Notice to Customers and Participants Concerning Regional Dialogue Workshops and Public Involvement Efforts

BPA staff will conduct informal discussions with interested parties regarding future implementing actions for certain Regional Dialogue issues, which stem from topics that will be addressed in the Record of Decision BPA plans to issue in April 2007. It is necessary to initiate these preliminary discussions prior to issuing a final ROD and Policy due to the time constraints in our schedule for signing new power sales contracts. For purposes of these preliminary discussions on implementing actions only, BPA will use a working assumption that the July 2006 Regional Dialogue Policy Proposal as BPA proposed will be adopted.
