****Importer: Direct Importer**

16 CFR 1303 - All products with painted or otherwise finished surfaces (powder-coated, stained, anodized, lacquered, varnished, etc) must be tested at the factory (in-house) or externally tested through a third party laboratory to certify that the product has been manufactured in accordance to 16 CFR 1303; the lead content of all scrapable surface coatings should not exceed the limit of 90ppm.

Lead H.R. 4040 Section 101 (Lead in substrate) 300ppm.

Plain Children’s Clothing – Plain children’s clothing is a garment that does not have any of the following attributes: screen printing, buttons, zippers, snaps, rivets, decorations, adornments, affixed plastics or any attachment requiring a pull test. Such items will only require a GGC to certify the flammability standard 16 CFR 1610. If exempt, the appropriate box must be checked.
