

Krome and BTC Average Daily Population (ADP)* by Month

Fiscal Years 2003-2009

ADP Data as of 4/4/09. Source: ICE Integrated Decision Support (IDS), 4/6/2009

*The ADP is the number of mandays for a given time period, divided by the number of days in that time period.

• **Calculation:** The ADP and Population Counts are based on BILLABLE DAYS. A BILLABLE DAY is analogous to the way hotels charge for use of their rooms. If a SUBJECT enters a detention facility and stays for any amount of time, that is counted as a BILLABLE DAY. If the SUBJECT stays more than one day, the last day that the subject leaves is not counted as a BILLABLE DAY. If a person is booked and released to more than one DRO facility in the same day, each of those BOOKINGS (admission into a facility) will count as a new BILLABLE DAY.
