## Procedures to find pre-Order No. 714 ICA tariffs

### Procedure to find pre-Order No. 714 ICA tariffs

ICA oil pipeline tariffs used to be filed with the Commission and maintained in paper-only format. However, after transition to electronic tariff filings and tariffs, the paper tariffs are no longer maintained. These paper tariffs have been posted into eLibrary along with the indices necessary to determine their status. The tariff and rate schedules maintained in this file represent the tariffs and rate schedules as maintained by the Commission in its paper records as of the date they were superseded or cancelled. The tariffs and rate schedules may not represent the rates or terms of conditions of service in effect as of a particular point in time. Reference should be made to Commission orders to establish the filed rates or terms and conditions of service.

Oil pipeline paper tariffs were completely superseded by electronic tariffs.

The process to find the paper ICA tariffs is as follows:
