

## DoD IHWG Mission

- Serves as DoD's technical advisor for all aspects of industrial hygiene.
- Provides recommendations for implementation, staffing, and execution of the functional process improvements for business practices and information managing of DoD Industrial Hygiene Programs.
- Partners with other Governmental agencies when developing recommendations for procedures and practices regarding program evaluation, preferred methods of industrial hygiene surveillance, hazard abatement, and information management.
- Strives to integrate industrial hygiene into other environmental, safety, and occupational health programs to ensure conformance with current scientific knowledge, professional practices, and OSHA standards.
- Proposes, when necessary, alternate and supplemental standards for industrial hygiene surveillance.
