members, and senior executive staff, including the credit union's chief executive officer, typically titled as President or Treasurer/Manager; any Assistant Chief Executive Officer (e.g., Assistant President, Vice-President, or Assistant Treasurer/Manager); and the Chief Financial Officer.

The minority credit union questions are based on a self-assessment, not a survey of the membership. If you are unaware of the composition of your current membership or potential field of membership (FOM), you may assess either one based on the census data demographics of your credit union's service area. The service area is where your FOM is located (e.g., township, borough, city/cities, county/counties, etc.). If the census data shows the area is mostly resided by minorities, you can assume your credit union's FOM resembles this composition.
