First Quarter 2011 Highlights

The Enterprises' Completed Foreclosure Prevention Actions:

- The Enterprises have completed more than 1.6 million foreclosure prevention actions since the first full quarter in conservatorship (4Q08). More than half of these actions were loan modifications.
- Completed foreclosure prevention actions declined for the third consecutive quarter, driven primarily by decreases in loan modifications and repayment plans.

• Loans modified in 2010 continued to perform substantially better compared to loans modified in earlier periods for two primary reasons: 1) Loan modifications in 2010 resulted in deeper payment reductions for a greater proportion of borrowers than in earlier periods and, 2) the majority of completed loan modifications in 2010 required successful completion of a trial period prior to permanent modification.

The Enterprises' Mortgage Performance:

- Mortgage performance continues to improve as early stage and serious delinquency rates declined during the first quarter of 2011.
- The Enterprises' delinquency rates remain below industry levels.

The Enterprises' Foreclosures:

• In the first quarter, foreclosure starts declined while completed third-party and foreclosure sales increased.

Making Home Affordable Program - Status Update

Home Affordable Modification Program (HAMP)

• Announced March 4, 2009.

• Allows a borrower's payment to be reduced to an affordable amount through an interest rate reduction (down to 2 percent), a term extension (up to 480 months), or principal forbearance. Incentives are being offered to borrowers, servicers, and investors for program participation and a successful payment history.

• More than 36,300 HAMP trials transitioned to permanent modifications during the first quarter, bringing the total number of active HAMP permanent modifications to nearly 320,500, an increase of 13 percent from the fourth quarter.

• Nearly 64,000 borrowers were in a HAMP trial period at the end of the quarter, down from 77,400 at the end of the fourth quarter. The decline was due to conversions to permanent modifications, and declining intake into trial modifications due to the pre-trial income documentation requirements.

Home Affordable Refinance Program (HARP)

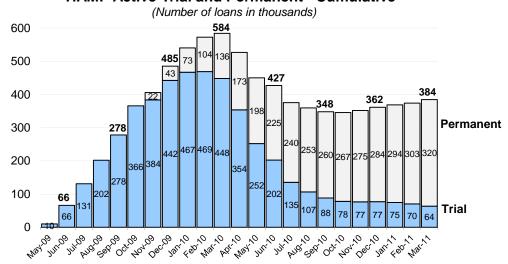

• Announced March 4, 2009.

• Allows existing Enterprise borrowers who are current on their mortgage payments to refinance and reduce their monthly mortgage payments at loan-to-value ratios up to 125 percent without new mortgage insurance.

• The Enterprises' cumulative HARP refinancings increased 21 percent during the first quarter to approximately 752,000 loans.

• Monthly HARP volume decreased from December to March as interest rates rose. The HARP percentage of total refinance volume rose as the benefits of the program partially offset the effect of higher rates.

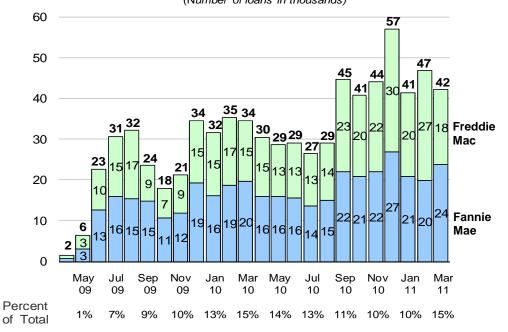

* HAMP trial modifications are based on the first trial payment posted date. HAMP permanent modifications are based on the effective date of modification.

¹ Since the first full quarter in conservatorship (4Q08).

Foreclosure Prevention Activity: All Actions Completed

The Enterprises' completed foreclosure prevention activity decreased for the third consecutive quarter in the first quarter of 2011, driven primarily by decreases in loan modifications and repayment plans. Loan modifications accounted for about half of all actions completed during the quarter. Since the fourth quarter of 2008, the first full quarter in which the Enterprises were in conservatorship, completed foreclosure prevention actions total more than 1.6 million with the majority of these actions being loan modifications.

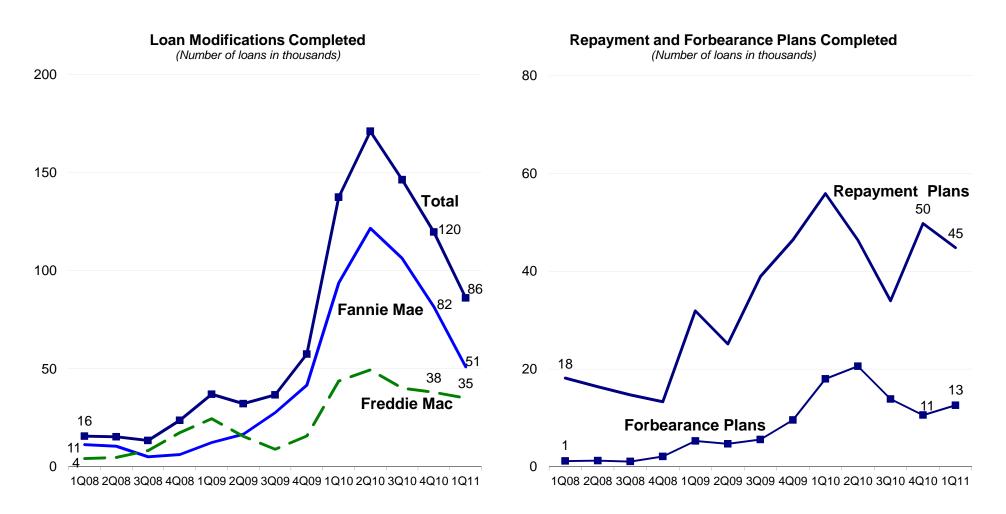

¹ Consists of homesaver advance (Fannie Mae) and charge-offs in lieu.

² Include loans that were 30+ days delinquent at initiation of the plan. In addition, the completed forbearance plans data has been revised to exclude HAMP.

Foreclosure Prevention Activity: Home Retention Actions

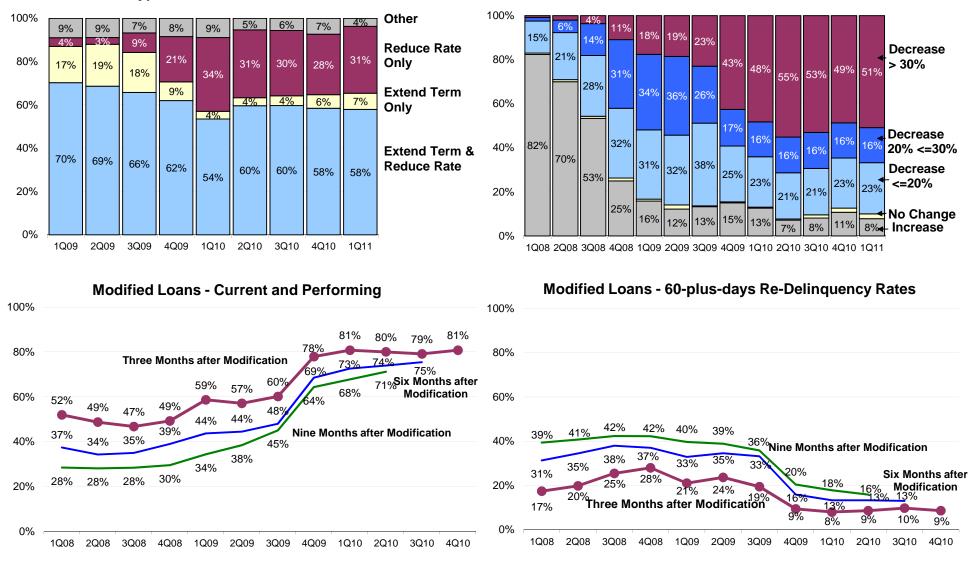

The Enterprises' completed loan modifications decreased 28 percent to approximately 86,200 during the first quarter with the majority of modifications completed through HAMP program. In addition, the Enterprises completed more than 44,800 repayment plans and approximately 12,600 forbearance plans during the quarter.

Enterprises' Loan Modifications

Loans modified in 2010 are performing substantially better after modification than loans modified in earlier periods. Compared to loans modified before 2010, more of these borrowers successfully completed trial modification periods prior to permanent modification, and more of these borrowers received substantially reduced mortgage payments.

Modified Loans - 60-plus-days Re-Delinquency Rates

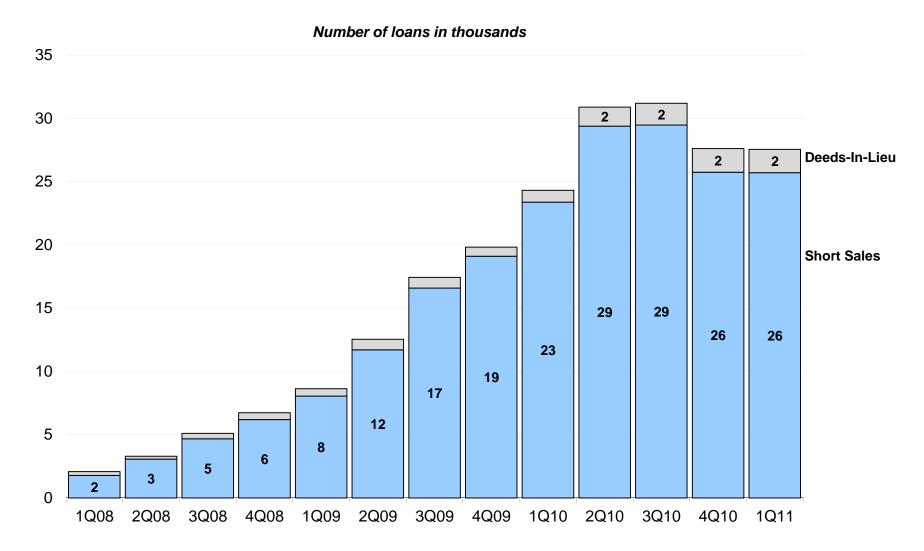

Freddie Mac's Loan Modifications*

* Modified loans data may not tie to Freddie Mac's financial statements due to timing differences in reporting systems.

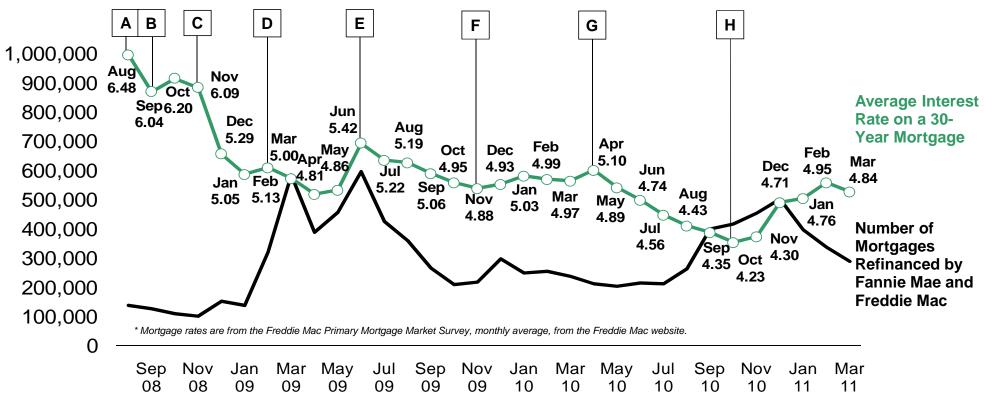

Foreclosure Prevention Activity: Home Forfeiture Actions

Short sales and deeds-in-lieu remained steady at nearly 27,600 during the first quarter. Both Enterprises continue to use short sales and deeds-in-lieu of foreclosure to reduce the severity of losses resulting from a borrower's default while minimizing the impact of foreclosures on borrowers, communities, and neighborhoods.

Refinance Activity

Refinance volume fell through March as mortgage rates rose by over half of a percent from historic low levels observed in October and November.

- A Highest rate in 2008 for a 30-year mortgage.
- B GSEs placed into conservatorship on 09/06/08.
- C Fed announces MBS purchase program on 11/25/08.
- D Obama Administration's Making Home Affordable announcement 02/20/09.
- E Treasury rates sharply rose and reached a 2009 high on a better than expected unemployment report in June.
- F Treasury rates fell sharply after Dubai sought to delay sovereign debt payments.
- G Treasury rates rose on optimism of a recovering U.S. economy and a temporary lull in news of a developing debt crisis in Europe.
- H 30-year mortgage rates reached 4.17% in early November, marking the lowest level observed since Freddie Mac began tracking rates in 1971.

Refinance Activity

Fannie Mae and Freddie Mac refinanced over 752,000 loans through the HARP program through March 2011.

HARP Refinance Loans are defined as Fannie Mae to Fannie Mae and Freddie Mac to Freddie Mac first lien refinance loans with limited and no cash out that are owner occupied with LTV's over 80 to 125.

All Other Streamlined Refis are streamlined refinances that do not qualify as HARP refinances. Fannie Mae implements streamlined refinances through the Refi Plus product for manual underwriting and DU Refi Plus product for loans underwritten through Desktop Underwriter. The product is available for refinances of existing Fannie Mae loans only. Freddie Mac implements streamlined refinances through the Relief Refinance Mortgage product. Loans may be originated by any Freddie Mac approved servicer.

¹Inception to Date - Since April 1, 2009

Foreclosures

The Enterprises' foreclosure starts declined for the second consecutive quarter, while completed third-party and foreclosure sales increased during the first quarter.

¹ The number of foreclosure prevention actions reported in this table may not tie to the Enterprises' financial statements due to timing differences in reporting systems. ² Forbearance plans initiated include HAMP trials initiated by servicers under the MHA program. In addition, starting in August, forbearance plans initiated include Fannie Mae's HomeSaver forbearance plans. HAMP trial modifications are based on the first trial payment posted date. HAMP permanent modifications are based on the effective date of modification. As of March 31, 2011, Fannie Mae had completed approximately 197,200 HAMP permanent modifications and Freddie Mac had completed nearly 123,300 HAMP permanent modifications.

³ Includes loans that were 30+ days delinquent at initiation of the plan. In addition, the completed forbearance plans data have been revised to exclude HAMP.

Notes:

HARP Refinance Loans are defined as Fannie Mae to Fannie Mae and Freddie Mac to Freddie Mac first lien refinance loans with limited and no cash out that are owner-occupied with LTVs between 80% and 125%.

All Other Streamlined Refis are streamlined refinances that do not qualify as HARP (LTVs between 80% and 125%) refinances. Fannie Mae implements streamlined refinances through the Refi Plus product for manual underwriting and DU Refi Plus product for loans underwritten through Desktop Underwriter. The product is available for refinances of existing Fannie Mae loans only. Freddie Mac implements streamlined refinances through the Refi Plus product for any proved servicer.

FHFA produces monthly and quarterly versions of the Foreclosure Prevention & Refinance Report. In addition to the data provided in the monthly reports, the quarterly reports include the following information: MHA program updates; benchmarking of the Enterprises' delinquency rates; the type and depth of Ioan modifications; and the performance of modified Ioans.

Glossary

Data and definitions in this report have been revised relative to prior versions of the report. FHFA continues to work with the Enterprises to improve the comparability of reported data.

Section 1: Mortgage Performance

Total Loans Serviced - Total conventional active book of business, excluding loans that were liquidated during the month.

Current and Performing - Loans that are making timely payments and are 0 months delinquent as of the reporting month.

Total Delinquent Loans - Loans that are at least one payment past due, i.e., total servicing *minus* current and performing.

30-59 Days Delinquent - Includes loans that are only one payment delinquent.

60-89 Days Delinquent - Includes loans that are only two payments delinquent.

60-plus-days Delinquent - Loans that are two or more payments delinquent, including loans in relief, in the process of foreclosure, or in the process of bankruptcy, i.e., total servicing *minus* current and performing, and 30 to 59 days delinquent loans. Our calculation may exclude loans in bankruptcy process that are less than 60 days delinquent.

Serious Delinquency - All loans in the process of foreclosure *plus* loans that are three or more payments delinquent (including loans in the process of bankruptcy).

In Bankruptcy - Loans in the process of bankruptcy; includes all delinquency status.

Section 2: Completed Foreclosure Prevention Actions

Home Retention Actions - Repayment plans, forbearance plans, charge-offs in lieu of foreclosure, Home Saver Advances, and Ioan modifications. Home retention actions allow borrowers to retain ownership/occupancy of their homes while attempting to return Ioans to current and performing status.

Repayment Plans - An agreement between the servicer and a borrower that gives the borrower a defined period of time to reinstate the mortgage by paying normal regular payments plus an additional agreed upon amount in repayment of the delinguency.

Forbearance Plans - An agreement between the servicer and the borrower (or estate) to reduce or suspend monthly payments for a defined period of time after which borrower resumes regular monthly payments and pays additional money toward the delinquency to bring the account current or works with the servicer to identify a permanent solution, such as loan modification or short sale, to address the delinquency.

Charge-offs in Lieu of Foreclosure - A delinquent loan for which collection efforts or legal actions against the borrower are agreed to be not in the Enterprises' best interests (because of reduced property value, a low outstanding mortgage balance, or presence of certain environmental hazards). The servicer charges off the mortgage debt rather than completing foreclosure and taking the property title. The borrower retains the property. The unpaid mortgage balance becomes a lien on the borrower's property, which must be satisfied when the borrower transfers ownership.

HomeSaver Advance (Fannie Mae) - An unsecured personal loan to a qualified borrower to cure his or her payment defaults under a mortgage loan the Enterprises own or guarantee. The borrower must be able to resume regular monthly payments on his or her mortgage.

Loan Modifications - Number of modified, renegotiated, or restructured loans, regardless of performance-to-date under the plan during the month. Terms of the contract between the borrower and the lender are altered with the aim of curing the delinquency (30 days or more past due).

Nonforeclosure-Home Forfeiture Actions- Short sales and deeds-in-lieu of foreclosure. These actions require borrowers to give up their homes. Although homes are forfeited, foreclosure alternatives generally have less adverse impact on borrowers and their credit reports than foreclosure.

Short Sales - A short sale (also called a preforeclosure sale) is the sale of a mortgaged property at a price that nets less than the total amount due on the mortgage (e.g., the sum of the unpaid principal balance, accrued interest, advanced escrows, late fees, and delinquency charges.) The servicer and borrower negotiate payment of the difference between the net sales price and the total amount due on the mortgage. Deed(s)-in-lieu of Foreclosure - A loan for which the borrower voluntarily conveys the property to the lender to avoid a foreclosure proceeding.

Section 3: Loan Modifications

Increase - Principal and interest after modification is higher than before the modification. No Increase - Original principal and interest is unchanged after the modifications. Decrease <= 20% - Original principal and interest is decreased by 20 percent or less after modification.

Decrease >20% - Original principal and interest is decreased by more than 20 percent after modification.

Extend Term Only - Remaining term of the loan is longer after modification.

Reduce Rate Only - Loan's rate is lower after modification.

Extend Term and Reduce Rate - Loan's rate reduced and term extended.

Extend Term, **Rate Reduction**, **and Forbear Principal** - Modification includes term extension, rate reduction, and forbearance of principal.

Other - A modification that does not fit in any of the above categories. The majority of these loans are capitalized modifications.

Section 4: Third-party Sales and Foreclosures

Third-party Sales - A third party entity purchases the property at the foreclosure sale/auction above the initial bid set forth by Fannie Mae or Freddie Mac. Foreclosure Starts - The total number of loans referred to an attorney to initiate the legal process of foreclosure during the month. These are loans measured as not being in foreclosure in the previous month but referred to foreclosure in the current month. Foreclosure Sales - The number of loans that went to foreclosure (sheriff's) sale during the month.
