

NAFTA Preference Criteria

The NAFTA Preference Criteria are grouped into categories identified on the NAFTA Certificate of Origin by letters A through F:

- A – **Natural resources**, e.g., anything grown, harvested, fished, or mined in any one of the NAFTA countries.
- B – Manufactured goods that contain foreign parts, components, or raw materials **and** meet the requirements of its specific NAFTA Rule of Origin.
- C – Goods manufactured **exclusively** with NAFTA originating parts or components.
- D – Covers goods where the **HS code for the product and its parts** is the same and the manufacturer is allowed to use Regional Value Content to determine whether the good originates.
- E – **HS code-specific** Automatic Data Processing equipment.
- F – Applies to certain “agricultural” products exported only to Mexico.
