I.66 52.225-1 BUY AMERICAN ACT - SUPPLIES. (FEB 2009)

- (a) *Definitions.* As used in this clause--

“Commercially available off-the-shelf (COTS) item”—

- (1) Means any item of supply (including construction material) that is—
 - (i) A commercial item (as defined in paragraph (1) of the definition at FAR 2.101);

 - (ii) Sold in substantial quantities in the commercial marketplace; and

- (iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and
- (2) Does not include bulk cargo, as defined in section 3 of the Shipping Act of 1984 (46 U.S.C. App. 1702), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into an end product.

“Cost of components” means--

- (1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or
- (2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the end product.

“Domestic end product” means—

- (1) An unmanufactured end product mined or produced in the United States;
- (2) An end product manufactured in the United States, if—
 - (i) The cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind as those that the agency determines are not mined, produced, or manufactured in sufficient and reasonably available commercial quantities of a satisfactory quality are treated as domestic. Scrap generated, collected, and prepared for processing in the United States is considered domestic; or
 - (ii) The end product is a COTS item.

“End product” means those articles, materials, and supplies to be acquired under the contract for public use.

“Foreign end product” means an end product other than a domestic end product.

“United States” means the 50 States, the District of Columbia, and outlying areas.

- (b) The Buy American Act (41 U.S.C. 10a-10d) provides a preference for domestic end products for supplies acquired for use in the United States. In accordance with 41 U.S.C. 431, the component test of the Buy American Act is waived for an end product that is a COTS item (See 12.505(a)(1)).
- (c) Offerors may obtain from the Contracting Officer a list of foreign articles that the Contracting Officer will treat as domestic for this contract.
- (d) The Contractor shall use only domestic end products except to the extent that it specified delivery of foreign end products in the provision of the solicitation entitled “Buy American Act Certificate.”

I.67 52.225-8 DUTY-FREE ENTRY. (FEB 2000)

- (a) *Definition.* “Customs territory of the United States” means the States, the District of Columbia, and Puerto Rico.
- (b) Except as otherwise approved by the Contracting Officer, the Contractor shall not include in the contract price any amount for duties on supplies specifically identified in the Schedule to be accorded duty-free entry.
- (c) Except as provided in paragraph (d) of this clause or elsewhere in this contract, the following procedures apply to supplies not identified in the Schedule to be accorded duty-free entry:
 - (1) The Contractor shall notify the Contracting Officer in writing of any purchase of foreign supplies (including, without limitation, raw materials, components, and intermediate assemblies) in excess of \$10,000 that are to be imported into the customs territory of the United States for delivery to the Government under this contract, either as end products or for incorporation into end products. The Contractor shall furnish the notice to the Contracting Officer at least 20 calendar days before the importation. The notice shall identify the -
 - (i) Foreign supplies;
 - (ii) Estimated amount of duty; and
 - (iii) Country of origin.

- (2) The Contracting Officer will determine whether any of these supplies should be accorded duty-free entry and will notify the Contractor within 10 calendar days after receipt of the Contractor's notification.
- (3) Except as otherwise approved by the Contracting Officer, the contract price shall be reduced by (or the allowable cost shall not include) the amount of duty that would be payable if the supplies were not entered duty-free.
- (d) The Contractor is not required to provide the notification under paragraph (c) of this clause for purchases of foreign supplies if -
 - (1) The supplies are identical in nature to items purchased by the Contractor or any subcontractor in connection with its commercial business; and
 - (2) Segregation of these supplies to ensure use only on Government contracts containing duty-free entry provisions is not economical or feasible.
- (e) The Contractor shall claim duty-free entry only for supplies to be delivered to the Government under this contract, either as end products or incorporated into end products, and shall pay duty on supplies, or any portion of them, other than scrap, salvage, or competitive sale authorized by the Contracting Officer, diverted to nongovernmental use.
- (f) The Government will execute any required duty-free entry certificates for supplies to be accorded duty-free entry and will assist the Contractor in obtaining duty-free entry for these supplies.
- (g) Shipping documents for supplies to be accorded duty-free entry shall consign the shipments to the contracting agency in care of the Contractor and shall include the -
 - (1) Delivery address of the Contractor (or contracting agency, if appropriate);
 - (2) Government prime contract number;
 - (3) Identification of carrier;
 - (4) Notation "UNITED STATES GOVERNMENT, [*agency*], Duty-free entry to be claimed pursuant to Item No(s) [*from Tariff Schedules*], Harmonized Tariff Schedules of the United States. Upon arrival of shipment at port of entry, District Director of Customs, please release shipment under 19 CFR part 142 and notify [*cognizant contract administration office*] for execution of Customs Forms 7501 and 7501-A and any required duty-free entry certificates.";
 - (5) Gross weight in pounds (if freight is based on space tonnage, state cubic feet in addition to gross shipping weight); and

- (6) Estimated value in United States dollars.
- (h) The Contractor shall instruct the foreign supplier to -
 - (1) Consign the shipment as specified in paragraph (g) of this clause;
 - (2) Mark all packages with the words “UNITED STATES GOVERNMENT” and the title of the contracting agency; and
 - (3) Include with the shipment at least two copies of the bill of lading (or other shipping document) for use by the District Director of Customs at the port of entry.
- (i) The Contractor shall provide written notice to the cognizant contract administration office immediately after notification by the Contracting Officer that duty-free entry will be accorded foreign supplies or, for duty-free supplies identified in the Schedule, upon award by the Contractor to the overseas supplier. The notice shall identify the -
 - (1) Foreign supplies;
 - (2) Country of origin;
 - (3) Contract number; and
 - (4) Scheduled delivery date(s).
- (j) The Contractor shall include the substance of this clause in any subcontract if -
 - (1) Supplies identified in the Schedule to be accorded duty-free entry will be imported into the customs territory of the United States; or
 - (2) Other foreign supplies in excess of \$10,000 may be imported into the customs territory of the United States.

I.68 52.225-9 BUY AMERICAN ACT - CONSTRUCTION MATERIALS. (FEB 2009)

- (a) *Definitions.* As used in this clause--

“Commercially available off-the-shelf (COTS) item”—

- (1) Means any item of supply (including construction material) that is—

- (i) A commercial item (as defined in paragraph (1) of the definition at FAR 2.101);
 - (ii) Sold in substantial quantities in the commercial marketplace; and
 - (iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and
- (2) Does not include bulk cargo, as defined in section 3 of the Shipping Act of 1984 (46 U.S.C. App. 1702), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into a construction material.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means--

- (1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the construction material (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or
- (2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

“Domestic construction material” means—

- (1) An unmanufactured construction material mined or produced in the United States;

- (2) A construction material manufactured in the United States, if—
 - (i) The cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic; or
 - (ii) The construction material is a COTS item.

“Foreign construction material” means a construction material other than a domestic construction material.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) *Domestic preference.*

- (1) This clause implements the Buy American Act (41 U.S.C. 10a-10d) by providing a preference for domestic construction material. In accordance with 41 U.S.C. 431, the component test of the Buy American Act is waived for construction material that is a COTS item. (See FAR 12.505(a)(2)). The Contractor shall use only domestic construction material in performing this contract, except as provided in paragraphs (b)(2) and (b)(3) of this clause.
- (2) This requirement does not apply to the construction material or components listed by the Government as follows: NONE [*Contracting Officer to list applicable excepted materials or indicate “none”*]
- (3) The Contracting Officer may add other foreign construction material to the list in paragraph (b)(2) of this clause if the Government determines that
 - (i) The cost of domestic construction material would be unreasonable. The cost of a particular domestic construction material subject to the requirements of the Buy American Act is unreasonable when the cost of such material exceeds the cost of foreign material by more than 6 percent;
 - (ii) The application of the restriction of the Buy American Act to a particular construction material would be impracticable or inconsistent with the public interest; or
 - (iii) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.

- (c) *Request for determination of inapplicability of the Buy American Act.*
- (1) (i) Any Contractor request to use foreign construction material in accordance with paragraph (b)(3) of this clause shall include adequate information for Government evaluation of the request, including--
- (A) A description of the foreign and domestic construction materials;
 - (B) Unit of measure;
 - (C) Quantity;
 - (D) Price;
 - (E) Time of delivery or availability;
 - (F) Location of the construction project;
 - (G) Name and address of the proposed supplier; and
 - (H) A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(3) of this clause.
- (ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed price comparison table in the format in paragraph (d) of this clause.
- (iii) The price of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free certificate may be issued).
- (iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.
- (2) If the Government determines after contract award that an exception to the Buy American Act applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(3)(i) of this clause.

- (3) Unless the Government determines that an exception to the Buy American Act applies, use of foreign construction material is noncompliant with the Buy American Act.
- (d) *Data.* To permit evaluation of requests under paragraph (c) of this clause based on unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:

Foreign and Domestic Construction Materials Price Comparison

Construction material description	Unit of measure	Quantity	Price (dollars) *
<i>Item 1</i>			
Foreign construction material			
Domestic construction material			
<i>Item 2</i>			
Foreign construction material			
Domestic construction material			

[List name, address, telephone number, and contact for suppliers surveyed. Attach copy of response; if oral, attach summary.]

[Include other applicable supporting information.]

*[*Include all delivery costs to the construction site and any applicable duty (whether or not a duty-free entry certificate is issued).]*

I.69 52.225-13 RESTRICTIONS ON CERTAIN FOREIGN PURCHASES (JUN 2008)

- (a) Except as authorized by the Office of Foreign Assets Control (OFAC) in the Department of the Treasury, the Contractor shall not acquire, for use in the performance of this contract, any supplies or services if any proclamation, Executive order, or statute administered by OFAC, or if OFAC's implementing regulations at 31 CFR chapter V, would prohibit such a transaction by a person

- (b) Except as authorized by OFAC, most transactions involving Cuba, Iran, and Sudan are prohibited, as are most imports from Burma or North Korea, into the United States or its outlying areas. Lists of entities and individuals subject to economic sanctions are included in OFAC's List of Specially Designated Nationals and Blocked Persons at <http://www.treas.gov/offices/enforcement/ofac/sdn/>. More information about these restrictions, as well as updates, is available in the OFAC's regulations at 31 CFR chapter V and/or on OFAC's website at <http://www.treas.gov/offices/enforcement/ofac>.
- (c) The Contractor shall insert this clause, including this paragraph (c), in all subcontracts.

The following clause is only applicable to projects funded by the Recovery Act:

I.70 52.225-21 REQUIRED USE OF AMERICAN IRON, STEEL, AND OTHER MANUFACTURED GOODS-BUY AMERICAN ACT – CONSTRUCTION MATERIALS (MAR 2009)

- (a) Definitions. As used in this clause—

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Domestic construction material” means—

- (1) An unmanufactured construction material mined or produced in the United States; or
- (2) A construction material manufactured in the United States.

“Foreign construction material” means a construction material other than a domestic construction material.

“*Manufactured construction material*” means any construction material that is not unmanufactured construction material.

“*Steel*” means an alloy that includes at least 50 percent iron, between .02 and 2 percent carbon, and may include other elements.

“*United States*” means the 50 States, the District of Columbia, and outlying areas.

“*Unmanufactured construction material*” means raw material brought to the construction site for incorporation into the building or work that has not been—

- (i) Processed into a specific form and shape; or
- (ii) Combined with other raw material to create a material that has different properties than the properties of the individual raw materials.

(b) Domestic preference.

(1) This clause implements—

- (i) Section 1605 of the American Recovery and Reinvestment Act of 2009 (Recovery Act) (Pub. L. 111-5), by requiring, unless an exception applies, that all iron, steel, and other manufactured goods used as construction material in the project are produced in the United States; and
- (ii) The Buy American Act (41 U.S.C. 10a-10d) by providing a preference for unmanufactured domestic construction material.

(2) The Contractor shall use only domestic construction material in performing this contract, except as provided in paragraph (b)(3) and (b)(4) of this clause.

(3) This requirement does not apply to the construction material or components listed by the Government as follows:

“none”

(4) The Contracting Officer may add other foreign construction material to the list in paragraph (b)(3) of this clause if the Government determines that—

- (i) The cost of domestic construction material would be unreasonable.

- (A) The cost of domestic iron, steel, or other manufactured goods used as construction material is unreasonable when the cumulative cost of such material will increase the cost of the contract by more than 25 percent;
 - (B) The cost of unmanufactured construction material is unreasonable when the cost of such material exceeds the cost of foreign material by more than 6 percent;
 - (ii) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available quantities and of a satisfactory quality; or
 - (iii) The application of the restriction of section 1605 of the Recovery Act or the Buy American Act to a particular construction material would be inconsistent with the public interest.
- (c) Request for determination of inapplicability of Section 1605 of the Recovery Act or the Buy American Act.
- (1)
 - (i) Any Contractor request to use foreign construction material in accordance with paragraph (b)(4) of this clause shall include adequate information for Government evaluation of the request, including—
 - (A) A description of the foreign and domestic construction materials;
 - (B) Unit of measure;
 - (C) Quantity;
 - (D) Cost;
 - (E) Time of delivery or availability;
 - (F) Location of the construction project;
 - (G) Name and address of the proposed supplier; and
 - (H) A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(4) of this clause.
 - (ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed cost comparison table in the format in paragraph (d) of this clause.

- (iii) The cost of construction material shall include all delivery costs to the construction site and any applicable duty.
 - (iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.
- (2) If the Government determines after contract award that an exception to section 1605 of the Recovery Act or the Buy American Act applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable cost of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(4)(i) of this clause.
- (3) Unless the Government determines that an exception to section 1605 of the Recovery Act or the Buy American Act applies, use of foreign construction material is noncompliant with section 1605 of the American Recovery and Reinvestment Act or the Buy American Act.
- (d) Data. To permit evaluation of requests under paragraph (c) of this clause based on **unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:**

Foreign and Domestic Construction Materials Cost Comparison

Construction material description	Unit of measure	Quantity	Cost (dollars) *
Item 1:			
Foreign construction material			
Domestic construction material			
Item 2			
Foreign construction material			
Domestic construction material			

[List name, address, telephone number, and contact for suppliers surveyed. Attach copy of response; if oral, attach summary.] [Include other applicable supporting information.]

*Include all delivery costs to the construction site.]

I.71 52.226-1 UTILIZATION OF INDIAN ORGANIZATIONS AND INDIAN-OWNED ECONOMIC ENTERPRISES. (JUN 2000)

(a) *Definitions.* As used in this clause:

“Indian” means any person who is a member of any Indian tribe, band, group, pueblo, or community that is recognized by the Federal Government as eligible for services from the Bureau of Indian Affairs (BIA) in accordance with 25 U.S.C. 1452(c) and any “Native” as defined in the Alaska Native Claims Settlement Act (43 U.S.C. 1601).

“Indian organization” means the governing body of any Indian tribe or entity established or recognized by the governing body of an Indian tribe for the purposes of 25 U.S.C., chapter 17.

“Indian-owned economic enterprise” means any Indian-owned (as determined by the Secretary of the Interior) commercial, industrial, or business activity established or organized for the purpose of profit, provided that Indian ownership constitutes not less than 51 percent of the enterprise.

“Indian tribe” means any Indian tribe, band, group, pueblo, or community, including native villages and native groups (including corporations organized by Kenai, Juneau, Sitka, and Kodiak) as defined in the Alaska Native Claims Settlement Act, that is recognized by the Federal Government as eligible for services from BIA in accordance with 25 U.S.C. 1452(c).

“Interested party” means a prime contractor or an actual or prospective offeror whose direct economic interest would be affected by the award of a subcontract or by the failure to award a subcontract.

(b) The Contractor shall use its best efforts to give Indian organizations and Indian-owned economic enterprises (25 U.S.C. 1544) the maximum practicable opportunity to participate in the subcontracts it awards to the fullest extent consistent with efficient performance of its contract.

(1) The Contracting Officer and the Contractor, acting in good faith, may rely on the representation of an Indian organization or Indian-owned economic enterprise as to its eligibility, unless an interested party challenges its status or the Contracting Officer has independent reason to question that status. In the event of a challenge to the representation of a subcontractor, the Contracting Officer will refer the matter to the -

U.S. Department of the Interior

Bureau of Indian Affairs (BIA)
Attn: Chief, Division of Contracting and
Grants Administration
1849 C Street, NW,
MS-2626-MIB
Washington, DC 20240-4000.

The BIA will determine the eligibility and notify the Contracting Officer. No incentive payment will be made within 50 working days of subcontract award or while a challenge is pending. If a subcontractor is determined to be an ineligible participant, no incentive payment will be made under the Indian Incentive Program.

- (2) The Contractor may request an adjustment under the Indian Incentive Program to the following:
 - (i) The estimated cost of a cost-type contract.
 - (ii) The target cost of a cost-plus-incentive-fee prime contract.
 - (iii) The target cost and ceiling price of a fixed-price incentive prime contract.
 - (iv) The price of a firm-fixed-price prime contract.
- (3) The amount of the adjustment to the prime contract is 5 percent of the estimated cost, target cost, or firm-fixed-price included in the subcontract initially awarded to the Indian organization or Indian-owned economic enterprise.
- (4) The Contractor has the burden of proving the amount claimed and must assert its request for an adjustment prior to completion of contract performance.
- (c) The Contracting Officer, subject to the terms and conditions of the contract and the availability of funds, will authorize an incentive payment of 5 percent of the amount paid to the subcontractor. The Contracting Officer will seek funding in accordance with agency procedures.

I.72 52.227-10 FILING OF PATENT APPLICATIONS - CLASSIFIED SUBJECT MATTER. (DEC 2007)

- (a) Before filing or causing to be filed a patent application in the United States disclosing any subject matter of this contract classified "Secret" or higher, the Contractor shall, citing the 30-day provision below, transmit the proposed

application to the Contracting Officer. The Government shall determine whether, for reasons of national security, the application should be placed under an order of secrecy, sealed in accordance with the provision of 35 U.S.C. 181-188, or the issuance of a patent otherwise delayed under pertinent United States statutes or regulations. The Contractor shall observe any instructions of the Contracting Officer regarding the manner of delivery of the patent application to the United States Patent Office, but the Contractor shall not be denied the right to file the application. If the Contracting Officer shall not have given any such instructions within 30 days from the date of mailing or other transmittal of the proposed application, the Contractor may file the application.

- (b) Before filing a patent application in the United States disclosing any subject matter of this contract classified “Confidential,” the Contractor shall furnish to the Contracting Officer a copy of the application for Government determination whether, for reasons of national security, the application should be placed under an order of secrecy or the issuance of a patent should be otherwise delayed under pertinent United States statutes or regulations.
- (c) Where the subject matter of this contract is classified for reasons of security, the Contractor shall not file, or cause to be filed, in any country other than in the United States as provided in paragraphs (a) and (b) of this clause, an application or registration for a patent containing any of the subject matter of this contract without first obtaining written approval of the Contracting Officer.
- (d) When filing any patent application coming within the scope of this clause, the Contractor shall observe all applicable security regulations covering the transmission of classified subject matter and shall promptly furnish to the Contracting Officer the serial number, filing date, and name of the country of any such application. When transmitting the application to the United States Patent Office, the Contractor shall by separate letter identify by agency and number the contract or contracts that require security classification markings to be placed on the application.
- (e) The Contractor shall include the substance of this clause, including this paragraph (e), in all subcontracts that cover or are likely to cover classified subject matter.

I.73 52.229-8 TAXES - FOREIGN COST-REIMBURSEMENT CONTRACTS. (MAR 1990)

- (a) Any tax or duty from which the United States Government is exempt by agreement with the Government of [*insert name of the foreign government*], or from which the Contractor or any subcontractor under this contract is exempt under the laws of [*insert name of country*], shall not constitute an allowable cost under this contract.

- (b) If the Contractor or subcontractor under this contract obtains a foreign tax credit that reduces its Federal income tax liability under the United States Internal Revenue Code (Title 26, U.S. Code) because of the payment of any tax or duty that was reimbursed under this contract, the amount of the reduction shall be paid or credited at the time of such offset to the Government of the United States as the Contracting Officer directs.

I.74 52.230-2 COST ACCOUNTING STANDARDS. (OCT 2008)

- (a) Unless the contract is exempt under 48 CFR 9903.201-1 and 9903.201-2, the provisions of 48 CFR Part 9903 are incorporated herein by reference and the Contractor, in connection with this contract, shall --
 - (1) *(CAS-covered Contracts Only)* By submission of a Disclosure Statement, disclose in writing the Contractor's cost accounting practices as required by 48 CFR 9903.202-1 through 9903.202-5, including methods of distinguishing direct costs from indirect costs and the basis used for allocating indirect costs. The practices disclosed for this contract shall be the same as the practices currently disclosed and applied on all other contracts and subcontracts being performed by the Contractor and which contain a Cost Accounting Standards (CAS) clause. If the Contractor has notified the Contracting Officer that the Disclosure Statement contains trade secrets and commercial or financial information which is privileged and confidential, the Disclosure Statement shall be protected and shall not be released outside of the Government.
 - (2) Follow consistently the Contractor's cost accounting practices in accumulating and reporting contract performance cost data concerning this contract. If any change in cost accounting practices is made for the purposes of any contract or subcontract subject to CAS requirements, the change must be applied prospectively to this contract and the Disclosure Statement must be amended accordingly. If the contract price or cost allowance of this contract is affected by such changes, adjustment shall be made in accordance with subparagraph (a)(4) or (a)(5) of this clause, as appropriate.
 - (3) Comply with all CAS, including any modifications and interpretations indicated thereto contained in 48 CFR Part 9904, in effect on the date of award of this contract or, if the Contractor has submitted cost or pricing data, on the date of final agreement on price as shown on the Contractor's signed certificate of current cost or pricing data. The Contractor shall also comply with any CAS (or modifications to CAS) which hereafter become applicable to a contract or subcontract of the Contractor. Such compliance shall be required prospectively from the date of applicability to such contract or subcontract.

- (4) (i) Agree to an equitable adjustment as provided in the Changes clause of this contract if the contract cost is affected by a change which, pursuant to subparagraph (a)(3) of this clause, the Contractor is required to make to the Contractor's established cost accounting practices.
 - (ii) Negotiate with the Contracting Officer to determine the terms and conditions under which a change may be made to a cost accounting practice, other than a change made under other provisions of subparagraph (a)(4) of this clause; provided that no agreement may be made under this provision that will increase costs paid by the United States.
 - (iii) When the parties agree to a change to a cost accounting practice, other than a change under subdivision (a)(4)(i) of this clause, negotiate an equitable adjustment as provided in the Changes clause of this contract.
- (5) Agree to an adjustment of the contract price or cost allowance, as appropriate, if the Contractor or a subcontractor fails to comply with an applicable Cost Accounting Standard, or to follow any cost accounting practice consistently and such failure results in any increased costs paid by the United States. Such adjustment shall provide for recovery of the increased costs to the United States, together with interest thereon computed at the annual rate established under section 6621(a)(2) of the Internal Revenue Code of 1986 (26 U.S.C.6621(a)(2)) for such period, from the time the payment by the United States was made to the time the adjustment is effected. In no case shall the Government recover costs greater than the increased cost to the Government, in the aggregate, on the relevant contracts subject to the price adjustment, unless the Contractor made a change in its cost accounting practices of which it was aware or should have been aware at the time of price negotiations and which it failed to disclose to the Government.
- (b) If the parties fail to agree whether the Contractor or a subcontractor has complied with an applicable CAS in 48 CFR 9904 or a CAS rule or regulation in 48 CFR 9903 and as to any cost adjustment demanded by the United States, such failure to agree will constitute a dispute under the Contract Disputes Act (41 U.S.C.601).
 - (c) The Contractor shall permit any authorized representatives of the Government to examine and make copies of any documents, papers, or records relating to compliance with the requirements of this clause.
 - (d) The Contractor shall include in all negotiated subcontracts which the Contractor enters into, the substance of this clause, except paragraph (b), and shall require such inclusion in all other subcontracts, of any tier, including the obligation to comply with all CAS in effect on the subcontractor's award date or if the subcontractor has submitted cost or pricing data, on the date of final agreement on price as shown on the subcontractor's signed Certificate of Current Cost or Pricing Data. If the

subcontract is awarded to a business unit which pursuant to 48 CFR 9903.201-2 is subject to other types of CAS coverage, the substance of the applicable clause set forth in subsection 30.201-4 of the Federal Acquisition Regulation shall be inserted. This requirement shall apply only to negotiated subcontracts in excess of \$650,000, except that the requirement shall not apply to negotiated subcontracts otherwise exempt from the requirement to include a CAS clause as specified in 48 CFR 9903.201-1.

I.75 52.230-6 ADMINISTRATION OF COST ACCOUNTING STANDARDS. (MAR 2008)

For the purpose of administering the Cost Accounting Standards (CAS) requirements under this contract, the Contractor shall take the steps outlined in paragraphs (b) through (i) and (k) through (n) of this clause:

(a) *Definitions.* As used in this clause—

“Affected CAS-covered contract or subcontract” means a contract or subcontract subject to CAS rules and regulations for which a Contractor or subcontractor--

- (1) Used one cost accounting practice to estimate costs and a changed cost accounting practice to accumulate and report costs under the contract or subcontract; or
- (2) Used a noncompliant practice for purposes of estimating or accumulating and reporting costs under the contract or subcontract.

“Cognizant Federal agency official (CFAO)” means the Contracting Officer assigned by the cognizant Federal agency to administer the CAS.

“Desirable change” means a compliant change to a Contractor's established or disclosed cost accounting practices that the CFAO finds is desirable and not detrimental to the Government and is, therefore, not subject to the no increased cost prohibition provisions of CAS-covered contracts and subcontracts affected by the change.

“Fixed-price contracts and subcontracts” means--

- (1) Fixed-price contracts and subcontracts described at FAR 16.202, 16.203, (except when price adjustments are based on actual costs of labor or material, described at 16.203-1(a)(2)), and 16.207;
- (2) Fixed-price incentive contracts and subcontracts where the price is not adjusted based on actual costs incurred (FAR Subpart 16.4);

- (3) Orders issued under indefinite-delivery contracts and subcontracts where final payment is not based on actual costs incurred (FAR Subpart 16.5); and
- (4) The fixed-hourly rate portion of time-and-materials and labor-hours contracts and subcontracts (FAR Subpart 16.6).

“Flexibly-priced contracts and subcontracts” means—

- (1) Fixed-price contracts and subcontracts described at FAR 16.203-1(a)(2), 16.204, 16.205, and 16.206;
- (2) Cost-reimbursement contracts and subcontracts (FAR Subpart 16.3);
- (3) Incentive contracts and subcontracts where the price may be adjusted based on actual costs incurred (FAR Subpart 16.4);
- (4) Orders issued under indefinite-delivery contracts and subcontracts where final payment is based on actual costs incurred (FAR Subpart 16.5); and
- (5) The materials portion of time-and-materials contracts and subcontracts (FAR Subpart 16.6).

“Noncompliance” means a failure in estimating, accumulating, or reporting costs to--

- (1) Comply with applicable CAS; or
- (2) Consistently follow disclosed or established cost accounting practices.

“Required change” means—

- (1) A change in cost accounting practice that a Contractor is required to make in order to comply with applicable Standards, modifications or interpretations thereto, that subsequently becomes applicable to existing CAS-covered contracts or subcontracts due to the receipt of another CAS-covered contract or subcontract; or
- (2) A prospective change to a disclosed or established cost accounting practice when the CFAO determines that the former practice was in compliance with applicable CAS and the change is necessary for the Contractor to remain in compliance.

“Unilateral change” means a change in cost accounting practice from one compliant practice to another compliant practice that a Contractor with a CAS-covered

contract(s) or subcontract(s) elects to make that has not been deemed a desirable change by the CFAO and for which the Government will pay no aggregate increased costs.

- (b) Submit to the CFAO a description of any cost accounting practice change as outlined in paragraphs (b)(1) through (3) of this clause (including revisions to the Disclosure Statement, if applicable), and any written statement that the cost impact of the change is immaterial. If a change in cost accounting practice is implemented without submitting the notice required by this paragraph, the CFAO may determine the change to be a failure to follow paragraph (a)(2) of the clause at FAR 52.230-2, Cost Accounting Standards; paragraph (a)(4) of the clause at FAR 52.230-3, Disclosure and Consistency of Cost Accounting Practices; or paragraph (a)(2) of the clause at FAR 52.230-5, Cost Accounting Standards--Educational Institution.
- (1) When a description has been submitted for a change in cost accounting practice that is dependent on a contract award and that contract is subsequently awarded, notify the CFAO within 15 days after such award.
 - (2) For any change in cost accounting practice not covered by (b)(1) of this clause that is required in accordance with paragraphs (a)(3) and (a)(4)(i) of the clause at FAR 52.230-2; or paragraphs (a)(3), (a)(4)(i), or (a)(4)(iv) of the clause at FAR 52.230-5; submit a description of the change to the CFAO not less than 60 days (or such other date as may be mutually agreed to by the CFAO and the Contractor) before implementation of the change.
 - (3) For any change in cost accounting practices proposed in accordance with paragraph (a)(4)(ii) or (iii) of the clauses at FAR 52.230-2 and FAR 52.230-5; or with paragraph (a)(3) of the clause at FAR 52.230-3, submit a description of the change not less than 60 days (or such other date as may be mutually agreed to by the CFAO and the Contractor) before implementation of the change. If the change includes a proposed retroactive date submit supporting rationale.
 - (4) Submit a description of the change necessary to correct a failure to comply with an applicable CAS or to follow a disclosed practice (as contemplated by paragraph (a)(5) of the clause at FAR 52.230-2 and FAR 52.230-5; or by paragraph (a)(4) of the clause at FAR 52.230-3)--
 - (i) Within 60 days (or such other date as may be mutually agreed to by the CFAO and the Contractor) after the date of agreement with the CFAO that there is a noncompliance; or
 - (ii) In the event of Contractor disagreement, within 60 days after the CFAO notifies the Contractor of the determination of noncompliance.

- (c) When requested by the CFAO, submit on or before a date specified by the CFAO--
 - (1) A general dollar magnitude (GDM) proposal in accordance with paragraph (d) or (g) of this clause. The Contractor may submit a detailed cost-impact (DCI) proposal in lieu of the requested GDM proposal provided the DCI proposal is in accordance with paragraph (e) or (h) of this clause;
 - (2) A detailed cost-impact (DCI) proposal in accordance with paragraph (e) or (h) of this clause;
 - (3) For any request for a desirable change that is based on the criteria in FAR 30.603-2(b)(3)(ii), the data necessary to demonstrate the required cost savings; and
 - (4) For any request for a desirable change that is based on criteria other than that in FAR 30.603-2(b)(3)(ii), a GDM proposal and any other data necessary for the CFAO to determine if the change is a desirable change.
- (d) For any change in cost accounting practice subject to paragraph (b)(1), (b)(2), or (b)(3) of this clause, the GDM proposal shall--
 - (1) Calculate the cost impact in accordance with paragraph (f) of this clause;
 - (2) Use one or more of the following methods to determine the increase or decrease in cost accumulations:
 - (i) A representative sample of affected CAS-covered contracts and subcontracts.
 - (ii) The change in indirect rates multiplied by the total estimated base computed for each of the following groups:
 - (A) Fixed-price contracts and subcontracts.
 - (B) Flexibly-priced contracts and subcontracts.
 - (iii) Any other method that provides a reasonable approximation of the total increase or decrease in cost accumulations for all affected fixed-price and flexibly-priced contracts and subcontracts;
 - (3) Use a format acceptable to the CFAO but, as a minimum, include the following data:
 - (i) The estimated increase or decrease in cost accumulations by Executive agency, including any impact the change may have on contract and

subcontract incentives, fees, and profits, for each of the following groups:

- (A) Fixed-price contracts and subcontracts.
- (B) Flexibly-priced contracts and subcontracts.
- (ii) For unilateral changes, the increased or decreased costs to the Government for each of the following groups:
 - (A) Fixed-price contracts and subcontracts.
 - (B) Flexibly-priced contracts and subcontracts; and
- (4) When requested by the CFAO, identify all affected CAS- covered contracts and subcontracts.
- (e) For any change in cost accounting practice subject to paragraph (b)(1), (b)(2), or (b)(3) of this clause, the DCI proposal shall--
 - (1) Show the calculation of the cost impact in accordance with paragraph (f) of this clause;
 - (2) Show the estimated increase or decrease in cost accumulations for each affected CAS-covered contract and subcontract unless the CFAO and Contractor agree to include--
 - (i) Only those affected CAS-covered contracts and subcontracts having an estimate to complete exceeding a specified amount; and
 - (ii) An estimate of the total increase or decrease in cost accumulations for all affected CAS-covered contracts and subcontracts, using the results in paragraph (e)(2)(i) of this clause;
 - (3) Use a format acceptable to the CFAO but, as a minimum, include the information in paragraph (d)(3) of this clause; and
 - (4) When requested by the CFAO, identify all affected CAS- covered contracts and subcontracts.
- (f) For GDM and DCI proposals that are subject to the requirements of paragraph (d) or (e) of this clause, calculate the cost impact as follows:
 - (1) The cost impact calculation shall include all affected CAS- covered contracts and subcontracts regardless of their status (*i.e.*, open or closed) or the fiscal

year in which the costs were incurred (*i.e.*, whether or not the final indirect rates have been established).

- (2) For unilateral changes--
 - (i) Determine the increased or decreased cost to the Government for flexibly-priced contracts and subcontracts as follows:
 - (A) When the estimated cost to complete using the changed practice exceeds the estimated cost to complete using the current practice, the difference is increased cost to the Government.
 - (B) When the estimated cost to complete using the changed practice is less than the estimated cost to complete using the current practice, the difference is decreased cost to the Government;
 - (ii) Determine the increased or decreased cost to the Government for fixed-priced contracts and subcontracts as follows:
 - (A) When the estimated cost to complete using the changed practice is less than the estimated cost to complete using the current practice, the difference is increased cost to the Government.
 - (B) When the estimated cost to complete using the changed practice exceeds the estimated cost to complete using the current practice, the difference is decreased cost to the Government;
 - (iii) Calculate the total increase or decrease in contract and subcontract incentives, fees, and profits associated with the increased or decreased costs to the Government in accordance with 48 CFR 9903.306(c). The associated increase or decrease is based on the difference between the negotiated incentives, fees, and profits and the amounts that would have been negotiated had the cost impact been known at the time the contracts and subcontracts were negotiated; and
 - (iv) Calculate the increased cost to the Government in the aggregate.
- (3) For equitable adjustments for required or desirable changes--
 - (i) Estimated increased cost accumulations are the basis for increasing contract prices, target prices and cost ceilings; and
 - (ii) Estimated decreased cost accumulations are the basis for decreasing contract prices, target prices and cost ceilings.

- (g) For any noncompliant cost accounting practice subject to paragraph (b)(4) of this clause, prepare the GDM proposal as follows:
- (1) Calculate the cost impact in accordance with paragraph (i) of this clause.
 - (2) Use one or more of the following methods to determine the increase or decrease in contract and subcontract prices or cost accumulations, as applicable:
 - (i) A representative sample of affected CAS-covered contracts and subcontracts.
 - (ii) When the noncompliance involves cost accumulation the change in indirect rates multiplied by the applicable base for only flexibly-priced contracts and subcontracts.
 - (iii) Any other method that provides a reasonable approximation of the total increase or decrease.
 - (3) Use a format acceptable to the CFAO but, as a minimum, include the following data:
 - (i) The total increase or decrease in contract and subcontract price and cost accumulations, as applicable, by Executive agency, including any impact the noncompliance may have on contract and subcontract incentives, fees, and profits, for each of the following groups:
 - (A) Fixed-price contracts and subcontracts.
 - (B) Flexibly-priced contracts and subcontracts.
 - (ii) The increased or decreased cost to the Government for each of the following groups:
 - (A) Fixed-price contracts and subcontracts.
 - (B) Flexibly-priced contracts and subcontracts.
 - (iii) The total overpayments and underpayments made by the Government during the period of noncompliance.
 - (4) When requested by the CFAO, identify all CAS-covered contracts and subcontracts.

- (h) For any noncompliant practice subject to paragraph (b)(4) of this clause, prepare the DCI proposal as follows:
 - (1) Calculate the cost impact in accordance with paragraph (i) of this clause.
 - (2) Show the increase or decrease in price and cost accumulations for each affected CAS-covered contract and subcontract unless the CFAO and Contractor agree to--
 - (i) Include only those affected CAS-covered contracts and subcontracts having--
 - (A) Contract and subcontract values exceeding a specified amount when the noncompliance involves estimating costs; and
 - (B) Incurred costs exceeding a specified amount when the noncompliance involves accumulating costs; and
 - (ii) Estimate the total increase or decrease in price and cost accumulations for all affected CAS-covered contracts and subcontracts using the results in paragraph (h)(2)(i) of this clause.
 - (3) Use a format acceptable to the CFAO that, as a minimum, include the information in paragraph (g)(3) of this clause.
 - (4) When requested by the CFAO, identify all CAS-covered contracts and subcontracts.
- (i) For GDM and DCI proposals that are subject to the requirements of paragraph (g) or (h) of this clause, calculate the cost impact as follows:
 - (1) The cost impact calculation shall include all affected CAS- covered contracts and subcontracts regardless of their status (*i.e.*, open or closed) or the fiscal year in which the costs are incurred (*i.e.*, whether or not the final indirect rates have been established).
 - (2) For noncompliances that involve estimating costs, determine the increased or decreased cost to the Government for fixed-price contracts and subcontracts as follows:
 - (i) When the negotiated contract or subcontract price exceeds what the negotiated price would have been had the Contractor used a compliant practice, the difference is increased cost to the Government.

- (ii) When the negotiated contract or subcontract price is less than what the negotiated price would have been had the Contractor used a compliant practice, the difference is decreased cost to the Government.
- (3) For noncompliances that involve accumulating costs, determine the increased or decreased cost to the Government for flexibly-priced contracts and subcontracts as follows:
 - (i) When the costs that were accumulated under the noncompliant practice exceed the costs that would have been accumulated using a compliant practice (from the time the noncompliant practice was first implemented until the date the noncompliant practice was replaced with a compliant practice), the difference is increased cost to the Government.
 - (ii) When the costs that were accumulated under the noncompliant practice are less than the costs that would have been accumulated using a compliant practice (from the time the noncompliant practice was first implemented until the date the noncompliant practice was replaced with a compliant practice), the difference is decreased cost to the Government.
- (4) Calculate the total increase or decrease in contract and subcontracts incentives, fees, and profits associated with the increased or decreased cost to the Government in accordance with 48 CFR 9903.306(c). The associated increase or decrease is based on the difference between the negotiated incentives, fees, and profits and the amounts that would have been negotiated had the Contractor used a compliant practice.
- (5) Calculate the increased cost to the Government in the aggregate.
- (j) If the Contractor does not submit the information required by paragraph (b) or (c) of this clause within the specified time, or any extension granted by the CFAO, the CFAO may take one or both of the following actions:
 - (1) Withhold an amount not to exceed 10 percent of each subsequent amount payment to the Contractor's affected CAS-covered contracts, (up to the estimated general dollar magnitude of the cost impact), until such time as the Contractor provides the required information to the CFAO.
 - (2) Issue a final decision in accordance with FAR 33.211 and unilaterally adjust the contract(s) by the estimated amount of the cost impact.
- (k) Agree to--

- (1) Contract modifications to reflect adjustments required in accordance with paragraph (a)(4)(ii) or (a)(5) of the clauses at FAR 52.230-2 and 52.230-5; or with paragraph (a)(3)(i) or (a)(4) of the clause at FAR 52.230-3; and
 - (2) Repay the Government for any aggregate increased cost paid to the Contractor.
- (l) For all subcontracts subject to the clauses at FAR 52.230-2, 52.230-3, or 52.230-5--
- (1) So state in the body of the subcontract, in the letter of award, or in both (do not use self-deleting clauses);
 - (2) Include the substance of this clause in all negotiated subcontracts; and
 - (3) Within 30 days after award of the subcontract, submit the following information to the Contractor's CFAO:
 - (i) Subcontractor's name and subcontract number.
 - (ii) Dollar amount and date of award.
 - (iii) Name of Contractor making the award.
- (m) Notify the CFAO in writing of any adjustments required to subcontracts under this contract and agree to an adjustment to this contract price or estimated cost and fee. The Contractor shall—
- (1) Provide this notice within 30 days after the Contractor receives the proposed subcontract adjustments; and
 - (2) Include a proposal for adjusting the higher-tier subcontract or the contract appropriately.
- (n) For subcontracts containing the clause or substance of the clause at FAR 52.230-2, FAR 52.230-3, or FAR 52.230-5, require the subcontractor to comply with all Standards in effect on the date of award or of final agreement on price, as shown on the subcontractor's signed Certificate of Current Cost or Pricing Data, whichever is earlier.

I.76 52.232-17 INTEREST. (OCT 2008)

- (a) Except as otherwise provided in this contract under a Price Reduction for Defective Cost or Pricing Data clause or a Cost Accounting Standards clause, all amounts that become payable by the Contractor to the Government under this contract shall bear

simple interest from the date due until paid unless paid within 30 days of becoming due. The interest rate shall be the interest rate established by the Secretary of the Treasury as provided in Section 611 of the Contract Disputes Act of 1978 (Public Law 95-563), which is applicable to the period in which the amount becomes due, as provided in paragraph (e) of this clause, and then at the rate applicable for each six-month period as fixed by the Secretary until the amount is paid.

- (b) The Government may issue a demand for payment to the Contractor upon finding a debt is due under the contract.
- (c) Final Decisions. The Contracting Officer will issue a final decision as required by 33.211 if—
 - (1) The Contracting Officer and the Contractor are unable to reach agreement on the existence or amount of a debt in a timely manner;
 - (2) The Contractor fails to liquidate a debt previously demanded by the Contracting Officer within the timeline specified in the demand for payment unless the amounts were not repaid because the Contractor has requested an installment payment agreement; or
 - (3) The Contractor requests a deferment of collection on a debt previously demanded by the Contracting Officer (see 32.607-2).
- (d) If a demand for payment was previously issued for the debt, the demand for payment included in the final decision shall identify the same due date as the original demand for payment.
- (e) Amounts shall be due at the earliest of the following dates:
 - (1) The date fixed under this contract.
 - (2) The date of the first written demand for payment, including any demand for payment resulting from a default termination.
- (f) The interest charge shall be computed for the actual number of calendar days involved beginning on the due date and ending on—
 - (1) The date on which the designated office receives payment from the Contractor;
 - (2) The date of issuance of a Government check to the Contractor from which an amount otherwise payable has been withheld as a credit against the contract debt; or

- (3) The date on which an amount withheld and applied to the contract debt would otherwise have become payable to the Contractor.
- (g) The interest charge made under this clause may be reduced under the procedures prescribed in 32.608-2 of the Federal Acquisition Regulation in effect on the date of this contract.

I.77 52.232-24 PROHIBITION OF ASSIGNMENT OF CLAIMS. (JAN 1986)

The assignment of claims under the Assignment of Claims Act of 1940, as amended, 31 U.S.C. 3727, 41 U.S.C. 15, is prohibited for this contract.

I.78 52.233-1 DISPUTES. (JUL 2002) - ALTERNATE I (DEC 1991)

- (a) This contract is subject to the Contract Disputes Act of 1978, as amended (41 U.S.C. 601-613).
- (b) Except as provided in the Act, all disputes arising under or relating to this contract shall be resolved under this clause.
- (c) Claim, as used in this clause, means a written demand or written assertion by one of the contracting parties seeking, as a matter of right, the payment of money in a sum certain, the adjustment or interpretation of contract terms, or other relief arising under or relating to this contract. However, a written demand or written assertion by the Contractor seeking the payment of money exceeding \$100,000 is not a claim under the Act until certified. A voucher, invoice, or other routine request for payment that is not in dispute when submitted is not a claim under the Act. The submission may be converted to a claim under the Act, by complying with the submission and certification requirements of this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.
- (d)
 - (1) A claim by the Contractor shall be made in writing and, unless otherwise stated in this contract, submitted within 6 years after accrual of the claim to the Contracting Officer for a written decision. A claim by the Government against the Contractor shall be subject to a written decision by the Contracting Officer.
 - (2)
 - (i) The Contractor shall provide the certification specified in paragraph (d)(2)(iii) of this clause when submitting any claim exceeding \$100,000.
 - (ii) The certification requirement does not apply to issues in controversy that have not been submitted as all or part of a claim.

- (iii) The certification shall state as follows: “I certify that the claim is made in good faith; that the supporting data are accurate and complete to the best of my knowledge and belief; that the amount requested accurately reflects the contract adjustment for which the Contractor believes the Government is liable; and that I am duly authorized to certify the claim on behalf of the Contractor.”
- (3) The certification may be executed by any person duly authorized to bind the Contractor with respect to the claim.
- (e) For Contractor claims of \$100,000 or less, the Contracting Officer must, if requested in writing by the Contractor, render a decision within 60 days of the request. For Contractor-certified claims over \$100,000, the Contracting Officer must, within 60 days, decide the claim or notify the Contractor of the date by which the decision will be made.
- (f) The Contracting Officer's decision shall be final unless the Contractor appeals or files a suit as provided in the Act.
- (g) If the claim by the Contractor is submitted to the Contracting Officer or a claim by the Government is presented to the Contractor, the parties, by mutual consent, may agree to use alternative dispute resolution (ADR). If the Contractor refuses an offer for ADR, the Contractor shall inform the Contracting Officer, in writing, of the Contractor's specific reasons for rejecting the offer.
- (h) The Government shall pay interest on the amount found due and unpaid from
 - (1) the date that the Contracting Officer receives the claim (certified, if required); or
 - (2) the date that payment otherwise would be due, if that date is later, until the date of payment. With regard to claims having defective certifications, as defined in FAR 33.201, interest shall be paid from the date that the Contracting Officer initially receives the claim. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the Contracting Officer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim.
- (i) The Contractor shall proceed diligently with performance of this contract, pending final resolution of any request for relief, claim, appeal, or action arising under or relating to the contract, and comply with any decision of the Contracting Officer.

I.79 52.233-3 PROTEST AFTER AWARD. (AUG 1996) - ALTERNATE I (JUN 1985)

- (a) Upon receipt of a notice of protest (as defined in FAR 33.101) or a determination that a protest is likely (see FAR 33.102(d)), the Contracting Officer may, by written order to the Contractor, direct the Contractor to stop performance of the work called for by this contract. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Upon receipt of the final decision in the protest, the Contracting Officer shall either -
- (1) Cancel the stop-work order; or
 - (2) Terminate the work covered by the order as provided in the Termination clause of this contract.
- (b) If a stop-work order issued under this clause is canceled either before or after a final decision in the protest, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule, the estimated cost, the fee, or a combination thereof, and in any other terms of the contract that may be affected and the contract shall be modified, in writing, accordingly, if -
- (1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
 - (2) The Contractor asserts its right to an adjustment within 30 days after the end of the period of work stoppage; *provided*, that if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon a proposal at any time before final payment under this contract.
- (c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.
- (d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.
- (e) The Government's rights to terminate this contract at any time are not affected by action taken under this clause.

- (f) If, as the result of the Contractor's intentional or negligent misstatement, misrepresentation, or miscertification, a protest related to this contract is sustained, and the Government pays costs, as provided in FAR 33.102(b)(2) or 33.104(h)(1), the Government may require the Contractor to reimburse the Government the amount of such costs. In addition to any other remedy available, and pursuant to the requirements of Subpart 32.6, the Government may collect this debt by offsetting the amount against any payment due the Contractor under any contract between the Contractor and the Government.

I.80 52.233-4 APPLICABLE LAW FOR BREACH OF CONTRACT CLAIM (OCT 2004)

United States law will apply to resolve any claim of breach of this contract.

I.81 52.236-8 OTHER CONTRACTS. (APR 1984)

The Government may undertake or award other contracts for additional work at or near the site of the work under this contract. The Contractor shall fully cooperate with the other contractors and with Government employees and shall carefully adapt scheduling and performing the work under this contract to accommodate the additional work, heeding any direction that may be provided by the Contracting Officer. The Contractor shall not commit or permit any act that will interfere with the performance of work by any other contractor or by Government employees.

I.82 52.237-2 PROTECTION OF GOVERNMENT BUILDINGS, EQUIPMENT, AND VEGETATION (APR 1984)

The Contractor shall use reasonable care to avoid damaging existing buildings, equipment, and vegetation on the Government installation. If the Contractor's failure to use reasonable care causes damage to any of this property, the Contractor shall replace or repair the damage at no expense to the Government as the Contracting Officer directs. If the Contractor fails or refuses to make such repair or replacement, the Contractor shall be liable for the cost, which may be deducted from the contract price.

I.83 52.237-3 CONTINUITY OF SERVICES. (JAN 1991)

- (a) The Contractor recognizes that the services under this contract are vital to the Government and must be continued without interruption and that, upon contract expiration, a successor, either the Government or another contractor, may continue them. The Contractor agrees to -

- (1) Furnish phase-in training; and
 - (2) Exercise its best efforts and cooperation to effect an orderly and efficient transition to a successor.
- (b) The Contractor shall, upon the Contracting Officer's written notice, (1) furnish phase-in, phase-out services for up to 90 days after this contract expires and (2) negotiate in good faith a plan with a successor to determine the nature and extent of phase-in, phase-out services required. The plan shall specify a training program and a date for transferring responsibilities for each division of work described in the plan, and shall be subject to the Contracting Officer's approval. The Contractor shall provide sufficient experienced personnel during the phase-in, phase-out period to ensure that the services called for by this contract are maintained at the required level of proficiency.
- (c) The Contractor shall allow as many personnel as practicable to remain on the job to help the successor maintain the continuity and consistency of the services required by this contract. The Contractor also shall disclose necessary personnel records and allow the successor to conduct on-site interviews with these employees. If selected employees are agreeable to the change, the Contractor shall release them at a mutually agreeable date and negotiate transfer of their earned fringe benefits to the successor.
- (d) The Contractor shall be reimbursed for all reasonable phase-in, phase-out costs (*i.e.*, costs incurred within the agreed period after contract expiration that result from phase-in, phase-out operations) and a fee (profit) not to exceed a pro rata portion of the fee (profit) under this contract.

I.84 RESERVED

I.85 52.242-1 NOTICE OF INTENT TO DISALLOW COSTS. (APR 1984)

- (a) Notwithstanding any other clause of this contract -
- (1) The Contracting Officer may at any time issue to the Contractor a written notice of intent to disallow specified costs incurred or planned for incurrence under this contract that have been determined not to be allowable under the contract terms; and
 - (2) The Contractor may, after receiving a notice under subparagraph (1) above, submit a written response to the Contracting Officer, with justification for allowance of the costs. If the Contractor does respond within 60 days, the

Contracting Officer shall, within 60 days of receiving the response, either make a written withdrawal of the notice or issue a written decision.

- (b) Failure to issue a notice under this Notice of Intent to Disallow Costs clause shall not affect the Government's rights to take exception to incurred costs.

I.86 RESERVED

I.87 52.242-13 BANKRUPTCY. (JUL 1995)

In the event the Contractor enters into proceedings relating to bankruptcy, whether voluntary or involuntary, the Contractor agrees to furnish, by certified mail or electronic commerce method authorized by the contract, written notification of the bankruptcy to the Contracting Officer responsible for administering the contract. This notification shall be furnished within five days of the initiation of the proceedings relating to bankruptcy filing. This notification shall include the date on which the bankruptcy petition was filed, the identity of the court in which the bankruptcy petition was filed, and a listing of Government contract numbers and contracting offices for all Government contracts against which final payment has not been made. This obligation remains in effect until final payment under this contract.

I.88 52.244-5 COMPETITION IN SUBCONTRACTING. (DEC 1996)

- (a) The Contractor shall select subcontractors (including suppliers) on a competitive basis to the maximum practical extent consistent with the objectives and requirements of the contract.
- (b) If the Contractor is an approved mentor under the Department of Defense Pilot Mentor-Protégé Program (Pub. L. 101-510, section 831 as amended), the Contractor may award subcontracts under this contract on a noncompetitive basis to its protégés.

I.89 52.244-6 SUBCONTRACTS FOR COMMERCIAL ITEMS. (DEC 2009)

- (a) *Definitions.* As used in this clause--

“Commercial item” has the meaning contained Federal Acquisition Regulation 2.101, Definitions.

“Subcontract” includes a transfer of commercial items between divisions, subsidiaries, or affiliates of the Contractor or subcontractor at any tier.

- (b) To the maximum extent practicable, the Contractor shall incorporate, and require its subcontractors at all tiers to incorporate, commercial items or nondevelopmental items as components of items to be supplied under this contract.
- (c) (1) The Contractor shall insert the following clauses in subcontracts for commercial items:
- (i) 52.203-13, Contractor Code of Business Ethics and Conduct (Dec 2008) (Pub. L. 110-252, Title VI, Chapter 1 (41 U.S.C. 251 note)), if the subcontract exceeds \$5,000,000 and has a performance period of more than 120 days. In altering this clause to identify the appropriate parties, all disclosures of violation of the civil False Claims Act or of Federal criminal law shall be directed to the agency Office of the Inspector General, with a copy to the Contracting Officer.
 - (ii) 52.203-15, Whistleblower Protections Under the American Recovery and Reinvestment Act of 2009 (Section 1553 of Pub. L. 111-5), if the subcontract is funded under the Recovery Act.
 - (iii) 52.219-8, Utilization of Small Business Concerns (May 2004) (15 U.S.C. 637(d)(2) and (3)), if the subcontract offers further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds \$550,000 (\$1,000,000 for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.
 - (iv) 52.222-26, Equal Opportunity (Mar 2007) (E.O. 11246).
 - (v) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (Sep 2006) (38 U.S.C. 4212(a));
 - (vi) 52.222-36, Affirmative Action for Workers with Disabilities (Jun 1998) (29 U.S.C. 793).
 - (vii) [Reserved]
 - (viii) 52.222-50, Combating Trafficking in Persons (Feb 2009) (22 U.S.C. 7104(g)).
 - (ix) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (Feb 2006) (46 U.S.C. App. 1241 and 10 U.S.C. 2631), if flow down is required in accordance with paragraph (d) of FAR clause 52.247-64.

- (2) While not required, the Contractor may flow down to subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.
- (d) The Contractor shall include the terms of this clause, including this paragraph (d), in subcontracts awarded under this contract.

I.90 52.247-1 COMMERCIAL BILL OF LADING NOTATIONS. (FEB 2006)

When the Contracting Officer authorizes supplies to be shipped on a commercial bill of lading and the Contractor will be reimbursed these transportation costs as direct allowable costs, the Contractor shall ensure before shipment is made that the commercial shipping documents are annotated with either of the following notations, as appropriate:

- (a) If the Government is shown as the consignor or the consignee, the annotation shall be:

Transportation is for the U.S. Department of Energy and the actual total transportation charges paid to the carrier(s) by the consignor or consignee are assignable to, and shall be reimbursed by, the Government.

- (b) If the Government is not shown as the consignor or the consignee, the annotation shall be:

Transportation is for the U.S. Department of Energy and the actual total transportation charges paid to the carrier(s) by the consignor or consignee shall be reimbursed by the Government, pursuant to cost-reimbursement Contract No. DE-AC02-98CH10886. This may be confirmed by contacting the U.S. Department of Energy, Brookhaven Site Office, 53 Bell Avenue, Bldg. 464, Upton, New York 11973.

I.91 52.247-63 PREFERENCE FOR U.S.-FLAG AIR CARRIERS. (JUN 2003)

- (a) Definitions. As used in this clause--

“International air transportation” means transportation by air between a place in the United States and a place outside the United States or between two places both of which are outside the United States.

“United States” means the 50 States, the District of Columbia, and outlying areas.

“U.S.-flag air carrier” means an air carrier holding a certificate under 49 U.S.C. Chapter 411.

- (b) Section 5 of the International Air Transportation Fair Competitive Practices Act of 1974 (49 U.S.C. 40118) (Fly America Act) requires that all Federal agencies and Government contractors and subcontractors use U.S.-flag air carriers for U.S. Government-financed international air transportation of personnel (and their personal effects) or property, to the extent that service by those carriers is available. It requires the Comptroller General of the United States, in the absence of satisfactory proof of the necessity for foreign-flag air transportation, to disallow expenditures from funds, appropriated or otherwise established for the account of the United States, for international air transportation secured aboard a foreign-flag air carrier if a U.S.-flag air carrier is available to provide such services.
- (c) If available, the Contractor, in performing work under this contract, shall use U.S.-flag carriers for international air transportation of personnel (and their personal effects) or property.
- (d) In the event that the Contractor selects a carrier other than a U.S.-flag air carrier for international air transportation, the Contractor shall include a statement on vouchers involving such transportation essentially as follows:

Statement of Unavailability of U.S.-Flag Air Carriers

International air transportation of persons (and their personal effects) or property by U.S.-flag air carrier was not available or it was necessary to use foreign-flag air carrier service for the following reasons (see section 47.403 of the Federal Acquisition Regulation): [*State reasons*]:

(End of statement)

- (e) The Contractor shall include the substance of this clause, including this paragraph (e), in each subcontract or purchase under this contract that may involve international air transportation.

I.92 52.247-64 PREFERENCE FOR PRIVATELY OWNED U.S.-FLAG COMMERCIAL VESSELS. (FEB 2006)

- (a) Except as provided in paragraph (e) of this clause, the Cargo Preference Act of 1954 (46 U.S.C. Appx 1241(b)) requires that Federal departments and agencies shall transport in privately owned U.S.-flag commercial vessels at least 50 percent of the gross tonnage of equipment, materials, or commodities that may be transported in ocean vessels (computed separately for dry bulk carriers, dry cargo liners, and tankers). Such transportation shall be accomplished when any equipment, materials, or commodities, located within or outside the United States, that may be transported by ocean vessel are --

- (1) Acquired for a U.S. Government agency account;
 - (2) Furnished to, or for the account of, any foreign nation without provision for reimbursement;
 - (3) Furnished for the account of a foreign nation in connection with which the United States advances funds or credits, or guarantees the convertibility of foreign currencies; or
 - (4) Acquired with advance of funds, loans, or guaranties made by or on behalf of the United States.
- (b) The Contractor shall use privately owned U.S.-flag commercial vessels to ship at least 50 percent of the gross tonnage involved under this contract (computed separately for dry bulk carriers, dry cargo liners, and tankers) whenever shipping any equipment, materials, or commodities under the conditions set forth in paragraph (a) above, to the extent that such vessels are available at rates that are fair and reasonable for privately owned U.S.-flag commercial vessels.
- (c) (1) The Contractor shall submit one legible copy of a rated on-board ocean bill of lading for each shipment to both --
- (i) The Contracting Officer, and
 - (ii) The:
Office of Cargo Preference
Maritime Administration (MAR-590)
400 Seventh Street, SW
Washington DC 20590

Subcontractor bills of lading shall be submitted through the Prime Contractor.

- (2) The Contractor shall furnish these bill of lading copies
 - (i) within 20 working days of the date of loading for shipments originating in the United States, or
 - (ii) within 30 working days for shipments originating outside the United States. Each bill of lading copy shall contain the following information:
 - (A) Sponsoring U.S. Government agency.
 - (B) Name of vessel.

- (C) Vessel flag of registry.
 - (D) Date of loading.
 - (E) Port of loading.
 - (F) Port of final discharge.
 - (G) Description of commodity.
 - (H) Gross weight in pounds and cubic feet if available.
 - (I) Total ocean freight revenue in U.S. dollars.
- (d) The Contractor shall insert the substance of this clause, including this paragraph (d), in all subcontracts or purchase orders under this contract, except those described in paragraph (e)(4).
- (e) The requirement in paragraph (a) does not apply to --
- (1) Cargoes carried in vessels as required or authorized by law or treaty;
 - (2) Ocean transportation between foreign countries of supplies purchased with foreign currencies made available, or derived from funds that are made available, under the Foreign Assistance Act of 1961 (22 U.S.C. 2353);
 - (3) Shipments of classified supplies when the classification prohibits the use of non-Government vessels; and
 - (4) Subcontracts or purchase orders for the acquisition of commercial items unless –
 - (i) This contract is –
 - (A) A contract or agreement for ocean transportation services; or
 - (B) A construction contract; or
 - (ii) The supplies being transported are –
 - (A) Items the Contractor is reselling or distributing to the Government without adding value. (Generally, the Contractor does not add value to the items when it subcontracts items for f.o.b. destination shipment); or

- (B) Shipped in direct support of U.S. military –
 - (1) Contingency operations;
 - (2) Exercises; or
 - (3) Forces deployed in connection with United Nations or North Atlantic Treaty Organization humanitarian or peacekeeping operations.

- (f) Guidance regarding fair and reasonable rates for privately owned U.S.-flag commercial vessels may be obtained from the:

Office of Costs and Rates
Maritime Administration
400 Seventh Street, SW
Washington DC 20590
Phone: 202-366-2324

I.93 52.247-67 SUBMISSION OF DOCUMENTS FOR AUDIT. (FEB 2006)

- (a) The Contractor shall submit to the address identified below, for prepayment audit, transportation documents on which the United States will assume freight charges that were paid
 - (1) By the Contractor under a cost-reimbursement contract; and
 - (2) By a first-tier subcontractor under a cost-reimbursement subcontract thereunder.

- (b) Cost-reimbursement Contractors shall only submit for audit those bills of lading with freight shipment charges exceeding \$100. Bills under \$100 shall be retained on-site by the Contractor and made available for on-site audits. This exception only applies to freight shipment bills and is not intended to apply to bills and invoices for any other transportation services.

- (c) Contractors shall submit the above referenced transportation documents to—

General Services Administration

1800 F Street, NW
Washington, DC 20405

I.94 52.249-6 TERMINATION (COST-REIMBURSEMENT). (MAY 2004); MODIFIED BY DEAR 970.4905-1

- (a) The Government may terminate performance of work under this contract in whole or, from time to time, in part, if --
 - (1) The Contracting Officer determines that a termination is in the Government's interest; or
 - (2) The Contractor defaults in performing this contract and fails to cure the default within 10 days (unless extended by the Contracting Officer) after receiving a notice specifying the default. "Default" includes failure to make progress in the work so as to endanger performance.
- (b) The Contracting Officer shall terminate by delivering to the Contractor a Notice of Termination specifying whether termination is for default of the Contractor or for convenience of the Government, the extent of termination, and the effective date. If, after termination for default, it is determined that the Contractor was not in default or that the Contractor's failure to perform or to make progress in performance is due to causes beyond the control and without the fault or negligence of the Contractor as set forth in the Excusable Delays clause, the rights and obligations of the parties will be the same as if the termination was for the convenience of the Government.
- (c) After receipt of a Notice of Termination, and except as directed by the Contracting Officer, the Contractor shall immediately proceed with the following obligations, regardless of any delay in determining or adjusting any amounts due under this clause:
 - (1) Stop work as specified in the notice.
 - (2) Place no further subcontracts or orders (referred to as subcontracts in this clause), except as necessary to complete the continued portion of the contract.
 - (3) Terminate all subcontracts to the extent they relate to the work terminated.
 - (4) Assign to the Government, as directed by the Contracting Officer, all right, title, and interest of the Contractor under the subcontracts terminated, in which case the Government shall have the right to settle or to pay any termination settlement proposal arising out of those terminations.
 - (5) With approval or ratification to the extent required by the Contracting Officer, settle all outstanding liabilities and termination settlement proposals arising from the termination of subcontracts, the cost of which would be reimbursable

in whole or in part, under this contract; approval or ratification will be final for purposes of this clause.

- (6) Transfer title (if not already transferred) and, as directed by the Contracting Officer, deliver to the Government --
 - (i) The fabricated or unfabricated parts, work in process, completed work, supplies, and other material produced or acquired for the work terminated;
 - (ii) The completed or partially completed plans, drawings, information, and other property that, if the contract had been completed, would be required to be furnished to the Government; and
 - (iii) The jigs, dies, fixtures, and other special tools and tooling acquired or manufactured for this contract, the cost of which the Contractor has been or will be reimbursed under this contract.
- (7) Complete performance of the work not terminated.
- (8) Take any action that may be necessary, or that the Contracting Officer may direct, for the protection and preservation of the property related to this contract that is in the possession of the Contractor and in which the Government has or may acquire an interest.
- (9) Use its best efforts to sell, as directed or authorized by the Contracting Officer, any property of the types referred to in subparagraph (c)(6) of this clause; provided, however, that the Contractor
 - (i) is not required to extend credit to any purchaser and
 - (ii) may acquire the property under the conditions prescribed by, and at prices approved by, the Contracting Officer.

The proceeds of any transfer or disposition will be applied to reduce any payments to be made by the Government under this contract, credited to the price or cost of the work, or paid in any other manner directed by the Contracting Officer.

- (d) The Contractor shall submit complete termination inventory schedules no later than 120 days from the effective date of termination, unless extended in writing by the Contracting Officer upon written request of the Contractor within this 120-day period.
- (e) After expiration of the plant clearance period as defined in Subpart 49.001 of the Federal Acquisition Regulation, the Contractor may submit to the Contracting

Officer a list, certified as to quantity and quality, of termination inventory not previously disposed of, excluding items authorized for disposition by the Contracting Officer. The Contractor may request the Government to remove those items or enter into an agreement for their storage. Within 15 days, the Government will accept the items and remove them or enter into a storage agreement. The Contracting Officer may verify the list upon removal of the items, or if stored, within 45 days from submission of the list, and shall correct the list, as necessary, before final settlement.

- (f) After termination, the Contractor shall submit a final termination settlement proposal to the Contracting Officer in the form and with the certification prescribed by the Contracting Officer. The Contractor shall submit the proposal promptly, but no later than 1 year from the effective date of termination, unless extended in writing by the Contracting Officer upon written request of the Contractor within this 1-year period. However, if the Contracting Officer determines that the facts justify it, a termination settlement proposal may be received and acted on after 1 year or any extension. If the Contractor fails to submit the proposal within the time allowed, the Contracting Officer may determine, on the basis of information available, the amount, if any, due the Contractor because of the termination and shall pay the amount determined.
- (g) Subject to paragraph (f) of this clause, the Contractor and the Contracting Officer may agree on the whole or any part of the amount to be paid (including an allowance for fee) because of the termination. The contract shall be amended, and the Contractor paid the agreed amount.
- (h) If the Contractor and the Contracting Officer fail to agree in whole or in part on the amount of costs and/or fee to be paid because of the termination of work, the Contracting Officer shall determine, on the basis of information available, the amount, if any, due the Contractor, and shall pay that amount, which shall include the following:
 - (1) All costs reimbursable under this contract, not previously paid, for the performance of this contract before the effective date of the termination, and those costs that may continue for a reasonable time with the approval of or as directed by the Contracting Officer; however, the Contractor shall discontinue those costs as rapidly as practicable.
 - (2) The cost of settling and paying termination settlement proposals under terminated subcontracts that are properly chargeable to the terminated portion of the contract if not included in subparagraph (h)(1) of this clause.
 - (3) The reasonable costs of settlement of the work terminated, including --

- (i) Accounting, legal, clerical, and other expenses reasonably necessary for the preparation of termination settlement proposals and supporting data;
 - (ii) The termination and settlement of subcontracts (excluding the amounts of such settlements); and
 - (iii) Storage, transportation, and other costs incurred, reasonably necessary for the preservation, protection, or disposition of the termination inventory. If the termination is for default, no amounts for the preparation of the Contractor's termination settlement proposal may be included.
- (4) A portion of the fee payable under the contract, determined as follows:
- (i) If the contract is terminated for the convenience of the Government, the settlement shall include a percentage of the fee equal to the percentage of completion of work contemplated under the contract, but excluding subcontract effort included in subcontractors' termination proposals, less previous payments for fee.
 - (ii) If the contract is terminated for default, the total fee payable shall be such proportionate part of the fee as the total number of articles (or amount of services) delivered to and accepted by the Government is to the total number of articles (or amount of services) of a like kind required by the contract.
- (5) If the settlement includes only fee, it will be determined under subparagraph (h)(4) of this clause.
- (i) The cost principles and procedures in Part 31 of the Federal Acquisition Regulation, as supplemented in subpart 970.31 of the Department of Energy Acquisition Regulation, in effect on the date of this contract, shall govern all costs claimed, agreed to, or determined under this clause.
 - (j) The Contractor shall have the right of appeal, under the Disputes clause, from any determination made by the Contracting Officer under paragraph (f), (h), or (l) of this clause, except that if the Contractor failed to submit the termination settlement proposal within the time provided in paragraph (f) and failed to request a time extension, there is no right of appeal. If the Contracting Officer has made a determination of the amount due under paragraph (f), (h) or (l) of this clause, the Government shall pay the Contractor --
- (1) The amount determined by the Contracting Officer if there is no right of appeal or if no timely appeal has been taken; or

- (2) The amount finally determined on an appeal.
- (k) In arriving at the amount due the Contractor under this clause, there shall be deducted --
 - (1) All unliquidated advance or other payments to the Contractor, under the terminated portion of this contract;
 - (2) Any claim which the Government has against the Contractor under this contract; and
 - (3) The agreed price for, or the proceeds of sale of materials, supplies, or other things acquired by the Contractor or sold under this clause and not recovered by or credited to the Government.
- (l) The Contractor and Contracting Officer must agree to any equitable adjustment in fee for the continued portion of the contract when there is a partial termination. The Contracting Officer shall amend the contract to reflect the agreement.
- (m)
 - (1) The Government may, under the terms and conditions it prescribes, make partial payments and payments against costs incurred by the Contractor for the terminated portion of the contract, if the Contracting Officer believes the total of these payments will not exceed the amount to which the Contractor will be entitled.
 - (2) If the total payments exceed the amount finally determined to be due, the Contractor shall repay the excess to the Government upon demand, together with interest computed at the rate established by the Secretary of the Treasury under 50 U.S.C. App. 1215(b)(2). Interest shall be computed for the period from the date the excess payment is received by the Contractor to the date the excess is repaid. Interest shall not be charged on any excess payment due to a reduction in the Contractor's termination settlement proposal because of retention or other disposition of termination inventory until 10 days after the date of the retention or disposition, or a later date determined by the Contracting Officer because of the circumstances.
- (n) The provisions of this clause relating to fee are inapplicable if this contract does not include a fee.

I.95 52.249-14 EXCUSABLE DELAYS. (APR 1984)

- (a) Except for defaults of subcontractors at any tier, the Contractor shall not be in default because of any failure to perform this contract under its terms if the failure arises from causes beyond the control and without the fault or negligence of the Contractor. Examples of these causes are (1) acts of God or of the public enemy, (2)

acts of the Government in either its sovereign or contractual capacity, (3) fires, (4) floods, (5) epidemics, (6) quarantine restrictions, (7) strikes, (8) freight embargoes, and (9) unusually severe weather. In each instance, the failure to perform must be beyond the control and without the fault or negligence of the Contractor. "Default" includes failure to make progress in the work so as to endanger performance.

- (b) If the failure to perform is caused by the failure of a subcontractor at any tier to perform or make progress, and if the cause of the failure was beyond the control of both the Contractor and subcontractor, and without the fault or negligence of either, the Contractor shall not be deemed to be in default, unless -
 - (1) The subcontracted supplies or services were obtainable from other sources;
 - (2) The Contracting Officer ordered the Contractor in writing to purchase these supplies or services from the other source; and
 - (3) The Contractor failed to comply reasonably with this order.
- (c) Upon request of the Contractor, the Contracting Officer shall ascertain the facts and extent of the failure. If the Contracting Officer determines that any failure to perform results from one or more of the causes above, the delivery schedule shall be revised, subject to the rights of the Government under the termination clause of this contract.

I.96 RESERVED

I.97 52.251-1 GOVERNMENT SUPPLY SOURCES. (APR 1984) (DEVIATION)

(Deviation) The Contracting Officer may issue the Contractor an authorization to use Government supply sources in the performance of this contract. Title to all property acquired by the Contractor under such an authorization shall vest in the Government unless otherwise specified in the contract. Such property shall not be considered to be "Government-furnished property," as distinguished from "Government property." The provisions of the clause entitled "*Property*," shall apply to all property acquired under such authorization.

I.98 52.251-2 INTERAGENCY FLEET MANAGEMENT SYSTEM VEHICLES AND RELATED SERVICES. (JAN 1991)

The Contracting Officer may issue the Contractor an authorization to obtain interagency fleet management system (IFMS) vehicles and related services for use in the performance of this contract. The use, service, and maintenance of interagency fleet management

system vehicles and the use of related services by the Contractor shall be in accordance with 41 CFR 101-39 and 41 CFR 101-38.301-1.

I.99 52.252-6 AUTHORIZED DEVIATIONS IN CLAUSES. (APR 1984)

- (a) The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of “(DEVIATION)” after the date of the clause.
- (b) The use in this solicitation or contract of any [insert regulation name] (48 CFR []) clause with an authorized deviation is indicated by the addition of “(DEVIATION)” after the name of the regulation.

I.100 52.253-1 COMPUTER GENERATED FORMS. (JAN 1991)

- (a) Any data required to be submitted on a Standard or Optional Form prescribed by the Federal Acquisition Regulation (FAR) may be submitted on a computer generated version of the form, *provided* there is no change to the name, content, or sequence of the data elements on the form, and provided the form carries the Standard or Optional Form number and edition date.
- (b) Unless prohibited by agency regulations, any data required to be submitted on an agency unique form prescribed by an agency supplement to the FAR may be submitted on a computer generated version of the form provided there is no change to the name, content, or sequence of the data elements on the form and provided the form carries the agency form number and edition date.
- (c) If the Contractor submits a computer generated version of a form that is different than the required form, then the rights and obligations of the parties will be determined based on the content of the required form.

I.101 952.203-70 WHISTLEBLOWER PROTECTION FOR CONTRACTOR EMPLOYEES. (DEC 2000)

- (a) The contractor shall comply with the requirements of "DOE Contractor Employee Protection Program" at 10 CFR Part 708 for work performed on behalf of DOE directly related to activities at DOE-owned or-leased sites.
- (b) The contractor shall insert or have inserted the substance of this clause, including this paragraph (b), in subcontracts at all tiers, for subcontracts involving work performed on behalf of DOE directly related to activities at DOE-owned or leased sites.

I.102 952.204-2 SECURITY (AUG 2009)

- (a) *Responsibility.* It is the Contractor's duty to protect all classified information, special nuclear material, and other DOE property. The Contractor shall, in accordance with DOE security regulations and requirements, be responsible for protecting all classified information and all classified matter (including documents, material and special nuclear material) which are in the Contractor's possession in connection with the performance of work under this contract against sabotage, espionage, loss or theft. Except as otherwise expressly provided in this contract, the Contractor shall, upon completion or termination of this contract, transmit to DOE any classified matter or special nuclear material in the possession of the Contractor or any person under the Contractor's control in connection with performance of this contract. If retention by the Contractor of any classified matter is required after the completion or termination of the contract, the Contractor shall identify the items and classification levels and categories of matter proposed for retention, the reasons for the retention, and the proposed period of retention. If the retention is approved by the Contracting Officer, the security provisions of the contract shall continue to be applicable to the classified matter retained. Special nuclear material shall not be retained after the completion or termination of the contract.
- (b) *Regulations.* The Contractor agrees to comply with all security regulations and contract requirements of DOE as incorporated into the contract.
- (c) *Definition of Classified Information.* The term *Classified Information* means information that is classified as Restricted Data or Formerly Restricted Data under the Atomic Energy Act of 1954, or information determined to require protection against unauthorized disclosure under Executive Order 12958, *Classified National Security Information*, as amended, or prior executive orders, which is identified as *National Security Information*.
- (d) *Definition of Restricted Data.* The term *Restricted Data* means all data concerning design, manufacture, or utilization of atomic weapons; production of special nuclear material; or use of special nuclear material in the production of energy, but excluding data declassified or removed from the Restricted Data category pursuant to 42 U.S.C. 2162 [Section 142, as amended, of the Atomic Energy Act of 1954].
- (e) *Definition of Formerly Restricted Data.* The term "*Formerly Restricted Data*" means information removed from the Restricted Data category based on a joint determination by DOE or its predecessor agencies and the Department of Defense that the information: (1) relates primarily to the military utilization of atomic weapons; and (2) can be adequately protected as National Security Information. However, such information is subject to the same restrictions on transmission to other countries or regional defense organizations that apply to Restricted Data.

- (f) *Definition of National Security Information.* The term "*National Security Information*" means information that has been determined, pursuant to Executive Order 12958, Classified National Security Information, as amended, or any predecessor order, to require protection against unauthorized disclosure, and that is marked to indicate its classified status when in documentary form.
- (g) *Definition of Special Nuclear Material.* The term "*special nuclear material*" means: (1) plutonium, uranium enriched in the isotope 233 or in the isotope 235, and any other material which, pursuant to 42 U.S.C. 2071 [section 51 as amended, of the Atomic Energy Act of 1954] has been determined to be special nuclear material, but does not include source material; or (2) any material artificially enriched by any of the foregoing, but does not include source material.
- (h) *Access authorizations of personnel.*
- (1) The Contractor shall not permit any individual to have access to any classified information or special nuclear material, except in accordance with the Atomic Energy Act of 1954, and the DOE's regulations and contract requirements applicable to the particular level and category of classified information or particular category of special nuclear material to which access is required.
 - (2) The Contractor must conduct a thorough review, as defined at 48 CFR 904.401, of an uncleared applicant or uncleared employee, and must test the individual for illegal drugs, prior to selecting the individual for a position requiring a DOE access authorization.
 - (i) A review must: verify an uncleared applicant's or uncleared employee's educational background, including any high school diploma obtained within the past five years, and degrees or diplomas granted by an institution of higher learning; contact listed employers for the last three years and listed personal references; conduct local law enforcement checks when such checks are not prohibited by state or local law or regulation and when the uncleared applicant or uncleared employee resides in the jurisdiction where the Contractor is located; and conduct a credit check and other checks as appropriate.
 - (ii) Contractor reviews are not required for an applicant for DOE access authorization who possesses a current access authorization from DOE or another Federal agency, or whose access authorization may be reapproved without a federal background investigation pursuant to Executive Order 12968, Access to Classified Information (August 4, 1995), Sections 3.3(c) and (d).
 - (iii) In collecting and using this information to make a determination as to whether it is appropriate to select an uncleared applicant or uncleared

employee to a position requiring an access authorization, the Contractor must comply with all applicable laws, regulations, and Executive Orders, including those: (a) governing the processing and privacy of an individual's information, such as the Fair Credit Reporting Act, Americans with Disabilities Act (ADA), and Health Insurance Portability and Accountability Act; and (b) prohibiting discrimination in employment, such as under the ADA, Title VII and the Age Discrimination in Employment Act, including with respect to pre- and post-offer of employment disability related questioning.

- (iv) In addition to a review, each candidate for a DOE access authorization must be tested to demonstrate the absence of any illegal drug, as defined in 10 CFR Part 707.4. All positions requiring access authorizations are deemed *testing designated positions* in accordance with 10 CFR Part 707. All employees possessing access authorizations are subject to applicant, random or for cause testing for use of illegal drugs. DOE will not process candidates for a DOE access authorization unless their tests confirm the absence from their system of any illegal drug.
- (v) When an uncleared applicant or uncleared employee receives an offer of employment for a position that requires a DOE access authorization, the Contractor shall not place that individual in such a position prior to the individual's receipt of a DOE access authorization, unless an approval has been obtained from the head of the cognizant local security office. If the individual is hired and placed in the position prior to receiving an access authorization, the uncleared employee may not be afforded access to classified information or matter or special nuclear material (in categories requiring access authorization) until an access authorization has been granted.
- (vi) The Contractor must furnish to the head of the cognizant local DOE Security Office, in writing, the following information concerning each uncleared applicant or uncleared employee who is selected for a position requiring an access authorization:
 - A. The date(s) each Review was conducted;
 - B. Each entity that provided information concerning the individual;
 - C. A certification that the review was conducted in accordance with all applicable laws, regulations, and Executive Orders, including those governing the processing and privacy of an individual's information collected during the review;

- D. A certification that all information collected during the review was reviewed and evaluated in accordance with the Contractor's personnel policies; and
 - E. The results of the test for illegal drugs.
- (i) *Criminal liability.* It is understood that disclosure of any classified information relating to the work or services ordered hereunder to any person not entitled to receive it, or failure to protect any classified information, special nuclear material, or other Government property that may come to the Contractor or any person under the Contractor's control in connection with work under this contract, may subject the Contractor, its agents, employees, or Subcontractors to criminal liability under the laws of the United States (see the Atomic Energy Act of 1954, 42 U.S.C. 2011 et seq.; 18 U.S.C. 793 and 794).
- (j) *Foreign Ownership, Control, or Influence.*
- (1) The Contractor shall immediately provide the cognizant security office written notice of any change in the extent and nature of foreign ownership, control or influence over the Contractor which would affect any answer to the questions presented in the Standard Form (SF) 328, *Certificate Pertaining to Foreign Interests*, executed prior to award of this contract. In addition, any notice of changes in ownership or control which are required to be reported to the Securities and Exchange Commission, the Federal Trade Commission, or the Department of Justice, shall also be furnished concurrently to the Contracting Officer.
 - (2) If a Contractor has changes involving foreign ownership, control, or influence, DOE must determine whether the changes will pose an undue risk to the common defense and security. In making this determination, DOE will consider proposals made by the Contractor to avoid or mitigate foreign influences.
 - (3) If the cognizant security office at any time determines that the Contractor is, or is potentially, subject to foreign ownership, control, or influence, the Contractor shall comply with such instructions as the Contracting Officer shall provide in writing to protect any classified information or special nuclear material.
 - (4) The Contracting Officer may terminate this contract for default either if the Contractor fails to meet obligations imposed by this clause or if the Contractor creates a foreign ownership, control, or influence situation in order to avoid performance or a termination for default. The Contracting Officer may terminate this contract for convenience if the Contractor becomes subject to foreign ownership, control, or influence and for reasons other than avoidance

of performance of the contract, cannot, or chooses not to, avoid or mitigate the foreign ownership, control, or influence problem.

- (k) *Employment announcements.* When placing announcements seeking applicants for positions requiring access authorizations, the Contractor shall include in the written vacancy announcement, a notification to prospective applicants that reviews, and tests for the absence of any illegal drug as defined in 10 CFR 707.4, will be conducted by the employer and a background investigation by the Federal government may be required to obtain an access authorization prior to employment, and that subsequent reinvestigations may be required. If the position is covered by the Counterintelligence Evaluation Program regulations at 10 CFR 709, the announcement should also alert applicants that successful completion of a counterintelligence evaluation may include a counterintelligence-scope polygraph examination.

- (l) *Flow down to subcontracts.* The Contractor agrees to insert terms that conform substantially to the language of this clause, including this paragraph, in all subcontracts under its contract that will require Subcontractor employees to possess access authorizations. Additionally, the Contractor must require such Subcontractors to have an existing DOD or DOE facility clearance or submit a completed SF 328, *Certificate Pertaining to Foreign Interests*, as required in DEAR 952.204-73, Facility Clearance, and obtain a foreign ownership, control and influence determination and facility clearance prior to award of a subcontract. Information to be provided by a Subcontractor pursuant to this clause may be submitted directly to the Contracting Officer. For purposes of this clause, Subcontractor means any Subcontractor at any tier and the term "Contracting Officer" means the DOE Contracting Officer. When this clause is included in a subcontract, the term "Contractor" shall mean Subcontractor and the term "contract" shall mean subcontract.

I.103 952.204-70 CLASSIFICATION/DECLASSIFICATION. (SEP 1997)

In the performance of work under this contract, the contractor or subcontractor shall comply with all provisions of the Department of Energy's regulations and mandatory DOE directives which apply to work involving the classification and declassification of information, documents, or material. In this section, "information" means facts, data, or knowledge itself; "document" means the physical medium on or in which information is recorded; and "material" means a product or substance which contains or reveals information, regardless of its physical form or characteristics. Classified information is "Restricted Data" and "Formerly Restricted Data" (classified under the Atomic Energy Act of 1954, as amended) and "National Security Information" (classified under Executive Order 12958 or prior Executive Orders). The original decision to classify or declassify information is considered an inherently Governmental function. For this reason, only Government personnel may serve as original classifiers, i.e., Federal

Government Original Classifiers. Other personnel (Government or contractor) may serve as derivative classifiers which involves making classification decisions based upon classification guidance which reflect decisions made by Federal Government Original Classifiers.

The contractor or subcontractor shall ensure that any document or material that may contain classified information is reviewed by either a Federal Government or a Contractor Derivative Classifier in accordance with classification regulations including mandatory DOE directives and classification/declassification guidance furnished to the contractor by the Department of Energy to determine whether it contains classified information prior to dissemination. For information which is not addressed in classification/declassification guidance, but whose sensitivity appears to warrant classification, the contractor or subcontractor shall ensure that such information is reviewed by a Federal Government Original Classifier.

In addition, the contractor or subcontractor shall ensure that existing classified documents (containing either Restricted Data or Formerly Restricted Data or National Security Information) which are in its possession or under its control are periodically reviewed by a Federal Government or Contractor Derivative Classifier in accordance with classification regulations, mandatory DOE directives and classification/declassification guidance furnished to the contractor by the Department of Energy to determine if the documents are no longer appropriately classified. Priorities for declassification review of classified documents shall be based on the degree of public and researcher interest and the likelihood of declassification upon review. Documents which no longer contain classified information are to be declassified. Declassified documents then shall be reviewed to determine if they are publicly releasable. Documents which are declassified and determined to be publicly releasable are to be made available to the public in order to maximize the public's access to as much Government information as possible while minimizing security costs.

The contractor or subcontractor shall insert this clause in any subcontract which involves or may involve access to classified information.

I.104 952.204-71 SENSITIVE FOREIGN NATIONS CONTROLS. (APR 1994)

- (a) In connection with any activities in the performance of this contract, the contractor agrees to comply with the "Sensitive Foreign Nations Controls" requirements attached to this contract, relating to those countries, which may from time to time, be identified to the contractor by written notice as sensitive foreign nations. The contractor shall have the right to terminate its performance under this contract upon at least 60 days' prior written notice to the contracting officer if the contractor determines that it is unable, without substantially interfering with its polices or without adversely impacting its performance to continue performance of the work under this contract as a result of such notification. If the contractor elects to

terminate performance, the provisions of this contract regarding termination for the convenience of the Government shall apply.

- (b) The provisions of this clause shall be included in any subcontracts.

I.105 952.204-75 PUBLIC AFFAIRS. (DEC 2000)

- (a) The Contractor must cooperate with the Department in releasing unclassified information to the public and news media regarding DOE policies, programs, and activities relating to its effort under the contract. The responsibilities under this clause must be accomplished through coordination with the Contracting Officer and appropriate DOE public affairs personnel in accordance with procedures defined by the Contracting Officer.
- (b) The Contractor is responsible for the development, planning, and coordination of proactive approaches for the timely dissemination of unclassified information regarding DOE activities onsite and offsite, including, but not limited to, operations and programs. Proactive public affairs programs may utilize a variety of communication media, including public workshops, meetings or hearings, open houses, newsletters, press releases, conferences, audio/visual presentations, speeches, forums, tours, and other appropriate stakeholder interactions.
- (c) The Contractor's internal procedures must ensure that all releases of information to the public and news media are coordinated through, and approved by, a management official at an appropriate level within the Contractor's organization.
- (d) The Contractor must comply with DOE procedures for obtaining advance clearances on oral, written, and audio/visual informational material prepared for public dissemination or use.
- (e) Unless prohibited by law, and in accordance with procedures defined by the Contracting Officer, the Contractor must notify the Contracting Officer and appropriate DOE public affairs personnel of communications or contacts with Members of Congress relating to the effort performed under the contract.
- (f) In accordance with procedures defined by the Contracting Officer, the Contractor must notify the Contracting Officer and appropriate DOE public affairs personnel of activities or situations that may attract regional or national news media attention and of non-routine inquiries from national news media relating to the effort performed under the contract.
- (g) In releases of information to the public and news media, the Contractor must fully and accurately identify the Contractor's relationship to the Department and fully and

accurately credit the Department for its role in funding programs and projects resulting in scientific, technical, and other achievements.

I.106 952.204-77 COMPUTER SECURITY (AUG 2006)

- (a) Definitions.
 - (1) Computer means desktop computers, portable computers, computer networks (including the DOE Network and local area networks at or controlled by DOE organizations), network devices, automated information systems, and or other related computer equipment owned by, leased, or operated on behalf of the DOE.
 - (2) Individual means a DOE Contractor or subcontractor employee, or any other person who has been granted access to a DOE computer or to information on a DOE computer, and does not include a member of the public who sends an e-mail message to a DOE computer or who obtains information available to the public on DOE Web sites.
- (b) Access to DOE computers. A Contractor shall not allow an individual to have access to information on a DOE computer unless-
 - (1) The individual has acknowledged in writing that the individual has no expectation of privacy in the use of a DOE computer; and
 - (2) The individual has consented in writing to permit access by an authorized investigative agency to any DOE computer used during the period of that individual's access to information on a DOE computer, and for a period of three years thereafter.
- (c) No expectation of privacy. Notwithstanding any other provision of law (including any provision of law enacted by the Electronic Communications Privacy Act of 1986), no individual using a DOE computer shall have any expectation of privacy in the use of that computer.
- (d) Written records. The Contractor is responsible for maintaining written records for itself and subcontractors demonstrating compliance with the provisions of paragraph (b) of this section. The Contractor agrees to provide access to these records to the DOE, or its authorized agents, upon request.
- (e) Subcontracts. The Contractor shall insert this clause, including this paragraph (e), in subcontracts under this contract that may provide access to computers owned, leased or operated on behalf of the DOE.

I.107 952.208-7 TAGGING OF LEASED VEHICLES. (APR 1984)

- (a) DOE intends to use U.S. Government license tags.
- (b) While it is the intention that vehicles leased hereunder shall operate on Federal tags, the DOE reserves the right to utilize State tags if necessary to accomplish its mission. Should State tags be required, the contractor shall furnish the DOE the documentation required by the State to acquire such tags.

**I.108 952.209-72 ORGANIZATIONAL CONFLICTS OF INTEREST. (AUG 2009)
ALTERNATE I (AUG 2009)**

- (a) Purpose. The purpose of this clause is to ensure that the Contractor (1) is not biased because of its financial, contractual, organizational, or other interests which relate to the work under this contract, and (2) does not obtain any unfair competitive advantage over other parties by virtue of its performance of this contract.
- (b) Scope. The restrictions described herein shall apply to performance or participation by the Contractor and any of its affiliates or their successors in interest (hereinafter collectively referred to as "Contractor") in the activities covered by this clause as a prime Contractor, subcontractor, cosponsor, joint venturer, consultant, or in any similar capacity. For the purpose of this clause, affiliation occurs when a business concern is controlled by or has the power to control another or when a third party has the power to control both.
 - (1) Use of Contractor's Work Product.
 - (i) The Contractor shall be ineligible to participate in any capacity in Department contracts, subcontracts, or proposals therefore (solicited and unsolicited) which stem directly from the Contractor's performance of work under this contract for a period of (Contracting Officer see 48 CFR 909.507-2 and enter specific term) years after the completion of this contract. Furthermore, unless so directed in writing by the Contracting Officer, the Contractor shall not perform any advisory and assistance services work under this contract on any of its products or services or the products or services of another firm if the Contractor is or has been substantially involved in their development or marketing. Nothing in this subparagraph shall preclude the Contractor from competing for follow-on contracts for advisory and assistance services.
 - (ii) If, under this contract, the Contractor prepares a complete or essentially complete statement of work or specifications to be used in competitive acquisitions, the Contractor shall be ineligible to perform

or participate in any capacity in any contractual effort which is based on such statement of work or specifications. The Contractor shall not incorporate its products or services in such statement of work or specifications unless so directed in writing by the Contracting Officer, in which case the restriction in this subparagraph shall not apply.

(iii) Nothing in this paragraph shall preclude the Contractor from offering or selling its standard and commercial items to the Government.

(2) Access to and use of information.

(i) If the Contractor, in the performance of this contract, obtains access to information, such as Department plans, policies, reports, studies, financial plans, internal data protected by the Privacy Act of 1974 (5 U.S.C. 552a), or data which has not been released or otherwise made available to the public, the Contractor agrees that without prior written approval of the Contracting Officer it shall not-

(A) use such information for any private purpose unless the information has been released or otherwise made available to the public;

(B) compete for work for the Department based on such information for a period of six (6) months after either the completion of this contract or until such information is released or otherwise made available to the public, whichever is first;

(C) submit an unsolicited proposal to the Government which is based on such information until one year after such information is released or otherwise made available to the public; and

(D) release such information unless such information has previously been released or otherwise made available to the public by the Department.

(ii) In addition, the Contractor agrees that to the extent it receives or is given access to proprietary data, data protected by the Privacy Act of 1974 (5 U.S.C. 552a), or other confidential or privileged technical, business, or financial information under this contract, it shall treat such information in accordance with any restrictions imposed on such information.

(iii) The Contractor may use technical data it first produces under this contract for its private purposes consistent with paragraphs (b)(2)(i) (A) and (D) of this clause and the patent, rights in data, and security provisions of this contract.

- (c) Disclosure after award.
 - (1) The Contractor agrees that, if changes, including additions, to the facts disclosed by it prior to award of this contract, occur during the performance of this contract, it shall make an immediate and full disclosure of such changes in writing to the Contracting Officer. Such disclosure may include a description of any action which the Contractor has taken or proposes to take to avoid, neutralize, or mitigate any resulting conflict of interest. The Department may, however, terminate the contract for convenience if it deems such termination to be in the best interest of the Government.
 - (2) In the event that the Contractor was aware of facts required to be disclosed or the existence of an actual or potential organizational conflict of interest and did not disclose such facts or such conflict of interest to the Contracting Officer, DOE may terminate this contract for default.
- (d) Remedies. For breach of any of the above restrictions or for nondisclosure or misrepresentation of any facts required to be disclosed concerning this contract, including the existence of an actual or potential organizational conflict of interest at the time of or after award, the Government may terminate the contract for default, disqualify the Contractor from subsequent related contractual efforts, and pursue such other remedies as may be permitted by law or this contract.
- (e) Waiver. Requests for waiver under this clause shall be directed in writing to the Contracting Officer and shall include a full description of the requested waiver and the reasons in support thereof. If it is determined to be in the best interests of the Government, the Contracting Officer may grant such a waiver in writing.
- (f) Subcontracts.
 - (1) The Contractor shall include a clause, substantially similar to this clause, including this paragraph (f), in subcontracts expected to exceed the simplified acquisition threshold determined in accordance with 48 CFR part 13 and involving the performance of advisory and assistance services as that term is defined at 48 CFR 2.101. The terms "contract," "Contractor," and "Contracting Officer" shall be appropriately modified to preserve the Government's rights.
 - (2) Prior to the award under this contract of any such subcontracts for advisory and assistance services, the Contractor shall obtain from the proposed subcontractor or consultant the disclosure required by 48 CFR 909.507-1, and shall determine in writing whether the interests disclosed present an actual or significant potential for an organizational conflict of interest. Where an actual or significant potential organizational conflict of interest is identified, the

Contractor shall take actions to avoid, neutralize, or mitigate the organizational conflict to the satisfaction of the Contractor. If the conflict cannot be avoided or neutralized, the Contractor must obtain the approval of the DOE Contracting Officer prior to entering into the subcontract.

I.109 952.211-71 PRIORITIES AND ALLOCATIONS (ATOMIC ENERGY) (APR 2008)

The Contractor shall follow the provisions of Defense Priorities and Allocations System (DPAS) regulation (15 CFR Part 700) in obtaining controlled materials and other products and materials needed to fill this contract.

I.110 952.215-70 KEY PERSONNEL. (DEC 2000)

- (a) The personnel listed below or elsewhere in this contract (Section J, Appendix B), if applicable are considered essential to the work being performed under this contract. Before removing, replacing, or diverting any of the listed or specified personnel, the Contractor must: (1) Notify the Contracting Officer reasonably in advance; (2) submit justification (including proposed substitutions) in sufficient detail to permit evaluation of the impact on this contract; and (3) obtain the Contracting Officer's written approval. Notwithstanding the foregoing, if the Contractor deems immediate removal or suspension of any member of its management team is necessary to fulfill its obligation to maintain satisfactory standards of employee competency, conduct, and integrity under the clause at 48 CFR 970.5203-3, Contractor's Organization, the Contractor may remove or suspend such person at once, although the Contractor must notify Contracting Officer prior to or concurrently with such action.
- (b) The list of personnel may, with the consent of the contracting parties, be amended from time to time during the course of the contract to add or delete personnel.

[See Section J, Appendix B]

I.111 952.217-70 ACQUISITION OF REAL PROPERTY. (APR 1984)

- (a) Notwithstanding any other provision of the contract, the prior approval of the contracting officer shall be obtained when, in performance of this contract, the contractor acquires or proposes to acquire use of real property by:
 - (1) Purchase, on the Government's behalf or in the contractor's own name, with title eventually vesting in the Government.
 - (2) Lease, and the Government assumes liability for, or will otherwise pay for the obligation under the lease as a reimbursable contract cost.

- (3) Acquisition of temporary interest through easement, license or permit, and the Government funds the entire cost of the temporary interest.
- (b) Justification of and execution of any real property acquisitions shall be in accordance and compliance with directions provided by the contracting officer.
- (c) The substance of this clause, including this paragraph (c), shall be included in any subcontract occasioned by this contract under which property described in paragraph (a) of this clause shall be acquired.

I.112 952.223-75 PRESERVATION OF INDIVIDUAL OCCUPATIONAL RADIATION EXPOSURE RECORDS. (APR 1984)

Individual occupational radiation exposure records generated in the performance of work under this contract shall be subject to inspection by DOE and shall be preserved by the contractor until disposal is authorized by DOE or at the option of the contractor delivered to DOE upon completion or termination of the contract. If the contractor exercises the foregoing option, title to such records shall vest in DOE upon delivery.

I.113 952.226-74 DISPLACED EMPLOYEE HIRING PREFERENCE. (JUN 1997) (DEVIATION)

- (a) (DEVIATION) Definition.

Eligible employee means a current or former employee of a contractor or subcontractor (1) who has been employed at a Department of Energy Defense Nuclear Facility as defined in Section 3161 of the National Defense Authorization Act for FY 1993 (Pub. L. 102-484) and the Interim Planning Guidance for Contractor Work Force Restructuring (Feb 1996) or other applicable Department of Energy guidance for contractor work force restructuring, as may be amended or supplemented from time to time (hereinafter "Guidance"), (2) whose employment at such a Defense Nuclear Facility has been involuntarily terminated (other than for cause) or who has been notified that they are facing termination, (3) who has also met the job attachment test as set forth in applicable Departmental Guidance, and (4) who is qualified for a particular position with the Contractor or, with retraining, can become qualified within the time and cost limits set forth in the Departmental Guidance.

- (b) Consistent with Department of Energy guidance for contractor work force restructuring, as may be amended or supplemented from time to time, the contractor agrees that it will provide a preference in hiring to an eligible employee to the extent practicable for work performed under this contract.

- (c) (DEVIATION) The Contractor will develop retraining programs for eligible employees to the extent practicable and will take such retraining into account in assessing the qualifications of eligible employees.
- (d) The requirements of this clause shall be included in subcontracts at any tier (except for subcontracts for commercial items pursuant to 41 U.S.C. 403) expected to exceed \$500,000.

I.114 952.235-71 RESEARCH MISCONDUCT (JUL 2005)

- (a) The Contractor is responsible for maintaining the integrity of research performed pursuant to this contract award including the prevention, detection, and remediation of research misconduct as defined by this clause, and the conduct of inquiries, investigations, and adjudication of allegations of research misconduct in accordance with the requirements of this clause.
- (b) Unless otherwise instructed by the Contracting Officer, the Contractor must conduct an initial inquiry into any allegation of research misconduct. If the Contractor determines that there is sufficient evidence to proceed to an investigation, it must notify the Contracting Officer and, unless otherwise instructed, the Contractor must:
 - (1) Conduct an investigation to develop a complete factual record and an examination of such record leading to either a finding of research misconduct and an identification of appropriate remedies or a determination that no further action is warranted;
 - (2) If the investigation leads to a finding of research misconduct, conduct an adjudication by a responsible official who was not involved in the inquiry or investigation and is separated organizationally from the element which conducted the investigation. The adjudication must include a review of the investigative record and, as warranted, a determination of appropriate corrective actions and sanctions.
 - (3) Inform the Contracting Officer if an initial inquiry supports a formal investigation and, if requested by the Contracting Officer thereafter, keep the Contracting Officer informed of the results of the investigation and any subsequent adjudication. When an investigation is complete, the Contractor will forward to the Contracting Officer a copy of the evidentiary record, the investigative report, any recommendations made to the Contractor's adjudicating official, and the adjudicating official's decision and notification of any corrective action taken or planned, and the subject's written response (if any).

- (c) The Department of Energy (DOE) may elect to act in lieu of the Contractor in conducting an inquiry or investigation into an allegation of research misconduct if the Contracting Officer finds that—
- (1) The research organization is not prepared to handle the allegation in a manner consistent with this clause;
 - (2) The allegation involves an entity of sufficiently small size that it cannot reasonably conduct the inquiry;
 - (3) DOE involvement is necessary to ensure the public health, safety, and security, or to prevent harm to the public interest; or
 - (4) The allegation involves possible criminal misconduct.
- (d) In conducting the activities under paragraphs (b) and (c) of this clause, the Contractor and the Department, if it elects to conduct the inquiry or investigation, shall adhere to the following guidelines:
- (1) **Safeguards for information and subjects of allegations.** The Contractor shall provide safeguards to ensure that individuals may bring allegations of research misconduct made in good faith to the attention of the Contractor without suffering retribution. Safeguards include: protection against retaliation; fair and objective procedures for examining and resolving allegations; and diligence in protecting positions and reputations. The Contractor shall also provide the subjects of allegations confidence that their rights are protected and that the mere filing of an allegation of research misconduct will not result in an adverse action. Safeguards include timely written notice regarding substantive allegations against them, a description of the allegation and reasonable access to any evidence submitted to support the allegation or developed in response to an allegation and notice of any findings of research misconduct.
 - (2) **Objectivity and Expertise.** The Contractor shall select individual(s) to inquire, investigate, and adjudicate allegations of research misconduct who have appropriate expertise and have no unresolved conflict of interest. The individual(s) who conducts an adjudication must not be the same individual(s) who conducted the inquiry or investigation, and must be separate organizationally from the element that conducted the inquiry or investigation.
 - (3) **Timeliness.** The Contractor shall coordinate, inquire, investigate and adjudicate allegations of research misconduct promptly, but thoroughly. Generally, an investigation should be completed within 120 days of initiation,

and adjudication should be complete within 60 days of receipt of the record of investigation.

- (4) Confidentiality. To the extent possible, consistent with fair and thorough processing of allegations of research misconduct and applicable law and regulation, knowledge about the identity of the subjects of allegations and informants should be limited to those with a need to know.
 - (5) Remediation and Sanction. If the Contractor finds that research misconduct has occurred, it shall assess the seriousness of the misconduct and its impact on the research completed or in process. The Contractor must take all necessary corrective actions. Such action may include but are not limited to, correcting the research record and as appropriate imposing restrictions, controls, or other parameters on research in process or to be conducted in the future. The Contractor must coordinate remedial actions with the Contracting Officer. The Contractor must also consider whether personnel sanctions are appropriate. Any such sanction must be considered and effected consistent with any applicable personnel laws, policies, and procedures, and shall take into account the seriousness of the misconduct and its impact, whether it was done knowingly or intentionally, and whether it was an isolated event or pattern of conduct.
- (e) DOE reserves the right to pursue such remedies and other actions as it deems appropriate, consistent with the terms and conditions of the award instrument and applicable laws and regulations. However, the Contractor's good faith administration of this clause and the effectiveness of its remedial actions and sanctions shall be positive considerations and shall be taken into account as mitigating factors in assessing the need for such actions. If DOE pursues any such action, it will inform the subject of the action of the outcome and any applicable appeal procedures.
- (f) Definitions.

Adjudication means a formal review of a record of investigation of alleged research misconduct to determine whether and what corrective actions and sanctions should be taken.

Fabrication means making up data or results and recording or reporting them.

Falsification means manipulating research materials, equipment, or processes, or changing or omitting data or results such that the research is not accurately represented in the research record.

Finding of Research Misconduct means a determination, based on a preponderance of the evidence, that research misconduct has occurred. Such a finding requires a

conclusion that there has been a significant departure from accepted practices of the relevant research community and that it be knowingly, intentionally, or recklessly committed.

Inquiry means information gathering and initial fact-finding to determine whether an allegation or apparent instance of misconduct warrants an investigation.

Investigation means the formal examination and evaluation of the relevant facts.

Plagiarism means the appropriation of another person's ideas, processes, results, or words without giving appropriate credit.

Research means all basic, applied, and demonstration research in all fields of science, medicine, engineering, and mathematics, including, but not limited to, research in economics, education, linguistics, medicine, psychology, social sciences statistics, and research involving human subjects or animals.

Research Misconduct means fabrication, falsification, or plagiarism in proposing, performing, or reviewing research, or in reporting research results, but does not include honest error or differences of opinion.

Research record means the record of all data or results that embody the facts resulting from scientists' inquiries, including, but not limited to, research proposals, laboratory records, both physical and electronic, progress reports, abstracts, theses, oral presentations, internal reports, and journal articles.

- (g) By executing this contract, the Contractor provides its assurance that it has established an administrative process for performing an inquiry, mediating if possible, or investigating, and reporting allegations of research misconduct; and that it will comply with its own administrative process and the requirements of 10 CFR part 733 for performing an inquiry, possible mediation, investigation and reporting of research misconduct.
- (h) The Contractor must insert or have inserted the substance of this clause, including paragraph (g), in subcontracts at all tiers that involve research.

I.115 952.242-70 TECHNICAL DIRECTION. (DEC 2000)

- (a) Performance of the work under this contract shall be subject to the technical direction of the DOE Contracting Officer's Representative (COR). The term "technical direction" is defined to include, without limitation:
 - (1) Providing direction to the contractor that redirects contract effort, shift work emphasis between work areas or tasks, require pursuit of certain lines of

inquiry, fill in details, or otherwise serve to accomplish the contractual Statement of Work.

- (2) Providing written information to the contractor that assists in interpreting drawings, specifications, or technical portions of the work description.
 - (3) Reviewing and, where required by the contract, approving, technical reports, drawings, specifications, and technical information to be delivered by the contractor to the Government.
- (b) The contractor will receive a copy of the written COR designation from the contracting officer. It will specify the extent of the COR's authority to act on behalf of the contracting officer.
- (c) Technical direction must be within the scope of work stated in the contract. The COR does not have the authority to, and may not, issue any technical direction that:
- (1) Constitutes an assignment of additional work outside the Statement of Work;
 - (2) Constitutes a change as defined in the contract clause entitled "Changes;"
 - (3) In any manner causes an increase or decrease in the total estimated contract cost, the fee (if any), or the time required for contract performance;
 - (4) Changes any of the expressed terms, conditions or specifications of the contract; or
 - (5) Interferes with the contractor's right to perform the terms and conditions of the contract.
- (d) All technical direction shall be issued in writing by the COR.
- (e) The contractor must proceed promptly with the performance of technical direction duly issued by the COR in the manner prescribed by this clause and within its authority under the provisions of this clause. If, in the opinion of the contractor, any instruction or direction by the COR falls within one of the categories defined in (c)(1) through (c)(5) of this clause, the contractor must not proceed and must notify the Contracting Officer in writing within five (5) working days after receipt of any such instruction or direction and must request the Contracting Officer to modify the contract accordingly. Upon receiving the notification from the contractor, the Contracting Officer must:
- (1) Advise the contractor in writing within thirty (30) days after receipt of the contractor's letter that the technical direction is within the scope of the

contract effort and does not constitute a change under the Changes clause of the contract;

- (2) Advise the contractor in writing within a reasonable time that the Government will issue a written change order; or
 - (3) Advise the contractor in writing within a reasonable time not to proceed with the instruction or direction of the COR.
- (f) A failure of the contractor and Contracting Officer either to agree that the technical direction is within the scope of the contract or to agree upon the contract action to be taken with respect to the technical direction will be subject to the provisions of the clause entitled "Disputes."

I.116 952.247-70 FOREIGN TRAVEL. (AUG 2009)

Contractor foreign travel shall be conducted pursuant to the requirements contained in Department of Energy (DOE) Order 551.1C, or its successor, Official Foreign Travel, or any subsequent version of the order in effect at the time of award.

I.117 952.250-70 NUCLEAR HAZARDS INDEMNITY AGREEMENT. (JUN 1996)

- (a) Authority. This clause is incorporated into this contract pursuant to the authority contained in subsection 170d. of the Atomic Energy Act of 1954, as amended (hereinafter called the Act.)
- (b) Definitions. The definitions set out in the Act shall apply to this clause.
- (c) Financial protection. Except as hereafter permitted or required in writing by DOE, the contractor will not be required to provide or maintain, and will not provide or maintain at Government expense, any form of financial protection to cover public liability, as described in paragraph (d)(2) below. DOE may, however, at any time require in writing that the contractor provide and maintain financial protection of such a type and in such amount as DOE shall determine to be appropriate to cover such public liability, provided that the costs of such financial protection are reimbursed to the contractor by DOE.
- (d) (1) Indemnification. To the extent that the contractor and other persons indemnified are not compensated by any financial protection permitted or required by DOE, DOE will indemnify the contractor and other persons indemnified against (i) claims for public liability as described in subparagraph (d)(2) of this clause; and (ii) such legal costs of the contractor and other persons indemnified as are approved by DOE, provided that DOE's

liability, including such legal costs, shall not exceed the amount set forth in section 170e.(1)(B) of the Act in the aggregate for each nuclear incident or precautionary evacuation occurring within the United States or \$100 million in the aggregate for each nuclear incident occurring outside the United States, irrespective of the number of persons indemnified in connection with this contract.

- (2) The public liability referred to in subparagraph (d)(1) of this clause is public liability as defined in the Act which (i) arises out of or in connection with the activities under this contract, including transportation; and (ii) arises out of or results from a nuclear incident or precautionary evacuation, as those terms are defined in the Act.
- (e) (1) Waiver of Defenses. In the event of a nuclear incident, as defined in the Act, arising out of nuclear waste activities, as defined in the Act, the contractor, on behalf of itself and other persons indemnified, agrees to waive any issue or defense as to charitable or governmental immunity.
- (2) In the event of an extraordinary nuclear occurrence which:
 - (i) Arises out of, results from, or occurs in the course of the construction, possession, or operation of a production or utilization facility; or
 - (ii) Arises out of, results from, or occurs in the course of transportation of source material, by-product material, or special nuclear material to or from a production or utilization facility; or
 - (iii) Arises out of or results from the possession, operation, or use by the contractor or a subcontractor of a device utilizing special nuclear material or by-product material, during the course of the contract activity; or
 - (iv) Arises out of, results from, or occurs in the course of nuclear waste activities, the contractor, on behalf of itself and other persons indemnified, agrees to waive:
 - (A) Any issue or defense as to the conduct of the claimant (including the conduct of persons through whom the claimant derives its cause of action) or fault of persons indemnified, including, but not limited to:
 - (1) Negligence;
 - (2) Contributory negligence;

- (3) Assumption of risk; or
- (4) Unforeseeable intervening causes, whether involving the conduct of a third person or an act of God;
- (B) Any issue or defense as to charitable or governmental immunity; and
- (C) Any issue or defense based on any statute of limitations, if suit is instituted within 3 years from the date on which the claimant first knew, or reasonably could have known, of his injury or change and the cause thereof. The waiver of any such issue or defense shall be effective regardless of whether such issue or defense may otherwise be deemed jurisdictional or relating to an element in the cause of action. The waiver shall be judicially enforceable in accordance with its terms by the claimant against the person indemnified.
- (v) The term extraordinary nuclear occurrence means an event which DOE has determined to be an extraordinary nuclear occurrence as defined in the Act. A determination of whether or not there has been an extraordinary nuclear occurrence will be made in accordance with the procedures in 10 CFR Part 840.
- (vi) For the purposes of that determination, "offsite" as that term is used in 10 CFR part 840 means away from "the contract location" which phrase means any DOE facility, installation, or site at which contractual activity under this contract is being carried on, and any contractor-owned or controlled facility, installation, or site at which the contractor is engaged in the performance of contractual activity under this contract.
- (3) The waivers set forth above:
 - (i) Shall be effective regardless of whether such issue or defense may otherwise be deemed jurisdictional or relating to an element in the cause of action;
 - (ii) Shall be judicially enforceable in accordance with its terms by the claimant against the person indemnified;
 - (iii) Shall not preclude a defense based upon a failure to take reasonable steps to mitigate damages;
 - (iv) Shall not apply to injury or damage to a claimant or to a claimant's property which is intentionally sustained by the claimant or which

results from a nuclear incident intentionally and wrongfully caused by the claimant;

- (v) Shall not apply to injury to a claimant who is employed at the site of and in connection with the activity where the extraordinary nuclear occurrence takes place, if benefits therefor are either payable or required to be provided under any workmen's compensation or occupational disease law;
 - (vi) Shall not apply to any claim resulting from a nuclear incident occurring outside the United States;
 - (vii) Shall be effective only with respect to those obligations set forth in this clause and in insurance policies, contracts or other proof of financial protection; and
 - (viii) Shall not apply to, or prejudice the prosecution or defense of, any claim or portion of claim which is not within the protection afforded under (A) the limit of liability provisions under subsection 170e. of the Act, and (B) the terms of this agreement and the terms of insurance policies, contracts, or other proof of financial protection.
- (f) Notification and litigation of claims. The contractor shall give immediate written notice to DOE of any known action or claim filed or made against the contractor or other person indemnified for public liability as defined in paragraph (d)(2). Except as otherwise directed by DOE, the contractor shall furnish promptly to DOE, copies of all pertinent papers received by the contractor or filed with respect to such actions or claims. DOE shall have the right to, and may collaborate with, the contractor and any other person indemnified in the settlement or defense of any action or claim and shall have the right to (1) require the prior approval of DOE for the payment of any claim that DOE may be required to indemnify hereunder; and (2) appear through the Attorney General on behalf of the contractor or other person indemnified in any action brought upon any claim that DOE may be required to indemnify hereunder, take charge of such action, and settle or defend any such action. If the settlement or defense of any such action or claim is undertaken by DOE, the contractor or other person indemnified shall furnish all reasonable assistance in effecting a settlement or asserting a defense.
- (g) Continuity of DOE obligations. The obligations of DOE under this clause shall not be affected by any failure on the part of the contractor to fulfill its obligation under this contract and shall be unaffected by the death, disability, or termination of existence of the contractor, or by the completion, termination or expiration of this contract.

- (h) Effect of other clauses. The provisions of this clause shall not be limited in any way by, and shall be interpreted without reference to, any other clause of this contract, including the clause entitled Contract Disputes, provided, however, that this clause shall be subject to the clauses entitled Covenant Against Contingent Fees, and Accounts, records, and inspection, and any provisions that are later added to this contract as required by applicable Federal law, including statutes, executive orders and regulations, to be included in Nuclear Hazards Indemnity Agreements.
- (i) Civil penalties. The contractor and its subcontractors and suppliers who are indemnified under the provisions of this clause are subject to civil penalties, pursuant to 234A of the Act, for violations of applicable DOE nuclear-safety related rules, regulations, or orders.
- (j) Criminal penalties. Any individual director, officer, or employee of the contractor or of its subcontractors and suppliers who are indemnified under the provisions of this clause are subject to criminal penalties, pursuant to 223(c) of the Act, for knowing and willful violation of the Atomic Energy Act of 1954, as amended, and applicable DOE nuclear safety-related rules, regulations or orders which violation results in, or, if undetected, would have resulted in a nuclear incident.
- (k) Inclusion in subcontracts. The contractor shall insert this clause in any subcontract which may involve the risk of public liability, as that term is defined in the Act and further described in paragraph (d)(2) above. However, this clause shall not be included in subcontracts in which the subcontractor is subject to Nuclear Regulatory Commission (NRC) financial protection requirements under section 170b. of the Act or NRC agreements of indemnification under section 170c. or k. of the Act for the activities under the subcontract.

Effective date

() See Note II below for instructions related to this section on Effective Date.

Relationship to general indemnity

() See Note III below for instructions related to this section on Relationship to General Indemnity.

NOTE I: Paragraph (i) of the clause will be replaced with "Reserved" in contracts specifically exempted from civil penalties by section 234 of the Act. That subsection provides that the following DOE contractors are not subject to the assessment of civil penalties:

- (1) The University of Chicago (and any subcontractors or suppliers thereto) for activities associated with Argonne National Laboratory;

- (2) The University of California (and any subcontractors or suppliers thereto) for activities associated with Los Alamos National Laboratory, Lawrence Livermore National Laboratory, and Lawrence Berkeley National Laboratory;
- (3) American Telephone and Telegraph Company and its subsidiaries (and any subcontractors or suppliers thereto) for activities associated with Sandia National Laboratories;
- (4) Universities Research Association, Inc. (and any subcontractors or suppliers thereto) for activities associated with FERMI National Laboratory;
- (5) Princeton University (and any subcontractor or suppliers thereto) for activities associated with Princeton Plasma Physics Laboratory;
- (6) The Associated Universities, Inc. (and any subcontractors or suppliers thereto) for activities associated with the Brookhaven National Laboratory; and
- (7) Battelle Memorial Institute (and any subcontractors or suppliers thereto) for activities associated with Pacific Northwest Laboratory.

(End of note)

NOTE II: Contracts with an effective date after the date of (June 12, 1996), do not require the effective date provision in this clause. Delete the title.

Use the EFFECTIVE DATE title and the following language, for those contracts:

"() This indemnity agreement shall be applicable with respect to nuclear incidents occurring on or after .."

- (1) Those that contained an indemnity pursuant to Public Law 85-840 prior to August 20, 1988, include the effective date provision above, inserting the effective date of the contract modification that replaced the Public Law 85-804 indemnity with an interim Price-Anderson based indemnity. Pursuant to the Price-Anderson Amendments Act, this substitution must have taken place by February 20, 1989.
- (2) Those that contained, and continue to contain, either of the previous Nuclear Hazards Indemnity clauses, include the effective date provision above, inserting "August 20, 1988."
- (3) Those with an effective date between August 20, 1988, and the date of the Final Rule, that (a) had "interim coverage" or (b) did not have "interim coverage" but have now been determined to be covered under the PAAA,

include the effective date provision above, inserting the contract effective date.

NOTE III: The following alternate will be added to the above Nuclear Hazards Indemnity Agreement clause for all contracts that contain a general authority indemnity pursuant to 950.7101. Caution: Be aware that for contracts that will have this provision added which do not contain an effective date provision, this paragraph shall be marked (1). In the event an Effective Date provision has been included, it shall be marked (m).

"() To the extent that the contractor is compensated by any financial protection, or is indemnified pursuant to this clause, or is effectively relieved of public liability by an order or orders limiting same, pursuant to 170e of the Act, the provisions of the clause providing general authority indemnity shall not apply."

I.118 952.250-70 NUCLEAR HAZARDS INDEMNITY AGREEMENT (OCT 2005)

- (a) *Authority.* This clause is incorporated into this contract pursuant to the authority contained in subsection 170d. of the Atomic Energy Act of 1954, as amended (hereinafter called the Act.)
- (b) *Definitions.* The definitions set out in the Act shall apply to this clause.
- (c) *Financial protection.* Except as hereafter permitted or required in writing by DOE, the contractor will not be required to provide or maintain, and will not provide or maintain at Government expense, any form of financial protection to cover public liability, as described in paragraph (d)(2) below. DOE may, however, at any time require in writing that the contractor provide and maintain financial protection of such a type and in such amount as DOE shall determine to be appropriate to cover such public liability, provided that the costs of such financial protection are reimbursed to the contractor by DOE.
- (d) (1) *Indemnification.* To the extent that the contractor and other persons indemnified are not compensated by any financial protection permitted or required by DOE, DOE will indemnify the contractor and other persons indemnified against (i) claims for public liability as described in subparagraph (d)(2) of this clause; and (ii) such legal costs of the contractor and other persons indemnified as are approved by DOE, provided that DOE's liability, including such legal costs, shall not exceed the amount set forth in section 170d. of the Act, as that amount may be increased in accordance with section 170t., in the aggregate for each nuclear incident or precautionary evacuation occurring within the United States or \$500 million in the aggregate for each nuclear incident occurring outside the United States, irrespective of the number of persons indemnified in connection with this contract.

- (2) The public liability referred to in subparagraph (d)(1) of this clause is public liability as defined in the Act which (i) arises out of or in connection with the activities under this contract, including transportation; and (ii) arises out of or results from a nuclear incident or precautionary evacuation, as those terms are defined in the Act.
- (e) (1) *Waiver of Defenses.* In the event of a nuclear incident, as defined in the Act, arising out of nuclear waste activities, as defined in the Act, the contractor, on behalf of itself and other persons indemnified, agrees to waive any issue or defense as to charitable or governmental immunity.
- (2) In the event of an extraordinary nuclear occurrence which:
 - (i) Arises out of, results from, or occurs in the course of the construction, possession, or operation of a production or utilization facility; or
 - (ii) Arises out of, results from, or occurs in the course of transportation of source material, by-product material, or special nuclear material to or from a production or utilization facility; or
 - (iii) Arises out of or results from the possession, operation, or use by the contractor or a subcontractor of a device utilizing special nuclear material or by-product material, during the course of the contract activity; or
 - (iv) Arises out of, results from, or occurs in the course of nuclear waste activities, the contractor, on behalf of itself and other persons indemnified, agrees to waive:
 - (A) Any issue or defense as to the conduct of the claimant (including the conduct of persons through whom the claimant derives its cause of action) or fault of persons indemnified, including, but not limited to:
 - (1) Negligence;
 - (2) Contributory negligence;
 - (3) Assumption of risk; or
 - (4) Unforeseeable intervening causes, whether involving the conduct of a third person or an act of God;

- (B) Any issue or defense as to charitable or governmental immunity;
and
 - (C) Any issue or defense based on any statute of limitations, if suit is instituted within 3 years from the date on which the claimant first knew, or reasonably could have known, of his injury or change and the cause thereof. The waiver of any such issue or defense shall be effective regardless of whether such issue or defense may otherwise be deemed jurisdictional or relating to an element in the cause of action. The waiver shall be judicially enforceable in accordance with its terms by the claimant against the person indemnified.
- (v) The term *extraordinary nuclear occurrence* means an event which DOE has determined to be an extraordinary nuclear occurrence as defined in the Act. A determination of whether or not there has been an extraordinary nuclear occurrence will be made in accordance with the procedures in 10 CFR part 840.
 - (vi) For the purposes of that determination, "offsite" as that term is used in 10 CFR part 840 means away from "the contract location" which phrase means any DOE facility, installation, or site at which contractual activity under this contract is being carried on, and any contractor-owned or controlled facility, installation, or site at which the contractor is engaged in the performance of contractual activity under this contract.
- (3) The waivers set forth above:
- (i) Shall be effective regardless of whether such issue or defense may otherwise be deemed jurisdictional or relating to an element in the cause of action;
 - (ii) Shall be judicially enforceable in accordance with its terms by the claimant against the person indemnified;
 - (iii) Shall not preclude a defense based upon a failure to take reasonable steps to mitigate damages;
 - (iv) Shall not apply to injury or damage to a claimant or to a claimant's property which is intentionally sustained by the claimant or which results from a nuclear incident intentionally and wrongfully caused by the claimant;
 - (v) Shall not apply to injury to a claimant who is employed at the site of and in connection with the activity where the extraordinary nuclear occurrence takes place, if benefits therefor are either payable or required

to be provided under any workmen's compensation or occupational disease law;

- (vi) Shall not apply to any claim resulting from a nuclear incident occurring outside the United States;
 - (vii) Shall be effective only with respect to those obligations set forth in this clause and in insurance policies, contracts or other proof of financial protection; and
 - (viii) Shall not apply to, or prejudice the prosecution or defense of, any claim or portion of claim which is not within the protection afforded under (A) the limit of liability provisions under subsection 170e. of the Act, and (B) the terms of this agreement and the terms of insurance policies, contracts, or other proof of financial protection.
- (f) *Notification and litigation of claims.* The contractor shall give immediate written notice to DOE of any known action or claim filed or made against the contractor or other person indemnified for public liability as defined in paragraph (d)(2). Except as otherwise directed by DOE, the contractor shall furnish promptly to DOE, copies of all pertinent papers received by the contractor or filed with respect to such actions or claims. DOE shall have the right to, and may collaborate with, the contractor and any other person indemnified in the settlement or defense of any action or claim and shall have the right to (1) require the prior approval of DOE for the payment of any claim that DOE may be required to indemnify hereunder; and (2) appear through the Attorney General on behalf of the contractor or other person indemnified in any action brought upon any claim that DOE may be required to indemnify hereunder, take charge of such action, and settle or defend any such action. If the settlement or defense of any such action or claim is undertaken by DOE, the contractor or other person indemnified shall furnish all reasonable assistance in effecting a settlement or asserting a defense.
- (g) *Continuity of DOE obligations.* The obligations of DOE under this clause shall not be affected by any failure on the part of the contractor to fulfill its obligation under this contract and shall be unaffected by the death, disability, or termination of existence of the contractor, or by the completion, termination or expiration of this contract.
- (h) *Effect of other clauses.* The provisions of this clause shall not be limited in any way by, and shall be interpreted without reference to, any other clause of this contract, including the clause entitled Contract Disputes, provided, however, that this clause shall be subject to the clauses entitled Covenant Against Contingent Fees, and Accounts, records, and inspection, and any provisions that are later added to this contract as required by applicable Federal law, including statutes, executive orders and regulations, to be included in Nuclear Hazards Indemnity Agreements.

- (i) *Civil penalties.* The contractor and its subcontractors and suppliers who are indemnified under the provisions of this clause are subject to civil penalties, pursuant to section 234A of the Act, for violations of applicable DOE nuclear-safety related rules, regulations, or orders. If the contractor is a not-for-profit contractor, as defined by section 234Ad.(2), the total amount of civil penalties paid shall not exceed the total amount of fees paid within any 1-year period (as determined by the Secretary) under this contract.
- (j) *Criminal penalties.* Any individual director, officer, or employee of the contractor or of its subcontractors and suppliers who are indemnified under the provisions of this clause are subject to criminal penalties, pursuant to section 223(c) of the Act, for knowing and willful violation of the Atomic Energy Act of 1954, as amended, and applicable DOE nuclear safety-related rules, regulations or orders which violation results in, or, if undetected, would have resulted in a nuclear incident.
- (k) *Inclusion in subcontracts.* The contractor shall insert this clause in any subcontract which may involve the risk of public liability, as that term is defined in the Act and further described in paragraph (d)(2) above. However, this clause shall not be included in subcontracts in which the subcontractor is subject to Nuclear Regulatory Commission (NRC) financial protection requirements under section 170b. of the Act or NRC agreements of indemnification under section 170c. or k. of the Act for the activities under the subcontract.
- (l) *Effective date.* This contract was in effect prior to August 8, 2005 and contains the clause at DEAR 952.250-70 (JUNE 1996) or prior version. The indemnity of paragraph (d)(1) is limited to the indemnity provided by the Price-Anderson Amendments Act of 1988 for any nuclear incident to which the indemnity applies that occurred before August 8, 2005. The indemnity of paragraph (d)(1) of this clause applies to any nuclear incident that occurred on or after August 8, 2005. The Contractor's liability for violations of the Atomic Energy Act of 1954 under this contract is that in effect prior to August 8, 2005.

Note II

The following alternate will be added to the above Nuclear Hazards Indemnity Agreement clause for all contracts that contain a general authority indemnity pursuant to 950.7101. Caution: Be aware that for contracts that will have this provision added which do not contain an effective date provision, this paragraph shall be marked (1). In the event an Effective Date provision has been included, it shall be marked (m).

"() To the extent that the contractor is compensated by any financial protection, or is indemnified pursuant to this clause, or is effectively relieved of public liability by

an order or orders limiting same, pursuant to 170e of the Act, the provisions of the clause providing general authority indemnity shall not apply."

(End of note)

I.119 952.251-70 CONTRACTOR EMPLOYEE TRAVEL DISCOUNTS. (AUG 2009)

- (a) The Contractor shall take advantage of travel discounts offered to Federal Contractor employee travelers by AMTRAK, hotels, motels, or car rental companies, when use of such discounts would result in lower overall trip costs and the discounted services are reasonably available. Vendors providing these services may require the Contractor employee to furnish them a letter of identification signed by the authorized Contracting Officer.
- (b) Contracted airlines. Contractors are not eligible for GSA contract city pair fares.
- (c) Discount rail service. AMTRAK voluntarily offers discounts to Federal travelers on official business and sometimes extends those discounts to Federal contractor employees.
- (d) Hotels/motels. Many lodging providers extend their discount rates for Federal employees to Federal contractor employees.
- (e) Car rentals. Surface Deployment and Distribution Command (SDDC) of the Department of Defense negotiates rate agreements with car rental companies that are available to Federal travelers on official business. Some car rental companies extend those discounts to Federal contractor employees.
- (f) Obtaining travel discounts.
 - (1) To determine which vendors offer discounts to Government contractors, the Contractor may review commercial publications such as the Official Airline guides Official Traveler, Innovata, or National Telecommunications. The Contractor may also obtain this information from GSA contract Travel Management Centers or the Department of Defense's Commercial Travel Offices.
 - (2) The vendor providing the service may require the Government contractor to furnish a letter signed by the Contracting Officer. The following illustrates a standard letter of identification.

OFFICIAL AGENCY LETTERHEAD

TO: Participating Vendor

SUBJECT: OFFICIAL TRAVEL OF GOVERNMENT CONTRACTOR

(FULL NAME OF TRAVELER), the bearer of this letter is an employee of (COMPANY NAME) which has a contract with this agency under Government contract (CONTRACT NUMBER). During the period of the contract (GIVE DATES), AND WITH THE APPROVAL OF THE CONTRACT VENDOR, the employee is eligible and authorized to use available travel discount rates in accordance with Government contracts and/or agreements. Government Contract City Pair fares are not available to Contractors.

SIGNATURE, Title and telephone number of Contracting Officer

I.120 970.5203-1 MANAGEMENT CONTROLS. (JUN 2007)

- (a) (1) The Contractor shall be responsible for maintaining, as an integral part of its organization, effective systems of management controls for both administrative and programmatic functions. Management controls comprise the plan of organization, methods, and procedures adopted including consideration of outsourcing of functions by management to reasonably ensure that: the mission and functions assigned to the Contractor are properly executed; efficient and effective operations are promoted; resources are safeguarded against waste, loss, mismanagement, unauthorized use, or misappropriation; all encumbrances and costs that are incurred under the contract and fees that are earned are in compliance with applicable clauses and other current terms, conditions, and intended purposes; all collections accruing to the Contractor in connection with the work under this contract, expenditures, and all other transactions and assets are properly recorded, managed, and reported; and financial, statistical, and other reports necessary to maintain accountability and managerial control are accurate, reliable, and timely.
- (2) The systems of controls employed by the Contractor shall be documented and satisfactory to DOE.
- (3) Such systems shall be an integral part of the Contractor's management functions, including defining specific roles and responsibilities for each level of management, and holding employees accountable for the adequacy of the management systems and controls in their areas of assigned responsibility.
- (4) The Contractor shall, as part of the internal audit program required elsewhere in this contract, periodically review the management systems and controls employed in programs and administrative areas to ensure that they are

adequate to provide reasonable assurance that the objectives of the systems are being accomplished and that these systems and controls are working effectively. Annually, or at other intervals directed by the Contracting Officer, the Contractor shall supply to the Contracting Officer copies of the reports reflecting the status of recommendations resulting from management audits performed by its internal audit activity and any other audit organization. This requirement may be satisfied in part by the reports required under paragraph (i) of 48 CFR 970.5232-3, Accounts, records, and inspection.

- (b) The Contractor shall be responsible for maintaining, as a part of its operational responsibilities, a baseline quality assurance program that implements documented performance, quality standards, and control and assessment techniques.

I.121 970.5203-2 PERFORMANCE IMPROVEMENT AND COLLABORATION. (MAY 2006)

- (a) The Contractor agrees that it shall affirmatively identify, evaluate, and institute practices, where appropriate, that will improve performance in the areas of environmental and health, safety, scientific and technical, security, business and administrative, and any other areas of performance in the management and operation of the contract. This may entail the alteration of existing practices or the institution of new procedures to more effectively or efficiently perform any aspect of contract performance or reduce overall cost of operation under the contract. Such improvements may result from changes in organization, outsourcing decisions, simplification of systems while retaining necessary controls, or any other approaches consistent with the statement of work and performance measures of this contract.
- (b) The Contractor agrees to work collaboratively with the Department, all other management and operating, DOE major facilities management contractors and affiliated contractors which manage or operate DOE sites or facilities for the following purposes: (i) to exchange information generally, (ii) to evaluate concepts that may be of benefit in resolving common issues, in confronting common problems, or in reducing costs of operations, and (iii) to otherwise identify and implement DOE-complex-wide management improvements discussed in paragraph (a). In doing so, it shall also affirmatively provide information relating to its management improvements to such contractors, including lessons learned, subject to security considerations and the protection of data proprietary to third parties.
- (c) The Contractor may consult with the Contracting Officer in those instances in which improvements being considered pursuant to paragraph (a) involve the cooperation of the DOE. The Contractor may request the assistance of the Contracting Officer in the communication of the success of improvements to other

management and operating contractors in accordance with paragraph (b) of this clause.

- (d) The Contractor shall notify the Contracting Officer and seek approval where necessary to fulfill its obligations under the contract. Compliance with this clause in no way alters the obligations of the Contractor under any other provision of this contract.

I.122 970.5203-3 CONTRACTOR'S ORGANIZATION. (DEC 2000) (DEVIATION)

- (a) Organization chart. As promptly as possible after the execution of this contract, the contractor shall furnish to the contracting officer a chart showing the names, duties, and organization of key personnel (see 48 CFR 952.215-70) to be employed in connection with the work, and shall furnish supplemental information to reflect any changes as they occur.
- (b) Supervisory representative of contractor. Unless otherwise directed by the contracting officer, a competent full-time resident supervisory representative of the contractor satisfactory to the contracting officer shall be in charge of the work at the site, and any work off-site, at all times.
- (c) *(DEVIATION)* Control of employees. The contractor shall be responsible for maintaining satisfactory standards of employee competency, conduct, and integrity and shall be responsible for taking such disciplinary action with respect to its employees as may be necessary.
- (d) Standards and procedures. The contractor shall establish such standards and procedures as are necessary to implement the requirements set forth in 48 CFR 970.0371. Such standards and procedures shall be subject to the approval of the contracting officer.

I.123 970.5204-1 COUNTERINTELLIGENCE. (DEC 2000) (Modified)

- (a) The contractor shall take all reasonable precautions in the work under this contract to protect DOE programs, facilities, technology, personnel, unclassified sensitive information and classified matter from foreign intelligence threats and activities conducted for governmental or industrial purposes, in accordance with DOE Order 5670.3, Counterintelligence Program; Executive Order 12333, U.S. Intelligence Activities; and other pertinent national and Departmental Counterintelligence requirements.
- (b) *(Modification)* The contractor shall appoint a qualified employee(s) to function as the Contractor Counterintelligence Officer *to support all facilities for which the Oak Ridge Office has cognizance for the Counterintelligence function.* The

Contractor Counterintelligence Officer will be responsible for conducting defensive Counterintelligence briefings and debriefings of employees traveling to foreign countries or interacting with foreign nationals; providing thoroughly documented written reports relative to targeting, suspicious activity and other matters of Counterintelligence interest; immediately reporting targeting, suspicious activity and other Counterintelligence concerns to the DOE Headquarters Counterintelligence Division; and providing assistance to other elements of the U.S. Intelligence Community as stated in the aforementioned Executive Order, the DOE Counterintelligence Order, and other pertinent national and Departmental Counterintelligence requirements.

**I.124 970.5204-2 LAWS, REGULATIONS, AND DOE DIRECTIVES. (DEC 2000)
(DEVIATION)**

- (a) In performing work under this contract, the contractor shall comply with the requirements of applicable Federal, State, and local laws and regulations (including DOE regulations), unless relief has been granted in writing by the appropriate regulatory agency. A List of Applicable Laws and regulations (List A) may be appended to this contract for information purposes. Omission of any applicable law or regulation from List A does not affect the obligation of the contractor to comply with such law or regulation pursuant to this paragraph.

- (b) In performing work under this contract, the contractor shall comply with the requirements of those Department of Energy directives, or parts thereof, identified in the List of Applicable Directives (List B) appended to this contract. Except as otherwise provided for in paragraph (d) of this clause, *or through the process described in Appendix D*, the contracting officer may, from time to time and at any time, revise List B by unilateral modification to the contract to add, modify, or delete specific requirements. Prior to revising List B, the contracting officer shall notify the contractor in writing of the Department's intent to revise List B and provide the contractor with the opportunity to assess the effect of the contractor's compliance with the revised list on contract cost and funding, technical performance, and schedule; and identify any potential inconsistencies between the revised list and the other terms and conditions of the contract. Within 30 days after receipt of the contracting officer's notice, the contractor shall advise the contracting officer in writing of the potential impact of the contractor's compliance with the revised list. Based on the information provided by the contractor and any other information available, the contracting officer shall decide whether to revise List B and so advise the contractor not later than 30 days prior to the effective date of the revision of List B. The contractor and the contracting officer shall identify and, if appropriate, agree to any changes to other contract terms and conditions, including cost and schedule, associated with the revision of List B pursuant to the clause of this contract entitled, "Changes."

- (c) Environmental, safety, and health (ES&H) requirements appropriate for work conducted under this contract may be determined by a DOE approved process to evaluate the work and the associated hazards and identify an appropriately tailored set of standards, practices, and controls, such as a tailoring process included in a DOE approved Safety Management System implemented under the clause entitled "Integration of Environment, Safety, and Health into Work Planning and Execution." When such a process is used, the set of tailored (ES&H) requirements, as approved by DOE pursuant to the process, shall be incorporated into List B as contract requirements with full force and effect. These requirements shall supersede, in whole or in part, the contractual environmental, safety, and health requirements previously made applicable to the contract by List B. If the tailored set of requirements identifies an alternative requirement varying from an ES&H requirement of an applicable law or regulation, the contractor shall request an exemption or other appropriate regulatory relief specified in the regulation.
- (d) Except as otherwise directed by the contracting officer, the contractor shall procure all necessary permits or licenses required for the performance of work under this contract.
- (e) Regardless of the performer of the work, the contractor is responsible for compliance with the requirements of this clause. The contractor is responsible for flowing down the requirements of this clause to subcontracts at any tier to the extent necessary to ensure the contractor's compliance with the requirements.

I.125 970.5204-3 ACCESS TO AND OWNERSHIP OF RECORDS. (JUL 2005)

- (a) Government-owned records. Except as provided in paragraph (b) of this clause, all records acquired or generated by the Contractor in its performance of this contract shall be the property of the Government and shall be delivered to the Government or otherwise disposed of by the Contractor either as the Contracting Officer may from time to time direct during the progress of the work or, in any event, as the Contracting Officer shall direct upon completion or termination of the contract.
- (b) Contractor-owned records. The following records are considered the property of the Contractor and are not within the scope of paragraph (a) of this clause. [The Contracting Officer shall identify which of the following categories of records will be included in the clause.]
 - (1) Employment-related records (such as worker's compensation files; employee relations records, records on salary and employee benefits; drug testing records, labor negotiation records; records on ethics, employee concerns; records generated during the course of responding to allegations of research misconduct; records generated during other employee related investigations conducted under an expectation of confidentiality; employee assistance

program records; and personnel and medical/health-related records and similar files), and non-employee patient medical/health-related records, except for those records described by the contract as being maintained in Privacy Act systems of records.

[70 FR 37010 Jun. 28, 2005]

- (2) Confidential contractor financial information, and correspondence between the Contractor and other segments of the Contractor located away from the DOE facility (i.e., the Contractor's corporate headquarters);
 - (3) Records relating to any procurement action by the Contractor, except for records that under 48 CFR 970.5232-3, Accounts, Records, and Inspection, are described as the property of the Government; and
 - (4) Legal records, including legal opinions, litigation files, and documents covered by the attorney-client and attorney work product privileges; and
 - (5) The following categories of records maintained pursuant to the technology transfer clause of this contract:
 - (i) Executed license agreements, including exhibits or appendices containing information on royalties, royalty rates, other financial information, or commercialization plans, and all related documents, notes and correspondence.
 - (ii) The Contractor's protected Cooperative Research and Development Agreement (CRADA) information and appendices to a CRADA that contain licensing terms and conditions, or royalty or royalty rate information.
 - (iii) Patent, copyright, mask work, and trademark application files and related contractor invention disclosures, documents and correspondence, where the Contractor has elected rights or has permission to assert rights and has not relinquished such rights or turned such rights over to the Government.
- (c) Contract completion or termination. In the event of completion or termination of this contract, copies of any of the contractor-owned records identified in paragraph (b) of this clause, upon the request of the Government, shall be delivered to DOE or its designees, including successor contractors. Upon delivery, title to such records shall vest in DOE or its designees, and such records shall be protected in accordance with applicable federal laws (including the Privacy Act), as appropriate.

- (d) Inspection, copying, and audit of records. All records acquired or generated by the Contractor under this contract in the possession of the Contractor, including those described at paragraph (b) of this clause, shall be subject to inspection, copying, and audit by the Government or its designees at all reasonable times, and the Contractor shall afford the Government or its designees reasonable facilities for such inspection, copying, and audit; provided, however, that upon request by the Contracting Officer, the Contractor shall deliver such records to a location specified by the Contracting Officer for inspection, copying, and audit. The Government or its designees shall use such records in accordance with applicable federal laws (including the Privacy Act), as appropriate.
- (e) Applicability. Paragraphs (b), (c), and (d) of this clause apply to all records without regard to the date or origination of such records.
- (f) Records retention standards. Special records retention standards, described at DOE Order 200.1, Information Management Program (version in effect on effective date of contract), are applicable for the classes of records described therein, whether or not the records are owned by the Government or the Contractor. In addition, the Contractor shall retain individual radiation exposure records generated in the performance of work under this contract until DOE authorizes disposal. The Government may waive application of these record retention schedules, if, upon termination or completion of the contract, the Government exercises its right under paragraph (c) of this clause to obtain copies and delivery of records described in paragraphs (a) and (b) of this clause.
- (g) Subcontracts. The Contractor shall include the requirements of this clause in all subcontracts that are of a cost-reimbursement type if any of the following factors is present:
 - (1) The value of the subcontract is greater than \$2 million (unless specifically waived by the Contracting Officer);
 - (2) The Contracting Officer determines that the subcontract is, or involves, a critical task related to the contract; or
 - (3) The subcontract includes 48 CFR 970.5223-1, Integration of Environment, Safety, and Health into Work Planning and Execution, or similar clause.

I.126 970.5208-1 PRINTING. (DEC 2000)

- (a) To the extent that duplicating or printing services may be required in the performance of this contract, the Contractor shall provide or secure such services in accordance with the Government Printing and Binding Regulations, Title 44 of the U.S. Code, and DOE Directives relative thereto.

- (b) The term "Printing" includes the following processes: Composition, platemaking, presswork, binding, microform publishing, or the end items produced by such processes. Provided, however, that performance of a requirement under this contract involving the duplication of less than 5,000 copies of a single page, or no more than 25,000 units in the aggregate of multiple pages, will not be deemed to be printing.
- (c) Printing services not obtained in compliance with this guidance shall result in the cost of such printing being disallowed.
- (d) The Contractor shall include the substance of this clause in all subcontracts hereunder which require printing (as that term is defined in Title I of the U.S. Government Printing and Binding Regulations).

I.127 970.5211-1 WORK AUTHORIZATION (MAY 2007).

- (a) Work authorization proposal. Prior to the start of each fiscal year, the Contracting Officer or designee shall provide the Contractor with program execution guidance in sufficient detail to enable the Contractor to develop an estimated cost, scope, and schedule. In addition, the Contracting Officer may unilaterally assign work. The Contractor shall submit to the Contracting Officer or other designated official, a detailed description of work, a budget of estimated costs, and a schedule of performance for the work it recommends be undertaken during that upcoming fiscal year.
- (b) Cost estimates. The Contractor and the Contracting Officer shall establish a budget of estimated costs, description of work, and schedule of performance for each work assignment. If agreement cannot be reached as to scope, schedule, and estimated cost, the Contracting Officer may issue a unilateral work authorization, pursuant to this clause. The work authorization, whether issued bilaterally or unilaterally shall become part of the contract. No activities shall be authorized or costs incurred prior to Contracting Officer issuance of a work authorization or direction concerning continuation of activities of the contract.
- (c) Performance. The Contractor shall perform work as specified in the work authorization, consistent with the terms and conditions of this contract.
- (d) Modification. The Contracting Officer may at any time, without notice, issue changes to work authorizations within the overall scope of the contract. A proposal for adjustment in estimated costs and schedule for performance of work, recognizing work made unnecessary as a result, along with new work, shall be submitted by the Contractor in accordance with paragraph (a) of this clause. Resolution shall be in accordance with paragraph (b) of this clause.

- (e) Increase in estimated cost. The Contractor shall notify the Contracting Officer immediately whenever the cost incurred, plus the projected cost to complete work is projected to differ (plus or minus) from the estimate by 10 percent. The Contractor shall submit a proposal for modification in accordance with paragraph (a) of this clause. Resolution shall be in accordance with paragraph (b) of this clause.
- (f) Expenditure of funds and incurrence of costs. The expenditure of monies by the Contractor in the performance of all authorized work shall be governed by the "Obligation of Funds" or equivalent clause of the contract.
- (g) Responsibility to achieve environment, safety, health, and security compliance. Notwithstanding other provisions of the contract, the Contractor may, in the event of an emergency, take that corrective action necessary to sustain operations consistent with applicable environmental, safety, health, and security statutes, regulations, and procedures. If such action is taken, the Contractor shall notify the Contracting Officer within 24 hours of initiation and, within 30 days, submit a proposal for adjustment in estimated costs and schedule established in accordance with paragraphs (a) and (b) of this clause.

I.128 970.5215-1 TOTAL AVAILABLE FEE: BASE FEE AMOUNT AND PERFORMANCE FEE AMOUNT (DEC 2000) - ALTERNATE II AND ALTERNATE III (DEC 2000)

- (a) Total available fee. Total available fee, consisting of a base fee amount (which may be zero) and a performance fee amount (consisting of an incentive fee component for objective performance requirements, an award fee component for subjective performance requirements, or both) determined in accordance with the provisions of this clause, is available for payment in accordance with the clause of this contract entitled, "Payments and advances."
- (b) Fee Negotiations. Prior to the beginning of each fiscal year under this contract, or other appropriate period as mutually agreed upon and, if exceeding one year, approved by the Senior Procurement Executive, or designee, the contracting officer and Contractor shall enter into negotiation of the requirements for the year or appropriate period, including the evaluation areas and individual requirements subject to incentives, the total available fee, and the allocation of fee. The contracting officer shall modify this contract at the conclusion of each negotiation to reflect the negotiated requirements, evaluation areas and individual requirements subject to incentives, the total available fee, and the allocation of fee. In the event the parties fail to agree on the requirements, the evaluation areas and individual requirements subject to incentives, the total available fee, or the allocation of fee, a unilateral determination will be made by the contracting officer. The total available fee amount shall be allocated to a twelve month cycle composed of one or more

evaluation periods, or such longer period as may be mutually agreed to between the parties and approved by the Senior Procurement Executive, or designee.

- (c) Determination of Total Available Fee Amount Earned.
- (1) The Government shall, at the conclusion of each specified evaluation period, evaluate the contractor's performance of all requirements, including performance based incentives completed during the period, and determine the total available fee amount earned. At the contracting officer's discretion, evaluation of incentivized performance may occur at the scheduled completion of specific incentivized requirements.
 - (2) The DOE Operations/Field Office Manager, or designee, will be (insert title of DOE Operations/Field Office Manager, or designee). The contractor agrees that the determination as to the total available fee earned is a unilateral determination made by the DOE Operations/Field Office Manager, or designee.
 - (3) The evaluation of contractor performance shall be in accordance with the Performance Evaluation and Measurement Plan(s) described in subparagraph (d) of this clause unless otherwise set forth in the contract. The Contractor shall be promptly advised in writing of the fee determination, and the basis of the fee determination. In the event that the contractor's performance is considered to be less than the level of performance set forth in the Statement of Work, as amended to include the current Work Authorization Directive or similar document, for any contract requirement, it will be considered by the DOE Operations/Field Office Manager, or designee, who may at his/her discretion adjust the fee determination to reflect such performance. Any such adjustment shall be in accordance with the clause entitled, "Conditional Payment of Fee, Profit, or Other Incentives - Facility Management Contracts" if contained in the contract.
 - (4) Award fee not earned during the evaluation period shall not be allocated to future evaluation periods.
- (d) Performance Evaluation and Measurement Plan(s). To the extent not set forth elsewhere in the contract:
- (1) The Government shall establish a Performance Evaluation and Measurement Plan(s) upon which the determination of the total available fee amount earned shall be based. The Performance Evaluation and Measurement Plan(s) will address all of the requirements of contract performance specified in the contract directly or by reference. A copy of the Performance Evaluation and Measurement Plan(s) shall be provided to the Contractor:

- (i) prior to the start of an evaluation period if the requirements, evaluation areas, specific incentives, amount of fee, and allocation of fee to such evaluation areas and specific incentives have been mutually agreed to by the parties; or
 - (ii) not later than thirty days prior to the scheduled start date of the evaluation period, if the requirements, evaluation areas, specific incentives, amount of fee, and allocation of fee to such evaluation areas and specific incentives have been unilaterally established by the contracting officer.
- (2) The Performance Evaluation and Measurement Plan(s) will set forth the criteria upon which the Contractor will be evaluated relating to any technical, schedule, management, and/or cost objectives selected for evaluation. Such criteria should be objective, but may also include subjective criteria. The Plan(s) shall also set forth the method by which the total available fee amount will be allocated and the amount earned determined.
- (3) The Performance Evaluation and Measurement Plan(s) may, consistent with the contract statement of work, be revised during the period of performance. The contracting officer shall notify the contractor:
 - (i) of such unilateral changes at least ninety calendar days prior to the end of the affected evaluation period and at least thirty calendar days prior to the effective date of the change;
 - (ii) of such bilateral changes at least sixty calendar days prior to the end of the affected evaluation period; or
 - (iii) if such change, whether unilateral or bilateral, is urgent and high priority, at least thirty calendar days prior to the end of the evaluation period.
- (e) Schedule for total available fee amount earned determinations. The DOE Operations/Field Office Manager, or designee, shall issue the final total available fee amount earned determination in accordance with: the schedule set forth in the Performance Evaluation and Measurement Plan(s); or as otherwise set forth in this contract. However, a determination must be made within sixty calendar days after the receipt by the contracting officer of the Contractor's self-assessment, if one is required or permitted by paragraph (f) of this clause, or seventy calendar days after the end of the evaluation period, whichever is later, or a longer period if the Contractor and contracting officer agree. If the contracting officer evaluates the Contractor's performance of specific requirements on their completion, the payment of any earned fee amount must be made within seventy calendar days (or such other time period as mutually agreed to between the contracting officer and the

Contractor) after such completion. If the determination is delayed beyond that date, the Contractor shall be entitled to interest on the determined total available fee amount earned at the rate established by the Secretary of the Treasury under section 12 of the Contract Disputes Act of 1978 (41 U.S.C. 611) that is in effect on the payment date. This rate is referred to as the "Renegotiation Board Interest Rate," and is published in the Federal Register semiannually on or about January 1 and July 1. The interest on any late total available fee amount earned determination will accrue daily and be compounded in 30-day increments inclusive from the first day after the schedule determination date through the actual date the determination is issued. That is, interest accrued at the end of any 30-day period will be added to the determined amount of fee earned and be subject to interest if not paid in the succeeding 30-day period.

- (f) Contractor self-assessment. Following each evaluation period, the Contractor shall submit a self-assessment within 45 calendar days after the end of the period. This self-assessment shall address both the strengths and weaknesses of the Contractor's performance during the evaluation period. Where deficiencies in performance are noted, the Contractor shall describe the actions planned or taken to correct such deficiencies and avoid their recurrence. The DOE Operations/Field Office Manager, or designee, will review the Contractor's self-assessment, if submitted, as part of its independent evaluation of the contractor's management during the period. A self-assessment, in and of itself may not be the only basis for the award fee determination.

I.129 970.5215-3 CONDITIONAL PAYMENT OF FEE, PROFIT, AND OTHER INCENTIVES--FACILITY MANAGEMENT CONTRACTS (AUG 2009) – ALTERNATE II (AUG 2009)

- (a) General.
 - (1) The payment of earned fee, fixed fee, profit, or share of cost savings under this contract is dependent upon—
 - (i) The Contractor's or Contractor employees' compliance with the terms and conditions of this contract relating to environment, safety and health (ES&H), which includes worker safety and health (WS&H), including performance under an approved Integrated Safety Management System (ISMS); and
 - (ii) The Contractor's or Contractor employees' compliance with the terms and conditions of this contract relating to the safeguarding of Restricted Data and other classified information.

- (2) The ES&H performance requirements of this contract are set forth in its ES&H terms and conditions, including the DOE approved contractor ISMS or similar document. Financial incentives for timely mission accomplishment or cost effectiveness shall never compromise or impede full and effective implementation of the ISMS and full ES&H compliance.
 - (3) The performance requirements of this contract relating to the safeguarding of Restricted Data and other classified information are set forth in the clauses of this contract entitled, "Security" and "Laws, Regulations, and DOE Directives," as well as in other terms and conditions.
 - (4) If the Contractor does not meet the performance requirements of this contract relating to ES&H or to the safeguarding of Restricted Data and other classified information during any performance evaluation period established under the contract pursuant to the clause of this contract entitled, "Total Available Fee: Base Fee Amount and Performance Fee Amount," otherwise earned fee, fixed fee, profit or share of cost savings may be unilaterally reduced by the contracting officer.
- (b) Reduction Amount.
- (1) The amount of earned fee, fixed fee, profit, or share of cost savings that may be unilaterally reduced will be determined by the severity of the performance failure pursuant to the degrees specified in paragraphs (c) and (d) of this clause.
 - (2) If a reduction of earned fee, fixed fee, profit, or share of cost savings is warranted, unless mitigating factors apply, such reduction shall not be less than 26% nor greater than 100% of the amount of earned fee, fixed fee, profit, or the Contractor's share of cost savings for a first degree performance failure, not less than 11% nor greater than 25% for a second degree performance failure, and up to 10% for a third degree performance failure.
 - (3) In determining the amount of the reduction and the applicability of mitigating factors, the contracting officer must consider the Contractor's overall performance in meeting the ES&H or security requirements of the contract. Such consideration must include performance against any site specific performance criteria/requirements that provide additional definition, guidance for the amount of reduction, or guidance for the applicability of mitigating factors. In all cases, the contracting officer must consider mitigating factors that may warrant a reduction below the applicable range (see 48 CFR 970.1504-1-2). The mitigating factors include, but are not limited to, the following ((v), (vi), (vii) and (viii) apply to ES&H only).
 - (i) Degree of control the Contractor had over the event or incident.

- (ii) Efforts the Contractor had made to anticipate and mitigate the possibility of the event in advance.
 - (iii) Contractor self-identification and response to the event to mitigate impacts and recurrence.
 - (iv) General status (trend and absolute performance) of: ES&H and compliance in related areas; or of safeguarding Restricted Data and other classified information and compliance in related areas.
 - (v) Contractor demonstration to the Contracting Officer's satisfaction that the principles of industrial ES&H standards are routinely practiced (e.g., Voluntary Protection Program, ISO 14000).
 - (vi) Event caused by "Good Samaritan" act by the Contractor (e.g., offsite emergency response).
 - (vii) Contractor demonstration that a performance measurement system is routinely used to improve and maintain ES&H performance (including effective resource allocation) and to support DOE corporate decision-making (e.g., policy, ES&H programs).
 - (viii) Contractor demonstration that an Operating Experience and Feedback Program is functioning that demonstrably affects continuous improvement in ES&H by use of lessons-learned and best practices inter- and intra-DOE sites.
- (4)
- (i) The amount of fee, fixed fee, profit, or share of cost savings that is otherwise earned by a contractor during an evaluation period may be reduced in accordance with this clause if it is determined that a performance failure warranting a reduction under this clause occurs within the evaluation period.
 - (ii) The amount of reduction under this clause, in combination with any reduction made under any other clause in the contract, shall not exceed the amount of fee, fixed fee, profit, or the Contractor's share of cost savings that is otherwise earned during the evaluation period.
 - (iii) For the purposes of this clause, earned fee, fixed fee, profit, or share of cost savings for the evaluation period shall mean the amount determined by the contracting officer or fee determination official as otherwise payable based on the Contractor's performance during the evaluation period. Where the contract provides for financial incentives that extend beyond a single evaluation period, this amount shall also include: any

provisional amounts determined otherwise payable in the evaluation period; and, if provisional payments are not provided for, the allocable amount of any incentive determined otherwise payable at the conclusion of a subsequent evaluation period. The allocable amount shall be the total amount of the earned incentive divided by the number of evaluation periods over which it was earned.

- (iv) The Government will effect the reduction as soon as practicable after the end of the evaluation period in which the performance failure occurs. If the Government is not aware of the failure, it will effect the reduction as soon as practical after becoming aware. For any portion of the reduction requiring an allocation the Government will effect the reduction at the end of the evaluation period in which it determines the total amount earned under the incentive. If at any time a reduction causes the sum of the payments the Contractor has received for fee, fixed fee, profit, or share of cost savings to exceed the sum of fee, fixed fee, profit, or share of cost savings the Contractor has earned (provisionally or otherwise), the Contractor shall immediately return the excess to the Government. (What the Contractor “has earned” reflects any reduction made under this or any other clause of the contract.)
- (v) At the end of the contract—
 - (A) The Government will pay the Contractor the amount by which the sum of fee, fixed fee, profit, or share of cost savings the Contractor has earned exceeds the sum of the payments the Contractor has received; or
 - (B) The Contractor shall return to the Government the amount by which the sum of the payments the Contractor has received exceeds the sum of fee, fixed fee, profit, or share of cost savings the Contractor has earned. (What the Contractor “has earned” reflects any reduction made under this or any other clause of the contract.)
- (c) Environment, Safety and Health (ES&H). Performance failures occur if the Contractor does not comply with the contract’s ES&H terms and conditions, including the DOE approved Contractor ISMS. The degrees of performance failure under which reductions of earned or fixed fee, profit, or share of cost savings will be determined are:
 - (1) First Degree: Performance failures that are most adverse to ES&H. Failure to develop and obtain required DOE approval of an ISMS is considered first degree. The Government will perform necessary review of the ISMS in a timely manner and will not unreasonably withhold approval of the

Contractor's ISMS. The following performance failures or performance failures of similar import will be considered first degree.

- (i) Type A accident (defined in DOE Order 225.1A).
 - (ii) Two Second Degree performance failures during an evaluation period.
- (2) Second Degree: Performance failures that are significantly adverse to ES&H. They include failures to comply with an approved ISMS that result in an actual injury, exposure, or exceedence that occurred or nearly occurred but had minor practical long-term health consequences. They also include breakdowns of the Safety Management System. The following performance failures or performance failures of similar import will be considered second degree:
- (i) Type B accident (defined in DOE Order 225.1A).
 - (ii) Non-compliance with an approved ISMS that results in a near miss of a Type A or B accident. A near miss is a situation in which an inappropriate action occurs, or a necessary action is omitted, but does not result in an adverse effect.
 - (iii) Failure to mitigate or notify DOE of an imminent danger situation after discovery, where such notification is a requirement of the contract.
- (3) Third Degree: Performance failures that reflect a lack of focus on improving ES&H. They include failures to comply with an approved ISMS that result in potential breakdown of the System. The following performance failures or performance failures of similar import will be considered third degree:
- (i) Failure to implement effective corrective actions to address deficiencies/non-compliances documented through: external (e.g., Federal) oversight and/or reported per DOE Order 231.1-2 requirements; or internal oversight of DOE Order 440.1A requirements.
 - (ii) Multiple similar non-compliances identified by external (e.g., Federal) oversight that in aggregate indicate a significant programmatic breakdown.
 - (iii) Non-compliances that either have, or may have, significant negative impacts to the worker, the public, or the environment or that indicate a significant programmatic breakdown.
 - (iv) Failure to notify DOE upon discovery of events or conditions where notification is required by the terms and conditions of the contract.

- (d) Safeguarding Restricted Data and Other Classified Information. Performance failures occur if the Contractor does not comply with the terms and conditions of this contract relating to the safeguarding of Restricted Data and other classified information. The degrees of performance failure under which reductions of fee, profit, or share of cost savings will be determined are as follows:
- (1) First Degree: Performance failures that have been determined, in accordance with applicable law, DOE regulation, or directive, to have resulted in, or that can reasonably be expected to result in, exceptionally grave damage to the national security. The following are examples of performance failures or performance failures of similar import that will be considered first degree:
 - (i) Non-compliance with applicable laws, regulations, and DOE directives actually resulting in, or creating a risk of, loss, compromise, or unauthorized disclosure of Top Secret Restricted Data or other information classified as Top Secret, any classification level of information in a Special Access Program (SAP), information identified as sensitive compartmented information (SCI), or high risk nuclear weapons-related data.
 - (ii) Contractor actions that result in a breakdown of the safeguards and security management system that can reasonably be expected to result in the loss, compromise, or unauthorized disclosure of Top Secret Restricted Data, or other information classified as Top Secret, any classification level of information in a SAP, information identified as SCI, or high risk nuclear weapons-related data.
 - (iii) Failure to promptly report the loss, compromise, or unauthorized disclosure of Top Secret Restricted Data, or other information classified as Top Secret, any classification level of information in a SAP, information identified as SCI, or high risk nuclear weapons-related data.
 - (iv) Failure to timely implement corrective actions stemming from the loss, compromise, or unauthorized disclosure of Top Secret Restricted Data or other information classified as Top Secret, any classification level of information in a SAP, information identified as SCI, or high risk nuclear weapons-related data.
 - (2) Second Degree: Performance failures that have been determined, in accordance with applicable law, DOE regulation, or directive, to have actually resulted in, or that can reasonably be expected to result in, serious damage to the national security. The following are examples of performance failures or performance failures of similar import that will be considered second degree:

- (i) Non-compliance with applicable laws, regulations, and DOE directives actually resulting in, or creating risk of, loss, compromise, or unauthorized disclosure of Secret Restricted Data or other information classified as Secret.
 - (ii) Contractor actions that result in a breakdown of the safeguards and security management system that can reasonably be expected to result in the loss, compromise, or unauthorized disclosure of Secret Restricted Data, or other information classified as Secret.
 - (iii) Failure to promptly report the loss, compromise, or unauthorized disclosure of Restricted Data or other classified information regardless of classification (except for information covered by paragraph (d)(1)(iii) of this clause).
 - (iv) Failure to timely implement corrective actions stemming from the loss, compromise, or unauthorized disclosure of Secret Restricted Data or other classified information classified as Secret.
- (3) Third Degree: Performance failures that have been determined, in accordance with applicable law, regulation, or DOE directive, to have actually resulted in, or that can reasonably be expected to result in, undue risk to the common defense and security. In addition, this category includes performance failures that result from a lack of Contractor management and/or employee attention to the proper safeguarding of Restricted Data and other classified information. These performance failures may be indicators of future, more severe performance failures and/or conditions, and if identified and corrected early would prevent serious incidents. The following are examples of performance failures or performance failures of similar import that will be considered third degree:
- (i) Non-compliance with applicable laws, regulations, and DOE directives actually resulting in, or creating risk of, loss, compromise, or unauthorized disclosure of Restricted Data or other information classified as Confidential.
 - (ii) Failure to promptly report alleged or suspected violations of laws, regulations, or directives pertaining to the safeguarding of Restricted Data or other classified information.
 - (iii) Failure to identify or timely execute corrective actions to mitigate or eliminate identified vulnerabilities and reduce residual risk relating to the protection of Restricted Data or other classified information in accordance with the Contractor's Safeguards and Security Plan or other security plan, as applicable.

- (iv) Contractor actions that result in performance failures which unto themselves pose minor risk, but when viewed in the aggregate indicate degradation in the integrity of the Contractor's safeguards and security management system relating to the protection of Restricted Data and other classified information.
- (e) Minimum requirements for specified level of performance.
- (1) At a minimum the Contractor must perform the following—
 - (i) The requirements with specific incentives which do not require the achievement of cost efficiencies in order to be performed at the level of performance set forth in the Statement of Work, Work Authorization Directive, or similar document unless an otherwise minimum level of performance has been established in the specific incentive;
 - (ii) All of the performance requirements directly related to requirements specifically incentivized which do not require the achievement of cost efficiencies in order to be performed at a level of performance such that the overall performance of these related requirements is at an acceptable level; and
 - (iii) All other requirements at a level of performance such that the total performance of the contract is not jeopardized.
 - (2) The evaluation of the Contractor's achievement of the level of performance shall be unilaterally determined by the Government. To the extent that the Contractor fails to achieve the minimum performance levels specified in the Statement of Work, Work Authorization Directive, or similar document, during the performance evaluation period, the DOE Operations/Field Office Manager, or designee, may reduce any otherwise earned fee, fixed fee, profit, or shared net savings for the performance evaluation period. Such reduction shall not result in the total of earned fee, fixed fee, profit, or shared net savings being less than 25% of the total available fee amount. Such 25% shall include base fee, if any.
- (f) Minimum requirements for cost performance.
- (1) Requirements incentivized by other than cost incentives must be performed within their specified cost constraint and must not adversely impact the costs of performing unrelated activities.
 - (2) The performance of requirements with a specific cost incentive must not adversely impact the costs of performing unrelated requirements.

- (3) The Contractor's performance within the stipulated cost performance levels for the performance evaluation period shall be determined by the Government. To the extent the Contractor fails to achieve the stipulated cost performance levels, the DOE Operations/Field Office Manager, or designee, may reduce in whole or in part any otherwise earned fee, fixed fee, profit, or shared net savings for the performance evaluation period. Such reduction shall not result in the total of earned fee, fixed fee, profit or shared net savings being less than 25% of the total available fee amount. Such 25% shall include base fee, if any.

[68 FR 68771, Dec. 10, 2003; 74 FR 36358, Jul. 22, 2009]

**I.130 970.5217-1 WORK FOR OTHERS PROGRAM (NON-DOE FUNDED WORK)
(JAN 2005)**

- (a) Authority to Perform Work for Others. Pursuant to the Economy Act of 1932, as amended (31 U.S.C. 1535), and the Atomic Energy Act of 1954, as amended (42 U.S.C. 2011 et seq.) or other applicable authority, the Contractor may perform work for non-DOE entities (sponsors) on a fully reimbursable basis in accordance with this clause.
- (b) Contractor's Implementation. The Contractor must draft, implement, and maintain formal policies, practices, and procedures in accordance with this clause, which must be submitted to the Contracting Officer for review and approval.
- (c) Conditions of Participation in Work for Others Program. The Contractor:
 - (1) Must not perform Work for Others activities that would place it in direct competition with the domestic private sector;
 - (2) Must not respond to a request for proposals or any other solicitation from another Federal agency or non-Federal organization that involves direct comparative competition, either as an offeror, team member, or subcontractor to an offeror; however, the Contractor may, following notification to the Contracting Officer, respond to Broad Agency Announcements, Financial Assistance solicitations, and similar solicitations from another Federal Agency or non-Federal organizations when the selection is based on merit or peer review, the work involves basic or applied research to further advance scientific knowledge or understanding, and a response does not result in direct, comparative competition;
 - (3) Must not commence work on any Work for Others activity until a Work for Others proposal package has been approved by the DOE Contracting Officer or designated representative;

- (4) Must not incur project costs until receipt of DOE notification that a budgetary resource is available for the project, except as provided in 48 CFR 970.5232-6;
 - (5) Must ensure that all costs associated with the performance of the work, including specifically all DOE direct costs and applicable surcharges, are included in any Work for Others proposal;
 - (6) Must maintain records for the accumulation of costs and the billing of such work to ensure that DOE's appropriated funds are not used in support of Work for Others activities and to provide an accounting of the expenditures to DOE and the sponsor upon request;
 - (7) Must perform all Work for Others projects in accordance with the standards, policies, and procedures that apply to performance under this contract, including but not limited to environmental, safety and health, security, safeguards and classification procedures, and human and animal research regulations;
 - (8) May subcontract portion(s) of a Work for Others project; however, the Contractor must select the subcontractor and the work to be subcontracted. Any subcontracted work must be in direct support of the DOE contractor's performance as defined in the DOE approved work for others proposal package; and,
 - (9) Must maintain a summary listing of project information for each active Work for Others project, consisting of:
 - (i) Sponsoring agency;
 - (ii) Total estimated costs;
 - (iii) Project title and description;
 - (iv) Project point of contact; and,
 - (v) Estimated start and completion dates.
- (d) Negotiation and Execution of Work for Others Agreement.
- (1) When delegated authority by the Contracting Officer, the Contractor may negotiate the terms and conditions that will govern the performance of a specific Work for Others project. Such terms and conditions must be consistent with the terms, conditions, and requirements of the Contractor's contract with DOE. The Contractor may use DOE-approved contract terms

and conditions as delineated in DOE Manual 481.1-1A or terms and conditions previously approved by the responsible Contracting Officer or authorized designee for agreements with non-Federal entities. The Contractor must not hold itself out as representing DOE when negotiating the proposed Work for Others agreement.

- (2) The Contractor must submit all Work for Others agreements to the DOE Contracting Officer for DOE review and approval. The Contractor may not execute any proposed agreement until it has received notice of DOE approval.
- (e) Preparation of Project Proposals. When the Contractor proposes to perform Work for Others activities pursuant to this clause, it may assist the project sponsor in the preparation of project proposal packages including the preparation of cost estimates.
- (f) Work for Others Appraisals. DOE may conduct periodic appraisals of the Contractor's compliance with its Work for Others Program policies, practices and procedures. The Contractor must provide facilities and other support in conjunction with such appraisals as directed by the Contracting Officer or authorized designee.
- (g) Annual Work for Others Report. The Contractor must provide assistance as required by the Contracting Officer or authorized designee in the preparation of a DOE Annual Summary Report of Work for Others Activities under the contract.

I.131 970.5222-1 COLLECTIVE BARGAINING AGREEMENTS MANAGEMENT AND OPERATING CONTRACTS. (DEC 2000)

When negotiating collective bargaining agreements applicable to the work force under this contract, the Contractor shall use its best efforts to ensure such agreements contain provisions designed to assure continuity of services. All such agreements entered into during the contract period of performance should provide that grievances and disputes involving the interpretation or application of the agreement will be settled without resorting to strike, lockout, or other interruption of normal operations. For this purpose, each collective bargaining agreement should provide an effective grievance procedure with arbitration as its final step, unless the parties mutually agree upon some other method of assuring continuity of operations. As part of such agreements, management and labor should agree to cooperate fully with the Federal Mediation and Conciliation Service. The contractor shall include the substance of this clause in any subcontracts for protective services or other services performed on the DOE-owned site which will affect the continuity of operation of the facility.

I.132 970.5222-2 OVERTIME MANAGEMENT. (DEC 2000)

- (a) The contractor shall maintain adequate internal controls to ensure that employee overtime is authorized only if cost effective and necessary to ensure performance of work under this contract.
- (b) The contractor shall notify the contracting officer when in any given year it is likely that overtime usage as a percentage of payroll may exceed 4%.
- (c) The contracting officer may require the submission, for approval, of a formal annual overtime control plan whenever contractor overtime usage as a percentage of payroll has exceeded, or is likely to exceed, 4%, or if the contracting officer otherwise deems overtime expenditures excessive. The plan shall include, at a minimum:
 - (1) An overtime premium fund (maximum dollar amount);
 - (2) Specific controls for casual overtime for non-exempt employees;
 - (3) Specific parameters for allowability of exempt overtime;
 - (4) An evaluation of alternatives to the use of overtime; and
 - (5) Submission of a semi-annual report that includes for exempt and non-exempt employees:
 - (i) Total cost of overtime;
 - (ii) Total cost of straight time;
 - (iii) Overtime cost as a percentage of straight-time cost;
 - (iv) Total overtime hours;
 - (v) Total straight-time hours; and
 - (vi) Overtime hours as a percentage of straight-time hours.

I.133 970.5223-1 INTEGRATION OF ENVIRONMENT, SAFETY, AND HEALTH INTO WORK PLANNING AND EXECUTION. (DEC 2000)

- (a) For the purposes of this clause,
 - (1) Safety encompasses environment, safety and health, including pollution prevention and waste minimization; and

- (2) Employees include subcontractor employees.
- (b) In performing work under this contract, the contractor shall perform work safely, in a manner that ensures adequate protection for employees, the public, and the environment, and shall be accountable for the safe performance of work. The contractor shall exercise a degree of care commensurate with the work and the associated hazards. The contractor shall ensure that management of environment, safety and health (ES&H) functions and activities becomes an integral but visible part of the contractor's work planning and execution processes. The contractor shall, in the performance of work, ensure that:
- (1) Line management is responsible for the protection of employees, the public, and the environment. Line management includes those contractor and subcontractor employees managing or supervising employees performing work.
 - (2) Clear and unambiguous lines of authority and responsibility for ensuring (ES&H) are established and maintained at all organizational levels.
 - (3) Personnel possess the experience, knowledge, skills, and abilities that are necessary to discharge their responsibilities.
 - (4) Resources are effectively allocated to address ES&H, programmatic, and operational considerations. Protecting employees, the public, and the environment is a priority whenever activities are planned and performed.
 - (5) Before work is performed, the associated hazards are evaluated and an agreed-upon set of ES&H standards and requirements are established which, if properly implemented, provide adequate assurance that employees, the public, and the environment are protected from adverse consequences.
 - (6) Administrative and engineering controls to prevent and mitigate hazards are tailored to the work being performed and associated hazards. Emphasis should be on designing the work and/or controls to reduce or eliminate the hazards and to prevent accidents and unplanned releases and exposures.
 - (7) The conditions and requirements to be satisfied for operations to be initiated and conducted are established and agreed-upon by DOE and the contractor. These agreed-upon conditions and requirements are requirements of the contract and binding upon the contractor. The extent of documentation and level of authority for agreement shall be tailored to the complexity and hazards associated with the work and shall be established in a Safety Management System.

- (c) The contractor shall manage and perform work in accordance with a documented Safety Management System (System) that fulfills all conditions in paragraph (b) of this clause at a minimum. Documentation of the System shall describe how the contractor will:
 - (1) Define the scope of work;
 - (2) Identify and analyze hazards associated with the work;
 - (3) Develop and implement hazard controls;
 - (4) Perform work within controls; and
 - (5) Provide feedback on adequacy of controls and continue to improve safety management.
- (d) The System shall describe how the contractor will establish, document, and implement safety performance objectives, performance measures, and commitments in response to DOE program and budget execution guidance while maintaining the integrity of the System. The System shall also describe how the contractor will measure system effectiveness.
- (e) The contractor shall submit to the contracting officer documentation of its System for review and approval. Dates for submittal, discussions, and revisions to the System will be established by the contracting officer. Guidance on the preparation, content, review, and approval of the System will be provided by the contracting officer. On an annual basis, the contractor shall review and update, for DOE approval, its safety performance objectives, performance measures, and commitments consistent with and in response to DOE's program and budget execution guidance and direction. Resources shall be identified and allocated to meet the safety objectives and performance commitments as well as maintain the integrity of the entire System. Accordingly, the System shall be integrated with the contractor's business processes for work planning, budgeting, authorization, execution, and change control.
- (f) The contractor shall comply with, and assist the Department of Energy in complying with, ES&H requirements of all applicable laws and regulations, and applicable directives identified in the clause of this contract entitled "Laws, Regulations, and DOE Directives." The contractor shall cooperate with Federal and non-Federal agencies having jurisdiction over ES&H matters under this contract.
- (g) The contractor shall promptly evaluate and resolve any noncompliance with applicable ES&H requirements and the System. If the contractor fails to provide resolution or if, at any time, the contractor's acts or failure to act causes substantial harm or an imminent danger to the environment or health and safety of employees

or the public, the contracting officer may issue an order stopping work in whole or in part. Any stop work order issued by a contracting officer under this clause (or issued by the contractor to a subcontractor in accordance with paragraph (i) of this clause) shall be without prejudice to any other legal or contractual rights of the Government. In the event that the contracting officer issues a stop work order, an order authorizing the resumption of the work may be issued at the discretion of the contracting officer. The contractor shall not be entitled to an extension of time or additional fee or damages by reason of, or in connection with, any work stoppage ordered in accordance with this clause.

- (h) Regardless of the performer of the work, the contractor is responsible for compliance with the ES&H requirements applicable to this contract. The contractor is responsible for flowing down the ES&H requirements applicable to this contract to subcontracts at any tier to the extent necessary to ensure the contractor's compliance with the requirements.
- (i) The contractor shall include a clause substantially the same as this clause in subcontracts involving complex or hazardous work on site at a DOE-owned or-leased facility. Such subcontracts shall provide for the right to stop work under the conditions described in paragraph (g) of this clause. Depending on the complexity and hazards associated with the work, the contractor may choose not to require the subcontractor to submit a Safety Management System for the contractor's review and approval.

**I.134 970.5223-2 AFFIRMATIVE PROCUREMENT PROGRAM. (MAR 2003)
(MODIFIED BY DOE ACQUISITION LETTER 2008-05)**

- (a) In the performance of this contract, the Contractor shall comply with the requirements of Executive Order 13423 and the U.S. Department of Energy (DOE) Affirmative Procurement Program Guidance. This guidance includes requirements concerning environmentally preferable products and services, recycled content products and biobased products. This guidance is available on the Internet.
- (b) In complying with the requirements of paragraph (a) of this clause, the Contractor shall coordinate its activities with the DOE Recycling Coordinator. Reports required by paragraph (c) of this clause shall be submitted through the DOE Recycling Coordinator.
- (c) The Contractor shall prepare and submit reports, at the end of the Federal fiscal year, on matters related to the acquisition of items designated in EPA's Comprehensive Procurement Guidelines that Federal agencies and their Contractors are to procure with recovered/recycled content.

- (d) If the Contractor subcontracts a significant portion of the operation of the Government facility which includes the acquisition of items designated in EPA's Comprehensive Procurement Guidelines, the subcontract shall contain a clause substantially the same as this clause. The EPA Comprehensive Procurement Guidelines identify products which Federal agencies and their Contractors are to procure with recycled content pursuant to 40 CFR 247. Examples of such a subcontract would be operation of the facility supply function, construction or remodeling at the facility, or maintenance of the facility motor vehicle fleet. In situations in which the facility management contractor can reasonably determine the amount of products with recovered/recycled content to be acquired under the subcontract, the facility management contractor is not required to flow down the reporting requirement of this clause. Instead, the facility management contractor may include such quantities in its own report and include an agreement in the subcontract that such products will be acquired with recovered/recycled content and that the subcontractor will advise if it is unable to procure such products with recovered/recycled content because the product is not available (i) Competitively within a reasonable time; (ii) At a reasonable price; or, (iii) Within the performance requirements. If reports are required of the subcontractor, such reports shall be submitted to the facility management contractor. The reports may be submitted at the conclusion of the subcontract term provided that the subcontract delivery term is not multi-year in nature. If the delivery term is multi-year, the subcontractor shall report its accomplishments for each Federal fiscal year in a manner and at a time or times acceptable to both parties
- (e) When this clause is used in a subcontract, the word "Contractor" will be understood to mean "subcontractor" and the term "DOE Recycling Coordinator" will be understood to mean "Contractor Recycling Coordinator."

**I.135 970.5223-4 WORKPLACE SUBSTANCE ABUSE PROGRAMS AT DOE SITES.
(DEC 2000)**

- (a) Program Implementation. The contractor shall, consistent with 10 CFR part 707, Workplace Substance Abuse Programs at DOE Sites, incorporated herein by reference with full force and effect, develop, implement, and maintain a workplace substance abuse program.
- (b) Remedies. In addition to any other remedies available to the Government, the contractor's failure to comply with the requirements of 10 CFR part 707 or to perform in a manner consistent with its approved program may render the contractor subject to: the suspension of contract payments, or, where applicable, a reduction in award fee; termination for default; and suspension or debarment.
- (c) Subcontracts.

- (1) The contractor agrees to notify the contracting officer reasonably in advance of, but not later than 30 days prior to, the award of any subcontract the contractor believes may be subject to the requirements of 10 CFR Part 707.
- (2) The DOE prime contractor shall require all subcontracts subject to the provisions of 10 CFR Part 707 to agree to develop and implement a workplace substance abuse program that complies with the requirements of 10 CFR Part 707, Workplace Substance Abuse Programs at DOE Sites, as a condition for award of the subcontract. The DOE prime contractor shall review and approve each subcontractor's program, and shall periodically monitor each subcontractor's implementation of the program for effectiveness and compliance with 10 CFR Part 707.
- (3) The contractor agrees to include, and require the inclusion of, the requirements of this clause in all subcontracts, at any tier, that are subject to the provisions of 10 CFR Part 707.

**I.136 970.5223-5 DOE MOTOR VEHICLE FLEET FUEL EFFICIENCY. (OCT 2003)
MODIFIED BY DOE ACQUISITION LETTER 2008-05**

When managing Government-owned vehicles for the Department of Energy, the Contractor will conduct operations relating to such vehicles in accordance with the goals and requirements of Executive Order 13423, and implementing guidance contained in the document entitled U.S. Department of Energy Compliance Strategy for Executive Order 13423 (April 2001) and future revisions of this compliance strategy that are identified in writing by the Contracting Officer. Section 8 of Executive Order 13423 exempts military tactical, law enforcement, and emergency vehicles from the requirements of the order.

I.137 970.5226-1 DIVERSITY PLAN. (DEC 2000)

The Contractor shall submit a Diversity Plan to the contracting officer for approval within 90 days after the effective date of this contract (or contract modification, if appropriate). The contractor shall submit an update to its Plan annually or with its annual fee proposal. Guidance for preparation of a Diversity Plan is provided in Appendix A. The Plan shall include innovative strategies for increasing opportunities to fully use the talents and capabilities of a diverse work force. The Plan shall address, at a minimum, the Contractor's approach for promoting diversity through (1) the Contractor's work force, (2) educational outreach, (3) community involvement and outreach, (4) subcontracting, (5) economic development (including technology transfer), and (6) the prevention of profiling based on race or national origin.

I.138 970.5226-2 WORKFORCE RESTRUCTURING UNDER SECTION 3161 OF THE NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 1993. (DEC 2000)

- (a) Consistent with the objectives of Section 3161 of the National Defense Authorization Act for Fiscal Year 1993, 42 U.S.C. 7274h, in instances where the Department of Energy has determined that a change in workforce at a Department of Energy Defense Nuclear Facility is necessary, the contractor agrees to (1) comply with the Department of Energy Workforce Restructuring Plan for the facility, if applicable, and (2) use its best efforts to accomplish workforce restructuring or displacement so as to mitigate social and economic impacts.
- (b) The requirements of this clause shall be included in subcontracts at any tier (except subcontracts for commercial items pursuant to 41 U.S.C. 403) expected to exceed \$500,000.

I.139 970.5226-3 COMMUNITY COMMITMENT. (DEC 2000)

It is the policy of the DOE to be a constructive partner in the geographic region in which DOE conducts its business. The basic elements of this policy include: (1) Recognizing the diverse interests of the region and its stakeholders, (2) engaging regional stakeholders in issues and concerns of mutual interest, and (3) recognizing that giving back to the community is a worthwhile business practice. Accordingly, the Contractor agrees that its business operations and performance under the Contract will be consistent with the intent of the policy and elements set forth above.

I.140 970.5227-2 RIGHTS IN DATA-TECHNOLOGY TRANSFER. (DEVIATION - JULY 2006) (DOE ACQUISITION LETTER 2006-10)

- (a) *Definitions.*
 - (1) Computer data bases, as used in this clause, means a collection of data in a form capable of, and for the purpose of, being stored in, processed, and operated on by a computer. The term does not include computer software.
 - (2) Computer software, as used in this clause, means (i) computer programs which are data comprising a series of instructions, rules, routines, or statements, regardless of the media in which recorded, that allow or cause a computer to perform a specific operation or series of operations and (ii) data comprising source code listings, design details, algorithms, processes, flow charts, formulae, and related material that would enable the computer program to be produced, created, or compiled. The term does not include computer data bases.

- (3) Data, as used in this clause, means recorded information, regardless of form or the media on which it may be recorded. The term includes technical data and computer software. The term "data" does not include data incidental to the administration of this contract, such as financial, administrative, cost and pricing, or management information.
 - (4) Limited rights data, as used in this clause, means data, other than computer software, developed at private expense that embody trade secrets or are commercial or financial and confidential or privileged. The Government's rights to use, duplicate, or disclose limited rights data are as set forth in the Limited Rights Notice of paragraph (h) of this clause.
 - (5) Restricted computer software, as used in this clause, means computer software developed at private expense and that is a trade secret; is commercial or financial and is confidential or privileged; or is published copyrighted computer software, including minor modifications of any such computer software. The Government's rights to use, duplicate, or disclose restricted computer software are as set forth in the Restricted Rights Notice of subparagraph (i) of this clause.
 - (6) Technical data, as used in this clause, means recorded data, regardless of form or characteristic, that are of a scientific or technical nature. Technical data does not include computer software, but does include manuals and instructional materials and technical data formatted as a computer data base.
 - (7) Unlimited rights, as used in this clause, means the rights of the Government to use, disclose, reproduce, prepare derivative works, distribute copies to the public, including by electronic means, and perform publicly and display publicly, in any manner, including by electronic means, and for any purpose whatsoever, and to have or permit others to do so.
 - (8) Open Source Software, as used in this clause, means computer software that is distributed under a license in which the user is granted the rights to use, copy, modify, prepare derivative works and distribute, in source code or other format, the software, in original or modified form and derivative works thereof, without having to make royalty payments. The Contractor's right to distribute computer software first produced in the performance of this Contract as Open Source Software is as set forth in paragraph (f).
- (b) *Allocation of Rights.*
- (1) The Government shall have:
 - (i) Ownership of all technical data and computer software first produced in the performance of this Contract;

- (ii) Unlimited rights in technical data and computer software specifically used in the performance of this Contract, except as provided herein regarding copyright, limited rights data, or restricted computer software, and except for data subject to the withholding provisions for protected Cooperative Research and Development Agreement (CRADA) information in accordance with Technology Transfer actions under this Contract, or other data specifically protected by statute for a period of time or, where, approved by DOE, appropriate instances of the DOE Work for Others Program;
 - (iii) The right to inspect technical data and computer software first produced or specifically used in the performance of this Contract at all reasonable times. The Contractor shall make available all necessary facilities to allow DOE personnel to perform such inspection;
 - (iv) The right to have all technical data and computer software first produced or specifically used in the performance of this Contract delivered to the Government or otherwise disposed of by the Contractor, either as the contracting officer may from time to time direct during the progress of the work or in any event as the contracting officer shall direct upon completion or termination of this Contract. The Contractor agrees to leave a copy of such data at the facility or plant to which such data relate, and to make available for access or to deliver to the Government such data upon request by the contracting officer. If such data are limited rights data or restricted computer software, the rights of the Government in such data shall be governed solely by the provisions of paragraph (h) of this clause ("Rights in Limited Rights Data") or paragraph (i) of this clause ("Rights in Restricted Computer Software"); and (v) The right to remove, cancel, correct, or ignore any markings not authorized by the terms of this Contract on any data furnished hereunder if, in response to a written inquiry by DOE concerning the propriety of the markings, the Contractor fails to respond thereto within 60 days or fails to substantiate the propriety of the markings. In either case DOE will notify the Contractor of the action taken.
- (2) The Contractor shall have:
- (i) The right to withhold limited rights data and restricted computer software unless otherwise provided in provisions of this clause;
 - (ii) The right to use for its private purposes, subject to patent, security or other provisions of this Contract, data it first produces in the performance of this Contract, except for data in DOE's Uranium Enrichment Technology, including diffusion, centrifuge, and atomic vapor laser isotope separation, provided the data requirements of this Contract have been met as of the date of the private use of such data; and

- (iii) The right to assert copyright subsisting in scientific and technical articles as provided in paragraph (d) of this clause and the right to request permission to assert copyright subsisting in works other than scientific and technical articles as provided in paragraph (e) of this clause.
- (3) The Contractor agrees that for limited rights data or restricted computer software or other technical business or financial data in the form of recorded information which it receives from, or is given access to by DOE or a third party, including a DOE contractor or subcontractor, and for technical data or computer software it first produces under this Contract which is authorized to be marked by DOE, the Contractor shall treat such data in accordance with any restrictive legend contained thereon.
- (c) *Copyright (General).*
- (1) The Contractor agrees not to mark, register, or otherwise assert copyright in any data in a published or unpublished work, other than as set forth in paragraphs (d) and (e) of this clause.
 - (2) Except for material to which the Contractor has obtained the right to assert copyright in accordance with either paragraph (d) or (e) of this clause, the Contractor agrees not to include in the data delivered under this Contract any material copyrighted by the Contractor and not to knowingly include any material copyrighted by others without first granting or obtaining at no cost a license therein for the benefit of the Government of the same scope as set forth in paragraph (d) of this clause. If the Contractor believes that such copyrighted material for which the license cannot be obtained must be included in the data to be delivered, rather than merely incorporated therein by reference, the Contractor shall obtain the written authorization of the contracting officer to include such material in the data prior to its delivery.
- (d) *Copyrighted Works (Scientific and Technical Articles).*
- (1) The Contractor shall have the right to assert, without prior approval of the contracting officer, copyright subsisting in scientific and technical articles composed under this contract or based on or containing data first produced in the performance of this Contract, and published in academic, technical or professional journals, symposia, proceedings, or similar works. When assertion of copyright is made, the Contractor shall affix the applicable copyright notice of 17 U.S.C. 401 or 402 and acknowledgment of Government sponsorship (including contract number) on the data when such data are delivered to the Government as well as when the data are published or deposited for registration as a published work in the U.S. Copyright Office. The Contractor grants to the Government, and others acting on its behalf, a nonexclusive, paid-up, irrevocable, world-wide license in such copyrighted data to reproduce, prepare derivative works, distribute copies to the public, and perform publicly and display publicly, by or on behalf of the Government.

- (2) The contractor shall mark each scientific or technical article first produced or composed under this Contract and submitted for journal publication or similar means of dissemination with a notice, similar in all material respects to the following, on the front reflecting the Government's non-exclusive, paid-up, irrevocable, world-wide license in the copyright.

Notice: This manuscript has been authored by [insert the name of the Contractor] under Contract No. [insert the contract number] with the U.S. Department of Energy. The United States Government retains and the publisher, by accepting the article for publication, acknowledges that the United States Government retains a non-exclusive, paid-up, irrevocable, world-wide license to publish or reproduce the published form of this manuscript, or allow others to do so, for United States Government purposes.

(End of Notice)

- (3) The title to the copyright of the original of unclassified graduate theses and the original of related unclassified scientific papers shall vest in the author thereof, subject to the right of DOE to retain duplicates of such documents and to use such documents for any purpose whatsoever without any claim on the part of the author or the contractor for additional compensation.
- (e) *Copyrighted Works (Other Than Scientific and Technical Articles and Data Produced under a CRADA)*. The Contractor may obtain permission to assert copyright subsisting in technical data and computer software first produced by the Contractor in performance of this Contract, where the Contractor can show that commercialization would be enhanced by such copyright protection, subject to the following:
- (1) Contractor Request to Assert Copyright.
 - (i) For data other than scientific and technical articles and data produced under a CRADA, the Contractor shall submit in writing to Patent Counsel its request to assert copyright in data first produced in the performance of this Contract pursuant to this clause. The right of the Contractor to copyright data first produced under a CRADA is as described in the individual CRADA. Each request by the Contractor must include:
 - (A) The identity of the data (including any computer program) for which the Contractor requests permission to assert copyright, as well as an abstract which is descriptive of the data and is suitable for dissemination purposes,
 - (B) The program under which it was funded,

- (C) Whether, to the best knowledge of the Contractor, the data is subject to an international treaty or agreement,
 - (D) Whether the data is subject to export control,
 - (E) A statement that the Contractor plans to commercialize the data in compliance with the clause of this contract entitled, "Technology Transfer Mission," within five (5) years after obtaining permission to assert copyright or, on a case-by-case basis, a specified longer period where the Contractor can demonstrate that the ability to commercialize effectively is dependent upon such longer period, and (F) For data other than computer software, a statement explaining why the assertion of copyright is necessary to enhance commercialization and is consistent with DOE's dissemination responsibilities.
- (ii) For data that is developed using other funding sources in addition to DOE funding, the permission to assert copyright in accordance with this clause must also be obtained by the Contractor from all other funding sources prior to the Contractor's request to Patent Counsel. The request shall include the Contractor's certification or other documentation acceptable to Patent Counsel demonstrating such permission has been obtained.
 - (iii) Permission for the Contractor to assert copyright in excepted categories of data as determined by DOE will be expressly withheld. Such excepted categories include data whose release
 - (A) would be detrimental to national security, i.e., involve classified information or data or sensitive information under Section 148 of the Atomic Energy Act of 1954, as amended, or are subject to export control for nonproliferation and other nuclear-related national security purposes,
 - (B) would not enhance the appropriate transfer or dissemination and commercialization of such data,
 - (C) would have a negative impact on U.S. industrial competitiveness,
 - (D) would prevent DOE from meeting its obligations under treaties and international agreements, or
 - (E) would be detrimental to one or more of DOE's programs. Additional excepted categories may be added by the Assistant General Counsel for Technology Transfer and Intellectual Property. Where data are determined to be under export control

restriction, the Contractor may obtain permission to assert copyright subject to the provisions of this clause for purposes of limited commercialization in a manner that complies with export control statutes and applicable regulations. In addition, notwithstanding any other provision of this Contract, all data developed with Naval Reactors' funding and those data that are classified fall within excepted categories. The rights of the Contractor in data are subject to the disposition of data rights in the treaties and international agreements identified under this Contract as well as those additional treaties and international agreements which DOE may from time to time identify by unilateral amendment to the Contract; such amendment listing added treaties and international agreements is effective only for data which is developed after the date such treaty or international agreement is added to this Contract. Also, the Contractor will not be permitted to assert copyright in data in the form of various technical reports generated by the Contractor under the Contract without first obtaining the advanced written permission of the contracting officer.

- (2) DOE Review and Response to Contractor's Request. The Patent Counsel shall use its best efforts to respond in writing within 90 days of receipt of a complete request by the Contractor to assert copyright in technical data and computer software pursuant to this clause. Such response shall either give or withhold DOE's permission for the Contractor to assert copyright or advise the Contractor that DOE needs additional time to respond, and the reasons therefor.
- (3) Permission for Contractor to Assert Copyright.
 - (i) For computer software, the Contractor shall furnish to the DOE designated, centralized software distribution and control point, the Energy Science and Technology Software Center, at the time permission to assert copyright is given under paragraph (e)(2) of this clause:
 - (A) An abstract describing the software suitable for publication,
 - (B) the source code for each software program, and
 - (C) the object code and at least the minimum support documentation needed by a technically competent user to understand and use the software. The Patent Counsel, for good cause shown by the Contractor, may allow the minimum support documentation to be delivered within 60 days after permission to assert copyright is given or at such time the minimum support documentation becomes available. The Contractor acknowledges that the DOE

designated software distribution and control point may provide a technical description of the software in an announcement identifying its availability from the copyright holder.

- (ii) Unless otherwise directed by the contracting officer, for data other than computer software to which the Contractor has received permission to assert copyright under paragraph (e)(2) of this clause above, the Contractor shall within sixty (60) days of obtaining such permission furnish to DOE's Office of Scientific and Technical Information (OSTI) a copy of such data as well as an abstract of the data suitable for dissemination purposes. The Contractor acknowledges that OSTI may provide an abstract of the data in an announcement to DOE, its contractors and to the public identifying its availability from the copyright holder.
- (iii) For a five year period or such other specified period as specifically approved by Patent Counsel beginning on the date the Contractor is given permission to assert copyright in data, the Contractor grants to the Government, and others acting on its behalf, a paid-up, nonexclusive, irrevocable worldwide license in such copyrighted data to reproduce, prepare derivative works and perform publicly and display publicly, by or on behalf of the Government. Upon request, the initial period may be extended after DOE approval. The DOE approval will be based on the standard that the work is still commercially available and the market demand is being met.
- (iv) After the period approved by Patent Counsel for application of the limited Government license described in paragraph (e)(3)(iii) of this clause, or if, prior to the end of such period(s), the Contractor abandons commercialization activities pertaining to the data to which the Contractor has been given permission to assert copyright, the Contractor grants to the Government, and others acting on its behalf, a paid-up, nonexclusive, irrevocable worldwide license in such copyrighted data to reproduce, distribute copies to the public, prepare derivative works, perform publicly and display publicly, and to permit others to do so.
- (v) Whenever the Contractor asserts copyright in data pursuant to this paragraph (e), the Contractor shall affix the applicable copyright notice of 17 U.S.C. 401 or 402 on the copyrighted data and also an acknowledgment of the Government sponsorship and license rights of paragraphs (e)(3) (iii) and (iv) of this clause. Such action shall be taken when the data are delivered to the Government, published, licensed or deposited for registration as a published work in the U.S. Copyright Office. The acknowledgment of Government sponsorship and license rights shall be as follows:

Notice: These data were produced by (insert name of Contractor) under Contract No. with the Department of Energy. For (period approved by DOE Patent Counsel) from (date permission to assert copyright was obtained), the Government is granted for itself and others acting on its behalf a nonexclusive, paid-up, irrevocable worldwide license in this data to reproduce, prepare derivative works, and perform publicly and display publicly, by or on behalf of the Government. There is provision for the possible extension of the term of this license. Subsequent to that period or any extension granted, the Government is granted for itself and others acting on its behalf a nonexclusive, paid-up, irrevocable worldwide license in this data to reproduce, prepare derivative works, distribute copies to the public, perform publicly and display publicly, and to permit others to do so. The specific term of the license can be identified by inquiry made to Contractor or DOE. NEITHER THE UNITED STATES NOR THE UNITED STATES DEPARTMENT OF ENERGY, NOR ANY OF THEIR EMPLOYEES, MAKES ANY WARRANTY, EXPRESS OR IMPLIED, OR ASSUMES ANY LEGAL LIABILITY OR RESPONSIBILITY FOR THE ACCURACY, COMPLETENESS, OR USEFULNESS OF ANY DATA, APPARATUS, PRODUCT, OR PROCESS DISCLOSED, OR REPRESENTS THAT ITS USE WOULD NOT INFRINGE PRIVATELY OWNED RIGHTS.

(End of Notice)

- (vi) With respect to any data to which the Contractor has received permission to assert copyright, the DOE has the right, during the five (5) year or specified longer period approved by Patent Counsel as provided for in paragraph (e) of this clause, to request the Contractor to grant a nonexclusive, partially exclusive or exclusive license in any field of use to a responsible applicant(s) upon terms that are reasonable under the circumstances, and if the Contractor refuses such request, to grant such license itself, if the DOE determines that the Contractor has not made a satisfactory demonstration that either it or its licensee(s) is actively pursuing commercialization of the data as set forth in subparagraph (e)(1)(A) of this clause. Before licensing under this subparagraph (vi), DOE shall furnish the Contractor a written request for the Contractor to grant the stated license, and the Contractor shall be allowed thirty (30) days (or such longer period as may be authorized by the contracting officer for good cause shown in writing by the Contractor) after such notice to show cause why the license should not be granted. The Contractor shall have the right to appeal the decision of the DOE to grant the stated license to the Invention Licensing Appeal Board as set forth in 10 CFR 781.65 -- "Appeals."

(vii) No costs shall be allowable for maintenance of copyrighted data, primarily for the benefit of the Contractor and/or a licensee which exceeds DOE Program needs, except as expressly provided in writing by the contracting officer. The Contractor may use its net royalty income to effect such maintenance costs.

(viii) At any time the Contractor abandons commercialization activities for data for which the Contractor has received permission to assert copyright in accordance with this clause, it shall advise OSTI and Patent Counsel and upon request assign the copyright to the Government so that the Government can distribute the data to the public.

(4) The following notice may be placed on computer software prior to any publication and prior to the Contractor's obtaining permission from the Department of Energy to assert copyright in the computer software pursuant to paragraph (c)(3) of this section. Notice: This computer software was prepared by [insert the Contractor's name and the individual author], hereinafter the Contractor, under Contract [insert the Contract Number] with the Department of Energy (DOE). All rights in the computer software are reserved by DOE on behalf of the United States Government and the Contractor as provided in the Contract. You are authorized to use this computer software for Governmental purposes but it is not to be released or distributed to the public. NEITHER THE GOVERNMENT NOR THE CONTRACTOR MAKES ANY WARRANTY, EXPRESS OR IMPLIED, OR ASSUMES ANY LIABILITY FOR THE USE OF THIS SOFTWARE. This notice including this sentence must appear on any copies of this computer software.

(End of Notice)

(5) A similar notice can be used for data, other than computer software, upon approval of DOE Patent Counsel.

(f) *Open Source Software. The Contractor may release computer software first produced by the Contractor in the performance of this Contract under an open source software license. Such software shall hereinafter be referred to as Open Source Software or OSS, subject to the following:*

(1) *Obtain Program Approval.*

(i) *The Contractor shall ensure that the DOE Program or Programs that have provided funding (Funding Source) to develop the software have approved the distribution of the software as OSS. The funding Program(s) may provide blanket approval for all software developed with funding from that Program. However, OSS release for any one such software shall be subject to approval by all other funding Programs*

which provide a substantial portion of the funds for the software, if any. If approval from the funding Program(s) is not practicable, DOE Patent Counsel may provide approval instead. For software jointly developed under a CRADA or User Facility, authorization from the CRADA Participant(s) or User Facility User(s), as applicable, shall be additionally obtained for OSS release.

- (ii) If the software is developed with funding from a federal government agency or agencies other than DOE, then authorization from all the funding source(s) shall be obtained for OSS release, if practicable. Such federal government agency(ies) may provide blanket approval for all software developed with funding from that agency. However, OSS release of any one of such software shall be subject to approval by all other funding sources for the software, if any. If majority approval from such federal government agency(s) is not practicable, DOE Patent Counsel may provide approval instead.*
- (2) Assert Copyright in the OSS. Once the Contractor has obtained Funding Source approval in accordance with subparagraph (1) of this section, copyright in the software to be distributed as OSS, may be asserted by the Contractor, or, for OSS developed under a CRADA or User Facility, either by the Contractor, CRADA Participant, or User Facility User, as applicable, which precludes marking such OSS as Protected Information.*
- (3) Form DOE F 241.4 for OSS to ESTSC. The Contractor must submit the form DOE F 241.4 (or the current form as may be required by DOE) to DOE's Energy Science and Technology Software Center (ESTSC) at the Office of Scientific and Technical Information (OSTI). The Contractor shall provide the unique URL on the form for ESTSC to distribute.*
- (4) OSS Record. The Contractor must maintain a record, available for inspection by DOE, of software distributed as OSS. The record shall contain the following information: (i) name of the computer software (or other identifier), (ii) an abstract with description or purpose of the software, (iii) evidence of the funding Program's or source's approval, (iv) the planned or actual OSS location on the Contractor's webpage or other publicly available location (see subparagraph (5) below); (v) any names, logos or other identifying marks used in connection with the OSS, whether or not registered; (vi) the type of OSS license used; and (vii) release version of the software for OSS containing derivative works. Upon request of Patent Counsel, the Contractor shall periodically provide Patent Counsel a copy of the record.*
- (5) Provide Public Access to the OSS. The Contractor shall ensure that the OSS is publicly accessible as an open source via the Contractor's website, Open Source Bulletin Boards operated by third parties, DOE, or other industry standard means.*

- (6) *Select an OSS License. Each OSS will be distributed pursuant to an OSS license. The Contractor may choose among industry standard OSS licenses or create its own set of Contractor standard licenses. To assist the Contractor, the DOE Assistant General Counsel for Technology Transfer and Intellectual Property may periodically issue guidance on OSS licenses. Each Contractor created OSS license, must contain, at a minimum, the following provisions:*
 - (i) *A disclaimer or equivalent that disclaims the Government's and Contractor's liability for licensees' and third parties' use of the software; and*
 - (ii) *A grant of permission for licensee to distribute OSS containing the licensee's derivative works subject to trademark restrictions (see subparagraph (10) below). This provision might allow the licensee and third parties to commercialize their derivative works or might request that the licensee's derivative works be forwarded to the Contractor for incorporation into future OSS versions.*
- (7) *Collection of administrative costs is permissible. However, the Contractor may not collect a royalty or other fee in excess of a good faith amount for cost recovery from any licensee for the Contractor's OSS.*
- (8) *Relationship to Other Required Clauses in the Contract. OSS distributed in accordance with this section shall not be subject to the requirements relating to indemnification of the Contractor or Federal Government, U.S. Competitiveness and U.S. Preference as set forth in paragraphs (g) and (h) of the clause within this contract entitled Technology Transfer Mission (DEAR 970.5227-3). The requirement for Contractor to request permission to assert copyright for the purpose of engaging in licensing software for royalties as set forth elsewhere in this clause is not modified by this section.*
- (9) *Performance of Periodic Export Control Reviews by the Contractor. The Contractor is required to follow its Export Control review procedures before designating any software as OSS. If the Contractor is integrating the original OSS with other copyrightable works created by the Contractor or third parties, the Contractor may need to perform periodic export control reviews of the derivative versions.*
- (10) *Determine if Trademark Protection for the OSS is Appropriate. DOE Programs and Contractors have established trademarks on some of their computer software. Therefore, the Contractor should determine whether the OSS is already protected by use of an existing trademark. If the OSS is not so protected, then the Program or the Contractor may want to seek trademark protection. If the OSS is protected by a trademark, the OSS license should state that the derivative works of the licensee or other third party may not be distributed using the proprietary trademark without appropriate prior approval.*

- (11) *Government License. For all OSS, the Contractor grants to the Government, and others acting on its behalf, a paid-up, nonexclusive, irrevocable worldwide license in data copyrighted in accordance with paragraph (f)(2) of this clause to reproduce, distribute copies to the public, prepare derivative works, perform publicly and display publicly, and to permit others to do so.*
- (12) *Availability of Original OSS. The object code and source code of the original OSS developed by the Contractor shall be available to any third party who requests such from the Contractor for so long as such OSS is publicly available. If the Contractor ceases to make the software publicly available, then the Contractor shall submit to ESTSC the object code and source code of the latest version of the OSS developed by the Contractor in addition to a revised DOE F 241.4 form (which includes an abstract) and the Contractor shall direct any inquiries from third parties seeking to obtain the original OSS to ESTSC.*
- (g) *Subcontracting.*
- (1) Unless otherwise directed by the contracting officer, the Contractor agrees to use in subcontracts in which technical data or computer software is expected to be produced or in subcontracts for supplies that contain a requirement for production or delivery of data in accordance with the policy and procedures of 48 CFR Subpart 27.4 as supplemented by 48 CFR 927.401 through 927.409, the clause entitled, "Rights in Data -- General" at 48 CFR 52.227-14 modified in accordance with 927.409(a) and including Alternate V. Alternates II through IV of that clause may be included as appropriate with the prior approval of DOE Patent Counsel, and the Contractor shall not acquire rights in a subcontractor's limited rights data or restricted computer software, except through the use of Alternates II or III, respectively, without the prior approval of DOE Patent Counsel. The clause at 48 CFR 52.227-16, Additional Data Requirements, shall be included in subcontracts in accordance with 48 CFR 927.409(h). The Contractor shall use instead the Rights in Data -- Facilities clause at 48 CFR 970.5227-1 in subcontracts, including subcontracts for related support services, involving the design or operation of any plants or facilities or specially designed equipment for such plants or facilities that are managed or operated under its contract with DOE.
- (2) It is the responsibility of the Contractor to obtain from its subcontractors technical data and computer software and rights therein, on behalf of the Government, necessary to fulfill the Contractor's obligations to the Government with respect to such data. In the event of refusal by a subcontractor to accept a clause affording the Government such rights, the Contractor shall:
- (i) Promptly submit written notice to the contracting officer setting forth reasons or the subcontractor's refusal and other pertinent information which may expedite disposition of the matter, and

- (ii) Not proceed with the subcontract without the written authorization of the contracting officer.
- (3) Neither the Contractor nor higher-tier subcontractors shall use their power to award subcontracts as economic leverage to acquire rights in a subcontractor's limited rights data and restricted computer software for their private use.
- (h) *Rights in Limited Rights Data.* Except as may be otherwise specified in this Contract as data which are not subject to this paragraph, the Contractor agrees to and does hereby grant to the Government an irrevocable nonexclusive, paid-up license by or for the Government, in any limited rights data of the Contractor specifically used in the performance of this Contract, provided, however, that to the extent that any limited rights data when furnished or delivered is specifically identified by the Contractor at the time of initial delivery to the Government or a representative of the Government, such data shall not be used within or outside the Government except as provided in the "Limited Rights Notice" set forth below. All such limited rights data shall be marked with the following "Limited Rights Notice:"

Limited Rights Notice

These data contain "limited rights data," furnished under Contract No. with the United States Department of Energy which may be duplicated and used by the Government with the express limitations that the "limited rights data" may not be disclosed outside the Government or be used for purposes of manufacture without prior permission of the Contractor, except that further disclosure or use may be made solely for the following purposes:

- (a) Use (except for manufacture) by support services contractors within the scope of their contracts;
- (b) This "limited rights data" may be disclosed for evaluation purposes under the restriction that the "limited rights data" be retained in confidence and not be further disclosed;
- (c) This "limited rights data" may be disclosed to other contractors participating in the Government's program of which this Contract is a part for information or use (except for manufacture) in connection with the work performed under their contracts and under the restriction that the "limited rights data" be retained in confidence and not be further disclosed;
- (d) This "limited rights data" may be used by the Government or others on its behalf for emergency repair or overhaul work under the restriction that the "limited rights data" be retained in confidence and not be further disclosed;
and

- (e) Release to a foreign government, or instrumentality thereof, as the interests of the United States Government may require, for information or evaluation, or for emergency repair or overhaul work by such government.

This Notice shall be marked on any reproduction of this data in whole or in part.

(End of Notice)

(i) *Rights in Restricted Computer Software.*

- (1) Except as may be otherwise specified in this Contract as data which are not subject to this paragraph, the Contractor agrees to and does hereby grant to the Government an irrevocable, nonexclusive, paid-up, license by or for the Government, in any restricted computer software of the Contractor specifically used in the performance of this Contract; provided, however, that to the extent that any restricted computer software when furnished or delivered is specifically identified by the Contractor at the time of initial delivery to the Government or a representative of the Government, such data shall not be used within or outside the Government except as provided in the "Restricted Rights Notice" set forth below. All such restricted computer software shall be marked with the following "Restricted Rights Notice:"

Restricted Rights Notice -- Long Form

- (a) This computer software is submitted with restricted rights under Department of Energy Contract No. . It may not be used, reproduced, or disclosed by the Government except as provided in paragraph (b) of this notice.
- (b) This computer software may be:
 - (1) Used or copied for use in or with the computer or computers for which it was acquired, including use at any Government installation to which such computer or computers may be transferred;
 - (2) Used, copied for use, in a backup or replacement computer if any computer for which it was acquired is inoperative or is replaced;
 - (3) Reproduced for safekeeping (archives) or backup purposes;
 - (4) Modified, adapted, or combined with other computer software, provided that only the portions of the derivative software consisting of the restricted computer software are to be made subject to the same restricted rights; and

- (5) Disclosed to and reproduced for use by contractors under a service contract (of the type defined in 48 CFR 37.101) in accordance with subparagraphs (b)(1) through (4) of this Notice, provided the Government makes such disclosure or reproduction subject to these restricted rights.
- (c) Notwithstanding the foregoing, if this computer software has been published under copyright, it is licensed to the Government, without disclosure prohibitions, with the rights set forth in the restricted rights notice above.
- (d) This Notice shall be marked on any reproduction of this computer software, in whole or in part.

(End of Notice)

- (2) Where it is impractical to include the Restricted Rights Notice on restricted computer software, the following short-form Notice may be used in lieu thereof:

Restricted Rights Notice -- Short Form

Use, reproduction, or disclosure is subject to restrictions set forth in the Long Form Notice of DOE Contract No. with (name of Contractor).

(End of Notice)

- (3) If the software is embedded, or if it is commercially impractical to mark it with human readable text, then the symbol R and the clause date (mo/yr) in brackets or a box, a [R-mo/yr], may be used. This will be read to mean restricted computer software, subject to the rights of the Government as described in the Long Form Notice, in effect as of the date indicated next to the symbol. The symbol shall not be used to mark human readable material. In the event this Contract contains any variation to the rights in the Long Form Notice, then the contract number must also be cited.
- (4) If restricted computer software is delivered with the copyright notice of 17 U.S.C. 401, the software will be presumed to be published copyrighted computer software licensed to the Government without disclosure prohibitions and with unlimited rights, unless the Contractor includes the following statement with such copyright notice "Unpublished -- rights reserved under the Copyright Laws of the United States."
- (j) *Relationship to Patents.* Nothing contained in this clause creates or is intended to imply a license to the Government in any patent or is intended to be construed as

affecting the scope of any licenses or other rights otherwise granted to the Government under any patent.

I.141 970.5227-3 TECHNOLOGY TRANSFER MISSION. (DEVIATION JULY 2006 – DOE ACQUISITION LETTER 2006-10 - ALTERNATE I

This clause has as its purpose implementation of the National Competitiveness Technology Transfer Act of 1989 (Sections 3131, 3132, 3133, and 3157 of Pub. L. 101-189 and as amended by Pub. L. 103-160, Sections 3134 and 3160). The Contractor shall conduct technology transfer activities with a purpose of providing benefit from Federal research to U.S. industrial competitiveness.

(a) *Authority.*

- (1) In order to ensure the full use of the results of research and development efforts of, and the capabilities of, the Laboratory, technology transfer, including Cooperative Research and Development Agreements (CRADAs), is established as a mission of the Laboratory consistent with the policy, principles and purposes of Sections 11(a)(1) and 12(g) of the Stevenson-Wydler Technology Innovation Act of 1980, as amended (15 U.S.C. 3710a); Section 3132(b) of Pub. L. 101-189, Sections 3134 and 3160 of Pub. L. 103-160, and of Chapter 38 of the Patent Laws (35 U.S.C. 200 *et seq.*); Section 152 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2182); Section 9 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5908); and Executive Order 12591 of April 10, 1987.
- (2) In pursuing the technology transfer mission, the Contractor is authorized to conduct activities including but not limited to: identifying and protecting Intellectual Property made, created or acquired at or by the Laboratory; negotiating licensing agreements and assignments for Intellectual Property made, created or acquired at or by the Laboratory that the Contractor controls or owns; bailments; negotiating all aspects of and entering into CRADAs; providing technical consulting and personnel exchanges; conducting science education activities and reimbursable Work for Others (WFO); providing information exchanges; and making available laboratory or weapon production user facilities. It is fully expected that the Contractor shall use all of the mechanisms available to it to accomplish this technology transfer mission, including, but not limited to, CRADAs, user facilities, WFO, science education activities, consulting, personnel exchanges, assignments, and licensing in accordance with this clause.

(b) *Definitions.*

- (1) Contractor's Laboratory Director means the individual who has supervision over all or substantially all of the Contractor's operations at the Laboratory.

- (2) Intellectual Property means patents, trademarks, copyrights, mask works, protected CRADA information, and other forms of comparable property rights protected by Federal Law and other foreign counterparts.
- (3) Cooperative Research and Development Agreement (CRADA) means any agreement entered into between the Contractor as operator of the Laboratory, and one or more parties including at least one non-Federal party under which the Government, through its laboratory, provides personnel, services, facilities, equipment, intellectual property, or other resources with or without reimbursement (but not funds to non-Federal parties) and the non-Federal parties provide funds, personnel, services, facilities, equipment, intellectual property, or other resources toward the conduct of specified research or development efforts which are consistent with the missions of the Laboratory; except that such term does not include a procurement contract, grant, or cooperative agreement as those terms are used in sections 6303, 6304, and 6305 of Title 31 of the United States Code.
- (4) Joint Work Statement (JWS) means a proposal for a CRADA prepared by the Contractor, signed by the Contractor's Laboratory Director or designee which describes the following:
 - (i) Purpose;
 - (ii) Scope of Work which delineates the rights and responsibilities of the Government, the Contractor and Third Parties, one of which must be a non-Federal party;
 - (iii) Schedule for the work; and
 - (iv) Cost and resource contributions of the parties associated with the work and the schedule.
- (5) Assignment means any agreement by which the Contractor transfers ownership of Laboratory Intellectual Property, subject to the Government's retained rights.
- (6) Laboratory Biological Materials means biological materials capable of replication or reproduction, such as plasmids, deoxyribonucleic acid molecules, ribonucleic acid molecules, living organisms of any sort and their progeny, including viruses, prokaryote and eukaryote cell lines, transgenic plants and animals, and any derivatives or modifications thereof or products produced through their use or associated biological products, made under this contract by Laboratory employees or through the use of Laboratory research facilities.
- (7) Laboratory Tangible Research Product means tangible material results of research which

- (i) are provided to permit replication, reproduction, evaluation or confirmation of the research effort, or to evaluate its potential commercial utility;
 - (ii) are not materials generally commercially available; and
 - (iii) were made under this contract by Laboratory employees or through the use of Laboratory research facilities.
- (8) Bailment means any agreement in which the Contractor permits the commercial or non-commercial transfer of custody, access or use of Laboratory Biological Materials or Laboratory Tangible Research Product for a specified purpose of technology transfer or research and development, including without limitation evaluation, and without transferring ownership to the bailee.
- (9) Privately funded technology transfer means the prosecuting, maintaining, licensing, and marketing of inventions which are not owned by the Government (and not related to CRADAs) when such activities are conducted entirely without the use of Government funds.
- (c) *Allowable Costs.*
- (1) The Contractor shall establish and carry out its technology transfer efforts through appropriate organizational elements consistent with the requirements for an Office of Research and Technology Applications (ORTA) pursuant to paragraphs (b) and (c) of Section 11 of the Stevenson-Wydler Technology Innovation Act of 1980, as amended (15 U.S.C. 3710). The costs associated with the conduct of technology transfer through the ORTA including activities associated with obtaining, maintaining, licensing, and assigning Intellectual Property rights, increasing the potential for the transfer of technology, and the widespread notice of technology transfer opportunities, shall be deemed allowable provided that such costs meet the other requirements of the allowable costs provisions of this Contract. In addition to any separately designated funds, these costs in any fiscal year shall not exceed an amount equal to 0.5 percent of the operating funds included in the Federal research and development budget (including Work For Others) of the Laboratory for that fiscal year without written approval of the contracting officer.
 - (2) The Contractor's participation in litigation to enforce or defend Intellectual Property claims incurred in its technology transfer efforts shall be as provided in the clause entitled "Insurance -- Litigation and Claims" of this contract.
- (d) *Conflicts of Interest -- Technology Transfer.* The Contractor shall have implementing procedures that seek to avoid employee and organizational conflicts of interest, or the appearance of conflicts of interest, in the conduct of its

technology transfer activities. These procedures shall apply to other persons participating in Laboratory research or related technology transfer activities. Such implementing procedures shall be provided to the contracting officer for review and approval within sixty (60) days after execution of this contract. The contracting officer shall have thirty (30) days thereafter to approve or require specific changes to such procedures. Such implementing procedures shall include procedures to:

- (1) Inform employees of and require conformance with standards of conduct and integrity in connection with research involving nonfederal sponsors and for CRADA activity in accordance with the provisions of paragraph (n)(5) of this clause;
- (2) Review and approve employee activities so as to avoid conflicts of interest arising from commercial utilization activities relating to Contractor-developed Intellectual Property;
- (3) Conduct work performed using royalties so as to avoid interference with or adverse effects on ongoing DOE projects and programs;
- (4) Conduct activities relating to commercial utilization of Contractor-developed Intellectual Property so as to avoid interference with or adverse effects on user facility or WFO activities of the Contractor;
- (5) Conduct DOE-funded projects and programs so as to avoid the appearance of conflicts of interest or actual conflicts of interest with non-Government funded work;
- (6) Notify the contracting officer with respect to any new work to be performed or proposed to be performed under the Contract for DOE or other Federal agencies where the new work or proposal involves Intellectual Property in which the Contractor has obtained or intends to request or elect title;
- (7) Except as provided elsewhere in this Contract, obtain the approval of the contracting officer for any licensing of or assignment of title to Intellectual Property rights by the Contractor to any business or corporate affiliate of the Contractor;
- (8) Obtain the approval of the contracting officer prior to any assignment, exclusive licensing, or option for exclusive licensing, of Intellectual Property to any individual who has been a Laboratory employee within the previous two years or to the company in which the individual is a principal;
- (9) Notify non-Federal sponsors of WFO activities, or non-Federal users of user facilities, of any relevant Intellectual Property interest of the Contractor prior to execution of WFOs or user agreements; and
- (10) Notify DOE prior to the Contractor's evaluating a technical proposal for funding by a third party or a DOE Program, when the subject matter of the

proposal involves an elected or waived subject invention under this contract or one in which the Contractor intends to elect to retain title under this contract.

- (e) *Fairness of Opportunity.* In conducting its technology transfer activities, the Contractor shall prepare procedures and take all reasonable measures to ensure widespread notice of availability of technologies suited for transfer and opportunities for exclusive licensing and joint research arrangements. The requirement to widely disseminate the availability of technology transfer opportunities does not apply to a specific application originated outside of the Laboratory and by entities other than the Contractor.
- (f) *U.S. Industrial Competitiveness for Licensing and Assignments of Intellectual Property.*
 - (1) In the interest of enhancing U.S. Industrial Competitiveness in its licensing and assignments of Intellectual Property, the Contractor shall give preference in such a manner as to enhance the accrual of economic and technological benefits to the U.S. domestic economy. The Contractor shall consider the following factors in all of its decisions involving licensing and assignment of Laboratory intellectual property where the Laboratory obtains rights during the course of the Contractor's operation of the Laboratory under this contract:
 - (i) whether any resulting design and development will be performed in the United States and whether resulting products, embodying parts, including components thereof, will be substantially manufactured in the United States; or
 - (ii)
 - (A) whether a proposed licensee or an assignee has a business unit located in the United States and whether significant economic and technical benefits will flow to the United States as a result of the license or assignment agreement;
 - (B) in licensing or assigning any entity subject to the control of a foreign company or government, whether such foreign government permits United States agencies, organizations or other persons to enter into cooperative research and development agreements and licensing agreements, and has policies to protect United States Intellectual Property rights; and
 - (C) *if the proposed licensee, assignee, or parent of either type of entity is subject to the control of a foreign company or government, the Contractor, with the assistance of the Contracting Officer, in considering the factors set forth in paragraph (B) herein, may rely upon the following information; (1) U.S. Trade Representative Inventory of Foreign Trade Barriers, (2) U.S. Trade Representative Special 301 Report, and, (3) such other relevant*

information available to the contracting officer. The Contractor should review the U.S. Trade Representative web site at: <<http://www.ustr.gov>> for the most current versions of these reports and other relevant information. The Contractor is encouraged to utilize other available resources, as necessary, to allow for a complete and informed decision.

- (2) If the Contractor determines that neither of the conditions in paragraphs (f)(1)(i) or (ii) of this clause is likely to be fulfilled, the Contractor, prior to entering into such an agreement, must obtain the approval of the contracting officer. The contracting officer shall act on any such requests for approval within thirty (30) days.
 - (3) The Contractor agrees to be bound by the provisions of 35 U.S.C. 204 (Preference for United States industry).
- (g) *Indemnity -- Product Liability.* In entering into written technology transfer agreements, including but not limited to, research and development agreements, licenses, assignments and CRADAs, the Contractor agrees to include in such agreements a requirement that the U.S. Government and the Contractor, except for any negligent acts or omissions of the Contractor, be indemnified for all damages, costs, and expenses, including attorneys' fees, arising from personal injury or property damage occurring as a result of the making, using or selling of a product, process or service by or on behalf of the Participant, its assignees or licensees which was derived from the work performed under the agreement. The Contractor shall identify and obtain the approval of the contracting officer for any proposed exceptions to this requirement such as where State or local law expressly prohibit the Participant from providing indemnification or where the research results will be placed in the public domain.
- (h) *Disposition of Income.*
- (1) Royalties or other income earned or retained by the Contractor as a result of performance of authorized technology transfer activities herein shall be used by the Contractor for scientific research, development, technology transfer, and education at the Laboratory, consistent with the research and development mission and objectives of the Laboratory and subject to Section 12(b)(5) of the Stevenson-Wydler Technology Innovation Act of 1980, as amended (15 U.S.C. 3710a(b)(5)) and Chapter 38 of the Patent Laws (35 U.S.C. 200 et seq.) as amended through the effective date of this contract award or modification. If the net amounts of such royalties and income received from patent licensing after payment of patenting costs, licensing costs, payments to inventors and other expenses incidental to the administration of Subject Inventions during any fiscal year exceed 5 percent of the Laboratory's budget for that fiscal year, 75 percent of such excess amounts shall be paid to the Treasury of the United States, and the remaining amount of such excess shall

be used by the Contractor for the purposes as described above in this paragraph. Any inventions arising out of such scientific research and development activities shall be deemed to be Subject Inventions under the Contract.

- (2) The Contractor shall include as a part of its annual Laboratory Institutional Plan or other such annual document a plan setting out those uses to which royalties and other income received as a result of performance of authorized technology transfer activities herein will be applied at the Laboratory, and at the end of the year, provide a separate accounting for how the funds were actually used. Under no circumstances shall these royalties and income be used for an illegal augmentation of funds furnished by the U.S. Government.
 - (3) The Contractor shall establish subject to the approval of the contracting officer a policy for making awards or sharing of royalties with Contractor employees, other coinventors and coauthors, including Federal employee coinventors when deemed appropriate by the contracting officer.
- (i) *Transfer to Successor Contractor.* In the event of termination or upon the expiration of this Contract, any unexpended balance of income received for use at the Laboratory shall be transferred, at the contracting officer's request, to a successor contractor, or in the absence of a successor contractor, to such other entity as designated by the contracting officer. The Contractor shall transfer title, as one package, to the extent the Contractor retains title, in all patents and patent applications, licenses, accounts containing royalty revenues from such license agreements, including equity positions in third party entities, and other Intellectual Property rights which arose at the Laboratory, to the successor contractor or to the Government as directed by the contracting officer.
 - (j) *Technology Transfer Affecting the National Security.*
 - (1) The Contractor shall notify and obtain the approval of the contracting officer, prior to entering into any technology transfer arrangement, when such technology or any part of such technology is classified or sensitive under Section 148 of the Atomic Energy Act (42 U.S.C. 2168). Such notification shall include sufficient information to enable DOE to determine the extent that commercialization of such technology would enhance or diminish security interests of the United States, or diminish communications within DOE's nuclear weapon production complex. DOE shall use its best efforts to complete its determination within sixty (60) days of the Contractor's notification, and provision of any supporting information, and DOE shall promptly notify the Contractor as to whether the technology is transferable.
 - (2) The Contractor shall include in all of its technology transfer agreements with third parties, including, but not limited to, CRADAs, licensing agreements and

assignments, notice to such third parties that the export of goods and/or Technical Data from the United States may require some form of export control license or other authority from the U.S. Government and that failure to obtain such export control license may result in criminal liability under U.S. laws.

- (3) For other than fundamental research as defined in National Security Decision Directive 189, the Contractor is responsible to conduct internal export control reviews and assure that technology is transferred in accordance with applicable law.
- (k) *Records.* The Contractor shall maintain records of its technology transfer activities in a manner and to the extent satisfactory to the DOE and specifically including, but not limited to, the licensing agreements, assignments and the records required to implement the requirements of paragraphs (e), (f), and (h) of this clause and shall provide reports to the contracting officer to enable DOE to maintain the reporting requirements of Section 12(c)(6) of the Stevenson-Wydler Technology Innovation Act of 1980, as amended (15 U.S.C. 3710a(c)(6)). Such reports shall be made annually in a format to be agreed upon between the Contractor and DOE and in such a format which will serve to adequately inform DOE of the Contractor's technology transfer activities while protecting any data not subject to disclosure under the Rights in Technical Data clause and paragraph (n) of this clause. Such records shall be made available in accordance with the clauses of this Contract pertaining to inspection, audit and examination of records.
- (l) *Reports to Congress.* To facilitate DOE's reporting to Congress, the Contractor is required to submit annually to DOE a technology transfer plan for conducting its technology transfer function for the upcoming year, including plans for securing Intellectual Property rights in Laboratory innovations with commercial promise and plans for managing such innovations so as to benefit the competitiveness of United States industry. This plan shall be provided to the contracting officer on or before October 1st of each year.
- (m) *Oversight and Appraisal.* The Contractor is responsible for developing and implementing effective internal controls for all technology transfer activities consistent with the audit and record requirements of this Contract. Laboratory Contractor performance in implementing the technology transfer mission and the effectiveness of the Contractor's procedures will be evaluated by the contracting officer as part of the annual appraisal process, with input from the cognizant Secretarial Officer or program office.
- (n) *Technology Transfer through Cooperative Research and Development Agreements.* Upon approval of the contracting officer and as provided in a DOE approved Joint Work Statement (JWS), the Laboratory Director, or designee, may enter into

CRADAs on behalf of the DOE subject to the requirements set forth in this paragraph.

- (1) *Review and Approval of CRADAs.*
 - (i) Except as otherwise directed in writing by the contracting officer, each JWS shall be submitted to the contracting officer for approval. The Contractor's Laboratory Director or designee shall provide a program mission impact statement and shall include an impact statement regarding related Intellectual Property rights known by the Contractor to be owned by the Government to assist the contracting officer in the approval determination.
 - (ii) The Contractor shall also include (specific to the proposed CRADA), a statement of compliance with the Fairness of Opportunity requirements of paragraph (e) of this clause.
 - (iii) Within thirty (30) days after submission of a JWS or proposed CRADA, the contracting officer shall approve, disapprove or request modification to the JWS or CRADA. The contracting officer shall provide a written explanation to the Contractor's Laboratory Director or designee of any disapproval or requirement for modification of a JWS or proposed CRADA.
 - (iv) Except as otherwise directed in writing by the contracting officer, the Contractor shall not enter into, or begin work under, a CRADA until approval of the CRADA has been granted by the contracting officer. The Contractor may submit its proposed CRADA to the contracting officer at the time of submitting its proposed JWS or any time thereafter.
- (2) *Selection of Participants.* The Contractor's Laboratory Director or designee in deciding what CRADA to enter into shall:
 - (i) Give special consideration to small business firms, and consortia involving small business firms;
 - (ii) Give preference to business units located in the United States which agree that products or processes embodying Intellectual Property will be substantially manufactured or practiced in the United States and, in the case of any industrial organization or other person subject to the control of a foreign company or government, take into consideration whether or not such foreign government permits United States agencies, organizations, or other persons to enter into cooperative research and development agreements and licensing agreements;
 - (iii) Provide Fairness of Opportunity in accordance with the requirements of paragraph (e) of this clause; and

- (iv) Give consideration to the Conflicts of Interest requirements of paragraph (d) of this clause.
- (3) *Withholding of Data.*
 - (i) Data that is first produced as a result of research and development activities conducted under a CRADA and that would be a trade secret or commercial or financial data that would be privileged or confidential, if such data had been obtained from a non-Federal third party, may be protected from disclosure under the Freedom of Information Act as provided in the Stevenson-Wydler Technology Innovation Act of 1980, as amended (15 U.S.C. 3710a(c)(7)) for a period as agreed in the CRADA of up to five (5) years from the time the data is first produced. The DOE shall cooperate with the Contractor in protecting such data.
 - (ii) Unless otherwise expressly approved by the contracting officer in advance for a specific CRADA, the Contractor agrees, at the request of the contracting officer, to transmit such data to other DOE facilities for use by DOE or its Contractors by or on behalf of the Government. When data protected pursuant to paragraph (n)(3)(i) of this clause is so transferred, the Contractor shall clearly mark the data with a legend setting out the restrictions against private use and further dissemination, along with the expiration date of such restrictions.
 - (iii) In addition to its authority to license Intellectual Property, the Contractor may enter into licensing agreements with third parties for data developed by the Contractor under a CRADA subject to other provisions of this Contract. However, the Contractor shall neither use the protection against dissemination nor the licensing of data as an alternative to the submittal of invention disclosures which include data protected pursuant to paragraph (n)(3)(i) of this clause.
- (4) *Work for Others and User Facility Programs.*
 - (i) Work for Others (WFO) and User Facility Agreements (UFAs) are not CRADAs and will be available for use by the Contractor in addition to CRADAs for achieving utilization of employee expertise and unique facilities for maximizing technology transfer. The Contractor agrees to inform prospective CRADA participants, which are intending to substantially pay full cost recovery for the effort under a proposed CRADA, of the availability of alternative forms of agreements, i.e.,

WFO and UFA, and of the Class Patent Waiver provisions associated therewith.

- (ii) Where the Contractor believes that the transfer of technology to the U.S. domestic economy will benefit from, or other equity considerations dictate, an arrangement other than the Class Waiver of patent rights to the sponsor in WFO and UFAs, a request may be made to the contracting officer for an exception to the Class Waivers.
 - (iii) Rights to inventions made under agreements other than funding agreements with third parties shall be governed by the appropriate provisions incorporated, with DOE approval, in such agreements, and the provisions in such agreements take precedence over any disposition of rights contained in this Contract. Disposition of rights under any such agreement shall be in accordance with any DOE class waiver (including Work for Others and User Class Waivers) or individually negotiated waiver which applies to the agreement.
- (5) *Conflicts of Interest.*
- (i) Except as provided in paragraph (n)(5)(iii) of this clause, the Contractor shall assure that no employee of the Contractor shall have a substantial role (including an advisory role) in the preparation, negotiation, or approval of a CRADA, if, to such employee's knowledge:
 - (A) Such employee, or the spouse, child, parent, sibling, or partner of such employee, or an organization (other than the Contractor) in which such employee serves as an officer, director, trustee, partner, or employee --
 - (1) holds financial interest in any entity, other than the Contractor, that has a substantial interest in the preparation, negotiation, or approval of the CRADA;
 - (2) receives a gift or gratuity from any entity, other than the Contractor, that has a substantial interest in the preparation, negotiation, or approval of the CRADA; or
 - (B) A financial interest in any entity, other than the Contractor, that has a substantial interest in the preparation, negotiation, or approval of the CRADA, is held by any person or organization with whom such employee is negotiating or has any arrangement concerning prospective employment.
 - (ii) The Contractor shall require that each employee of the Contractor who has a substantial role (including an advisory role) in the preparation,

negotiation, or approval of a CRADA certify through the Contractor to the contracting officer that the circumstances described in paragraph (n)(5)(i) of this clause do not apply to that employee.

- (iii) The requirements of paragraphs (n)(5)(i) and (n)(5)(ii) of this clause shall not apply in a case where the contracting officer is advised by the Contractor in advance of the participation of an employee described in those paragraphs in the preparation, negotiation or approval of a CRADA of the nature of and extent of any financial interest described in paragraph (n)(5)(i) of this clause, and the contracting officer determines that such financial interest is not so substantial as to be considered likely to affect the integrity of the Contractor employee's participation in the process of preparing, negotiating, or approving the CRADA.
- (o) *Technology Transfer in Other Cost-Sharing Agreements.* In conducting research and development activities in cost-shared agreements not covered by paragraph (n) of this clause, the Contractor, with prior written permission of the contracting officer, may provide for the withholding of data produced thereunder in accordance with the applicable provisions of paragraph (n)(3) of this clause.
- (p) *Technology Partnership Ombudsman.*
 - (1) The Contractor agrees to establish a position to be known as "Technology Partnership Ombudsman," to help resolve complaints from outside organizations regarding the policies and actions of the contractor with respect to technology partnerships (including CRADAs), patents owned by the contractor for inventions made at the laboratory, and technology licensing.
 - (2) The Ombudsman shall be a senior official of the Contractor's laboratory staff, who is not involved in day-to-day technology partnerships, patents or technology licensing, or, if appointed from outside the laboratory or facility, shall function as such senior official.
 - (3) The duties of the Technology Partnership Ombudsman shall include:
 - (i) Serving as the focal point for assisting the public and industry in resolving complaints and disputes with the laboratory or facility regarding technology partnerships, patents, and technology licensing;
 - (ii) Promoting the use of collaborative alternative dispute resolution techniques such as mediation to facilitate the speedy and low cost resolution of complaints and disputes, when appropriate; and
 - (iii) Submitting a quarterly report, in a format provided by DOE, to the Secretary of Energy, the Administrator for Nuclear Security, the Director of the DOE Office of Dispute Resolution, and the Contracting Officer concerning the number and nature of complaints and disputes

raised, along with the Ombudsman's assessment of their resolution, consistent with the protection of confidential and sensitive information.

- (q) *Inapplicability of Provisions to Privately Funded Technology Transfer Activities.* Nothing in paragraphs (c) Allowable Costs, (e) Fairness of Opportunity, (f) U.S. Industrial Competitiveness, (g) Indemnity -- Product Liability, (h) Disposition of Income, and (i) Transfer to Successor Contractor of this clause are intended to apply to the contractor's privately funded technology transfer activities if such privately funded activities are addressed elsewhere in the contract.

I.142 970.5227-4 AUTHORIZATION AND CONSENT. (AUG 2002)

- (a) The Government authorizes and consents to all use and manufacture of any invention described in and covered by a United States patent in the performance of this contract or any subcontract at any tier.
- (b) If the Contractor is sued for copyright infringement or anticipates the filing of such a lawsuit, the Contractor may request authorization and consent to copy a copyrighted work from the contracting officer. Programmatic necessity is a major consideration for DOE in determining whether to grant such request.
- (c) (1) The Contractor agrees to include, and require inclusion of, the Authorization and Consent clause at 52.227-1, without Alternate 1, but suitably modified to identify the parties, in all subcontracts expected to exceed \$100,000 at any tier for supplies or services, including construction, architect-engineer services, and materials, supplies, models, samples, and design or testing services.
- (2) The Contractor agrees to include, and require inclusion of, paragraph (a) of this Authorization and Consent clause, suitably modified to identify the parties, in all subcontracts at any tier for research and development activities expected to exceed \$100,000.
- (3) Omission of an authorization and consent clause from any subcontract, including those valued less than \$100,000 does not affect this authorization and consent.

I.143 970.5227-5 NOTICE AND ASSISTANCE REGARDING PATENT AND COPYRIGHT INFRINGEMENT. (AUG 2002)

- (a) The Contractor shall report to the Contracting Officer promptly and in reasonable written detail, each notice or claim of patent or copyright infringement based on the performance of this contract of which the Contractor has knowledge.

- (b) If any person files a claim or suit against the Government on account of any alleged patent or copyright infringement arising out of the performance of this contract or out of the use of any supplies furnished or work or services performed hereunder, the Contractor shall furnish to the Government, when requested by the Contracting Officer, all evidence and information in possession of the Contractor pertaining to such suit or claim. Except where the Contractor has agreed to indemnify the Government, the Contractor shall furnish such evidence and information at the expense of the Government.
- (c) The Contractor agrees to include, and require inclusion of, this clause suitably modified to identify the parties, in all subcontracts at any tier expected to exceed \$100,000.

I.144 970.5227-6 PATENT INDEMNITY - SUBCONTRACTS. (DEC 2000)

Except as otherwise authorized by the Contracting Officer, the Contractor shall obtain indemnification of the Government and its officers, agents, and employees against liability, including costs, for infringement of any United States patent (except a patent issued upon an application that is now or may hereafter be withheld from issue pursuant to a secrecy order by the Government) from Contractor's subcontractors for any contract work subcontracted in accordance with FAR 48 CFR 52.227-3.

I.145 970.5227-8 REFUND OF ROYALTIES. (AUG 2002)

- (a) During performance of this Contract, if any royalties are proposed to be charged to the Government as costs under this Contract, the Contractor agrees to submit for approval of the Contracting Officer, prior to the execution of any license, the following information relating to each separate item of royalty:
 - (1) Name and address of licensor;
 - (2) Patent numbers, patent application serial numbers, or other basis on which the royalty is payable;
 - (3) Brief description, including any part or model numbers of each contract item or component on which the royalty is payable;
 - (4) Percentage or dollar rate of royalty per unit;
 - (5) Unit price of contract item;
 - (6) Number of units;

- (7) Total dollar amount of royalties; and
- (8) A copy of the proposed license agreement.
- (b) If specifically requested by the Contracting Officer, the Contractor shall furnish a copy of any license agreement entered into prior to the effective date of this clause and an identification of applicable claims of specific patents or other basis upon which royalties are payable.
- (c) The term "royalties" as used in this clause refers to any costs or charges in the nature of royalties, license fees, patent or license amortization costs, or the like, for the use of or for rights in patents and patent applications that are used in the performance of this contract or any subcontract hereunder.
- (d) The Contractor shall furnish to the Contracting Officer, annually upon request, a statement of royalties paid or required to be paid in connection with performing this Contract and subcontracts hereunder.
- (e) For royalty payments under licenses entered into after the effective date of this Contract, costs incurred for royalties proposed under this paragraph shall be allowable only to the extent that such royalties are approved by the Contracting Officer. If the Contracting Officer determines that existing or proposed royalty payments are inappropriate, any payments subsequent to such determination shall be allowable only to the extent approved by the Contracting Officer.
- (f) Regardless of prior DOE approval of any individual payments or royalties, DOE may contest at any time the enforceability, validity, scope of, or title to a patent for which the Contractor makes a royalty or other payment.
- (g) If at any time within 3 years after final payment under this contract, the Contractor for any reason is relieved in whole or in part from the payment of any royalties to which this clause applies, the Contractor shall promptly notify the Contracting Officer of that fact and shall promptly reimburse the Government for any refunds received or royalties paid after having received notice of such relief.
- (h) The Contractor agrees to include, and require inclusion of, this clause, including this paragraph (h), suitably modified to identify the parties in any subcontract at any tier in which the amount of royalties reported during negotiation of the subcontract exceeds \$250.

**I.146 970.5227-10 PATENT RIGHTS - MANAGEMENT AND OPERATING
CONTRACTS, NONPROFIT ORGANIZATION OR SMALL BUSINESS FIRM
CONTRACTOR. (AUG 2002) (DEVIATION)**

(a) Definitions.

- (1) DOE licensing regulations means the Department of Energy patent licensing regulations at 10 CFR Part 781.
- (2) *(Deviation)* Exceptional circumstance subject invention means any subject invention in a technical field or related to a task determined by the Department of Energy to be subject to an exceptional circumstance under 35 U.S.C. 202(a)(ii) and in accordance with 37 CFR 401.3(e). *For purposes of this contract, this definition does not include Inorganic Membrane Technology Subject Inventions which are the subject of a Class Waiver to the Contractor.*
- (3) Invention means any invention or discovery which is or may be patentable or otherwise protectable under Title 35 of the United States Code, or any novel variety of plant which is or may be protected under the Plant Variety Protection Act (7 U.S.C. 2321 et seq.).
- (4) Made when used in relation to any invention means the conception or first actual reduction to practice of such invention.
- (5) Nonprofit organization means a university or other institution of higher education or an organization of the type described in section 501(c)(3) of the Internal Revenue Code of 1954 (26 U.S.C. 501(c)) and exempt from taxation under section 501(a) of the Internal Revenue Code (26 U.S.C. 501(a)) or any nonprofit scientific or educational organization qualified under a state nonprofit organization statute.
- (6) Patent Counsel means the Department of Energy (DOE) Patent Counsel assisting the DOE contracting activity.
- (7) Practical application means to manufacture, in the case of a composition or product; to practice, in the case of a process or method; or to operate, in the case of a machine or system; and, in each case, under such conditions as to establish that the invention is being utilized and that its benefits are, to the extent permitted by law or Government regulations, available to the public on reasonable terms.
- (8) Small business firm means a small business concern as defined at section 2 of Pub. L. 85-536 (15 U.S.C. 632) and implementing regulations of the Administrator of the Small Business Administration. For the purpose of this clause, the size standards for small business concerns involved in Government procurement and subcontracting at 13 CFR 121.3-8 and 13 CFR 121.3-12, respectively, are used.

- (9) Subject Invention means any invention of the contractor conceived or first actually reduced to practice in the performance of work under this contract, provided that in the case of a variety of plant, the date of determination (as defined in section 41(d) of the Plant Variety Protection Act, 7 U.S.C. 2401(d)) shall also occur during the period of contract performance.
- (b) Allocation of Principal Rights.
- (1) (*Deviation*) Retention of title by the Contractor. Except for exceptional circumstance subject inventions, the contractor may retain the entire right, title, and interest throughout the world to each subject invention subject to the provisions of this clause and 35 U.S.C. 203. With respect to any subject invention in which the Contractor retains title, the Federal government shall have a nonexclusive, nontransferable, irrevocable, paid-up license to practice or have practiced for or on behalf of the United States the subject invention throughout the world. *Additionally, with respect to Inorganic Membrane Subject Inventions, the Federal Government shall have an irrevocable, paid-up exclusive license in the field of use of uranium enrichment with the exclusive right to grant sublicenses in that field of use.*
- (2) Exceptional circumstance subject inventions. Except to the extent that rights are retained by the Contractor in a determination of exceptional circumstances or granted to a contractor through a determination of greater rights in accordance with subparagraph (b)(4) of this clause, the Contractor does not have a right to retain title to any exceptional circumstance subject inventions and agrees to assign to the Government the entire right, title, and interest, throughout the world, in and to any exceptional circumstance subject inventions.
- (i) Inventions within or relating to the following fields of technology are exceptional circumstance subject inventions:
- (A) uranium enrichment technology;
 - (B) storage and disposal of civilian high-level nuclear waste and spent fuel technology; and
 - (C) national security technologies classified or sensitive under Section 148 of the Atomic Energy Act (42 U.S.C. 2168).
- (ii) Inventions made under any agreement, contract or subcontract related to the following are exceptional circumstance subject inventions:
- (A) DOE Steel Initiative and Metals Initiative;

- (B) U.S. Advanced Battery Consortium; and
 - (C) any funding agreement which is funded in part by the Electric Power Research Institute (EPRI) or the Gas Research Institute (GRI); *and*
 - (D) *(Deviation) Solid State Energy Conversion Alliance (SECA) if the Contractor is a participant in the “Core Technology Program.”*
 - (E) *(Deviation) Solid State Lighting (SSL) Program if the Contractor is a participant in the “Core Technology Program.”*
- (iii) DOE reserves the right to unilaterally amend this contract to modify, by deletion or insertion, technical fields, tasks, or other classifications for the purpose of determining DOE exceptional circumstance subject inventions.
- (3) Treaties and international agreements. Any rights acquired by the Contractor in subject inventions are subject to any disposition of right, title, or interest in or to subject inventions provided for in treaties or international agreements identified at Appendix [insert reference] to this contract. DOE reserves the right to unilaterally amend this contract to identify specific treaties or international agreements entered into or to be entered into by the Government after the effective date of this contract and to effectuate those license or other rights which are necessary for the Government to meet its obligations to foreign governments, their nationals and international organizations [*81060] under such treaties or international agreements with respect to subject inventions made after the date of the amendment.
- (4) Contractor request for greater rights in exceptional circumstance subject inventions. The Contractor may request rights greater than allowed by the exceptional circumstance determination in an exceptional circumstance subject invention by submitting such a request in writing to Patent Counsel at the time the exceptional circumstance subject invention is disclosed to DOE or within eight (8) months after conception or first actual reduction to practice of the exceptional circumstance subject invention, whichever occurs first, unless a longer period is authorized in writing by the Patent Counsel for good cause shown in writing by the Contractor. DOE may, in its discretion, grant or refuse to grant such a request by the Contractor.
- (5) Contractor employee-inventor rights. If the Contractor does not elect to retain title to a subject invention or does not request greater rights in an exceptional circumstance subject invention, a Contractor employee-inventor, after consultation with the Contractor and with written authorization from the Contractor in accordance with 10 CFR 784.9(b)(4), may request greater rights,

including title, in the subject invention or the exceptional circumstance invention from DOE, and DOE may, in its discretion, grant or refuse to grant such a request by the Contractor employee-inventor.

- (6) (*Deviation*) Government assignment of rights in Government employees' subject inventions. If a Government employee is a joint inventor of a subject invention or of an exceptional circumstance subject invention to which the Contractor has rights, the Government may assign or refuse to assign to the Contractor any rights in the subject invention or exceptional circumstance subject invention acquired by the Government from the Government employee, in accordance with 48 CFR 27.304-1(d). The rights assigned to the Contractor are subject to any provision of this clause that is applicable to subject inventions in which the Contractor retains title, including reservation by the Government of a nonexclusive, nontransferable, irrevocable, paid-up license, except that the Contractor shall file its initial patent application claiming the subject invention or exceptional circumstance invention within one (1) year after the assignment of such rights. The Contractor shall share royalties collected for the manufacture, use or sale of the subject invention with the Government employee, *as DOE deems appropriate*.
- (c) Subject Invention Disclosure, Election of Title and Filing of Patent Application by Contractor.
 - (1) Subject invention disclosure. The contractor will disclose each subject invention to the Patent Counsel within two months after the inventor discloses it in writing to contractor personnel responsible for patent matters. The disclosure to the agency shall be in the form of a written report and shall identify the contract under which the invention was made and the inventor(s) and all sources of funding by B&R code for the invention. It shall be sufficiently complete in technical detail to convey a clear understanding to the extent known at the time of the disclosure, of the nature, purpose, operation, and the physical, chemical, biological or electrical characteristics of the invention. The disclosure shall also identify any publication, on sale or public use of the invention and whether a manuscript describing the invention has been submitted for publication and, if so, whether it has been accepted for publication at the time of disclosure. The disclosure shall include a written statement as to whether the invention falls within an exceptional circumstance field. DOE will make a determination and advise the Contractor within 30 days of receipt of an invention disclosure as to whether the invention is an exceptional circumstance subject invention. In addition, after disclosure to the Patent Counsel, the Contractor will promptly notify the agency of the acceptance of any manuscript describing the invention for publication or of any on sale or public use planned by the contractor. The Contractor shall obtain approval from Patent Counsel prior to any release or publication of information concerning any nonelectable subject invention such as an

exceptional circumstance subject invention or any subject invention related to a treaty or international agreement.

- (2) Election by the Contractor. Except as provided in paragraph (b)(2) of this clause, the Contractor will elect in writing whether or not to retain title to any such invention by notifying the Federal agency within two years of disclosure to the Federal agency. However, in any case where publication, on sale or public use has initiated the one year statutory period wherein valid patent protection can still be obtained in the United States, the period for election of title may be shortened by the agency to a date that is no more than 60 days prior to the end of the statutory period.
 - (3) Filing of patent applications by the Contractor. The Contractor will file its initial patent application on a subject invention to which it elects to retain title within one year after election of title or, if earlier, or prior to the end of any 1-year statutory period wherein valid patent protection can be obtained in the United States after a publication, on sale, or public use. The Contractor will file patent applications in additional countries or international patent offices within either ten months of the corresponding initial patent application or six months from the date permission is granted by the Commissioner of Patents and Trademarks to file foreign patent applications where such filing has been prohibited by a Secrecy Order.
 - (4) Contractor's request for an extension of time. Requests for an extension of the time for disclosure, election, and filing under subparagraphs (c)(1), (2) and (3) may, at the discretion of Patent Counsel, be granted.
 - (5) (*DEVIATION*) Publication Approval. During the course of the work under this contract, the Contractor or its employees may desire to release or publish information regarding scientific or technical developments conceived or first actually reduced to practice in the course of or under this contract. In order that public disclosure of such information will not adversely affect the patent interest of DOE or the Contractor, approval for release or publication shall be secured from the Contractor personnel *designated to review such information* prior to any such release or publication. Where DOE's approval of publication is requested, DOE's response to such requests for approval shall normally be provided within 90 days except in circumstances in which a domestic patent application must be filed in order to protect foreign rights. In the case involving foreign patent rights, DOE shall be granted an additional 180 days with which to respond to the request for approval, unless extended by mutual agreement.
- (d) Conditions When the Government May Obtain Title.

The Contractor will convey to the DOE, upon written request, title to any subject invention-

- (1) If the Contractor fails to disclose or elect title to the subject invention within the times specified in paragraph (c) of this clause, or elects not to retain title; provided, that DOE may only request title within sixty (60) days after learning of the failure of the Contractor to disclose or to elect within the specified times.
 - (2) In those countries in which the Contractor fails to file a patent application within the times specified in subparagraph (c) of this clause; provided, however, that if the Contractor has filed a patent application in a country after the times specified in subparagraph (c) above, but prior to its receipt of the written request of the DOE, the Contractor shall continue to retain title in that country.
 - (3) In any country in which the Contractor decides not to continue the prosecution of any application for, to pay the maintenance fees on, or defend in a reexamination or opposition proceeding on, a patent on a subject invention.
 - (4) If the Contractor requests that DOE acquire title or rights from the Contractor in a subject invention to which the Contractor had initially retained title or rights, or in an exceptional circumstance subject invention to which the Contractor was granted greater rights, DOE may acquire such title or rights from the Contractor, or DOE may decide against acquiring such title or rights from the Contractor, at DOE's sole discretion.
- (e) Minimum Rights of the Contractor and Protection of the Contractor's Right to File.
- (1) (*DEVIATION*) Request for a Contractor license. The Contractor may request the right to reserve a revocable, nonexclusive, royalty-free license throughout the world in each subject invention to which the Government obtains title, except if the Contractor fails to disclose the invention within the times specified in paragraph (c) of this clause. DOE may grant or refuse to grant such a request by the Contractor. When DOE approves such reservation, the Contractor's license will normally extend to its domestic subsidiaries, affiliates, *and members*, if any, within the corporate structure of which the Contractor is a party and includes the right to grant sublicenses of the same scope to the extent the Contractor was legally obligated to do so at the time the contract was awarded. The license is transferable only with the approval of DOE except when transferred to the successor of that part of the contractor's business to which the invention pertains.
 - (2) Revocation or modification of a Contractor license. The Contractor's domestic license may be revoked or modified by DOE to the extent necessary to

achieve expeditious practical application of the subject invention pursuant to an application for an exclusive license submitted in accordance with applicable provisions at 37 CFR Part 404 and DOE licensing regulations at 10 CFR Part 781. This license will not be revoked in the field of use or the geographical areas in which the Contractor has achieved practical application and continues to make the benefits of the subject invention reasonably accessible to the public. The license in any foreign country may be revoked or modified at the discretion of DOE to the extent the Contractor, its licensees, or the domestic subsidiaries or affiliates have failed to achieve practical application of the subject invention in that foreign country.

- (3) Notice of revocation or modification of a Contractor license. Before revocation or modification of the license, DOE will furnish the Contractor a written notice of its intention to revoke or modify the license, and the Contractor will be allowed thirty days (or such other time as may be authorized by DOE for good cause shown by the Contractor) after the notice to show cause why the license should not be revoked or modified. The Contractor has the right to appeal, in accordance with applicable regulations in 37 CFR part 404 and DOE licensing regulations at 10 CFR part 781 concerning the licensing of Government owned inventions, any decision concerning the revocation or modification of the license.

(f) Contractor Action to Protect the Government's Interest.

- (1) Execution of delivery of title or license instruments. The Contractor agrees to execute or to have executed, and promptly deliver to the Patent Counsel all instruments necessary to accomplish the following actions:
 - (i) establish or confirm the rights the Government has throughout the world in those subject inventions to which the Contractor elects to retain title, and
 - (ii) convey title to DOE when requested under subparagraphs (b) or paragraph (d) of this clause and to enable the Government to obtain patent protection throughout the world in that subject invention.
- (2) Contractor employee agreements. The Contractor agrees to require, by written agreement, its employees, other than clerical and nontechnical employees, to disclose promptly in writing to Contractor personnel identified as responsible for the administration of patent matters and in a format suggested by the Contractor, each subject invention made under this contract in order that the Contractor can comply with the disclosure provisions of paragraph (c) of this clause, and to execute all papers necessary to file patent applications on subject inventions and to establish the Government's rights in the subject inventions. This disclosure format should require, as a minimum, the

information required by subparagraph (c)(1) of this clause. The Contractor shall instruct such employees, through employee agreements or other suitable educational programs, on the importance of reporting inventions in sufficient time to permit the filing of patent applications prior to U.S. or foreign statutory bars.

- (3) Notification of discontinuation of patent protection. The contractor will notify the Patent Counsel of any decision not to continue the prosecution of a patent application, pay maintenance fees, or defend in a reexamination or opposition proceeding on a patent, in any country, not less than thirty days before the expiration of the response period required by the relevant patent office.
- (4) Notification of Government rights. The contractor agrees to include, within the specification of any United States patent applications and any patent issuing thereon covering a subject invention, the following statement, "This invention was made with government support under (identify the contract) awarded by (identify the Federal agency). The government has certain rights in the invention."
- (5) Invention Identification Procedures. The Contractor shall establish and maintain active and effective procedures to ensure that subject inventions are promptly identified and timely disclosed and shall submit a written description of such procedures to the Contracting Officer so that the Contracting Officer may evaluate and determine their effectiveness.
- (6) Invention Filing Documentation. If the Contractor files a domestic or foreign patent application claiming a subject invention, the Contractor shall promptly submit to Patent Counsel, upon request, the following information and documents:
 - (i) the filing date, serial number, title, and a copy of the patent application (including an English-language version if filed in a language other than English);
 - (ii) an executed and approved instrument fully confirmatory of all Government rights in the subject invention; and
 - (iii) the patent number, issue date, and a copy of any issued patent claiming the subject invention.
- (7) Duplication and disclosure of documents. The Government may duplicate and disclose subject invention disclosures and all other reports and papers furnished or required to be furnished pursuant to this clause; provided, however, that any such duplication or disclosure by the Government is subject to the confidentiality provision at 35 U.S.C. 205 and 37 CFR Part 40.

(g) Subcontracts.

- (1) Subcontractor subject inventions. The Contractor shall not obtain rights in the subcontractor's subject inventions as part of the consideration for awarding a subcontract.
- (2) Inclusion of patent rights clause-non-profit organization or small business firm subcontractors. Unless otherwise authorized or directed by the Contracting Officer, the Contractor shall include the patent rights clause at 48 CFR 952.227-11, suitably modified to identify the parties, in all subcontracts, at any tier, for experimental, developmental, demonstration or research work to be performed by a small business firm or domestic nonprofit organization, except subcontracts which are subject to exceptional circumstances in accordance with 35 U.S.C. 202 and subparagraph (b)(2) of this clause. The subcontractor retains all rights provided for the contractor in the patent rights clause at 48 CFR 952.227-11.
- (3) Inclusion of patent rights clause-subcontractors other than non-profit organizations and small business firms. Except for the subcontracts described in subparagraph (g)(2) of this clause, the Contractor shall include the patent rights clause at 48 CFR 952.227-13, suitably modified to identify the parties, in any contract for experimental, developmental, demonstration or research work. For subcontracts subject to exceptional circumstances, the contractor must consult with DOE patent counsel with respect to the appropriate patent clause.
- (4) DOE and subcontractor contract. With respect to subcontracts at any tier, DOE, the subcontractor, and the Contractor agree that the mutual obligations of the parties created by this clause constitute a contract between the subcontractor and DOE with respect to the matters covered by the clause; provided, however, that nothing in this paragraph is intended to confer any jurisdiction under the Contract Disputes Act in connection with proceedings under paragraph (j) of this clause.
- (5) Subcontractor refusal to accept terms of patent clause. If a prospective subcontractor refuses to accept the terms of a patent rights clause, the Contractor shall promptly submit a written notice to the Contracting Officer stating the subcontractor's reasons for such a refusal, including any relevant information for expediting disposition of the matter, and the Contractor shall not proceed with the subcontract without the written authorization of the Contracting Officer.
- (6) Notification of award of subcontract. Upon the award of any subcontract at any tier containing a patent rights clause, the Contractor shall promptly notify

the Contracting Officer in writing and identify the subcontractor, the applicable patent rights clause, the work to be performed under the subcontract, and the dates of award and estimated completion. Upon request of the Contracting Officer, the Contractor shall furnish a copy of a subcontract.

- (7) Identification of subcontractor subject inventions. If the Contractor in the performance of this contract becomes aware of a subject invention made under a subcontract, the Contractor shall promptly notify Patent Counsel and identify the subject invention.
- (h) Reporting on Utilization of Subject Inventions. The Contractor agrees to submit to DOE on request, periodic reports, no more frequently than annually, on the utilization of a subject invention or on efforts at obtaining such utilization that are being made by the Contractor or its licensees or assignees. Such reports shall include information regarding the status of development, date of first commercial sale or use, gross royalties received by the Contractor, and such other data and information as DOE may reasonably specify. The Contractor also agrees to provide additional reports as may be requested by DOE in connection with any march-in proceeding undertaken by DOE in accordance with paragraph (j) of this clause. As required by 35 U.S.C. 202(c)(5), DOE agrees it will not disclose such information to persons outside the Government without permission of the Contractor.
- (i) Preference for United States Industry. Notwithstanding any other provision of this clause, the Contractor agrees that neither it nor any assignee will grant to any person the exclusive right to use or sell any subject invention in the United States unless such person agrees that any product embodying the subject invention or produced through the use of the subject invention will be manufactured substantially in the United States. However, in individual cases, the requirement for such an agreement may be waived by DOE upon a showing by the Contractor or its assignee that reasonable but unsuccessful efforts have been made to grant licenses on similar terms to potential licensees that would be likely to manufacture substantially in the United States or that under the circumstances domestic manufacture is not commercially feasible.
- (j) March-in Rights. The Contractor agrees that, with respect to any subject invention in which it has acquired title, DOE has the right in accordance with the procedures in 37 CFR 401.6 and any DOE supplemental regulations to require the Contractor, an assignee or exclusive licensee of a subject invention to grant a nonexclusive, partially exclusive, or exclusive license in any field of use to a responsible applicant or applicants, upon terms that are reasonable under the circumstances, and, if the Contractor, assignee or exclusive licensee refuses such a request, DOE has the right to grant such a license itself if DOE determines that-

- (1) Such action is necessary because the Contractor or assignee has not taken, or is not expected to take within a reasonable time, effective steps to achieve practical application of the subject invention in such field of use;
 - (2) Such action is necessary to alleviate health or safety needs which are not reasonably satisfied by the Contractor, assignee, or their licensees;
 - (3) Such action is necessary to meet requirements for public use specified by Federal regulations and such requirements are not reasonably satisfied by the Contractor, assignee, or licensees; or
 - (4) Such action is necessary because the agreement required by paragraph (i) of this clause has not been obtained or waived, or because a licensee of the exclusive right to use or sell any subject invention in the United States is in breach of such agreement.
- (k) Special Provisions for Contracts With Nonprofit Organizations. If the Contractor is a nonprofit organization, it agrees that-
- (1) DOE approval of assignment of rights. Rights to a subject invention in the United States may not be assigned by the Contractor without the approval of DOE, except where such assignment is made to an organization which has as one of its primary functions the management of inventions; provided, that such assignee will be subject to the same provisions of this clause as the Contractor.
 - (2) Small business firm licensees. It will make efforts that are reasonable under the circumstances to attract licensees of subject inventions that are small business firms, and that it will give a preference to a small business firm when licensing a subject invention if the Contractor determines that the small business firm has a plan or proposal for marketing the invention which, if executed, is equally as likely to bring the invention to practical application as any plans or proposals from applicants that are not small business firms; provided, that the Contractor is also satisfied that the small business firm has the capability and resources to carry out its plan or proposal. The decision whether to give a preference in any specific case will be at the discretion of the Contractor. However, the Contractor agrees that the Secretary of Commerce may review the Contractor's licensing program and decisions regarding small business firm applicants, and the Contractor will negotiate changes to its licensing policies, procedures, or practices with the Secretary of Commerce when that Secretary's review discloses that the Contractor could take reasonable steps to more effectively implement the requirements of this subparagraph (k)(2).

- (3) Contractor licensing of subject inventions. To the extent that it provides the most effective technology transfer, licensing of subject inventions shall be administered by Contractor employees on location at the facility.
- (l) Communications. The Contractor shall direct any notification, disclosure or request provided for in this clause to the Patent Counsel assisting the DOE contracting activity.
 - (m) Reports.
 - (1) Interim reports. Upon DOE's request, the Contractor shall submit to DOE, no more frequently than annually, a list of subject inventions disclosed to DOE during a specified period, or a statement that no subject inventions were made during the specified period; and a list of subcontracts containing a patent clause and awarded by the Contractor during a specified period, or a statement that no such subcontracts were awarded during the specified period.
 - (2) Final reports. Upon DOE's request, the Contractor shall submit to DOE, prior to closeout of the contract, a list of all subject inventions disclosed during the performance period of the contract, or a statement that no subject inventions were made during the contract performance period; and a list of all subcontracts containing a patent clause and awarded by the Contractor during the contract performance period, or a statement that no such subcontracts were awarded during the contract performance period.
 - (n) Examination of Records Relating to Subject Inventions.
 - (1) Contractor compliance. Until the expiration of three (3) years after final payment under this contract, the Contracting Officer or any authorized representative may examine any books (including laboratory notebooks), records, documents, and other supporting data of the Contractor, which the Contracting Officer or authorized representative deems reasonably pertinent to the discovery or identification of subject inventions, including exceptional circumstance subject inventions, or to determine Contractor compliance with any requirement of this clause.
 - (2) Unreported inventions. If the Contracting Officer is aware of an invention that is not disclosed by the Contractor to DOE, and the Contracting Officer believes the unreported invention may be a subject invention, including exceptional circumstance subject inventions, DOE may require the Contractor to submit to DOE a disclosure of the invention for a determination of ownership rights.

- (3) Confidentiality. Any examination of records under this paragraph is subject to appropriate conditions to protect the confidentiality of the information involved.
 - (4) Power of inspection. With respect to a subject invention for which the Contractor has responsibility for patent prosecution, the Contractor shall furnish the Government, upon request by DOE, an irrevocable power to inspect and make copies of a prosecution file for any patent application claiming the subject invention.
- (o) Facilities License. In addition to the rights of the parties with respect to inventions or discoveries conceived or first actually reduced to practice in the course of or under this contract, the Contractor agrees to and does hereby grant to the Government an irrevocable, nonexclusive, paid-up license in and to any inventions or discoveries regardless of when conceived or actually reduced to practice or acquired by the Contractor at any time through completion of this contract and which are incorporated or embodied in the construction of the facility or which are utilized in the operation of the facility or which cover articles, materials, or product manufactured at the facility (1) to practice or have practiced by or for the Government at the facility, and (2) to transfer such license with the transfer of that facility. Notwithstanding the acceptance or exercise by the Government of these rights, the Government may contest at any time the enforceability, validity or scope of, or title to, any rights or patents herein licensed.
- (p) Atomic Energy.
- (1) Pecuniary awards. No claim for pecuniary award of compensation under the provisions of the Atomic Energy Act of 1954, as amended, may be asserted with respect to any invention or discovery made or conceived in the course of or under this contract.
 - (2) Patent agreements. Except as otherwise authorized in writing by the Contracting Officer, the Contractor shall obtain patent agreements to effectuate the provisions of subparagraph (p)(1) of this clause from all persons who perform any part of the work under this contract, except nontechnical personnel, such as clerical employees and manual laborers.
- (q) Classified Inventions.
- (1) Approval for filing a foreign patent application. The Contractor shall not file or cause to be filed an application or registration for a patent disclosing a subject invention related to classified subject matter in any country other than the United States without first obtaining the written approval of the Contracting Officer.

- (2) Transmission of classified subject matter. If in accordance with this clause the Contractor files a patent application in the United States disclosing a subject invention that is classified for reasons of security, the Contractor shall observe all applicable security regulations covering the transmission of classified subject matter. If the Contractor transmits a patent application disclosing a classified subject invention to the United States Patent and Trademark Office (USPTO), the Contractor shall submit a separate letter to the USPTO identifying the contract or contracts by agency and agreement number that require security classification markings to be placed on the patent application.
- (3) Inclusion of clause in subcontracts. The Contractor agrees to include the substance of this clause in subcontracts at any tier that cover or are likely to cover subject matter classified for reasons of security.
- (r) Patent Functions. Upon the written request of the Contracting Officer or Patent Counsel, the Contractor agrees to make reasonable efforts to support DOE in accomplishing patent-related functions for work arising out of the contract, including, but not limited to, the prosecution of patent applications, and the determination of questions of novelty, patentability, and inventorship.
- (s) Educational Awards Subject to 35 U.S.C. 212. The Contractor shall notify the Contracting Officer prior to the placement of any person subject to 35 U.S.C. 212 in an area of technology or task (1) related to exceptional circumstance technology or (2) which is subject to treaties or international agreements as set forth in paragraph (b)(3) of this clause or agreements other than funding agreements. The Contracting Officer may disapprove of any such placement.
- (t) Annual Appraisal by Patent Counsel. Patent Counsel may conduct an annual appraisal to evaluate the Contractor's effectiveness in identifying and protecting subject inventions in accordance with DOE policy.

**I.147 970.5228-1 INSURANCE-LITIGATION AND CLAIMS. (AUG 2009)
(DEVIATION)**

- (a) The Contractor may, with the prior written authorization of the Contracting Officer, and shall, upon the request of the Government, initiate litigation against third parties, including proceedings before administrative agencies, in connection with this contract. The Contractor shall proceed with such litigation in good faith and as directed from time to time by the Contracting Officer.
- (b) The Contractor shall give the Contracting Officer immediate notice in writing of any legal proceeding, including any proceeding before an administrative agency, filed against the Contractor arising out of the performance of this contract. Except as otherwise directed by the Contracting Officer, in writing, the Contractor shall

furnish immediately to the Contracting Officer copies of all pertinent papers received by the Contractor with respect to such action. The Contractor, with the prior written authorization of the Contracting Officer, shall proceed with such litigation in good faith and as directed from time to time by the Contracting Officer.

- (c)
 - (1) Except as provided in paragraph (c)(2) of this clause, the Contractor shall procure and maintain such bonds and insurance as required by law or approved in writing by the Contracting Officer.
 - (2) The Contractor may, with the approval of the Contracting Officer, maintain a self-insurance program; provided that, with respect to workers' compensation, the Contractor is qualified pursuant to statutory authority.
 - (3) All bonds and insurance required by this clause shall be in a form and amount and for those periods as the Contracting Officer may require or approve and with sureties and insurers approved by the Contracting Officer.
 - (d) The Contractor agrees to submit for the contracting officer's approval, to the extent and in the manner required by the Contracting Officer, any other bonds and insurance that are maintained by the Contractor in connection with the performance of this contract and for which the Contractor seeks reimbursement. If an insurance cost (whether a premium for commercial insurance or related to self-insurance) includes a portion covering costs made unallowable elsewhere in the contract, and the share of the cost for coverage for the unallowable cost is determinable, the portion of the cost that is otherwise an allowable cost under this contract is reimbursable to the extent determined by the Contracting Officer.
 - (e) Except as provided in subparagraphs (g) and (h) of this clause, or specifically disallowed elsewhere in this contract, the Contractor shall be reimbursed-
 - (1) For that portion of the reasonable cost of bonds and insurance allocable to this contract required in accordance with contract terms or approved under this clause; and
 - (2) For liabilities (and reasonable expenses incidental to such liabilities, including litigation costs) to third persons not compensated by insurance or otherwise without regard to and as an exception to the clause of this contract entitled "Obligation of Funds."
- [67 FR 14871, Mar. 28, 2002]
- (f) The Government's liability under paragraph (e) of this clause is subject to the availability of appropriated funds. Nothing in this contract shall be construed as implying that the Congress will, at a later date, appropriate funds sufficient to meet deficiencies.

- (g) Notwithstanding any other provision of this contract, the Contractor shall not be reimbursed for liabilities (and expenses incidental to such liabilities, including litigation costs, counsel fees, judgment and settlements)—
- (1) Which are otherwise unallowable by law or the provisions of this contract; or
 - (2) For which the Contractor has failed to insure or to maintain insurance as required by law, this contract, or by the written direction of the Contracting Officer.
- (h) In addition to the cost reimbursement limitations contained in 48 CFR Part 31, as supplemented by 48 CFR 970.31, and notwithstanding any other provision of this contract, the Contractor's liabilities to third persons, including employees but excluding costs incidental to worker's compensation actions, (and any expenses incidental to such liabilities, including litigation costs, counsel fees, judgments and settlements) shall not be reimbursed if such liabilities were caused by Contractor managerial personnel's—

[67 FR 14871, Mar. 28, 2002]

- (1) Willful misconduct;
 - (2) Lack of good faith; or
 - (3) Failure to exercise prudent business judgment, which means failure to act in the same manner as a prudent person in the conduct of competitive business; or, in the case of a non-profit educational institution, failure to act in the manner that a prudent person would under the circumstances prevailing at the time the decision to incur the cost is made.
- (i) The burden of proof shall be upon the Contractor to establish that costs covered by paragraph (h) of this clause are allowable and reasonable if, after an initial review of the facts, the Contracting Officer challenges a specific cost or informs the Contractor that there is reason to believe that the cost results from willful misconduct, lack of good faith, or failure to exercise prudent business judgment by contractor managerial personnel.
- (j) (1) All litigation costs, including counsel fees, judgments and settlements shall be differentiated and accounted for by the Contractor so as to be separately identifiable. If the Contracting Officer provisionally disallows such costs, then the Contractor may not use funds advanced by DOE under the contract to finance the litigation.

- (2) Punitive damages are not allowable unless the act or failure to act which gave rise to the liability resulted from compliance with specific terms and conditions of the contract or written instructions from the Contracting Officer.
- (3) The portion of the cost of insurance obtained by the Contractor that is allocable to coverage of liabilities referred to in paragraph (g)(1) of this clause is not allowable.
- (4) (*Deviation*) The term "contractor's managerial personnel" is defined in the *property clause in the contract*.

[67 FR 14871, Mar. 28, 2002]

- (k) The Contractor may at its own expense and not as an allowable cost procure for its own protection insurance to compensate the Contractor for any unallowable or non-reimbursable costs incurred in connection with contract performance.
- (l) If any suit or action is filed or any claim is made against the Contractor, the cost and expense of which may be reimbursable to the Contractor under this contract, and the risk of which is then uninsured or is insured for less than the amount claimed, the Contractor shall—
 - (1) Immediately notify the Contracting Officer and promptly furnish copies of all pertinent papers received;
 - (2) Authorize Department representatives to collaborate with: in-house or DOE-approved outside counsel in settling or defending the claim; or counsel for the insurance carrier in settling or defending the claim if the amount of the liability claimed exceeds the amount of coverage, unless precluded by the terms of the insurance contract; and
 - (3) Authorize Department representatives to settle the claim or to defend or represent the Contractor in and/or to take charge of any litigation, if required by the Department, if the liability is not insured or covered by bond. In any action against more than one Department Contractor, the Department may require the Contractor to be represented by common counsel. Counsel for the Contractor may, at the Contractor's own expense, be associated with the Department representatives in any such claim or litigation.

I.148 970.5229-1 STATE AND LOCAL TAXES. (DEC 2000)

- (a) The contractor agrees to notify the contracting officer of any State or local tax, fee, or charge levied or purported to be levied on or collected from the contractor with respect to the contract work, any transaction thereunder, or property in the custody

or control of the contractor and constituting an allowable item of cost if due and payable, but which the contractor has reason to believe, or the contracting officer has advised the contractor, is or may be inapplicable or invalid; and the contractor further agrees to refrain from paying any such tax, fee, or charge unless authorized in writing by the contracting officer. Any State or local tax, fee, or charge paid with the approval of the contracting officer or on the basis of advice from the contracting officer that such tax, fee, or charge is applicable and valid, and which would otherwise be an allowable item of cost, shall not be disallowed as an item of cost by reason of any subsequent ruling or determination that such tax, fee, or charge was in fact inapplicable or invalid.

- (b) The contractor agrees to take such action as may be required or approved by the contracting officer to cause any State or local tax, fee, or charge which would be an allowable cost to be paid under protest; and to take such action as may be required or approved by the contracting officer to seek recovery of any payments made, including assignment to the Government or its designee of all rights to an abatement or refund thereof, and granting permission for the Government to join with the contractor in any proceedings for the recovery thereof or to sue for recovery in the name of the contractor. If the contracting officer directs the contractor to institute litigation to enjoin the collection of or to recover payment of any such tax, fee, or charge referred to above, or if a claim or suit is filed against the contractor for a tax, fee, or charge it has refrained from paying in accordance with this clause, the procedures and requirements of the clause entitled "Insurance-Litigation and Claims" shall apply and the costs and expenses incurred by the contractor shall be allowable items of costs, as provided in this contract, together with the amount of any judgment rendered against the contractor.
- (c) The Government shall hold the contractor harmless from penalties and interest incurred through compliance with this clause. All recoveries or credits in respect of the foregoing taxes, fees, and charges (including interest) shall inure to and be for the sole benefit of the Government.

I.149 970.5231-4 PREEXISTING CONDITIONS. (DEC 2000) - ALTERNATE I (DEC 2000)

- (a) The Department of Energy agrees to reimburse the contractor, and the contractor shall not be held responsible, for any liability (including without limitation, a claim involving strict or absolute liability and any civil fine or penalty), expense, or remediation cost, but limited to those of a civil nature, which may be incurred by, imposed on, or asserted against the contractor arising out of any condition, act, or failure to act which occurred before the contractor assumed responsibility on April 1, 2000. To the extent the acts or omissions of the contractor cause or add to any liability, expense or remediation cost resulting from conditions in existence prior to

April 1, 2000, the contractor shall be responsible in accordance with the terms and conditions of this contract.

- (b) The obligations of the Department of Energy under this clause are subject to the availability of appropriated funds.

I.150 970.5232-1 REDUCTION OR SUSPENSION OF ADVANCE, PARTIAL, OR PROGRESS PAYMENTS (DEC 2000)

- (a) The contracting officer may reduce or suspend further advance, partial, or progress payments to the contractor upon a written determination by the Senior Procurement Executive that substantial evidence exists that the contractor's request for advance, partial, or progress payment is based on fraud.
- (b) The contractor shall be afforded a reasonable opportunity to respond in writing.

I.151 970.5232-2 PAYMENTS AND ADVANCES (DEC 2000)-ALTERNATE II AND ALTERNATE III (DEC 2000) (DEVIATION)

- (a) *(Deviation)* Payment of Total available fee: Base Fee and Performance Fee. The base fee amount, if any, is payable in equal monthly installments. Total available fee amount earned is payable following the Government's Determination of Total Available Fee Amount Earned in accordance with the clause of this contract entitled "Total Available Fee: Base Fee Amount and Performance Fee Amount." Base fee amount and total available fee amount earned payments shall be made by direct payment or withdrawn from funds advanced or available under this contract, as determined by the contracting officer. The contracting officer may offset against any such fee payment the amounts owed to the Government by the contractor, including any amounts owed for disallowed costs under this contract. No base fee amount or total available fee amount earned payment may be withdrawn against the payments cleared financing arrangement without the prior written approval of the contracting officer. *Notwithstanding the above, the Contractor is authorized to provisionally withdraw, on the last working day of each month, against the payments cleared financing arrangement, one-twelfth (1/12) of eighty percent (80%) of the ninety (90) percent annual available fee amount. Following the Government's Determination of Total Available Fee Amount Earned, the Contractor is authorized to withdraw within fifteen (15) days any amount of earned fee over the amount previously paid on a provisional basis from the payments cleared financing arrangement. In the event the Government's Determination of Total Available Fee Amount Earned results in an overpayment to the Contractor, such overpayment shall be redeposited to the payments cleared financing arrangement within fifteen (15) days, or otherwise used as directed by the Contracting Officer.*

- (b) Payments on Account of Allowable Costs. The contracting officer and the contractor shall agree as to the extent to which payment for allowable costs or payments for other items specifically approved in writing by the contracting officer (for example, negotiated fixed amounts) shall be made from advances of Government funds. When pension contributions are paid by the contractor to the retirement fund less frequently than quarterly, accrued costs therefor shall be excluded from costs for payment purposes until such costs are paid. If pension contribution are paid on a quarterly or more frequent basis, accrual therefor may be included in costs for payment purposes, provided that they are paid to the fund within 30 days after the close of the period covered. If payments are not made to the fund within such 30-day period, pension contribution costs shall be excluded from cost for payment purposes until payment has been made.
- (c) Special financial institution account-use. All advances of Government funds shall be withdrawn pursuant to a payments cleared financing arrangement prescribed by DOE in favor of the financial institution or, at the option of the Government, shall be made by direct payment or other payment mechanism to the contractor, and shall be deposited only in the special financial institution account referred to in the Special Financial Institution Account Agreement, which is incorporated into this contract as Appendix F. No part of the funds in the special financial institution account shall be commingled with any funds of the contractor or used for a purpose other than that of making payments for costs allowable and, if applicable, fees earned under this contract, negotiated fixed amounts, or payments for other items specifically approved in writing by the contracting officer. If the contracting officer determines that the balance of such special financial institution account exceeds the contractor's current needs, the contractor shall promptly make such disposition of the excess as the contracting officer may direct.
- (d) Title to funds advanced. Title to the unexpended balance of any funds advanced and of any special financial institution account established pursuant to this clause shall remain in the Government and be superior to any claim or lien of the financial institution of deposit or others. It is understood that an advance to the contractor hereunder is not a loan to the contractor, and will not require the payment of interest by the contractor, and that the contractor acquires no right, title or interest in or to such advance other than the right to make expenditures therefrom, as provided in this clause.
- (e) Financial settlement. The Government shall promptly pay to the contractor the unpaid balance of allowable costs (or other items specifically approved in writing by the contracting officer) and fee upon termination of the work, expiration of the term of the contract, or completion of the work and its acceptance by the Government after:
- (1) Compliance by the contractor with DOE's patent clearance requirements, and

- (2) The furnishing by the contractor of:
 - (i) An assignment of the contractor's rights to any refunds, rebates, allowances, accounts receivable, collections accruing to the contractor in connection with the work under this contract, or other credits applicable to allowable costs under the contract;
 - (ii) A closing financial statement;
 - (iii) The accounting for Government-owned property required by the clause entitled "Property"; and
 - (iv) A release discharging the Government, its officers, agents, and employees from all liabilities, obligations, and claims arising out of or under this contract subject only to the following exceptions:
 - (A) Specified claims in stated amounts or in estimated amounts where the amounts are not susceptible to exact statement by the contractor;
 - (B) Claims, together with reasonable expenses incidental thereto, based upon liabilities of the contractor to third parties arising out of the performance of this contract; provided that such claims are not known to the contractor on the date of the execution of the release; and provided further that the contractor gives notice of such claims in writing to the contracting officer promptly, but not more than one (1) year after the contractor's right of action first accrues. In addition, the contractor shall provide prompt notice to the contracting officer of all potential claims under this clause, whether in litigation or not (see also Contract Clause - , DEAR 970.5228-1, "Insurance-Litigation and Claims");
 - (C) Claims for reimbursement of costs (other than expenses of the contractor by reason of any indemnification of the Government against patent liability), including reasonable expenses incidental thereto, incurred by the contractor under the provisions of this contract relating to patents; and
 - (D) Claims recognizable under the clause entitled, Nuclear Hazards Indemnity Agreement.
- (3) In arriving at the amount due the contractor under this clause, there shall be deducted,

- (i) Any claim which the Government may have against the contractor in connection with this contract, and
 - (ii) Deductions due under the terms of this contract, and not otherwise recovered by or credited to the Government. The unliquidated balance of the special financial institution account may be applied to the amount due and any balance shall be returned to the Government forthwith.
- (f) Claims. Claims for credit against funds advanced for payment shall be accompanied by such supporting documents and justification as the contracting officer shall prescribe.
- (g) Discounts. The contractor shall take and afford the Government the advantage of all known and available cash and trade discounts, rebates, allowances, credits, salvage, and commissions unless the contracting officer finds that action is not in the best interest of the Government.
- (h) Collections. All collections accruing to the contractor in connection with the work under this contract, except for the contractor's fee and royalties or other income accruing to the contractor from technology transfer activities in accordance with this contract, shall be Government property and shall be processed and accounted for in accordance with applicable requirements imposed by the contracting officer pursuant to the Laws, regulations, and DOE directives clause of this contract and, to the extent consistent with those requirements, shall be deposited in the special financial institution account or otherwise made available for payment of allowable costs under this contract, unless otherwise directed by the contracting officer.
- (i) Direct payment of charges. The Government reserves the right, upon ten days written notice from the contracting officer to the contractor, to pay directly to the persons concerned, all amounts due which otherwise would be allowable under this contract. Any payment so made shall discharge the Government of all liability to the contractor therefor.
- (j) Determining allowable costs. The contracting officer shall determine allowable costs in accordance with the Federal Acquisition Regulation subpart 31.2 and the Department of Energy Acquisition Regulation subpart 48 CFR 970.31 in effect on the date of this contract and other provisions of this contract.
- (k) Review and approval of costs incurred. The contractor shall prepare and submit annually as of September 30, a "Statement of Costs Incurred and Claimed" (Cost Statement) for the total of net expenditures accrued (i.e., net costs incurred) for the period covered by the Cost Statement. The contractor shall certify the Cost Statement subject to the penalty provisions for unallowable costs as stated in sections 306(b) and (i) of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 256), as amended. DOE, after audit and appropriate adjustment,

will approve such Cost Statement. This approval by DOE will constitute an acknowledgment by DOE that the net costs incurred are allowable under the contract and that they have been recorded in the accounts maintained by the contractor in accordance with DOE accounting policies, but will not relieve the contractor of responsibility for DOE's assets in its care, for appropriate subsequent adjustments, or for errors later becoming known to DOE.

**I.152 970.5232-3 ACCOUNTS, RECORDS, AND INSPECTION. (AUG 2009)
(DEVIATION DOE ACQUISITION LETTER 2009-09)**

- (a) Accounts. The Contractor shall maintain a separate and distinct set of accounts, records, documents, and other evidence showing and supporting: all allowable costs incurred; collections accruing to the Contractor in connection with the work under this contract, other applicable credits, negotiated fixed amounts, and fee accruals under this contract; and the receipt, use, and disposition of all Government property coming into the possession of the Contractor under this contract. The system of accounts employed by the Contractor shall be satisfactory to DOE and in accordance with generally accepted accounting principles consistently applied.
- (b) Inspection and audit of accounts and records. All books of account and records relating to this contract shall be subject to inspection and audit by DOE or its designees in accordance with the provisions of Clause, Access to and ownership of records, at all reasonable times, before and during the period of retention provided for in paragraph (d) of this clause, and the Contractor shall afford DOE proper facilities for such inspection and audit.
- (c) Audit of subcontractors' records. The Contractor also agrees, with respect to any subcontracts (including fixed-price or unit-price subcontracts or purchase orders) where, under the terms of the subcontract, costs incurred are a factor in determining the amount payable to the subcontractor of any tier, to either conduct an audit of the subcontractor's costs or arrange for such an audit to be performed by the cognizant government audit agency through the Contracting Officer.
- (d) Disposition of records. Except as agreed upon by the Government and the Contractor, all financial and cost reports, books of account and supporting documents, system files, data bases, and other data evidencing costs allowable, collections accruing to the Contractor in connection with the work under this contract, other applicable credits, and fee accruals under this contract, shall be the property of the Government, and shall be delivered to the Government or otherwise disposed of by the Contractor either as the Contracting Officer may from time to time direct during the progress of the work or, in any event, as the Contracting Officer shall direct upon completion or termination of this contract and final audit of accounts hereunder. Except as otherwise provided in this contract, including provisions of Clause, Access to and Ownership of Records, all other records in the

possession of the Contractor relating to this contract shall be preserved by the Contractor for a period of three years after final payment under this contract or otherwise disposed of in such manner as may be agreed upon by the Government and the Contractor.

- (e) Reports. The Contractor shall furnish such progress reports and schedules, financial and cost reports, and other reports concerning the work under this contract as the Contracting Officer may from time to time require.
- (f) Inspections. The DOE shall have the right to inspect the work and activities of the Contractor under this contract at such time and in such manner as it shall deem appropriate.
- (g) Subcontracts. The Contractor further agrees to require the inclusion of provisions similar to those in paragraphs (a) through (g) and paragraph (h) of this clause in all subcontracts (including fixed-price or unit-price subcontracts or purchase orders) of any tier entered into hereunder where, under the terms of the subcontract, costs incurred are a factor in determining the amount payable to the subcontractor.
- (h) Comptroller General.
 - (1) (*Deviation*) The Comptroller General of the United States, or an authorized representative, shall have access to and the right to examine any of the contractor's directly pertinent records involving transactions related to this contract or a subcontract hereunder *and to interview any current employee regarding such transactions.*
 - (2) This paragraph may not be construed to require the Contractor or subcontractor to create or maintain any record that the Contractor or subcontractor does not maintain in the ordinary course of business or pursuant to a provision of law.
 - (3) Nothing in this contract shall be deemed to preclude an audit by the Government Accountability Office of any transaction under this contract.
- (i) Internal audit. The Contractor agrees to design and maintain an internal audit plan and an internal audit organization.
 - (1) Upon contract award, the exercise of any contract option, or the extension of the contract, the Contractor must submit to the Contracting Officer for approval an Internal Audit Implementation Design to include the overall strategy for internal audits. The Audit Implementation Design must describe—

- (i) The internal audit organization's placement within the contractor's organization and its reporting requirements;
 - (ii) The audit organization's size and the experience and educational standards of its staff;
 - (iii) The audit organization's relationship to the corporate entities of the Contractor;
 - (iv) The standards to be used in conducting the internal audits;
 - (v) The overall internal audit strategy of this contract, considering particularly the method of auditing costs incurred in the performance of the contract;
 - (vi) The intended use of external audit resources;
 - (vii) The plan for audit of subcontracts, both pre-award and post-award; and
 - (viii) The schedule for peer review of internal audits by other contractor internal audit organizations, or other independent third party audit entities approved by the DOE Contracting Officer.
- (2) By each January 31 of the contract performance period, the Contractor must submit an annual audit report, providing a summary of the audit activities undertaken during the previous fiscal year. That report shall reflect the results of the internal audits during the previous fiscal year and the actions to be taken to resolve weaknesses identified in the contractor's system of business, financial, or management controls.
- (3) By each June 30 of the contract performance period, the Contractor must submit to the Contracting Officer an annual audit plan for the activities to be undertaken by the internal audit organization during the next fiscal year that is designed to test the costs incurred and contractor management systems described in the internal audit design.
- (4) The Contracting Officer may require revisions to documents submitted under paragraphs (i)(1), (i)(2), and (i)(3) of this clause, including the design plan for the internal audits, the annual report, and the annual internal audits.
- (j) Remedies. If at any time during contract performance, the Contracting Officer determines that unallowable costs were claimed by the Contractor to the extent of making the contractor's management controls suspect, or the contractor's management systems that validate costs incurred and claimed suspect, the Contracting Officer may, in his or her sole discretion, require the Contractor to

cease using the special financial institution account in whole or with regard to specified accounts, requiring reimbursable costs to be claimed by periodic vouchering. In addition, the Contracting Officer, where he or she deems it appropriate, may: Impose a penalty under 48 CFR 970.5242-1, Penalties for Unallowable Costs; require a refund; reduce the contractor's otherwise earned fee; and take such other action as authorized in law, regulation, or this contract.

I.153 970.5232-4 OBLIGATION OF FUNDS. (DEC 2000)

- (a) Obligation of funds. The amount presently obligated by the Government with respect to this contract is \$11,060,126,200.58. Such amount may be increased unilaterally by DOE by written notice to the contractor and may be increased or decreased by written agreement of the parties (whether or not by formal modification of this contract). Estimated collections from others for work and services to be performed under this contract are not included in the amount presently obligated. Such collections, to the extent actually received by the contractor, shall be processed and accounted for in accordance with applicable requirements imposed by the contracting officer pursuant to the Laws, regulations, and DOE directives clause of this contract. Nothing in this paragraph is to be construed as authorizing the contractor to exceed limitations stated in financial plans established by DOE and furnished to the contractor from time to time under this contract.
- (b) Limitation on payment by the Government. Except as otherwise provided in this contract and except for costs which may be incurred by the contractor pursuant to the Termination clause of this contract or costs of claims allowable under the contract occurring after completion or termination and not released by the contractor at the time of financial settlement of the contract in accordance with the clause entitled "Payments and Advances," payment by the Government under this contract on account of allowable costs shall not, in the aggregate, exceed the amount obligated with respect to this contract, less the contractor's fee and any negotiated fixed amount. Unless expressly negated in this contract, payment on account of those costs excepted in the preceding sentence which are in excess of the amount obligated with respect to this contract shall be subject to the availability of:
 - (1) collections accruing to the contractor in connection with the work under this contract and processed and accounted for in accordance with applicable requirements imposed by the contracting officer pursuant to the Laws, regulations, and DOE directives clause of this contract, and
 - (2) other funds which DOE may legally use for such purpose, provided DOE will use its best efforts to obtain the appropriation of funds for this purpose if not otherwise available.

- (c) Notices-Contractor excused from further performance. The contractor shall notify DOE in writing whenever the unexpended balance of available funds (including collections available under paragraph (a) of this clause), plus the contractor's best estimate of collections to be received and available during the - day period hereinafter specified, is in the contractor's best judgment sufficient to continue contract operations at the programmed rate for only - days and to cover the contractor's unpaid fee and any negotiated fixed amounts, and outstanding encumbrances and liabilities on account of costs allowable under the contract at the end of such period. Whenever the unexpended balance of available funds (including collections available under paragraph (a) of this clause), less the amount of the contractor's fee then earned but not paid and any negotiated fixed amounts, is in the contractor's best judgment sufficient only to liquidate outstanding encumbrances and liabilities on account of costs allowable under this contract, the contractor shall immediately notify DOE and shall make no further encumbrances or expenditures (except to liquidate existing encumbrances and liabilities), and, unless the parties otherwise agree, the contractor shall be excused from further performance (except such performance as may become necessary in connection with termination by the Government) and the performance of all work hereunder will be deemed to have been terminated for the convenience of the Government in accordance with the provisions of the Termination clause of this contract.
- (d) Financial plans; cost and encumbrance limitations. In addition to the limitations provided for elsewhere in this contract, DOE may, through financial plans, such as Approved Funding Programs, or other directives issued to the contractor, establish controls on the costs to be incurred and encumbrances to be made in the performance of the contract work. Such plans and directives may be amended or supplemented from time to time by DOE. The contractor agrees
- (1) to comply with the specific limitations (ceilings) on costs and encumbrances set forth in such plans and directives,
 - (2) to comply with other requirements of such plans and directives, and
 - (3) to notify DOE promptly, in writing, whenever it has reason to believe that any limitation on costs and encumbrances will be exceeded or substantially underrun.
- (e) Government's right to terminate not affected. The giving of any notice under this clause shall not be construed to waive or impair any right of the Government to terminate the contract under the provisions of the Termination clause of this contract.

I.154 970.5232-5 LIABILITY WITH RESPECT TO COST ACCOUNTING STANDARDS. (DEC 2000)

- (a) The contractor is not liable to the Government for increased costs or interest resulting from its failure to comply with the clauses of this contract entitled, "Cost Accounting Standards," and "Administration of Cost Accounting Standards," if its failure to comply with the clauses is caused by the contractor's compliance with published DOE financial management policies and procedures or other requirements established by the Department's Chief Financial Officer or Procurement Executive.
- (b) The contractor is not liable to the Government for increased costs or interest resulting from its subcontractors' failure to comply with the clauses at FAR 52.230-2, "Cost Accounting Standards," and FAR 52.230-6, "Administration of Cost Accounting Standards," if the contractor includes in each covered subcontract a clause making the subcontractor liable to the Government for increased costs or interest resulting from the subcontractor's failure to comply with the clauses; and the contractor seeks the subcontract price adjustment and cooperates with the Government in the Government's attempts to recover from the subcontractor.

I.155 970.5232-6 WORK FOR OTHERS FUNDING AUTHORIZATION. (DEC 2000)

Any uncollectible receivables resulting from the contractor utilizing contractor corporate funding for reimbursable work shall be the responsibility of the contractor, and the United States Government shall have no liability to the contractor for the contractor's uncollected receivables. The contractor is permitted to provide advance payment utilizing contractor corporate funds for reimbursable work to be performed by the contractor for a non-Federal entity in instances where advance payment from that entity is required under the Laws, regulations, and DOE directives clause of this contract and such advance cannot be obtained. The contractor is also permitted to provide advance payment utilizing contractor corporate funds to continue reimbursable work to be performed by the contractor for a Federal entity when the term or the funds on a Federal interagency agreement required under the Laws, regulations, and DOE directives clause of this contract have elapsed. The contractor's utilization of contractor corporate funds does not relieve the contractor of its responsibility to comply with all requirements for Work for Others applicable to this contract.

I.156 970.5232-7 FINANCIAL MANAGEMENT SYSTEM. (DEC 2000)

The contractor shall maintain and administer a financial management system that is suitable to provide proper accounting in accordance with DOE requirements for assets, liabilities, collections accruing to the contractor in connection with the work under this contract, expenditures, costs, and encumbrances; permits the preparation of accounts and

accurate, reliable financial and statistical reports; and assures that accountability for the assets can be maintained. The contractor shall submit to DOE for written approval an annual plan for new financial management systems and/or subsystems and major enhancements and/or upgrades to the currently existing financial systems and/or subsystems. The contractor shall notify DOE thirty (30) days in advance of any planned implementation of any substantial deviation from this plan and, as requested by the contracting officer, shall submit any such deviation to DOE for written approval before implementation.

I.157 970.5232-8 INTEGRATED ACCOUNTING. (DEC 2000) (DEVIATION)

Integrated accounting procedures are required for use under this contract. The contractor's financial management system shall include an integrated accounting system that is linked to DOE's accounts through the use of reciprocal accounts and that has electronic capability to transmit monthly and year-end self-balancing trial balances to the Department's Primary Accounting System for reporting financial activity under this contract in accordance with requirements imposed by the contracting officer pursuant to the Laws, regulations, and DOE directives clause of this contract *or as otherwise directed by the contracting officer. The Contractor's financial management system shall include an integrated accounting system for product cost accounting, particularly for isotopes.*

I.158 970.5235-1 FEDERALLY FUNDED RESEARCH AND DEVELOPMENT CENTER SPONSORING AGREEMENT. (DEC 2000)

- (a) Pursuant to 48 CFR 35.017-1, this contract constitutes the sponsoring agreement between the Department of Energy and the contractor, which establishes the relationship for the operation of a Department of Energy sponsored Federally Funded Research and Development Center (FFRDC).
- (b) In the operation of this FFRDC, the contractor may be provided access beyond that which is common to the normal contractual relationship, to Government and supplier data, including sensitive and proprietary data, and to Government employees and facilities needed to discharge its responsibilities efficiently and effectively. Because of this special relationship, it is essential that the FFRDC be operated in the public interest with objectivity and independence, be free from organizational conflicts of interest, and have full disclosure of its affairs to the Department of Energy.
- (c) Unless otherwise provided by the contract, the contractor may accept work from a nonsponsor (as defined in 48 CFR 35.017) in accordance with the requirements and limitations of DOE Order 481.1, Work for Others (Non-Department of Energy Funded Work) (see current version).

- (d) As an FFRDC, the contractor shall not use its privileged information or access to government facilities to compete with the private sector. Specific guidance on restricted activities is contained in DOE Order 481.1.

I.159 970.5236-1 GOVERNMENT FACILITY SUBCONTRACT APPROVAL. (DEC 2000)

Upon request of the contracting officer and acceptance thereof by the contractor, the contractor shall procure, by subcontract, the construction of new facilities or the alteration or repair of Government-owned facilities at the plant. Any subcontract entered into under this paragraph shall be subject to the written approval of the contracting officer and shall contain the provisions relative to labor and wages required by law to be included in contracts for the construction, alteration, and/or repair, including painting and decorating, of a public building or public work.

I.160 970.5242-1 PENALTIES FOR UNALLOWABLE COSTS. (AUG 2009)

- (a) Contractors which include unallowable cost in a submission for settlement for cost incurred, may be subject to penalties.
- (b) If, during the review of a submission for settlement of cost incurred, the Contracting Officer determines that the submission contains an expressly unallowable cost or a cost determined to be unallowable prior to the submission, the Contracting Officer shall assess a penalty.
- (c) Unallowable costs are either expressly unallowable or determined unallowable.
 - (1) An expressly unallowable cost is a particular item or type of cost which, under the express provisions of an applicable law, regulation, or this contract, is specifically named and stated to be unallowable.
 - (2) A cost determined unallowable is one which, for that Contractor—
 - (i) Was subject to a Contracting Officer's final decision and not appealed;
 - (ii) The Civilian Board of Contract Appeals or a court has previously ruled as unallowable; or
 - (iii) Was mutually agreed to be unallowable.
- (d) If the Contracting Officer determines that a cost submitted by the Contractor in its submission for settlement of cost incurred is—

- (1) Expressly unallowable, then the Contracting Officer shall assess a penalty in an amount equal to the disallowed cost allocated to this contract plus interest on the paid portion of the disallowed cost. Interest shall be computed from the date of overpayment to the date of repayment using the interest rate specified by the Secretary of the Treasury pursuant to Pub. L. 92-41 (85 Stat. 97); or
 - (2) Determined unallowable, then the Contracting Officer shall assess a penalty in an amount equal to two times the amount of the disallowed cost allocated to this contract.
- (e) The Contracting Officer may waive the penalty provisions when—
- (1) The Contractor withdraws the submission before the formal initiation of an audit of the submission and submits a revised submission;
 - (2) The amount of the unallowable costs allocated to covered contracts is \$10,000 or less; or
 - (3) The Contractor demonstrates to the Contracting Officer's satisfaction that—
 - (i) It has established appropriate policies, personnel training, and an internal control and review system that provides assurances that unallowable costs subject to penalties are precluded from the Contractor's submission for settlement of costs; and
 - (ii) The unallowable costs subject to the penalty were inadvertently incorporated into the submission.

I.161 970.5243-1 CHANGES. (DEC 2000) (DEVIATION)

- (a) Changes and adjustment of fee. The contracting officer may at any time and without notice to the sureties, if any, issue written directions within the general scope of this contract requiring additional work or directing the omission of, or variation in, work covered by this contract.
- (1) (*Deviation*) If any such direction results in a material change in the level of the Contractor's management effort, an equitable adjustment of the fee, if any, shall be made in accordance with the agreement of the parties and the contract shall be modified in writing accordingly. Any claim by the contractor for an adjustment under this clause must be asserted in writing within 30 days from the date of receipt by the contractor of the notification of change; provided, however, that the contracting officer, if it is determined that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. A failure to agree on an equitable

adjustment under this clause shall be deemed to be a dispute within the meaning of the clause entitled "Disputes."

- (2) (*Deviation*) Services pursuant to mutual agreement under the provisions of paragraph (e)(4) of Section C-4, Statement of Work, of this contract shall be performed without additional fee unless DOE and the contractor shall mutually agree in writing that they will constitute a material increase in the level of the contractor's management effort under this contract, in which event the parties hereto will negotiate in good faith to agree upon an equitable fee for such additional services. Failure of the parties so to agree shall constitute a dispute within the meaning of the clause entitled "Disputes."
- (b) Work to continue. Nothing contained in this clause shall excuse the contractor from proceeding with the prosecution of the work in accordance with the requirements of any direction hereunder.

I.162 970.5244-1 CONTRACTOR PURCHASING SYSTEM. (AUG 2009) (DEVIATION)

- (a) *General.* The Contractor shall develop, implement, and maintain formal policies, practices, and procedures to be used in the award of subcontracts consistent with this clause and 48 CFR subpart 970.44. The Contractor's purchasing system and methods shall be fully documented, consistently applied, and acceptable to the Department of Energy (DOE) in accordance with 48 CFR 970.4401-1. The Contractor shall maintain file documentation which is appropriate to the value of the purchase and is adequate to establish the propriety of the transaction and the price paid. The Contractor's purchasing performance will be evaluated against such performance criteria and measures as may be set forth elsewhere in this contract. DOE reserves the right at any time to require that the Contractor submit for approval any or all purchases under this contract. The Contractor shall not purchase any item or service, the purchase of which is expressly prohibited by the written direction of DOE, and shall use such special and directed sources as may be expressly required by the DOE Contracting Officer. DOE will conduct periodic appraisals of the Contractor's management of all facets of the purchasing function, including the Contractor's compliance with its approved system and methods. Such appraisals will be performed through the conduct of Contractor Purchasing System Reviews in accordance with 48 CFR subpart 44.3, or, when approved by the Contracting Officer, through the Contractor's participation in the conduct of the Balanced Scorecard performance measurement and performance management system. The Contractor's approved purchasing system and methods shall include the requirements set forth in paragraphs (b) through (y) of this clause.
- (b) *Acquisition of utility services.* Utility services shall be acquired in accordance with the requirements of subpart 970.41.

- (c) *Acquisition of Real Property.* Real property shall be acquired in accordance with 48 CFR subpart 917.74.
- (d) *Advance Notice of Proposed Subcontract Awards.* Advance notice shall be provided in accordance with 48 CFR 970.4401-3.
- (e) *Audit of Subcontractors.*
 - (1) The Contractor shall provide for—
 - (i) Periodic post-award audit of cost-reimbursement subcontractors at all tiers; and
 - (ii) Audits, where necessary, to provide a valid basis for pre-award or cost or price analysis.
 - (2) Responsibility for determining the costs allowable under each cost-reimbursement subcontract remains with the contractor or next higher-tier subcontractor. The Contractor shall provide, in appropriate cases, for the timely involvement of the Contractor and the DOE Contracting Officer in resolution of subcontract cost allowability.
 - (3) Where audits of subcontractors at any tier are required, arrangements may be made to have the cognizant Federal agency perform the audit of the subcontract. These arrangements shall be made administratively between DOE and the other agency involved and shall provide for the cognizant agency to audit in an appropriate manner in light of the magnitude and nature of the subcontract. In no case, however, shall these arrangements preclude determination by the DOE Contracting Officer of the allowability or unallowability of subcontractor costs claimed for reimbursement by the Contractor.
 - (4) Allowable costs for cost reimbursable subcontracts are to be determined in accordance with the cost principles of 48 CFR Part 31, appropriate for the type of organization to which the subcontract is to be awarded, as supplemented by 48 CFR Part 931. Allowable costs in the purchase or transfer from contractor-affiliated sources shall be determined in accordance with 48 CFR 970.4402-3 and 48 CFR 31.205-26(e).
- (f) *Bonds and Insurance.*
 - (1) The Contractor shall require performance bonds in penal amounts as set forth in 48 CFR 28.102-2(a) for all fixed-priced and unit-priced construction subcontracts in excess of \$100,000. The Contractor shall consider the use of

performance bonds in fixed-price non-construction subcontracts, where appropriate.

- (2) For fixed-price, unit-priced and cost reimbursement construction subcontracts in excess of \$100,000, a payment bond shall be obtained on Standard Form 25A modified to name the Contractor as well as the United States of America as obligees. The penal amounts shall be determined in accordance with 48 CFR 28.102-2(b).
 - (3) For fixed-price, unit-priced and cost-reimbursement construction subcontracts greater than \$25,000, but not greater than \$100,000, the Contractor shall select two or more of the payment protections at 48 CFR 28.102-1(b), giving particular consideration to the inclusion of an irrevocable letter of credit as one of the selected alternatives.
 - (4) A subcontractor may have more than one acceptable surety in both construction and other subcontracts, provided that in no case will the liability of any one surety exceed the maximum penal sum for which it is qualified for any one obligation. For subcontracts other than construction, a co-surety (two or more sureties together) may reinsure amounts in excess of their individual capacity, with each surety having the required underwriting capacity that appears on the list of acceptable corporate sureties.
- (g) *(Deviation) Buy American.* The Contractor shall comply with the provisions of the Buy American Act as reflected in 48 CFR 52.225-1 and 48 CFR 52.225-9. The Contractor shall forward determinations of non-availability of individual items to the DOE Contracting Officer for approval. Items in excess of \$100,000 require the prior concurrence of the Head of Contracting Activity. If, however, the Contractor has an approved purchasing system, the Head of the Contracting Activity may authorize the Contractor to make determinations of non-availability for individual items valued at \$100,000 or less, *or \$500,000 for components of neutron scattering instruments (generally used by the Spallation Neutron Source (SNS) program.)*
- (h) *Construction and Architect-Engineer Subcontracts.*
- (1) *Independent Estimates.* A detailed, independent estimate of costs shall be prepared for all construction work to be subcontracted.
 - (2) *Specifications.* Specifications for construction shall be prepared in accordance with the DOE publication entitled "General Design Criteria Manual."
 - (3) *Prevention of Conflict of Interest.*
 - (i) The Contractor shall not award a subcontract for construction to the architect-engineer firm or an affiliate that prepared the design. This

prohibition does not preclude the award of a "turnkey" subcontract so long as the subcontractor assumes all liability for defects in design and construction and consequential damages.

- (ii) The Contractor shall not award both a cost-reimbursement subcontract and a fixed-price subcontract for construction or architect-engineer services or any combination thereof to the same firm where those subcontracts will be performed at the same site.
- (iii) The Contractor shall not employ the construction subcontractor or an affiliate to inspect the firm's work. The contractor shall assure that the working relationships of the construction subcontractor and the subcontractor inspecting its work and the authority of the inspector are clearly defined.
- (i) *Contractor-Affiliated Sources.* Equipment, materials, supplies, or services from a contractor-affiliated source shall be purchased or transferred in accordance with 48 CFR 970.4402-3.
- (j) *Contractor-Subcontractor Relationship.* The obligations of the Contractor under paragraph (a) of this clause, including the development of the purchasing system and methods, and purchases made pursuant thereto, shall not relieve the Contractor of any obligation under this contract (including, among other things, the obligation to properly supervise, administer, and coordinate the work of subcontractors). Subcontracts shall be in the name of the Contractor, and shall not bind or purport to bind the Government.
- (k) *Government Property.* Identification, inspection, maintenance, protection, and disposition of Government Property shall conform with the policies and principles of 48 CFR part 45, 48 CFR part 945, the Federal Property Management Regulations, 41 CFR chapter 101, the DOE Property Management Regulations, 41 CFR chapter 109, and their contracts.
- (l) *Indemnification.* Except for Price-Anderson Nuclear Hazards Indemnity, no subcontractor may be indemnified except with the prior approval of the Senior Procurement Executive.
- (m) *Leasing of Motor Vehicles.* Contractors shall comply with 48 CFR subpart 8.11 and 48 CFR subpart 908.11.
- (n) [Reserved]

[71 FR 16241, Mar. 31, 2006]

- (o) *Management, Acquisition and Use of Information Resources.* Requirements for automatic data processing resources and telecommunications facilities, services, and equipment, shall be reviewed and approved in accordance with applicable DOE Orders and regulations regarding information resources.
- (p) *Priorities, Allocations and Allotments.* Priorities, allocations and allotments shall be extended to appropriate subcontracts in accordance with the clause or clauses of this contract dealing with priorities and allocations.
- (q) *Purchase of Special Items.* Purchase of the following items shall be in accordance with the following provisions of 48 CFR subpart 8.5, 48 CFR subpart 908.71, Federal Management Regulation 41 CFR part 102, and the Federal Property Management Regulation 41 CFR chapter 101:
 - (1) Motor vehicles—48 CFR 908.7101
 - (2) Aircraft—48 CFR 908.7102
 - (3) Security Cabinets—48 CFR 908.7106
 - (4) Alcohol—48 CFR 908.7107
 - (5) Helium—48 CFR subpart 8.5
 - (6) Fuels and packaged petroleum products—48 CFR 908.7109
 - (7) Coal—48 CFR 908.7110
 - (8) Arms and Ammunition—48 CFR 908.7111
 - (9) Heavy Water—48 CFR 908.7121(a)
 - (10) Precious Metals—48 CFR 908.7121(b)
 - (11) Lithium—48 CFR 908.7121(c)
 - (12) Products and services of the blind and severely handicapped—41 CFR 101-26.701
- (r) *Purchase versus Lease Determinations.* Contractors shall determine whether required equipment and property should be purchased or leased, and establish appropriate thresholds for application of lease versus purchase determinations. Such determinations shall be made—
 - (1) At time of original acquisition;

- (2) When lease renewals are being considered; and
- (3) At other times as circumstances warrant.
- (s) *Quality Assurance.* Contractors shall provide no less protection for the Government in its subcontracts than is provided in the prime contract.
- (t) *Setoff of Assigned Subcontractor Proceeds.* Where a subcontractor has been permitted to assign payments to a financial institution, the assignment shall treat any right of setoff in accordance with 48 CFR 932.803.
- (u) *Strategic and Critical Materials.* The Contractor may use strategic and critical materials in the National Defense Stockpile.
- (v) *Termination.* When subcontracts are terminated as a result of the termination of all or a portion of this contract, the Contractor shall settle with subcontractors in conformity with the policies and principles relating to settlement of prime contracts in 48 CFR subparts 49.1, 49.2 and 49.3. When subcontracts are terminated for reasons other than termination of this contract, the Contractor shall settle such subcontracts in general conformity with the policies and principles in 48 CFR subparts 49.1, 49.2, 49.3 and 49.4. Each such termination shall be documented and consistent with the terms of this contract. Terminations which require approval by the Government shall be supported by accounting data and other information as may be directed by the Contracting Officer.
- (w) *Unclassified Controlled Nuclear Information.* Subcontracts involving unclassified uncontrolled nuclear information shall be treated in accordance with 10 CFR part 1017.
- (x) *Subcontract Flowdown Requirements.* In addition to terms and conditions that are included in the prime contract which direct application of such terms and conditions in appropriate subcontracts, the Contractor shall include the following clauses in subcontracts, as applicable:
 - (1) Davis-Bacon clauses prescribed in 48 CFR 22.407.
 - (2) Foreign Travel clause prescribed in 48 CFR 952.247-70.
 - (3) Counterintelligence clause prescribed in 48 CFR 970.0404-4(a).
 - (4) Service Contract Act clauses prescribed in 48 CFR 22.1006.
 - (5) State and local taxes clause prescribed in 48 CFR 970.2904-1.

- (6) Cost or pricing data clauses prescribed in 48 CFR 970.1504-3-1(b).
- (y) *Legal Services.* Contractor purchases of litigation and other legal services are subject to the requirements in 10 CFR Part 719 and the requirements of this clause.

**I.163 970.5245-1 PROPERTY. (DEC 2000) - ALTERNATE I (DEC 2000)
(DEVIATION)**

- (a) Furnishing of Government property. The Government reserves the right to furnish any property or services required for the performance of the work under this contract.
- (b) Title to property. Except as otherwise provided by the contracting officer, title to all materials, equipment, supplies, and tangible personal property of every kind and description purchased by the contractor, for the cost of which the contractor is entitled to be reimbursed as a direct item of cost under this contract, shall pass directly from the vendor to the Government. The Government reserves the right to inspect, and to accept or reject, any item of such property. The contractor shall make such disposition of rejected items as the contracting officer shall direct. Title to other property, the cost of which is reimbursable to the contractor under this contract, shall pass to and vest in the Government upon (1) issuance for use of such property in the performance of this contract, or (2) commencement of processing or use of such property in the performance of this contract, or (3) reimbursement of the cost thereof by the Government, whichever first occurs. Property furnished by the Government and property purchased or furnished by the contractor, title to which vests in the Government, under this paragraph are hereinafter referred to as Government property. Title to Government property shall not be affected by the incorporation of the property into or the attachment of it to any property not owned by the Government, nor shall such Government property or any part thereof, be or become a fixture or lose its identity as personality by reason of affixation to any realty.
- (c) Identification. To the extent directed by the contracting officer, the contractor shall identify Government property coming into the contractor's possession or custody, by marking and segregating in such a way, satisfactory to the contracting officer, as shall indicate its ownership by the Government.
- (d) Disposition. The contractor shall make such disposition of Government property which has come into the possession or custody of the contractor under this contract as the contracting officer may direct during the progress of the work or upon completion or termination of this contract. The contractor may, upon such terms and conditions as the contracting officer may approve, sell, or exchange such property, or acquire such property at a price agreed upon by the contracting officer and the contractor as the fair value thereof. The amount received by the contractor

as the result of any disposition, or the agreed fair value of any such property acquired by the contractor, shall be applied in reduction of costs allowable under this contract or shall be otherwise credited to account to the Government, as the contracting officer may direct. Upon completion of the work or the termination of this contract, the contractor shall render an accounting, as prescribed by the contracting officer, of all government property which had come into the possession or custody of the contractor under this contract.

(e) Protection of government property-management of high-risk property and classified materials.

- (1) The contractor shall take all reasonable precautions, and such other actions as may be directed by the contracting officer, or in the absence of such direction, in accordance with sound business practice, to safeguard and protect government property in the contractor's possession or custody.
- (2) In addition, the contractor shall ensure that adequate safeguards are in place, and adhered to, for the handling, control and disposition of high-risk property and classified materials throughout the life cycle of the property and materials consistent with the policies, practices and procedures for property management contained in the Federal Property Management regulations (41 CFR chapter 101), the Department of Energy Property Management regulations (41 CFR chapter 109), and other applicable regulations.
- (3) High-risk property is property, the loss, destruction, damage to, or the unintended or premature transfer of which could pose risks to the public, the environment, or the national security interests of the United States. High-risk property includes proliferation sensitive, nuclear related dual use, export controlled, chemically or radioactively contaminated, hazardous, and specially designed and prepared property, including property on the militarily critical technologies list.

(f) Risk of loss of Government property.

- (1) (i) The contractor shall not be liable for the loss or destruction of, or damage to, Government property unless such loss, destruction, or damage was caused by any of the following:
 - (A) Willful misconduct or lack of good faith on the part of the contractor's managerial personnel;
 - (B) Failure of the contractor's managerial personnel to take all reasonable steps to comply with any appropriate written direction of the contracting officer to safeguard such property under paragraph (e) of this clause; or

- (C) Failure of contractor managerial personnel to establish, administer, or properly maintain an approved property management system in accordance with paragraph (i)(1) of this clause.
- (ii) If, after an initial review of the facts, the contracting officer informs the contractor that there is reason to believe that the loss, destruction of, or damage to the government property results from conduct falling within one of the categories set forth above, the burden of proof shall be upon the contractor to show that the contractor should not be required to compensate the government for the loss, destruction, or damage.
- (2) In the event that the contractor is determined liable for the loss, destruction or damage to Government property in accordance with (f)(1) of this clause, the contractor's compensation to the Government shall be determined as follows:
 - (i) For damaged property, the compensation shall be the cost of repairing such damaged property, plus any costs incurred for temporary replacement of the damaged property. However, the value of repair costs shall not exceed the fair market value of the damaged property. If a fair market value of the property does not exist, the contracting officer shall determine the value of such property, consistent with all relevant facts and circumstances.
 - (ii) For destroyed or lost property, the compensation shall be the fair market value of such property at the time of such loss or destruction, plus any costs incurred for temporary replacement and costs associated with the disposition of destroyed property. If a fair market value of the property does not exist, the contracting officer shall determine the value of such property, consistent with all relevant facts and circumstances.
- (3) The portion of the cost of insurance obtained by the contractor that is allocable to coverage of risks of loss referred to in paragraph (f)(1) of this clause is not allowable.
- (g) Steps to be taken in event of loss. In the event of any damage, destruction, or loss to Government property in the possession or custody of the contractor with a value above the threshold set out in the contractor's approved property management system, the contractor:
 - (1) Shall immediately inform the contracting officer of the occasion and extent thereof,
 - (2) Shall take all reasonable steps to protect the property remaining, and

- (3) Shall repair or replace the damaged, destroyed, or lost property in accordance with the written direction of the contracting officer. The contractor shall take no action prejudicial to the right of the Government to recover therefore, and shall furnish to the Government, on request, all reasonable assistance in obtaining recovery.
- (h) Government property for Government use only. Government property shall be used only for the performance of this contract.
- (i) Property Management.
 - (1) Property Management System.
 - (i) The contractor shall establish, administer, and properly maintain an approved property management system of accounting for and control, utilization, maintenance, repair, protection, preservation, and disposition of Government property in its possession under the contract. The contractor's property management system shall be submitted to the contracting officer for approval and shall be maintained and administered in accordance with sound business practice, applicable Federal Property Management regulations and Department of Energy Property Management regulations, and such directives or instructions which the contracting officer may from time to time prescribe.
 - (ii) In order for a property management system to be approved, it must provide for:
 - (A) Comprehensive coverage of property from the requirement identification, through its life cycle, to final disposition;
 - (B) Employee personal responsibility and accountability for Government-owned property;
 - (C) Full integration with the contractor's other administrative and financial systems; and
 - (D) A method for continuously improving property management practices through the identification of best practices established by "best in class" performers.
 - (iii) Approval of the contractor's property management system shall be contingent upon the completion of the baseline inventory as provided in subparagraph (i)(2) of this clause.
 - (2) Property Inventory.

- (i) Unless otherwise directed by the contracting officer, the contractor shall within six months after execution of the contract provide a baseline inventory covering all items of Government property.
 - (ii) If the contractor is succeeding another contractor in the performance of this contract, the contractor shall conduct a joint reconciliation of the property inventory with the predecessor contractor. The contractor agrees to participate in a joint reconciliation of the property inventory at the completion of this contract. This information will be used to provide a baseline for the succeeding contract as well as information for closeout of the predecessor contract.
- (j) The term "contractor's managerial personnel" as used in this clause means the contractor's directors, officers and any of its managers, superintendents, or other equivalent representatives who have supervision or direction of all or substantially all of:
- (1) The contractor's business; or
 - (2) The contractor's operations at any one facility or separate location at which this contract is being performed; or
 - (3) (*Deviation*) The contractor's Government property system and/or a Major System Projects or Other Projects as defined in *DOE Order 413.3* (Version in effect on effective date of contract).
- (k) The contractor shall include this clause in all cost reimbursable subcontracts.

1. Introduction

This Personnel Appendix sets forth allowable cost by advanced understanding for the Contractor's human resource management policies and related expenses that have cost implications under the contract. This Appendix identifies those major cost areas deemed reasonable and allowable for reimbursement when incurred in the performance of the Contract work. This cost understanding is subject to all applicable provisions of the main contract.

The Contractor shall select, manage, and direct its work force and apply its human resource policies in general conformity with its private operations and/or industrial practice insofar as they are consistent with this Contract. The Contractor shall use effective management review procedures and internal controls to assure that the cost limitations set forth herein are not exceeded, and that areas which require prior approval of the DOE Contracting Officer or designated representative are reviewed and approved prior to incurrence of costs.

Either party may request that this Personnel Appendix be revised, and the parties hereto agree to give consideration in good faith to any such request. Revisions to this Personnel Appendix shall be accomplished by executing Reimbursement Authorizations (DOE Form AD-36) as approved by the DOE Contracting Officer or designated representative. When revisions to this Personnel Appendix are agreed upon, revised pages will be issued reflecting such changes and will bear the effective date of such changes and the Reimbursement Authorization number in the upper right-hand corner of each page. The changes will be highlighted using "redline" feature or a similar word processing software feature.

This Appendix A is adopted for the exclusive benefit and convenience of the parties hereto, and nothing herein contained will be construed as conferring any right or benefit upon past, present, or future employees of the Contractor, or upon any other third party. Accordingly, neither this Appendix A nor any part thereof, as amended or modified, will be deemed to constitute a contract between a party hereto and any employee of the contractor or to be consideration for, or an inducement or condition of, the employment of any person, or to afford the basis for any claim or right of action whatsoever against a party hereto by any employee of the contractor or other third party.

The parties have agreed to increase the Contractor's latitude for managing overall personnel costs by eliminating many DOE approval requirements and holding the Contractor accountable for controlling and reducing total personnel costs. Nothing in this agreement precludes the government from making a future determination of unallowable costs based upon the test of reasonableness.

2. Definitions

Adjustment. A change in salary required to establish either internal or external equity.

Adjusted Rate, Adjusted Pay, or Adjusted Base Pay. The rate of pay per hour, per week, or per month, including any premium pay.

Average Rate. The rate which is determined by dividing the weekly straight-time pay by the number of hours worked during the payroll week when an employee works at more than one basic rate or more than one shift differential rate during a payroll week.

Basic Earnings. The amount obtained by multiplying the number of hours worked by the basic rate.

Basic Rate, Job Rate, or Basic Salary. Rate of pay per hour, per week, or per month, exclusive of any premium, but including any cost of living allowances (COLAs) established in any bargaining unit agreements established for each job classification in accordance with the approved wage and salary schedules.

Basic Workweek. A 40-hour workweek.

Casual Employee. Exempt or nonexempt non-salaried employees hired to work on a project type or intermittent basis and their work hours are determined on a case-by-case basis by their management. These employees are paid weekly and are not expected to work a fixed full-time schedule in excess of 6 months.

Change of Classification. The placement of an employee in a new classification due to reassignment without change in salary range.

Contractor. UT-Battelle, LLC.

DOE. The contracting officer or authorized representative of the contracting officer.

Demotion. The permanent placement of an employee in a lower-rated job classification.

Employee. A person hired by and working for the Contractor.

Exempt Employees. Executive, administrative, and professional employees who are exempt from certain provisions of the Wage and Hour laws. They are on the monthly or semi-monthly payroll.

Full-time Temporary Employees. Exempt or nonexempt full-time ~~or part-time~~ employees who are temporarily employed by Contractor for a specific period of limited duration, generally greater than 6 months, but not to exceed 3 years. Temporary employees may

participate in the same benefit plans as regular Full-time employees except for long-term disability, severance pay, service awards, and educational assistance.

Merit Increase. An increase in the salary of an employee within the established rate range of the job classification, which is granted consistent with the salary plan.

Overtime Pay. Payment (in addition to straight time) for any hours worked in excess of 8 hours in a 24 hour period or 40 hours within a payroll week for hourly and nonexempt salaried employees (or as otherwise agreed in advance and based on a 40 hour payroll week); and when applicable, payment for required hours worked in excess of 45 hours within a payroll week for eligible exempt salaried employees.

Nonexempt Employees. Employees who are covered under and are subject to the provisions of the Wage and Hour laws. They are on the weekly salaried or hourly payroll.

Payroll Day. The 24-hour period extending from midnight to midnight. Exception: Payroll day may vary from midnight to the established starting or ending time of the shift.

Payroll Week. Seven consecutive days (168 hours) extending from midnight Sunday to midnight Sunday. Exception: Payroll week may vary from midnight and/or Sunday to the established day and starting or ending time of the shift.

Premium Pay. A payment in addition to straight time pay made for any reason other than overtime; for example, shift differential, weekend premium, etc.

Promotion. The placement of an employee in a higher rated job classification due to an increase in the character or scope of his/her job assignment.

Reevaluation. A change of job level, up or down, through formal evaluation of an existing job.

Regular employee. Any full-time or part-time salaried employee on the contractor's payroll, not in a temporary or casual status.

Regular Rate. The straight-time rate at which the hours are worked, or the average rate for the week, whichever is greater.

Regularly Scheduled Shift. The normal hours of working time in each payroll day established for each employee by the Director, Human Resources.

Straight-time Pay or Straight-time Earnings. Amount obtained by multiplying the number of units of time worked by the straight-time rate per unit of time.

Straight-time Rate. The rate of pay per hour, per week, or per month obtained by adding the applicable shift differential rate to the basic rate for the job classification assigned at the time the work is performed.

Termination. Quit, discharge, layoff, retirement, death, and/or removal from the payroll because of disability (as distinguished from disability absence where the employee is not removed from the payroll).

3. Pay Policies

3.1 Bargaining Unit Employee Compensation

- a. The terms and conditions set forth in collective bargaining agreements (CBAs) and modifications thereto and established practices thereunder between the Contractor and recognized bargaining agents for its employees assigned to work under this contract (which involve expenditure of funds) constitute the allowable costs for bargaining unit members' compensation and benefits for reimbursement by DOE. The collective bargaining agreements, incorporated by reference, include those with the following bargaining agents:

ORNL

Atomic Trades and Labor Council
AFL-CIO

Prior to the negotiation of a new and/or revised CBA, the Contractor will review its negotiation plan with DOE and obtain DOE approval of its cost parameters and/or subsequent changes thereto. Reasonable costs that arise from administration of or pursuant to CBAs shall constitute allowable costs. The specific approval of DOE shall be obtained in the case of unusual items. The contractor will provide to DOE copies of its CBAs as they are entered into or modified and will keep DOE informed as far in advance as practicable of significant labor developments which are potentially precedent setting, may involve high cost, or potential work stoppages. The contractor will provide DOE with a settlement summary within 30 to 60 days after formal ratification of the agreement, using the "Report of Settlement" form.

3.2 Nonrepresented Employee Compensation

3.2.1. Policy/Objectives

The Contractor will implement a compensation program to attract, motivate, retain, and reward a work force commensurate with effectively accomplishing the performance of work under the Contract at a reasonable cost to the government. Professional compensation methodologies and best business practices will be used in the management of the compensation program. Compensation costs will be managed consistent with the Contractor's prevailing operating budget and budget forecast.

3.2.2 Salary Administration

The Contractor shall:

- a. Implement a compensation system with the following components:

- (1) Market policy for exempt salary structures and base salaries that seek to match average salaries in the competitive market at the beginning of the plan year.
 - (2) Market policy for nonexempt salary structures and base salaries that seek to match average salaries in the competitive market at the beginning of the plan year.
 - (3) A job evaluation system for establishing appropriate job worth hierarchy.
 - (4) A performance management system that supports a pay-for-performance compensation philosophy.
 - (5) System for developing a compensation plan.
 - (6) System for planning and controlling compensation expenditures and evaluating the effectiveness of the program.
 - (7) System for documenting job content.
 - (8) System for communicating the compensation program to employees and managers.
- b. Obtain DOE approval prior to changing compensation system component numbers 1-8 above.
- c. Obtain DOE approval on the salary surveys and survey participants used for market comparisons.
- d. Develop a Salary Increase Plan (SIP) annually, if appropriate, for the expenditure of funds that is consistent with the company's market policy, ability to pay, and relevant economic data, and obtain advanced DOE approval of this SIP.

The SIP will include the following:

- (1) Analysis of salary survey data and contractor's market position for salary structures and base pay levels. Comparison of average pay and salary range midpoints to the relevant market for benchmark positions.

- (2) Identification of needed funds by payroll groups expressed as a percentage of the appropriate base payroll for the end of the previous plan year. All components will be identified therein, e.g. merit, promotion, adjustment, variable pay, etc.

Unexpended portions of the SIP for one salary year are not carried into the succeeding salary year. All pay actions granted under the SIP are fully charged when they occur regardless of time of year in which the action transpires and whether the employee terminates before the year end (commonly called recovery).

- (3) The Contractor will evaluate major changes occurring in a given year, such as significant reduction in Contractor employment levels and adjust the SIP if appropriate.
 - (4) Assessment of contractor's financial condition to determine affordability of increasing compensation costs.
 - (5) Communication materials and tools for supervisors to help them plan salary actions to manage base salary relationships and pay for performance.
 - (6) Submit an annual expenditure report, DOE F3220.8, to include breakouts for merit, promotion, adjustments, variable pay, and structure movement for each payroll showing actuals against planned amounts.
- e. Any proposed establishment of an incentive compensation plan will be evaluated using the following criteria:
- The plan is budget neutral.
 - The documented design of the incentive compensation plan, the funding methodology, and the linkage to contract performance measures supports contractor human resource strategic goals.
 - There is a requirement for Contracting Officer approval of incentive compensation plan(s) before implementation.
 - There is a requirement for a contractor policy that provides for a specific pass-over rate (i.e., percent of participants who will not receive an incentive).

- There is a requirement for an annual summary report on distributions made under an incentive compensation plan.
- There is a requirement for pay at risk.

3.2.3 Reserved

3.2.4 Other Pay Provisions

a. Overtime

- (1) Annually the Contractor will discuss with DOE, and when necessary or requested, develop and submit to DOE an overtime plan forecasting the overtime necessary to meet known work requirements. Overtime will be managed to provide for the safe and cost-effective utilization of human resources and efficient conduct of business. Performance will be reported to the DOE on an annual basis.
- (2) Nonexempt salaried employees may be paid for overtime hours worked on the same basis as employees within the bargaining units defined in Section 3.1.
- (3) Exempt salaried employees are eligible for either straight time pay or compensatory time off when required to work at the direction of their management in excess of 45 hours per week, as follows:
 - a. Employees in ladder/band AP 1-3, TP 1, and RP 1 are eligible for straight time pay.
 - b. All exempt employees, except those eligible for incentive compensation, are eligible to earn compensatory time off at the rate of one hour earned for two hours worked. Individual compensatory time may not exceed 80 hours annually. Employees will not be allowed to receive payment in lieu of compensatory time off.
 - c. Casual overtime will not be paid.
- (4) Employees in a capacity of supervisor may receive additional compensation when required to work extensive additional hours that result in serious inequities with other employees in the same work group.

b. Other Supplements

- (1) Pay practices may apply to nonexempt salaried employees to the maximum allowable consistent with collective bargaining agreements for the following benefits:

Call-in Allowance	Report for Work
Change in Working Schedule	Saturday and Sunday Work
Holiday Pay	Shift Differential
Lunch Periods	EMT Premium
Meal Allowances	Licensing Payments
Overtime and/or Premium Pay	Human Reliability Program

- (2) Saturday and Sunday Work—An exempt salaried employee who works on Saturday as part of the regular schedule may receive an additional fifty cents per hour for such work, unless such work is part of an extended work week.

An exempt salaried employee who works on Sunday as part of the regular schedule may receive an additional one dollar per hour for such work, unless such work is part of an extended workweek. These payments may not be included in earnings when calculating the employee's participation in the various benefit plans.

- (3) Meal Allowances—An exempt salaried employee may be paid a meal allowance to the maximum allowable consistent with bargaining unit agreements set forth in Section 3.1.
- (4) EMT Premium—An exempt salaried employee who is required by the company to carry the EMT Medical Technician Certification may be paid a premium consistent with that paid under bargaining unit agreements listed in Section 3.1.
- (5) Licensing Payments—Where required to perform specific jobs in nuclear reactor operations related positions, a licensing payment for nuclear reactor controllers and related licensed positions is an allowable cost as long as the total compensation remains reasonable as supported by market data. Licensing payments discontinue upon failure to receive the required periodic re-licensing.

c. Part Time Employment

Part-time employees may be hired regardless of the salary ranges that are to be used. Compensation, determined by time actually worked, will be

calculated on the same basis as for full time, salaried employees at a rate comparable to that paid to regular employees in similar assignments.

Regular Part-time employees may participate in the following plans and activities:

Company Service Credit	Pension Plan
Group Insurance	Safety Programs and Awards
Holiday Pay (pro-rated)	Savings Plan
Jury Duty (scheduled workday)	Shift Differential
Layoff Allowance	Travel
Occupational Disability	Vacation Plan
Overtime Premium	Voting
Educational Assistance	Short and Long Term
Personal Leave (pro-rated)	Disability (prorated)

Casual part-time employees may participate in the following plans and activities:

Company Service Credit	Pension Plan
Group Insurance (after 4 months)	Safety Programs and Awards
Savings Plan	Jury Duty (scheduled workday)
Shift Differential	Occupational Disability
Travel	Overtime Premium
Vacation Plan	
Voting	

The cost of group health insurance premiums for regular part-time employees working 50 percent or greater is the same as regular full-time employee premiums. Casual employees will pay the regular employee premium plus 50 percent of the company's premium for health insurance. The cost of group life insurance will be the same as regular employee premiums for all part-time employees regardless of the hours worked. Vacation eligibility is prorated on the basis of total hours scheduled to work for regular part-time employees and on actual hours worked on a weekly basis for casual employees. Employees are eligible to convert to full-time or regular part-time status when management deems the change to be in the best interest of work performance under the Contract.

d. Shift Differentials—Exempt Employees

Exempt salaried employees assigned to shift work will receive shift differential as follows:

- (1) Employees assigned to the standard rotating shift schedule may receive up to \$130 a month.
 - (2) Employees assigned to the 4 p.m. to 12-midnight shift or any variation of this shift may be paid up to \$120 per month.
 - (3) Employees assigned to the 12 midnight to 8 a.m. shift or any variation of this shift, may be paid up to \$220 a month.
 - (4) Employees assigned to a rotating shift other than the standard rotating shift will be paid a combination of the appropriate differentials based on the percent of time worked on each shift.
 - (5) Employees assigned to an irregular shift may be paid the differential for the shift on which more than 50 percent of the hours were worked. If time is equal, the highest rate may be used.
- e. Holiday Pay

Hourly employees will be paid in accordance with collective bargaining agreements listed under paragraph 3.1 of this Appendix. Salaried employees working on scheduled holidays may be given holiday pay when schedules and contract requirements necessitating work to be scheduled on company observed holidays (which are listed under paragraph 4.2 of this Appendix). Holiday pay is paid at the rate of 2 1/2 the employee's adjusted rate for nonexempt employees and 2 times the employee's adjusted rate for exempt employees in ladder/band AP 1-3, TP 1, and RP 1 and below. Exempt salaried employees above ladder/band AP 1-3, TP 1, and RP 1 are not eligible for a holiday pay premium.

3.3 Severance Pay

3.3.1 Severance Pay Benefit

- a. General

Severance pay is payable to an employee who has three months or more of Company Service Credit and who is laid off on account of lack of work— unless the layoff is caused by a temporary suspension of work or the employee was hired for intermittent or casual work or as a temporary worker for a limited time or for a specific project.

If the Contractor reemploys an employee after having been paid a severance payment, Company Service Credit for any subsequent

severance payment consideration shall start from the date of such reemployment. If any individuals are reemployed by the Contractor prior to the end of the period covered by the severance pay (e.g., received 20 weeks severance pay, but reemployed after 15 weeks), the difference must be refunded.

No severance pay is paid to employees who terminate their employment voluntarily, who are discharged, or who resign by Contractor request, except for:

- (1) Medical reasons (i.e., those terminated due to contractor determination of mental or physical inability to perform available work).
- (2) Voluntary Reduction in Force (VRIF) Programs: Situations wherein a reduction in force is necessary in an employee unit and an employee volunteers with Contractor consent to be laid off in the reduction in force in place of another person. All VRIF programs require prior DOE approval.

b. Amount of Severance Pay

Severance pay will be calculated on the basis of the employee's basic rate in effect at the time of layoff (including extended hours' pay, if any, but excluding all overtime premium or shift differential) and may be paid in accordance with the following schedules:

(1) Hourly Employees

Refer to the terms and conditions set forth in the applicable collective bargaining agreements listed in section 3.1.a of this Appendix for allowable costs.

(2) Salaried Employees

<u>Company Service Credit</u>	<u>Severance Pay</u>
Under 3 months	No pay
3 months and under 1 year	Same proportion of 1/4 month's pay as completed months of service are of 12 months
1 year through 25 years of completed service	1 week of pay for every completed year of service. Payment will be capped at 25 years of service.

c. Special Severance Programs

Severance pay may be paid to employees accepted by management for participation in a self-select Voluntary Separation Program (VSP) offered by contractor and who execute a general release and waiver of claims. Contractor may, with prior written approval by the Department, offer a VSP when, in its discretion, it determines that there are excess personnel in particular employee classifications due to reduced funding or scope of work, that cost reductions are necessary, or for other business reasons, and that a voluntary separation program is preferable to an involuntary reduction. Severance payable under a VSP will be no less than that payable under subpart b. above, but may exceed that amount. The terms and conditions, including the amount of severance to be paid, of any proposed VSP requires written approval of the contracting officer.

3.3.2 Replacement Employer

Severance pay benefits are not payable when an employee is employed by or receives an offer of employment with a replacement contractor where continuity of employment with credit for prior length of service is preserved under substantially equal conditions of employment.

4. Benefit Programs and Policies

The employee benefit plans, and related cost, described in this section are approved by DOE for application to employees working on this Contract and are reimbursable. In addition, retirees of this Contractor or the predecessor Contractor have limited coverage of these benefits.

The benefit programs will be designed and administered to attract, retain, and motivate competent and productive staff. The programs will be competitive with labor markets from which employees are recruited, cost effective and in compliance with applicable laws and regulations.

Refer to the terms and conditions set forth in applicable collective bargaining agreements listed in this Appendix A, Section 3.1.a for allowable costs for hourly employees.

Contractor benefit programs will be designed and administered to attract, retain, and motivate competent and productive staff to support the DOE missions in accordance with clause H-27 Contractor Compensation, Benefits and Pension, subparagraph (d).

4.1 Company Service Credit

Company and Credited Service can be restored to employees in accordance with the Contractor's Company and Credited Service policies. Policies will be administered consistently in accordance with applicable laws, and corporate rules.

- a. In order to facilitate the retention of certain critically skilled employees within the DOE management and operating, performance-based management, and environmental restoration and management contractor workforce systems, the Contractor may recognize (for the purpose of establishing appropriate vacation benefits) prior service credit earned while employed in the DOE system provided all the required criteria contained in Acquisition Letter 94-19 is met. The Director, Human Resources must approve any grant of vacation credit.
- b. When an individual is transferred to the service of the contractor from the DOE or from one of its contractors because of a DOE approved transfer of a function to the Contractor, such employees may be granted Company Service Credit for all of such previous DOE contract-related service provided that:
 - (1) the individual's service with the previous employer is essentially continuous with the time of transfer to the Contractor;
 - (2) the Company Service Credit thus allowed does not entitle the employee to buy back interest in employee benefits such as the Retirement Plan, but is limited to possible increased future benefits such as, but not limited to,

vacations, non-occupational disability allowances, and layoff allowances;
and,

- (3) in all other respects the Company Service Credit will be allowed in accordance with the Contractor's Company Service Credit Rules.
- c. When an individual is hired on or after April 1, 2000, who has previous Company Service with employers participating in the UT-Battelle and BWXT Y-12 Multiple Employer Pension Plan (MEPP), Company and Credited Service may be restored to that employee in accordance with the Contractor's Company and Credited Service policies. The Company Service Date will be used for all benefits in which eligibility is based upon company service.

For active employees who are moving between MEPP employers as a result of an involuntary event (i.e., voluntary reduction in force, scope of work transfer, recall), all vacation accrued to date will transfer with the employee.

For active employees who are moving between MEPP employers as a result of a voluntary event (i.e., voluntary quit to accept new position), all vacation accrued to date will be paid out by the losing employer. If the vacation was earned under the Vested Vacation Plan (pre-1996), the employee will not be eligible for additional vacation until January 1 of the following calendar year. If the vacation was earned under the Vacation Accrual Plan, then accrual rules will apply.

- d. UT-Battelle employees transferring directly from Battelle companies or the University of Tennessee will retain their Battelle or University of Tennessee hire-in or seniority date for the purposes of vacation eligibility, savings plan and pension plan vesting. This is not applicable to post retirement benefits (PRB) such as retiree life, medical, vision, and dental insurance benefits.

4.2 Holidays

The Contractor observes the following holidays during the calendar year.

New Year's Day	Labor Day
Martin Luther King, Jr. Day	Thanksgiving Day
Good Friday	Friday after Thanksgiving
Last Monday in May	Christmas
Independence Day	Associated Christmas
Independence Day Associated (or other day determined by the contractor)	

4.3 Short Term Disability Pay for Salaried Employees

Under the contractor’s absence control program, a system to assure appropriate administrative actions are taken in a timely manner based upon medical evidence is implemented to assure reasonable sick leave usage and management of the Disability Allowance Program for both non-occupational and occupational disabilities.

For absences of four or more days, the benefit amount will be 100 percent of pay for the first 6 weeks of disability, then 80 percent of pay for the next 6 weeks, and 60 percent of pay for the remaining 14 weeks, limited to the duration of benefits based on Company Service Time as follows:

Company Service Time	Duration of Salary Continuation
One month but less than two months	One month
Two months but less than three months	Two months
Three months but less than four months	Three months
Four months but less than five months	Four months
Five months but less than six months	Five months
Six or more months	Six months

Benefit payment for short-term disabilities will be on a per disability basis. Ordinarily, benefit payments during short-term disabilities will be made at the employee’s adjusted rate. Any “loss-of-earnings” payments received, such as Workmen’s Compensation Benefits in cases of occupational disability, will offset the continued payments of salary.

4.4 Vacations

- a. The cost of salaried employee vacations taken in accordance with the established vacation plan is allowable.
- b. Eligible employees are strongly encouraged to use at least 80 hours of vacation each year.

Hire Date	Vesting/Accrual Schedule	Company Service Credit	Vacation Hours	Banking Maximum
Prior to 1-1-96	Upon attainment of actual service	6 months	40	None
	during the 1st year.	1–4 years	80	None
	On	5–9 years	120	240 hours
	December 31st	10–19 years	160	240 hours
	thereafter.	20 years and over	200	240 hours
On or After 1-1-96	Accrual weekly	Date of hire-9 years	*240	240 hours
		10–19 years	120	200 hours
		20 years and over	160	200 hours

* Only employees with 15 years or more Company Service Credit years prior to January 1, 1996 receive 240 hours.

4.4.1 Vacation Payments

- a. An hourly employee who is deprived of a vacation at the end of the year due to a short-term disability, through management action, or because of unusual working conditions may receive payment for such vacation in addition to regular pay. A salaried employee similarly deprived of a vacation will receive equivalent time off in the following year unless the contractor authorizes payment for the vacation.
- b. An individual may be paid for unused vacation at the time of termination.

4.4.2 Vacation Exceptions

The Director, Human Resources as authority to change vacation entitlement in two ways:

- (1) by rolling entitlement from one year to the next where work schedules did not permit the employee to use the vacation and banking is not available;
or
- (2) by granting up to one week accrued vacation eligibility on an exception basis to select new employees when, in the opinion of the Contractor, such an extraordinary entitlement is necessary to successfully hire the senior, critical, or key employee. In such exceptional cases, the individual would be eligible for up to a maximum four weeks of vacation each year as authorized by the Director, Human Resources until their company service would deem them eligible for more vacation.

4.5 Leaves of Absence

4.5.1 Personal Leave

Salaried employees may be granted time off with pay for personal commitments which cannot be handled except during working hours and for tardiness due to severe weather conditions and similar occurrences which temporarily prevent the employee from reporting to work. The amount of time is limited to a maximum of 40 hours per calendar year. The Director Human Resources and Diversity Programs may authorize up to an additional 40 hours for extenuating circumstances.

- a. Personal leave is any excused absence which results in fewer hours worked than normally scheduled, and which is not granted as compensation for unpaid overtime worked or is not made up with overtime. Salaried employees may be excused from work for extenuating personal circumstances, such as serious illness in the immediate family, appearance in court as a witness other than for the contractor or DOE, or any similar circumstance which in the opinion of the Contractor warrants an excused absence and will not interfere with the Contractor's operations. Granting personal leave shall be prudently controlled, and vacation will be used for most personal circumstances, such as marriages, graduations, and similar occasions. The contractor shall maintain a system for approval and tracking of Personal Leave usage.
- b. Personal leave with pay is at the employee's adjusted salary rate.
- c. Hours paid for under the provisions of this policy do not count as hours worked toward Overtime and/or Premium pay.

4.5.2 Leave of Absence Without Pay

An employee may be granted a leave of absence without pay, of any duration, by the contractor provided the absence will not interfere with the Contractor's operations or create any conflict of interest. Continuation of benefits during leave of absence without pay will be administered according to the Contractor's leave of absence policy.

- a. Granting of company service for the full period of the leave (not to exceed 3 years) and restoration of vacation eligibility immediately upon return to work may be provided for employees who return to work from:
 - (1) Leaves granted when it is in the company's interest to make an employee's expertise or services available to DOE, another DOE contractor, another government agency, or to work-related agencies such as the International Atomic Energy Agency (Vienna), or the Center for Study of Communicable Diseases (Atlanta).
 - (2) Entrepreneurial leaves granted to accelerate technology start up based on DOE developed technologies.
- b. Continuation of company service credit and/or immediate restoration of vacation upon return to work for any leave without pay other than those listed above require prior DOE approval if the leave exceeds 180 days.

4.5.3 Paid Educational/Sabbatical Leave

- a. Salary continuation and benefit costs will be allowable for the granting of paid educational/sabbatical leaves for the following purposes:

- (1) To obtain advanced degrees in fields of study, which, in the opinion of the contractor, will further the DOE mission.

Such leaves may be approved for a cumulative duration not to exceed 24 months per individual.

- (2) To teach or perform research at an accredited college, university or research institute.

Such leaves may be approved for a cumulative duration not to exceed 12 months per individual.

Salary continuation shall be offset by compensation received from the college, university, or research institute.

- b. No more than 4 individuals may be on paid educational/sabbatical leave at any given time.
- c. The leaves require approval by the Director, Human Resources.
- d. If the employee does not return to active work after the approved leave period, the employee will be required to pay back the salary continuation and benefits costs received during the leave.
- e. If the employee voluntarily leaves the Contractor's payroll prior to working three years after returning to active work, the employee will be required to pay back the salary continuation and benefit costs on a prorated schedule based on the amount of time they have been back on the contractor's payroll.
- f. No educational assistance, travel or relocation expenses will be paid to employees on these leaves of absence with pay.

4.6 Jury Duty

An employee who is called for jury duty will be protected against loss of pay for the period of time needed to fulfill the obligation.

Employees will be paid their adjusted rate of pay for the regular day. Hours paid for under this policy will count as hours worked by salaried and hourly employees in the calculation of Overtime and/or Premium Pay.

4.7 Death Benefits—Salaried Employee Payments

In case of death of a salaried employee, salary payments may be continued until the end of the month following the month in which death occurs.

4.8 Military Service, Training, and Emergency Duty

Military service, training, and emergency duty policies are administrated in accordance with applicable laws contractor policies and procedures.

An employee will be granted a leave and protection against loss of pay for required military training and emergency duty. Such payments are limited to a maximum of two weeks per year (or four weeks every two years) for training and one month per year for emergency duty at the employee's adjusted rate.

An employee also may be paid for absences from work when required to register or take a physical examination required for entry into the armed forces.

4.9 Community Service

4.9.1 Civic Leave

Employees holding elected federal, state, or local government office may be permitted to utilize a reasonable period of working time with pay to carry out responsibilities which are required by the office and cannot be handled outside working hours.

4.9.2 Civil Defense/Emergency Preparedness Exercises

Employees who have volunteered and have been accepted by a local Civil Defense Organization to participate in community or national defense alert operations or in Civil Defense/Emergency Preparedness training may be excused from work for such participation without loss of pay for scheduled hours of work.

4.9.3 Election Officials

An employee who has been officially appointed to serve as an election officer, judge, or clerk may be excused from work without loss of pay for the period of time necessary to serve in such capacity.

4.9.4 Voting Time

Employees may be excused from work without loss of pay for the minimum time needed to vote in a national, state, county, or municipal election when the times available to vote are not sufficient to allow employees reasonable time to vote prior to or after their normal work shift.

4.10 Group Insurance Plans

The Contractor will be reimbursed for all cost incurred in implementing, administering, and funding comprehensive group insurance plans. Initial implementations or substantial changes to these plans require DOE approval. The features of these plans are set forth in policies and summary plan descriptions, a current copy of which will be provided to DOE. These plans will be administered consistently in accordance with Plan Documents, insurance contracts, applicable laws, and fiduciary responsibilities.

The Contractor will periodically review the Plans to assure plan designs represent good business practices regarding the incorporation of cost containment features, and to assure the overall benefit package is reasonable from a total compensation philosophy.

Plan	Current Contractor Cost
Group Life Insurance	Active salaried employees, retirees under 65–50% of full cost for basic life.
Medical Expense including Prescription Drug and Vision Plans	Active employees - as approved by DOE effective January 1, 2004 Retirees (with greater than 10 years full time service) - as approved by DOE effective January 1, 2004
Major Medical Medicare Supplement Plan	Retirees (with greater than 10 years full time service) - as approved by DOE effective January 1, 2004
Dental Expense Assistance Plan	Active employees - as approved by DOE effective January 1, 2004 Retirees under 65 - as approved by DOE effective July 1, 1996
Dental Expense Assistance And Vision Plan	0 - fully paid by retiree age 65 and older
Travel Insurance	100% of full cost
Voluntary Benefits	0 - fully paid by employee
Special Accident Insurance Plan	0 - fully paid by employee
Long Term Disability Plan	100% of full cost for replacement income - 60% of salary
Medical and Dependent Care Flexible Spending Accounts	Administrative Cost only

* This table will be revised to reflect approved benefit plan changes when determined.

4.10.1 Benefits Programs for Displaced Workers

- a. The cost of medical plan coverage for contractor employees who have separated from employment, excluding those terminated “for cause,” will be reimbursable from the date of separation provided the employee was:
 - (1) On the employment rolls and voluntary or involuntary separation on or after September 27, 1991, as a result of the implementation of a work force restructuring plan requested by the Secretary of Energy; and,

- (2) eligible for medical insurance coverage under the contractor’s plan at the time of separation; and,
 - (3) not eligible for coverage under an employer’s group health plan or Medicare since the time of separation.
- b. Retirees eligible for medical coverage under the Contractor’s health plan will not be eligible for coverage under Section 3161 of the National Defense Authorization Act of 1993.
 - c. Benefits for displaced workers contained in a Workforce Restructuring Plan, developed pursuant to the National Defense Authorization Act of 1993, are reimbursable to the extent that a specific description of each benefit with supporting information and detailed projected costs has been reviewed and approved in advance by DOE, for inclusion in the Plan.

4.11 Pension and Savings Plans

The Contractor will be reimbursed for all costs incurred in implementing, administering, and funding the above plans. Initial implementations or substantial changes to these plans require DOE approval. The features of the Pension and Savings Plans are set forth in plan descriptions, current copies of which will be provided to DOE. These plans will be administered consistently and in accordance with applicable laws, Internal Revenue Service code, Plan Documents, and fiduciary responsibilities.

The Contractor will periodically review the Plans to assure that the plan design meets Contractor objectives to provide income replacement value consistent with industry standards, and to assure the overall benefit package is reasonable and competitive from a total compensation perspective. The contractor cost of these plans is included in the table below:

Plan	Contractor Cost
Pension Plan	100% contractor paid
Savings Plan	100% match up to 2% of pay 50% match up to 4% of pay (4% of total pay)

4.11.1 Reports

The Contractor will submit copies of actuarial valuation reports (prepared by the Contractor’s actuarial consultants), a copy of IRS Form 5500 with schedules as submitted to IRS, and other financial or accounting reports developed or required in connection with the DOE reimbursed Pension and Retirement Plans.

4.11.2 Non-Qualified Pension Plans

Non-qualified Pension Plans implemented solely to replace the reductions in the Pension Plan benefit due to limitations imposed by Sections 415 and 401(a) 17 of the Internal Revenue Code are reimbursable under this contract. These plans will provide employees with benefits provided under the formulae expressed in the contractor's Pension plan and does not provide any additional benefit absent the Internal Revenue Code limitations. These benefits will be funded on a pay-as-you-go basis.

4.11.3 Reserved

4.11.4 Contract Termination/Expiration

The contractor shall not terminate any benefit plan without DOE approval. DOE will reimburse the contractor for allowable costs arising from qualified defined benefit pension plans, post-retirement life and medical insurance, and other welfare benefit liabilities for active and retired employees. It is the intention of DOE not to entertain any enhancements in these programs after the contractor announces the intention not to renew the contract. At the termination or expiration of this contract, the contractor's obligations to employees and retirees for these plans shall be discharged as described below:

a. Defined Benefit Plans

- (1) If the contract terminates or expires and there is a replacement contractor, all assets and liabilities shall transfer to the replacement contractor, and the contractor shall be relieved of, and indemnified by DOE, against any and all liabilities arising from such plans.

- (2) If the contract terminates or expires and there is no replacement contractor, the plan shall be terminated, or frozen, or merged with another DOE Contractor's qualified plan in accordance with the provisions of ERISA and the Internal Revenue Code (IRC). If the contracting parties decide to terminate the plan, annuity purchase bids will be solicited from a minimum of five of the ten largest insurance companies whose AM Best rating is A+ and who are currently selling pension plan termination annuities. After allowable obligations for liabilities (as those liabilities are defined in ERISA, Section 4044 and applicable rules or regulations, and as those liabilities are commonly and mutually understood by the contracting parties) and any tax liability of the corporation related to plan termination have been discharged, any remaining assets and earnings thereon (where earnings accrue from effective date of determination of the aforementioned liabilities to date of final settlement) shall be returned to the DOE. Those reasonable plan administrative expenses that cannot be billed to the plan will be reimbursed to the contractor. The Contracting Officer will, in his or her sole discretion, determine which plan administrative expenses are reasonable and will apply

Department of Labor guidelines to determine those expenses that may be billed to the plan. At an appropriate date before determination of the liabilities, the contracting parties shall meet to assure that plan liabilities are commonly and mutually understood. If plan assets are insufficient to cover the pension obligations stated in this paragraph, DOE shall provide additional funding to cover such obligations.

- (3) If the plan terminates before the contract terminates, the definition and disposition of assets and liabilities shall be as specified in paragraph (2).
- (4) Under the scenarios described in paragraphs (1), (2), and (3), the contractor shall actively manage all assets until the date of settlement. Such management shall include protection of principal if appropriate.

b. Defined Contribution Plan

Upon contract termination, individual employee accounts in the defined contribution plan shall be handled in accordance with the provisions of ERISA. Any unallocated funds (e.g., suspense accounts) shall be returned to the DOE.

c. Post-Retirement Life and Medical, and Other Benefit Obligations

- (1) If the contract terminates and there is a replacement contractor, all assets and liabilities shall transfer to the replacement contractor, and the contractor shall be relieved of, and indemnified by DOE, against any and all further liabilities arising from such plans.
- (2) If the contract terminates and there is no replacement contractor, DOE will reimburse the contractor in a timely manner for allowable costs incurred under this contract related to Contracting Officer-approved employee welfare benefit plans. If so requested by DOE at the time of contract termination or expiration, the contractor will continue as the sponsor of these plans until all liabilities of such plans are discharged.

d. Taxes and IRS Penalties

If contractor action or inaction regarding plans approved by the Contracting Officer results in a tax or other IRS penalty, the contractor shall pay it from corporate funds.

If DOE action or inaction regarding plans approved by the Contracting Officer results in a tax or other IRS penalty, the contractor shall pay it from DOE funds.

4.12 Employee Assistance Program

The Contractor will provide for an Employee Assistance Program consistent with the Drug Free Workplace Act of 1988. This benefit will be administered in accordance with the contract between the contractor and the EAP vendor. Periodic internal reviews will be conducted to assess cost/benefit of program delivery.

4.13 Funeral Leave

In the event of the death of a member of the employee's immediate family, a salaried employee may be granted leave with pay for up to four days.

4.14 Suspension Provisions

Time off, with or without pay, for a suspension under the Contractor's discipline program is allowable.

5. Employee Programs

5.1 Education and Training

a. Student Educational Programs

The Contractor may provide temporary employment opportunities for students under the cooperative education and student intern programs.

b. Educational Assistance Program

The Contractor may provide financial assistance to eligible employees who engage in educational activities in order to establish, maintain, or upgrade skill required by the Contractor. Eligible employees must satisfactorily complete courses of study to be eligible for assistance. The contractor must verify that educational institutions are nationally accredited prior to approving tuition reimbursement. (Must be accredited by accrediting institutions recognized by the Department of Education, e.g. the Council on Higher Education Accreditation website.) Educational assistance may include payment for tuition, textbooks, and fees. Payment may also be made for proficiency testing, which results in the granting of academic credit or is otherwise required by the school.

Regular work hours may be rescheduled to attend classes provided that there is no significant reduction in the employee's productive contribution caused by the rescheduling. Reduction of work schedules, with appropriate reduction of pay, and leaves of absence may be granted to facilitate course completion where deemed beneficial to pay for work under the Contract. Employees participating in Educational Assistance Program may use facilities, equipment, and services in support of their studies if approved by management.

c. University Program Participation

The Contractor may permit a rescheduling of regular work hours or a reduction in the work schedule and corresponding reduction in pay for Contractor employees who are engaged in teaching, planning, or general management at local colleges or universities.

d. Training

The Contractor may conduct or permit employees to attend training programs and courses that are based on training needs assessments. These training courses should contribute to the performance of work under the contract and be provided at reasonable costs to the government.

e. Benefit Plans Participation

Employees working on a reduced workweek schedule under 5.1.b and c will be permitted to participate in all employee plans, based on their full regular salaries and the continuation of full Company Service Credit.

5.2 Employee Recognition and Memberships

The costs of employee recognition programs and organizational and individuals memberships are allowable based on a budget formula not to exceed 1/4 of 1% of base payroll on September 30 of the prior fiscal year. Program costs include the following:

- a. Company service awards for achieving service milestones consistent with the Corporate service awards program.
- b. Safety awards and recognition to promote health and safety.
- c. Awards, recognition, and celebrations for participating in management initiatives, special achievements, retirement, and similar activities to the extent that they are reasonable and consistent with industry practice.
- d. The costs of organization and employee memberships in trade, business, and technical organizations necessary for effective performance of work under the contract provided they are reasonable and do not constitute payments for, or in support of, partisan and political (lobbying) activity.

5.3 Patent Awards

The cost of cash awards to inventors of patented technologies, authors of copyrighted works, and creators of mask works or copyrighted computer software that benefit the objectives of the Contractor and DOE are allowable. Program costs include the following:

- a. Cash Awards of \$750 may be made to each inventor (or each co-inventor) for each invention, upon issue of the patent by the U.S. Patent and Trademark Office. The maximum award amount for team awards is \$5000 per invention.
- b. Cash Awards of \$100 may be made to each author (or each co-author) of each trademark, upon issue of the trademark by the U.S. Patent and Trademark Office. The maximum award amount for a team of co-authors is \$250 per trademark.

- c. Cash Awards of \$500 may be made to creators of mask works or copyrighted computer software (other than scientific and technical articles) created, authored, conceived, or first reduced to practice within the scope of their employment, upon filing of the copyright or mask work registration for which the Contractor has asserted copyright for the purpose of registration and commercialization through licensing. The maximum award amount for a team of co-creators is \$3000 per copyright or mask work registered.

6. Travel and Relocation

- a. The Contractor may pay transportation, lodging, meals, incidental, relocation, and other expenses for employees or other persons required to travel or move in conjunction with the performance of work under this contract. Allowable costs for travel and relocation include costs according to applicable provisions of the FAR and DEAR, the Federal Travel Regulations, and the Internal Revenue Service auto allowance. The Contractor may deviate in specific instances where it is determined to be economically advantageous to the DOE and to the extent such deviations conform to pertinent regulations and law. The Contractor will maintain records based on its determinations to deviate in specific instances sufficient for audit review.
- b. When the Contractor requires employees to work at locations of significant distance from their regular assignment, on a temporary or permanent basis, geographic pay allowances may be appropriate. The intent is to keep employee's compensation and standards of living reasonably whole so that they suffer neither a significant financial loss nor gain because of the assignment. The ORNL Off-Site Assignment Policy (approved by DOE on May 7, 2004) will not be modified without DOE approval.
- c. Relocation costs are those costs incident to (1) the permanent change of duty station of an existing employee and (2) the recruitment of a new employee.
- d. Costs incurred in the recruitment of personnel consistent with applicable provisions of the DEAR and FAR and Federal Travel Regulations are reimbursable.

7. Miscellaneous Policies

7.1 Participation in Association Activities

Cost incurred as a result of participation in the activities of technical, professional, and business methods associations will be allowed, as long as reasonable and necessary for the performance of effective work under the contract.

7.2 Licenses and Fees

The costs of required licenses, fees, and similar costs to certify and maintain employee qualifications to perform work under the contract are allowable. The Contractor will closely manage and control the number of licenses/fees to limit reimbursed costs to provide a sufficient number of qualified employees to reasonably perform the affected work under the contract.

7.3 Personnel Borrowed

The cost associated with Battelle company or University of Tennessee employees not working for UT-Battelle borrowed for incidental work under this contract is reimbursable. Reimbursement for the time such employees work under this contract will be allowable in accordance with the home operating unit's disclosed costing practices. Time worked under this contract will include the time spent by employees en route to and returning from the site of work. Travel cost of such borrowed personnel will be allowed on the same basis as for employees working on the contract.

7.4 Personnel Loaned

The Contractor may loan, at no cost to the government, individuals working under this contract to other operations as long as it does not interfere with the performance of contract work. Each loan arrangement will be reviewed to assure no conflict of interest and will be approved by the cognizant UT-Battelle Director. A cumulative report showing all employees loaned, along with the total days loaned and services provided, will be submitted to the DOE annually.

7.5 Personnel Support Activities

- a. **Wellness Program:** Costs of a Wellness Program to promote employee health and fitness are allowable. This program includes health and first aid clinics, fitness centers and the use of buildings and facilities when such use does not interfere with the official work of the Laboratory. Any significant enhancements to the approved ORNL Wellness Program Plan require prior DOE approval.

- b. The Contractor will be reimbursed for the costs incidental to the promotion of morale and welfare, and health and safety of employees such as: employee publications; net costs of in-plant food services (operated on a break-even basis); employees time to promote employee participation in Blood Drives, U.S. Savings Bonds and United Fund campaigns; and other similar incidental costs which may be sanctioned by the contractor.

7.6 Protective Clothing

Employees who are required or allowed to wear special clothing, shoes and protective equipment for various reasons such as safety, housekeeping, protection from harmful chemicals or radioactive contamination, guard exercise clothing, etc., are furnished such items at no cost to the employees. Cost of providing and laundering of such special clothing are allowable costs. Safety glasses or goggles and safety shoes other than those furnished by the Contractor (one pair of which may be sold to any employee once every two years at \$8 less than cost per pair in an attempt to prevent off-the-job lost-time accidents) are also allowable costs.

7.7 Security Suspension Pay

- a. If the access authorization of an employee is suspended by direction of the Manager, Oak Ridge Operations Office, the Contractor shall transfer the employee to perform work not requiring access if such work is available. If a determination is made by the Contractor that no work is available in an uncleared area to which the employee may be transferred, the Contractor shall prepare a written report for the review and concurrence of DOE, setting forth the reasons for the determination. Subject to DOE's concurrence with such determination, the Contractor shall place the employee on leave with pay at the employee's current base compensation until the employee is notified in writing of the Hearing Officer's recommendation. If the Hearing Officer recommends revocation of access authorization the employee shall be placed on leave without pay. If the Hearing Officer recommends continuation of access authorization payment of the base wage shall be continued until final disposition of the case under Department procedures, 10 CFR Part 710.
- b. In the event the employee whose access authorization has been suspended is transferred to another position where such access authorization is not required, compensation shall, thereafter, be the base wage or salary received by the employee on the position from which transferred, and such compensation shall continue until the employee is notified in writing of the Hearing Officer's determination. If the Hearing Officer recommends revocation of access authorization, compensation will be adjusted to the rate applicable to the job being performed.

If the Hearing Officer recommends continuation of access authorization, the base wage previously received shall be continued until final disposition of the case under Departmental procedures, 10 CFR Part 710.

- c. If at any stage of the access authorization procedure following a suspension, the employee's access authorization is reinstated and returns to work in the same or comparable position, the employee shall be reimbursed for net loss of base earnings during the period of suspension.

7.8 Business Expenses

The following expenses to the extent reasonable and which contribute to the effectiveness of the Contractor's work under the contract will be allowable:

- a. Booklets and pamphlets describing the capabilities of the Contractor, e.g., operational, financial, personnel, etc.
- b. Cost of meetings, including cost associated with activities such as labor negotiations, recruiting, etc.
- c. The cost of business meals is allowable to the extent reasonable and necessary for the effective performance of contract work. The Contractor shall establish and maintain effective internal controls.

7.9 Spallation Neutron Source (SNS) Project

Parties acknowledge that an SNS Working Group Report ("Plan to Assist in Recruitment of DOE Laboratory Employees for the Spallation Neutron Source Project") was approved by the DOE Director of Office and Science as a pilot program and was implemented on September 1, 1999. The SNS pilot will expire on June 30, 2006. All employees who were hired under the pilot program will retain their eligibility for those eligible SNS Pilot program benefits.

7.10 Key Personnel

Changes to key personnel must be approved by DOE.

7.11 Resource Recruiting and Retention Toolbox

Parties acknowledge that the human resource tools as described and outlined in the memorandum entitled the *Office of Science Human Resource Recruiting and Retention Tools*, as approved by the DOE Acting Chief Operating Officer George J. Malosh on May 3, 2006, will be recognized under the appropriate Appendix A sections.

SECTION J - LIST OF ATTACHMENTS

APPENDIX B

KEY PERSONNEL

Attached to this Appendix B is the list of Key Personnel considered essential to the work being performed under this contract.

APPENDIX B

KEY PERSONNEL

See the clause in Section I entitled, “Key Personnel.”

1. Laboratory Director, ORNL	Thomas Mason
2. Deputy Director, Science and Technology	Thomas Zacharia
3. Deputy Director, Operations	Jeff Smith
4. Associate Laboratory Director, Neutron Sciences	Ian Anderson
5. Associate Laboratory Director, Physical Sciences	Michelle Buchanan
6. Associate Laboratory Director, Biological and Environmental Sciences	Martin Keller
7. Associate Laboratory Director, Energy and Engineering Sciences	Dana Christensen
8. Associate Laboratory Director, National Security	Vacant
9. Associate Laboratory Director, Computing and Computational Sciences	Jeffrey Nichols
10. Director, Facilities and Operations	Herbert Debban
11. Director, Environment, Safety, Health and Quality	Joseph Herndon
12. Director, Nuclear Operations	Kelly Beierschmitt
13. General Counsel	Nicole Porter
14. Chief Financial Officer	Gregory Turner

APPENDIX C

PERFORMANCE GUARANTEE AGREEMENT

Attached to this Appendix C are the Performance Guarantee Agreements executed on behalf of the University of Tennessee by Joseph E. Johnson, President, on July 12, 1999 and on behalf of Battelle Memorial Institute by Dr. Douglas E. Olesen, President and Chief Executive Officer, on July 21, 1999.

PERFORMANCE GUARANTEE AGREEMENT

For value received, and in consideration of, and in order to induce the United States (the Government) to enter into Contract DE-AC05-99OR22725 for the Management and Operation of the Oak Ridge National Laboratory, by and between the Government and UT-Battelle, LLC, (Contractor), the undersigned, University of Tennessee (Guarantor), a corporate agency of the State of Tennessee and state university chartered under the laws of the State of Tennessee, hereby unconditionally guarantees to the Government (a) the full and prompt payment and performance of all obligations, accrued and executory, which Contractor presently or hereafter may have to the Government under the Contract, and (b) the full and prompt payment and performance by Contractor of all other obligations and liabilities of Contractor to the Government, fixed or contingent, due or to become due, direct or indirect, now existing or hereafter and howsoever arising or incurred under the Contract, and Guarantor further agrees to indemnify the Government against any losses the Government may sustain and expenses it may incur as a result of the enforcement or attempted enforcement by the Government of any of its rights and remedies under the Contract, in the event of a default by Contractor thereunder, and/or as a result of the enforcement or attempted enforcement by the Government of any of its rights against Guarantor hereunder.

Guarantor has read and consents to the signing of the Contract. Guarantor further agrees that Contractor shall have the full right, without any notice to or consent from Guarantor, to make any and all modifications or amendments to the Contract without affecting, impairing, or discharging, in whole or in part, the liability of Guarantor hereunder.

Guarantor hereby expressly waives all defenses which might constitute a legal or equitable discharge of a surety or guarantor, and agrees that this Performance Guarantee Agreement shall be valid and unconditionally binding upon Guarantor regardless of (i) the reorganization, merger, or consolidation of Contractor into or with another entity, corporate or otherwise, or the liquidation or dissolution of Contractor, or the sale or other disposition of all or substantially all of the capital stock, business or assets of Contractor to any other person or party, or (ii) the institution of any bankruptcy, reorganization, insolvency, debt agreement, or receivership proceedings by or against Contractor, or adjudication of Contractor as a bankrupt, or (iii) the assertion by the Government against Contractor of any of the Government's rights and remedies provided for under the Contract, including any modifications or amendments thereto, or under any other document(s) or instrument(s) executed by Contractor, or existing in the Government's favor in law, equity, or bankruptcy.

Guarantor further agrees that its liability under this Performance Guarantee Agreement shall be continuing, absolute, primary, and direct, and that the Government shall not be required to pursue any right or remedy it may have against Contractor or other Guarantors under the Contract, or any modifications or amendments thereto, or any other document(s) or instrument(s) executed by Contractor, or otherwise. Guarantor affirms that the Government shall not be required to first commence any action or obtain any judgment against Contractor before enforcing this Performance Guarantee Agreement against Guarantor, and that

Guarantor will, upon demand, pay the Government any amount, the payment of which is guaranteed hereunder and the payment of which by Contractor is in default under the Contract or under any other document(s) or instrument(s) executed by Contractor as aforesaid, and that Guarantor will, upon demand, perform all other obligations of Contractor, the performance of which by Contractor is guaranteed hereunder.

Guarantor agrees to assure that it shall cause this Performance Guarantee Agreement to be unconditionally binding upon any successor(s) to its interests regardless of (i) the reorganization, merger, or consolidation of Guarantor into or with another entity, corporate or otherwise, or the liquidation or dissolution of Guarantor, or the sale or other disposition of all or substantially all of the capital stock, business, or assets of Guarantor to any other person or party, or (ii) the institution of any bankruptcy, reorganization, insolvency, debt agreement, or receivership proceedings by or against Guarantor, or adjudication of Guarantor as a bankrupt.

Guarantor further warrants and represents to the Government that the execution and delivery of this Performance Guarantee Agreement is not in contravention of Guarantor's Articles of Organization, Charter, by-laws, and applicable law; that the execution and delivery of this Performance Guarantee Agreement, and the performance thereof, has been duly authorized by the Guarantor's Board of Directors, Trustees, or any other management board which is required to participate in such decisions; and that the execution, delivery, and performance of this Performance Guarantee Agreement will not result in a breach of, or constitute a default under, any loan agreement, indenture, or contract to which Guarantor is a party or by or under which it is bound.

No express or implied provision, warranty, representation or term of this Performance Guarantee Agreement is intended, or is to be construed, to confer upon any third person(s) any rights or remedies whatsoever, except as expressly provided in this Performance Guarantee Agreement.

In witness thereof, Guarantor has caused this Performance Guarantee Agreement to be executed by its duly authorized officer, and its corporate seal to be affixed hereto on July 12, 1999.

UNIVERSITY OF TENNESSEE

JOSEPH E. JOHNSON
PRESIDENT

ATTESTATION INCLUDING APPLICATION
OF SEAL BY AN OFFICIAL OF GUARANTOR
AUTHORIZED TO AFFIX CORPORATE SEAL

PERFORMANCE GUARANTEE AGREEMENT

For value received, and in consideration of, and in order to induce the United States (the Government) to enter into Contract DE-AC05-99OR22725 for the Management and Operation of the Oak Ridge National Laboratory, by and between the Government and **UT-Battelle, LLC**, (Contractor), the undersigned, **Battelle Memorial Institute** (Guarantor), a nonprofit corporation incorporated in the State of Ohio with its principal place of business at Columbus, Ohio, hereby unconditionally guarantees to the Government (a) the full and prompt payment and performance of all obligations, accrued and executory, which Contractor presently or hereafter may have to the Government under the Contract, and (b) the full and prompt payment and performance by Contractor of all other obligations and liabilities of Contractor to the Government, fixed or contingent, due or to become due, direct or indirect, now existing or hereafter and howsoever arising or incurred under the Contract, and Guarantor further agrees to indemnify the Government against any losses the Government may sustain and expenses it may incur as a result of the enforcement or attempted enforcement by the Government of any of its rights and remedies under the Contract, in the event of a default by Contractor thereunder, and/or as a result of the enforcement or attempted enforcement by the Government of any of its rights against Guarantor hereunder.

Guarantor has read and consents to the signing of the Contract. Guarantor further agrees that Contractor shall have the full right, without any notice to or consent from Guarantor, to make any and all modifications or amendments to the Contract without affecting, impairing, or discharging, in whole or in part, the liability of Guarantor hereunder.

Guarantor hereby expressly waives all defenses which might constitute a legal or equitable discharge of a surety or guarantor, and agrees that this Performance Guarantee Agreement shall be valid and unconditionally binding upon Guarantor regardless of (i) the reorganization, merger, or consolidation of Contractor into or with another entity, corporate or otherwise, or the liquidation or dissolution of Contractor, or the sale or other disposition of all or substantially all of the capital stock, business or assets of Contractor to any other person or party, or (ii) the institution of any bankruptcy, reorganization, insolvency, debt agreement, or receivership proceedings by or against Contractor, or adjudication of Contractor as a bankrupt, or (iii) the assertion by the Government against Contractor of any of the Government's rights and remedies provided for under the Contract, including any modifications or amendments thereto, or under any other document(s) or instrument(s) executed by Contractor, or existing in the Government's favor in law, equity, or bankruptcy.

Guarantor further agrees that its liability under this Performance Guarantee Agreement shall be continuing, absolute, primary, and direct, and that the Government shall not be required to pursue any right or remedy it may have against Contractor or other Guarantors under the Contract, or any modifications or amendments thereto, or any other document(s) or instrument(s) executed by Contractor, or otherwise. Guarantor affirms that the Government shall not be required to first commence any action or obtain any judgment against Contractor before enforcing this Performance Guarantee Agreement against Guarantor, and that Guarantor will, upon demand, pay the Government any amount, the payment of which is guaranteed hereunder and the payment of which by Contractor is in default under the Contract or under any other document(s) or instrument(s) executed by Contractor as aforesaid, and that

Guarantor will, upon demand, perform all other obligations of Contractor, the performance of which by Contractor is guaranteed hereunder.

Guarantor agrees to assure that it shall cause this Performance Guarantee Agreement to be unconditionally binding upon any successor(s) to its interests regardless of (i) the reorganization, merger, or consolidation of Guarantor into or with another entity, corporate or otherwise, or the liquidation or dissolution of Guarantor, or the sale or other disposition of all or substantially all of the capital stock, business, or assets of Guarantor to any other person or party, or (ii) the institution of any bankruptcy, reorganization, insolvency, debt agreement, or receivership proceedings by or against Guarantor, or adjudication of Guarantor as a bankrupt.

Guarantor further warrants and represents to the Government that the execution and delivery of this Performance Guarantee Agreement is not in contravention of Guarantor's Articles of Organization, Charter, by-laws, and applicable law; that the execution and delivery of this Performance Guarantee Agreement, and the performance thereof, has been duly authorized by the Guarantor's Board of Directors, Trustees, or any other management board which is required to participate in such decisions; and that the execution, delivery, and performance of this Performance Guarantee Agreement will not result in a breach of, or constitute a default under, any loan agreement, indenture, or contract to which Guarantor is a party or by or under which it is bound.

No express or implied provision, warranty, representation or term of this Performance Guarantee Agreement is intended, or is to be construed, to confer upon any third person(s) any rights or remedies whatsoever, except as expressly provided in this Performance Guarantee Agreement.

In witness thereof, Guarantor has caused this Performance Guarantee Agreement to be executed by its duly authorized officer, and its corporate seal to be affixed hereto on July 21, 1999.

PART III - LIST OF DOCUMENTS, EXHIBITS AND OTHER ATTACHMENTS

SECTION J - LIST OF ATTACHMENTS

APPENDIX D

PROCESS FOR INCORPORATION OF NEW AND REVISED DOE DIRECTIVES

Attached to this Appendix D is the process to be utilized for the incorporation of new and revised DOE Directives into the Appendix E List of Applicable Directives (List B).

Appendix D

Process for Incorporation of New and Revised DOE Directives into the List of Applicable Directives (List B)

Pursuant to the requirements of the DEAR clause in Section I of the contract entitled, “970.5204-2 Laws, Regulations and DOE Directives,” this Appendix describes the process for incorporation of new and revised DOE Directives into the Appendix E List of Applicable Directives (List B).

On behalf of the Contracting Officer (CO), the Contracting Officer’s Representative (COR) will transmit notification of new or revised Directives to the contractor with a request for evaluation of the administrative and environment, safety and health requirements for impact to the contract.

DOE will also provide the contractor with the opportunity to comment on draft DOE Directives. Contractors must provide comments to DOE on draft DOE Directives by the stated deadline for their concerns to be recognized by DOE Headquarters.

NOTE: Contractor Directives Points of Contact must register on the DOE Directives Portal to receive notification of the publication of new/revised DOE Directives and the cancellation of DOE Directives.

As part of the impact assessment, the contractor determines (1) whether it agrees that the Directive is applicable, (2) if an Implementation Plan (IP) is required (i.e., the Directive cannot be implemented within existing funds and/or within 120 calendar days from the date of the COR’s request for an impact assessment), and (3) other information required by DEAR 970.5204-2. The contractor provides written notification of the results of the impact assessment to the COR, with a copy to the CO and the Oak Ridge Office (ORO) Directives Management Group (DMG). The impact assessment is due within 30 calendar days of the date of the COR’s request letter or as directed in the text of the letter.

Contractors shall ensure that Work Smart Standard (WSS) Sets and the associated development/maintenance processes meet the requirements of DOE M 450.3-1 or its successor.

When the contractor cannot fully implement new or revised requirements of Administrative Directives within existing funds and/or within 120 calendar days from the date of the COR’s letter requesting an impact assessment, the contractor shall prepare an Implementation Plan (IP) and provide it to the COR with a copy to the CO and the DMG.

IP revisions are required when the contractor makes substantive changes to an IP because of changing conditions, when deadlines established in the IP cannot be met, or when changes are requested by the COR. Revised IPs must be submitted before an existing commitment date is missed or within 30 calendar days from the date of the COR’s request letter. Revised IPs are to be submitted in the same manner as the original plan.

Contractors must not delete uncompleted actions from an IP between one revision and the next. If multiple revisions of a plan are involved, completed items must be noted as such in at least one revision before being deleted.

Contractors send a letter to the COR, with a copy to the CO and the DMG, requesting closure and stating that the corrective actions in the IP have been completed. Any ongoing activities are noted in the letter.

Requirements are added to the contract via the Requirements Change Notice (RCN) process described herein. The contractor is responsible for initiation of the quarterly revisions to List B by submission of a draft RCN to the CO with a copy to the DMG.

Unless other arrangements have been made, the quarterly RCN shall include the following:

- (a) The form (Attachment 1) entitled, “U.S. Department of Energy, Requirements Change Notice,” which provides the changes made in the current update of List B.
- (b) A “Summary of Changes, Baseline List of Required Compliance Documents” (Attachment 2) which identifies the authority for updating List B. The Summary of Changes delineates the following dates: (1) date of the COR impact assessment request; (2) date of contractor’s impact assessment response; (3) date of COR’s letter to contractor in response to contractor’s request for clarification or guidance; and (4) if needed, implementation plan submission and/or approval dates.

When the implementation plans are developed, approved, or closed, the compliance is so annotated on the RCN. Environment Safety & Health (ES&H) Directives are required to be listed on List B as well as in the WSS Set. ES&H-related Directives will be annotated by italics and/or a footnote. DOE Directives cannot be added or removed from List B without approval by the CO or the COR.

The CO will update List B on a quarterly basis by the issuance of a contract modification which includes the approved RCN. The established schedule for issuance of RCNs is as follows:

SCHEDULE FOR ISSUANCE OF REQUIREMENTS CHANGE NOTICES		
Calendar Year Quarter	Contractor’s Submission Of Final Draft To CO	CO’s Target Date To Issue Contract Mod
First (Jan, Feb, Mar)	February 28	March 31
Second (Apr, May, Jun)	May 31	June 30
Third (Jul, Aug, Sep)	August 31	September 30
Fourth (Oct, Nov, Dec)	November 30	December 31

CONTRACTOR:		
CONTRACT NO.:	DATE OF CONTRACT:	
<p>This Requirements Change Notice (RCN) No. OR-XX incorporates into List B, Contract No. DE-XXXX –XXXXXX, the attached list of applicable documents, which have been assessed against the terms and conditions of the contract in accordance with the Clause in Section I entitled, “970.544-2 Laws, Regulations and DOE Directives.” This is a complete numbered list of administrative requirements and a representation of environment, safety, and health (ES&H) requirements. (In accordance with the Contractor’s established procedure, information regarding ES&H-related directives and their applicability can only be obtained from specific WSS sets and S/RID functional areas sets.) ES&H-related directives in WSS sets and S/RIDs have an ES&H footnote in List B. Changes to List B are indicated by bold type. Below is a list of the directives incorporated herein:</p> <p style="text-align: center;"><u>EXECUTIVE SUMMARY OF DIRECTIVE CHANGES</u></p> <p><u>ADDITIONS:</u></p> <p><u>DELETIONS:</u></p> <p><u>EXTENSIONS:</u></p> <p><u>UPDATES:</u></p> <p><u>IMPLEMENTATION PLANS (REVISED COMPLIANCE STATUS):</u></p> <p><u>ADMINISTRATIVE CORRECTION:</u></p>

PART III - LIST OF DOCUMENTS, EXHIBITS AND OTHER ATTACHMENTS

SECTION J - LIST OF ATTACHMENTS

APPENDIX F

SPECIAL FINANCIAL INSTITUTION ACCOUNT AGREEMENT

**SPECIAL FINANCIAL INSTITUTION ACCOUNT AGREEMENT FOR USE WITH THE
PAYMENTS-CLEARED FINANCING ARRANGEMENT**

Agreement entered into this 30th day of January, 2006, between the **UNITED STATES OF AMERICA**, represented by the Department of Energy (DOE), and **UT-BATTELLE, LLC**, a limited liability company organized and existing under the laws of the State of Tennessee (Contractor), and **SunTrust Bank, Inc.**, a financial institution organized and existing under the laws of the State of Georgia, located at 7610 Gleason Drive, Knoxville, TN 37919 (Financial Institution).

RECITALS

- (a) On the effective date of April 12, 1999, DOE and the Contractor entered into Agreement No. DE-AC05-00OR22725, or a Supplemental Agreement(s) thereto, providing for the transfer of funds on a payments-cleared basis.
- (b) DOE requires that amounts advanced to the Contractor thereunder be deposited in a special demand deposit account at a financial institution covered by the Department of the Treasury-approved Government deposit insurance organizations that are identified in I TFM 6-9000 (see Fig. IX-10).

These special demand deposits must be kept separate from the Contractor's general or other funds, and the parties are agreeable to so depositing said amounts with the Financial Institution.

- (c) The special demand deposit account shall be designated UT-Battelle, LLC, [account title] Account.

COVENANTS

In consideration of the foregoing, and for other good and valuable considerations, it is agreed that:

- (1) The Government shall have title to the credit balance in said account to secure the repayment of all advance payments made to the Contractor, and said title shall be superior to any lien, title, or claim of the Financial Institution with respect to such accounts.
- (2) The Financial Institution shall be bound by the provisions of said Agreement(s) between DOE and the Contractor relating to the deposit and withdrawal of funds in the above special demand deposit account, which are hereby incorporated into this Agreement by reference, but the Financial Institution shall not be responsible for the application of funds withdrawn from said account. After receipt by the Financial Institution of directions from the Contractor, on behalf of DOE, the Financial Institution shall act thereon and shall be under no liability to any party hereto for any action taken in accordance with the said written directions. Any written directions received by the Financial Institution from the Contractor acting on behalf of DOE and purporting to be signed by, or signed at the written direction of, the Contractor may, insofar as the rights, duties, and liabilities of the Financial Institution are concerned, be considered as having been properly issued and filed with the Financial Institution by the Contractor.

- (3) DOE, or its authorized representatives, shall have access to financial records maintained by the Financial Institution with respect to such special demand deposit account at all reasonable times and for all reasonable purposes, including, but without limitation to, the inspection or copying of such financial records and any or all memoranda, checks, payment requests, correspondence, or documents pertaining thereto. Such financial records shall be preserved by the Financial Institution for a period of six years after the final payment under the Agreement.
- (4) In the event of the service of any writ of attachment, levy of execution, or commencement of garnishment proceedings with respect to the special demand deposit account, the Financial Institution shall promptly notify DOE at:

U.S. Department of Energy
Oak Ridge Operations Office
Post Office Box 2001
Oak Ridge, Tennessee 37831-8759
Fax: (865) 241-2549

- (5) DOE shall authorize funds (in the form of a Letter of Credit) that are irrevocable to the extent that obligations have been incurred in good faith thereunder by the Contractor to the Financial Institution for the benefit of the special demand deposit account. The Financial Institution agrees to honor upon presentation for payment all payments issued by the Contractor and to restrict Automated Standard Application for Payments (ASAP) withdrawals against the funds authorized to an amount sufficient to maintain the average daily balance in the special demand deposit account in a net positive and as close to zero as administratively possible.

If documentation furnished by the Financial Institution demonstrates that this withdrawal procedure would be inequitable to DOE or to the Financial Institution, Covenant 5 may be modified upon agreement of all parties concerned. The Financial Institution shall comply with the provisions contained in I TFM 6-2000, which states that payment vouchers (TFS form 5805) ordinarily should not be drawn more frequently than daily or for amounts less than \$5,000 and in no case should they be drawn for more than \$50,000,000 unless otherwise stated in the Letter of Credit. In the event that the balance remaining in the Letter of Credit limitation is not sufficient to cover the checks presented, the Department of the Treasury will, at the specific authorization of DOE, instruct the Federal Reserve Bank to immediately wire a transfer of funds from the Department of the Treasury account to the Financial Institution's account, for the benefit of the Contractor's special demand deposit account, in an amount sufficient to cover the check presented in excess of the available Letter of Credit balance.

The Financial Institution agrees to service the account in this manner based on the requirements and specifications contained in the Contractor's Solicitation No. AGS-08 dated September 22, 2005. The Financial Institution agrees that per-item costs detailed in the form *Schedule of Financial Institution Processing Charges* and contained in the Financial Institution's proposal dated October 26, 2005, will remain constant during the term of this Agreement. The Financial Institution shall calculate the monthly fees based on services rendered and invoice the Contractor. The Contractor shall issue a check or automated clearing house authorization transfer to the Financial Institution in payment thereof.

- (6) The Financial Institution shall post collateral, acceptable under Title 31 CFR 202/Treasury Financial Manual Part 6, Chapter 9000, with the Federal Reserve Bank in an amount equal to the net balances in all of the accounts included in this Agreement, less the Department of the Treasury-approved deposit insurance.
- (7) This Agreement, with all its provisions and covenants, shall be in effect for a term of five years beginning on the 1st day of February, 2006, and ending on the 31st day of January, 2011.
- (8) DOE, the Contractor, or the Financial Institution may terminate this Agreement at any time within the Agreement period upon submitting written notification to the other parties 90 days prior to the desired termination date. The specific provisions for operating the account during this 90-day period are contained in Covenant 11.
- (9) DOE or the Contractor may terminate this Agreement at any time upon 30 days written notice to the Financial Institution if DOE or the Contractor, or both parties, find that the Financial Institution has failed to substantially perform its obligations under this Agreement or that the Financial Institution is performing its obligations in a manner that precludes administering the program in an effective and efficient manner or that precludes the effective utilization of the Government's cash resources.
- (10) Notwithstanding the provisions of Covenants 8 and 9, in the event that the Agreement, referenced in Recital (a), between DOE and the Contractor is not renewed or is terminated, this Agreement between DOE, the Contractor, and the Financial Institution shall be terminated automatically upon the delivery of written notice to the Financial Institution.
- (11) In the event of termination, the Financial Institution agrees to retain the Contractor's special demand deposit account for an additional 90-day period to clear outstanding payment items. During this 90-day period, DOE shall place on deposit in that account sufficient funds to cover all outstanding checks presented for payment.

During the 90-day period, it is further understood that:

- (a) The Financial Institution shall maintain collateral in an amount sufficient to collateralize the highest balance in the account, less Federal Deposit Insurance Corporation (FDIC) coverage on the accounts, and that no cost of such collateralization shall accrue to the Contractor or DOE.
- (b) All service charges shall be consistent with the amounts reflected in this Agreement as identified in *Schedule of Financial Institution Processing Charges*.
- (c) No charge will be made for any FDIC or other depository insurance assessed.
- (d) All terms and conditions of the Financial Institution's proposal dated October 26, 2005, which are not inconsistent with this 90-day additional term shall remain in effect.

(e) This Agreement shall continue in effect, with exception of the following:

1. Letter of Credit (Covenant 5)
2. The term of this Agreement (Covenant 7)
3. Termination of Agreement (Covenants 8 and 9)

(12) Administration of this Agreement may be transferred, in whole or in part, to DOE or its designee(s) and to the extent of such transfer and notice thereof to the Financial Institution, the Contractor shall have not further responsibilities hereunder.

The Financial Institution has submitted the forms entitled *Technical Representations and Certifications (Jul 2005)*, *Schedule of Financial Institution Processing Charges*, and *Option*. These forms have been accepted by the Contractor and DOE and are incorporated herein with the document entitled *Statement of Work dated July 20, 2005*, as an integral part of this Agreement.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed as of the day and year first above written.

STATEMENT OF WORK
July 20, 2005

General Requirements

Requirements include the establishment and maintenance of government fund demand deposit accounts and the accurate and timely processing of all banking services related to these accounts. Banking services that are required include, but are not limited to: zero balance accounts; controlled disbursement; positive pay; account reconciliation; Electronic Funds Transfer (EFT) including Automated Clearing House (ACH) and wires - domestic and foreign; Electronic Data Interchange (EDI); web-based inquiry and processing capabilities; miscellaneous services such as stop payments, cancels, issues and paid check imaging; and a variety of additional reporting and communication needs.

Bank Account Information and Requirements

Establish and maintain Government Fund Accounts (GFAs) for disbursement activities. At present, five government fund demand deposit accounts are utilized. UT-Battelle, LLC (Contractor), reserves the right to consolidate existing accounts or establish additional accounts as needed during the term of the Agreement. All accounts are established as zero balance accounts and are funded by the "payments cleared method of financing" as described in a subsequent section of this Statement of Work document. Descriptions of currently established disbursement accounts follow.

Master Account

Direct disbursements from this account are limited to all wire transfers and the ACH transmittals generated for payment of general liabilities. Additionally, this account is utilized to fund all other government fund accounts listed below. Under the payments-cleared method of financing, the Financial Institution will make a daily draw from the U.S. Department of the Treasury's (Treasury) Automated Standard Application for Payments (ASAP) System which will be credited to this master account in order to bring all accounts, including this master account, back to a zero (\$0.00) balance. No paper checks are issued from the master account.

Note: The Financial Institution must be a Treasury-approved government deposit insurance organization as identified in I TFM 6-9000. Accordingly, the Financial Institution shall post collateral with the Federal Reserve Bank (FRB), in an amount equal to the net balance of federal funds deposited into this master account, less the Treasury-approved deposit insurance.

Sub-Account – General Payables

Disbursements are limited to paper checks issued in satisfaction of general vendor account liabilities. This account is established as a positive pay, controlled disbursement account.

Sub-Account – Worker’s Compensation and General Liability

Disbursements are limited to paper checks issued in payment of liabilities under the Contractor’s Worker’s Compensation Self-Insurance plan. This account is established as a positive pay, controlled disbursement account. Special Note: Check payments for worker’s compensation liabilities are issued by a third-party administrator; therefore, file transfers of issues will be presented to the Financial Institution by this party.

Sub-Account – Payroll Disbursements by Check

Disbursements are limited to paper checks issued in satisfaction of payroll liabilities. This account is established as a positive pay, controlled disbursement account.

Sub-Account – Payroll Disbursements by ACH

Disbursements are limited to ACH payments issued in satisfaction of payroll liabilities.

Special Note: Other than any credit(s) due to the receipt of a returned/rejected disbursement item(s), all sub-accounts receive only one credit (deposit) per day, resulting through funding from the master account for zero-balancing. As well, the master account receives only one credit per day, resulting from the daily ASAP draw. Any other credit(s) to the master account must be due to receipt of a returned/rejected disbursement issue(s). The “netting” of accounts by offsetting disbursements with deposit receipts, other than the ASAP draw, is not permitted.

See the “Depository and Cash Services” section of this Statement of Work for a more detailed explanation of general deposit requirements.

Payments-Cleared Method of Funding

As a Prime Contractor to the United States Department of Energy (DOE), the Contractor is wholly dedicated to the operation and management of the Oak Ridge National Laboratory (ORNL). As such, the Contractor receives full funding under the “payments cleared method of funding.” The payments-cleared funding arrangement is a financing method utilized by the federal government for financing grants, contracts, and other programs and utilizes a payment system called the ASAP 1031 Account. In brief, this “on line” program is used by the Financial Institution to effect full reimbursement for all payments “paid” by the Financial Institution on behalf of the Contractor on a given day. Under this arrangement, the Contractor issues payments for program costs, utilizing controlled disbursement accounts as described above. The Financial Institution will honor the payments presented for collection without pre-funding of accounts. At the close of each business day, on an intraday basis, the Financial Institution will zero balance all sub-accounts with an offsetting charge to the master account to determine the total amount advanced during the day. The Financial Institution will then access the ASAP system, using software furnished by the Treasury’s Financial Management Service (FMS), connecting it to the FRB of Richmond to advise Treasury of the amount advanced. The FRB will immediately arrange a “draw” against DOE’s authorized funds for same day credit to the Financial Institution’s reserve account at its FRB. Funds are provided by a repetitive Fed Wire. The daily draw should bring the Contractor’s full chart of government account balances back to zero. To receive same day credit, the

payment request must be received by the FRB of Richmond by 5:45 p.m. Eastern time. The intraday cut-off time established must be sufficient to meet this deadline; however, it should be as late in the day as administratively possible in order to minimize the potential for overdrafts. The amount of the daily drawdown should be sufficient to maintain the account balance net positive and as close to zero as administratively possible. If the Financial Institution has a pattern of excess drawdowns and fails to correct the problem after written notice from DOE, the Financial Institution will be assessed interest on all excess balances at the Federal Funds Rate for the month(s), and the Special Financial Institution Account Agreement will be terminated. Penalties will be remitted to the cognizant DOE finance office.

Normally, the Financial Institution's daily ASAP draw requirement ranges from \$1 Million to \$8 Million and averages approximately \$4 Million. However, at least once per month, upon issue of the monthly payroll, the draw requirement is approximately \$20 Million. The Financial Institution must have sufficient reserves to cover this intraday overdraft pending end of day settlement/reimbursement through the Treasury's ASAP system.

After award, the DOE finance office will provide the Financial Institution with enrollment forms that will permit withdrawal of funds from the ASAP 1031 account at the FRB of Richmond. The Financial Institution will complete the forms and return them to DOE for further processing.

In-house Check Generation

Accept and process paper checks generated in-house by the Contractor. The Contractor uses commercially available, blank check stock to generate its paper checks. Paper checks are printed in-house and distributed daily.

On Line Communication and Processing

Provide a secure, web-based communication and processing system(s) for check imaging display, wire transfer processing, stop payment processing and inquiry, and file transmissions (ACH, EDI, Positive Pay). Unique user identifications and passwords, along with specified authorizations, will be issued for individual personnel as requested by the Contractor.

Positive Pay

Provide positive pay for all controlled disbursement accounts (currently three accounts as described above). Check issues are processed each business day. An approximate average of 2,000 checks are issued each month from the combined controlled disbursement accounts. The Contractor defines the positive pay function as follows: Each business day, the Contractor sends to the Financial Institution, an electronic file containing data representing checks issued or voided on the previous business day. For each controlled disbursement account, file data includes account number, check serial

number, and respective amounts. The Financial Institution will provide a web-based product to facilitate transmission of respective files. The check issue and void information will be used by the Financial Institution to create and maintain an outstanding check file. Newly issued checks are accumulated into the outstanding check file. Voided checks are removed from the outstanding check file. As checks are presented to the Financial Institution, the Financial Institution compares the encoded check information to the outstanding check file. Matching items are considered to be approved for payment and removed from the outstanding check file. Non-matching items are reviewed by the Financial Institution for encoding errors. Encoding errors are corrected by the Financial Institution, and the check is removed from the outstanding check file. Non-matching items not resulting from encoding errors are referred to the Contractor's Treasury Services personnel for resolution. The purpose of this function is to allow the Contractor sufficient time to return any unauthorized payments within 48 hours as provided by the Uniform Commercial Code. In addition to the mechanism for daily file processing for positive pay as described above, the Contractor requires web-based processing capabilities for transmission of manual issues and voids.

Stop-Payment Processing

Provide stop payment capability. Stop payment orders will be placed by the Contractor via the web-based communication and processing system provided by the Financial Institution. Stop payments shall not be labeled or treated as cancellations or voids on the bank reports or on the check inquiry system. Rather, the stop payment items should be clearly identified as such.

Electronic File Transfer/EDI Services

Submit Cash Concentration or Disbursement (CCD) and Pre-arranged Payments and Deposits (PPD) formatted payment files to the ACH on a daily basis. The Contractor creates National Automated Clearing House Association (NACHA) compliant CCD and PPD payment files on a daily basis. These files are transferred electronically to the Financial Institution who submits those files on the Contractor's behalf to the ACH.

Translate a payment file from a proprietary format into Corporate Trade Exchange (CTX) format and submit the file to the ACH on a daily basis. The Contractor creates an electronic file in a proprietary format to pay vendors requesting CTX payments via the ACH. These files are transferred to the Financial Institution who reads the file and translates it to a NACHA compliant CTX format and submits the file on the Contractor's behalf to the ACH.

As stated above, all file transfers to and from the Financial Institution will be executed via a secure, web-based platform provided by the Financial Institution.

Checks-Paid File

Provide paid item files, electronically, for each controlled disbursement account, no later than 7:00 a.m. on the first work day of each calendar month following the close of business for the previous month. To accommodate the Contractor's fiscal year end deadlines with DOE, the checks paid file for September business will be needed by 7:00 a.m. on the first calendar day subsequent to the Contractor's last working day in September, whether or not this falls on a work day. Provide individual files for each controlled disbursement account.

Testing Environment

Provide a test environment for file transfer transactions during implementation and on an on-going basis. During implementation and in the event program changes are made to the Contractor's software, system testing is desirable to the point that data files are passed to and reviewed by the Financial Institution.

Provide Magnetic Ink Character Recognition (MICR) document and image quality control services for testing of paper checks as requested by the Contractor on an as-needed basis.

Disaster Recovery

Sufficient disaster recovery plans must be in place to insure uninterrupted service to the Contractor's payees.

Account Reconciliation Services/ Information Requirements

Provide, by fax or on-line access, monthly bank statements for all accounts no later than 7:00 a.m. on the first work day of each calendar month following close of business for the previous month. To accommodate the Contractor's fiscal year end deadlines with DOE, statements for the September business will be needed by 7:00 a.m. on the first calendar day subsequent to the Contractor's last working day in September, whether or not this falls on a work day. Official hard copies of the statements should follow in the U.S. mail.

Provide both full and partial reconciliation reports/services for all disbursement accounts.

Provide web accessible reports, on a daily basis, providing the following information for all accounts: summary funding and reconciliation totals of daily account activity; daily and cumulative listing of un-matched checks; stop payments placed, revoked, or rejected; cancels/voids or corrected paid items; and same day and previous day balance reporting.

Check Imaging

Provide real-time, on-line access to paid item images via a web-based product. In addition, file(s) of the paid check images shall be routinely provided to the Contractor on CD-Rom.

Wire Transfers and Drafts

Foreign Drafts

Provide Contractor with in-house method for foreign denominated paper draft preparation and printing.

Wires

Contractor makes extensive use of Domestic FedWire transactions and foreign wire transactions using Society for Worldwide Interbank Financial Telecommunications (SWIFT). Financial Institution will provide on-line service for initiating wire transfers. Also, an alternative (manual) method must be available for processing wire transfers in the event of system problems. Contractor requires capabilities for making international wire transfers in U.S. and/or foreign currency denominations. Provide capability for transacting international wires through correspondent U.S. banks and wire transactions going through multiple foreign banks. Provide same-day clearing of all wire transfers transacted in U.S. currency. Provide real-time foreign exchange rates.

Depository and Cash Services

Depository Services

As described earlier, no deposits are made to any of the government fund accounts with the single exception of the daily draw through ASAP. Any deposits made by the Contractor on behalf of DOE must be credited to the Financial Institution's Treasury General Depository Account. All of the deposits are credited and reported daily on the Treasury's *Cashlink* Federal Deposit Reporting System. This system arranges for "same day" sweep of these accounts to the Federal Reserve for credit to the Treasury. Compensation for collection float is paid by the Treasury directly to the Financial Institution as a part of the Financial Institution's agency agreement with the Treasury. Therefore, in order to qualify to perform the services in this proposal, the Financial Institution must have entered into a separate agreement with Treasury's FMS, qualifying as a collection agency.

Although most collections for DOE are directed through a Treasury lockbox system (which is not part of this procurement), the Contractor does receive some direct mail and over-the-counter receipts that must be deposited regularly. As described in the paragraph above, these deposits must be credited to the Treasury General Account rather than to the GFA accounts for the Contractor. The current operating procedure calls for the Contractor to make separate deposits to a commercial clearing account which is part of the Financial Institution's sweep system. This account is subjected to electronic analysis to determine number of items deposited and, using American Banker's Association (ABA) Routing & Transit designations, establishes assigned float that is then incorporated into the Financial Institution's periodic billing to the Treasury's FMS. The Financial Institution is fully compensated for these services by the Treasury through the FMS billing. Therefore, there should not be any analysis charge assessed for these services under this procurement.

In summary of the above, the Financial Institution must be an "approved" depository agency having an established depository agreement with the Treasury's FMS. The

Financial Institution must have access to *Cashlink* and be willing to accept the Treasury's compensation for deposit and processing and float cost as full payment for depository services rendered. Further, the Contractor requires that returned deposit items, other than "no account," "account closed," or "payment stopped," shall be resubmitted one time before being charged back against the Treasury General Account.

Deposit Verification

The Financial Institution must provide for deposit verification and return of validated deposit receipts to the Contractor.

Change Order Services

The Contractor has limited change order requirements in support of miscellaneous employee services. On a weekly basis and based on a pre-determined schedule, the Financial Institution will provide a change order of cash funds as requested by Contractor.

Monthly Analysis Statement

The Financial Institution will provide the Contractor with an account analysis monthly. The account analysis will include the data necessary for the Contractor and/or the DOE finance office to determine that the costs of the services are commensurate with the level of compensation being provided to the Financial Institution, and that the average daily demand account balance is being maintained net positive and as close to zero as administratively possible.

Data Mapping Services – OPTIONAL

Provide data mapping services to convert all input and output data in accordance with specifications as set by the Contractor. Reference the attached document entitled *Contractor's File Layout Specifications*.

TECHNICAL REPRESENTATIONS AND CERTIFICATIONS (Jul 2005)

The Financial Institution makes the following technical representations and certifications as part of its offer to provide service under a payments-cleared financing arrangement. (Check parentheses and complete blanks, as appropriate. All information is necessary.)

1. Financial Institution Fiscal Information

- a. The Financial Institution is a () national chartered financial institution () state chartered financial institution organized and existing in the State of Georgia.
- b. The Financial Institution () maintains () does not maintain an account with a Federal Reserve Bank.
- c. The current () Federal () State time deposit reserve requirement for the Financial Institution is 0 %. Normal rate is 10% but waived for UT Battelle.
- d. The Financial Institution () insures () does not insure each time account for \$100,000 under federally approved deposit insurance. Deposits () are () are not insured by a Government deposit insurance organization approved by the Department of the Treasury. Explain negative responses, if any, below.

- e. The Financial Institution () has () does not have direct on-line access to the Federal Reserve Communication System (FRCS). Explain negative response, if any, below.

- f. To receive same-day credit from the Federal Reserve, the Financial Institution can ascertain the amount of payments cleared net of the amount of any deposits and submit a payment request through the FRCS by 4:30 p.m. Eastern time.

2. Minority Business Enterprises

- a. The Financial Institution () operates () does not operate as a minority-owned business enterprise with at least 50 percent ownership by minority group members. (For present purposes, minority group members are Asian Pacific Americans, Black Americans, Hispanic Americans, Indian Tribe, Native Hawaiian Organization, Native American, and Subcontinent Asian American).
- b. The Financial Institution () operates () does not operate as a woman-owned business enterprise with at least 50 percent ownership by women members.

3. Technical

- a. Does the Financial Institution currently service and reconcile an account with a payment volume equal to or exceeding the anticipated volume required by the Contractor as stated in the *Schedule of Financial Institution Processing Charges*?

Service: (x) Yes () No

Reconciliation: (x) Yes () No

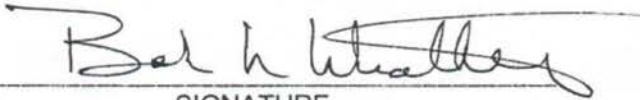

- b. What is the highest number of payments serviced and reconciled for a single account?

Service: Account Reconciliation

Reconciliation: 10,435

SOLICITATION NO. AGS-08
OPTION

The Contractor shall have the option to purchase the services described below:

Option No.: 1
Description: Map data to Contractor-designated file formats
Total Price: \$ 150.00 per hour of service used
Completion Date: To be completed within 60 calendar days from date of
Option exercise

In the event the Contractor does not exercise the above option at the time of award of the Special Financial Institution Account Agreement for Use with the Payments-Cleared Financing Arrangement, or any other date mutually agreed to, the Financial Institution shall be relieved of its obligation to perform these services.

8.4 Provide an Efficient and Effective System for the Protection of Classified and Sensitive Information 46
Office of Science, Notable Outcomes 46
ATTACHMENT I..... 48

INTRODUCTION

This document, the Performance Evaluation and Measurement Plan (PEMP), primarily serves as DOE's Quality Assurance/Surveillance Plan (QASP) for the evaluation of UT-Battelle, LLC (hereafter referred to as "the Contractor") performance regarding the management and operations of the Oak Ridge National Laboratory (hereafter referred to as "the Laboratory") for the evaluation period from October 1, 2009, through September 30, 2010. The performance evaluation provides a standard to determine whether the Contractor is managerially and operationally in control of the Laboratory and is meeting the mission requirement and performance expectations/objectives of the Department as stipulated within this contract.

This document also describes the distribution of the total available performance-based fee and the methodology for determining the amount of fee earned by the Contractor as stipulated within the clauses entitled, "Performance Fee," "Performance Expectations," and "Conditional Payment of Fee, Profit, and Other Incentives – Facility Management Contracts". The Total Available FY 2010 Fee is \$10,700,000 (Base Fee: \$0, Performance Fee: \$10,700,000). In partnership with the Contractor and other key customers, the Department of Energy (DOE) Headquarters (HQ) and the Site Office have defined the measurement basis that serves as the Contractor's performance-based evaluation and fee determination.

The Performance Goals (hereafter referred to as Goals), Performance Objectives (hereafter referred to as Objectives) and set of Notable Outcomes (Performance Measures/Targets) discussed herein were developed in accordance with contract expectations set forth within the contract. The Notable Outcomes for meeting the Objectives set forth within this plan have been developed in coordination with HQ program offices as appropriate. Except as otherwise provided for within the contract, the evaluation and fee determination will rest solely on the Contractor's performance within the Performance Goals and Objectives set forth within this plan.

The overall performance against each Objective of this performance plan, to include the evaluation of Notable Outcomes, shall be evaluated jointly by the appropriate HQ office, major customer and/or the Site Office as appropriate. This cooperative review methodology will ensure that the overall evaluation of the Contractor results in a consolidated DOE position taking into account specific Notable Outcomes as well as all additional information available to the evaluating office. The Site Office shall work closely with each HQ program office or major customer throughout the year in evaluating the Contractor's performance and will provide observations regarding programs and projects as well as other management and operation activities conducted by the Contractor throughout the year.

Section I provides information on how the performance rating (grade) for the Contractor, as well as how the performance-based incentives fee earned (if any) will be determined. As applicable, this Section also provides information on the award term eligibility requirements.

Section II provides the detailed information concerning each Goal, their corresponding Objectives, and Notable Outcomes identified, along with the weightings assigned to each Goal and Objective and a table for calculating the final grade for each Goal.

I. DETERMINING THE CONTRACTOR'S PERFORMANCE RATING, PERFORMANCE-BASED FEE AND AWARD TERM ELIGIBILITY (as applicable)

The FY 2010 Contractor performance grades for each Goal will be determined based on the weighted sum of the individual scores earned for each of the Objectives described within this document for Science and Technology and for Management and Operations. No overall rollup grade will be provided. The rollup of the performance of each Goal will then be utilized to determine the Contractor numerical grade for Science and Technology and Management and Operations (see Table A below). The total overall numerical grade derived for Science and Technology will be utilized to determine the amount of available fee that may be earned (see Table C). The overall numerical grade derived for Management and Operations will be utilized to determine the multiplier to be applied (see Table C) to the Science and Technology fee earned to determine the final amount of fee earned for FY 2010. Each Goal is composed of two or more weighted Objectives and each Objective has set definitions and/or Notable Outcomes, which are linked to an Objective or set of Objectives to assist the reviewer in determining the Contractor's overall performance in meeting an Objective(s). Where utilized, each of the Notable Outcomes highlight key aspects/areas of performance deserving special attention for the upcoming fiscal year and are utilized as a means of determining the Contractor's success in meeting the Objective along with other performance information available to the evaluating office from other sources to include, but not limited to, operational awareness (daily oversight) activities; "For Cause" reviews (if any); other outside agency reviews (OIG, GAO, DCAA, etc.), and the annual 2-week review (if needed). The following describes the methodology for determining the Contractor's grade for each Goal:

Performance Evaluation Methodology:

The purpose of this section is to establish a methodology to develop grading at the Objective Level. Each Objective within a Goal shall be assigned a grade and corresponding numerical grade by the evaluating office. Each evaluation will measure the degree of effectiveness and performance of the Contractor in meeting the corresponding Objectives based on all performance information available to the evaluating office.

It is the DOE's expectation that the Contractor provides for and maintains management and operational (M&O) systems that efficiently and effectively support the current mission(s) of the Laboratory and assure the Laboratory's ability to deliver against DOE's future needs. In evaluating the Contractor's performance DOE shall assess the degree of effectiveness and performance in meeting each of the Objectives provided under each of the Goals. For the five M&O Goals DOE will rely on a combination of the information through the Contractor's own assurance systems, the ability of the Contractor to demonstrate the validity of this information, and DOE's own independent assessment of the Contractor's performance across the spectrum of its responsibilities. The latter might include, but is not limited to operational awareness (daily oversight) activities; formal assessments conducted; "For Cause" reviews (if any); and other outside agency reviews (OIG, GAO, DCAA, etc.).

The mission of the Laboratory is to deliver the science and technology needed to support Departmental missions and other sponsor's needs. Operational performance at the Laboratory meets DOE's expectations (defined as the grade of B+) for each Objective if the Contractor is performing at a level that fully supports the Laboratory's current and future science and technology mission(s). Performance that has, or has the potential to, 1) adversely impact the delivery of the current and/or future DOE/Laboratory mission(s), 2) adversely impact the DOE and or the Laboratory's reputation, or 3) does not provide the competent people, necessary facilities and robust systems necessary to ensure sustainable performance, shall be graded below expectations as defined in Figure I-1 below.

The Department sets our expectations high, and expects performance at that level to optimize the efficient and effective operation of the Laboratory. Thus, the Department does not expect routine Contractor performance above expectations against the M&O Goals (4.0 – 8.0). Performance that might merit grades above B+ would need to reflect a Contractor's unexpectedly strong improvement in a particular area, significant contributions to the management and operations at the system of Laboratories, or recognition by external, independent entities as exemplary performance.

This year, a set of Notable Outcomes have been identified under each Goal to highlight the Contractor key aspects/areas of performance deserving special attention for the upcoming fiscal year. Each Notable Outcome is linked to one or more Objectives, and failure to meet expectations against any Notable Outcome will result in a grade less than B+ for that Objective(s). Performance above expectations against a Notable Outcome will be considered in the context of the Contractor's entire performance with respect to the relevant Objective.

Definitions for the grading scale for the Goal 4.0 – 8.0 Objectives are provided in Figure I-1, below:

Letter Grade	Numerical Grade	Definition
A+	4.3-4.1	Significantly exceeds expectations of performance against all aspects of the Objective in question. The Contractor's systems function at a level that fully supports the Laboratory's current and future science and technology mission(s). Performance is notable for its significant contributions to the management and operations across the SC system of laboratories, and/or has been recognized by external, independent entities as exemplary.
A	4.0-3.8	Notably exceeds expectations of performance against all aspects of the Objective in question. The Contractor's systems function at a level that fully supports the Laboratory's current and future science and technology mission(s). Performance is notable for its contributions to the management and operations across the SC system of laboratories, and/or as been recognized by external, independent entities as exemplary.
A-	3.7-3.5	Exceeds expectations of performance against all aspects of the Objective in question. The Contractor's systems function at a level that fully supports the Laboratory's current and future science and technology mission(s).
B+	3.4-3.1	Meets expectations of performance against all aspects of the Objective in question. The Contractor's systems function at a level that fully supports the Laboratory's current and future science and technology mission(s). No performance has, or has the potential to, adversely impact 1) the delivery of the current and/or future DOE/Laboratory mission(s), 2) the DOE and/or the Laboratory's reputation, or does not 3) provide a sustainable performance platform.
B	3.0 -2.8	Just misses meeting expectations of performance against a few aspects of the Objective in question. In a few minor instances, the Contractor's systems function at a level that does not fully support the Laboratory's current and future science and technology mission, or provide a sustainable performance platform.
B-	2.7-2.5	Misses meeting expectations of performance against several aspects of the Objective in question. In several areas, the Contractor's systems function at a level that does not fully support the Laboratory's current and future science and technology mission, or provide a sustainable performance platform.
C+	2.4-2.1	Misses meeting expectations of performance against many aspects of the Objective in question. In several notable areas, the Contractor's systems function at a level that does not fully support the Laboratory's current and future science and technology mission or provide a sustainable performance platform, and/or have affected the reputation of the Laboratory or DOE.
C	2.0-1.8	Significantly misses meeting expectations of performance against many aspects of the Objective in question. In many notable areas, the Contractor's systems do not support the Laboratory's current and future science and technology mission, nor provide a sustainable performance platform and may affect the reputation of the Laboratory or DOE.
C-	1.7- 1.1	Significantly misses meeting expectations of performance against most aspects of the Objective in question. In many notable areas, the Contractor's systems

Letter Grade	Numerical Grade	Definition
		demonstrably hinder the Laboratory's ability to deliver on current and future science and technology mission, and have harmed the reputation of the Laboratory or DOE.
D	1.0-0.8	Most or all expectations of performance against the Objective in question are missed. Performance failures in this area have affected all parts of the Laboratory; DOE leadership engagement is required to deal with the situation and help the Contractor.
F	0.7-0	All expectations of performance against the Objective in question are missed. Performance failures in this area are not recoverable by the Contractor or DOE.

Figure I-1. Letter Grade and Numerical Grade Definitions

Calculating Individual Goal Scores and Letter Grades:

Each Objective is assigned the earned numerical grade by the evaluating office as stated above. The Goal rating is then computed by multiplying the numerical grade by the weight of each Objective within a Goal. These values are then added together to develop an overall numerical grade for each Goal. For the purpose of determining the final Goal grade, the raw numerical grade for each Goal will be rounded to the nearest tenth of a point utilizing the standard rounding convention discussed below and then compared to Table B. A set of tables is provided at the end of each Performance Goal section of this document to assist in the calculation of Objective numerical grades to the Goal grade. Utilizing the raw numerical grade for each Goal within Table A, below, the grades for each of the Science and Technology (S&T) Goals and Management and Operations (M&O) Goals are then multiplied by the weight assigned and these are summed to provide an overall raw numerical grade for each.

As stated above the raw numerical grade from each calculation shall be carried through to the next stage of the calculation process. The raw numerical grade for Science and Technology and Management and Operations will be rounded to the nearest tenth of a point for purposes of determining fee as indicated in Table C. A standard rounding convention of x.44 and less rounds down to the nearest tenth (here, x.4), while x.45 and greater rounds up to the nearest tenth (here, x.50).

S&T Performance Goal	Numerical Grade	Letter Grade	Weight¹	Weighted Score	Total Score
1.0 Mission Accomplishment			TBD%		
2.0 Construction and Operations of User Research Facilities and Equipment			TBD%		
3.0 Science and Technology Research Project/Program Management			TBD%		
Total Score					
M&O Performance Goal	Numerical Grade	Letter Grade	Weight	Weighted Score	Total Score
4.0 Leadership and Stewardship of the Laboratory			20%		
5.0 Integrated Safety, Health, and Environmental Protection			25%		
6.0 Business Systems			20%

Table B. FY 2010 Contractor Letter Grade Scale

Determining the Amount of Performance-Based Fee Earned:

The percentage of the available performance-based fee that may be earned by the Contractor shall be determined based on the overall weighted numerical grade for the S&T Goals (see Table A. above) and then compared to Table C. below. The overall numerical grade of the M&O Goals from Table A above shall then be utilized to

¹ The weights to be utilized for determining the overall S&T score will be determined following the end of the performance period and will be based on actual Budget Authority for FY10.

numerical grade of the M&O Goals from Table A above shall then be utilized to determine the final fee multiplier (see Table C.), which shall be utilized to determine the overall amount of performance-based fee earned for FY 2010 as calculated within Table D.

Overall Weighted Score from Table A.	Percent S&T Fee Earned	M&O Fee Multiplier

Table D. Final Percentage of Performance-Based Fee Earned Determination

Adjustment to the Letter Grade and/or Performance-Based Fee Determination:

The lack of performance objectives and notable outcomes in this plan do not diminish the need to comply with minimum contractual requirements. Although the performance-based Goals and their corresponding Objectives shall be the primary means utilized in determining the Contractor’s performance grade and/or amount of performance-based fee earned, the Contracting Officer may unilaterally adjust the rating and/or reduce the otherwise earned fee based on the Contractor’s performance against all contract requirements as set forth in the Prime Contract. While reductions may be based on performance against any contract requirement, specific note should be made to contract clauses which address reduction of fee including, Performance Expectations, DEAR 970.5215-1 – Total Available Fee: Base Fee Amount and Performance Fee Amount, and DEAR 970.5215-3 - Conditional Payment of Fee, Profit, and Other Incentives – Facility Management Contracts. Data to support rating and/or fee adjustments may be derived from other sources to include, but not limited to, operational awareness (daily oversight) activities; “For Cause” reviews (if any); other outside agency reviews (OIG, GAO, DCAA, etc.), and the annual 2-week review (if needed).

The adjustment of a grade and/or reduction of otherwise earned fee will be determined by the severity of the performance failure and consideration of mitigating factors. DEAR 970.5215-3 Conditional Payment of Fee, Profit, and Other Incentives – Facility Management Contracts is the mechanism used for reduction of fee as it relates to performance failures related to safeguarding of classified information and to adequate protection of environment, health and safety. Its guidance can also serve as an example for reduction of fee in other areas.

The final Contractor performance-based grades for each Goal and fee earned determination will be contained within a year-end report, documenting the results from the DOE review. The report will identify areas where performance improvement is necessary and, if required, provide the basis for any performance-based rating and/or fee adjustments made from the otherwise earned rating/fee based on Performance Goal achievements.

II. PERFORMANCE GOALS, OBJECTIVES & PERFORMANCE MEASURES

Background

The current performance-based management approach to oversight within DOE has established a new culture within the Department with emphasis on the customer-supplier partnership between DOE and the laboratory contractors. It has also placed a greater focus on mission performance, best business practices, cost management, and improved contractor accountability. Under the performance-based management system the DOE provides clear direction to the laboratories and develops annual performance plans (such as this one) to assess the contractors performance in meeting that direction in accordance with contract requirements. The DOE policy for implementing performance-based management includes the following guiding principles:

- Performance objectives are established in partnership with affected organizations and are directly aligned to the DOE strategic goals;
- Resource decisions and budget requests are tied to results; and
- Results are used for management information, establishing accountability, and driving long-term improvements.

The performance-based approach focuses the evaluation of the Contractor's performance against these Performance Goals. Progress against these Goals is measured through the use of a set of Objectives. The success of each Objective will be measured based on a set of Notable Outcomes, both objective and subjective, that are to focus primarily on end-results or impact and not on processes or activities. Notable Outcomes provide specific evidence of performance, and collectively, they provide the body of evidence that indicates performance relative to the corresponding Objectives. On occasion however, it may be necessary to include a process/activity-oriented measure when there is a need for the Contractor to develop a system or process that does not currently exist but will be of significant importance to the DOE and the Laboratory when completed or that lead to the desired outcome/result.

Performance Goals, Objectives, and Notable Outcomes

The following sections describe the Performance Goals, their supporting Objectives, and associated Notable Outcomes for FY 2010.

1.0 Provide for Efficient and Effective Mission Accomplishment

The Contractor produces high-quality, original, and creative results that advance science and technology; demonstrates sustained scientific progress and impact; receives appropriate external recognition of accomplishments; and contributes to overall research and development goals of the Department and its customers.

The weight of this Goal is TBD%.

The Provide for Efficient and Effective Mission Accomplishment Goal measures the overall effectiveness and performance of the Contractor in delivering science and technology results which contribute to and enhance the DOE's mission of protecting our national and economic security by providing world-class scientific research capacity and advancing scientific knowledge by supporting world-class, peer-reviewed scientific results, which are recognized by others.

Each Objective within this Goal is to be assigned the appropriate numerical score by the Office of Science, other cognizant HQ Program Offices, and other customers as identified below. The overall Goal score from each HQ Program Office and/or customer is computed by multiplying numerical scores earned by the weight of each Objective, and summing them (see Tables 1.1, 1.2, & 1.3). Weightings for each Customer listed below are preliminary, based upon FY 2010 Budget Authority figures, and are provided here for informational purposes only. The final weights to be utilized for determining weighted scores will be determined following the end of the performance period and will be based on actual Budget Authority for FY 2010.

- Office of Science (SC) (TBD%)
- Office of Defense Nuclear Nonproliferation (DNN) (TBD%)
- Department of Homeland Security (DHS) (TBD%)
- Assistant Secretary for Energy Efficiency and Renewable Energy (EERE) (TBD%)
- Assistant Secretary for Fossil Energy (FE) (TBD%)
- Office of Nuclear Energy (NE) (TBD%)
- Office of Electricity Delivery and Emergency Reliability (OE) (TBD%)
- Nuclear Regulatory Commission (NRC) (TBD%)

The overall performance score and grade for this Goal will be determined by multiplying the overall score assigned by each of the offices identified above by the weightings identified for each and then summing them (see Table 1.4 below). The overall score earned is then compared to Table 1.5 to determine the overall letter grade for this Goal. The Contractor's success in meeting each Objective shall be determined based on the Contractor's performance as viewed by the Office of Science, other cognizant HQ Program Offices, and other customers for which the Laboratory conducts work. Should one or more of the HQ Program Offices choose

not to provide an evaluation for this Goal and its corresponding Objectives the weighting for the remaining HQ Program Offices shall be recalculated based on their percentage of BA for FY10 as compared to the total BA for those remaining HQ Program Offices.

Objectives:

1.1 Science and Technology Results Provide Meaningful Impact on the Field

In determining the performance of the Objective the DOE evaluator(s) shall consider the following as measured by progress reports, peer reviews, Field Work Proposals (FWPs), Program Office reviews/oversight, etc.:

- The impact of publications on the field;
- Publication in journals outside the field indicating broad impact;
- Impact on DOE or other customer mission(s);
- Successful stewardship of mission-relevant research areas;
- Significant awards (R&D 100, FLC, Nobel Prizes, etc.);
- Invited talks, citations, making high-quality data available to the scientific community; and
- Development of tools and techniques that become standards or widely-used in the scientific community.

- A to** Changes the way the research community thinks about a particular field; resolves critical questions and thus moves research areas forward; results generate huge interest/enthusiasm in the field.
- A+** Changes the way the research community thinks about a particular field; resolves critical questions and thus moves research areas forward; results generate huge interest/enthusiasm in the field.
- B+** Impacts the community as expected. Strong peer review comments in all relevant areas.
- B** Not strong peer review comments in at least one significant research area.
- C** One research area just not working out. Peer review reveals that a program isn't going anywhere.
- D** Failure of multiple program elements.
- F** Gross scientific incompetence and/or scientific fraud.

1.2 Provide Quality Leadership in Science and Technology

In determining the performance of the Objective the DOE evaluator(s) shall consider the following as measured by progress reports, peer reviews, Program Office reviews/oversight, etc.:

- Willingness to pursue novel approaches and/or demonstration of innovative solutions to problems;
- Willingness to take on high-risk/high payoff/long-term research problems, evidence that the Contractor “guessed right” in that previous risky decisions proved to be correct and are paying off;
- The uniqueness and challenge of science pursued, recognition for doing the best work in the field;
- Extent of collaborative efforts, quality of the scientists attracted and maintained at the Laboratory;

- Staff members visible in leadership position in the scientific community; and
- Effectiveness in driving the direction and setting the priorities of the community in a research field.

A to	Laboratory staff lead Academy or equivalent panels; laboratory's work changes the direction of research fields; world-class scientists are attracted to the laboratory, lab is trend-setter in a field.
A+	
B⁺	Strong research performer in most areas; staff asked to speak to Academy or equivalent panels to discuss further research directions; lab is center for high-quality research and attracts full cadre of researchers; some aspects of programs are world-class.
B	Strong research performer in many areas; staff asked to speak to Academy or equivalent panels to discuss further research directions; few aspects of programs are world-class.
C	Working on problems no longer at the forefront of science; stale research; evolutionary, not revolutionary.
D	Failure of multiple program elements.
F	Gross scientific incompetence and/or scientific fraud.

1.3 Provide and sustain Outputs that Advance Program Objectives & Goals

In determining the performance of the Objective the DOE evaluator(s) shall consider the following as measures through defined project products, progress reports, statements of work, program management plans, Program Office and/or other reviews/oversight, etc.:

- The quantity and quality of program/project (e.g., technical reports, policy papers, prototype demonstrations, tasks, etc.) output(s) be it policy, R&D, or implementation programs;
- The number of publications in peer-reviewed journals; and
- Demonstrated progress against peer-reviewed recommendations, headquarters guidance, etc.

A to	Program offices, clients, end-users, independent experts and/or peers laud work results;
A+	output(s) exceeds the amount and/or quality typically expected for an excellent body of work.
B⁺	Program office, client, end-user, independent expert and/or peer reviews are universally positive; output(s) meet the amount and/or quality typically expected for the body of work; work demonstrates progress against review recommendations and/or headquarters guidance.
B	Program office, client, end-user, independent expert and/or peer reviews are largely positive, with only a few minor deficiencies and/or slightly negative responses noted; minor deficiencies and/or negative responses have little to no potential to adversely impact the overall program/project.
C	A number of outputs have not met the amount and/or quality typically expected for the body of work; program office, client, end-user, independent expert and/or peer reviews identify a number of deficiencies and although they may be somewhat offset by other positive performance, they have the potential to negatively impact the overall program/project if not corrected.
D	Most outputs have not met the amount and/or quality typically expected for the body of work; program office, client, end-user, independent expert and/or peer reviews identify significant deficiencies which have negatively impacted the overall program/project.
F	All outputs have not met the amount and/or quality typically expected for the body of work;

program office, client, end-user, independent expert and/or peer reviews identify significant deficiencies which have significantly impacted and/or damaged the overall program/project.

1.4 Provide for Effective Delivery of Products

In determining the performance of the Objective the DOE evaluator(s) shall consider the following as measures through progress reports, peer-reviews; Field Work Proposals (FWPs), Program Office reviews/oversight, etc.:

- Efficiency and effectiveness in meeting goals/milestones documented within FWPs and/or other such documents;
- Efficiency and effectiveness in delivering on promises and/or getting instruments to work as promised; and
- Efficiency and effectiveness in transmitting results to the community and/or responding to DOE or other customer guidance.

- A to A+** Program/project goals and/or milestones are met well ahead of schedule and/or well under budget; program/project and/or mission objective(s) are fully meet and results anticipate HQ guidance.
- B+** Program/project goals and/or milestones are primarily met on schedule and within budget; program/project and/or mission objective(s) are fully meet and are fully responsive to HQ guidance.
- B** Most program/project goals and/or milestones are met on schedule and within budget; overall program/project and/or mission objective(s) are meet; minor delays, overruns, and/or deficiencies are minimized and/or have little to no adverse impact the overall program/project.
- C** A number of and/or key program/project goals and/or milestones are not met within the scheduled timeframe(s) (e.g less than 6 months behind) and/or within the agreed upon budget (e.g., less than 15% over); overall program/project and/or mission objective(s) have not been met or have the potential to be missed; delays, overruns, and/or deficiencies are identified which have the potential to adversely impact the overall program/project is not corrected.
- D** Most of and/or key program/project goals and/or milestones are not met within the scheduled timeframe(s) (e.g more than 6 months behind) and/or within the agreed upon budget (e.g., less than 25% over); overall program/project and/or mission objective(s) have not been met or have the potential to be missed; sizeable delays, overruns, and/or deficiencies are identified which have negatively impacted the overall program/project.
- F** All and/or key program/project goals and/or milestones are not met within the scheduled timeframe(s) (e.g more than 9 months behind) and/or within the agreed upon budget (e.g., greater than 25% over); overall program/project and/or mission objective(s) have not been met; significant delays, overruns, and/or deficiencies are identified which have negatively impacted the overall program/project.

Table 1.5 – Goal 1.0 Final Letter Grade

⁵ The final weights to be utilized for determining weighted scores will be determined following the end of the performance period and will be based on actual Budget Authority for FY10.

2.0 Provide for Efficient and Effective Design, Fabrication, Construction and Operations of Research Facilities

The Contractor provides effective and efficient strategic planning; fabrication, construction and/or operations of Laboratory research facilities; and are responsive to the user community.

The weight of this Goal is TBD%.

The Provide for Efficient and Effective Design, Fabrication, Construction and Operations of Research Facilities Goal shall measure the overall effectiveness and performance of the Contractor in planning for and delivering leading-edge specialty research and/or user facilities to ensure the required capabilities are present to meet today's and tomorrow's complex challenges. It also measures the Contractor's innovative operational and programmatic means for implementation of systems that ensures the availability, reliability, and efficiency of these facilities; and the appropriate balance between R&D and user support.

Each Objective within this Goal is to be assigned the appropriate numerical score by the Office of Science, other cognizant HQ Program Offices, and other customers as identified below. The overall Goal score from each SC Program Office is computed by multiplying numerical scores earned by the weight of each Objective, and summing them (see Table 2.1). Final weights to be utilized for determining weighted scores will be determined following the end of the performance period and will be based on actual Budget Authority for FY 2010.

- Office of Science (SC) (TBD%)
- Assistant Secretary for Energy Efficiency and Renewable Energy (EERE) (TBD%)
- Office of Nuclear Energy (NE) (TBD%)
- Office of Electricity Delivery and Emergency Reliability (OE) (TBD%)

The overall performance score and grade for this Goal will be determined by multiplying the overall score assigned to each of the objectives by the weightings identified for each and then summing them (see Table 2.1 below). The overall score earned is then compared to Table 2.2 to determine the overall letter grade for this Goal. The Contractor's success in meeting each Objective shall be determined based on the Contractor's performance as viewed by SC.

Objectives:

2.1 Provide Effective Facility Design(s) as Required to Support Laboratory Programs (i.e., activities leading up to CD-2)

In determining the performance of the Objective the DOE evaluator(s) shall consider the following as measured by scientific/technical workshops developing pre-

conceptual R&D, progress reports, Lehman reviews, Program/Staff Office reviews/oversight, etc.:

- Effectiveness of planning of preconceptual R&D and design for life-cycle efficiency;
- Leverage of existing facilities at the site;
- Delivery of accurate and timely information needed to carry out the critical decision and budget formulation process.; and
- Ability to meet the intent of DOE Order 413.3, Program and Project Management for the Acquisition of Capital Assets.

- A to A+** In addition to meeting all measures under B⁺, the laboratory is recognized by the research community as the leader for making the science case for the acquisition; Takes the initiative to demonstrate the potential for revolutionary scientific advancement. Identifies, analyzes and champions novel approaches for acquiring the new capability, including leveraging or extending the capability of existing facilities and financing. Proposed approaches are widely regarded as innovative, novel, comprehensive, and potentially cost-effective. Reviews repeatedly confirm potential for scientific discovery in areas that support the Department's mission, and potential to change a discipline or research area's direction.
- B+** Provides the overall vision for the acquisition. Displays leadership and commitment to achieving the vision within preliminary estimates that are defensible and credible in terms of cost, schedule and performance; develops quality analyses, preliminary designs, and related documentation to support the approval of the mission need (CD-0), the alternative selection and cost range (CD-1) and the performance baseline (CD-2). Solves problems and addresses issues. Keeps DOE apprised of the status, near-term plans and the resolution of problems on a regular basis. Anticipates emerging issues that could impact plans and takes the initiative to inform DOE of possible consequences.
- B** Fails to meet expectations in one of the areas listed under B+.
- C** The laboratory team develops the required analyses and documentation in a timely manner. However, inputs are mundane and lack innovation and commitment to the vision of the acquisition.
- D** The potential exists for credible science and business cases to be made for the acquisition, but the laboratory fails to take advantage of the opportunity.
- F** Proposed approaches are based on fraudulent assumptions; the science case is weak to non-existent, the business case is seriously flawed.

2.2 Provide for the Effective and Efficient Construction of Facilities and/or Fabrication of Components (execution phase, Post CD-2 to CD-4)

In determining the performance of the Objective the DOE evaluator(s) shall consider the following as measured by progress reports, Lehman reviews, Program/Staff Office reviews/oversight, etc.:

- Adherence to DOE Order 413.3 Project Management for the Acquisition of Capital Assets;
- Successful fabrication of facility components
- Effectiveness in meeting construction schedule and budget; and
- Quality of key staff overseeing the project(s).

- A to A+** Laboratory has identified and implemented practices that would allow the project scope to be increased if such were desirable, without impact on baseline cost or schedule; Laboratory

always provides exemplary project status reports on time to DOE and takes the initiative to communicate emerging problems or issues. There is high confidence throughout the execution phase that the project will meet its cost/schedule performance baseline; Reviews identify environment, safety and health practices to be exemplary.

- B+** The project meets CD-2 performance measures; the laboratory provides sustained leadership and commitment to environment, safety and health; reviews regularly recognize the laboratory for being proactive in the management of the execution phase of the project; to a large extent, problems are identified and corrected by the laboratory with little, or no impact on scope, cost or schedule; DOE is kept informed of project status on a regular basis; reviews regularly indicate project is expected to meet its cost/schedule performance baseline.
- B** The project fails to meet expectations in one of the areas listed under B+.
- C** Reviews indicate project remains at risk of breaching its cost/schedule performance baseline; Laboratory commitment to environment, safety and health issues is adequate; Reports to DOE can vary in degree of completeness; Laboratory commitment to the project appears to be subsiding.
- D** Reviews indicate project is likely to breach its cost/schedule performance baseline; and/or Laboratory commitment to environment, safety and health issues is inadequate; reports to DOE are largely incomplete; laboratory commitment to the project has subsided.
- F** Laboratory falsifies data during project execution phase; shows disdain for executing the project within minimal standards for environment, safety or health, fails to keep DOE informed of project status; reviews regularly indicate that the project is expected to breach its cost/schedule performance baseline.

2.3 Provide Efficient and Effective Operation of Facilities

In determining the performance of the Objective the DOE evaluator(s) shall consider the following as measured by progress reports, peer reviews, Program/Staff Office reviews/oversight, performance against benchmarks, Approved Financial Plans (AFPs), etc.:

- Availability, reliability, and efficiency of facility(ies);
 - Degree the facility is optimally arranged to support community;
 - Whether R&D is conducted to develop/expand the capabilities of the facility(ies);
 - Effectiveness in balancing resources between facility R&D and user support; and
 - Quality of the process used to allocate facility time to users.
-
- A to A+** Performance of the facility exceeds expectations as defined before the start of the year in any of these categories: cost of operations, users served, availability, beam delivery, or luminosity, and this performance can be directly attributed to the efforts of the laboratory; and /or: the schedule and the costs associated with the ramp-up to steady state operations are less than planned and are acknowledged to be 'leadership caliber' by reviews; Data on ES&H continues to be exemplary and widely regarded as among the 'best in class'.
 - B+** Performance of the facility meets expectations as defined before the start of the year in all of these categories: cost of operations, users served, availability, beam delivery, or luminosity, and this performance can be directly attributed to the efforts of the laboratory; and /or: the schedule and the costs associated with the ramp-up to steady state operations occur as planned; Data on ES&H continues to be very good as compared with other projects in the DOE.
 - B** The project fails to meet expectations in one of the areas listed under B+.
 - C** Performance of the facility fails to meet expectations in several of the areas listed under B+; for example, the cost of operations is unexpectedly high and availability of the facility is unexpectedly low, the number of users is unexpectedly low, beam delivery, or luminosity is

well below expectations. Facility operates at steady state, on cost and on schedule, but the reliability of performance is somewhat below planned values, or acquisition operates at steady state, but the associated schedule and costs exceed planned values. Commitment to ES&H is satisfactory.

- D** Performance of the facility fails to meet expectations in many of the areas listed under B+; for example, the cost of operations is unexpectedly high and availability of the facility is unexpectedly low. Acquisition operates somewhat below steady state, on cost and on schedule, and the reliability performance is somewhat below planned values, or acquisition operates at steady state, but the schedule and costs associated exceed planned values. Commitment to ES&H is satisfactory.
- F** The facility fails to operate; acquisition operates well below steady state **and/or** the reliability of the performance is well below planned values.

2.4 Utilization of Facility to Grow and Support Lab's Research Base and External User Community

In determining the performance of the Objective the DOE evaluator(s) shall consider the following as measured by peer reviews, participation in international design teams, Program/Staff Office reviews/oversight, etc.:

- The facility is being used to perform influential science;
- Contractor's efforts to take full advantage of the facility to strengthen the Laboratory's research base;
- Conversely the facility is strengthened by a resident research community that pushes the envelope of what the facility can do and/or are among the scientific leaders of the community;
- Contractor's ability to appropriately balance access by internal and external user communities; and
- There is a healthy program of outreach to the scientific community.

- A to A+** Reviews document that multiple disciplines are using the facility in new and novel ways, that the facility is being used to pursue influential science, that full advantage has been taken of the facility to enhance external user access, and strengthen the laboratory's research base. A healthy outreach program is in place.
- B⁺** Reviews state strong and effective approach exists toward establishing a large external and internal user community; that the facility is being used for influential science; the laboratory is capitalizing on existence of facility to grow internal scientific capabilities. A healthy outreach program is in place.
- B** Reviews state that lab is establishing an external and internal user community, but laboratory is still not capitalizing fully on existence of the facility to grow internal capabilities and/or reach out to external users.
- C** Reviews state that the laboratory has made satisfactory use of the facility, but has not demonstrated much innovation.
- D** Few facility users, with none using it in novel ways; research base is very thin.
- F** Laboratory does not know how to operate/use its own facility adequately.

Office of Science, Program Office Notable Outcomes

- FES: The US ITER Project Office is to contribute the management of the US contributions to ITER Project, including research, development and design of US ITER components as well as procurements of the long-lead items. It is also to continue to manage the financial and personnel contributions to the ITER organization in furtherance of the ITER construction project (Objective 2.1).
- ASCR: Effectively upgrade Leadership Computing resources with minimal impact on the user community (Objective 2.2).
- BER: Emphasis in FY 2010 should be on the timely completion of ARRA milestones for ARM Climate Research Facility (ACRF) (Objective 2.3).
- ASCR: Successfully manage the INCITE selection process to ensure effective use of the Leadership Computing Facility (Objective 2.4).
- BES: Provide management leadership and oversight to ensure the successful operation of SNS and HFIR as user facilities and to enhance the scientific impact of the facilities (Objective 2.4).

Table 2.5 – Goal 2.0 Final Letter Grade

⁹ Weightings for each Customer listed within Table 2.4 will be determined following the end of the performance period and will be based on actual Budget Authority for FY 2010.

3.0 Provide Effective and Efficient Science and Technology Program Management

The Contractor provides effective program vision and leadership; strategic planning and development of initiatives; recruits and retains a quality scientific workforce; and provides outstanding research processes, which improve research productivity.

The weight of this Goal is TBD%.

The Provide Effective and Efficient Science and Technology Program Management Goal shall measure the Contractor's overall management in executing S&T programs. Dimensions of program management covered include: 1) providing key competencies to support research programs to include key staffing requirements; 2) providing quality research plans that take into account technical risks, identify actions to mitigate risks; and 3) maintaining effective communications with customers to include providing quality responses to customer needs.

Each Objective within this Goal is to be assigned the appropriate numerical score by the Office of Science, other cognizant HQ Program Offices, and other customers as identified below. The overall Goal score from each HQ Program Office and/or customer is computed by multiplying numerical scores earned by the weight of each Objective, and summing them (see Table 3.1, 3.2, & 3.3). Weightings for each Customer listed below are preliminary, based upon FY 2010 Budget Authority figures, and are provided here for informational purposes only. The final weights to be utilized for determining weighted scores will be determined following the end of the performance period and will be based on actual Budget Authority for FY 2009 provided by the Program Offices listed below.

- Office of Science (SC) (TBD%)
- Office of Defense Nuclear Nonproliferation (DNN) (TBD%)
- Department of Homeland Security (DHS) (TBD%)
- Assistant Secretary for Energy Efficiency and Renewable Energy (EERE) (TBD%)
- Assistant Secretary for Fossil Energy (FE) (TBD%)
- Office of Nuclear Energy (NE) (TBD%)
- Office of Electricity Delivery and Emergency Reliability (OE) (TBD%)
- Nuclear Regulatory Commission (NRC) (TBD%)

The overall performance score and grade for this Goal will be determined by multiplying the overall score assigned by each of the offices identified above by the weightings identified for each and then summing them (see Table 3.4 below). The overall score earned is then compared to Table 3.5 to determine the overall letter grade for this Goal. The Contractor's success in meeting each Objective shall be determined based on the Contractor's performance as viewed by the Office of Science, other cognizant HQ Program Offices, and other customers for which the Laboratory conducts work. Should one or more of the HQ Program Offices choose not to provide an evaluation for this Goal and its corresponding Objectives the weighting for the remaining HQ Program Offices shall be recalculated based

on their percentage of BA for FY 2010 as compared to the total BA for those remaining HQ Program Offices.

Objectives:

3.1 Provide Effective and Efficient Stewardship of Scientific Capabilities and Program Vision

In determining the performance of the Objective the DOE evaluator(s) shall consider the following as measured by peer reviews, existence and quality of strategic plans as determined by SC and scientific community review, Program Office reviews/oversight, etc.:

- Efficiency and Effectiveness of joint planning (e.g., workshops) with outside community;
- Articulation of scientific vision;
- Development of core competencies, ideas for new facilities and research programs; and
- Ability to attract and retain highly qualified staff.

- A to A+** Providing strong programmatic vision that extends past the laboratory and for which the lab is a recognized leader within SC and in the broader research communities; development and maintenance of outstanding core competencies, including achieving superior scientific excellence in both exploratory, high-risk research and research that is vital to the DOE/SC missions; attraction and retention of world-leading scientists; recognition within the community as a world leader in the field.
- B+** Coherent programmatic vision within the laboratory with input from and output to external research communities; development and maintenance of strong core competencies that are cognizant of the need for both high-risk research and stewardship for mission-critical research; attracting and retaining scientific staff who are very talented in all programs.
- B** Programmatic vision that is only partially coherent and not entirely well connected with external communities; development and maintenance of some, but not all core competencies with attention to, but not always the correct balance between, high-risk and mission-critical research; attraction and retention of scientific staff who talented in most programs.
- C** Failure to achieve a coherent programmatic vision with little or no connection with external communities; partial development and maintenance of core competencies (i.e., some are neglected) with imbalance between high-risk and mission-critical research; attracting only mediocre scientists while losing the most talented ones.
- D** Minimal attempt to achieve programmatic vision; little ability to develop any core competencies with a complete lack of high-risk research and ignorance of mission-critical areas; minimal success in attracting even reasonably talented scientists.
- F** No attempt made to achieve programmatic vision; no demonstrated ability to develop any core competencies with a complete lack of high-risk research and ignorance of mission-critical areas; failure to attract even reasonably talented scientists.

3.2 Provide Effective and Efficient Science and Technology Project/Program Planning and Management

In determining the performance of the Objective the DOE evaluator(s) shall consider the following as measured by peer reviews, existence and quality of strategic plans as determined by SC and scientific community review, Program Office and scientific community review/oversight, etc.:

- Quality of R&D and/or user facility strategic plans

- Adequacy in considering technical risks;
- Success in identifying/avoiding technical problems;
- Effectiveness in leveraging (synergy with) other areas of research; and
- Demonstration of willingness to make tough decisions (i.e., cut programs with sub-critical mass of expertise, divert resources to more promising areas, etc.).

- A to** Research plans are proactive, not reactive, as evidenced by making hard decisions and taking strong actions; plans are robust against budget fluctuations – multiple contingencies planned for; new initiatives are proposed and funded through reallocation of resources from less effective programs; plans are updated regularly to reflect changing scientific and fiscal conditions; plans include ways to reduce risk, duration of programs.
- A+**
- B+** Plans are reviewed by experts outside of lab management and/or include broadly-based input from within the laboratory; research plans exist for all program areas; plans are consistent with known budgets and well-aligned with DOE interests; work follows the plan.
- B** Research plans exist for all program areas; work follows the plan.
- C** Research plans exist for most program areas; work does not always follow the plan.
- D** Plans do not exist for a significant fraction of the lab’s program areas, or significant work is conducted outside those plans.
- F** No planning is done.

3.3 Provide Efficient and Effective Communications and Responsiveness to Customer Needs

In determining the performance of the Objective the DOE evaluator(s) shall consider the following as measured by Program Office reviews/oversight, etc.:

- The quality, accuracy and timeliness of response to customer requests for information;
- The extent to which the Contractor keeps the customer informed of both positive and negative events at the Laboratory so that the customer can deal effectively with both internal and external constituencies; and
- The ease of determining the appropriate contact (who is on-point for what).

- A to** Communication channels are well-defined and information is effectively conveyed; important or critical information is delivered in real-time; responses to HQ requests for information from laboratory representatives are prompt, thorough, correct and succinct; laboratory representatives *always* initiate a communication with HQ on emerging issues there are no surprises.
- A+**
- B+** Good communication is valued by all staff throughout the contractor organization; responses to requests for information are thorough and are provided in a timely manner; the integrity of the information provided is never in doubt
- B** Evidence of good communications is noted throughout the contractor organization and responses to requests for information provide the minimum requirements to meet HQ needs; with the exception of a few minor instances HQ is alerted to emerging issues.
- C** Laboratory representatives recognize the value of sound communication with HQ to the mission of the laboratory. However, laboratory management fails to demonstrate that its employees are held accountable for ensuring effective communication and responsiveness; laboratory representatives do not take the initiative to alert HQ to emerging issues.
- D** Communications from the laboratory are well-intentioned but generally incompetent; the laboratory management does not understand the importance of effective communication and responsiveness to the mission of the laboratory.
- F** Contractor representatives are openly hostile and/or non-responsive – emails and phone

calls are consistently ignored; communications typically do not address the request; information provided can be incorrect, inaccurate or fraudulent – information is not organized, is incomplete, or is fabricated.

Office of Science, Program Office Notable Outcomes

- BER: Emphasis in FY 2010 should be on the timely completion of ARRA milestones for BESC (Objective 3.2)
- BES: Provide effective oversight of the management and initial operations of the Energy Frontier Research Centers: “Fluid Interface Reactions, Structures and Transport (FIRST) Center” and “Energy Frontier Center for defect Physics in Structural Materials (CDP)” (Objective 3.2).
- NP: Provide management leadership in restructuring the National Isotope Data Center (Objective 3.2).
- ASCR: Continue to emphasize OLCF branding (Objective 3.3).

Table 3.5 –Goal 3.0 Final Letter Grade

¹³ The final weights to be utilized for determining weighted scores will be determined following the end of the performance period and will be based on actual Budget Authority for FY10.

4.0 Provide Sound and Competent Leadership and Stewardship of the Laboratory

The weight of this Goal is 20%.

This Goal evaluates the Contractor's Leadership capabilities in leading the direction of the overall Laboratory, the responsiveness of the Contractor to issues and opportunities for continuous improvement, and corporate office involvement/commitment to the overall success of the Laboratory.

- 4.1 Leadership and Stewardship of the Laboratory (Provide a Distinctive Vision for the Laboratory and an Effective Plan for Accomplishment of the Vision to Include Strong Partnerships Required to Carry Out those Plans)
- 4.2 Management and Operation of the Laboratory (Provide for Responsive and Accountable Leadership throughout the Organization)
- 4.3 Contractor Value-added (Provide Efficient and Effective Corporate Office Support as Appropriate)

In measuring the performance of the above Objectives, the DOE evaluator(s) shall consider performance trends, outcomes and continuous improvement in overall Contractor Leadership's planning for, integration of, responsiveness to and support for the overall success of the Laboratory. This may include, but is not limited to, the quality of Laboratory Vision/Mission strategic planning documentation and progress in realizing the Laboratory vision/mission; the ability to establish and maintain long-term partnerships/relationships with the scientific and local communities as well as private industry that advance, expand, and benefit the ongoing Laboratory mission(s) and/or provide new opportunities/capabilities; implementation of a robust assurance system; Laboratory and Corporate Office Leadership's ability to instill responsibility and accountability down and through the entire organization; overall effectiveness of communications with DOE; understanding, management and allocation of the costs of doing business at the Laboratory commensurate with associated risks and benefits; utilization of corporate resources to establish joint appointments or other programs/projects/activities to strengthen the Laboratory; and advancing excellence in stakeholder relations to include good corporate citizenship within the local community.

Office of Science, Notable Outcomes

- Laboratory leadership will develop a strategic plan for the future scientific and technical activities of the laboratory, which aligns with Office of Science and Department goals, and a detailed strategy for executing the plan during the next 2-5 years (Objective 4.1).
- Laboratory leadership will develop a plan for future computing needs from within the currently available infrastructure and funding (Objective 4.1).
- Laboratory leadership will provide a strategy for its Work for Others (WFO) program; the WFO program should align with and support Office of Science, Department, and Laboratory goals. The strategy will specifically address the Laboratory's intentions with

respect to national security WFO and its place in the overall national security future of the Laboratory (Objective 4.1).

- Laboratory leadership will make significant progress in defining and implementing its contractor assurance system. It is expected that a collaborative and uniform approach to this issue among all contractors will be evident (Objective 4.2).
- The contractor will fill all key leadership positions at the laboratory in a timely manner (Objective 4.3).

ELEMENT	Letter Grade	Numerical Score	Objective Weight	Total Points	Total Points

Table 4.2 –Goal 4.0 Final Letter Grade

5.0 Sustain Excellence and Enhance Effectiveness of Integrated Safety, Health, and Environmental Protection.

The weight of this Goal is 25%.

This Goal evaluates the Contractor's overall success in deploying, implementing, and improving integrated ES&H systems that efficiently and effectively support the mission(s) of the Laboratory.

- 5.1 Provide a Work Environment that Protects Workers and the Environment
- 5.2 Provide Efficient and Effective Implementation of Integrated Safety, Health and Environment Management
- 5.3 Provide Efficient and Effective Waste Management, Minimization, and Pollution Prevention

In measuring the performance of the above Objectives, the DOE evaluator(s) shall consider performance trends, outcomes and continuous improvement in protecting workers, the public and the environment. This may include, but is not limited to, minimizing the occurrence of environment, safety and health (ESH) incidents; effectiveness of the Integrated Safety Management (ISM) system relative to the Core Functions and Guiding Principles of ISM and addresses efficiency with respect to the performance of the ISM program at the Laboratory; the effectiveness of work planning, feedback, and improvement processes; the strength of the safety culture throughout the Laboratory; the effective development, implementation and maintenance of an efficient and effective Environmental Management system covering cradle to grave Laboratory level management of waste, pollution prevention and regulatory compliance; and the effectiveness of responses to identified hazards and/or incidents.

Office of Science, Notable Outcomes

- UT-Battelle will sustain a downward trend of, and severity of, recordable injuries through leadership in the management of a comprehensive safety program that emphasizes Human Performance Improvement, Management Observations, additional focus on employee-led safety teams, and extensive safety communication. [Objective 5.1]
- UT-Battelle will demonstrate effective radiological control of work activities by maintaining employee radiological doses as low as reasonably achievable (ALARA). [Objective 5.2]
- UT-Battelle will sustain an environmental management system that demonstrates continued commitment to compliance with environmental requirements, effective management of Laboratory waste streams, and demonstrates environmental sustainability and pollution prevention. [Objective 5.3]

ELEMENT	Letter Grade	Numerical Score	Objective Weight	Total Points	Total Points
5.0 Sustain Excellence and Enhance Effectiveness of Integrated Safety, Health, and Environmental Protection					
5.1 Provide a Work Environment that Protects Workers and the Environment			45%

Table 5.2 –Goal 5.0 Final Letter Grade

6.0 Deliver Efficient, Effective, and Responsive Business Systems and Resources that Enable the Successful Achievement of the Laboratory Mission(s)

The weight of this Goal is 20%.

This Goal evaluates the Contractor's overall success in deploying, implementing, and improving integrated business systems that efficiently and effectively support the mission(s) of the Laboratory.

- 6.1 Provide an Efficient, Effective, and Responsive Financial Management System
- 6.2 Provide an Efficient, Effective, and Responsive Acquisition Management System
- 6.3 Provide an Efficient, Effective, and Responsive Property Management System
- 6.4 Provide an Efficient, Effective, and Responsive Human Resources Management System and Diversity Program
- 6.5 Provide Efficient, Effective, and Responsive Management Systems for Internal Audit and Oversight; Quality; Information Management; and Other Administrative Support Services as Appropriate
- 6.6 Demonstrate Effective Transfer of Technology and Commercialization of Intellectual Assets

In measuring the performance of the above Objectives, the DOE evaluator(s) shall consider performance trends, outcomes and continuous improvement in the development, deployment and integration of foundational program (e.g., Quality, Financial Management, Acquisition Management, Requirements Management, and Human Resource Management) systems across the Laboratory. This may include, but is not limited to, minimizing the occurrence of management systems support issues; quality of work products; continual improvement and improvement driven by the results of audits, reviews, and other performance information; the integration of system performance metrics and trends; the degree of knowledge and appropriate utilization of established system processes/procedures by Contractor management and staff; benchmarking and performance trending analysis. The DOE evaluator(s) shall also consider the stewardship of the pipeline of innovations and resulting intellectual assets at the Laboratory along with impacts and returns created/generated as a result of technology transfer and intellectual asset deployment activities.

Office of Science, Notable Outcomes

- UT-Battelle will demonstrate that it is providing efficient systems and processes that facilitate R&D activities and provide accurate and timely financial reporting to DOE and are compliant with DOE accounting requirements. [Objective 6.1]
- UT-Battelle will demonstrate that it is providing an effective management system to accurately track, monitor, and report on ARRA funds as determined through external and internal audits. [Objective 6.1]
- UT-Battelle will demonstrate that it is providing effective acquisition/ contract management system by meeting or exceeding 90% of the DOE Balanced Scorecard goals. [Objective 6.2]

- UT-Battelle will demonstrate that it is providing effective property management system by meeting or exceeding 90% of the DOE Balanced Scorecard goals. [Objective 6.3]
- UT-Battelle will demonstrate an efficient, effective, and responsive human resources management system that is compliant with laws and regulations, facilitates cooperative labor-management relationships, provides effective talent recruitment and retention and includes a competitive total rewards system. [Objective 6.4]
- UT-Battelle will demonstrate a quality program deployment strategy that is based on appropriate consensus standards and contributes to scientific excellence, research integrity, and continuous improvement. [Objective 6.5]

Table 6.2 –Goal 6.0 Final Letter Grade

7.0 - Sustain Excellence in Operating, Maintaining, and Renewing the Facility and Infrastructure Portfolio to Meet Laboratory Needs.

The weight of this Goal is 20%.

This Goal evaluates the overall effectiveness and performance of the Contractor in planning for, delivering, and operations of Laboratory facilities and equipment needed to ensure required capabilities are present to meet today's and tomorrow's mission(s) and complex challenges.

- 7.1 Manage Facilities and Infrastructure in an Efficient and Effective Manner that Optimizes Usage, Minimizes Life Cycle Costs, and Ensures Site Capability to Meet Mission Needs
- 7.2 Provide Planning for and Acquire the Facilities and Infrastructure Required to support the Continuation and Growth of Laboratory Missions and Programs

In measuring the performance of the above Objectives, the DOE evaluator(s) shall consider performance trends, outcomes and continuous improvement in facility and infrastructure programs. This may include, but is not limited to, the management of real property assets to maintain effective operational safety, worker health, environmental protection and compliance, property preservation, and cost effectiveness; effective facility utilization, maintenance and budget execution; day-to-day management and utilization of space in the active portfolio; maintenance and renewal of building systems, structures and components associated with the Laboratory's facility and land assets; management of energy use and conservation practices; the integration and alignment of the Laboratory's comprehensive strategic plan with capabilities; facility planning, forecasting, and acquisition; the delivery of accurate and timely information required to carry out the critical decision and budget formulation process; quality of site and facility planning documents; and Cost and Schedule Performance Index performance for construction projects.

Office of Science, Notable Outcomes

The ORNL Laboratory Business Plan, "*Department of Energy Laboratory Plan for the Office of Science's Oak Ridge National Laboratory*", (April 2009), establishes the facility and infrastructure gaps requiring attention to ensure ORNL scientific core capabilities are enabled. As identified through this plan, the following FY10 targets are critical outcomes required for success of ORNL core capabilities:

- **IGPP**
 - UT-Battelle will ensure basic facility and infrastructure needs are met through funding an aggressive IGPP program completing the projects on schedule and within cost as identified in the annual Site Office agreed upon baseline. [Objective 7.1]
- **Energy Savings Performance Contract**
 - UT-Battelle will provide sufficient support to the ORNL ESPC work such that the ESPC contractor's schedule is achieved. [Objective 7.1]

- **ORNL Site Project Integration**
UT-Battelle will provide a project integration function that ensures mission accomplishment, safety, program continuity, and emergency management. This function will provide an effective interface between multiple funding sources and multiple operating contractors. [Objective 7.1]
- **Leadership Computing**
 - UT-Battelle will identify critical scope, allocate resources and provide infrastructure to support the next supercomputing initiative (beyond 2 petaflops). [Objective 7.2]
- **Laboratory Infrastructure Initiatives**
UT-Battelle will prepare Conceptual Design reports, obtain CD-0 approval and complete CD-1 preparation (as appropriate) for:
 - a new laboratory/high bay facility that will enable translation of science to applied technology. [Objective 7.2]
 - modernization of DOE-owned utility systems that are beyond design life and experiencing an increasing number of failures. [Objective 7.2]
- **Modernization of Laboratory Facilities (MLF)**
 - UT-Battelle will continue construction scope on schedule and within cost (as identified within the project execution plan) for this SLI and ARRA funded project to replace chemistry labs. [Objective 7.2]

ELEMENT	Letter Grade	Numerical Score	Objective Weight	Total Points	Total Points
7.0 Sustain Excellence and Enhance Effectiveness of Integrated Safety, Health, and Environmental Protection					
7.1 Manage Facilities and Infrastructure in an Efficient and Effective Manner that Optimizes Usage, Minimizes Life Cycle Costs, and Ensures Site Capability to Meet Mission Needs			50%		
7.2 Provide Planning for and Acquire the Facilities and Infrastructure Required to support the Continuation and Growth of Laboratory Missions and Programs			50%		
Performance Goal 7.0 Total					

Table 7.1 – Goal 7.0 Performance Rating Development

Total Score	4.3-4.1	4.0-3.8	3.7-3.5	3.4-3.1	3.0-2.8	2.7-2.5	2.4-2.1	2.0-1.8	1.7-1.1	1.0-0.8	0.7-0

Table 7.2 –Goal 7.0 Final Letter Grade

8.0 Sustain and Enhance the Effectiveness of Integrated Safeguards and Security management (ISSM) and Emergency Management Systems.

The weight of this Goal is 15%.

This Goal evaluates the Contractor's overall success in safeguarding and securing Laboratory assets that supports the mission(s) of the Laboratory in an efficient and effective manner and provides an effective emergency management program.

- 8.1 Provide an Efficient and Effective Emergency Management System
- 8.2 Provide an Efficient and Effective System for Cyber-Security
- 8.3 Provide an Efficient and Effective System for the Protection of Special Nuclear Materials, Classified Matter, and Property
- 8.4 Provide an Efficient and Effective System for the Protection of Classified and Sensitive Information

In measuring the performance of the above Objectives, the DOE evaluator(s) shall consider performance trends, outcomes and continuous improvement in the safeguards and security, cyber security and emergency management program systems. This may include, but is not limited to, the commitment of leadership to strong safeguards and security, cyber security and emergency management systems; the integration of these systems into the culture of the Laboratory; the degree of knowledge and appropriate utilization of established system processes/procedures by Contractor management and staff; maintenance and the appropriate utilization of Safeguards, Security, and Cyber risk identification, prevention, and control processes/activities; and the prevention and management controls and prompt reporting and mitigation of events as necessary.

Office of Science, Notable Outcomes

- UT-Battelle will conduct a successful annual site exercise that demonstrates a comprehensive emergency response system. [Objective 8.1]
- UT-Battelle will complete the certification and accreditation processes required to renew ORNL's Approval To Operate (ATO) the ORNL Unclassified network. [Objective 8.2]
- Maintain/improve a facility security program as evidenced by satisfactory performance on internal and external reviews. [Objective 8.3]
- UT-Battelle will complete a self-assessment of the CI Program to the DOE CI Assessment Management Plan that demonstrates a satisfactorily functioning program; and, meet acceptable CI reporting requirements. [Objective 8.4]

ELEMENT	Letter Grade	Numerical Score	Objective Weight	Total Points	Total Points
8.0 Sustain and Enhance the Effectiveness of Integrated Safeguards and Security management (ISSM) and Emergency Management Systems.					
8.1 Provide an Efficient and Effective Emergency Management System			15%		
8.2 Provide an Efficient and Effective System for Cyber-Security			25%

ANNEX OF INFORMATION AND INTELLECTUAL PROPERTY

Annex on Information and Intellectual Property

Article 1

Subject Matter and Definitions

- 1.1 This Annex covers the dissemination, exchange, use and protection of information and intellectual property pertaining to protectable subject matter, in the execution of this Agreement. Unless otherwise provided, the terms used in this Annex shall have the same meaning as in this Agreement.
- 1.2 **Information** shall mean published data, drawings, designs, computations, reports and other documents, documented data or methods of research and development, as well as the description of inventions and discoveries, whether or not protectable, which are not covered by the term Intellectual Property as defined in paragraph 1.3 below.
- 1.3 **Intellectual Property** shall have the meaning defined in Article 2 of the Convention Establishing the World Intellectual Property Organization, done at Stockholm on July 14, 1967. For the purposes of this Annex, Intellectual Property may include confidential information such as know-how or trade secrets provided that they are unpublished, and in written or otherwise documented form, and
- a) have been held in confidence by their owner,
 - b) are not generally known or available to the public from other sources, and/or are not generally available to the public in printed publications and/or other readable documents,
 - c) have not been made available by their owner to other parties without an obligation concerning confidentiality, and
 - d) are not available to the receiving party without an obligation concerning confidentiality.
- 1.4 **Background Intellectual Property** shall mean Intellectual Property that has been or is acquired, developed or produced, before the entry into force of this Agreement, or outside of the scope of this Agreement.
- 1.5 **Generated Intellectual Property** shall mean Intellectual Property that is generated or acquired with full ownership by a Member, acting through a Domestic Agency or Entity, or by the ITER Organization or jointly pursuant to and in the course of the performance of this Agreement.
- 1.6 **Improvements** shall mean any technological advancement to existing Intellectual Property, including derivative works.
- 1.7 **Entity or Entities** shall mean any entity with which a Domestic Agency or the ITER Organization has entered into a contract for the supply of goods or services for the purposes of this Agreement.

General Provisions

- 2.1. Subject to the provisions of this Annex, the Members support the widest possible dissemination of Generated Intellectual Property.
- 2.2. Each Member shall ensure that the other Members and the ITER Organization can obtain the rights to Intellectual Property allocated in accordance with this Annex. Contracts placed by each Member or the ITER Organization with any Entity shall be consistent with the provisions of this Annex. In particular, appropriate public procurement procedures must be followed by all Members and the ITER Organization in order to ensure compliance with this Annex.

The ITER Organization shall properly identify in a timely manner the Background Intellectual Property of the contracting Entities with a view to obtaining for the ITER Organization and the Members access to this Background Intellectual Property in conformity with this Annex.

Each Member shall properly identify in a timely manner the Background Intellectual Property of the contracting Entities with a view to obtaining for the ITER Organization and the Members access to this Background Intellectual Property in conformity with this Annex.

Each Member and the ITER Organization shall ensure access for the ITER Organization and the other Members to inventions and other Intellectual Property generated or incorporated in the execution of the contracts provided that inventors' rights are respected, in conformity with this Annex.

- 2.3. This Annex does not alter or prejudice the allocation of rights between a Member and its nationals. Whether the rights concerning Intellectual Property shall be held by a Member or its nationals shall be determined as between themselves in accordance with their applicable laws and regulations.
- 2.4. If a Member generates or acquires full ownership of Intellectual Property in the course of the execution of this Agreement, the Member shall notify all other Members and the ITER Organization in a timely manner and provide details of such Intellectual Property.

Article 3

Dissemination of Information and Scientific Publications whether or not Copyrighted

Each Member shall be entitled, for non commercial uses, to translate, reproduce, and publicly distribute Information directly arising from the execution of this Agreement. All publicly distributed copies of a copyrighted work prepared under this provision shall indicate the names of the authors of the work unless an author explicitly declines to be named.

Article 4

Intellectual Property Generated or Incorporated by a Member, a Domestic Agency or Entity

4.1. Generated Intellectual Property:

4.1.1 If protectable subject matter is generated by a Member, a Domestic Agency or Entity in the course of the execution of this Agreement, the Member, the Domestic Agency or Entity shall be entitled to acquire all rights, title and interest in all countries in and to such intellectual property according to applicable laws and regulations.

4.1.2 Any Member, acting through a Domestic Agency or Entity, which has generated Intellectual Property in the course of the execution of this Agreement shall grant on an equal and non-discriminatory basis an irrevocable, non-exclusive, royalty-free license to such Generated Intellectual Property to other Members and the ITER Organization, with the right of the ITER Organization to sub-license, and the right of the other Members to sub-license within their respective territory, for the purposes of publicly sponsored fusion research and development programmes.

4.1.3 Any Member, acting through a Domestic Agency or Entity, which has generated Intellectual Property in the course of the execution of this Agreement shall make available on an equal and non-discriminatory basis a non-exclusive license to such Generated Intellectual Property to the other Members for commercial fusion use, with the right to sub-license for such use by such Members' own domestic third parties within such Members' own territory on terms no less favorable than the basis upon which such Member licenses such Generated Intellectual Property to third parties within or outside such Member's own territory. As long as such terms have been offered such license shall not be denied. The above license may be revoked only in case the licensee does not fulfil its contractual obligations.

4.1.4 Any Member, acting through a Domestic Agency or Entity, which has generated Intellectual Property pursuant to this Agreement is encouraged to enter into commercial arrangements with the other Members, Domestic Agencies, Entities and third parties in order to allow use of Generated Intellectual Property in fields other than fusion.

4.1.5 Members, and their Domestic Agencies or Entities, that license or sub-license Generated or Background Intellectual Property pursuant to this Annex, will maintain records of any such licensing, which records will be available to other Members, such as through the ITER Organization.

4.2. Background Intellectual Property:

4.2.1. Background Intellectual Property shall remain the property of the party that owns this intellectual property.

4.2.2. Any Member, acting through a Domestic Agency or Entity, which has incorporated Background Intellectual Property, except confidential information such as know-how and trade secrets into the items provided to the ITER Organization which Background Intellectual Property is required:

Handwritten signatures and initials at the bottom of the page, including a large signature on the left, a signature in the middle, and initials on the right.

- to construct, operate, use or integrate technology for research and development in relation to the ITER facilities,
- to maintain or repair the item provided, or
- when decided necessary by the Council, in advance of any public procurement,

shall grant on an equal and non-discriminatory basis an irrevocable, non-exclusive, royalty-free license to such Background Intellectual Property to other Members and to the ITER Organization, with the right of the ITER Organization to sub-license and the right of Members to sub-license to their research institutes and institutes of higher education within their respective territory for the purposes of publicly sponsored fusion research and development programmes.

4.2.3. (a) Any Member, acting through a Domestic Agency or Entity, which has incorporated background confidential information into the items provided to the ITER Organization which background confidential information is required:

- to construct, operate, use or integrate technology for research and development in relation to the ITER facilities,
- to maintain or repair the item,
- when decided necessary by the Council, in advance of any public procurement, or
- for safety, for quality assurance and quality control reasons as required by regulatory authorities,

shall ensure that the ITER Organization has an irrevocable, non-exclusive, royalty-free license available to use such background confidential information including manuals or instructional training materials for the construction, operation, maintenance and repair of the ITER facilities.

(b) When confidential information is made available to the ITER Organization, it must be clearly marked so, and transmitted pursuant to an arrangement for confidentiality. The recipient of such information shall use it only for purposes set forth in 4.2.3 (a) and shall preserve its confidentiality to the extent provided in that arrangement. Compensation for damages arising from the misuse of such background confidential information by the ITER Organization shall be paid by the ITER Organization.

4.2.4. Any Member, acting through a Domestic Agency or Entity, which has incorporated background confidential information such as know how or trade secrets into the items provided to the ITER Organization which background confidential information is required:

- to construct, operate, use or integrate technology for research and development in relation to the ITER facilities,
- to maintain or repair the item provided, or

[Handwritten signatures and initials at the bottom of the page]

- when decided necessary by the Council, in advance of any public procurement,

shall use its best efforts to either grant a commercial license to such background confidential information or supply the same items incorporating the background confidential information to the receiving party by means of private contracts with financial compensation for publicly sponsored fusion research and development programmes of a Member on terms no less favorable than the basis upon which such Member licenses such background confidential information or supplies the same items to third parties within or outside such Member's own territory. As long as such terms have been offered, such license or supply of such item shall not be denied. The license, if granted, may be revoked only in case the licensee does not fulfil its contractual obligations.

4.2.5. Any Member, acting through a Domestic Agency or Entity, which has incorporated Background Intellectual Property, including background confidential information, in the execution of this Agreement shall use its best efforts to make sure that the component incorporating the Background Intellectual Property is available on reasonable terms and conditions, or use its best efforts to grant on an equal and non-discriminatory basis a non-exclusive license to the other Members for commercial fusion use, with the right to sub-license for such use by such Members' own domestic third parties within such Members' own territory, on terms no less favorable than the basis upon which such Member licenses such Background Intellectual Property to third parties within or outside such Member's own territory. As long as such terms have been offered, such license shall not be denied. The above license may be revoked only in case the licensee does not fulfil its contractual obligations.

4.2.6. Any Member, acting through a Domestic Agency or Entity, is encouraged to make available for commercial purposes other than those set out in article 4.2.5. to the other Members, any Background Intellectual Property incorporated into the items provided to the ITER Organization which Background Intellectual Property was required:

- to construct, operate, use or integrate technology for research and development in relation to the ITER facilities,
- to maintain or repair the item provided, or
- when decided necessary by the Council, in advance of any public procurement.

Such Background Intellectual Property, if licensed by the owners to the Members, shall be licensed on an equal and non-discriminatory basis.

4.3. Licensing to Third Parties of Non-Members:

Any license on Generated Intellectual Property granted by the Members to third parties of non-Members shall be subject to the rules on licensing to third parties determined by the Council. Such rules shall be determined by unanimous decision of the Council.

2/3

AKH KKH

Article 5

Intellectual Property Generated or Incorporated by the ITER Organization

5.1 Generated Intellectual Property:

5.1.1 Where intellectual property is generated by the ITER Organization, in the course of the execution of this Agreement, it shall be owned by the ITER Organization. The ITER Organization shall develop appropriate procedures for the recording, reporting and protection of the Intellectual Property.

5.1.2 Such intellectual property shall be licensed by the ITER Organization to the Members on an equal, non-discriminatory, irrevocable, non-exclusive, royalty-free basis, with the right of the Members to sub-license within their territory for the purpose of fusion research and development.

5.1.3 Generated Intellectual Property that has been developed or acquired by the ITER Organization in the course of the execution of this Agreement shall be licensed to the Members on an equal, non-discriminatory, non-exclusive basis for commercial use, with the right to sub-license for such use by such Members' own domestic third parties within such Members' own territory on terms no less favorable than the basis upon which the ITER Organization licenses such Generated Intellectual Property to third parties. As long as such terms have been offered, such license shall not be denied. The above license may be revoked only in case the licensee does not fulfil its contractual obligations.

5.2 Background Intellectual Property:

5.2.1. Provided that it has the pertinent rights, when the ITER Organization incorporates Background Intellectual Property which is required:

- to construct operate, use or integrate technology for research and development in relation to the ITER facilities,
- to create improvements and derivative works,
- to repair and maintain the ITER facilities, or
- when decided necessary by the Council, in advance of any public procurement,

the ITER Organization shall make the necessary arrangements in order to sub-license that Background Intellectual Property on an equal and non-discriminatory basis by an irrevocable, non-exclusive, royalty-free license to the Members, with the right of the Members to sub-license within their respective territory for the purpose of fusion research and development. The ITER Organization shall make its best efforts to acquire the pertinent rights.

5.2.2. For Background Intellectual Property, including background confidential information, incorporated by the ITER Organization in the course of the execution of this Agreement, the ITER Organization shall use its best efforts to make available on an equal and non-discriminatory basis a non-exclusive license to the Members for commercial fusion use, with the right to sub-license for such use by such Members'

3/2

RRS 松 沢

OM

TKH

own domestic third parties within such Members' own territory on terms no less favorable than the basis upon which the ITER Organization licenses such Background Intellectual Property to third parties. As long as such terms have been offered, such license shall not be denied. The above license may be revoked only in case the licensee does not fulfil its contractual obligations.

- 5.2.3. The ITER Organization shall use its best efforts to make available to the Members any Background Intellectual Property, including background confidential information, for purposes other than those set out in article 5.2.2. Such Background Intellectual Property, if licensed by the ITER Organization to the Members, shall be licensed on an equal and non-discriminatory basis.

5.3 Licensing to third parties of a non-Member:

Any license granted by the ITER Organization to third parties of a non-Member shall be subject to the rules on licensing to third parties determined by the Council. Such rules shall be determined by unanimous decision of the Council.

Article 6

Intellectual Property Generated by the ITER Organization's Staff and other Researchers

- 6.1. Intellectual Property generated by directly employed and seconded staff of the ITER Organization shall be owned by the ITER Organization and treated in corresponding employment contracts or regulations consistent with the provisions set out herein.
- 6.2. Intellectual Property generated by visiting researchers who are participating in the activities of the ITER Organization through an arrangement with the ITER Organization for undertaking specific activities and who are directly involved in general programmes of the ITER Organization exploitation, shall be owned by the ITER Organization unless otherwise agreed by the Council.
- 6.3. Intellectual Property generated by visiting researchers not involved in general programmes of the ITER Organization exploitation shall be subject to an arrangement with the ITER Organization pursuant to conditions established by the Council.

Article 7

Protection of Intellectual Property

- 7.1. When a Member acquires or seeks protection for Generated Intellectual Property developed or acquired by that Member, such Member shall notify in a timely manner and provide details of such protection to all other Members and to the ITER Organization. If a Member decides not to exercise its right to seek protection for Generated Intellectual Property in any country or region, it shall notify the ITER Organization in a timely manner of its decision, and the ITER Organization may then seek to obtain such protection either directly or via the Members.

2
3/2

ASB 松 裕

TKH

- 7.2. For Generated Intellectual Property developed or acquired by the ITER Organization, the Council shall adopt, as soon as practicable, appropriate procedures for the reporting, protection and recording of such Intellectual Property for example through the creation of a database to which the Members may have access.
- 7.3. In the event of a joint creation, the participating Members and/or the ITER Organization shall have the right to seek to obtain in co-ownership Intellectual Property in any State they choose.
- 7.4. There shall be co-ownership of Intellectual Property when created by two or more Members or by one or more Members together with the ITER Organization and when the features of such intellectual property are not capable of being separated for the purpose of applying for, obtaining and/or maintaining in force the protection of the relevant intellectual property right. In such a case the joint creators shall agree among themselves by means of a co-ownership arrangement on the allocation of and the terms of exercising the ownership of the said Intellectual Property.

Article 8

Decommissioning

- 8.1. For the decommissioning phase after the transfer of the facilities to the Host State, the Host Party shall provide to the other Members all relevant information, whether published or not, generated or used during the decommissioning of the ITER facilities.
- 8.2. Intellectual Property generated by the Host State during the decommissioning phase shall not be affected by this Annex.

Article 9

Termination and Withdrawal

- 9.1. The Council shall, as necessary, address any issues relating to the termination of this Agreement or the withdrawal of a Party in so far as they relate to Intellectual Property, that are not fully addressed in this Agreement.
- 9.2. The Intellectual Property rights conferred and obligations imposed upon the Members and the ITER Organization by the provisions of this Annex, in particular all granted licenses, shall subsist after the termination of this Agreement, or after the withdrawal of a Party.

Article 10

Royalties

Royalties received from the licensing of Intellectual Property by the ITER Organization shall be a resource of the ITER Organization.

Article 11

Settlement of Disputes

Any dispute arising out of or in connection with this Annex shall be settled in accordance with Article 25 of this Agreement.

Article 12

Awards to Inventors

The Council shall determine appropriate terms and conditions for the remuneration of the Staff when such Staff generates Intellectual Property.

Article 13

Liability

When negotiating license arrangements, the ITER Organization and the Members shall, as appropriate, include suitable provisions governing their respective liabilities, rights and obligations arising from the execution of those license arrangements.

PART III - LIST OF DOCUMENTS, EXHIBITS AND OTHER ATTACHMENTS

SECTION J - LIST OF ATTACHMENTS

APPENDIX I

INTELLECTUAL PROPERTY MANAGEMENT PLAN

In accordance with paragraph (a)(3) of the Section H clause entitled “Intellectual Property-BioEnergy Science Center”, attached is the Intellectual Property Management Plan which has been approved by the Department of Energy.

BioEnergy Science Center IP Management Plan

1. Introduction

The principal goals of this intellectual property management plan for the BioEnergy Science Center (BESC) include:

- Broad and rapid dissemination of information among the BESC team members to maximize productivity and progress;
- Timely and equitable distribution of the new technology to researchers in relevant fields including, but not necessarily limited to biofuels development; and
- Effective, coordinated commercialization of technologies through formation of promising start-up ventures as well as licensing to corporate entities pursuing biofuels development.

The BESC is comprised of researchers at the following member institutions which are universities, DOE National Laboratories, a non-profit research foundation, or industrial research partners.

DOE National Labs

- Oak Ridge National Laboratory
- National Renewable Energy Research Laboratory
- Brookhaven National Laboratory

Non-profit Research Foundation

- Samuel Roberts Noble Foundation

Universities

- The University of Tennessee:
- University of Georgia
- Georgia Institute of Technology
- Dartmouth College
- University of California at Riverside
- Washington State University
- University of Minnesota
- Virginia Polytechnic Institute and State University
- North Carolina State University
- Cornell University

Industrial Team Members

- ArborGen, LLC
- Mascoma Corporation
- Verenum Corporation

2. Definitions

- 2.1 The BioEnergy Science Center (“BESC”) is a program funded under BESC Funding. The research of BESC is performed by employees of BESC member institutions: Oak Ridge National Laboratory, National Renewable Energy Laboratory, Georgia Institute of Technology, University of Georgia, University of Tennessee, Dartmouth College, ArborGen LLC, Verenum Corporation, Mascoma Corporation, The Samuel Roberts Noble Foundation, Inc., Brookhaven National Laboratory, Cornell University, North Carolina State University, University of California-Riverside, University of Minnesota, Virginia Polytechnic Institute and State University, and Washington State University, and, such other industry and non-profit participants as may be added from time to time by BESC (collectively referred to as BESC members or member institutions.)
- 2.2 “BESC Funding” means the funding for BESC that was awarded by DOE to ORNL under Contract No. DE-AC02-00OR22725 in connection with Funding Opportunity Announcement number DE PS02-06ER64304.
- 2.3 “BESC Invention” means an invention conceived or first actually reduced to practice under BESC Funding. Title to BESC Inventions follows inventorship as per Federal law. The BESC member institution which employs the inventors will have the right to elect title to BESC Inventions.
- 2.4 “Core Technology” means the following application areas:
- a) Formation of biomass with reduced recalcitrance
 - b) New tools for biomass characterization
 - c) Microbial/enzymatic hydrolysis of lignocellulose

For the avoidance of doubt, these Core Technology areas do not include applications that are not related to biomass modification for biofuels production. For example, if an invention has applications both in biofuel production and in the pharmaceutical industry or in the non-biofuel specialty chemicals industry, those non-biofuel applications would be outside the core technical areas. Licensing in fields other than the Core Technologies shall be at the discretion of the party or parties owning the invention.

2.5 “BESC IP” means BESC Inventions, non-patentable materials (including biological materials), mask works, trademarks and copyrighted works that arise under BESC Funding.

3. BESC Commercialization Council

BESC will form a Commercialization Council to oversee rapid dissemination of invention disclosures as well as to consolidate licensing of BESC IP in the Core Technologies to a single, streamlined “one stop shop.” The Council will be comprised of one representative from each of the BESC member institutions for as long as that institution is an active member of the BESC, i.e., for the time that member continues to receive BESC Funding. In addition, the invention owner’s institution, regardless of its current status as a subcontractor, will be included on the BESC Commercialization Council for purposes of licensing the BESC IP that it owns, solely or jointly.

The function of this Council is to review and evaluate new BESC IP, and consider the technical merit and commercial potential of each. The Council is intended as a forum for discussion regarding further maturation of technologies and sharing of insights about market opportunities. It may also provide recommendations to the IP owners regarding filing of patent applications. This forum will serve as a communications means and a clearing house for distribution of information about BESC inventions

throughout the team. The decision to commit resources for patent filing will remain with the owning institution(s),

The progress of any patent application preparation and prosecution will be monitored by this Council. As IP strategies are developed and market analyses are conducted, this group will explore licensing leads and commercialization opportunities in the Core Technology areas. Licensing inquiries will be communicated to the Council by any BESC member who receives such expressions of interest.

ORNL will serve as coordinator for the Commercialization Council.

4. Ownership of inventions

The statutes governing disposition of title to new inventions under Government agreements will be followed:

- i. The Bayh-Dole Act, 35 U.S.C. 200 et seq., requires that Universities, Non-Profits and small business who are participating under a funding agreement (as defined in the Bayh-Dole Act) will have the option to retain title to their own employees' inventions.
- ii. The Federal Non Nuclear Energy Act of 1974, 42 U.S.C. 5908, will govern disposition of title for all other parties, regardless of whether they receive government funding, and it requires that the Government obtains title to new inventions unless a waiver is granted.
- iii. Inventions made by employees of ORNL, NREL and Brookhaven National Laboratory will be subject to the M&O contract terms and conditions with respect to ownership of inventions made by lab employees. The M&O contract generally provides that the lab has the right to elect to retain title to inventions made by their lab employees.

5. Filing of Patent Applications

Each owner institution will protect its BESC Inventions according to its standard practices and is responsible for the costs of any domestic and foreign protection. DOE will have the right to file patent applications if the owner institution does not wish to do so, and has indicated a willingness to use its waiver authority to allow others to file in such situations.

6. IP Management

BESC will provide a simplified means for industry to negotiate licenses and other agreements relating to BESC IP (e.g., CRADA, WFO, bailment, option) by centralizing these activities with a lead institution, (normally ORNL but another BESC member may be designated as the lead by the Commercialization Council, depending on the circumstances), so as to provide a "One Stop Shop." The University of Georgia Research Foundation will be the normal lead institution for negotiating sponsored research contracts with industrial sponsors on behalf of the BESC members and will distribute funds as appropriate using normal subcontracting mechanisms.

BESC members will enter into a separate inter-institutional (IIA) licensing/royalty-sharing / commercialization agreement with ORNL for the implementation of centralized licensing and subsequent royalty distributions. The IIA will allow ORNL, or another designated lead licensing institution, to negotiate commercial licenses or sublicenses to any/all BESC IP. The IIA will also address the details of royalty distribution from the licensing of bundled or jointly owned patents. Licensing and partnering shall be conducted in a manner that maximizes benefit to the US economy and

provides fairness of opportunity with respect to third party access to lab partnering and licensing opportunities. M&O (Management and Operating) contract provisions (e.g., fairness of opportunity, US manufacturing) continue to apply to inventions of NREL, ORNL and Brookhaven.

On behalf of the IP owners, the lead licensing institution will manage all licensing matters, including contract management, licensing income distribution within BESC (according to allocation decisions made by the BESC IP/Licensing Investment Committee) and to each IP owner, and reporting. The lead licensing institution shall not license BESC IP outside of the Core Technology areas, except with the concurrence of the IP owner(s), allowing those owners to license to third parties in fields other than Core Technologies at their sole discretion.

Other activities with third parties relating to access to BESC IP (e.g., NDAs, Material Transfer Agreements, etc.) will be coordinated through the BESC Commercialization Council which will designate a lead institution as needed.

For industrial team members who intend to utilize their own IP in their own commercial activities, such IP will be available for licensing to third parties by a BESC lead licensing institution if the industrial team member is not meeting a contractually agreed to business plan to commercialize such inventions.

7. Licensing in the Core Technology areas

BESC (through ORNL or another team member who may be designated by the Commercialization Council as the lead institution for licensing) will have the capability to license BESC IP and to bail tangible research products, including biological materials, in the Core Technology areas. The lead licensing institution shall not license BESC IP outside of the Core Technology areas, except with the concurrence of the IP owner(s), allowing those owners to license to third parties in fields other than Core Technology areas at their sole discretion.

For licensing of any BESC IP in these Core Technology areas the following licensing principles will apply:

- a) Credible business plans shall be required for all commercial licensing. Before executing any license agreement for a field of use within the Core Technologies, the lead licensing institution will evaluate the capabilities of the potential licensee, and the company must demonstrate that it has the expertise and capital needed to further the development of the technology and successfully bring the technology to market in the fields of use in which a license would be granted. BESC will obtain information about the potential licensee's plan for the commercialization of the BESC IP through BESC's independent research, discussions or meetings with the potential licensee, and/or a formal business plan. BESC IP in Core Technologies will be licensed on a non-exclusive basis when, in the reasonable judgment of the lead licensing institution, this allows the technology to be adopted most successfully by the market. BESC will license IP to companies only in the fields of use (FOU) in which the company is capable and committed to bringing the technology to market, saving other FOU's for additional licensees; alternatively, BESC may include a provision for mandatory sublicensing of BESC IP to reasonably ensure that various applications can be commercialized rather than remaining fallow.
- b) All potential licensees requesting any degree of exclusivity for BESC IP must demonstrate their capability to successfully bring the technology to market. For any license negotiated on behalf of BESC that grants exclusive rights in BESC IP in any field of use in a Core Technology area, the licensee must agree to and meet diligence (performance) requirements marking the development and successful market introduction of the technology. If a

company fails to meet diligence requirements, it will be given a reasonable opportunity to comply and the lead licensing institution will negotiate substitute diligence provisions and amend the license. If the licensee is not able to meet these requirements, the license will be reduced to a nonexclusive license or be terminated.

- c) For BESC IP which is within the Core Technologies, BESC members agree that they will not enter into or be subject to any future agreements with third parties which provide preferential licensing of BESC IP to any third party without prior approval by DOE.

8. Licensing Revenue Allocations

Each BESC member institution that is an IP owner of licensed BESC IP is entitled to a percentage of any royalties or other income from such licenses. BESC members agree that for licenses of BESC Inventions in the Core Technology areas a percentage of licensing income as set forth below, will be allocated by BESC for the support of scientific research or education to further the efforts of BESC at the BESC member institutions.

Licensing income from each license in Core Technology areas will be distributed annually as follows (“BESC Distribution”):

- a) A standard 15% administrative fee will go to the lead licensing institution to offset the cost of license administration.
- b) Next, licensing income is used to reimburse IP owners for patent expenses; Until the licensing income reaches \$200,000, the balance of licensing income after expenses will be distributed to IP owner(s). (if there are several co-owners of IP in a license this distribution will be made in a proportionate way as specified in the IIA)
- c) After licensing income reaches \$200,000, 60% of net licensing income received thereafter (after above expenses) is sent to BESC, per DOE requirement; allocation of these funds to BESC member institution for biofuels-related research is determined by the BESC IP Licensing/Investment Committee.
- d) The remaining 40% of net licensing income is distributed to the IP owner(s); and
- e) any royalty sharing with inventors is made from that remaining 40%.
- f) Any remaining net licensing income may be used by the BESC member institution in accordance with its own policies, subject to restrictions in its M&O contract, Bayh-Dole, etc.
- g) The disposition of royalties or other income, including liquidated equity, set forth in c), d) and e) above, remains in effect so long as BESC Funding continues. If the BESC no longer exists due to lack of DOE funding, or for any other termination of BESC, then the special allocation of funds in c), d) and e) is no longer applicable.

Licensing income includes fees (such as license issue fees, license maintenance or milestone fees), royalties, and liquidation of any equity received for the license grant, but for the purpose of clause c) above, does not include reimbursement of patent costs by licensees. Furthermore, for purposes of the BESC Distribution, if BESC grants two or more licenses to a specific company for members of the same patent family (i.e., an initial patent application and any subsequent application claiming priority to that application, such as conversions, continuations or divisionals, or any patents issuing thereon), the licensing income from those licenses will be aggregated for the purposes of the \$200,000 threshold set forth in clause c). Where the BESC member institution owning such equity has an official policy specifying the time for liquidation of such equity, that official policy shall apply to the timing of the liquidation of such equity. Negotiations for continued utilization of BESC will include a plan for the future management and disposition of any such remaining unliquidated equity.

The royalties described in paragraph a) which comprise the 60% utilized for the support of scientific research or education in support of BESC will be allocated to projects approved by a BESC IP/Licensing Investment Committee¹. BESC researchers will be invited to propose scientific research and education-related tasks to which these funds may be allocated by this Committee. Allocation decisions by this Committee will be made available for review and comment by BESC team members for at least ten days for review and comment before funds are distributed. The BESC Board of Directors² will monitor the allocation process to assure that research proposals from the researchers employed by the intellectual property owner(s) receive higher priority for this funding.

Royalties reserved for use in support of BESC research will be tracked so that at the end of the 5 years, remaining funds can be distributed to the IP owners if the BESC contract is not renewed or if other funds to continue BESC are not secured.

9. Information Sharing

It is the intention of the BESC that the fruits of its research be widely and promptly disseminated, with a goal of maximizing the impact of the research and its long-term benefit to the U.S. and to society. Even in those situations in which protection of inventions is desirable, e.g., to induce further commercial development, or is required under specific funding obligations, such inventions are also expected to be widely and promptly disseminated.

All BESC Team Members have executed a mutual NDA to be able to interact fully with each other. Technical data will also be shared appropriately with the other two Bioenergy Research Centers (JBEI and GLBRC) and with any DOE advisory committee assisting with the evaluation of BESC activities. Subject to DOE approval, a list will be mutually developed of the types of data first produced by the BESC that must be immediately released to the public.

To facilitate the mutual exchange of reagents and biological materials among BESC researchers, a master Materials Transfer Agreement will be implemented. Individual transactions for exchange of reagents and other biological materials will be documented electronically using secure information technology.

BESC team members agree to have safeguards in place to manage personal and organizational conflicts of interest that may arise from the licensing of BESC IP.

¹ The BESC IP/Licensing Investment Committee consists of the BESC Program Director, the leads in each of the Scientific Focus Areas, and a representative of each IP owner whose IP was licensed in the Core Technologies.

² The BESC Board of Directors (BOD) consists of representatives of the executive leadership of BESC institutional members plus a group of up to three internationally known R&D leaders with extraordinary entrepreneurial records of achievement, or biotechnology industry leaders. This BOD serves (1) to approve BESC strategic directions and annual project and budget plans, (2) to approve annual performance goals for the BESC leadership team and to evaluate the performance of the team, and (3) to support BESC leadership in managing effective interfaces with translational and applied R&D, technology transfer, and commercialization.

10. Reporting to DOE

Each BESC member institution shall require its researchers to report all inventions in a manner consistent with reporting of other intellectual property resulting from federally funded research. No later than sixty (60) days from receipt of disclosure, each BESC member institution shall disclose to BESC, through the BESC Commercialization Council, all BESC Inventions, software, and tangible research products resulting from BESC Funding.

ORNL will report all such invention disclosures to DOE promptly, along with information about any BESC technology transfer transactions that the team members may have had. IP management and technology transfer activities of the BESC in the Core Technology areas are subject to DOE appraisal.

Mr. Michael J. Fietze, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6262

Dear Mr. Fietze:

CONTRACT NO. DE-AC05-00OR22725 - MODIFICATION NO. 342

Enclosed are two copies of the subject contract modification that has already been signed by the Contracting Officer. This modification is issued to de-obligate American Recovery and Reinvestment Act of 2009 funds in the amount of \$34,848.65 from the contract for Office of Science projects entitled "Advanced Scientific Computing Research – Leadership Computing Upgrade (Project Code 2005087)" and "Fundamental Neutron Physics Beamline MIE at SNS Full Funding (ORNL) (Project Code 2005190)". The total amount of funds obligated under this contract since its inception is decreased by \$34,848.65 from \$11,060,126,200.58 to \$11,060,091,351.93. After signature by an authorized representative of UT-Battelle, please have one copy of the fully executed modification sent back to me.

If you have any questions, please contact me at 576-4523.

Sincerely,

A handwritten signature in blue ink that reads "Mark A. Million".

Mark A. Million
Contracting Officer

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 1 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to de-obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$34,655.31 from the project entitled “Advanced Scientific Computing Research – Leadership Computing Upgrade (Project Code 2005087)” and \$193.34 from the project entitled “Fundamental Neutron Physics Beamline MIE at SNS Full Funding (ORNL) (Project Code 2005190)”.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” funds in the amount of \$34,848.65 are hereby de-obligated from the contract. The total amount of funds obligated under this contract since its inception is decreased from \$11,060,126,200.58 to \$11,060,091,351.93.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorization(s):

Work Authorization Number	Work Authorization Title
KJ/OR41/9/ARRA-1 (See Modification 231)	Advanced Scientific Computing Research – Leadership Computing Upgrade (Project Code 2005087)
KB/OR41/9/ARRA-1 (See Modifications 215 and 224)	Fundamental Neutron Physics Beamline MIE at SNS Full Funding (ORNL) (Project Code 2005190)
(Number from Block 8 of the Work Authorization)	

- D. All other terms and conditions remain unchanged.

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT		1. CONTRACT ID CODE	PAGE OF PAGES 1 3
2. AMENDMENT/MODIFICATION NO. 343	3. EFFECTIVE DATE See Block 16C	4. REQUISITION/PURCHASE REQ. NO. 10SC003875	5. PROJECT NO. (If applicable)
6. ISSUED BY Oak Ridge U.S. Department of Energy P.O. Box 2001 Oak Ridge TN 37831	CODE 00518	7. ADMINISTERED BY (If other than Item 6) Oak Ridge U.S. Department of Energy P.O. Box 2001 Oak Ridge TN 37831	CODE 00518
8. NAME AND ADDRESS OF CONTRACTOR (No., street, county, State and ZIP Code) UT-BATTELLE, LLC Attn: Michael J. Freitze, Director Prime Contract Administration Post Office Box 2008 OAK RIDGE TN 37831-6231		(x) 9A. AMENDMENT OF SOLICITATION NO.	9B. DATED (SEE ITEM 11)
CODE 099114287 FACILITY CODE		x 10A. MODIFICATION OF CONTRACT/ORDER NO. DE-AC05-00OR22725	10B. DATED (SEE ITEM 13) 10/18/1999

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended. is not extended.
 Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required) Net Increase: \$2,750,000.00
 See Page 3.

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) 970.5232-4 OBLIGATION OF FUNDS (DEC 2000), P.L. 111-5, AND P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
 The administrative office (administrative contracting activity) for this award/modification/amendment is 00518.

The administrative office (administrative contracting activity) code is needed by the contractor/recipient for reporting to FederalReporting.gov concerning awards made with funding from the American Recovery and Reinvestment Act of 2009 (ARRA or Recovery Act).

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code, is hereby provided in Attachments 2A and 2B to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$2,500,000 for a project entitled “Nuclear Physics-Early Career Research Program (2005410)” and \$250,000 for a project entitled “Fusion Energy Sciences-Infrastructure Improvements for General Plasma Science User Facilities (2005365)”.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” funds in the amount of \$2,750,000 are hereby obligated in support of Recovery Act activities. The total amount of funds obligated under this contract since its inception is increased from \$11,060,091,351.93 to \$11,062,841,351.93.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables funded by this modification are identified in the following referenced Work Authorizations:

Work Authorization Number	Work Authorization Title
KB/OR41/09/ARRA-5 (Revision No. 00) (Attachment 1A)	Nuclear Physics-Early Career Research Program (2005410)
AT/OR41/10/ARRA-2 (Revision No. 01) (Attachment 1B)	Fusion Energy Sciences-Infrastructure Improvements for General Plasma Science User Facilities (2005365)
(Numbers from Block 8 of the Work Authorizations)	

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

14. Statement of Work (See attached)
 This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009, (Pub. L. 111-5) (Recovery Act). All contract terms and conditions apply to the work identified within, in particular contract provision H.999 applies. The work described in this work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act, and as such is subject to special statutory conditions.

The Office of Science (SC) is committed to conducting all work authorized herein, in a manner that ensures protection of the workers, the public, and the environment. Protecting the workers, the public, and the environment is a direct and individual responsibility of all SC managers and SC-supported contractors. Funds provided by SC will be applied as necessary to ensure that all SC activities are conducted safely and in an environmentally conscientious manner. Only work conducted in this way will be supported.

Specific Recovery Act Statement of Work:

The following funding is provided for awards made under Program Announcement to DOE National Laboratories LAB 09-26, Office of Science Early Career Research Program.

Funds in the amount of \$2,500,000 are provided under KB-04-01-02-1 for project entitled "Studies of Nuclear Reactions that Drive Stellar Explosions and Synthesize the Elements." Principal Investigator: Dr. Daniel Bartyan. The project period for this FWP is April 15, 2010 through April 14, 2015. Execution of the annual funding is solely at the discretion of the principal investigator in accordance with the DOE-approved budget and project work scope. Annual progress reports from the award investigator will be required (due to program manager by 90 days before April 14 in 2011, 2012, 2013, and 2014). Final technical report due to program manager 90 days after April 14, 2015.

Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule Milestones, Performance Measures, and Outcomes and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of Science Laboratory appraisal process.

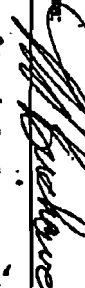

* Includes OPE funding \$2,500,000

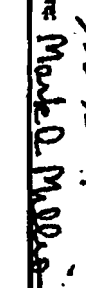

Continuation of W/AS - Early Career Research Program (2005410)

15. Reporting Requirements (Status reports, scientific and technical information or similar):
The recipient of funding in this Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act of 2009.

16. Work Authorization Program Official
Name (typed): Timothy J. Hallinan Signature:  Date: March 9, 2010

17. DOE Field Organization Official
Name (typed): Michele G. Beaton Signature:  Date: 3/13/10

18. Contractor's Authorized Representative
Name (typed): Michelle V. Buckauer Signature:  Date: 3/15/10

19. DOE Contracting Officer (or delegated representative)
Name (typed): MARK R. MULLION Signature:  Date: 3/16/10

8. Work Authorization Number: AT/OR41/10/ARRA-2		9. Revision Number: 01
10. Funds Authorized (\$ in thousands): B&R Code: AT Previous: \$250 Change: \$0 Current: \$250*		
11. Performance Period Covered by Funds: From: 02/17/09 To: 09/30/10		12. Work Start Date: 02/2010
13. Expected Completion Date: 09/2011		
14. Statement of Work: see attached This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009, (Pub. L. 111-5) (Recovery Act). All contract terms and conditions apply to the work identified herein, in particular contract provision H.999 applies. The work described in this work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act and as such is subject to special statutory conditions. The Office of Science (SC) is committed to conducting all work authorized herein, in a manner that ensures protection of the workers, the public, and the environment. Protecting the workers, the public, and the environment is a direct and individual responsibility of all SC managers and SC-supported contractors. Funds provided by SC will be applied as necessary to ensure that all supported activities are conducted safely and in an environmentally conscientious manner. Only work conducted in this manner will be supported. <u>Specific Recovery Act Statement of Work:</u> \$250,000 of equipment funding is provided under AT503050 to provide improvements in infrastructure including hardware, upgraded diagnostics, new probes, improved data acquisition and analysis, and will enhance the scientific contributions of General Plasma Science (GPS) projects. The Multi-charge Ion Research Facility will be upgraded to improve plasma surface experimental capability. The GPS program supports fundamental research opportunities in plasma science and engineering, focusing on issues of plasma science and engineering that can have impact in other areas or disciplines in which improved basic understanding of the plasma state is needed. Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule Milestones, Performance Measures and Outcomes and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of Science laboratory appraisal process.		

Continuation – Infrastructure Improvements for General Plasma Science User Facilities (2005365)

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 1 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$19,148.15 to the contract for the Work for Others (WFO) activities entered into with the National Institute of Health identified in section C below.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” additional funds in the amount of \$18,691.61 are hereby obligated in support of the project entitled “Accurate Mass Analysis of Singly-Charged Intact Proteins” and funds in the amount of \$456.54 are obligated in support of the project entitled “DNA Transport and Sequencing Through a Quadrupole Gate”. The total amount of funds obligated under this contract since its inception is increased from \$11,062,841,351.93 to \$11,062,860,500.08.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables funded by this modification are identified in the following referenced WFO Project Number(s):

WFO Project Number	WFO Project Title
NFE-10-02711	Accurate Mass Analysis of Singly-Charged Intact Proteins
NFE-10-02714	DNA Transport and Sequencing Through a Quadrupole Gate-Administrative Supplement

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$2,500,884 to the contract for the Advanced Scientific Computing Research project identified in the Work Authorization reflected in section C below.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” additional funds in the amount of \$2,500,884 are hereby obligated in support of Recovery Act activities. The total amount of funds obligated under this contract since its inception is increased from \$11,062,860,500.08 to \$11,065,361,384.08.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables funded by this modification are identified in the following referenced Work Authorization:

Work Authorization Number	Work Authorization Title
KJ/OR41/0/ARRA-4 (Attachment 1) (Number from Block 8 of the Work Authorization)	Advanced Scientific Computing Research—Early Career Research Program (2005410)

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

WORK AUTHORIZATION

**U.S. DEPARTMENT OF ENERGY
CONTRACT WORK AUTHORIZATION
AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009: 89-09/10-0227**

1a. Project Title: Advanced Scientific Computing Research – Early Career Research Program (2005410)		1b. Work Proposal Number (if applicable): Various
2. Headquarters Program Point of Contact: Name: Michael R. Strayer Organization Code: SC-21 Telephone No.: (301) 903-7486		
3. Headquarters Budget Point of Contact: Name: Michael Osinski Organization Code: SC-41 Telephone No.: (301) 903-3590		
4. Responsible Program: Advanced Scientific Computing Research		5. Responsible Secretarial Officer: Director, Office of Science
6. Responsible Field Organization: Oak Ridge Site Office		
7a. Site and Facility Management Contractor: UT – Battelle LLC – Oak Ridge National Laboratory		7b. Contractor Point of Contact: Name: Arthur Bland Telephone No.: 865-576-6727
8. Work Authorization Number: KJ/OR41/0/ARRA-4		9. Revision Number: 00
10. Funds Authorized (\$ in thousands). B&R Code: KJ Previous: \$0 Change: \$+ 2,501 Current: \$2,501		
11. Performance Period Covered by Funds. From: 4/15/10 To: 4/14/15		12. Work Start Date: 04/2010
13. Expected Completion Date: 04/2015		
14. Statement of Work (See attached) This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009, (Pub. L. 111-5) (Recovery Act). All contract terms and conditions apply to the work identified within, in particular contract provision H.999 applies. The work described in this work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act, and as such is subject to special statutory conditions. The Office of Science (SC) is committed to conducting all work authorized herein, in a manner that ensures protection of the workers, the public, and the environment. Protecting the workers, the public, and the environment is a direct and individual responsibility of all SC managers and SC-supported contractors. Funds provided by SC will be applied as necessary to ensure that all SC activities are conducted safely and in an environmentally conscientious manner. Only work conducted in this way will be supported.		
<u>Specific Recovery Act Statement of Work:</u> The following funding is provided for awards made under Program Announcement to DOE National Laboratories LAB 09-26, Office of Science Early Career Research Program. Funds in the amount of \$2,500,884 are provided under KJ0402 for FWP #ERKJR12, entitled "Reversible Software Execution Systems – A New Paradigm in Ultra-Scale Computing." Principal Investigator: Perumalla. The project period for this FWP is April 15, 2010 through April 14, 2015. Execution of the annual funding is solely at the discretion of the principal investigator in accordance with the DOE-approved budget and project work scope. Annual progress reports from the award investigator will be required (due to program manager by 90 days before April 14 in 2011, 2012, 2013, and 2014). Final technical report due to program manager 90 days after April 14, 2015. Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule Milestones, Performance Measures, and Outcomes and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of Science laboratory appraisal process.		

Continuation of WAS - Early Career Research Program (2005410)

15. Reporting Requirements (Status reports, scientific and technical information or similar):

The recipient of funding in this Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act of 2009.

16. Work Authorization Program Official.

Name (typed): Michael R. Strayer

**ATTACHMENT A – CONTRACTOR RECOVERY ACT PERFORMANCE REQUIREMENTS
Early Career Research Program (2005410)**

Section A: Contractor Recovery Act Schedule or Milestone Requirements

- 3Q FY 2010: Initiate research for the Early Career Research Program.
- 4 Q FY 2010: First quarterly Recovery Act progress report due.
- Recovery Act progress reports due each quarter through 4Q FY 2015.

Section B: Contractor Recovery Act Performance Outcomes and Measures

- Perform the research proposed for the Early Career Research Program. Federal program managers will verify the research performance of the contractor through annual research progress reports, phone calls, site visits, and attendance at topical conferences.

Section C: Contractor Recovery Act Deliverables

- Quarterly Recovery Act progress reports on the contractor's activities.

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required) Net Increase: \$10,583,957.88

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) 970.5232-4 OBLIGATION OF FUNDS (DEC 2000) AND P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return 0 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

Subj to Retent: N
Pursuant to the provisions of Clause I-143, the first sentence of paragraph (a) is hereby changed to read as follows: The amount presently obligated by the Government with respect to this contract is \$11,075,945,341.96. This represents an increase of \$10,583,957.88, from \$11,065,361,384.08 to \$11,075,945,341.96.

Included in this obligation are Non-Appropriated Funds (NAF) in the amount of \$9,168,856.41. Cumulative obligations of NAF since Modification 234 are \$77,245,441.95.

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended. Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required) Net Increase: \$853,091.26

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) 970.5232-4 OBLIGATION OF FUNDS (DEC 2000) AND P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return 0 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

Subj to Retent: N
Pursuant to the provisions of Clause I-143, the first sentence of paragraph (a) is hereby changed to read as follows: The amount presently obligated by the Government with respect to this contract is \$11,120,394,818.28. This represents an increase of \$853,091.26, from \$11,119,541,727.02 to \$11,120,394,818.28.

FOB: Destination
Period of Performance: 04/01/2000 to 03/31/2015

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$5,004,000 to the contract for the Basic Energy Sciences project identified in the Work Authorization reflected in section C below.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” additional funds in the amount of \$5,004,000 are hereby obligated in support of Recovery Act activities. The total amount of funds obligated under this contract since its inception is increased from \$11,120,976,165.27 to \$11,125,980,165.27.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables funded by this modification are identified in the following referenced Work Authorization:

Work Authorization Number	Work Authorization Title
KC/OR41/9/ARRA-2 (Attachment 1) (Number from Block 8 of the Work Authorization)	Basic Energy Sciences—Early Career Research Program (2005410)

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

4. Responsible Program: Basic Energy Sciences		5. Responsible Secretarial Officer: Under Secretary for Science	
6. Responsible Field Organization: Oak Ridge Office			
7a. Site and Facility Management Contractor: UT – Bettelle LLC – Oak Ridge National Laboratory		7b. Contractor Point of Contact. Name: Telephone No.:	
8. Work Authorization Number: KC/OR41/9/ARRA-2		9. Revision Number: 00	
10. Funds Authorized (\$ in thousands). B&R Code: KC Previous: \$0 Change: \$+5,004 Current: \$5,004*			
11. Performance Period Covered by Funds. From: 4/15/10 To: 4/14/15		12. Work Start Date: 04/2010	13. Expected Completion Date: 04/2015
14. Statement of Work: This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009. (Pub. L. 111-5) (Recovery Act). All contract terms and conditions apply to the work identified herein, in particular contract provision H.999 applies. The work described in this work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act and as such is subject to special statutory conditions. The Office of Science (SC) is committed to conducting all work authorized herein, in a manner that ensures protection of the workers, the public, and the environment. Protecting the workers, the public, and the environment is a direct and individual responsibility of all SC managers and SC-supported contractors. Funds provided by SC will be applied as necessary to ensure that all supported activities are conducted safely and in an environmentally conscientious manner. Only work conducted in this manner will be supported. <u>Specific Recovery Act Statement of Work:</u> The following funding is provided for awards made under Program Announcement to DOE National Laboratories LAB 09-26, Office of Science Early Career Research Program. Funds in the amount of \$2,504,000 are provided under KC020202 for FWP # ERKCM70 entitled "Early Career - Origin of Superconductivity in Structurally Layered Materials." Principal Investigator: Sefat, Athena. Funds in the amount of \$2,500,000, \$2,355,000 OPE and \$145,000 EQU, are provided under KC0211010 for FWP # ERKCMS1 entitled "Early Career - Research and Development of Detection Systems for Neutron Imaging." Principal Investigator: Bingham, Philip. The project period for this FWP is April 15, 2010 through April 14, 2015. Execution of the annual funding is solely at the discretion of the principal investigator in accordance with the DOE-approved budget and project work scope. Annual progress reports from the award investigator will be required (due to program manager by 90 days before April 14 in 2011, 2012, 2013, and 2014). Final technical report due to program manager 90 days after April 14, 2015. Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule Milestones, Performance Measures, and Outcomes and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of Science laboratory appraisal process.			
15. Reporting Requirements (Status reports, scientific and technical information or similar): The recipient of funding in this Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act of 2009.			
16. Work Authorization Program Official. Name (typed): Harriet H. Kung Signature: <i>Harriet H. Kung</i> Date: 3/8/2010

Mr. Michael J. Fietze, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6262

Dear Mr. Fietze:

CONTRACT NO. DE-AC05-00OR22725 - MODIFICATION NO.'S 343 – 362

A fully executed copy of contract modifications 343 through 362 are enclosed for your retention. These modifications obligate DOE appropriated and non-appropriated, including Work for Others (WFO), and American Recovery and Reinvestment Act of 2009 (Recovery Act) funding. At this time, all appropriated funding received from other agencies via WFO program and Recovery Act funding received from different DOE Program Offices must be issued under separate contract modifications for proper tracking.

If you have any questions, please contact me at 576-4523.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Million".

Mark A. Million
Contracting Officer

Dear Mr. Fietze:

CONTRACT NO. DE-AC05-00OR22725 - MODIFICATION NO. 363

A fully executed copy of the subject contract modification is enclosed for your retention. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$581,132 to the contract for Office of Energy Efficiency and Renewable Energy projects. The total amount of funds obligated under this contract since its inception is increased from \$11,138,441,161.54 to \$11,139,022,293.54.

If you have any questions, please contact me at 576-4523.

Sincerely,

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$581,132 to the contract for Office of Energy Efficiency and Renewable Energy projects identified in the Work Authorizations reflected in section C below.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” additional funds in the amount of \$581,132 are hereby obligated in support of Recovery Act activities. The total amount of funds obligated under this contract since its inception is increased from \$11,138,441,161.54 to \$11,139,022,293.54.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables funded by this modification are identified in the following referenced Work Authorizations (Attachment 1):

Work Authorization Number	Work Authorization Title
IF/470002-20653-10 (Revision No. 0)	ITP 3: IAC and Plant Best Practices: ORNL
IF/470002-20653-10 (Revision No. 1)	ITP 3: IAC and Plant Best Practices: ORNL
IF-470002-20421-10	Advanced Materials RD&D in Support of EERE Needs to Advance Clean Energy Technologies
IF-470002-20416-10 (Revision 9)	Energy-Intensive Processes R&D
IF-470002-20416-10 (Revision 10)	Energy-Intensive Processes R&D
FB-4700002-20454-10	Enhance and Accelerate FEMP Service Functions to the Federal Government
(Number from Block 8 of the Work Authorization)	

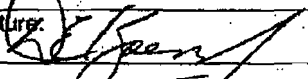

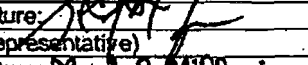

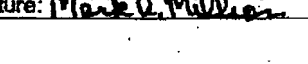

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.

- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.

- F. All other terms and conditions remain unchanged.

Task 1 – Complete New and Enhanced Save Energy Now Assessments

Milestone – Ensure that a minimum of 100 new and enhanced Save Energy Now assessments are completed

Task 2 – Complete Technical Assistance Activities to support Save Energy Now Assessments

Milestone – Ensure that 14 Technical Assistance support activities (\$25K each) are completed

Section B: Contractor Recovery Act Performance Outcomes and Measures

All tasks described under this effort will be completed by 1-31-2011, within the budget allocated to each task. Completion of each task will be determined by the submission of a final brief letter report to the sponsor's designated representative.

Section C: Contractor Recovery Act Deliverables

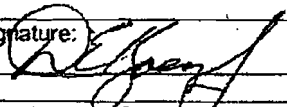

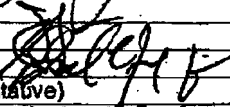

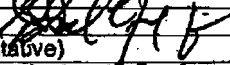

Task 1 – Complete New and Enhanced Save Energy Now Assessments

Deliverable, Letter report documenting that assessments have been completed

Task 2 – Complete Technical Assistance Activities to support Save Energy Now Assessments

Deliverable, Letter report documenting that technical assistance activities have been completed

13. Expected Completion Date: 9/30/2010 <u>1-14-2011</u> <i>ANA</i>			
14. Statement of Work: <u>1/17/2011</u>			
Specific Recovery Act Statement of Work			
<p>Carryover funding in the amount of \$100,000 is authorized for ED1907010-05794-1004393-IAC (2009), ED1907042-05794-1004397-Best Practices/SEN (2009). These funds are made available for Solicitation #20653 - ITP 3: IAC and Plant Best Practices: ORNL. Expand existing capability and create new national, state, local and regional capability to deliver industrial energy efficiency and environmental technical assistance to key industrial manufacturing facilities. From the recent State Save Energy Now solicitation, responders have planned out more comprehensive programs than funding would allow. By increasing the number of awards and enlarging the scope of others, energy efficiency support jobs can be quickly created. In addition, the 26 Industrial Assessment Centers around the U.S. are currently cutting the number of assessments they conduct to small and medium sized plants due to Federal funding reductions. By restoring funding, the centers have the capability to quickly marshal resources to increase the number of assessments, provide implementation support to plants to make new energy investments, and to train Manufacturing Extension Partnership centers around the U.S. to include energy efficiency services in their work with small businesses. The technical assistance provided through this investment will result in cost savings measures which will slow or stop some of the hemorrhaging of jobs in the manufacturing sector while simultaneously growing and creating the local capability to continue providing these resources post Recovery Act funds. CFO Project Code: 2004310. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to Energy Efficiency and Renewable Energy.</p> <p>ARRA funding information: Fund: 05794, Appropriation: 89-09/10-0331, Allottee: 30 B&R Code/Program Value: ED1907010-1004393 Project Code: 2004310 Fund: 05794, Appropriation: 89-09/10-0331, Allottee: 30 B&R Code/Program Value: ED1907042-1004397 Project Code: 2004310</p> <p>Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule or Milestones, Performance Outcomes and Measures and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of Energy Efficiency and Renewable Energy laboratory appraisal process.</p>

ATTACHMENT A – CONTRACTOR RECOVERY ACT PERFORMANCE REQUIREMENTS

Section A: Contractor Recovery Act Schedule or Milestone Requirements

Task 1 – Complete New and Enhanced Save Energy Now Assessments

Milestone – Ensure that a minimum of 100 new and enhanced Save Energy Now assessments are completed

Task 2 – Complete Technical Assistance Activities to support Save Energy Now Assessments

Milestone – Ensure that 14 Technical Assistance support activities (\$25K each) are completed

Section B: Contractor Recovery Act Performance Outcomes and Measures

All tasks described under this effort will be completed by 1-31-2011, within the budget allocated to each task. Completion of each task will be determined by the submission of a final brief letter report to the sponsor's designated representative.

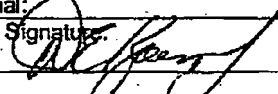

Section C: Contractor Recovery Act Deliverables

Task 1 – Complete New and Enhanced Save Energy Now Assessments

Deliverable, Letter report documenting that assessments have been completed

Task 2 – Complete Technical Assistance Activities to support Save Energy Now Assessments

Deliverable, Letter report documenting that technical assistance activities have been completed

14. Statement of Work: Specific Recovery Act Statement of Work Carryover funding in the amount of \$332,257 is authorized for ED1904032-05794-1004383-IMF (2009). These funds are made available for Solicitation #20421 - Advanced Materials RD&D in Support of EERE Needs to Advance Clean Energy Technologies. Funding for this activity will expand collaborative activity to accelerate the transition of scientific discoveries into industrial application. This funding will support Materials/Manufacturing Technology - ORNL will issue an RFP for advancement of materials/manufacturing technology. Focus areas will be strategic materials such as titanium and magnesium; structural materials such as high temperature steels; energy storage and production materials; and advanced/field/transient processing technologies. This project area is crosscutting by supporting manufacturing needs of hydrogen, wind, solar, vehicles, and biomass technologies. CFP Project Code: 2004320. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to Energy Efficiency and Renewable Energy. ATTACHMENT A – CONTRACTOR RECOVERY ACT PERFORMANCE REQUIREMENTS

Section A: Contractor Recovery Act Schedule or Milestone Requirements

Task 1 - Commercialization of Titanium Heat Exchangers Fabricated from New Powders.
Milestone 5.1 Complete and install at least one heat exchanger system with cold formed Ti sheets for evaluation at a company site for testing and evaluation in a test loop system; Month 19

Task 2 - Shear Rolling of Magnesium Sheet for Energy, Transportation, and Defense Applications.
Milestone 5.1: Successfully fabricate component 1 using materials fabricated through new processing technology; Month 21

Task 3 - Commercialization of New Carbon Fiber Materials Based on Sustainable Resources for Energy Applications. Milestone 3.2 Demonstration of scaled up production of carbon materials for energy storage application; Month 19

Task 4 - AFA Steels. Milestone 2.4 Report relative performance of AFA steels in four application relevant environments; Month 24

Task 5 - CF8C-Plus Cast Stainless Steels. Milestone 4.1 Report on the potential for cast AFA components based on creep and environmental resistance; Month 22

Task 6 - Materials & Processing for Advanced Batteries. Milestone 4.1 Scaling of processing; Month 25

Task 7 - Photovoltaic Materials. Milestone 1.7 Third round research completed; Month 20

Task 8 - Magnetic Processing of Steel Strip and Next Generation Alloys. Milestone 4.1 Develop process parameters for continuous feed production line that includes a TMP magnetic processing stage; Month 19

Section B: Contractor Recovery Act Performance Outcomes and Measures

All tasks described under this effort will be completed by 9-30-2011, within the budget allocated to each task. Completion of each task will be determined by the submission of a final task report to the sponsor's designated representative.

Section C: Contractor Recovery Act Deliverables

Task 1 - Commercialization of Titanium Heat Exchangers Fabricated from New Powders.
Deliverable, Final Report

Task 2 - Shear Rolling of Magnesium Sheet for Energy, Transportation, and Defense Applications.
Deliverable, Final Report

Task 3 - Commercialization of New Carbon Fiber Materials Based on Sustainable Resources for Energy Applications.
Deliverable, Establish Commercialization Plans

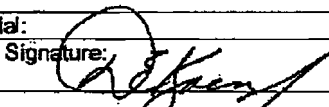

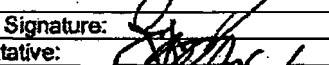

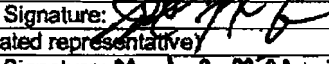

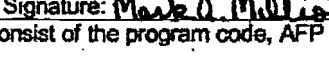

Task 4 - AFA Steels.
Deliverable, Completed evaluation of as-cast AFA steel properties for cast components.

Task 5 - CF8C-Plus Cast Stainless Steels.
Deliverable, Completed evaluation of slurry-coated CF8C-Plus steel properties

Task 6 - Materials & Processing for Advanced Batteries.
Deliverable, Develop deposition and drying procedure for lithium ion battery coatings (electrodes and ceramic composite separators) maintaining nano-scale feature and lab-scale performance

Task 7 - Photovoltaic Materials.
Deliverable, Final Report

Task 8 - Magnetic Processing of Steel Strip and Next Generation Alloys.
Deliverable, Final Report

ATTACHMENT A – CONTRACTOR RECOVERY ACT PERFORMANCE REQUIREMENTS

Section A: Contractor Recovery Act Schedule or Milestone Requirements

Task 1 – Architected Nanomembranes for In-Situ Energy Conversion

Milestone – Complete evaluation of engineering processing concepts for architected nanocomposite membranes; August 2010

Task 2 – Nanocatalytic Conversion of Biomass into Second-Generation Biofuels

Milestone – Complete analysis of extending technology to unconventional sources of carbon-based compounds; August 2010

Task 3 – Oxide-Nanoparticle Containing Coatings for High Temperature Alloys

Milestone – Complete initial processing trials and characterization of materials with and without electromagnetic stirring; August 2010

Task 4 – Synthesis of Highly Ordered TiO₂ Nanotubes using Ionic Liquids for Photovoltaics (PV)

Milestone – Identify preferable molecular structures of ionic liquids and synthesis parameters based on characterization of nanostructures, crystalline phases and PV; May 2010

Task 5 – Nanocomposite Materials for Lithium Ion Batteries

Milestone – Develop transport models & complete characterizations; September 2012

Task 6 – Pulsed Thermal Processing of Self-Assembled Quantum Dot Structures

Milestone – Complete optical evaluation of quantum dot structures; June 2010

Task 7 – Mesoporous Carbon Membranes for Selective Gas Separations

Milestone – Develop scalable methodology for preparing supported mesoporous carbon membranes supported on anodized alumina membranes for gas separation; August 2010

Task 8 – Nanocrystallization of LiCoO₂ Cathodes for Thin Film Batteries

Milestone – Determine optima PIP parameters for achieving desired performance from Thin Film Battery cathodes; August 2010

Task 9 – Improving Heat Recovery in Biomass-Fired Boilers

Milestone – Submit draft report with results of field corrosion probe studies; June 2012

Section B: Contractor Recovery Act Performance Outcomes and Measures

All tasks described under this effort will be completed by 9-30-2012, within the budget allocated to each task. Completion of each task will be determined by the submission of a final task report to the sponsor's designated representative.

10. Funds Authorized during FY 2010 :			
<u>B&R Code</u>	<u>Previous</u>	<u>Change</u>	<u>Current</u>
EL1702010-05794-1004578 (2009)	\$0	\$65,000	\$65,000
11. Performance period covered by funds: From: 3/1/2010 To: 9/30/2010		12. Work Start Date: 3/1/2010	13. Expected Completion Date: 9/30/2010
14. Statement of Work: Specific Recovery Act Statement of Work Carryover funding in the amount of \$65,000 is authorized for EL1702010-05794-1004578-ESPC.(2009). These funds are made available for Project #20454 - Enhance and Accelerate FEMP Service Functions to the Federal Government. These funds are to be distributed to Agreement # 19079-ORNL- Technical Guidance and Assistance in accordance with AOP# 2004160. ARRA Project# 2004160- Enhance and Accelerate FEMP Service Functions to the Federal Government. ORNL will provide technical assistance to enhance and accelerate FEMP service functions to the Federal government using the American Recovery and Reinvestment Act (ARRA) funds. ORNL will provide services in the following areas: Initial and/or feasibility of a particular technology; Project prioritization; Strategic energy planning and benchmarking; Technical reviews of designs and proposals; Energy audit training; High-performance green building technical support; Federal vehicle fleet technical support; Assessments; Retro-Commissioning; Resource Efficiency Energy Managers; Operations and maintenance; Evaluate financial strategies, procurement specifications, and acceptance of installed systems; all of the above with special emphasis on particular technologies in the areas of the labs' expertise. ORNL will provide project management support activities to include follow-up with the agency, completion of technical assistance reports, participation in technical assistance conference calls, quarterly joule reporting, and monthly project updates to the FEMPCentral database. Technical assistance to agencies must be approved by the Federal Energy Management Program. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to Energy Efficiency and Renewable Energy. ARRA funding information: Fund: 05794, Appropriation: 89-09/10-0331, Allottee: 30 B&R Code/Program Value: EL1702010-1004578 Project Code: Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule or Milestones, Performance Outcomes and Measures and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of Energy Efficiency and Renewable Energy laboratory appraisal process.			
15. Reporting Requirements: (Status reports, scientific or technical information or similar)			
16. Work Authorization Program Official:			

16. Work Authorization Program Official:		
Name (typed): Richard G. Kidd IV, Program Manager	Signature: 	Date: 2/23/10
17. DOE Field Organization Official:		
Name (typed): JOHNNY D. MOORE	Signature: 	Date: 3/31/10
18. Contractor's Authorized Representative:		
Name (typed): D.C. Christensen	Signature: 	Date: 2/20/2010
19. DOE Contracting Officer (or delegated representative)		
Name (typed): MARK A. MILLER	Signature: 	Date: 3/30/10
* The work authorization number will consist of the program code, AFP code, solicitation/project id and the fiscal year.		

ATTACHMENT A – CONTRACTOR RECOVERY ACT PERFORMANCE REQUIREMENTS

<p>Section A: <u>Contractor Recovery Act Schedule or Milestone Requirements</u></p> <p>ORNL must complete Technical Assistance reports by September 30, 2010.</p>
<p>Section B: <u>Contractor Recovery Act Performance Outcomes and Measures</u></p> <p>ORNL must complete kick-off meetings, site visits if applicable, and complete Technical Assistance Reports.</p>
<p>Section C: <u>Contractor Recovery Act Deliverables</u></p> <p>Kick-Off Meetings – Complete by March 30, 2010 Site Visits (if applicable) – Complete by June 30, 2010 Technical Assistance Report – Complete by September 30, 2010</p>

X	D. OTHER (Specify type of modification and authority) P.L. 95-91 and Mutual Agreement

E. IMPORTANT: Contractor is not, is required to sign this document and return 2 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

Subj to Retent: N

See Page 2.

Period of Performance: 04/01/2000 to 03/31/2015

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print) Greg Turner Chief Financial Officer	16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) Mark A. Million
15B. CONTRACTOR/OFFEROR  (Signature of person authorized to sign)	15C. DATE SIGNED 4/8/2010
16B. UNITED STATES OF AMERICA	16C. DATE SIGNED 04/09/2010  (Signature of Contracting Officer)

The purpose of this modification is to: (1) incorporate into Section H of the contract special terms and conditions defining activities of unusually hazardous or nuclear risk for which the contractor has been provided Public Law 85-804 indemnification, and (2) incorporate Federal Acquisition Regulation (FAR) clause **52.250-1 INDEMNIFICATION UNDER PUBLIC LAW 85-804 (APR 1984) ALTERNATE I (APR 1984)** into the contract. All other terms and conditions remain unchanged.

Therefore, the contract is modified as follows:

- 1) Clause **H-49, DEFINITION OF UNUSUALLY HAZARDOUS OR NUCLEAR RISK FOR FAR CLAUSE 52.250-1 INDEMNIFICATION UNDER PUBLIC LAW 85-804** is hereby incorporated into the contract as follows:

“H-49 DEFINITION OF UNUSUALLY HAZARDOUS OR NUCLEAR RISK FOR FAR CLAUSE 52.250-1 INDEMNIFICATION UNDER PUBLIC LAW 85-804

- a. The term “a risk defined in this contract as unusually hazardous or nuclear” as used in FAR Clause 52.250-1 means the risk of legal liability to third parties (including legal costs as defined in paragraph jj. of Section 11 of the Atomic Energy Act of 1954, as amended, 42 U.S.C. Section 2014jj., notwithstanding the fact that the claim or suit may not arise under section 170 of said Act) arising from actions or inactions in the course of the following performed by the Contractor under this contract:

- (1) Participation in the following nonproliferation endeavors —

The high priority national security work provided by the Contractor involving highly specialized technical services on behalf of the Department of Energy in support of a joint U.S.-Russian plutonium disposition program. This work by the Contractor which may take place inside or outside the United States, involves the development of safe facilities and processes for the formulation, fabrication, packaging and transportation, management, storage, use, and disposal of plutonium oxide and mixed plutonium oxide nuclear reactor fuel (hereinafter “MOX fuel” refers to both forms of fuel) and spent MOX fuel, in a nonproliferation effort on behalf of the United States.

- (2) Activities on behalf of the Department of Energy involving weapons usable materials in a nonproliferation effort on behalf of the United States, outside the United States, as described in (i) through (iv):
 - (i) The Department of Energy’s transparency monitoring activities in Russia under the U.S.-Russian Agreement Concerning the Disposition

of Highly Enriched Uranium Extracted from Nuclear Weapons dated January 18, 1993; and any extension or modification thereof;

- (ii) Inspection, packaging, transportation, and storage of weapons usable nuclear materials located in the Former Soviet Union, including Russia, provided that the work has been directed by the Secretary of Energy, the Deputy Secretary of Energy, or an Under Secretary;
- (iii) Participation in the Department of Energy's nuclear materials protection and accountability programs in Russia, Ukraine, Kazakhstan, and Belarus, including developing such systems and consulting and training individuals, or international inspectors on such systems under the:

Agreement between the Department of Energy of the United States of America and the Federal Nuclear and Radiation Safety Authority of the Russian Federation to Cooperate on National Protection, Control, and Accounting of Nuclear Materials dated 2 October 1999;

Agreement between the Department of Defense of the United States of America and the Ministry of Defense of the Republic of Kazakhstan concerning Control, Accounting, and Physical Protection of Nuclear Material to Promote the Prevention of Nuclear Weapons Proliferation dated 13 December 1993;

Agreement between the Department of Defense of the United States of America and the Ukrainian State Committee on Nuclear and Radiation Safety concerning Development of State Systems of Control, Accounting, and Physical Protection of Nuclear Materials to Promote the Prevention of Nuclear Weapons Proliferation from Ukraine dated 18 December 1993;

Agreement between the Department of Defense of the United States of America and the Ministry of Defense of the Republic of Belarus concerning Control, Accounting, and Physical Protection of Nuclear Materials to Promote the Prevention of Nuclear Weapons Proliferation dated 23 June 1995;

Joint Statement by the Secretary of Department of Energy of the United States of America and the Minister of the Russian Federation for Atomic Energy on Control, Accounting, and Physical Protection of Nuclear Materials dated 30 January 1996; and

Joint Statement by the Secretary of Department of Energy of the United States of America and the Minister of the Russian Federation

for Atomic Energy on Protection, Control, Accounting of Nuclear Materials dated 30 June 1995;

- (iv) Agreement between the United States of America and the Government of the Russian Federation on the Exchange of Technical Information in the Field of Nuclear Warhead Safety and Security dated 16 December 1994. This Agreement referred to as WSSX is the Agreement under which DOE/NN-42's Russian Lab-to-Lab Warhead Dismantlement Transparency Program is proceeding; and
- (3) Other United States-sponsored activities outside the United States, as requested or approved by the President of the United States, the Secretary of Energy, the Deputy Secretary of Energy, or an Under Secretary and provided that the request or approval specifically makes the indemnity provided by this clause applicable thereto, involving:
- (i) Transparency monitoring activities;
 - (ii) Inspection, packaging, transportation, and storage of weapons-usable nuclear materials;
 - (iii) Nuclear materials protection, control and accountability programs known as the Material Protection Control and Accounting Systems;
 - (iv) Other nonproliferation work relating to weapons-usable nuclear materials and materials of mass destruction; and
 - (v) Design, construction, and operation of facilities to manufacture, use, or dispose of MOX fuel or plutonium in the Russian Federation, other than the work identified in (1) above.
- (4) Assistance to the Department of Energy's Russian Research Reactor Fuel Return (RRRFR) Program to repatriate Russian-origin highly enriched uranium (HEU) nuclear materials from research reactors outside of the United States. Assistance includes project planning, project management, technical support, and contracting for –
- (i) the preparation, loading, and transportation of HEU nuclear materials and spent nuclear fuel from Belarus, Bulgaria, the Czech Republic, the Democratic People's Republic of Korea, Germany, Hungary, Kazakhstan, Latvia, Libya, Poland, Romania, Serbia, Ukraine, Uzbekistan, and Vietnam to the Russian Federation, and

- (ii) the processing, conditioning, and storage of HEU nuclear materials, spent nuclear fuel, and associated waste streams within the Russian Federation.
 - (5) As requested or approved by the President of the United States, the Secretary of Energy, the Deputy Secretary, or an Under Secretary, non-proliferation, emergency response, antiterrorism and similar critical national security activities involving the use, detection, identification, assessment, control, containment, dismantlement, characterization, packaging, transportation, movement, storage, or disposal of nuclear, radiological, chemical, biological, or explosive materials, facilities and/or devices; provided that the activity relates to materials that are weapon usable or otherwise have the potential for mass destruction and further provided that the request or approval specifically makes the indemnity provided by the clause applicable to that particular activity.
 - b. The unusually hazardous or nuclear risks described above are indemnified only to the extent that they are not covered by the Price-Anderson Act (section 170d. of the Atomic Energy Act of 1954, as amended, (42 U.S.C. Section 2210d.) or where the indemnification provided by the Price-Anderson Act is limited by the restriction on public liability imposed by section 170e. of the Atomic Energy Act of 1954, as amended, (42 U.S.C. Section 2210e.) to an amount which is not sufficient to provide complete indemnification for the legal liability to which the contractor is exposed.”
- 2) Clause I.96, **52.250-1 INDEMNIFICATION UNDER PUBLIC LAW 85-804. (APR 1984) – ALTERNATE I (APR 1984)** is hereby incorporated into the contract as follows:
- “I.96 52.250-1 INDEMNIFICATION UNDER PUBLIC LAW 85-804 (APR 1984) ALTERNATE I (APR 1984)**
- (a) “Contractor’s principal officials,” as used in this clause, means directors, officers, managers, superintendents, or other representatives supervising or directing—
 - (1) All or substantially all of the Contractor’s business;
 - (2) All or substantially all of the Contractor’s operations at any one plant or separate location in which this contract is being performed; or
 - (3) A separate and complete major industrial operation in connection with the performance of this contract.
 - (b) Under Public Law 85-804 ([50 U.S.C. 1431-1435](#)) and Executive Order 10789, as amended, and regardless of any other provisions of this contract, the Government

shall, subject to the limitations contained in the other paragraphs of this clause, indemnify the Contractor against—

- (1) Claims (including reasonable expenses of litigation or settlement) by third persons (including employees of the Contractor) for death; personal injury; or loss of, damage to, or loss of use of property;
 - (2) Loss of, damage to, or loss of use of Contractor property, excluding loss of profit; and
 - (3) Loss of, damage to, or loss of use of Government property, excluding loss of profit.
- (c) This indemnification applies only to the extent that the claim, loss, or damage (1) arises out of or results from a risk defined in this contract as unusually hazardous or nuclear and (2) is not compensated for by insurance or otherwise. Any such claim, loss, or damage, to the extent that it is within the deductible amounts of the Contractor's insurance, is not covered under this clause. If insurance coverage or other financial protection in effect on the date the approving official authorizes use of this clause is reduced, the Government's liability under this clause shall not increase as a result.
- (d) When the claim, loss, or damage is caused by willful misconduct or lack of good faith on the part of any of the Contractor's principal officials, the Contractor shall not be indemnified for—
- (1) Government claims against the Contractor (other than those arising through subrogation); or
 - (2) Loss or damage affecting the Contractor's property.
- (e) With the Contracting Officer's prior written approval, the Contractor may, in any subcontract under this contract, indemnify the subcontractor against any risk defined in this contract as unusually hazardous or nuclear. This indemnification shall provide, between the Contractor and the subcontractor, the same rights and duties, and the same provisions for notice, furnishing of evidence or proof, and Government settlement or defense of claims as this clause provides. The Contracting Officer may also approve indemnification of subcontractors at any lower tier, under the same terms and conditions. The Government shall indemnify the Contractor against liability to subcontractors incurred under subcontract provisions approved by the Contracting Officer.
- (f) The rights and obligations of the parties under this clause shall survive this contract's termination, expiration, or completion. The Government shall make no payment under this clause unless the agency head determines that the amount is

just and reasonable. The Government may pay the Contractor or subcontractors, or may directly pay parties to whom the Contractor or subcontractors may be liable.

(g) The Contractor shall—

- (1) Promptly notify the Contracting Officer of any claim or action against, or any loss by, the Contractor or any subcontractors that may be reasonably be expected to involve indemnification under this clause;
- (2) Immediately furnish to the Government copies of all pertinent papers the Contractor receives;
- (3) Furnish evidence or proof of any claim, loss, or damage covered by this clause in the manner and form the Government requires; and
- (4) Comply with the Government's directions and execute any authorizations required in connection with settlement or defense of claims or actions.

(h) The Government may direct, control, or assist in settling or defending any claim or action that may involve indemnification under this clause.

(i) The cost of insurance (including self-insurance programs) covering a risk defined in this contract as unusually hazardous or nuclear shall not be reimbursed except to the extent that the Contracting Officer has required or approved this insurance. The Government's obligations under this clause are—

- (1) Excepted from the release required under this contract's clause relating to allowable cost; and
- (2) Not affected by this contract's Obligation of Funds clause.”

Department of Energy

Oak Ridge Office

Oak Ridge, Tennessee 37831

April 20, 2010

Mr. Michael J. Fietze, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6231

Dear Mr. Fietze:

CONTRACT NO. DE-AC05-00OR22725 - MODIFICATION NO. 365

A fully executed copy of the subject contract modification is enclosed for your retention. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$2,000,000 to the contract for Office of Energy Efficiency and Renewable Energy projects. The total amount of funds obligated under this contract since its inception is increased from \$11,139,022,293.54 to \$11,141,022,293.54.

If you have any questions, please contact me at 576-4523.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Million".

Mark A. Million
Contracting Officer

Enclosure

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT		1. CONTRACT ID CODE	PAGE OF PAGES 1 3
2. AMENDMENT/MODIFICATION NO. 365	3. EFFECTIVE DATE See Block 16C	4. REQUISITION/PURCHASE REQ. NO. 10SC004452	5. PROJECT NO. (If applicable)
6. ISSUED BY Oak Ridge U.S. Department of Energy P.O. Box 2001 Oak Ridge TN 37831	CODE 00518	7. ADMINISTERED BY (If other than Item 6) Oak Ridge U.S. Department of Energy P.O. Box 2001 Oak Ridge TN 37831	CODE 00518
8. NAME AND ADDRESS OF CONTRACTOR (No., street, county, State and ZIP Code) UT-BATTELLE, LLC Attn: Michael J. Freitze, Director Prime Contract Administration Post Office Box 2008 OAK RIDGE TN 37831-6231		(x) 9A. AMENDMENT OF SOLICITATION NO.	
CODE 099114287 FACILITY CODE		9B. DATED (SEE ITEM 11)	
		x 10A. MODIFICATION OF CONTRACT/ORDER NO. DE-AC05-00OR22725	
		10B. DATED (SEE ITEM 13) 10/18/1999	

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended. Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)
See Page 3. Net Increase: \$2,000,000.00

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) 970.5232-4 OBLIGATION OF FUNDS (DEC 2000), P.L. 111-5, and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

The administrative office (administrative contracting activity) for this award/modification/amendment is 00518.

The administrative office (administrative contracting activity) code is needed by the contractor/recipient for reporting to FederalReporting.gov concerning awards made with funding from the American Recovery and Reinvestment Act of 2009 (ARRA or Recovery Act).

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$2,000,000 to the contract for Office of Energy Efficiency and Renewable Energy projects identified in the Work Authorizations reflected in section C below.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” additional funds in the amount of \$2,000,000 are hereby obligated in support of Recovery Act activities. The total amount of funds obligated under this contract since its inception is increased from \$11,139,022,293.54 to \$11,141,022,293.54.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorizations (Attachment 1):

Work Authorization Number	Work Authorization Title
WI-470002-20440-10 (Revision No. 1)	SEP/EECBG/WAP ARRA 2009-2012 Integration Projects
WI-470002-20440-10 (Revision No. 2)	SEP/EECBG/WAP ARRA 2009-2012 Integration Projects
WI-470002-20458-09 (Revision No. 3)	EECBG Formula Grants Technical Assistance
(Number from Block 8 of the Work Authorization)	

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

WI0302000-05798- 1004902 (2009)	\$0	\$2,000,000	\$2,000,000
<i>11/1/2010, NCL</i>			
11. Performance period covered by funds: From: 10/1/2009 To: 9/30/2010		12. Work Start Date: 10/1/2009 11/1/2010 <i>NCL</i>	13. Expected Completion Date: 9/30/2010 9/30/2012 <i>NCL</i>
14. Statement of Work: Specific Recovery Act Statement of Work Carryover funding in the amount of \$2,000,000 is authorized for WI0302000-05798-1004902-SEP Special Projects (2009). These funds are made available for Project #20440 - SEP/EECBGWAP ARRA 2009-2012 Integration Project. These funds are to be distributed to Agreement # 20893-FY 10 ACEEE / SEP Program Enhancement Tools - 2010 - ARRA 1004902. Oak Ridge National Laboratory's contractor will develop a national program tools for states to support the State Energy Program (SEP). Funding shall be divided for Program Technical Assistance by ORNL and service providers for outreach to states, local communities, and tribes for information dissemination and assistance with the design and implementation of efficiency policies and programs especially in the areas of energy, cost, and demand savings; renewable energy generation; carbon reduction; sustainable project and job creation in the amount of \$1,500,000 and \$500,000 for work with states to identify energy efficiency potential studies for achieving lasting energy savings. The contractor will work with policymakers, regulators, utilities, and other interested parties to advance the use of cost-effective energy efficiency as a public resource. Individual projects may consist of research, information dissemination and assistance with the design and implementation of efficiency policies and programs especially in the areas of energy, cost, and demand savings; renewable energy generation; carbon reduction; and job creation. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to Energy Efficiency and Renewable Energy. ARRA funding information: Fund: 05798, Appropriation: 89-09/10-0331, Allottee: 30 B&R Code/Program Value: WI0302000-1004902 Project Code: 1004902 Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule or Milestones, Performance Outcomes and Measures and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of Energy Efficiency and Renewable Energy laboratory appraisal process.

Attachment A - Contractor Recovery Act Performance Requirements

Section A: Contractor Recovery Act Schedule or Milestone Requirements:

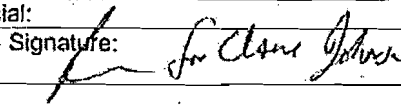

1. Preparation of proposed projects and implementation plans: 4th quarter of FY 2010. 2. Meeting with stakeholders, ORNL, and DOE: 4th quarter of FY 2010. 3. Initiation of projects and program activities: 1st quarter of FY 2011. 4. Completion of all program efforts: 3rd quarter of FY 2012 5. Completion of draft and final reports: 4th quarter of FY 2012

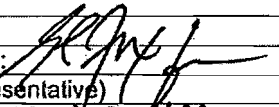

Section B: Contractor Recovery Act Performance Outcomes and Measures:

Reports on: National energy, cost, and demand savings attributable to ACEEE / SEP activities for Program Years 2010-2012; Renewable energy generation attributable to ACEEE / SEP activities for Program Years 2010-2012; Carbon emission reductions attributable to ACEEE / SEP activities for Program Years 2010-2012 Job creation attributable to SEP ACEEE / SEP activities for Program Years 2010 -2012

Section C: Contractor Recovery Act Deliverables:

Interim reports documenting progress and findings from studies of individual programmatic activities; Draft report documenting: energy, cost, and demand savings; renewable energy generation; carbon reduction; and job creation attributable to ACEEE / SEP activities for Program Years 2010-2012; Final report documenting same topics addressed in draft report

WI0302000-05798- 1004902 (2009)	\$0	\$4,700,000	\$4,700,000
11. Performance period covered by funds: From: 10/1/2009 To: 9/30/2010		12. Work Start Date: 10/1/2009 1/1/2010	13. Expected Completion Date: 9/30/2010 9/30/2010
14. Statement of Work: Specific Recovery Act Statement of Work Carryover funding in the amount of \$4,700,000 is authorized for WI0302000-05798-1004902-SEP Special Projects (2009). These funds are made available for Project #20440 - SEP/EECBG/WAP ARRA 2009-2012 Integration Projects. These funds are to be distributed to Agreement # 20877-Recovery Act Technical and Communications Support for SEP/EECBG TAS 8909/100331.91 CPS Project ID: 2004350 in accordance with AOP# OR22725 ARRA. Funding is provided to initiate and award a competitive solicitation for \$14 Million. The four competitive solicitation areas of interest are: State and Local Infrastructure, Building Efficiency, Financial Mechanisms, and Program Design and Implementation. The purpose of this solicitation is to provide States with technical and communications support for SEP & EECBG. Activities include developing, implementing and providing a regional coordination structure to support state efforts and strategic program implementation of SEP & EECBG. Specific technical assistance to states will include program and project support of State and Local Infrastructure, Building Efficiency, Financial Mechanisms, and Program Design and Implementation. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to Energy Efficiency and Renewable Energy. ARRA funding information: Fund: 05798, Appropriation: 89-09/10-0331, Allottee: 30 B&R Code/Program Value: WI0302000-1004902 Project Code: 1004902 Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule or Milestones, Performance Outcomes and Measures and Deliverables for this Work Authorization. Attachment A - Contractor Recovery Act Performance Requirements

Section A: Contractor Recovery Act Schedule or Milestone Requirements:

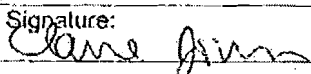

1. Develop solicitation
2. Evaluate respondents
3. Report proposed awards to SEP HQ Staff
4. Make Awards
5. Monitor Contract Awards

Section B: Contractor Recovery Act Performance Outcomes and Measures:

Report: 1. National energy, cost, and demand savings attributable to SEP projects or recommendations resulting from projects for Program Years 2008, 2009, and 2010 2. Renewable energy generation attributable to SEP projects or recommendations resulting from projects for Program Years 2008 -2010 Carbon emission reductions attributable SEP projects or recommendations resulting from projects for Program Years 2008 – 2010 Job creation attributable to SEP projects or recommendations resulting from projects for Program Years 2008 - 2010. Project savings in the above categories for near term implementation (2011 - 2015).

Section C: Contractor Recovery Act Deliverables:

Interim reports documenting progress and findings from individual awards or activities. Draft report documenting: energy, cost, and demand savings; renewable energy generation; carbon reduction; and job creation attributable to SEP for PY 2008 – 2010 and projections thereafter. Final report documenting same topics addressed in draft report.

11. Performance period covered by funds: From: 10/1/2008 To: 9/30/2009		12. Work Start Date: 10/1/2008	13. Expected Completion Date: 030/2009 9/30/2012 mmk
14. Statement of Work: Specific Recovery Act Statement of Work Funding in the amount of (\$4,700,000) is withdrawn from WI1001020-05796-1005116-EECBG Form Grants TA. These funds were made available for Project #20458 - EECBG Formula Grants Technical Assistance . These funds were to be distributed to Agreement # 19423-Recovery Act Technical and Communications Support for SEP/EECBG TAS 8909/100331.91 CPS Project ID: 2004350 in accordance with AOP# OR22725 ARRA. This funding action withdraws \$4.7 Million from the competitive solicitation of \$14 Million. The action returns the funds to Headquarters for redirection from Headquarters. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to Energy Efficiency and Renewable Energy. ARRA funding information: Fund: 05796, Appropriation: 89-09/10-0331, Allottee: 30 B&R Code/Program Value: WI1001020-1005116 Project Code: Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule or Milestones, Performance Outcomes and Measures and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of Energy Efficiency and Renewable Energy laboratory appraisal process.			
15. Reporting Requirements: (Status reports, scientific or technical information or similar)			
16. Work Authorization Program Official:			
Name (typed): Claire Johnson, Program Manager		Signature: 	Date: 3/16/10
17. DOE Field Organization Official:			
Name (typed): Michelle G. Branton		Signature: 	Date: 3/25/10
18. Contractor's Authorized Representative:

Mr. Michael J. Fietze, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6231

Dear Mr. Fietze:

CONTRACT NO. DE-AC05-00OR22725 - MODIFICATION NO. 366

A fully executed copy of the subject contract modification is enclosed for your retention. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$4,000,000 to the contract. This action involves the obligation of \$5,000,000 for one Office of Energy Efficiency and Renewable Energy (EERE) project and the de-obligation of \$1,000,000 from another EERE project. The total amount of funds obligated under this contract since its inception is increased from \$11,141,022,293.54 to \$11,145,022,293.54.

If you have any questions, please contact me at 576-4523.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Million".

Mark A. Million
Contracting Officer

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

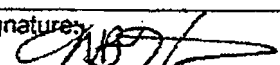

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$4,000,000 to the contract. This action involves the obligation of \$5,000,000 for one Office of Energy Efficiency and Renewable Energy (EERE) project and the de-obligation of \$1,000,000 from another EERE project. The Work Authorizations for these projects are reflected in section C below.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” additional funds in the amount of \$4,000,000 are hereby obligated in support of Recovery Act activities. The total amount of funds obligated under this contract since its inception is increased from \$11,141,022,293.54 to \$11,145,022,293.54.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorizations (Attachment 1):

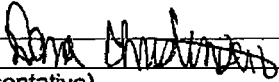

Work Authorization Number	Work Authorization Title
WI-470002-20440-10 (Revision No. 0)	SEP/EECBG/WAP ARRA 2009-2012 Integration Projects
WI-470002-20440-10 (Revision No. 3)	SEP/EECBG ARRA 2009-2012 Integration Projects
(Number from Block 8 of the Work Authorization)	

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

11. Performance period covered by funds: From: 10/1/2009 To: 9/30/2010		12. Work Start Date: 10/1/2009 11/1/2010, NCL	13. Expected Completion Date: 9/30/2010 2012, NCL
14. Statement of Work:			
Specific Recovery Act Statement of Work			
Carryover funding in the amount of \$5,000,000 is authorized for WI0302000-05798-1004902-SEP Special Projects (2009). These funds are made available for Project #20440 - SEP/EECBGWAP ARRA 2009-2012 Integration Projects. These funds are to be distributed to Agreement # 19019-ORNL SEP Evaluation & Analysis - The American Recovery and Reinvestment Act of 2009: 2004370, CID #OR22725 for award to Oak Ridge National Laboratory (ORNL). ORNL will develop a detailed study implementation plan and timeline and will provide ongoing management and oversight of an independent contractor evaluation of the State Energy Program (SEP). The evaluation will address 16 broad types of energy efficiency and renewable energy programs supported by SEP. The primary outcome of the three-year study will be an in-depth report describing the achievements of SEP in terms of four key metrics: energy and demand savings; renewable energy capacity and generation; carbon emissions reductions; and job creation. The field AFP recipient of the funds is responsible for reporting all funding obligations and costs to the Program Management Center and headquarters. The field AFP recipient must maintain obligations and cost data at the agreement level and the data must be made available to Energy Efficiency and Renewable Energy.			
ARRA funding information: Fund: 05798, Appropriation: 89-09/10-0331, Allottee: 30 B&R Code/Program Value: WI0302000-1004902 Project Code: 1004902 2004370			
Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule or Milestones, Performance Outcomes and Measures and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of Energy Efficiency and Renewable Energy laboratory appraisal process.			
15. Reporting Requirements: (Status reports, scientific or technical information or similar)			
16. Work Authorization Program Official:			
Name (typed): Kathleen B. Hogan, Program Manager		Signature: 	Date: 2/16/10
17. DOE Field Organization Official:			
Name (typed): Michele B. Bawton		Signature: 	Date: 4-15-10
18. Contractor's Authorized Representative: D.C. Christensen			

Name (typed): Dana Christensen	Signature: 	Date: 4-16-2010
19. DOE Contracting Officer (or delegated representative)		
Name (typed): Barbara J. Jackson	Signature: 	Date: 4/16/10
* The work authorization number will consist of the program code, AFP code, solicitation/project id and the fiscal year.		

Attachment A - Contractor Recovery Act Performance Requirements

Section A: Contractor Recovery Act Schedule or Milestone Requirements:

1. Preparation of detailed study plan: 4th quarter of FY 2010. 2. Kick-off meeting with contractor, ORNL, and DOE: 4th quarter of FY 2010. 3. Initiation of data collection for sampled programmatic activities: 1st quarter of FY 2011. 4. Completion of all data collection efforts: 3rd quarter of FY 2012 5. Completion of draft and final reports: 4th quarter of FY 2012

Section B: Contractor Recovery Act Performance Outcomes and Measures:

National energy, cost, and demand savings attributable to SEP for Program Years 2008, 2009, and 2010; Renewable energy generation attributable to SEP for Program Years 2008 -2010; Carbon emission reductions attributable to SEP for Program Years 2008 – 2010; Job creation attributable to SEP for Program Years 2008 - 2010.

Section C: Contractor Recovery Act Deliverables:

Interim reports documenting progress and findings from studies of individual programmatic activities; Draft report documenting: energy, cost, and demand savings; renewable energy generation; carbon reduction; and job creation attributable to SEP for PY 2008 – 2010; Final report documenting same topics addressed in draft report.

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 1 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$16,995.65 to the contract for the Work for Others (WFO) activities entered into with the National Institute of Health identified in section C below.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” additional funds in the amount of \$855.22 are hereby obligated in support of the project entitled “Accurate Mass Analysis of Singly-Charged Intact Proteins” and funds in the amount of \$16,140.43 are obligated in support of the project entitled “DNA Transport and Sequencing Through a Quadrupole Gate”. The total amount of funds obligated under this contract since its inception is increased from \$11,249,763,208.72 to \$11,249,780,204.37.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables funded by this modification are identified in the following referenced WFO Project Number(s):

WFO Project Number	WFO Project Title
NFE-10-02711	Accurate Mass Analysis of Singly-Charged Intact Proteins
NFE-10-02714	DNA Transport and Sequencing Through a Quadrupole Gate-Administrative Supplement

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended. Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)
See Page 2. Net Increase: \$3,073,500.00

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) 970.5232-4 OBLIGATION OF FUNDS (DEC 2000), P.L. 111-5, and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return _____ 0 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

MANAGEMENT AND OPERATION OF THE OAK RIDGE NATIONAL LABORATORY
The administrative office (administrative contracting activity) for this award/modification is 00005. The administrative office (administrative contracting activity) code is needed by the contractor/recipient for reporting to FederalReporting.gov concerning awards made with funding from the American Recovery and Reinvestment Act of 2009 (ARRA or Recovery Act). Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$3,073,500 to the contract. This action involves the obligation of \$3,000,000 for an Office of Energy Efficiency and Renewable Energy (EERE) project entitled “Project 8.1 Issue Open Call for Projects” and \$73,500 for an EERE project entitled “Carbon Fiber Technology Center”.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” additional funds in the amount of \$3,073,500 are hereby obligated in support of Recovery Act activities. The total amount of funds obligated under this contract since its inception is increased from \$11,249,780,204.37 to \$11,252,853,704.37.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables funded by this modification are identified in the following referenced Work Authorizations (Attachment 1):

Work Authorization Number	Work Authorization Title
WI-470002-20994-10 (Revision No. 1)	Project 8.1 Issue Open Call for Projects
WI-470002-20886-10 (Revision No. 2)	Carbon Fiber Technology Center
(Number from Block 8 of the Work Authorization)	

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

P 8.1 Issue Open Call for projects

Attachment A - Contractor Recovery Act Performance Requirements

Section A: Contractor Recovery Act Schedule or Milestone Requirements

Develop solicitation July, 2010. 2. Evaluate respondents September 2010. 3. Report proposed subcontract awards to WAP HQ Staff October 2010. 4. Make subcontract awards December 2010. 5. Monitor subcontracts December 2011. 6. Publish project results February 2012. 7. Input project results to the SIRT. February 2012.

Section B: Contractor Recovery Act Performance Outcomes and Measures

1. Complete Task 8.1 of the Weatherization Assistance Program Training and Technical Assistance Plan 2. Provide financial and technical assistance to selected Weatherization Assistance Program grantees to field test new cost-effective measures and techniques for application within the program, 3. Provide the results of these field tests in report form for replication of successful field tests in the Weatherization grantee and subgrantee network.

Section C: Contractor Recovery Act Deliverables

1. Solicitation for subcontractor awards. 2. Subcontract placement 3. Quarterly reports on subcontractor progress 4. Final reports on subcontract results

U.S. DEPARTMENT OF ENERGY CONTRACT WORK AUTHORIZATION			
1a. Solicitation/Project Title: Carbon Fiber Technology Center		1b. Work Proposal Number (if applicable):	
2. Headquarters Program Point of Contact: Name: Carol Schutte Organization Code: EE-2G Telephone No: (202) 287-5371

Department of Energy

Oak Ridge Office
P.O. Box 2001
Oak Ridge, Tennessee 37831

June 1, 2010

Mr. Michael J. Fietze, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6262

Dear Mr. Fietze:

CONTRACT NO. DE-AC05-00OR22725 - MODIFICATION NO.'S 378 – 384

A fully executed copy of contract modifications 378 through 384 are enclosed for your retention. These modifications obligate DOE appropriated and non-appropriated and Work for Others (WFO) funding. At this time, all appropriated funding received from other agencies via WFO program must be issued under separate contract modifications for proper tracking. Modifications 378 through 381 were executed in the STRIPES system with an electronic signature. However, STRIPES currently reflects a "Signature on File" under block 16B.

If you have any questions, please contact me at 576-4523.

Sincerely,

A handwritten signature in cursive script that reads "Mark A. Million".

Mark A. Million
Contracting Officer

Enclosure

2. AMENDMENT/MODIFICATION NO. 378	3. EFFECTIVE DATE See Block 16C	4. REQUISITION/PURCHASE REQ. NO. 10SC006080	5. PROJECT NO. (If applicable)

Dear Mr. Fietze:

CONTRACT NO. DE-AC05-00OR22725 - MODIFICATION NO. 385

A fully executed copy of the subject contract modification is enclosed for your retention. This modification reflects the reprogramming of American Recovery and Reinvestment Act of 2009 funding under the contract for Work Authorization No. FE/01029/41 entitled "Site Support to the IDIQ EM Contractor Work at ORNL for Non-Defense Funded Work". The total amount of funds obligated under this contract is unchanged and remains at \$11,307,630,514.58.

If you have any questions, please contact me at 576-4523.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Million".

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to reflect the reprogramming of American Recovery and Reinvestment Act (Recovery Act) of 2009 funds under the project entitled “Site Support to the IDIQ EM Contractor Work at ORNL for Non-Defense Funded Work”.
- B. The total amount of funds obligated under this contract since its inception is unchanged and remains at \$11,307,630,514.58.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorization:

Work Authorization Number	Work Authorization Title
WA No. FE/01029/41 (Revision No. 2) (Attachment 1) (Number from Block 8 of the Work Authorization)	Site Support to the IDIQ EM Contractor Work at ORNL for Non-Defense Funded Work

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work identified in this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

14. Statement of Work: This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009, (Pub. L. 111-5)(Recovery Act). All contract terms and conditions apply to the work identified herein, in particular contract provision H.50 applies. The work described in this work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act and as such is subject to special statutory conditions.

Rev 2 – Issued to reallocate funds between the sub projects. No net change in funding. Justification provided in BCP IntegnonDef001-R0

The Office of Science (SC) is committed to conducting all work authorized herein, in a manner that ensures protection of the workers, the public, and the environment. Protecting the workers, the public, and the environment is a direct and individual responsibility of all SC managers and Sc-supported contractors. Funds provided by ORO EM to SC will be applied as necessary to ensure that all supported activities are conducted safely and in an environmentally conscientious manner. Only work conducted in this manner will be supported.

Specific Recovery Act Statement of Work:

UT-B will provide the following general services for the IDIQ projects listed below:

- Coordination with Laboratory Operations including integration of EM work into overall master plan and schedule for ORNL Central Campus activities.
 - Provide Utility Isolation for facilities to be demolished.
 - Provide a point of contact for establishing RPP interfaces/boundaries for controlling radiological hazards.
 - Provide Fire Protection Engineering review/support for potential impacts on ORNL operations/facilities.
 - Provide ES&H and Technical Subject Matter experts to review impacts on ORNL operations/facilities and ensure that interface points are established and understood.
 - Coordinate Environmental Compliance Activities involving Site-wide issues.
 - Coordinate site space usage.
 - Provide for minor repairs for incidental damage done by IDIQ contractor work.
- Provide for Excavation/penetration Permits.
- Provide applicable records/drawings etc., as required to support the IDIQ contractor in their efforts
 - Provide technical support during transition of facility 2026 from UT-B to the EM IDIQ contractor.

Specific IDIQ Work Supported by this authorization is as follows

1. Central Campus Legacy Material Removal Project – (\$588,871)
2. General Maintenance Facilities Demolition Project – (\$1,208,749)
3. Southeast Laboratory Complex Demolition Project – (\$889,851)
4. 2026 Complex Legacy Material Removal Project - (\$69,507)

(Attach a detailed description of work to be performed or reference to a work proposal, project plan, or similar document that describes the scope of work, milestones, deliverables, and performance measures/expectations.)

15. Reporting Requirements (Status reports, scientific and technical information or similar):
 The recipient of funding in the Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act of 2009.

16. Work Authorization Program Official

Name (typed): L. B. McGetrick	Signature: <i>L. B. McGetrick</i>	Date: 5-26-2010

Dear Mr. Fietze:

CONTRACT NO. DE-AC05-00OR22725 - MODIFICATION NO. 386

A fully executed copy of the subject contract modification is enclosed for your retention. This modification reflects the reprogramming of American Recovery and Reinvestment Act of 2009 funding under the contract for Work Authorization No. FD/04029/41 entitled "Site Support to the IDIQ EM Contractors at ORNL for Defense Funded Work". The total amount of funds obligated under this contract is unchanged and remains at \$11,307,630,514.58.

If you have any questions, please contact me at 576-4523.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Million".

Mark A. Million
Contracting Officer

Enclosure

WORK AUTHORIZATION

**U. S. DEPARTMENT OF ENERGY
CONTRACT WORK AUTHORIZATION**

1a. Project Title: Site Support to the IDIQ EM Contractors at ORNL for Defense Funded Work (Project Code 2002101)

1b. Work Proposal Number (if applicable): NA

2. ORO EM Program Point of Contract.

Name: L. B. McGetrick Organization Code: EM-90 Telephone No. 865 241-6290

3. ORO Budget Point of Contract.

Name: J. D. Strandridge Organization Code: FM-72 Telephone No. 865 574-8885

4. Responsible Program: EM

5. Responsible Secretarial Officer:
Assistant Manager for Environmental Management

6. Responsible Field Organization:
Oak Ridge Office

7a. Site and Facility Management Contractor:
Oak Ridge National Laboratory
UT-Battelle, LLC

7b. Contractor Point of Contact.
Name S. D. Van Telephone No: 865 574 7264
Hoesen

8. Work Authorization Number: FD/04029/41

9. Revision Number: 3

10. Funding Authorized .

Budget and Reporting Code: FD0412000	Previous: \$5,860,646	Change: \$0	Current: \$5,860,646
---	--------------------------	----------------	----------------------

11. Performance Period Covered by Funds.

12. Work Start Date:

13. Expected Completion Date:

From: 6/12/09 To: 9/30/2011

6/2009

9/2011

14. Statement of Work: This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009, (Pub. L. 111-5)(Recovery Act). All contract terms and conditions apply to the work identified herein, in particular contract provision H.50 applies. The work described in this work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act and as such is subject to special statutory conditions.

The Office of Science (SC) is committed to conducting all work authorized herein, in a manner that ensures protection of the workers, the public, and the environment. Protecting the workers, the public, and the environment is a direct and individual responsibility of all SC managers and Sc-supported contractors. Funds provided by ORO EM to SC will be applied as necessary to ensure that all supported activities are conducted safely and in an environmentally conscientious manner. Only work conducted in this manner will be supported.

Rev 3 – Issued to reallocate funds between the sub projects. No net change in funding. Justification provided in BCP IntegDef001-R0

Specific Recovery Act Statement of Work:

UT-B will provide the following general services for the IDIQ projects listed below:

- Coordination with Laboratory Operations including integration of EM work into overall master plan and schedule for ORNL Central Campus activities.
 - Provide Utility Isolation for facilities to be demolished.
 - Provide a point of contact for establishing RPP interfaces/boundaries for controlling radiological hazards.
 - Provide Fire Protection Engineering review/support for potential impacts on ORNL operations/facilities.
 - Provide ES&H and Technical Subject Matter experts to review impacts on ORNL operations/facilities and ensure that interface points are established and understood.
 - Coordinate Environmental Compliance Activities involving Site-wide issues.
 - Coordinate site space usage.
 - Provide for minor repairs for incidental damage done by IDIQ contractor work.
- Provide for Excavation/penetration Permits.
- Provide applicable records/drawings etc. as required to support the IDIQ contractor in their efforts.

Specific IDIQ Work Supported by this authorization is as follows

1. Bethel Valley Isotope Facilities (Building 3026 Demolition-Hot Cells) – (\$1,200,538)
2. ORNL Small Facilities Completion Demolition – (\$2,957,798)
3. Core hole 8 Remediation – (\$338,609)
4. Bethel Valley Burial Grounds (Cap SWSA 1 And 3) – (\$200,000)
5. Bethel Valley Groundwater Early Actions (Pump and Treat) – (\$5,978)
6. Melton Valley Sentinel Wells – (\$1,500)
7. Bethel Valley Isotope Facilities (Building 3038 Legacy Material Removal and Demolition Preparation) – (\$1,156,223)

(Attach a detailed description of work to be performed or reference to a work proposal, project plan, or similar document that describes the scope of work, milestones, deliverables, and performance measures/expectations.)

15. Reporting Requirements (Status reports, scientific and technical information or similar):

The recipient of funding in the Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act of 2009.

16. Work Authorization Program Official

Name (typed): L. B. McGetrick	Signature: <i>L. B. McGetrick</i>	Date: 5-26-2010
----------------------------------	--------------------------------------	--------------------

17. DOE Field Organization Official

Name (typed): Johnny O. Moore	Signature: <i>M. A. Brenton for JOM</i>	Date: 5-27-2010
----------------------------------	--	--------------------

18. Contractor's Authorized Representative.

Name (typed): Kelly J. Beierschmitt	Signature: <i>K. Beierschmitt</i>	Date: 5/27/10
--	--------------------------------------	------------------

19. DOE Contracting Officer (or delegated representative).

Name (typed): Mark A. Million	Signature: <i>Mark A. Million</i>	Date: 5/27/10

Mr. Quinn Windham, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6262

Dear Mr. Windham:

CONTRACT NO. DE-AC05-00OR22725 - MODIFICATION NO. 387

A fully executed copy of the subject contract modification is enclosed for your retention. This modification reflects the reprogramming of American Recovery and Reinvestment Act of 2009 funding under the contract for Work Authorization No. KP/OR41/9/ARRA-1 entitled "Recovery Act Bioenergy Research Centers Capital Equipment: BioEnergy Science Center (Project Code 2005095)". The total amount of funds obligated under this contract is unchanged and remains at \$11,307,630,514.58.

If you have any questions, please contact me at 576-4523.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Million".

Mark A. Million
Contracting Officer

Department of Energy

Oak Ridge Office
P.O. Box 2001
Oak Ridge, Tennessee 37831

June 25, 2010

Mr. Quinn Windham, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6262

Dear Mr. Windham:

CONTRACT NO. DE-AC05-00OR22725: MODIFICATION NO. 388

A fully executed copy of the subject contract modification is enclosed for your retention. This modification updates contract clause H-13, *Representations, Certifications and Other Statements of the Offeror*.

If you have any questions regarding this modification, please contact me at 576-4523.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Million".

Mark A. Million
Contracting Officer

	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).		
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:		
X	D. OTHER (Specify type of modification and authority) P.L. 95-91 and Mutual Agreement		
E. IMPORTANT: Contractor <input type="checkbox"/> is not, <input checked="" type="checkbox"/> is required to sign this document and return _____ 2 _____ copies to the issuing office.			
14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)			

See Page 2.

Period of Performance: 04/01/2000 to 03/31/2015

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print) Greg Turner Chief Financial Officer		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) Mark A. Million	
15B. CONTRACTOR/OFFEROR  (Signature of person authorized to sign)	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA  (Signature of Contracting Officer)	16C. DATE SIGNED 6/24/10

The purpose of this modification is to update contract clause H-13, Representations, Certifications and Other Statements of the Offeror. There are no other changes to contract terms and conditions.

Therefore, the contract is modified as follows:

1. Clause H-13, Representations, Certifications and Other Statements of the Offeror, is deleted in its entirety and replaced with the following:

“H-13 Representations, Certifications and Other Statements of the Offeror

The Representations, Certifications, and Other Statements of the Offeror, dated August 2, 1999, for this contract, and all other updates as required by Section I clause FAR 52.204-7, Central Contractor Registration, are hereby incorporated, by reference, and made a part of this contract.”

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT		1. CONTRACT ID CODE	PAGE OF PAGES 1 2

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 1 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to de-obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds as follows: 1) a total of \$168.91 from the project entitled “Ceramic Material Testing on Teledyne Excentric Core Demo Turbine H/W,” 2) a total of \$74.00 from the project entitled “Installation of Natural Gas Lines for Decentralization from Central Heat Plant (West of Atlantic Ave),” and 3) a total of \$6.00 from the project entitled “Installation of Natural Gas Lines for Decentralization from Central Heat Plant (East of Atlantic Ave)”. These projects involve Military Interdepartmental Purchase Requests (MIPR) agreements with the Air Force.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” funds in the amount of \$248.91 are hereby de-obligated from the Recovery Act activities identified in the attached Financial Plan Report – Detail (Attachment 1). The total amount of funds obligated under this contract since its inception is decreased from \$11,307,630,514.58 to \$11,307,630,265.67.
- C. All other terms and conditions remain unchanged.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 1 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to incorporate an adjustment to the financial plan for the American Recovery and Reinvestment Act (Recovery Act) of 2009 funded project entitled “Site Support to the IDIQ EM Contractors at ORNL for Defense Funded Work”.
- B. The total amount of funds obligated under this contract since its inception is unchanged and remains at \$11,307,630,265.67.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables identified in the following referenced Work Authorization are unchanged:

Work Authorization Number	Work Authorization Title
WA No. FD/04029/41 (Revision No. 3) (See Mod 386) (Number from Block 8 of the Work Authorization)	Site Support to the IDIQ EM Contractors at ORNL for Defense Funded Work

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work identified in this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 1 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$17,867.92 to the contract for the Work for Others (WFO) activities entered into with the National Institute of Health identified in section C below.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” additional funds in the amount of \$17,320.08 are hereby obligated in support of the project entitled “Accurate Mass Analysis of Singly-Charged Intact Proteins” and funds in the amount of \$547.84 are obligated in support of the project entitled “DNA Transport and Sequencing Through a Quadrupole Gate”. The total amount of funds obligated under this contract since its inception is increased from \$11,307,630,265.67 to \$11,307,648,133.59.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables funded by this modification are identified in the following referenced WFO Project Number(s):

WFO Project Number	WFO Project Title
NFE-10-02711	Accurate Mass Analysis of Singly-Charged Intact Proteins
NFE-10-02714	DNA Transport and Sequencing Through a Quadrupole Gate-Administrative Supplement

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) P.L. 111-5 and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return _____ 0 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

MANAGEMENT AND OPERATION OF THE OAK RIDGE NATIONAL LABORATORY
 The administrative office (administrative contracting activity) for this award/modification is 00005. The administrative office (administrative contracting activity) code is needed by the contractor/recipient for reporting to FederalReporting.gov concerning awards made with funding from the American Recovery and Reinvestment Act of 2009 (ARRA or Recovery Act).
 Recovery TAS::89 0227::TAS

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code, is hereby provided in Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amounts of \$1,100,000 for a Basic Energy Sciences project entitled “Energy Frontier Research Centers (Project Code 2005000),” \$108,000 for a Advanced Scientific Computing Research project entitled “Computational Partnerships (SciDAC-e) (Project Code 2005060)” and \$842 for a Fusion Energy Sciences project entitled “DIII-D Facility Upgrades (Project Code 2005290).”
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” funds in the amount of \$1,208,842 are hereby obligated in support of Recovery Act activities. The total amount of funds obligated under this contract since its inception is increased from \$11,307,648,133.59 to \$11,308,856,975.59.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables funded by this modification are identified in the following referenced Work Authorizations (Attachment 1):

Work Authorization Number	Work Authorization Title
KC/OR41/9/ARRA-3 (Revision No. 01)	Basic Energy Sciences - Energy Frontier Research Centers (2005000)
KJ/OR41/0/ARRA-1 (Revision No. 00)	Advanced Scientific Computing Research – Computational Partnerships (SciDAC-e) (2005060)
AT/OR41/9/ARRA-1 (Revision No. 02)	Fusion Energy Sciences – DIII-D Facility Upgrades (2005290)
(Numbers from Block 8 of the Work Authorizations)	

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.

- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.

- F. All other terms and conditions remain unchanged.

WORK AUTHORIZATIONS

**U.S. DEPARTMENT OF ENERGY
CONTRACT WORK AUTHORIZATION
AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009: 89-09/10-0227**

1a. Project Title: Basic Energy Sciences - Energy Frontier Research Centers (Project code 2005000)		1b. Work Proposal Number (if applicable): Various	
2. Headquarters Program Point of Contact. Name: Harriet H. Kung/ Toif Carim(4895) Organization Code: SC-22 Telephone No.: (301) 903-3081			
3. Headquarters Budget Point of Contact. Name: Mike Osinski/Donna Gilhest (ext 4815) Organization Code: SC-41 Telephone No.: (301) 903-3590			
4. Responsible Program: Basic Energy Sciences		5. Responsible Secretarial Officer: Under Secretary for Science	
6. Responsible Field Organization: Oak Ridge Office			
7a. Site and Facility Management Contractor: UT - Battelle LLC - Oak Ridge National Laboratory		7b. Contractor Point of Contact. Name: Telephone No.:	
8. Work Authorization Number: KC/OR41/9/ARRA-3		9. Revision Number: 01	
10. Funds Authorized (\$ in thousands). B&R Code: KC Previous: \$0 Change: \$-1,100 Current: \$1,100			
11. Performance Period Covered by Funds. From: 02/17/09 To: 09/30/10		12. Work Start Date: Aug 2009	13. Expected Completion Date: July 2014
14. Statement of Work: This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009. (Pub. L. 111-5) (Recovery Act). All contract terms and conditions apply to the work identified herein, in particular contract provision H.99 applies. The work described in this work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act and as such is subject to special statutory conditions. The Office of Science (SC) is committed to conducting all work authorized herein, in a manner that ensures protection of the workers, the public, and the environment. Protecting the workers, the public, and the environment is a direct and individual responsibility of all SC managers and SC-supported contractors. Funds provided by SC will be applied as necessary to ensure that all supported activities are conducted safely and in an environmentally conscientious manner. Only work conducted in this manner will be supported. <u>Specific Recovery Act Statement of Work:</u> Funds in the amount of \$1,100,000 are provided under KC030701 for FWP # ERKCM74, entitled "Materials Sciences of Actinides (Lead Institute - University of Notre Dame)." EFRD Director: Burns, Peter. The project period for this FWP is August 1, 2009 through July 31, 2014. The principal investigator moved from PNNL to ORNL. Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule Milestones, Performance Measures, and Outcomes and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of Science laboratory appraisal process.			
15. Reporting Requirements (Status reports, scientific and technical information or similar): The recipient of funding in this Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act of 2009.			
16. Work Authorization Program Official. Name (typed): Harriet H. Kung Signature: <i>[Signature]</i> Date: 6/8/2010			
17. DOE Field Organization Official. Name (typed): Michele G. Branton Signature: <i>[Signature]</i> Date: 6/14/10			
18. Contractor's Authorized Representative. Name (typed): Michelle Budaus Signature: <i>[Signature]</i> Date: 6/14/10			
19. DOE Contracting Officer (or delegated representative). Name (typed): MARK A. MILLION Signature: <i>[Signature]</i> Date: 6/14/10			

**ATTACHMENT A – CONTRACTOR RECOVERY ACT PERFORMANCE REQUIREMENTS
Energy Frontier Research Centers (2005000)**

Section A: Contractor Recovery Act Schedule or Milestone Requirements

4Q FY09: Initiate research as a portion of the Energy Frontier Research Center (EFRC) led by the appropriate university which is funded separately under a financial assistance award (grant). If the contractor is a participant in more than one EFRC, the attachment pertains to the contractor's portion of all those EFRCs.

1Q FY10: First quarterly progress report due.

Progress report due each quarter through 4th Q FY 2014.

Section B: Contractor Recovery Act Performance Outcomes and Measures

- Perform the contractor's portion of the research proposed for the EFRC(s). Federal program managers will verify the research performance of the whole EFRC through conference calls, site visits, regular EFRC directors' meetings, topical conference meetings attended by EFRC investigators, and annual research progress reports.

Section C: Contractor Recovery Act Deliverables

- Quarterly progress reports on the contractor's activities within the EFRC(s).

11. Performance Period Covered by Funds: From: 02/17/09 To: 09/30/10		12. Work Start Date: 07/2010
13. Expected Completion Date: 08/31/2011		
14. Statement of Work: (see attached) This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009, (Pub. L. 111-5) (Recovery Act). All contract terms and conditions apply to the work identified herein; in particular contract provision H.999 applies. The work described in this work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act and as such is subject to special statutory conditions. The Office of Science (SC) is committed to conducting all work authorized herein, in a manner that ensures protection of the workers, the public, and the environment. Protecting the workers, the public, and the environment is a direct and individual responsibility of all SC managers and SC-supported contractors. Funds provided by SC will be applied as necessary to ensure that all supported activities are conducted safely and in an environmentally conscientious manner. Only work conducted in this manner will be supported. <u>Specific Recovery Act Statement of Work:</u> Supplement entitled “Enhancing Productivity of Materials Discovery Computations for Solar Fuels and Next Generation Photovoltaics” to existing SciDAC project “Performance Engineering Research Center (PERC-3) SciDAC Center for Enabling Technology” to support collaborative research with Basic Energy Sciences (BES)-supported Energy Frontier Research Centers (EFRCs) to develop a high-performance computing capability relevant to the goals of the EFRC. Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule Milestones, Performance Measures and Outcomes and Deliverables for this Work Authorization. The contractor’s performance against the identified requirements in Attachment A will be evaluated under the Office of Science laboratory appraisal process.		

MAM 6/10/10

15. Reporting Requirements (Status reports, scientific and technical information or similar):

The recipient of funding in this Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act of 2009.

16. Work Authorization Program Official.

Name (typed): Michael R. Strayer

Signature: *Barbara J. Holland Michael R. Strayer* Date: 6/4/2010

17. DOE Field Organization Official.

Name (typed): Michele G. Baanton

Signature: *M. G. Baanton* Date: 6/14/10

18. Contractor's Authorized Representative.

Name (typed): Jeffrey A. Nichols

Signature: *J. Nichols* Date: 6/15/10

19. DOE Contracting Officer (or delegated representative).

Name (typed): MARK A. MILLION

Signature: *Mark A. Million* Date: 6/10/10

ATTACHMENT A – CONTRACTOR RECOVERY ACT PERFORMANCE REQUIREMENTS

Section A: Contractor Recovery Act Schedule or Milestone Requirements

08/31/11: provide final report to ASCR

Section B: Contractor Recovery Act Performance Outcomes and Measures

Delivery of computational capability to at least one EFRC at the end of the second year. This computational capability may be in the form of a new science application code, a visualization of a massive scientific dataset, or the scaling of an existing code from desktop to massively parallel computing resources at the ASCR leadership facilities. The extent and success of this computational capability will be reviewed by experts.

Section C: Contractor Recovery Act Deliverables

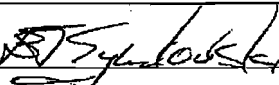

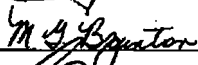

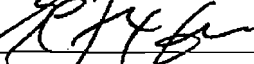

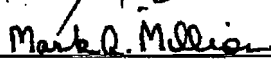

A reviewable final report detailing the computational capabilities developed through this project and any demonstrable progress toward developing the mathematics, algorithms, and software in support of ASCR goals.

4. Responsible Program: Fusion Energy Sciences		5. Responsible Secretarial Officer: Director, Office of Science	
6. Responsible Field Organization: Oak Ridge Office			
7a. Site and Facility Management Contractor: UT-Battelle LLC (Oak Ridge National Laboratory)		7b. Contractor Point of Contact: Name: Donald Hillis Telephone No.: 865-576-3739	
8. Work Authorization Number: AT/OR41/9/ARRA-1		9. Revision Number: 02	
10. Funds Authorized (\$ in thousands). B&R Code: AT Previous: \$180 Change: +\$1 Current: \$181*			
11. Performance Period Covered by Funds. From: 02/17/09 To: 09/30/10		12. Work Start Date: 6/2009	13. Expected Completion Date: 9/2011
14. Statement of Work: see attached This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009, (Pub. L. 111-5) (Recovery Act). All contract terms and conditions apply to the work identified herein, in particular contract provision H.999 applies. The work described in this work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act and as such is subject to special statutory conditions. The Office of Science (SC) is committed to conducting all work authorized herein, in a manner that ensures protection of the workers, the public, and the environment. Protecting the workers, the public, and the environment is a direct and individual responsibility of all SC managers and SC-supported contractors. Funds provided by SC will be applied as necessary to ensure that all supported activities are conducted safely and in an environmentally conscientious manner. Only work conducted in this manner will be supported.			
<p><u>Specific Recovery Act Statement of Work:</u></p> <p>✓ \$842 of additional funding is provided under AT5502 in the FY 2010 June AFP, bringing the total available to \$180,842. The \$180,842 is provided to hire a post-doc to install and implement a system that will image the edge magnetic topology on the DIII-D tokamak during the application of Resonant Magnetic Perturbations (RMP). RMPs are used to suppress Edge Localized Modes (ELMs) in DIII-D because the ELMs create undesirable pulsed heat loads to the divertor and wall structures. A realistic assessment of the impact of the applied 3-d magnetic fields requires modeling of the plasma response, which in some cases can shield the perturbation and in other cases amplify it. Assessment of the field in the plasma can be accomplished with an edge imaging system. The pedestal temperature typically lies in the 0.2 - 1.0 keV, which lies in the soft X-ray emission wavelength range. Thus the leading candidate to image the edge island structure would be from a soft X-ray pinhole camera. The primary task of the postdoc will be to lead the implementation of an edge imaging system to diagnose the edge island structure in the vicinity of the DIII-D X-point region.</p> <p>Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule Milestones, Performance Measures and Outcomes and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of Science laboratory appraisal process.</p>

Name (typed): MARK A. MILLION	Signature: 	Date: 6/10/10

* Includes Operating of \$180,842.

**ATTACHMENT A – CONTRACTOR RECOVERY ACT PERFORMANCE REQUIREMENTS
DIII-D Facility Upgrades (2005290) – ORNL**

Work Authorization #AT/OR41/9/ARRA-1, Rev 02

Section A: Contractor Recovery Act Schedule or Milestone Requirements

Secure a postdoc to focus on implementation of an edge magnetic topology imaging system	August 2009
Complete engineering design review of edge imaging system	February 2010
Install imaging system on DIII-D during the Long Torus Opening Activity	February 2011
Commission edge imaging system with first plasma light	September 2011

Section B: Contractor Recovery Act Performance Outcomes and Measures

Completed engineering design will be acceptable for implementation on the DIII-D tokamak

Variation from total cost of effort will be less than 10%

The task schedule will be coordinated and managed in conjunction with the planned DIII-D Long Torus Opening Activity (LTOA) such that this task does not delay the scheduled completion of the LTOA

Initial data from the diagnostic will be reported at open science meetings and conferences

Section C: Contractor Recovery Act Deliverables

The deliverable will be data taken to examine the edge island structure in the vicinity of the X-point in the DIII-D tokamak using an edge x-ray imaging system.

15C. DATE SIGNED	16C. DATE SIGNED 06/24/2010

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 1 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to de-obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$848.99 from the project entitled “Decision Tools for Asset Management and Infrastructure Resilience.” This project was executed through a Military Interdepartmental Purchase Requests (MIPR) agreement with the Army Corp of Engineers. The MIPR Number for the project is W81F8E91426043.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” funds in the amount of \$848.99 are hereby de-obligated from the Recovery Act activities identified in the attached Financial Plan Report (Attachment 1). The total amount of funds obligated under this contract since its inception is decreased from \$11,308,856,975.59 to \$11,308,856,126.60.
- C. All other terms and conditions remain unchanged.

Oak Ridge Office
P.O. Box 2001
Oak Ridge, Tennessee 37831

June 25, 2010

Mr. Quinn Windham, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6262

Dear Mr. Windham:

CONTRACT NO. DE-AC05-00OR22725 - MODIFICATION NO.'S 389 – 402

A fully executed copy of contract modifications 389 through 402 are enclosed for your retention. These modifications obligate DOE appropriated and non-appropriated, including Work for Others (WFO), and American Recovery and Reinvestment Act of 2009 (Recovery Act) funding. Included in these modifications are several small-dollar deobligation actions and zero-dollar re-programming actions involving Recovery Act funded projects. At this time, all appropriated funding received from other agencies via WFO program and Recovery Act funding received from different DOE Program Offices must be issued under separate contract modifications for proper tracking.

If you have any questions, please contact me at 576-4523.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Million".

Mark A. Million
Contracting Officer

Enclosure

Department of Energy

Oak Ridge Office
P.O. Box 2001
Oak Ridge, Tennessee 37831

July 15, 2010

Mr. Quinn Windham, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6262

Dear Mr. Windham:

CONTRACT NO. DE-AC05-00OR22725 – MODIFICATIONS 405-407

Enclosed are fully executed copies of modifications 405 through 407 which include the de-obligation of funds under the contract. Two of the modifications (405 and 406) are Recovery Act projects that actually increase the total contract value but include work authorizations involving a deobligation. Modification 407 reflects a \$338,000 decrease in DOE appropriated funding.

If you have any questions regarding these modifications, please contact me at 576-4523.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Million".

Mark A. Million
Contracting Officer

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$5,909,156 to the contract. This action involves the obligation of \$6,000,000 for an Office of Energy Efficiency and Renewable Energy (EERE) project entitled “ORNL Evaluation 2009 ARRA and Retro” and de-obligates \$90,844 from an EERE project entitled “ARRA 48C Tax Credits Applications”. Another \$180,000 is being withdrawn from the work authorization for the “ARRA 48C Tax Credits Applications” project to correct a reprogramming action from a previous month.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” additional funds in the amount of \$5,909,156 are hereby obligated in support of Recovery Act activities. The total amount of funds obligated under this contract since its inception is increased from \$11,374,133,036.89 to \$11,380,042,192.89.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables funded by this modification are identified in the following referenced Work Authorizations (Attachment 1):

Work Authorization Number	Work Authorization Title
WI-470002-20455-10 (Revision No. 1)	ORNL Evaluation 2009 ARRA and Retro
471999-20758-10C (Revision No. 1) (Number from Block 8 of the Work Authorization)	ARRA 48C Tax Credits Applications

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

11. Performance period covered by funds: From: 10/1/2009 To: 9/30/2010 <i>11/2010, HCL</i>			
12. Work Start Date: 10/1/2009 <i>11/2010</i>		13. Expected Completion Date: 9/30/2010 <i>9/30/2013 HCL</i>	
14. Statement of Work: Specific Recovery Act Statement of Work Carryover funding in the amount of \$6,000,000 is authorized for WI0702000-05797-1004760-Weatheriz. Trng & TA (2009). These funds are made available for Project #20455 - ORNL Evaluation 2009 ARRA and Retro . These funds are to be distributed to Agreement # 19052-ORNL Evaluation of WAP in accordance with AOP# OR22725. The funds shall be divided as follows: Task 1 \$3,000,000 - Oak Ridge National Laboratory's contractor will conduct impact assessments to evaluate energy savings and bill reductions resulting from the Weatherization Assistance Program. The Project Code is 2004360. Oak Ridge National Laboratory's contractor will also conduct analyses of the relationships between various measures and techniques employed by the program and the energy savings produced, including in-depth assessment of the approaches used to conduct/perform audits, client education, training, and monitoring. The awardees will prepare a draft and final report providing detailed assessments of energy savings, job creation, and other benefits from the program. The retrospective evaluation will cover baseline periods of Program Years 2007 and 2008. Oak Ridge National Laboratory may also conduct special studies of base load electric savings, air conditioning, health and safety, and other measures should funding permit and the results of these special reports will be integrated into the analysis of the overall performance of the Weatherization Assistance Program. Task 2) \$3,000,000 - Oak Ridge National Laboratory's contractor will conduct an evaluation of the Weatherization Assistance Program (WAP) during the period of the implementation of the American Recovery and Reinvestment Act of 2009 (ARRA). The Project Code is 2004360. This evaluation will encompass WAP Program Years 2009 and 2010. The evaluation will include: an impact analysis that will estimate national energy savings, energy cost savings, and cost effectiveness; a process evaluation that will describe how the weatherization community is dealing with ARRA provisions and expansion of the program; a non-energy benefits analysis that will focus on additional benefits attributable to the program from increases in average weatherization investments in homes, additional reductions in greenhouse gases, and expanded training in weatherization; and a post-ARRA assessment that will document plans being made by states and local agencies to maintain expanded weatherization programs and analyze new ways to leverage resources for weatherization activities, such as through voluntary carbon markets. Oak Ridge National Laboratory may also conduct special studies to estimate energy savings associated with innovations in the delivery of weatherization services, such as neighborhood sweeps and weatherization of public housing units. The awardees will prepare draft and final reports providing detailed assessments of energy savings and other benefits of the program. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to Energy Efficiency and Renewable Energy.			

ARRA funding information: Fund: 05797, Appropriation: 89-09/10-0331, Allottee: 30 B&R Code/Program Value: W10702000-1004760 Project Code: ~~4004760~~ 2004360 (See previous page)
 Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule or Milestones, Performance Outcomes and Measures and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of Energy Efficiency and Renewable Energy laboratory appraisal process.

Attachment A - Contractor Recovery Act Performance Requirements

Section A: Contractor Recovery Act Schedule or Milestone Requirements:

Section B: Contractor Recovery Act Performance Outcomes and Measures:

Section C: Contractor Recovery Act Deliverables:

ATTACHMENT A – CONTRACTOR RECOVERY ACT PERFORMANCE REQUIREMENTS

Section A: Contractor Recovery Act Schedule or Milestone Requirements

1. Approval of data collection instrument by OMB

Instruments will be submitted to OMB in FY 2010, 3rd quarter.

(Given the unpredictable time to complete the OMB review process, this milestone is expected to be met in FY 2011, 1st quarter or 2nd quarter

Delay in approval will result in delay of Data Collections and Delivery of Final Report)

2. Data collections

For national energy savings attributable to

WAP for Program Year 2009: FY 2012, 1st quarter (11/15/2011)

WAP for Program Year 2010: FY 2013, 1st quarter (11/15/2012)

Data collection for the process assessment: FY 2011, 3rd quarter. (6/15/2011)

Data collection for special studies: FY 2012, 3rd quarter. (6/15/2012)

3. Final Reports

Final Report: FY 2013, 4th quarter (9/30/2013)

Section B: Contractor Recovery Act Performance Outcomes and Measures

National energy savings attributable to WAP for Program Years (PY) 2009 & 2010

Energy savings attributable to innovations in WAP program delivery

Monetary estimates of non-energy benefits attributable to WAP for PY Years 2009 & 2010

Estimates of reductions in the emission of greenhouse gases attributable to WAP for PY Years 2009 & 2010

Qualitative observations about WAP operation and administration for PY Years 2009 & 2010 .

Section C: Contractor Recovery Act Deliverables

Monthly Progress Reports

Interim reports documenting:

Program Year 2009 national energy savings

Program Year 2010 national energy savings

Program Year 2009 non-energy benefits

Program Year 2010 non-energy benefits

Special Studies Reports:

WAP Process Assessment

WAP Strategies Assessment for WAP post-ARRA

Specific Recovery Act Statement of Work

Carryover funding in the amount of (\$270,844) is withdrawn from EB5100000-05794-1005098-Prog Dir (2009). These funds were made available for Project #20758 - ARRA 48C Tax Credits Applications. These funds were to be distributed to Agreement #20381 - ORO ARRA 48C Tax Credits Application for award to UT Batelle/Oak Ridge National Laboratory. ** ARRA Project 2004040 ** Funds were for conducting both Independent Reviews and Merit Reviews for evaluating and selecting Applications in response to IRS Notice 2009-72 titled "Qualifying Advanced Energy Project Credit. The field AFP recipient of the funds is responsible for reporting all funding obligations and costs to the Program Management Center and headquarters. The field AFP recipient must maintain obligations and cost data at the agreement level and the data must be made available to EERE.

ARRA funding information:

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$7,950,000 to the contract. This action involves the obligation of \$8,000,000 for one Office of Energy Efficiency and Renewable Energy (EERE) project and the de-obligation of \$50,000 from another EERE project. The Work Authorizations for these projects are reflected in section C below.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” additional funds in the amount of \$7,950,000 are hereby obligated in support of Recovery Act activities. The total amount of funds obligated under this contract since its inception is increased from \$11,380,042,192.89 to \$11,387,992,192.89.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorizations (Attachment 1):

Work Authorization Number	Work Authorization Title
WI-470002-21026-10 (Revision No. 1)	P 13.1 ORNL Quality Assurance Program
470002-20476-09 (Number from Block 8 of the Work Authorization)	Federal Laboratory Support for Recovery Act Transactions ARRA FY2009

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

11. Performance period covered by funds: From: 10/01/2009 To: 09/30/2010 <i>12 WCL</i>		12. Work Start Date: 10/01/2009 <i>6/1/2010 WCL</i>	13. Expected Completion Date: 09/30/2010 <i>12 WCL</i>
14. Statement of Work: Specific Recovery Act Statement of Work Carryover funding in the amount of \$8,000,000.00 is authorized for WI0702000-05797-1004760-Weatheriz. Trng & TA (2009). DOE, through ORNL, will administer a quality assurance program to assure success in the use of Federal grants and to ensure quality controls are in place to ensure safe installation and construction practices by grantees. ORNL will solicit a prime contractor to carry out a national WAP Quality Assurance Plan (defined by DOE) with the following objectives: 1) To provide an oversight system to ensure the appropriateness of services, quality workmanship, materials, and compliance with relevant regulations and DOE Weatherization and other retrofit program requirements; 2) To assure that grantees utilize appropriate plans, procedural controls (including quality control protocols), and processes; 3) To ensure consistent application of program standards nationwide; 4) To encourage and enhance best management practices; 5) To provide clear and transparent guidelines for program, grantee, and sub-grantee management, monitoring, and communications. Funding provided in this work authorization is not approved for obligation of any type of support service contract either as a prime or subcontract award. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to EERE.			
ARRA funding information:			
Fund: 05797, Appropriation: 89-09/10-0331, Allottee: 30			
B&R Code/Program Value: WI0702000-1004760			
Project Code: 1004760 <i>2004360 (see attached from Jay Schell HQ)</i>			
Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule or Milestones, Performance Outcomes and Measures and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of			

EERE laboratory appraisal process.		
15. Reporting Requirements (Status reports, scientific and technical information or similar):		
16. Work Authorization Program Official:		
Name (typed): Kathleen B. Hogan, Deputy Assistant Secretary for Energy Efficiency	Signature: f78e0343-ad3b-41f2-915c- 5ab18ba0f112	Date: 4/26/2010
17. DOE Field Organization Official:		
Name (typed): Michele G. Brantley	Signature: M. G. Brantley	Date: 6-22-2010
18. Contractor's Authorized Representative:		
Name (typed): D.C. Christensen	Signature: D.C. Christensen	Date: 23 June 2010
19. DOE Contracting Officer (or delegated representative):		
Name (typed): MARK A. MILLER	Signature: Mark A. Miller	Date: 6/21/10
* The work authorization number will consist of the program code, AFP code, solicitation/project Id, and the fiscal year

Attachment A - Contractor Recovery Act Performance Requirements

Section A: Contractor Recovery Act Schedule or Milestone Requirements:
Provide an ORNL Quality Assurance Program plan for soliciting contractor bids. Develop a Quality Assurance Program solicitation. Administer the Quality Assurance Program over the life of the program. Provide a final report on the success of the Quality Assurance Program. <i>By 9/30/2012 WCL</i>
Section B: Contractor Recovery Act Performance Outcomes and Measures:
Program Plan - Timely submission of Plan in coordination with DOE WAP T& TA manager; Solicitation - Timely execution of solicitation to deploy contractor(s) to audit WAP weatherized homes. Meet quantity goals of WAP program review of homes weatherized.
Section C: Contractor Recovery Act Deliverables:
Intermediate and Final drafts of Quality Assurance Program plan; Copy of Quality Assurance Program solicitation and response information. Monthly reports on Quality Assurance Program activities.

10B. DATED (SEE ITEM 13) 10/18/1999

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required) Net Decrease: -\$338,000.00

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE
A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
D. OTHER (Specify type of modification and authority)
X 970.5232-4 OBLIGATION OF FUNDS (DEC 2000) and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return 2 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

Pursuant to the provisions of Clause I.153, the first sentence of paragraph (a) is hereby changed to read as follows: The amount presently obligated by the Government with respect to this contract is \$11,387,654,192.89. This represents a decrease of \$338,000.00, from \$11,387,992,192.89 to \$11,387,654,192.89.

Included in this obligation are Non-Appropriated Funds (NAF) in the amount of \$0.

Cumulative obligations of NAF since Modification 234 are \$102,672,815.68.

Mr. Quinn Windham, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6262

Dear Mr. Windham:

CONTRACT NO. DE-AC05-00OR22725 – MODIFICATION 408

A fully executed copy of the subject contract modification is enclosed for your retention. This modification replaces Appendix B of Section J with a revised list of Key Personnel. The revised list reflects the acceptance of Dr. Brent Park as Associate Laboratory Director, Global Security. The modification recognizes that the National Security and Global Initiatives Directorates have combined to form the new Global Security Directorate.

If you have any questions, please contact me at 576-4523.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Million".

Mark A. Million
Contracting Officer

July 13, 2010

Mr. Quinn Windham, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6262

Dear Mr. Windham:

CONTRACT NO. DE-AC05-00OR22725 - MODIFICATION NO. 410

A fully executed copy of the subject contract modification is enclosed for your retention. This modification reflects the reprogramming of American Recovery and Reinvestment Act of 2009 funding under the contract for Work Authorization No. ST/OR41/9/ARRA-3 entitled "Nuclear Physics-Enhanced Utilization of Isotope Facilities (2005230)". The total amount of funds obligated under this contract is unchanged and remains at \$11,387,654,192.89.

If you have any questions, please contact me at 576-4523.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Million".

Mark A. Million
Contracting Officer

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to reflect the reprogramming of American Recovery and Reinvestment Act (Recovery Act) of 2009 funds under the project entitled “Nuclear Physics-Enhanced Utilization of Isotope Facilities (2005230)”.
- B. The total amount of funds obligated under this contract since its inception is unchanged and remains at \$11,387,654,192.89.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorization:

Work Authorization Number	Work Authorization Title
WA No. ST/OR41/9/ARRA-3 (Revision No. 06) (Attachment 1)	Nuclear Physics-Enhanced Utilization of Isotope Facilities (Project Code 2005230)
(Number from Block 8 of the Work Authorization)	

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work identified in this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

14. Statement of Work (See attached)

This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009, (Pub. L. 111-5) (Recovery Act). All contract terms and conditions apply to the work identified within, in particular contract provision H.50 applies. The work described in this work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act, and as such is subject to special statutory conditions.

The Office of Science (SC) is committed to conducting all work authorized herein, in a manner that ensures protection of the workers, the public, and the environment. Protecting the workers, the public, and the environment is a direct and individual responsibility of all SC managers and SC-supported contractors. Funds provided by NP will be applied as necessary to ensure that all NP activities are conducted safely and in an environmentally conscientious manner. Only work conducted in this way will be supported.

Specific Recovery Act Statement of Work:

\$500,000 in EQU funds previously provided for this Recovery Act project for remote target fabrication refurbishment is withdrawn and provided as OPE funds for the production of Actinium-227 by recovery and purification from Actinium-Beryllium neutron sources. This replenishes funding that was redirected in the June AFP from Ac-227 to meet remote target fabrication milestones.

Attachment A, Contractor Recovery Act Performance Requirements, remains unchanged from Revised Work Authorization, Revision 01, signed by Eugene A. Henry on 6/25/2009.

* Includes OPE funding \$2,947,000 and EQU funding \$1,900,000.

Continuation of WAS - Enhanced Utilization of Isotope Facilities (2005230)

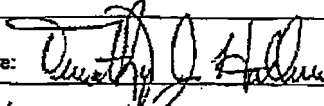

15. Reporting Requirements (Status reports, scientific and technical information or similar):

The recipient of funding in this Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act of 2009.

Mr. Quinn Windham, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6262

Dear Mr. Windham:

CONTRACT NO. DE-AC05-00OR22725 - MODIFICATION NO.'S 411 – 418

A fully executed copy of contract modifications 411 through 418 are enclosed for your retention. These modifications obligate DOE appropriated and non-appropriated, including Work for Others (WFO), and American Recovery and Reinvestment Act of 2009 (Recovery Act) funding. Included in these modifications is a small-dollar deobligation action involving a Recovery Act funded project. At this time, all appropriated funding received from other agencies via WFO program and Recovery Act funding received from different DOE Program Offices must be issued under separate contract modifications for proper tracking.

If you have any questions, please contact me at 576-4523.

Sincerely,

Mark A. Million

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds for the project entitled “Installation of Natural Gas Lines for Decentralization from Central Heat Plant (West of Atlantic Ave) at Dover AFB”.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” funds in the amount of \$20,859.74 are hereby obligated in support of Recovery Act activities. The total amount of funds obligated under this contract since its inception is increased from \$11,424,512,068.72 to \$11,424,532,928.46.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables funded by this modification are identified in the Military Interdepartmental Purchase Requests (MIPR) packages referenced in the table below. Attachment 1 to this modification contains the MIPR document (DD Form 448).

MIPR Number	MIPR Title
F1Q3CS9055G001 (Numbers from Block 5 of the MIPRs)	Installation of Natural Gas Lines for Decentralization from Central Heat Plant (West of Atlantic Ave) at Dover AFB

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved Military Interdepartmental Purchase Requests package for the activity.
- F. All other terms and conditions remain unchanged.

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT		1. CONTRACT ID CODE	PAGE OF PAGES 1 2
2. AMENDMENT/MODIFICATION NO. 418	3. EFFECTIVE DATE See Block 16C	4. REQUISITION/PURCHASE REQ. NO. 10SC008127	5. PROJECT NO. (If applicable)
6. ISSUED BY Oak Ridge U.S. Department of Energy P.O. Box 2001 Oak Ridge TN 37831	CODE 00518	7. ADMINISTERED BY (If other than Item 6) Oak Ridge U.S. Department of Energy P.O. Box 2001 Oak Ridge TN 37831	CODE 00518
8. NAME AND ADDRESS OF CONTRACTOR (No., street, county, State and ZIP Code) UT-BATTELLE, LLC Attn: Quinn Windham, Director Prime Contract Administration Post Office Box 2008 OAK RIDGE TN 37831-6231		(x) 9A. AMENDMENT OF SOLICITATION NO.	
CODE 099114287 FACILITY CODE		9B. DATED (SEE ITEM 11)	
		x 10A. MODIFICATION OF CONTRACT/ORDER NO. DE-AC05-00OR22725	
		10B. DATED (SEE ITEM 13) 10/18/1999	

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended. Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required) Net Decrease: -\$102.00
See Page 2.

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) 970.5232-4 OBLIGATION OF FUNDS (DEC 2000), P.L. 111-5 and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return 0 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

MANAGEMENT AND OPERATION OF THE OAK RIDGE NATIONAL LABORATORY
The administrative office (administrative contracting activity) for this award/modification is 00005. The administrative office (administrative contracting activity) code is needed by the contractor/recipient for reporting to FederalReporting.gov concerning awards made with funding from the American Recovery and Reinvestment Act of 2009 (ARRA or Recovery Act).
Recovery TAS::89 0227::TAS

See Page 2.

FOB: Destination

Period of Performance: 04/01/2000 to 03/31/2015

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print)	16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) Mark A. Million
15B. CONTRACTOR/OFFEROR (Signature of person authorized to sign)	15C. DATE SIGNED
16B. UNITED STATES OF AMERICA Mark A. Million (Signature of Contracting Officer)	16C. DATE SIGNED 07/20/2010

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 1 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to de-obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$102.00 from the Office of Science project entitled “Advanced Scientific Computing Research - Computational Partnerships (SciDAC-e)(2005060).” This project was executed under work authorization KJ/OR41/9/ARRA-3.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” funds in the amount of \$102.00 are hereby de-obligated from the Recovery Act activities identified in the attached Financial Plan Report (Attachment 1). The total amount of funds obligated under this contract since its inception is decreased from \$11,424,532,928.46 to \$11,424,532,826.46.
- C. All other terms and conditions remain unchanged.

July 26, 2010

Mr. Quinn Windham, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6231

Dear Mr. Windham:

CONTRACT NO. DE-AC05-00OR22725 - MODIFICATION NO. 419

A fully executed copy of the subject contract modification is enclosed for your retention. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$23,238,623 to the contract for two Environmental Management projects. The total amount of funds obligated under this contract since its inception is increased from \$11,424,532,826.46 to \$11,447,771,449.46.

If you have any questions, please contact me at 576-4523.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Million".

Mark A. Million
Contracting Officer

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$22,038,623 for the project entitled “ARRA Non-Defense Beta-3 Legacy Material Removal, Soils and Slab Removal, and Demolition and Gaseous Waste Reconfiguration at ORNL (Project Code 2002230)” and \$1,200,000 for the project entitled “Site Support to the IDIQ EM Contractor Work at ORNL for Non-Defense Funded Work (Project Code 2002230)”.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” additional funds in the amount of \$23,238,623 are hereby obligated in support of Recovery Act activities. The total amount of funds obligated under this contract since its inception is increased from \$11,424,532,826.46 to \$11,447,771,449.46.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables funded by this modification are identified in the following referenced Work Authorizations (Attachment 1):

Work Authorization Number	Work Authorization Title
WA No. FE/01010/41 (Revision No. 0)	ARRA Non-Defense Beta-3 Legacy Material Removal, Soils and Slab Removal, and Demolition and Gaseous Waste Reconfiguration at ORNL (Project Code 2002230)
WA No. FE/01029/41 (Revision No. 3)	Site Support to the IDIQ EM Contractor Work at ORNL for Non-Defense Funded Work (Project Code 2002230)
(Number from Block 8 of the Work Authorization)	

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

14. Statement of Work: This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009, (Pub. L. 111-5)(Recovery Act). All contract terms and conditions apply to the work identified herein, in particular contract provision H.50 applies. The work described in this work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act and as such is subject to special statutory conditions.

The Office of Science (SC) is committed to conducting all work authorized herein, in a manner that ensures protection of the workers, the public, and the environment. Protecting the workers, the public, and the environment is a direct and individual responsibility of all SC managers and SC-supported contractors. Funds provided by ORO EM to SC will be applied as necessary to ensure that all supported activities are conducted safely and in an environmentally conscientious manner. Only work conducted in this manner will be supported.

Rev 0 – Initial Issue. Detailed SOW will be incorporated as the workscope is definitized.
Specific Recovery Act Statement of Work:

This Work Authorization addresses the following activities:

-Removal and disposition of certain legacy materials from 9204-3. Scope includes facility infrastructure renewal as required to support legacy material removal.

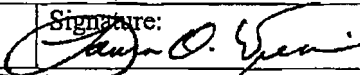

-Slab and soil characterization and removal in the ORNL Main Campus. Specific list of slabs and priorities addresses in this activity will be developed as part of the initial activity and definitization of scope.

- Area 4500 Area Gaseous Waste Reconfiguration, including HEPA System for 4500/4501/4505, 4507 duct stabilization and temporary HEPA installation, and stabilization of concrete vent duct.

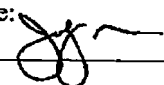

(Attach a detailed description of work to be performed or reference to a work proposal, project plan, or similar document that describes the scope of work, milestones, deliverables, and performance measures/expectations.)

15. Reporting Requirements (Status reports, scientific and technical information or similar):
The recipient of funding in the Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act of 2009.

14. Statement of Work: This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009, (Pub. L. 111-5) (Recovery Act). All contract terms and conditions apply to the work identified herein, in particular contract provision H.50 applies. The work described in this work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act and as such is subject to special statutory conditions.

The Office of Science (SC) is committed to conducting all work authorized herein, in a manner that ensures protection of the workers, the public, and the environment. Protecting the workers, the public, and the environment is a direct and individual responsibility of all SC managers and SC-supported contractors. Funds provided by ORO EM to SC will be applied as necessary to ensure that all supported activities are conducted safely and in an environmentally conscientious manner. Only work conducted in this manner will be supported.

Rev 2 – Issued to reallocate funds between the sub projects. No net change in funding. Justification provided in BCP IntegnonDef001-R0

Rev 3 – Issued to extend duration through 9/30/2012 and add funding. Detailed revised SOW will be incorporated as the revised workscope is definitized.

Specific Recovery Act Statement of Work:

UT-B will provide the following general services for the IDIQ projects listed below:

- Coordination with Laboratory Operations including integration of EM work into overall master plan and schedule for ORNL Central Campus activities.
- Provide Utility Isolation for facilities to be demolished.
- Provide a point of contact for establishing RPP interfaces/boundaries for controlling radiological hazards.
- Provide Fire Protection Engineering review/support for potential impacts on ORNL operations/facilities.
- Provide ES&H and Technical Subject Matter experts to review and resolve impacts on ORNL operations/facilities and ensure that interface points are established and understood.
- Coordinate Environmental Compliance Activities involving Site-wide issues.
- Coordinate site space usage, including 3025M.
- Provide for minor repairs for incidental damage done by IDIQ contractor work.
- Provide for Excavation/penetration Permits.
- Provide applicable records/drawings etc., as required to support the IDIQ contractor in their efforts
- Provide technical support during transition of facility 2026 from UT-B to the EM IDIQ contractor.

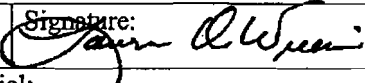

Specific IDIQ Work Supported by this authorization is as follows

1. Central Campus Legacy Material Removal Project – (\$925,399)	0473043	CA 694,049.25
2. General Maintenance Facilities Demolition Project – (\$1,310,737)	0473064	983,052.75
3. Southeast Laboratory Complex Demolition Project – (985,851)	0473065	739,388.25
4. 2026 Complex Legacy Material Removal Project - (\$734,991)	0473066	551,243.25

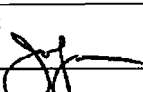

(Attach a detailed description of work to be performed or reference to a work proposal, project plan, or similar document that describes the scope of work, milestones, deliverables, and performance measures/expectations.)

15. Reporting Requirements (Status reports, scientific and technical information or similar):

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required) Net Increase: \$3,998.30

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 1 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$3,998.30 to the contract for the Work for Others (WFO) activities entered into with the National Institute of Health identified in section C below.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” additional funds in the amount of \$3,672.21 are hereby obligated in support of the project entitled “Accurate Mass Analysis of Singly-Charged Intact Proteins” and funds in the amount of \$326.09 are obligated in support of the project entitled “DNA Transport and Sequencing Through a Quadrupole Gate – Administrative Support”. The total amount of funds obligated under this contract since its inception is increased from \$11,447,771,449.46 to \$11,447,775,447.76.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables funded by this modification are identified in the following referenced WFO Project Number(s):

WFO Project Number	WFO Project Title
NFE-10-02711	Accurate Mass Analysis of Singly-Charged Intact Proteins
NFE-10-02714	DNA Transport and Sequencing Through a Quadrupole Gate-Administrative Supplement

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

Mr. Quinn Windham, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6262

Dear Mr. Windham:

CONTRACT NO. DE-AC05-00OR22725 - MODIFICATION NO.'S 421 – 426

A fully executed copy of contract modifications 421 through 426 are enclosed for your retention. These modifications obligate DOE appropriated and non-appropriated and Work for Others (WFO) funding. Included in these modifications are two small-dollar deobligation actions involving WFO activities. At this time, all appropriated funding received from other agencies via WFO program must be issued under separate contract modifications for proper tracking.

If you have any questions, please contact me at 576-4523.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Million".

Department of Energy

Oak Ridge Office
P.O. Box 2001
Oak Ridge, Tennessee 37831

July 29, 2010

Mr. Quinn Windham, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6262

Dear Mr. Windham:

CONTRACT NO. DE-AC05-00OR22725 - MODIFICATION NO. 427

Enclosed are two copies of the subject modification which de-obligates American Recovery and Reinvestment Act (ARRA) of 2009 funding from the Office of Energy Efficiency and Renewable Energy (EERE) in the amount of \$3,000,000 from the contract and to also reflect the reprogramming of Recovery Act funds involving several other EERE projects.

Please have block 15 completed and then return one copy to me. Due to this de-obligation being executed at the end of the month, the Contracting Officer has already signed the modification and the action was officially executed in STRIPES on July 28, 2010. Therefore, please obtain UT-Battelle signature/acceptance on the modification as soon as possible.

If you have any questions regarding this modification, please contact me at 576-4523.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Million".

Mark A. Million
Contracting Officer

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to de-obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$3,000,000 from the contract and to reflect the reprogramming of Recovery Act funds involving several other Office of Energy Efficiency and Renewable Energy (EERE) projects. The Recovery Act funded EERE projects impacted are identified in section C below.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” funds in the amount of \$3,000,000 are hereby de-obligated from the contract. The total amount of funds obligated under this contract since its inception is decreased from \$11,466,947,667.11 to \$11,463,947,667.11.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorizations (Attachment 1):

Work Authorization Number	Work Authorization Title
BA-470002-20842-10 (Revision No. 3) B&R: 39EB00000PRN10EE05002-05794-1005307-Int Net-Zero Energy – (\$3,300,000)	2004140-Lab Call for Facilities and Equipment
BA-470002-20842-10 (Revision No. 4) B&R: EB3603000-05794-1005301-Lab Call Facilities Expand and Upgrade BTRIC – \$3,300,000	2004140-Lab Call for Facilities and Equipment
SL-470002-20479-10 (Revision 2) – (\$935,000)	2004420 – Concentrating Solar Power
SL-470002-20477-10 (Revision 0) – \$935,000	2004430 – PV Systems Development
WI-470002-20994-10 (Revision No. 2) – (\$3,000,000)	Project 8.1 Issue Open Call for Projects
(WA Numbers from Block 8 of the Work Authorization)	

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set

forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.

- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

U.S. DEPARTMENT OF ENERGY CONTRACT WORK AUTHORIZATION			
1a. Solicitation/Project Title: 2004420 - Concentrating Solar Power <i>ARRA</i>		1b. Work Proposal Number (if applicable):	
2. Headquarters Program Point of Contact: Name: Frank Wilkins <i>FW</i> Organization Code:		Telephone No: (202) 586-1684	
3. Headquarters Budget Point of Contact: Name: Kyra Humphreys Organization Code: EE-3B		Telephone No: (202) 586-8138	
4. Responsible Program: Office of Energy Efficiency and Renewable Energy		5. Responsible Secretarial Officer: Catherine Zoi	
6. Responsible Field Element: Oak Ridge Operations Office			
7a. Site and Facility Management Contractor: University of Tennessee - Battelle (Oak Ridge National Laboratory)		7b. Contractor Point of Contact: Name: Joanna McFarlane Telephone No: (865) 574-4941	
8. Work Authorization Number: <i>✓</i> SL-470002-20479-10		9. Revision Number: <i>2 NCL</i>	
10. Funds Authorized during FY 2010:			
B&R Code	Previous	Change	Current
EB2103000-05794-1004248 (2009)	\$935,000	-\$935,000 <i>✓</i>	\$0 <i>✓</i>
<i>5/1/2010, NCL</i>			
11. Performance period covered by funds: From: 10/1/2009 To: 9/30/2010		12. Work Start Date: 10/1/2009 <i>5/1/2010, NCL</i>	13. Expected Completion Date: 9/30/2010 <i>2012 NCL</i>
14. Statement of Work: Specific Recovery Act Statement of Work Carryover funding in the amount of (\$935,000) is redirected from EB2103000-05794-1004248-Concentrat Solar Pwr (2009). These funds were made available for Project #20479- 2004420- Concentrating Solar Power. These funds were to be distributed to Agreement # 20637-Polyaromatic Naphthalene Derivatives--ORNL in accordance with AQP# ARRA. Redirecting funding to ARRA project 2004430- PV Systems Development. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to Energy Efficiency and Renewable Energy. ARRA funding information: Fund: 05794; Appropriation: 89-09/10-0331; Allottee: 30 B&R Code/Program Value: EB2103000-1004248 Project Code: 2004420 Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule or Milestones, Performance Outcomes and Measures and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of Energy Efficiency and Renewable Energy laboratory appraisal process.			
15. Reporting Requirements: (Status reports, scientific or technical information or similar)			
16. Work Authorization Program Official: Name (typed): John Lushetsky, Program Manager		Signature: <i>[Signature]</i>	Date: <i>5.13.10</i>
17. DOE Field Organization Official: Name (typed): Michele C. Bawford		Signature: <i>[Signature]</i>	Date: <i>5-20-2010</i>
18. Contractor's Authorized Representative: Name (typed): D.C. Christensen		Signature: <i>[Signature]</i>	Date: <i>6/15/2010</i>
19. DOE Contracting Officer (or delegated representative): Name (typed): Tracy A. Murray		Signature: <i>[Signature]</i>	Date: <i>5/12/10</i>
* The work authorization number will consist of the program code, AFP code, solicitation/project id and the fiscal year.			

U.S. DEPARTMENT OF ENERGY CONTRACT WORK AUTHORIZATION			
1a. Solicitation/Project Title: 2004430 - PV Systems Development <i>ARRA</i>		1b. Work Proposal Number (if applicable):	
2. Headquarters Program Point of Contact Name: Marie Mapes <i>MM</i>		Organization Code: EE-2A	Telephone No: (202) 586-3765
3. Headquarters Budget Point of Contact: Name: Kyra Humphreys		Organization Code: EE-3B	Telephone No: (202) 586-8138
4. Responsible Program: Office of Energy Efficiency and Renewable Energy		5. Responsible Secretariat Officer: Catherine Zol	
6. Responsible Field Element: Oak Ridge Operations Office			
7a. Site and Facility Management Contractor: University of Tennessee - Battelle (Oak Ridge National Laboratory)		7b. Contractor Point of Contact: Name: Joanna McFarlane Telephone No: (865) 574-4941	
8. Work Authorization Number: SI-470002-20477-10		9. Revision Number: <i>2 0</i> <i>111</i>	
10. Funds Authorized during FY 2010:			
<u>B&R Code:</u>	<u>Previous</u>	<u>Change</u>	<u>Current</u>
EB2103000-05794-1004248 (2009)	\$0	\$935,000 ✓	\$935,000 ✓
<i>5/1/2010, NCL</i>			
11. Performance period covered by funds: From: 10/1/2009 To: 9/30/2010		12. Work Start Date: <i>10/1/2009 5/1/2010 NCL</i>	13. Expected Completion Date: <i>9/30/2010 2012 NCL</i>
14. Statement of Work: Specific Recovery Act Statement of Work Carryover funding in the amount of \$935,000 is authorized for EB2103000-05794-1004248 Concentrat Solar Pwr (2009). These funds are made available for Project #20477 - 2004430 - PV Systems Development. These funds are to be distributed to Agreement # 21025-Polyaromatic Naphthalene Derivatives - ORNL - Updated in accordance with AOP# ARRA - 2004430. The project plans to demonstrate the possibility of using substituted polyaromatic hydrocarbons in a heat transport application. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to Energy Efficiency and Renewable Energy. ARRA funding information: Fund: 05794, Appropriation: 89-09/10-0331, Allottee: 30 B&R Code/Program Value: EB2103000-1004248 Project Code: 2004430 Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule or Milestones, Performance Outcomes and Measures and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of Energy Efficiency and Renewable Energy laboratory appraisal process.			
15. Reporting Requirements (Status reports, scientific or technical information or similar):			
16. Work Authorization Program Official: Name (typed): John Lushetsky, Program Manager			
Signature: <i>[Signature]</i>		Date: <i>3-23-10</i>	
17. DOE Field Organization Official: Name (typed): Michele B. Bowman			
Signature: <i>[Signature]</i>		Date: <i>6-14-10</i>	
18. Contractor's Authorized Representative: Name (typed): D.C. Christensen			
Signature: <i>[Signature]</i>		Date: <i>6-15-10</i>	
19. DOE Contracting Officer (or delegated representative): Name (typed): Mark B. Murray			
Signature: <i>[Signature]</i>		Date: <i>5/12/10</i>	
* The work authorization number will consist of the program code, AFP code, solicitation/project id and the fiscal year.			

Attachment A – Contractor Recovery Act Performance Requirements

Section A: Contractor Recovery Act Schedule or Milestone Requirements:

12 months: Annual report summarizing progress towards project objectives; 24 months: Annual report summarizing progress towards project objectives; 36 months: Complete project objectives (see Section 14 of FED 10-1037 ARRA)

Section B: Contractor Recovery Act Performance Outcomes and Measures:

The recipient of funding this Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act of 2009.

Section C: Contractor Recovery Act Deliverables:

Quarterly and annual progress reports are required.

FED 10-1088 ARRA AFP Mar

U.S. DEPARTMENT OF ENERGY CONTRACT WORK AUTHORIZATION			
1a. Solicitation/Project Title: P 8.1 Issue Open Call for projects		1b. Work Proposal Number (if applicable): AOP #AOP WAP

10. Funds Authorized:			
<u>B&R Code</u>	<u>Previous</u>	<u>Change</u>	<u>Current</u>
WI0702000-05797-1004760 (2009)	\$3,000,000	(\$3,000,000)	\$0
11. Performance period covered by funds: From:10/01/2009 To:09/30/2010		12. Work Start Date: 10/01/2009	13. Expected Completion Date: 09/30/2010
14. Statement of Work:			
<p>Specific Recovery Act Statement of Work Carryover funding in the amount of (\$3,000,000) is withdrawn from WI0702000-05797-1004760-Weatheriz. Trng & TA (2009). These funds were made available for Project #20994 - P 8.1 Issue Open Call for projects. These funds were to be distributed to Agreement #21363 - FY10 ARRA Project 8.1: ORNL CALL FOR PROJECTS TAS#8909/100331.91 in accordance with AOP #AOP WAP. ORNL will initiate a competitive solicitation for Weatherization grantee proposals to explore through field testing the implementation of new and advanced technologies in the context of the Weatherization Assistance Program's operating environment. Weatherization Grantees will be invited to make proposals that demonstrate the cost-effectiveness and/or practicality of using products and materials in the Weatherization Program that are not now commonly used in the field and have the potential to improve overall program performance. Funding provided in this work authorization is not approved for obligation of any type of support service contract either as a prime or subcontract award. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to EERE.</p> <p>ARRA funding information: Fund: 05797, Appropriation: 89-09/10-0331, Allottee: 30 B&R Code/Program Value: WI0702000-1004760 Project Code: 2004360 ✓</p> <p>Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule or Milestones, Performance Outcomes and Measures and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of EERE laboratory appraisal process.</p>

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to reflect the following actions: 1) obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$2,342,646 for the project entitled “ARRA Defense Legacy Material Removal in Selected Facilities in Isotope Row at ORNL (Project Code 2002101)”, 2) obligate Recovery Act funds in the amount of \$3,100,000 for the project entitled “ARRA Site Support to the IDIQ EM Contractors and Utility Reroutes/Isolations at ORNL for Defense Funded Work (Project Code 2002101)”, 3) de-obligate Recovery Act funds in the amount of \$3,212,000 from the project entitled “Building 3026 C and D Superstructure Demolition and Stabilization (Project Code 2002101)”, and 4) obligate Recovery Act funds in the amount of \$98,183 to the Intergovernmental Personnel Act (IPA) Assignment Agreement between the Department of Energy (DOE) and UT-Battelle, LLC involving UT-Battelle employee Lee Bryson McGetrick.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” additional funds in the amount of \$2,328,829 are hereby obligated in support of Recovery Act activities. The total amount of funds obligated under this contract since its inception is increased from \$11,463,947,667.11 to \$11,466,276,496.11.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables funded by this modification are identified in the following referenced Work Authorizations (Attachment 1):

Work Authorization Number	Work Authorization Title
WA No. FD/04010/OR/41 (Revision No. 0)	ARRA Defense Legacy Material Removal in Selected Facilities in Isotope Row at ORNL (Project Code 2002101)
WA No. FD/04029/41 (Revision No. 4)	ARRA Site Support to the IDIQ EM Contractors and Utility Reroutes/Isolations at ORNL for Defense Funded Work (Project Code 2002101)
WA No. FD/04019/3/41 (Revision No. 2)	Building 3026 C and D Superstructure Demolition and Stabilization (Project Code 2002101)
(Number from Block 8 of the Work Authorization)	

The IPA Assignment Agreement with Ms. McGetrick provides the DOE Environmental Management organization with additional capability for oversight and integration functions with regards to DOE prime contractors who will be performing demolition, legacy material removal, and remedial action projects within the footprint of the Oak Ridge National

Laboratory central campus. The specific Position Description, Reason for Mobility Assignment, Fiscal Obligations, and other agreement details can be found in the IPA Assignment Agreement for Ms. Lee Bryson McGetrick, which is incorporated by reference.

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

WORK AUTHORIZATIONS

Specific Recovery Act Statement of Work:

This Work Authorization addresses the following activities:

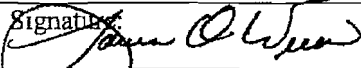

-Legacy Removal and disposition from selected facilities in Isotope Row. Specific quantity estimates and materials to be developed as part of the initial activity and definitization of scope. *Work will be performed using SCIT-B work control processes*
SMR 7-11-10 coordinated with EM

(Attach a detailed description of work to be performed or reference to a work proposal, project plan, or similar document that describes the scope of work, milestones, deliverables, and performance measures/expectations.)

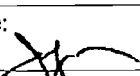

15. Reporting Requirements (Status reports, scientific and technical information or similar):

The recipient of funding in the Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act of 2009.

14. Statement of Work: This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009, (Pub. L. 111-5)(Recovery Act). All contract terms and conditions apply to the work identified herein, in particular contract provision H.50 applies. The work described in this work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act and as such is subject to special statutory conditions. The Office of Science (SC) is committed to conducting all work authorized herein, in a manner that ensures protection of the workers, the public, and the environment. Protecting the workers, the public, and the environment is a direct and individual responsibility of all SC managers and SC-supported contractors. Funds provided by ORO EM to SC will be applied as necessary to ensure that all supported activities are conducted safely and in an environmentally conscientious manner. Only work conducted in this manner will be supported. Rev 3 – Issued to reallocate funds between the sub projects. No net change in funding. Justification provided in BCP IntegDef001-R0 Revision 4 - issued to extend task to 9/30/2012, add support for utility and characterization support in Isotope facilities and add funding. Detailed revised SOW will be incorporated as the revised workscope is			

definitized.

Specific Recovery Act Statement of Work:

UT-B will provide the following general services for the EM projects listed below:

- Coordination with Laboratory Operations including integration of EM work into overall master plan and schedule for ORNL Central Campus activities.
 - Perform Utility Isolations/Reroutes for facilities to be demolished or planned to be demolished in the near future, as coordinated with ORNL Site Operations.
 - Provide for Surveillance and Maintenance of the 3026 site during 2010.
 - Provide a point of contact for establishing RPP interfaces/boundaries for controlling radiological hazards.
 - Provide Fire Protection Engineering review/support for potential impacts on ORNL operations/facilities.
 - Provide ES&H and Technical Subject Matter experts to review and resolve impacts on ORNL operations/facilities and ensure that interface points are established and understood.
 - Coordinate Environmental Compliance Activities involving Site-wide issues.
 - Coordinate site space usage including 3025M.
 - Provide for minor repairs for incidental damage done by IDIQ contractor work.
- Provide for Excavation/penetration Permits.
- Provide applicable records/drawings etc. as required to support the IDIQ contractor in their efforts.

Specific IDIQ Contractor Support/Coordination activities and Isotope Row Utilities Work Supported by this authorization is as follows:

1. Bethel Valley Isotope Facilities (Building 3026 Demolition-Hot Cells and perform S&M of Hot Cells during 2010.) - (\$1,451,518) 0473054
2. ORNL Small Facilities Completion Demolition - (\$3,467,890) 0473055
3. Core hole 8 Remediation - (\$338,609) 0473056
4. Bethel Valley Burial Grounds (Cap SWSA 1 And 3) - (\$200,000) 0473058
5. Bethel Valley Groundwater Early Actions (Pump and Treat) - (\$5,978) 0473059
6. Melton Valley Sentinel Wells - (\$1,500) 0473041
7. Bethel Valley Isotope Facilities - Perform utility Isolation/Reroute, characterization support as directed by DOE. (Specific facilities and priorities to be as directed in writing by the COR.), and support to 3038 Legacy Material Removal and Demolition - (\$3,495,151) 0473202

(Attach a detailed description of work to be performed or reference to a work proposal, project plan, or similar document that describes the scope of work, milestones, deliverables, and performance measures/expectations.)

15. Reporting Requirements (Status reports, scientific and technical information or similar):

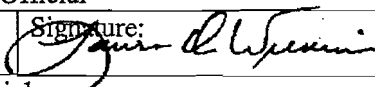

The recipient of funding in the Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act of 2009.

14. Statement of Work: This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009 (Pub. L. 111-5)(Recovery Act). All contract terms and conditions apply to the work identified herein, in particular contract provision H.50 applies. The work described in the work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act and as such is subject to special statutory conditions. The Office of Science (SC) is committed to conducting all work authorized herein, in a manner that ensures protection of the workers, the public, and the environment. Protecting the workers, the public, and the environment is a direct and individual responsibility of all SC managers and SC-supported contractors. Funds provided by ORO-EM to SC will be applied as necessary to ensure that all supported activities are conducted safely and in an environmental conscientious manner. Only work conducted in this manner will be supported. Rev 2 – Issued to reduce funding level, change performance period and expected completion date to reflect off site shipment of some waste, and update Budget Point of Contact. No change to scope of work. <u>Specific Recovery Act Statement of Work:</u> Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule or Milestones, Performance Outcomes and Measures and Deliverables for this Work			

Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of Science laboratory appraisal process.

This Statement of Work (SOW) is for the planning, characterization, demolition, and waste disposal of the wooden superstructure for facilities 3026 C and D. All work will be done in accordance with SC/UT-B procedures.

Building 3026 C and D Wooden Structure:

Activities authorized by this SOW include the planning and characterization activities needed to support demolition of the wooden portion of 3026 C and C as well as demolition and disposal of the wooden structure, including project management. Specific activities will include:

- Inspect facility and collect/review data and documentation to determine and document the current facility condition in preparation for transition of operational responsibility to UT-B
- Perform surveys and inspections as required for facility surveillance and maintenance and to support characterization, stabilization, and demolition planning
- Develop sampling and analysis plans and initiate characterization to support facility stabilization, demolition, and waste disposition
- Develop supporting documents as needed (e.g. revised FHA, Safety Documents, Waste Handling Plan)
- Develop specifications and related bid documents to conduct procurement and select best value subcontractor for facility stabilization, demolition, and final characterization as required
- Management and oversight of D&D subcontractor
- Perform Project Management functions (e.g. cost estimating and tracking, schedule development, related planning activities)

15. Reporting Requirements (Status reports, scientific and technical information or similar):

The recipient of funding in the Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act of 12009.

Department of Energy

Oak Ridge Office
P.O. Box 2001
Oak Ridge, Tennessee 37831—

August 23, 2010

Mr. Quinn Windham, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6262

Dear Mr. Windham:

CONTRACT NO. DE-AC05-00OR22725 - MODIFICATION NO.'S 429 – 433

A fully executed copy of contract modifications 429 through 433 are enclosed for your retention. These modifications obligate DOE appropriated and non-appropriated and Work for Others (WFO) funding. At this time, all appropriated funding received from other agencies via WFO program must be issued under separate contract modifications for proper tracking.

If you have any questions, please contact me at 576-4523.

Sincerely,

A handwritten signature in cursive script that reads "Mark A. Million".

Mark A. Million
Contracting Officer

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended. Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required) Net Decrease: -\$77,741.86
See Page 2.

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) 970.5232-4 OBLIGATION OF FUNDS (DEC 2000), P.L. 111-5 and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return 1 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

MANAGEMENT AND OPERATION OF THE OAK RIDGE NATIONAL LABORATORY
The administrative office (administrative contracting activity) for this award/modification is 00005. The administrative office (administrative contracting activity) code is needed by the contractor/recipient for reporting to FederalReporting.gov concerning awards made with funding from the American Recovery and Reinvestment Act of 2009 (ARRA or Recovery Act).

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 1 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to: 1) de-obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$2,118.70 from the contract for the Work for Others (WFO) activity entitled “Decision Tools for Asset Management and Infrastructure Resilience” with the Army Corp of Engineers; 2) obligate Recovery Act funds in the amount of \$38,963.34 to the contract for the WFO activity entitled “Accurate Mass Analysis of Singly-Charged Intact Proteins” with the National Institute of Health; 3) obligate Recovery Act funds in the amount of \$6,450.16 to the contract for the WFO activity entitled “DNA Transport and Sequencing Through a Quadrupole Gate – Administrative Supplement” with the National Institute of Health; and 4) de-obligate Recovery Act funds in the amount of \$121,036.66 from the contract for the WFO activity entitled “Accurate Mass Analysis of Singly-Charged Intact Proteins”.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” funding in the amount of \$77,741.86 is hereby de-obligated from the contract. The total amount of funds obligated under this contract since its inception is decreased from \$11,485,962,596.90 to \$11,485,884,855.04.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted under this modification are identified in the following referenced WFO Project Number(s):

WFO Project Number	WFO Project Title
2231-T332-07 (Version 0045)	Decision Tools for Asset Management and Infrastructure Resilience
NFE-10-02711 (Version 0006)	Accurate Mass Analysis of Singly-Charged Intact Proteins
NFE-10-02714 (Version 0006)	DNA Transport and Sequencing Through a Quadrupole Gate-Administrative Supplement
NFE-10-02711 (Version 0007)	Accurate Mass Analysis of Singly-Charged Intact Proteins

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.

- E. The Contractor shall complete all Recovery Act Work impacted by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved WFO work packages for the activity.
- F. All other terms and conditions remain unchanged.

Oak Ridge, Tennessee 37831—

August 24, 2010

Mr. Quinn Windham, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6231

Dear Mr. Windham:

CONTRACT NO. DE-AC05-00OR22725 – MODIFICATION NO. 435 AND 436

The attached modifications are being issued to reflect the reprogramming of American Recovery and Reinvestment Act (Recovery Act) of 2009 funds within the Environmental Management organization. Both modifications, one Defense and one Non-Defense funding, result in a net zero impact on the total funds obligated under the contract and have been coordinated with UT-Battelle program personnel. The total amount of funds obligated under this contract since its inception is unchanged and remains at \$11,485,884,855.04.

If you have any questions, please contact me at 576-4523.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Million".

Mark A. Million
Contracting Officer

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 1 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to incorporate an adjustment to the project codes in the financial plan associated with the Intergovernmental Personnel Act (IPA) Assignment Agreement between the Department of Energy (DOE) and UT-Battelle, LLC involving UT-Battelle employee Lee Bryson McGetrick. Contract modification 428 obligated \$98,183 in American Recovery and Reinvestment Act (Recovery Act) of 2009 funds for this IPA Assignment Agreement under Project Code 2002101. This action adjusts the \$98,183 of Recovery Act funding for the IPA Assignment Agreement to Project Code 2002100.
- B. The IPA Assignment Agreement with Ms. McGetrick provides the DOE Environmental Management organization with additional capability for oversight and integration functions with regards to DOE prime contractors who will be performing demolition, legacy material removal, and remedial action projects within the footprint of the Oak Ridge National.
- C. The total amount of funds obligated under this contract since its inception is unchanged and remains at \$11,485,884,855.04.
- D. All other terms and conditions remain unchanged.

 Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)
 See Page 2.

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
	D. OTHER (Specify type of modification and authority)
X	970.5232-4 OBLIGATION OF FUNDS (DEC 2000), P.L. 111-5 and P.L. 95-91
E. IMPORTANT:	Contractor <input checked="" type="checkbox"/> is not, <input type="checkbox"/> is required to sign this document and return _____ 0 _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
MANAGEMENT AND OPERATION OF THE OAK RIDGE NATIONAL LABORATORY
 The administrative office (administrative contracting activity) for this award/modification is 00005. The administrative office (administrative contracting activity) code is needed by the contractor/recipient for reporting to FederalReporting.gov concerning awards made with funding from the American Recovery and Reinvestment Act of 2009 (ARRA or Recovery Act).
 Recovery TAS::89 0335::TAS

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to reflect the reprogramming of American Recovery and Reinvestment Act (Recovery Act) of 2009 funds for the Environmental Management projects identified in Section C below.
- B. The total amount of funds obligated under this contract since its inception is unchanged and remains at \$11,485,884,855.04.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorizations (Attachment 1):

Work Authorization Number	Work Authorization Title
WA No. FE/01010/OR/41 (Revision No. 1) Amount Obligated: \$436,507	ARRA Non-Defense Beta-3 Legacy Material Removal, Soils and Slab Removal, and Demolition and Gaseous Waste Reconfiguration at ORNL (Project Code 2002230)
WA No. FE/01029/OR/41 (Revision No. 4) Amount Obligated: \$483,493	ARRA Site Support to the IDIQ EM Contractor Work at ORNL for Non-Defense Funded Work (Project Code 2002230)
WA No. FE/01019/OR/41 (Revision No. 1) Amount De-obligated: \$920,000	Demolition of the 2000 Facilities Complex at Oak Ridge National Laboratory (Project Code 2002230)
(Number from Block 8 of the Work Authorization)	

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

7a. Site and Facility Management Contractor: Oak Ridge National Laboratory UT-Battelle, LLC		7b. Contractor Point of Contact. Name S. D. Van Telephone No: 865 574 7264 Hoesen	
8. Work Authorization Number: FE/01010/41 <i>OR/</i>		9. Revision Number: 1	
10. Funding Authorized. Budget and Reporting Code: FE0115000 Previous: \$0 ^{MAM 8/2/10} Change: \$436,507 ^{\$22,038,623} Current: \$22,475,130 \$22,038,623 ^{MAM 8/2/10}			
11. Performance Period Covered by Funds. From: 7/1/2010 To: 9/30/2012		12. Work Start Date: 7/2010	13. Expected Completion Date: 9/2012
14. Statement of Work: This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009, (Pub. L. 111-5)(Recovery Act). All contract terms and conditions apply to the work identified herein, in particular contract provision H.50 applies. The work described in this work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act and as such is subject to special statutory conditions. The Office of Science (SC) is committed to conducting all work authorized herein, in a manner that ensures protection of the workers, the public, and the environment. Protecting the workers, the public, and the environment is a direct and individual responsibility of all SC managers and SC-supported contractors. Funds provided by ORO EM to SC will be applied as necessary to ensure that all supported activities are conducted safely and in an environmentally conscientious manner. Only work conducted in this manner will be supported. Rev 0 – Initial Issue. Detailed SOW will be incorporated as the workscope is definitized. Rev 1 – Modified to add funding to 4500 Area Gaseous Waste Reconfiguration subproject. No change in workscope.			

Specific Recovery Act Statement of Work:

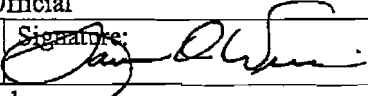

This Work Authorization addresses the following activities:

- Removal and disposition of certain legacy materials from 9204-3. Scope includes facility infrastructure renewal as required to support legacy material removal.
- Slab and soil characterization and removal in the ORNL Main Campus. Specific list of slabs and priorities addressed in this activity will be developed as part of the initial activity and definitization of scope.
- Area 4500 Area Gaseous Waste Reconfiguration, including HEPA System for 4500/4501/4505, 4507 duct stabilization and temporary HEPA installation, and stabilization of concrete vent duct.

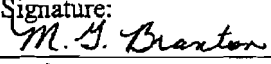

(Attach a detailed description of work to be performed or reference to a work proposal, project plan, or similar document that describes the scope of work, milestones, deliverables, and performance measures/expectations.)

15. Reporting Requirements (Status reports, scientific and technical information or similar):
The recipient of funding in the Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act of 2009.

16. Work Authorization Program Official

ATTACHMENT A – CONTRACTOR RECOVERY ACT PERFORMANCE REQUIREMENTS

Section A: Contractor Recovery Act Schedule or Milestone Requirement

Submit performance baselines for each of the tasks below	9/30/10
Complete Legacy Material Removal from 9204-3	9/30/12
Soil and slab characterization and removal in the ORNL Main Campus	9/30/12
Area 4500 Area Gaseous Waste Reconfiguration, including 4507 duct stabilization	9/30/12

(The milestones above are final completion milestones. Interim milestones will be developed as part of the performance baseline development)

Section B: Contractor Recovery Act Performance Outcomes and Measures

Complete legacy removal task from 9204-3
Complete soil and slab characterization and removal in the Main Campus
Complete Area 4500 Area Gaseous Waste Reconfiguration, including 4507 duct stabilization

Section C: Contractor Recovery Act Deliverables

Final Reports on Completion of legacy material task for 9204-3
Closeout report on soils and slabs removal effort
Project closeout report on 4500 Gaseous Waste Reconfiguration effort

Section D: Funding Amount by Subproject

	Previous	Change	Current
Legacy material removal from 9204-3	\$5,200,000	\$0	\$5,200,000
Soil and slab characterization and removal in the Main Campus	\$4,838,623	\$0	\$4,838,623
Complete 4500 Area Gaseous Waste Reconfiguration	\$12,000,000	\$436,507	\$12,436,507

**U. S. DEPARTMENT OF ENERGY
CONTRACT WORK AUTHORIZATION**

7a. Site and Facility Management Contractor: Oak Ridge National Laboratory UT-Battelle, LLC	7b. Contractor Point of Contact: Name S. D. Van Hoesen Telephone No: 865 574 7264
---	---

8. Work Authorization Number: FE/01029/OR/41	9. Revision Number: 4
--	-----------------------

10. Funding Authorized

Budget and Reporting Code: FE0115000 Previous: \$3,956,978 Change: \$483,493 Current: \$4,440,471

11. Performance Period Covered by Funds: From: 6/12/09 To: 9/30/2012	12. Work Start Date: 6/2009	13. Expected Completion Date: 9/2012
--	--------------------------------	---

14. Statement of Work: This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009, (Pub. L. 111-5) (Recovery Act). All contract terms and conditions apply to the work identified herein, in particular contract provision H.50 applies. The work described in this work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act and as such is subject to special statutory conditions.

The Office of Science (SC) is committed to conducting all work authorized herein, in a manner that ensures protection of the workers, the public, and the environment. Protecting the workers, the public, and the environment is a direct and individual responsibility of all SC managers and SC-supported contractors. Funds provided by ORO EM to SC will be applied as necessary to ensure that all supported activities are conducted safely and in an environmentally conscientious manner. Only work conducted in this manner will be supported.

Rev 2 – Issued to reallocate funds between the sub projects. No net change in funding. Justification provided in BCP IntegnonDef001-R0

Rev 3 – Issued to extend duration through 9/30/2012 and add funding. Detailed revised SOW will be incorporated as the revised workscope is definitized.

Rev 4 – Corrected Block 8 (“OR” had been left out.). Added \$483,493 to funding (\$53,000 to subtask 3 and \$430,493 to subtask 4). No change to SOW.

Specific Recovery Act Statement of Work:

UT-B will provide the following general services for the IDIQ projects listed below:

- Coordination with Laboratory Operations including integration of EM work into overall master plan and schedule for ORNL Central Campus activities.
 - Provide Utility Isolation for facilities to be demolished.
 - Provide a point of contact for establishing RPP interfaces/boundaries for controlling radiological hazards.
 - Provide Fire Protection Engineering review/support for potential impacts on ORNL operations/facilities.
 - Provide ES&H and Technical Subject Matter experts to review and resolve impacts on ORNL operations/facilities and ensure that interface points are established and understood.
 - Coordinate Environmental Compliance Activities involving Site-wide issues.
 - Coordinate site space usage, including 3025M.
 - Provide for minor repairs for incidental damage done by IDIQ contractor work.
- Provide for Excavation/penetration Permits.
- Provide applicable records/drawings etc., as required to support the IDIQ contractor in their efforts
 - Provide technical support during transition of facility 2026 from UT-B to the EM IDIQ contractor.

Specific IDIQ Work Supported by this authorization is as follows

1. Central Campus Legacy Material Removal Project – (\$925,399) ✓
2. General Maintenance Facilities Demolition Project – (\$1,310,737) ✓
3. Southeast Laboratory Complex Demolition Project – (\$1,038,851) ✓
4. 2026 Complex Legacy Material Removal Project - (\$1,165,484) ✓

(Attach a detailed description of work to be performed or reference to a work proposal, project plan, or similar document that describes the scope of work, milestones, deliverables, and performance measures/expectations.)

15. Reporting Requirements (Status reports, scientific and technical information or similar):
The recipient of funding in the Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act of 2009.

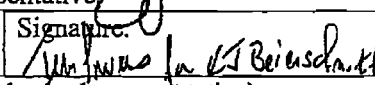

16. Work Authorization Program Official

Name (typed): L. O. Wilkerson	Signature: 	Date: 8/16/2010

ATTACHMENT A – CONTRACTOR RECOVERY ACT PERFORMANCE REQUIREMENTS

Section A: Contractor Recovery Act Schedule or Milestone Requirement

This Work Authorization provides for level of effort support to the DOE ORO EM Non Defense funded ARRA work. As such, in a supporting role, there are no specific schedules or milestones. Specific facilities included in the effort are listed in the SOW

Section B: Contractor Recovery Act Performance Outcomes and Measures

Provide support to EM by providing services to the EM Non Defense contractors according to the schedules developed.

Section C: Contractor Recovery Act Deliverables

NA

**U.S. DEPARTMENT OF ENERGY
CONTRACT WORK AUTHORIZATION**

1a. Project Title: Demolition of the 2000 Facilities Complex at Oak Ridge National Laboratory, Project Code 2002230		1b. Work Proposal Number (if applicable): NA	
2. Headquarters Program Point of Contact Name: J. T. Howell Organization Code: EM-90 Telephone No.: 865-574-3981			
3. Headquarters Budget Point of Contact Name: Catherine A. Burgin Organization Code: FM-72 Telephone No.: 865-576-9243			
4. Responsible Program: Environmental Management – Non-defense		5. Responsible Secretarial Officer: Assistant Secretary for Environmental Management

8. Work Authorization Number: FE/01019/OR/41		9. Revision Number: 1	
10. Funds Authorized (\$ in thousands). B&R Code: FE0115000 Previous: \$12,800 Change: (\$920) Current: \$11,880			
11. Performance Period Covered by Funds. From: 05/04/09 To: 06/30/11		12. Work Start Date: 05/04/09	13. Expected Completion Date: 06/30/11
14. Statement of Work: <p>This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009, (Pub. L. 111-5) (Recovery Act). All contract terms and conditions apply to the work identified herein, in particular contract provision H.50 applies. The work described in this work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act and as such is subject to special statutory conditions.</p> <p>The Office of Science (SC) is committed to conducting all work authorized herein, in a manner that ensures protection of the workers, the public, and the environment. Protecting the workers, the public, and the environment is a direct and individual responsibility of all SC managers and SC-supported contractors. Funds provided by SC will be applied as necessary to ensure that all supported activities are conducted safely and in an environmentally conscientious manner. Only work conducted in this manner will be supported. Funding of \$920,000 is being removed from this project because the Estimate at Completion (\$11,880,000) is less than the obligations (\$12,800,000).</p> <p><u>Specific Recovery Act Statement of Work:</u></p> <p>The 2000 Complex is located on the Northwest Side of the Oak Ridge National Laboratory (ORNL) along Bethel Valley Road. The ORNL 2000 Complex comprises eight facilities totaling approximately 59,966 square feet. The complex includes Buildings 2000, 2001, and 2024 and ancillary support facilities 2019, 2087, 2088 and 2092. The complex is in severe disrepair and has been vacant for approximately 6 years. Contaminants of concern include friable and non-friable asbestos, beryllium, heavy metals, (e.g., cadmium and lead), polychlorinated biphenyls (PCBs), and radiological contamination. Buildings 2000 and 2001 "Quonset Huts" are steel framed with metal sheeting. Building 2024 is a 2 story facility constructed of structural steel and concrete block with a</p>			

built up roof. Building 2000 was originally developed for use as the Metallurgy Laboratories and was later used by the Manhattan Research Project in the late 1940s. The Metals and Ceramics Division used the facility in the 1950s, and was then occupied by the Solid States Division and Quality Services Division until the facility was deactivated pending demolition in 2002. There is extensive contamination within most of the air-handling systems (i.e., HVAC and hood exhaust units) and bonded to many building surfaces. Original drawings show that activities included fuel rod research, and there is radiological evidence of work involving U235, U238, Thorium, Cd109, Cs137, Am241 and Pu239. Beryllium operations were also conducted in this facility. Building 2001 was constructed in 1947 in support of the Manhattan Project. Building 2001 was originally developed as the Health Physics Laboratories for research in health electroscopes, electrometers, proportional counters and Geiger Mueller counters. It was later used by the Environmental Sciences Division for basic research until the late 1970s. The building was remodeled and then used as the Information Division Complex from the early 1980s to 1992 and then finally was used as temporary offices from 1992-1999. Building 2024 was originally developed as the Metallurgy Laboratories Annex. The facility continued to house operating laboratories as well as provide additional office space for the Information, Solid States, and Quality Services Divisions through 2003. The building contains at least five contaminated hoods and supporting exhaust systems, as well as sparse fixed contamination in several labs. Beryllium welding is known to have been conducted in Building 2024 on the 2nd floor in the 1960s; Rooms 42 and 43 are known to have been used for Beryllium Fluoride research and development. The objective of the 2000 Complex facilities demolition project is to: Abate all hazardous materials; remove contaminated HVAC equipment and duct; demolish all facilities to the slab; and, properly dispose of all wastes.

Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule or Milestones, Performance Outcomes and Measures and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of Science laboratory appraisal process.

15. Reporting Requirements (Status reports, scientific and technical information or similar):

The recipient of funding in this Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act of 2009.

August 31, 2010

Mr. Quinn Windham, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6262

Dear Mr. Windham:

CONTRACT NO. DE-AC05-00OR22725 - MODIFICATION NO.'S 437 – 443

A fully executed copy of contract modifications 437 through 443 are enclosed for your retention. These modifications obligate DOE appropriated and non-appropriated and Work for Others (WFO) funding. At this time, all appropriated funding received from other agencies via WFO program must be issued under separate contract modifications for proper tracking.

If you have any questions, please contact me at 576-4523.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Million".

Mark A. Million
Contracting Officer

Enclosure

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)	Net Increase:	\$48,543.69
---	---------------	-------------

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) 970.5232-4 OBLIGATION OF FUNDS (DEC 2000) and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return _____ 0 _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
Pursuant to the provisions of Clause I.153, the first sentence of paragraph (a) is hereby changed to read as follows: The amount presently obligated by the Government with respect to this contract is \$11,508,366,731.76. This represents an increase of \$48,543.69, from \$11,508,318,188.07 to \$11,508,366,731.76.
FOB: Destination
Period of Performance: 04/01/2000 to 03/31/2015

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

Oak Ridge, Tennessee 37831—

August 31, 2010

Mr. Quinn Windham, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6231

Dear Mr. Windham:

CONTRACT NO. DE-AC05-00OR22725 – MODIFICATION NO. 444

The attached modification is being issued to reflect the reprogramming (from operating to capital) of \$25,000 of American Recovery and Reinvestment Act (Recovery Act) of 2009 funds within the Office of Science. This modification results in a net zero impact on the total funds obligated under the contract. The total amount of funds obligated under this contract since its inception is unchanged and remains at \$11,508,366,731.76.

If you have any questions, please contact me at 576-4523.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Million".

Mark A. Million
Contracting Officer

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 1 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to reflect the reprogramming of \$25,000 of American Recovery and Reinvestment Act (Recovery Act) of 2009 funds (from operating to capital) under the project entitled “Recovery Act Bioenergy Research Centers Capital Equipment: BioEnergy Science Center (Project Code 2005095)”.
- B. The total amount of funds obligated under this contract since its inception is unchanged and remains at \$11,508,366,731.76.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorization:

Work Authorization Number	Work Authorization Title
WA No. KP/OR41/9/ARRA-1 (See Modification 244) (Number from Block 8 of the Work Authorization)	Recovery Act Bioenergy Research Centers Capital Equipment: BioEnergy Science Center (Project Code 2005095)

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work identified in this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

2. AMENDMENT/MODIFICATION NO. 445	3. EFFECTIVE DATE See Block 16C	4. REQUISITION/PURCHASE REQ. NO. 10SC008953	5. PROJECT NO. (If applicable)
6. ISSUED BY Oak Ridge U.S. Department of Energy P.O. Box 2001 Oak Ridge TN 37831	CODE 00518	7. ADMINISTERED BY (If other than Item 6) Oak Ridge U.S. Department of Energy P.O. Box 2001 Oak Ridge TN 37831	CODE 00518
8. NAME AND ADDRESS OF CONTRACTOR (No., street, county, State and ZIP Code) UT-BATTELLE, LLC Attn: Quinn Windham, Director Prime Contract Administration Post Office Box 2008 OAK RIDGE TN 37831-6231		(x)	9A. AMENDMENT OF SOLICITATION NO.
CODE 099114287		FACILITY CODE	9B. DATED (SEE ITEM 11)
		(x)	10A. MODIFICATION OF CONTRACT/ORDER NO. DE-AC05-00OR22725
			10B. DATED (SEE ITEM 13) 10/18/1999
11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS			

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required) Net Decrease: - \$9,581,305.00
See Page 2.

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) 970.5232-4 OBLIGATION OF FUNDS (DEC 2000), P.L. 111-5, and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return 1 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

MANAGEMENT AND OPERATION OF THE OAK RIDGE NATIONAL LABORATORY
The administrative office (administrative contracting activity) for this award/modification is 00005. The administrative office (administrative contracting activity) code is needed by the contractor/recipient for reporting to FederalReporting.gov concerning awards made with funding from the American Recovery and Reinvestment Act of 2009 (ARRA or Recovery Act).

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to de-obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$9,581,305 from the contract and to reflect the reprogramming of Recovery Act funds involving multiple Office of Energy Efficiency and Renewable Energy projects and an Office of Electricity Delivery and Energy Reliability project. The Recovery Act funded projects impacted under this modification are identified in section C below.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” funds in the amount of \$9,581,305 are hereby de-obligated from the contract. The total amount of funds obligated under this contract since its inception is decreased from \$11,508,366,731.76 to \$11,498,785,426.76.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorizations (Attachment 1):

Work Authorization Number	Work Authorization Title
TD-470002-20803-10 (Revision No. 1) – \$200,000	M&O Support – Technical Support
BA-470002-20887-10 (Revision No. 2) – (\$14,700,000)	Construction Part of Carbon Fiber Technology Center
BM-470002-20650-10 (Revision No. 1) – \$483,191	IBR FOA Support Activities & Awards
BM-470002-20472-10 (Revision No. 3) – \$599,504	B5 Transportation Infrastructure Activities
FB-470002-20454-10 (Revision No. 2) – \$100,000	Enhance and Accelerate FEMP Service Functions to the Federal Government
WI-470002-20458-10 (Revision No. 1) – \$1,500,000	EECBG ARRA Formula Grants Technical Assistance
WI-470002-20458-10 (Revision No. 2) – \$1,500,000	EECBG ARRA Formula Grants Technical Assistance
WI-470002-20455-10 (Revision No. 2) – \$736,000	P9 ARRA ORNL Evaluation 2009 ARRA and Retro
(WA Numbers from Block 8 of the Work Authorization)	

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and

conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.

- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

Attachment A - Contractor Recovery Act Performance Requirements

Section A: Contractor Recovery Act Schedule or Milestone Requirements:
Section B: Contractor Recovery Act Performance Outcomes and Measures:
Section C: Contractor Recovery Act Deliverables:

B&R Code: TD5011000-05846-3123742 (2009) ²⁰⁸⁰³
Work Authorization Number: TD-470002-~~20803~~-10 ^{WCL}
Smart Grid Investment Grant – Transmission Project Analyses

Attachment A: Contractor Recovery Act Performance Requirements

Section A: Contractor Recovery Act Schedule or Milestone Requirements

1. Reviews and workshops, with NASPI, NERC and other national organizations on SGIG transmission projects 12/31/2010
2. Annual on-site reviews of SGIG transmission projects 9/30/2011 and 9/30/2010
3. Completed analyses of metrics and benefits of the SGIG transmission projects 9/30/2011 and 9/30/2012, or as determined by mutual agreement of the contractor and DOE

Section B: Contractor Recovery Act Performance Outcomes and Measures

1. Participation in reviews and workshops, and development of recommendations, on SGIG transmission projects
2. Participation in on-site reviews and submission of reports on project performance, metrics, and/or innovative technical advancements so that SGIG transmission project performance, findings and accomplishments are more widely communicated
3. Review and assessment of SGIG transmission project metrics, including (but not limited to):
 - a) Calculations of the portion of each project's transmission system that is visible with synchrophasor technology
 - b) Reduction in the geographic scope, frequency and duration of power outages caused by problems on the bulk power system (transmission system)

Section C: Contractor Recovery Act Deliverables

1. Technical memoranda summarizing and making recommendations on SGIG transmission projects
2. Technical memoranda and reports on SGIG transmission project performance
3. Report on transmission system "build" and "impact" metrics, as described in Section B, Item 3

Abbreviations used in Attachment A	Meaning
ARRA:	American Recovery and Reinvestment Act of 2009
CO ₂ , NO _x and SO _x :	Carbon dioxide, nitrogen oxides and sulfur oxides
DOE:	U.S. Department of Energy
OE:	Office of Electricity Delivery and Energy Reliability
NASPI:	North American SynchroPhasor Initiative
OMB:	Office of Management and Budget
SGIG:	Smart Grid Investment Grant (program funded by ARRA)

Specific Recovery Act Statement of Work			
Carryover funding in the amount of \$100,000 is authorized for EL1702010-05794-1004578-ESPC (2009). These funds are made available for Project #20454 - Enhance and Accelerate FEMP Service Functions to the Federal Government. These funds are to be distributed to Agreement #19079 - ORNL - Technical Guidance and Assistance in accordance with AOP #2004160. ARRA Project# 2004160- Enhance and Accelerate FEMP Service Functions to the Federal Government			
ORNL will provide technical assistance to enhance and accelerate FEMP service functions to the Federal government using the American Recovery and Reinvestment Act (ARRA) funds. ORNL will provide services in the following areas: Initial and/or feasibility of a particular technology; Project prioritization; Strategic energy planning and benchmarking; Technical reviews of designs and proposals; Energy audit training; High-performance green building technical support; Federal vehicle fleet technical support; Assessments; Retro-Commissioning; Resource Efficiency Energy Managers; Operations and maintenance; Evaluate financial strategies, procurement specifications, and acceptance of installed systems; Detail of key lab staff to work within agencies for a limited duration (normally not more than 24 months); and All of the above with special emphasis on particular technologies in the areas of the labs' expertise. ORNL will provide project management support activities to include follow-up with the agency, completion of technical assistance reports, participation in technical assistance conference calls, quarterly joule reporting, and monthly project updates to the FEMPCentral database. Technical assistance to agencies must be approved by the Federal Energy Management Program.			
Funding provided in this work authorization is not approved for obligation of any type of support service contract either as a prime or subcontract award. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to EERE.			

ARRA Funding Information:

Fund: 05794, Appropriation: 89-09/10-0331, Allottee: 30
B&R Code/Program Value: EL1702010-1004578
Project Code:

Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule or Milestones, Performance Outcomes and Measures and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of EERE laboratory appraisal process.

15. Reporting Requirements (Status reports, scientific and technical information or similar):

<u>B&R Code</u>	<u>Previous</u>	<u>Change</u>	<u>Current</u>
WI0702000-05797-1004760 (2009)	\$11,800,000	\$736,000 ✓	\$12,536,000
11. Performance period covered by funds: From: 10/01/2009 To: 09/30/2010		12. Work Start Date: 10/01/2009 - 8/1/2010	13. Expected Completion Date: 09/30/2010, 2013, WCL
14. Statement of Work: NCL			
<p>Specific Recovery Act Statement of Work</p> <p>Carryover funding in the amount of \$736,000 is authorized for WI0702000-05797-1004760-Weatheriz. Trng & TA (2009). These funds are made available for Project #20455 - P 9 ARRA ORNL Evaluation 2009 ARRA and Retro. These funds are to be distributed to Agreement #19052 - FY10 ARRA ORNL Evaluation of WAP TAS#8909/100331.91 in accordance with AOP #OR22725. The current IAQ study will measure the rate at which representative homes in the WAP program have the targeted IAQ problems prior to weatherization and post-weatherization. By collecting information about the home, the occupants, and the weatherization measures this study will strive to furnish some information on how those various factors (tightness of the home, occupant behaviors, weatherization measures, weatherization effectiveness) affect the IAQ outcomes. At a minimum, this study will inform the WAP program what issues they need to look at more carefully. In some cases, there will be clear findings that give the program direction for action. The study will support enhanced measurement of the impact of the program on radon levels, needs a large sample size and slightly revised procedures that would ensure that we always capture the information needed to address the study issues: Core Study - The current budget for the core study is \$663,391 for 368 homes (309 test and 59 control). That is about \$1,800 per home; Expanded Study - The expanded study would need an increase number of both test and control homes. We would suggest a sample size of 500 test and 250 control homes. That is an increase of 382 homes. At \$1,800 per home, that would required \$687,600 additional funding.</p> <p>Funding provided in this work authorization is not approved for obligation of any type of support service contract either as a prime or subcontract award. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to EERE.</p> <p>ARRA funding information:</p>

Section C: Contractor Recovery Act Deliverables:
Incremental Funding - All terms remain the same.

ATTACHMENT A – CONTRACTOR RECOVERY ACT PERFORMANCE REQUIREMENTS

Section A: Contractor Recovery Act Schedule or Milestone Requirements

1. Approval of data collection instrument by OMB

Instruments will be submitted to OMB in FY 2010, 3rd quarter.

(Given the unpredictable time to complete the OMB review process, this milestone is expected to be met in FY 2011, 1st quarter or 2nd quarter.

Delay in approval will result in delay of Data Collections and Delivery of Final Report)

2. Data collections

For national energy savings attributable to

WAP for Program Year 2009:

FY 2012, 1st quarter (11/15/2011)

WAP for Program Year 2010:

FY 2013, 1st quarter (11/15/2012)

Data collection for the process assessment:

FY 2011, 3rd quarter. (6/15/2011)

Data collection for special studies:

FY 2012, 3rd quarter. (6/15/2012)

3. Final Reports

Final Report:

FY 2013, 4th quarter (9/30/2013)

Section B: Contractor Recovery Act Performance Outcomes and Measures

National energy savings attributable to WAP for Program Years (PY) 2009 & 2010

Energy savings attributable to innovations in WAP program delivery

Monetary estimates of non-energy benefits attributable to WAP for PY Years 2009 & 2010

Estimates of reductions in the emission of greenhouse gases attributable to WAP for PY Years 2009 & 2010

Qualitative observations about WAP operation and administration for PY Years 2009 & 2010

Section C: Contractor Recovery Act Deliverables

Monthly Progress Reports

Interim reports documenting:

Program Year 2009 national energy savings

Program Year 2010 national energy savings

Program Year 2009 non-energy benefits

Program Year 2010 non-energy benefits

Special Studies Reports:

WAP Process Assessment

WAP Strategies Assessment for WAP post-ARRA

Final Project Report

September 16, 2010

Mr. Quinn Windham, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6231

Dear Mr. Windham:

CONTRACT NO. DE-AC05-00OR22725 - MODIFICATION NO. 446

This modification is being issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$626,788 to the contract for the Advanced Research Project Agency-Energy (ARPA-E) project entitled "High Performance CO₂ Scrubbing Based on Hollow Fiber-Supported Designed Ionic Liquid Sponges." The total amount of funds obligated under this contract since its inception is increased from \$11,498,785,426.76 to \$11,499,412,214.76.

If you have any questions, please contact me at 576-4523.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Million".

Mark A. Million
Contracting Officer

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Enclosure 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$626,788 for the Advanced Research Project Agency-Energy (ARPA-E) project entitled “High Performance CO₂ Scrubbing Based on Hollow Fiber-Supported Designed Ionic Liquid Sponges.”
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” additional funds in the amount of \$626,788 are hereby obligated in support of Recovery Act activities. The total amount of funds obligated under this contract since its inception is increased from \$11,498,785,426.76 to \$11,499,412,214.76.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables funded by this modification are identified in the following referenced Work Authorization (Enclosure 1):

Work Authorization Number	Work Authorization Title
WA No. 09/CJ000/08/01 (Revision No. 00) (Number from Block 8 of the Work Authorization)	High Performance CO ₂ Scrubbing Based on Hollow Fiber-Supported Designed Ionic Liquid Sponges

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

14. Statement of Work:

The term "Work Authorization" is defined as the following set of documents:

U.S. Department of Energy Contract Work Authorization (pages 1-7)	
Attachment 1	Contractor Recovery Act Technical Milestones and Deliverables (pages 1-4)
Attachment 2	Reporting Requirements (pages 1-24)

This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009 (ARRA). All contract terms and conditions apply, except as provided in this Work Authorization. Work shall be performed using ARRA funds obligated under the contract, and, as such, is subject to special statutory conditions.

On or about March 15, 2010, Oak Ridge National Laboratory (ORNL), along with Georgia Institute of Technology (Georgia Tech), submitted a full application to the Advanced Research Projects Agency – Energy (ARPA-E) in response to Funding Opportunity Announcement DE-FOA-0000208, IMPACCT. On or about April 28, 2010, ARPA-E selected the project described in ORNL’s full application for funding. ARPA-E is funding the project described in ORNL’s full application through this Work Authorization and a separate financial assistance award, DE-AR0000104, to Georgia Tech and Sci-Tec, Inc. (Sci-Tec).

I. Project Definition

The Project is defined as the combination of (i) the work described in this Work Authorization and (ii) the work described in ARPA-E financial assistance award DE- AR0000104. The work described in this Work Authorization is to be performed by ORNL. The work described in ARPA-E financial assistance award DE-AR0000104 is to be performed by Georgia Tech and Sci-Tec, subject to modification of the award by ARPA-E.

II. Coordination and Management of Project

ORNL shall coordinate and manage the Project in the manner described in this Work Authorization.

III. Financial Reporting

A. Financial Reports on Work Described in Work Authorization:

Within 10 business days of a written request by ARPA-E, ORNL shall provide ARPA-E with a report on cumulative expenditures to date for the work described in this Work Authorization. The report must show cumulative expenditures to date for each of the following categories: salaries/wages and fringe benefits; equipment; travel; participant/training support costs, if any; other direct costs, including subawards/contracts; and indirect costs. Within 10 business days of a written request by ARPA-E, ORNL shall provide additional supporting documentation.

B. Financial Reports on Project:

On January 15, April 15, July 15, and October 15 of each year during the period of performance, ORNL shall provide ARPA-E with a report on cumulative (Federal and non-Federal) expenditures to date for the Project. The report must show cumulative expenditures to date for each of the following categories: salaries/wages and fringe benefits; equipment; travel; participant/training support costs, if any; other direct costs, including subawards/contracts; and indirect costs. Within 10 business days of a written request by ARPA-E, ORNL shall provide additional supporting documentation.

C. Review of Financial Reports from Georgia Tech and Sci-Tec:

ORNL shall request and review reports from Georgia Tech and Sci-Tec showing cumulative expenditures to date for the work described in ARPA-E financial assistance award DE- AR0000104. The reports must show cumulative expenditures to date for each of the following categories: salaries/wages and fringe benefits; equipment; travel; participant/training support costs, if any; other direct costs, including subawards/contracts; and indirect costs. ORNL shall request and review additional supporting documentation from Georgia Tech and Sci-Tec, as appropriate.

IV. Cost Share Reporting

A. Cost Share Obligations:

The total project cost for the Project is \$1,110,109. Georgia Tech shall pay 9% percent (or \$100,000) of the total project cost. Sci-Tec shall pay 11% percent (or \$122,500) of the total project cost. Total project Cost Share is 20.0% (\$222,500). Georgia Tech and Sci-Tec are liable for their respective shares of total project cost incurred to date, even if the project is terminated or is not funded to completion.

B. Cost Share Monitoring:

ORNL shall monitor and verify Georgia Tech's and Sci-Tec's compliance with their cost share obligations. ORNL may use the financial reports and additional supporting documentation referenced in III.C above for this purpose.

C. Cost Share Reporting:

ORNL shall include in the financial reports referenced in III.B above verification that Georgia Tech and Sci-Tec have fulfilled their cost share obligations to date. Within 10 business days of a written request by ARPA-E, ORNL shall provide additional supporting documentation.

V. Program/Technical Reporting

A. Technical Milestones and Deliverables:

ORNL shall achieve the technical milestones described in Attachment 1 to this Work Authorization by the dates indicated therein. ORNL shall provide ARPA-E with the deliverables described in Attachment 1 to this Work Authorization by the dates indicated therein.

B. Program/Technical Reports on Work Described in Work Authorization:

Within 10 business days of a written request by ARPA-E, ORNL shall provide ARPA-E with a report on the program/technical work described in this Work Authorization. The report must show (i) the current status of work on each of the technical milestones and deliverables described in Attachment 1 to this Work Authorization and (ii) the expected date for completion of each technical milestone and deliverable. Within 5 business days of a written request by ARPA-E, ORNL shall provide additional supporting documentation.

C. Review of Program/Technical Reports from Georgia Tech and Sci-Tec:

ORNL shall request and review reports from Georgia Tech and Sci-Tec showing (i) the timely achievement of the technical milestones described in Attachment 3 to ARPA-E financial assistance award DE- AR0000104 and (ii) the timely submission of the deliverables described in Attachment 3 to ARPA-E financial assistance award DE- AR0000104. ORNL shall request and review additional supporting documentation from Georgia Tech and Sci-Tec, as appropriate. Within 5 business days of a written request from ARPA-E, ORNL shall provide such reports and additional supporting documentation to ARPA-E.

D. Technical Milestone/Deliverables Monitoring:

ORNL shall monitor and verify (i) Georgia Tech and Sci-Tec's achievement of the technical milestones described in Attachment 3 to ARPA-E financial assistance award DE- AR0000104, and (ii) Georgia Tech and Sci-Tec's submission of the deliverables described in Attachment 3 to ARPA-E financial assistance award DE- AR0000104, ORNL may use the program/technical reports and additional supporting documentation referenced in V.C above for this purpose.

ORNL shall hold monthly conference calls with Georgia Tech and Sci-Tec to review its progress towards achievement of the technical milestones and deliverables described in Attachment 3 to ARPA-E financial assistance award DE- AR0000104. Within 5 business days of a written request from ARPA-E, ORNL shall provide ARPA-E with any information or data received during the monthly conference calls.

ORNL shall attend meetings (in person) with Georgia Tech and Sci-Tec at least two times each year during the period of performance to review its progress towards achievement of the technical milestones and deliverables described in Attachment 3 to ARPA-E financial assistance award DE- AR0000104. Within 5 business days of a written request from ARPA-E, ORNL shall provide ARPA-E with any information or data received during the monthly conference calls.

E. Program/Technical Reports on Project:

On January 15, April 15, July 15, and October 15 of each year during the period of performance, ORNL shall provide ARPA-E with a report on the program/technical work for the Project. Such report shall conform to the requirements for quarterly reports described in Attachment 2 to this Work Authorization. Within 5 business days of a written request by ARPA-E, ORNL shall provide additional supporting documentation.

ORNL shall include in the program/technical report for the Project verification that Georgia Tech and Sci-Tec (i) are achieving the technical milestones described in Attachment 3 to ARPA-E financial assistance award DE- AR0000104 by the dates indicated therein and (ii) are submitting the deliverables described in Attachment 3 to ARPA-E financial assistance award DE- AR0000104 by the dates indicated therein. Within 5 business days of a written request by ARPA-E, ORNL shall provide additional supporting documentation.

F. ARPA-E Meetings and Conferences:

ORNL's Principal Investigator and relevant program/technical personnel shall attend (in person) at least one ARPA-E meeting in Washington, DC each year during the period of performance. ARPA-E will select the date for the meeting. During the meeting, ORNL's Principal Investigator and relevant program/technical personnel will present a report on (i) the current status of work on each of the technical milestones and deliverables described in Attachment 1 to this Work Authorization and Attachment 3 to ARPA-E financial assistance award

DE- AR0000104, and (ii) the expected date for completion of each technical milestone and deliverable. ARPA-E may provide input, comment, guidance, instruction, and direction on the coordination and management of the Project, the work described in Attachment 1 to this Work Authorization, and the work described in Attachment 3 to ARPA-E financial assistance award DE- AR0000104.

ORNL's Principal Investigator and relevant program/technical personnel shall attend (in person) at least two ARPA-E site visits each year during the period of performance. ARPA-E will select the dates for the meeting. During the meeting, ORNL's Principal Investigator and relevant program/technical personnel will present a report on (i) the current status of work on each of the technical milestones and deliverables described in Attachment 1 to this Work Authorization and Attachment 3 to ARPA-E financial assistance award DE- AR0000104, and (ii) the expected date for completion of each technical milestone and deliverable. ARPA-E may provide input, comment, guidance, instruction, and direction on the coordination and management of the Project, the work described in Attachment 1 to this Work Authorization, and the work described in Attachment 3 to ARPA-E financial assistance award DE- AR0000104.

ORNL's Principal Investigator and relevant program/technical personnel shall attend (by telephone or webinar) at least two ARPA-E meetings each year during the period of performance. ARPA-E will select the dates for the meetings. During the meeting, ORNL's Principal Investigator and relevant program/technical personnel will present a report on (i) the current status of work on each of the technical milestones and deliverables described in Attachment 1 to this Work Authorization and Attachment 3 to ARPA-E financial assistance award DE- AR0000104, and (ii) the expected date for completion of each technical milestone and deliverable. ARPA-E may provide input, comment, guidance, instruction, and direction on the coordination and management of the Project, the work described in Attachment 1 to this Work Authorization, and the work described in Attachment 3 to ARPA-E financial assistance award DE- AR0000104.

ORNL's Principal Investigator and relevant program/technical personnel shall attend (in person) at least one scientific/technical conference designated by ARPA-E each year during the period of performance. Upon request by ARPA-E, ORNL's Principal Investigator and relevant technical personnel shall participate as panelists and/or speakers at the conference.

G. Other Communications

In addition to the formal reports, presentations, meetings, and conferences described in this Work Authorization, ARPA-E expects to communicate by telephone and email with ORNL's program/technical personnel on a regular basis. ORNL's program/technical personnel shall reply to ARPA-E telephone calls and emails within 5 business days, to the maximum extent practicable. Upon request, ORNL's program/technical personnel shall participate in conference calls with ARPA-E regarding the Project. ARPA-E may provide input, comment, guidance, instruction, and direction on the coordination and management of the Project, the work described in Attachment 1 to this Work Authorization, and the work described in Attachment 3 to ARPA-E financial assistance award DE- AR0000104.

VI. ARRA Reporting

A. ARRA Reporting for Work Described in the Work Authorization:

On January 10, April 10, July 10, and October 10 of each year during the period of performance, ORNL shall complete its ARRA reporting for the work described in this Work Authorization. Instructions for ARRA reporting are provided in Attachment 2 to this Work Authorization. Additional information and instructions can be found at the following locations: http://energy.gov/recovery/ARRA_Reporting_Requirements.htm and <https://www.federalreporting.gov/federalreporting/downloads.do>

ARPA-E requests ORNL to complete its ARRA reporting for the work described in this Work Authorization at least 3 days prior to this deadline (i.e., January 7, April 7, July 7, and October 7) to allow for reporting verification and to remedy any problems relating to the ARRA reports.

B. Coordinate and manage ARRA Reporting from Georgia Tech and Sci-Tec:

ORNL shall coordinate and manage the collection of all information and documents required for Georgia Tech and Sci-Tec to timely complete its ARRA reporting for the work described in ARPA-E financial assistance award DE- AR0000104. ORNL shall provide such information and documents to Georgia Tech and Sci-Tec at least 10 business days in advance of the reporting deadline.

VII. Substantial Involvement

ARPA-E will have substantial involvement in the coordination and management of the Project.

A. Site Visits

Within 10 business days of a written request by ARPA-E, ORNL shall provide ARPA-E reasonable access to the facilities and sites where the work described in the Work Authorization is being performed. ORNL shall provide reasonable resources and assistance requested or required by ARPA-E for safety, convenience, or other purposes. ORNL shall arrange meetings, presentations, tours, and/or demonstrations requested by ARPA-E. ARPA-E will provide advance notice of site visits, and minimize interference with ongoing work.

B. Project Meetings

ORNL shall provide ARPA-E with reasonable advance notice of and reasonable access to technical and project status meetings, reviews, tests, and demonstrations so as to allow ARPA-E to better understand the progress and challenges of the work performed under this Work Authorization. ARPA-E may participate in these meetings, reviews, tests, and demonstrations, and may provide input and comment. ARPA-E has no right of approval for these meetings, reviews, tests, and demonstrations.

VIII. Publication

ARPA-E encourages ORNL to publish or otherwise make publicly available the results of work performed under this Work Authorization.

Should ORNL publish or otherwise make publicly available the results of work performed under this Award, ORNL shall include the following acknowledgement and disclaimer.

Acknowledgment: "The information, data, or work presented herein was funded in part by the Advanced Research Projects Agency – Energy (ARPA-E), U.S. Department of Energy."

Disclaimer: "The information, data, or work presented herein was funded in part by an agency of the United States Government. Neither the United States Government nor any agency thereof, nor any of their employees, makes any warranty, express or implied, or assumes any legal liability or responsibility for the accuracy, completeness, or usefulness of any information, apparatus, product, or process disclosed, or represents that its use would not infringe privately owned rights. Reference herein to any specific commercial product, process, or service by trade name, trademark, manufacturer, or otherwise does not necessarily constitute or imply its endorsement, recommendation, or favoring by the United States Government or any agency thereof. The views and opinions of authors expressed herein do not necessarily state or reflect those of the United States Government or any agency thereof."

IX. Performance of Work in the United States

A. U.S. Work Obligation:

At least 90 percent of all work performed for this Project, measured as a percentage of the total project cost, must be performed in the United States (i.e., the United States proper and U.S. territories and insular possessions).

B. U.S. Work Monitoring:

ORNL shall ensure that the obligation in IX.A above is met for the Project. ORNL shall include in the financial reports described in III.B above verification that this obligation has been met to date.

X. Equipment Purchases

A. Sense of Congress

It is the sense of the Congress that, to the greatest extent practicable, all equipment and products purchased with funds made available under this award should be American-made.

B. Purchase of U.S. Equipment

To the extent ORNL purchases new equipment to perform the work described in this Work Authorization, ORNL purchase equipment made or manufactured in the United States, to the maximum extent practicable.

XI. National Environmental Policy Act (NEPA) Compliance

A. NEPA Determination

The ARPA-E NEPA Compliance Officer has determined that the work described in this Work Authorization falls within categorical exclusion B3.6 of DOE's NEPA regulations (10 C.F.R. Part 1021).

B. Notification Obligations

In the event of any changes or modifications to the work described in this Work Authorization, ORNL shall notify the ARPA-E NEPA Compliance Officer (ARPA-E-Counsel@hq.doe.gov) in writing immediately. ORNL shall include in its notification: (i) the name and contact information (telephone number and email address) for the individual(s) to whom the ARPA-E NEPA Compliance Officer should direct any inquiries regarding this matter; and (ii) a detailed description of the changes or modifications to the work described in this Work Authorization.

B. Compliance Obligations

Within 10 business days of a written request from ARPA-E, ORNL shall provide information and documents required or requested by the ARPA-E NEPA Compliance Officer and his designee.

XII. Patent Costs

A. Payments for Patent Costs:

ARPA-E will not pay more than \$15,000 in costs and fees relating to the filing and prosecution of U.S. patent applications on subject inventions disclosed to ARPA-E and the U.S. Department of Energy. ARPA-E will not pay any costs and fees relating to the filing and prosecution of foreign patent applications.

B. Patent Cost Monitoring:

ORNL shall ensure that, for the Project as a whole, ARPA-E is not charged more than \$15,000 in costs and fees relating to the filing and prosecution of U.S. patent applications on subject inventions disclosed to ARPA-E and the U.S. Department of Energy. ORNL shall ensure that, for the Project as a whole, ARPA-E is not charged any costs and fees relating to the filing and prosecution of foreign patent applications.

XIII. Intellectual Property Management Plan

ORNL shall negotiate an intellectual property management plan with Georgia Tech and Sci-Tec ORNL shall submit a completed and signed intellectual property management plan to ARPA-E within 90 days of the date of this Work Authorization.

XIII. Termination

ARPA-E may terminate this Work Authorization and/or discontinue funding under this Work Authorization for: (i) failure to achieve the technical milestones in Attachment 1 to this Work Authorization by the dates indicated therein; (ii) failure to submit the deliverables described in Attachment 1 to this Work Authorization by the dates indicated therein; (iii) failure to fulfill the reporting obligations described in this Work Authorization; (iv) failure to coordinate and manage this Project; (v) failure to fulfill the monitoring and verification obligations described in this Work Authorization; (vi) failure to fulfill the substantial involvement obligations in VII above; (vii) failure to fulfill the U.S. Work obligations in IX above; (viii) failure to fulfill the NEPA obligations in XI above; (ix) failure to fulfill the Patent Cost obligations in XII above; (x) failure to fulfill the IP Management Plan obligation in XIII above; and/or (xi) any other basis established by law or by contract.

XIV. U.S. Competitiveness

ORNL shall require, by written agreement, licensees or assignees of elected subject inventions to manufacture substantially in the United States any products embodying the elected subject inventions or produced through the use of the elected subject inventions if said products are used or sold in the United States.

Licensees or assignees may request DOE and ARPA-E to waive the U.S. manufacturing requirement. Such waiver requests must be accompanied by substantial evidence that it is not commercially feasible to comply with the U.S. manufacturing requirement. Such waiver requests shall require the concurrence of DOE and ARPA-E.

In the event DOE and ARPA-E agree to waive the U.S. manufacturing requirement, DOE and ARPA-E shall require recoupment of the Federal Government's investment (with interest) or other appropriate recognition of the Federal Government's support of the technology.

The above conditions shall be binding on any subsequent assignee or sublicensee of, or any entity acquiring rights to, any elected subject invention.

15. Reporting Requirements (Status reports, scientific and technical information or similar):

The recipient of funding in this Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act (ARRA) of 2009 and the reporting requirements outlined in Attachment 2.

**ATTACHMENT 1
CONTRACTOR RECOVERY ACT TECHNICAL MILESTONES AND DELIVERABLES**

New designer ionic liquids developed by Oak Ridge National Laboratory will be integrated with hollow fiber membranes produced by Georgia Tech that provide a robust, high surface area support. These ionic liquid/hollow fiber structures will then be tested under realistic flue gas conditions and assessed by Sci-Tec. The objectives of this catch-and-release system are to cut the cost and energy associated with capturing CO₂, as well as design a platform that can be scaled up to coal-fired power plants across the country.

Milestones and Deliverables to be performed by ORNL

Program Element	Major Tasks	Key Milestones and Deliverables
<p>Program Element 1: Increase the efficiency (rate and gravimetric capacity) of capture and release for CO₂ via molecular design of alcohol-functionalized ILs. Determine the effects of water vapor and other flue gas components.</p>	<p>1.1 Synthesize and characterize alcohol-functionalized ILs with varying cation and anion structures. 1.2 Measure adsorption kinetics and capacity. 1.3 Measure desorption kinetics. 1.4 Measure effects of realistic flue gas components: at least 75%relative humidity, 10 ppm SO_x, 10 ppm NO_x. 1.5 Downselect alcohol-functionalized ionic liquids.</p>	<p>December 1, 2010 (Q1) Completed synthesis of at least 4-6 different alcohol-functionalized ILs for testing</p> <p>March 1, 2011 (Q2) Completed testing for thermal stability and adsorption/desorption kinetics and capacity for at least ½ of ILs synthesized.</p> <p>June 1, 2011 (Q3) Capacity of 1:1 moles of CO₂ to IL demonstrated</p> <p>September 1, 2011 (Q4) Go/No-Go: Demonstrate alcohol-functionalized ILs with 80% CO₂ uptake within 15 min and desorption in less than 10 minutes at 120 °C or below. Demonstrate thermal stability at 180 °C. CO₂ capacity degradation of no more than 5% after one week exposure to at least 75% relative humidity, 10 ppm SO_x, 10 ppm NO_x.</p>
<p>Program Element 2: To develop next-generation tasks-specific ionic liquids (TSILs) whose anions are CO₂-binding conjugated bases derived from a direct proton transfer between superbases and weak proton donors</p>	<p>2.1 Synthesize and characterize protic ILs whose anions are derived from a direct proton transfer between superbases and weak proton donors. 2.2 Measure adsorption kinetics. 2.3 Measure desorption kinetics. 2.4 Measure effects of realistic flue gas components: at least 75%relative humidity, 10 ppm SO_x, 10 ppm NO_x. 2.5 Downselect TSIL.</p>	<p>June 1, 2011 (Q3) Synthesis of at least 6 TSILs for testing</p> <p>September 1, 2011 (Q4) Completed testing for thermal stability and adsorption/desorption kinetics and capacity for at least ½ of ILs synthesized</p> <p>December 1, 2011 (Q5) Capacity of 1:1 moles of CO₂ to IL demonstrated</p>

Program Element	Major Tasks	Key Milestones and Deliverables
		<p>March 1, 2012 (Q6) Go/No-Go: Demonstrate TSILs with 80% CO₂ uptake within 15 min and desorption in less than 10 minutes at 120 °C or below. Demonstrate thermal stability at 180 °C. CO₂ capacity degradation of no more than 5% after one week exposure to at least 75% relative humidity, 10 ppm SO_x, 10 ppm NO_x.</p>

Milestones and Deliverables to be performed by Georgia Tech and Sci-Tec

Program Element	Major Tasks	Key Milestones and Deliverables
<p>Program Element 3: Integrate the IL-based sorption system with hollow fiber platforms for considerably enhanced capture and release kinetics.</p> <p>Georgia Tech</p>	<p>3.1 Order and/or fabricate components and assemble new hollow fiber spinning system to debottle-neck spinning facility</p> <p>3.2 Demonstrate performance of new spinning system by comparing hollow fibers created in current system and new system to verify ability to form equivalent characteristics.</p> <p>3.3 Demonstrate ability to form a defect-free lumen layer allowing efficient loading of a model ionic liquid but preventing excessive water or CO₂ exchange between porous fiber wall and lumen layer.</p> <p>3.4 Explore ionic liquid impregnation techniques</p> <p>3.5 Measure CO₂ absorption capacity and kinetics.</p> <p>3.6 Measure degradation in the presence of water vapor, SO_x, NO_x.</p> <p>3.7 Examine potential need for post-impregnation application of a barrier layer is required.</p> <p>3.8 Final materials down-selected.</p>	<p>March 1, 2011 (Q2) Assembly of hollow fiber spinning system complete</p> <p>June 1, 2011 (Q3) The following properties of fibers measured from new spinning system and found to deviate less than 10 % from the current system: 1) inside and fiber diameters, 2) porosity, 3) average pore size and 4) pore size distribution; with and without a lumen layer</p> <p>September 1, 2011 (Q4) Preferred ionic liquid impregnation technique identified using model ionic liquid and considering 1) capillary pressure uptake into dried open-pore fiber walls and 2) hydrostatic pressure driven infusion using a carrier fluid such as methanol that can permeate through the fiber lumen layer</p> <p>March 1, 2012 (Q6) Hollow fiber constructed where CO₂ permeance across the lumen layer is 2 GPU or less at 30 °C.</p> <p>Less than 1% loss of CO₂ absorption capacity after 10 cycles demonstrated.</p>

Program Element	Major Tasks	Key Milestones and Deliverables
		<p>CO₂ capacity degradation of no more than 5% demonstrated after one week exposure to at least 75% relative humidity, 10 ppm SO_x, 10 ppm NO_x.</p> <p>June 1, 2012 (Q7) Determination whether a post-impregnation application of a barrier layer is required, and whether “leak caulking” of the lumen layer is viable after aggressive cycling of the fiber sorbent through multiple sorption-desorption cycles.</p> <p>September 1, 2012 (Q8) Preferred fiber sorbent polymer, lumen layer, lumen layer formation approach, and IL impregnation technique finalized. IL impregnated into hollow fiber demonstrating 80% CO₂ uptake within 15 min and desorption in less than 10 minutes at 120 °C or below. Demonstrate thermal stability at 180 °C.</p>
<p>Program Element 4: Result assessments and successful large scale synthesis of ILs</p> <p>Sci-Tec</p>	<p>4.1 Aid in the assessment of results from Program Elements 1, 2 and 3 and counsel of Program Element directions</p> <p>4.2 Consult toward the large scale synthesis of successful ILs</p>	<p>March 1, 2011 (Q2) Assessment reports on ILs synthesized to date from Program Element 1, including determination of ILs to date offering the highest potential for CO₂ sorption and stability and any potentially promising paths forward. ILs will be assessed on factors including: adsorption kinetics, desorption kinetics, CO₂ capacity, thermal stability, and stability with respect to water vapor, SO_x, and NO_x.</p> <p>September 1, 2011 (Q4) Assessment reports on ILs synthesized to date from Program Element 1 and 2, including determination of ILs to date offering the highest potential for CO₂ sorption and stability and any potentially promising paths forward. ILs will be assessed on factors including: adsorption kinetics, desorption kinetics, CO₂ capacity, thermal stability, and stability with</p>

Program Element	Major Tasks	Key Milestones and Deliverables
		<p>respect to water vapor, SO_x, and NO_x.</p> <p>March 1, 2012 (Q6) Assessment report on ILs synthesized to date from Program Element 1 and 2, including determination of ILs to date offering the highest potential for CO₂ sorption and stability and any potentially promising paths forward. ILs will be assessed on factors including: adsorption kinetics, desorption kinetics, CO₂ capacity, thermal stability, and stability with respect to water vapor, SO_x, and NO_x.</p> <p>Large scale synthesis path determined for ILs from Program Element 1 meeting the 12 month Go/No-Go criteria</p> <p>June 1, 2012 (Q7) Large scale synthesis path determined for ILs from Program Element 2 meeting the 18 month Go/No-Go criteria</p> <p>September 1, 2012 (Q8) Final assessment reports on large-scale synthetic procedures of ILs demonstrated to be viable for incorporation into fibers. ILs and hollow fibers will be assessed on factors including: adsorption kinetics, desorption kinetics, CO₂ capacity, thermal stability, and stability with respect to water vapor, SO_x, and NO_x.</p>

ATTACHMENT 2 – REPORTING REQUIREMENTS

Table 1: Overview of Reporting Requirements

Reporting	White House Office of Management and Budget (OMB) Reporting Requirements	ARPA-E Reporting Requirements
Frequency	- Quarterly Reporting	- Please see attached guidance
Information	- Jobs - Select Financials - Project Status	- Please see attached guidance
Method	Reporting submitted through https://www.federalreporting.gov/federalreporting/ , options include: - Upload an excel document - Enter data directly or - Upload an XML document	- Please see attached guidance
Help Resources	- DOE Recovery Act Clearinghouse Call Center (https://recoveryclearinghouse.energy.gov or 1-888-363-7289) - http://www.energy.gov/recovery/ARRA_Reporting_Requirements.htm - https://www.federalreporting.gov/federalreporting/downloads.do	- Please see attached guidance
Grant or Loan Recipient Guidance	- http://www.whitehouse.gov/omb/assets/memoranda_fy2009/m09-21.pdf & http://www.whitehouse.gov/omb/assets/memoranda_2010/m10-08.pdf - http://www.energy.gov/recovery/documents/1512_Grant_Loan_Recipients_Instructions.pdf	- Please see attached guidance
Contractor Guidance	- https://www.acquisition.gov/far/current/html/52_200_206.html#wp114499 - http://www.energy.gov/recovery/documents/1512_Contractor_Instructions.pdf	- Please see attached guidance
Major Job Requirements	- Recipients will report solely on direct jobs funded from Recovery Act contracts, grants, loans and other forms of assistance - Grant or Loan recipients should report jobs created and retained at both the prime recipient and sub-recipient level - FAR Regulations require recipients of Federal <i>contracts</i> to report only jobs created and retained by the prime contractors - Jobs are calculated based on the reporting quarter as Total Hours worked/funded by Recovery Act in the Quarter divided by Hours in a Full Time Schedule	- Please see attached guidance

Reporting Instructions

A. MANAGEMENT REPORTING

Progress Report

On the 15th day of every quarter (January 15, April 15, July 15, October 15), you are required to submit a progress report for the project – i.e., the entirety of work performed by ORNL, Georgia Tech, and Sci-Tec -- to ARPA-E via email to (1) arpa-e-reporting@hq.doe.gov and (2) the program support staff for the relevant technology development program. (The ARPA-E Program Director will provide you with a contact list for the relevant ARPA-E personnel.)

The progress report must include the following information. Please refer to the sample progress report attached as Appendix 1 for further guidance.

- Title Page: The title page should identify the name of the national laboratory, the nature of the report (quarterly progress report), the quarter and year of reporting (e.g., Q2 2010), and the FOA name and number. In addition, the title page should identify, in chart form, the work authorization number, the name of the national laboratory, the award number for the team members, the project title, the principal investigator, the date of the report, and the period covered by the report (e.g., Jan. 1, 2010-March 31, 2010).
- Section I. Accomplishments and Milestone Update: A comparison of the actual accomplishments with the goals and objectives established for the period and reasons why the established goals were not met, if they were not. A discussion of what was accomplished under these goals during this reporting period, including major activities, significant results, major findings or conclusions, key outcomes or other achievements. This section should contain sufficient information to document progress and completion of the milestones, and may be marked as protected data.
- Section II. Issues, Risks, and Mitigation: Actual or anticipated problems or delays and actions taken or planned to resolve them.
- Section III. Changes in Approach: Any changes in approach or aims and reasons for change.
- Section IV. Key Personnel: Any absence or changes of key personnel or changes in consortium/teaming arrangement.
- Section V. Project Output:
- A. Journal Articles: Articles published in scientific and other journals. List author name, title, journal name, volume, issue, pages, and year of publication. You are required to send a copy of each journal article to the

ARPA-E Program Director.

- B. Papers: Conference papers. List author name, title, conference name, location, and date of conference. You are required to send a copy of each paper to the ARPA-E Program Director.
- C. Status Reports: Progress reports and updates submitted to ARPA-E during quarter. List name of report and date of submission to ARPA-E.
- D. Media Reports: Any articles in newspapers, magazines, online media, etc. List author, title, publication and/or website, page number (if applicable), and date of publication.
- E. Invention Disclosures: Subject inventions disclosed to ARPA-E and the U.S. Department of Energy under this Award. List title, date submitted, and name of inventor.
- F. Patent Applications: Patent applications arising out of subject inventions disclosed to ARPA-E and the U.S. Department of Energy under this Award. List patent number, name of inventors, assignee, patent application number, date of filing, and title of patent application.
- G. Licensed Technologies: Subject inventions licensed to third parties. List name of licensee, patent or patent application number, title, and expiration date of agreement.
- H. Networks/Collaborations Fostered: Partnerships and other arrangements concluded with respect to the project or technology area. List name of network/collaboration (if any), name of entities involved, date of agreement (if any), brief description of network/collaboration, and technology area.
- I. Websites Featuring Project Work or Results: Web site or other Internet sites that reflect the work or results of this project. List name of website, specific webpage(s) on which project work or results featured, and brief description of project work or results featured.
- J. Other Products: Additional project output, such as data or databases, physical collections, audio or video, software or Netware, models, educational aid or curricula, instruments or equipment. List brief description of additional project output, date of release, and entity to which output was provided.
- K. Awards, Prizes, and Recognition: Any awards, prizes, or other recognition for project work or results, subject inventions, patents or patent applications, etc. List name of award/recognition/prize, name of sponsoring organization, date of receipt, and subject of award/prize/recognition.

Section VI. Follow-On Funding: Additional funding committed or received from other sources (e.g., private investors, industry, government agencies, nonprofits) after the effective date of the ARPA-E Award.

- Section VII. **Project Schedule Status:** You are required to report on the status of the technical milestones and deliverables identified in your award. List milestones and deliverables, anticipated start and completion dates, and actual start and completion dates. You must estimate the percentage complete for each milestone/deliverable.
- Section VIII. **Budget Status for the national laboratory:** Show approved budget (ARPA-E share vs. your cost share), actual costs incurred during the quarter (ARPA-E share vs. your cost share), cumulative cost to date (ARPA-E share vs. your cost share), and remaining balance.
- Section IX. **Budget Status for Each Team Member:** For each team members, show approved budget (ARPA-E share vs. cost share), actual costs incurred during the quarter (ARPA-E share vs. cost share), cumulative cost to date (ARPA-E share vs. cost share), and remaining balance.
- Section X. **Certification of Compliance:** All entities receiving ARPA-E funding are required to certify the information provided in the quarterly progress report is accurate and complete as of the date shown. Entities receiving funding under DE-FOA-0000206 (Electrofuels), DE-FOA-0000207 (BEEST), DE-FOA-0000208 (IMPACCT), DE-FOA-0000288 (ADEPT), DE-FOA-0000289 (BEETIT), DE-FOA-0000290 (GRIDS), and future ARPA-E Funding Opportunity Announcements are required to complete and sign Certification of Compliance with “Equipment Purchases” and “Performance of Work in the United States” requirements set forth in Clause IX. of the Work Authorization. Certifications must conform to the sample certifications provided in the sample quarterly progress report attached as Appendix 1.

Special Status Report

You are required to report the following developments to the ARPA-E Contracting Officer (ARPA-E-CO@hq.doe.gov) as they occur.

1. Potential or actual violations of federal, state, and municipal law arising out of or relating to work under the Award.
2. Potential or actual improper claims or payments arising out of or relating to work under the Award.
3. Potential or actual violations of the cost share requirements under the Award.
4. Potential or actual noncompliance with ARPA-E or DOE financial, technical, or programmatic reporting requirements under the Award.
5. Potential or actual noncompliance with American Recovery and Reinvestment Act (ARRA) reporting requirements under the Award.
6. Potential or actual violations of the lobbying restrictions in the Award.
7. (Reserved)

8. For persons receiving funding under DE-FOA-0000206 (Electrofuels), DE-FOA-0000207 (BEEST), DE-FOA-0000208 (IMPACCT), DE-FOA-0000288 (ADEPT), DE-FOA-0000289 (BEETIT), DE-FOA-0000290 (GRIDS), and future ARPA-E Funding Opportunity Announcements, potential or actual violations of the “Equipment Purchases” and “Performance of Work in the United States” requirements set forth in Clause IX. of the Work Authorization.
9. (Reserved)
10. Potential or actual violation of U.S. export control laws and regulations arising out of or relating to the work under the Award.
11. (Reserved)
12. (Reserved)
13. (Reserved)
14. (Reserved)
15. (Reserved)
16. (Reserved)
17. (Reserved)

B. SCIENTIFIC/TECHNICAL REPORTS

Final Scientific/Technical Report

Content. The final scientific/technical report must include the following information:

1. Identify the ARPA-E award number; name of national laboratory; project title; name of project director/principal investigator; and consortium/teaming members.
2. Display prominently on the cover of the report any authorized distribution limitation notices, such as patentable material or protected data. Reports delivered without such notices may be deemed to have been furnished with unlimited rights, and the Government assumes no liability for the disclosure, use or reproduction of such reports.
3. Provide an executive summary, which includes a discussion of (1) how the research adds to the understanding of the area investigated; (2) the technical effectiveness and economic feasibility of the methods or techniques investigated or demonstrated; or (3) how the project is otherwise of benefit to the public. The discussion should be a minimum of one paragraph and written in terms understandable by an educated layman.
4. Provide a comparison of the actual accomplishments with the goals and objectives of the project.
5. Summarize project activities for the entire period of funding, including original hypotheses, approaches used, problems encountered and departure from planned methodology, and an assessment of their impact on the project results. Include, if applicable, facts, figures, analyses,

and assumptions used during the life of the project to support the conclusions.

6. Identify products developed under the award and technology transfer activities, such as:
 - a. Journal Articles: Articles published in scientific and other journals. List author name, title, journal name, volume, issue, pages, and year of publication. You are required to send a copy of each journal article to the ARPA-E Program Director.
 - b. Papers: Conference papers. List author name, title, conference name, location, and date of conference. You are required to send a copy of each paper to the ARPA-E Program Director.
 - c. Status Reports: Other progress reports and updates submitted to ARPA-E. List name of report and date of submission to ARPA-E.
 - d. Media Reports: Any articles in newspapers, magazines, online media, etc. List author, title, publication and/or website, page number (if applicable), and date of publication.
 - e. Invention Disclosures: Subject inventions disclosed to ARPA-E and the U.S. Department of Energy under this Award. List title, date submitted, and name of inventor.
 - f. Patent Applications: Patent applications arising out of subject inventions disclosed to ARPA-E and the U.S. Department of Energy under this Award. List patent number, name of inventors, assignee, patent application number, date of filing, and title of patent application.
 - g. Licensed Technologies: Subject inventions licensed to third parties. List name of licensee, patent or patent application number, title, and expiration date of agreement.
 - h. Networks/Collaborations Fostered: Partnerships and other arrangements concluded with respect to the project or technology area. List name of network/collaboration (if any), name of entities involved, date of agreement (if any), brief description of network/collaboration, and technology area.
 - i. Websites Featuring Project Work or Results: Web site or other Internet sites that reflect the work or results of this project. List name of website, specific webpage(s) on which project work or results featured, and brief description of project work or results featured.
 - j. Other Products: Additional project output, such as data or databases, physical collections, audio or video, software or Netware, models, educational aid or curricula, instruments or equipment. List brief description of additional project output, date of release, and entity to which output was provided.
 - k. Awards, Prizes, and Recognition: Any awards, prizes, or other recognition for project work or results, subject inventions, patents or patent applications, etc. List name of award/recognition/prize, name of sponsoring organization, date of receipt, and subject of award/prize/recognition.
7. For projects involving computer modeling, provide the following information with the final report:
 - a. Model description, key assumptions, version, source and intended use;

- b. Performance criteria for the model related to the intended use;
- c. Test results to demonstrate the model performance criteria were met (e.g., code verification/validation, sensitivity analyses, history matching with lab or field data, as appropriate);
- d. Theory behind the model, expressed in non-mathematical terms;
- e. Mathematics to be used, including formulas and calculation methods;
- f. Whether or not the theory and mathematical algorithms were peer reviewed, and, if so, include a summary of theoretical strengths and weaknesses;
- g. Hardware requirements; and
- h. Documentation (e.g., user guides, model code).

Electronic Submission. The final scientific/technical report must be submitted electronically-via the DOE Energy Link System (E-Link) accessed at <http://www.osti.gov/mlink-2413>.

Electronic Format. Reports must be submitted in the Adobe Portable Document Format (PDF) and be one integrated PDF file that contains all text, tables, diagrams, photographs, schematic, graphs, and charts. Materials, such as prints, videos, and books, that are essential to the report but cannot be submitted electronically, should be sent to the ARPA-E Contracting Officer.

Submittal Form. The report must be accompanied by a completed electronic version of DOE Form 241.3, "U.S. Department of Energy (DOE), Announcement of Scientific and Technical Information (STI)." You can complete, upload, and submit the DOE F.241.3 online via E-Link. You are encouraged not to submit patentable material or protected data in these reports, but if there is such material or data in the report, you must: (1) clearly identify patentable or protected data on each page of the report; (2) identify such material on the cover of the report; and (3) mark the appropriate block in Section K of the DOE F 241.3. Reports must not contain any limited rights data (proprietary data), classified information, information subject to export control classification, or other information not subject to release. Protected data is specific technical data, first produced in the performance of the award that is protected from public release for a period of time by the terms of the award agreement.

Conference Papers/Proceedings

Content: The recipient must submit a copy of any conference papers/proceedings, with the following information: (1) Name of conference; (2) Location of conference; (3) Date of conference; and (4) Conference sponsor.

Electronic Submission. Scientific/technical conference paper/proceedings must be submitted electronically-via the DOE Energy Link System (E-Link) at <http://www.osti.gov/mlink-2413>. Non-scientific/technical conference papers/proceedings must be sent to the URL listed on the Reporting Checklist.

Electronic Format. Conference papers/proceedings must be submitted in the Adobe Portable Document Format (PDF) and be one integrated PDF file that contains all text, tables, diagrams, photographs, schematic, graphs, and charts. If the proceedings cannot be submitted electronically,

they should be sent to the ARPA-E Contracting Officer.

Submittal Form. Scientific/technical conference papers/proceedings must be accompanied by a completed DOE Form 241.3. The form and instructions are available on E-Link at <http://www.osti.gov/mlink-2413>. This form is not required for non-scientific or non-technical conference papers or proceedings.

Software/Manual

Content. Unless otherwise specified in the award, the following must be delivered: source code, the executable object code and the minimum support documentation needed by a competent user to understand and use the software and to be able to modify the software in subsequent development efforts.

Electronic Submission. Submissions may be submitted electronically-via the DOE Energy Link System (E-Link) at <http://www.osti.gov/estsc/241-4pre.jsp>. They may also be submitted via regular mail to:

Energy Science and Technology Software Center
P.O. Box 1020
Oak Ridge, TN 37831

Submittal Form. Each software deliverable and its manual must be accompanied by a completed DOE Form 241.4 “Announcement of U.S. Department of Energy Computer Software.” The form and instructions are available on E-Link at <http://www.osti.gov/estsc/241-4pre.jsp>.

Protected Personally Identifiable Information (PII). Management Reports or Scientific/Technical Reports must not contain any *Protected* PII. PII is any information about an individual which can be used to distinguish or trace an individual’s identity. Some information that is considered to be PII is available in public sources such as telephone books, public websites, university listings, etc. This type of information is considered to be Public PII and includes, for example, first and last name, address, work telephone number, e-mail address, home telephone number, and general educational credentials. In contrast, *Protected* PII is defined as an individual’s first name or first initial and last name in combination with any one or more of types of information, including, but not limited to, social security number, passport number, credit card numbers, clearances, bank numbers, biometrics, date and place of birth, mother’s maiden name, criminal, medical and financial records, educational transcripts, etc.

C. CLOSEOUT REPORTS

Final Invention and Patent Report

The recipient must submit to the ARPA-E Contracting Officer (ARPA-E-CO@hq.doe.gov) a DOE Form 2050.11, “Patent Certification.” This form is available at <http://www.directives.doe.gov/pdfs/forms/2050-11.pdf>.

Property Certification

The recipient must submit to the ARPA-E Contracting Officer (ARPA-E-CO@hq.doe.gov) the Property Certification, including the required inventories of non-exempt property, located at http://management.energy.gov/business_doe/business_forms.htm

D. AMERICAN RECOVERY AND REINVESTMENT ACT REPORTING

Recipients must begin reporting in the reporting period for the quarter in which the award was made. You are required to complete your ARRA reporting to www.federalreporting.gov by 11:59 PM Eastern Time on the required date. Thus far, this date has been either the 10th or 14th, as determined and announced by OMB (currently the 14th), in the months of January, April, July, and October. ARPA-E requests for you to complete your ARRA reporting requirement 3 days prior to the OMB-required date to allow for reporting verification and to remedy any issues relating to the reports.

Instructions for reporting are attached as Appendix 2. Additional information and instructions can be found on the following websites:

http://www.energy.gov/recovery/ARRA_Reporting_Requirements.htm
<https://www.federalreporting.gov/federalreporting/downloads.do>

APPENDIX 1

SAMPLE QUARTERLY PROGRESS REPORT

**[National Laboratory]
 QUARTERLY PROGRESS REPORT
 Q1 2010**

**Innovative Materials and Processes for Advanced Carbon Capture Technology
 (IMPACCT)
 DE-FOA-0000208**

Work Authorization:	[work authorization number]
Team Member Award:	DE-AR0000104
Lead Recipient:	[National Laboratory]
Project Title:	ARPA-E Solvent Development for Carbon Capture
Principal Investigator:	John Q. Smith
Date of Report:	April 1, 2010
Reporting Period:	January 1, 2010 – March 31, 2010

I. Accomplishments and Milestone Update

Sed ut perspiciatis unde omnis iste natus error sit voluptatem accusantium doloremque laudantium, totam rem aperiam, eaque ipsa quae ab illo inventore veritatis et quasi architecto beatae vitae dicta sunt explicabo. Nemo enim ipsam voluptatem quia voluptas sit aspernatur aut odit aut fugit, sed quia consequuntur magni dolores eos qui ratione voluptatem sequi nesciunt. Neque porro quisquam est, qui dolorem ipsum quia dolor sit amet, consectetur, adipisci velit, sed quia non numquam eius modi tempora incidunt ut labore et dolore magnam aliquam quaerat voluptatem. Ut enim ad minima veniam, quis nostrum exercitationem ullam corporis suscipit laboriosam, nisi ut aliquid ex ea commodi consequatur?

Milestones and Metrics	Actual Performance
Q1 Milestones: Hamilton Process Solvent Generation Solvent A Development	Baseline tests completed. Solvent production mapping complete. Production successful. 10 Solvent samples complete

Task 1:

Lorem ipsum dolor sit amet, consectetur adipisicing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat. Duis aute irure dolor in reprehenderit in voluptate velit esse cillum dolore eu fugiat nulla pariatur. Excepteur sint occaecat cupidatat non proident, sunt in culpa qui officia deserunt mollit anim id est laborum.

Subtask 1.1

Lorem ipsum dolor sit amet, consectetur adipisicing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat. Duis aute irure dolor in reprehenderit in voluptate velit esse cillum dolore eu fugiat nulla pariatur. Excepteur sint occaecat cupidatat non proident, sunt in culpa qui officia deserunt mollit anim id est laborum.

(Add charts, diagrams, and figures as necessary)

Subtask 1.2

- Lorem ipsum dolor sit amet, consectetur adipisicing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.
- Duis aute irure dolor in reprehenderit in voluptate velit esse cillum dolore eu fugiat nulla pariatur. Excepteur sint occaecat cupidatat non proident, sunt in culpa qui officia deserunt mollit anim id est laborum.

(Add charts, diagrams, and figures as necessary)

II. Issues, Risks, and Mitigation

Issue #1: Availability of measuring tool is in question and may delay completion of Task 1.4.

- ✓ We have proceeded to operate on schedule to this point and have identified a second vendor if not available by 4/15/10.

Issue #2: Recruiting for qualified chemical engineer for Task 3 has not yielded qualified candidates.
✓ Hired a head hunting firm and recruiting at college campuses.

III. Changes in Approach

Sed ut perspiciatis unde omnis iste natus error sit voluptatem accusantium doloremque laudantium, totam rem aperiam, eaque ipsa quae ab illo inventore veritatis et quasi architecto beatae vitae dicta sunt explicabo. Nemo enim ipsam voluptatem quia voluptas sit aspernatur aut odit aut fugit, sed quia consequuntur magni dolores eos qui ratione voluptatem sequi nesciunt. Neque porro quisquam est, qui dolorem ipsum quia dolor sit amet, consectetur, adipisci velit, sed quia non numquam eius modi tempora incidunt ut labore et dolore magnam aliquam quaerat voluptatem. Ut enim ad minima veniam, quis nostrum exercitationem ullam corporis suscipit laboriosam, nisi ut aliquid ex ea commodi consequatur? Quis autem vel eum iure reprehenderit qui in ea voluptate velit esse quam nihil molestiae consequatur, vel illum qui dolorem eum fugiat quo voluptas nulla pariatur

IV. Key Personnel

No Changes or issues related to key personnel occurred during the quarter.

V. Project Output

A. Journal Articles:

Copy Sent to Program Director? _____

C. Status Reports:

Monthly update to ARPA-E. January 31, 2010
Monthly update to ARPA-E. February 28, 2010

D. Media Reports:

Hanson, James. "Recovery Act Funding Promotes Local Economy, Green Technologies." *The Times Herald* 21 February 2010: B3+

Reno, Theresa. "DOE Bets on Local Company's New Approach on Carbon Capture." *Philadelphia Inquirer* 19 January 2010: C5

E. Invention Disclosures:

Title: Adaptive Solvent Processing
Date Submitted: February 10, 2010
Agency Submitted to: U.S. Department of Energy, ARPA-E
PI Name: John Smith

F. Patent Applications:

United States Patent: 7,354,489
Inventors: Smith, et. Al.
Assignee: Firm A
Application Number: 67/351,752
Filed: April 17, 2007
Title: Advanced Solvent Processing

United States Patent Application
Inventors: Smith et. Al.
Assignee: Firm A
Application Number: ABC/DE2010/00009
Filing Date: January 15, 2010
Title: NexGen Solvent for Carbon Capture
Current US Class: 123/456.7, 987/654.3
Current International Class: H54S 76/3489

G. Licensed Technologies:

Licensee: Firm B
Patent 67/351,752
Title: Advanced Solvent Processing
Expiration: 12/31/20

H. Networks/Collaborations Fostered

Name of Network/Collaboration: Energy Innovation Network
Entities Involved: ABC University, XYZ Corp., 123 Nonprofit
Date of Agreement: April 1, 2010
Brief Description of Network/Collaboration: Lorem ipsum dolor sit amet, consectetur adipisicing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.
Technology Area: Air compression for energy storage

I. Websites Featuring Project Work or Results

Name of Website: CNN.com
Specific Webpage: <http://www.cnn.com/coolnewenergyproject.html>
Brief Description: Lorem ipsum dolor sit amet, consectetur adipisicing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.

J. Other Products (e.g., Databases, Physical Collections, Audio/Video, Software, Models, Educational Aids or Curricula, Equipment or Instruments)

Brief Description: Lorem ipsum dolor sit amet, consectetur adipisicing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.

Date of Release: April 16, 2010

Provided to: Greendale High School, Greendale, New York

K. Awards, Prizes, and Recognition

Name of Award: Innovation Prize

Sponsoring Organization: Innovation Association

Date of Recipient: May 2, 2010

Subject: Lorem ipsum dolor sit amet, consectetur adipisicing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.

VI. Follow-On Funding

Additional funding committed or received from other sources (e.g., private investors, government agencies, nonprofits) after effective date of ARPA-E Award.

Source	Funds Committed or Received
ABC Incorporated	\$1,000,000.00

VII. Project Schedule Status

Task Title	Schedule				
	Start Date	Finish Date	Actual Start	Actual Finish	Estimated % Complete
Solvent Synthesis & Characterization	1/1/2010	5/30/2010	1/1/2010		
Hamilton Process Solvent Generation	1/1/2010	2/28/2010	1/1/2010	2/16/2010	100%
Create Test Solvent A	1/1/2010	2/28/2010	1/1/2010	2/28/2010	25%
Create Test Solvent B	3/1/2010	4/30/2010			
Conduct solvent screening experiments	5/1/2010	5/30/2010			
Process Variability Study	6/1/2010	12/31/2010			
Define operational envelope	6/1/2010	12/31/2010			
Determine effect of temp	6/1/2010	8/31/2010			
Determine effect of pressure	9/1/2010	10/31/2010			
Determine optimal concentration	11/1/2010	11/30/2010			
Determine optimal electrical field characteristics	11/1/2010	11/30/2010			
Identify optimal operating conditions	12/1/2010	12/31/2010			
Solvent Scale-up Study	1/1/2011	12/31/2011			
Solvent synthesis procedure determined	1/1/2011	5/31/2011			
Solvent synthesized at lab scale	6/1/2011	8/31/2011			
Bench-scale validation of solvent	9/1/2011	12/31/2011			

VIII. Budget Status National Laboratory

Category	Total Project Cost		Quarterly Expenditures		Cumulative Expenditures To-Date		Remaining Balance
	ARPA-E	Cost Share	ARPA-E	Cost Share	ARPA-E	Cost Share	
a. Personnel	\$342,518	\$171,259	\$90,200	\$45,100	\$75,000		\$267,518
b. Fringe Benefits	\$137,007	\$68,504	\$50,000	\$25,000	\$200,000	\$100,000	-\$62,993
c. Travel	\$25,000	\$12,500	\$5,000	\$2,500	\$100,000	\$40,000	-\$75,000
d. Equipment	\$312,338	\$156,169	\$100,000	\$50,000	\$150,000		\$162,338
e. Supplies	\$216,346	\$108,173	\$100,000	\$50,000	\$150,000		\$66,346
f. Contractual		\$0	\$0	\$0	\$0		\$0
Sub-recipient	\$0	\$0		\$0			\$0
FFRDC	\$0	\$0		\$0			\$0
Vendor	\$3,600	\$1,800		\$0			\$3,600
Total Contractual	\$3,600	\$1,800	\$0	\$0			\$3,600
g. Construction	\$0	\$0		\$0			\$0
h. Other Direct Costs	\$0	\$0		\$0			\$0
i. Indirect Charges	\$308,191	\$154,096	\$36,000	\$18,000	\$0		\$308,191

IX. Budget Status Team Member A

Category	Total Project Cost		Quarterly Expenditures		Cumulative Expenditures To-Date		Remaining Balance
	ARPA-E	Cost Share	ARPA-E	Cost Share	ARPA-E	Cost Share	
a. Personnel	\$342,518	\$171,259	\$90,200	\$45,100	\$75,000		\$267,518
b. Fringe Benefits	\$137,007	\$68,504	\$50,000	\$25,000	\$200,000	\$100,000	-\$62,993

X. Certification of Compliance

Persons receiving funding under DE-FOA-0000206 (Electrofuels), DE-FOA-0000207 (BEEST), DE-FOA-0000208 (IMPACCT), DE-FOA-0000288 (ADEPT), DE-FOA-0000289 (BEETIT), and DE-FOA-0000290 (GRIDS) are required to complete and sign the following certification.

I have the authority to make the following certification on behalf of ORNL. On behalf of ORNL, I certify that this project – i.e., the entirety of the work performed under this Work Authorization, including all work performed by Georgia Tech and Sci-Tec in the ARPA-E financial assistance agreement DE-AR0000104 -- is in compliance with the “Equipment Purchases” and “Performance of Work in the United States” requirements set forth in the agreements. On behalf of ORNL, I further certify that the information provided in this Quarterly Progress Report is accurate and complete as of the date shown below. I understand that false statements or misrepresentations may result in civil and/or criminal penalties under 18 U.S.C. § 1001.

APPENDIX 2

ARRA REPORTING INSTRUCTIONS

I. Overview

Per Section 1512 of the Recovery Act, the White House Office of Management and Budget (OMB) requires recipients of Recovery Act contracts, grants, loans and other forms of assistance to report quarterly on select financial and jobs information in an OMB-managed database (FederalReporting.gov).

Recipient reports required by Section 1512 of the Recovery Act will answer important questions, such as:

- Who is receiving Recovery Act dollars and in what amounts?
- What projects or activities are being funded with Recovery Act dollars?
- What is the completion status of such projects or activities and what impact have they had on job creation and retention?"

Registration in FederalReporting.gov is required of all recipients who receive Recovery Act awards, and sub-recipients who have been delegated to report on Recovery Act projects by a prime recipient. Before recipients can enter data on FederalReporting.gov, they must complete a one-time registration. Registration can be completed at any time and requires a DUNS number and Central Contract Registration (CCR)

Data must be submitted 1-10 days after the end of every fiscal quarter. Days 11-21 are available for recipients to review and edit the data loaded by the 10th. On Days 22-29, DOE reviews all information that recipients report through FederalReporting.gov to identify material omissions or significant reporting errors and will work recipients to correct the data before the reporting period closes. On the 30th, the data is available to the general public on Recovery.gov.

Data can be submitted by:

- Uploading an excel document available for download on FederalReporting.gov,
- Entering data directly into FederalReporting.gov, or
- Submitting an XML document.

The first collection of data was collected through FederalReporting.gov in October 2009. Prime Contractors, Prime Recipients, and selected Sub-Recipients must complete reporting no later than 10 days following the end of the quarter in which the award is made. For example, if the award was made on December 29, 2009, a recipient needed to register and report in the January reporting period, even if no financial transactions have yet taken place. Data from each reporting period is made available to the public at Recovery.gov:

<http://www.recovery.gov/Transparency/RecipientReportedData/Pages/RRData.aspx>

II. General FederalReporting.gov Guidance

Recipients of Federal Assistance Awards: Guidance for FederalReporting.gov requirements is located here:

http://www.whitehouse.gov/omb/assets/memoranda_fy2009/m09-21.pdf

http://www.whitehouse.gov/omb/assets/memoranda_2010/m10-08.pdf

http://www.energy.gov/recovery/documents/1512_Grant_Loan_Recipients_Instructions.pdf

Recipients of Federal Contracts: Guidance for FederalReporting.gov reporting requirements is located here:

https://www.acquisition.gov/far/current/html/52_200_206.html#wp114499

http://www.energy.gov/recovery/documents/1512_Contractor_Instructions.pdf

DOE Recovery Act Clearinghouse Call Center: DOE has set up a Recovery Act Clearinghouse (<https://recoveryclearinghouse.energy.gov> or 1-888-363-7289) to answer questions about OMB reporting requirements. The purpose of the DOE Recovery Act Clearinghouse is to help increase the availability of information about DOE's American Recovery and Reinvestment Act of 2009 (ARRA) activities. The Clearinghouse will provide initial consultations, and also make referrals when appropriate to other information sources (websites, documents, DOE staff, etc). The Recovery Act Clearinghouse is open Monday through Friday, 9 a.m. to 7 p.m. Eastern Standard Time. Services are offered at no charge to the public.

DOE Reporting Webinars: DOE has webinars available on reporting requirements for FederalReporting.gov before each reporting period. The webinar schedules for reporting period will be available at: http://www.energy.gov/recovery/ARRA_Reporting_Requirements.htm

III. Federalreporting.gov Jobs Reporting Guidance

A. Overview

A major component of the Recovery Act is creating and saving jobs. Therefore, emphasis has been placed on collecting accurate and actual data on direct job figures from all recipients. The following section summarizes the major jobs calculations issues.

Financial assistance and contractor recipients are subject to different reporting guidance. Financial assistance awardees -- grants, cooperative agreements and loans that are 100 percent financed by the Federal Finance Bank-- must follow OMB guidance, while contractors follow the Federal Acquisition Regulations (FAR).

Therefore financial assistance recipients and contractors submit different job figures

- Financial Assistance Recipients (Lead Recipients and Sub-Recipients): Recipients should report *actual* jobs created and retained as a single combined number; algorithm or multiplier techniques should not be used. Recipients must submit information at both the prime and sub-recipient level; prime recipients are responsible for collecting and reporting job figures at the prime and sub levels but may delegate other reporting tasks to sub-recipients at their discretion. Recipients with cost share or cooperative agreements should report job figures based *only* on the Federal portion of the investment
- Contractors (Prime Contractors): Contractors should report *actual* jobs created and retained as a single combined number. Contractors must only submit prime contractor job figures.

All jobs data required by OMB should be submitted as part of FederalReporting.gov requirements online at <https://www.federalreporting.gov/federalreporting/home.do>.

Job figures should be based on direct jobs created and funded by the Recovery Act. The first collection of direct job figures was collected through FederalReporting.gov in October 2009, with data made available to the public at Recovery.gov: <http://www.recovery.gov/Transparency/RecipientReportedData/Pages/RRData.aspx>

B. Federalreporting.gov Jobs Calculations

The jobs reporting to FederalReporting.gov should be expressed as “full-time equivalents” (FTEs), which is calculated as total hours worked in the reporting quarter divided by the number of hours in a full-time schedule in that quarter, as defined by the recipient.

$$\text{FTE} = \frac{\text{Total hours worked in jobs created or retained within reporting quarter}}{\text{Quarterly Hours in a Full-time Schedule}}$$

A brief description of the types of jobs created or retained should be provided by the recipient with the job data entered into federalreporting.gov.

Example:

Assume Recipient is preparing its report and defines a full time schedule as 2080 hours per year or 520 hours worked per quarter.

Figure 1. Example of Job Calculations for FederalReporting.gov

	Hours for the Quarter
Employee 1	520
Employee 2	520
Employee 3	260
Total:	1,300
Full Time schedule per Employee	520
<u>Calculation:</u>	
1300/ 520 = 2.5 FTEs	

If needed, recipients should adjust job numbers to reflect partial Recovery Act funding. To do this, recipients need to determine the percentage of hours worked and paid for by DOE Recovery Act funds as a percentage of all funding. For example, if the recipient received \$60 million in DOE recovery funds and another \$40 million for outside investors, the reporting recipient would multiply the total project FTEs by 60% (e.g. 60% x 2.5 = 1.5 FTEs).

FederalReporting.gov Timeline

Thus far, ARRA recipients have submitted two quarterly reports (in Oct 2009 and January 2010)

on financial and job data to FederalReporting.gov thus far. Recipients must begin reporting in the reporting period for the quarter in which the award was made. The following example outlines July as a typical reporting period timeline:

Phase 1: July 1 – July 14, 2010 (14 days)

- Recipients prepare reporting data
- ARPA-E requests recipients to submit report(s) by July 11 (11:59 PM Pacific Time)
- Recipients submit report(s) by July 14 (11:59 PM Pacific Time)

Phase 2: July 15 – July 21, 2010 (7 days)

- Prime Recipients review data submitted by their Sub Recipients
- Recipients can update reports until July 21 (11:59 PM Pacific Time)
- Prime and Sub Recipients work together through any potential report corrections
- Awarding Agencies have access to view reports submitted by Recipients

Phase 3: July 22 – July 30, 2010 (10 days)

- Awarding Agencies review Recipient reports submitted (or updated in Phase 2) and provide comments as necessary on select reports
- Prime Recipients and Sub Recipients work together on corrections identified/comments made by the Awarding Agencies
Agency Reviewers can comment on reports and Recipients can respond/update reports until July 30 (11:59 PM Pacific Time)

Phase 4: July 31

Recipient reports publicly posted on Recovery.gov

Similar timelines will be held in subsequent quarters. Federalreporting.gov submission will be required on a quarterly basis until the project is complete and all funds expensed.

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 1 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$3,831.97 to the contract for the Work for Others (WFO) activity with the National Institute of Health entitled “DNA Transport and Sequencing Through a Quadrupole Gate – Administrative Supplement”.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” funding in the amount of \$3,831.97 is hereby obligated to the contract. The total amount of funds obligated under this contract since its inception is increased from \$11,499,412,214.76 to \$11,499,416,046.73.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted under this modification are identified in the following referenced WFO Project Number:

WFO Project Number	WFO Project Title
NFE-10-02714 (Version 0007)	DNA Transport and Sequencing Through a Quadrupole Gate-Administrative Supplement

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work impacted by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved WFO work package for the activity.
- F. All other terms and conditions remain unchanged.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$172,174.00 to the contract for the Work for Others (WFO) project with the Department of Education entitled “Risk of Erroneous Payments Metric Analysis for Title I and ARRA Programs”.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” funding in the amount of \$172,174.00 is hereby obligated to the contract. The total amount of funds obligated under this contract since its inception is increased from \$11,499,416,046.73 to \$11,499,588,220.73.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables funded by this modification are identified in the following referenced WFO Project Number and the supporting documents provided in Attachment 1 to this modification:

WFO Project Number	WFO Project Title
1456-V282-10 (Version 0002)	Risk of Erroneous Payments Metric Analysis for Title I and ARRA Programs

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved WFO work package for the activity.
- F. All other terms and conditions remain unchanged.

(Page 1 of 2)

NOTE: \$172,174 of the total funding of this agreement are provided by the American Recovery and Reinvestment Act of 2009.

RECEIVED
5/28/10

**U.S. DEPARTMENT OF EDUCATION
OUTGOING
EDBUYER PAYMENT ADDENDUM
AGREEMENT BETWEEN FEDERAL AGENCIES
FOR ED ORDER OF GOODS AND SERVICES**

ED PRINCIPAL OFFICE (BUYER):
Complete Sections I, II, III and IV

I. Payment Information:

ORDER NUMBER: **ED-090-10-J-00017-0000**

MODE: REIMBURSEMENT ADVANCE OF FUNDS

TRNG: LUMP SUM MONTHLY QUARTERLY OTHER (explain): _____

METHOD: PAC or OTHER (explain): _____

II. Additional Financing Information: (Use this space for additional Buying Agency appropriations, continued from BS-008 EDBUYER form (page 1 of 2))

Appropriation/TAS: Amount: _____ Appropriation Expiration Date: _____ Appropriation Cancellation Date: _____	Appropriation/TAS: Amount: _____ Appropriation Expiration Date: _____ Appropriation Cancellation Date: _____
---	---

III. Brief Description of Goods or Services Ordered: (A brief description of the order must be provided in this section.)

Risk of Erroneous Payments Metric Analysis for Title I and ARRA Programs.
(This agreement is entered into pursuant to the authority of the Federal Property and Administrative Services Act of 1949 (20 USC 3475) and adheres to Federal Acquisition Regulation 5.002. To the best of our knowledge, the work requested will not place the Department of Energy and its contractor in direct competition with the domestic private sector.)

IV. Additional Terms and Conditions:

MODIFICATION, TERMINATION, OR CANCELLATION
Each party may, at its option, modify, terminate, or cancel this agreement with 30 days notice to the other party. (Enter the number of days notice as negotiated by the Parties.) In the event an order is cancelled by the buyer, the seller is authorized to collect costs incurred prior to cancellation of the order plus any termination costs.

DISPUTE RESOLUTION
In the event of a dispute concerning either the accounting treatment or the contractual aspects of this agreement, the parties agree to resolve the dispute using the dispute resolution procedures set forth in Office of Management and Budget (OMB) Memorandum M-07-03, Business Rules for Intra-governmental Transactions, dated November 13, 2006, and Treasury Financial Manual, Volume 1, Bulletin No. 2007-03, Section VII. The link to the Business Rules is provided below.
<http://www.fms.treas.gov/fmvs/07-03.pdf>

OTHER FEDERAL AGENCY (SELLER): Complete either Section V.A. or V.B.

V. ED Chief Financial Officer Required Information: (To be completed by the Selling Agency Finance Office.)
Questions pertaining to this section should be directed to the ED Finance Points of Contact: Leea Soehl (202) 246-3423 or Carolyn Ashby (202) 401-3487.
Email: Leea.Soehl@ed.gov or Carolyn.Ashby@ed.gov; Fax: (202) 205-0758

SELLING AGENCY NAME: _____

A. COMPLETE THIS SECTION FOR REIMBURSEMENT PAYMENTS:

1. When will **REVENUE** be recognized?

a) Upon signing of agreement: b) Upon receipt of PAC cash: c) As expenses occur:

d) Periodically for the lesser of the specified billing amount or expenses incurred. Periodic: Monthly Quarterly Yearly Upon Completion

e) Periodically for the specified billing amount regardless of the expenses incurred. Periodic: Monthly Quarterly Yearly Upon Completion

f) Other (please specify): Bill monthly as costs are incurred

2. When will **REVENUES** be recognized?

a) As expenses occur: b) Periodically for the lesser of the specified billing amount or expenses incurred. Periodic: Monthly Quarterly Yearly Upon Completion

c) Periodically for the specified billing amount regardless of the expenses incurred. Periodic: Monthly Quarterly Yearly Upon Completion

d) Other (please specify): _____

B. COMPLETE THIS SECTION FOR ADVANCE PAYMENTS:

1. When will an **ADVANCE FROM OTHERS** be recognized?

a) Upon signing of agreement: b) Upon receipt of PAC cash: c) At the end of the fiscal year: d) We are not going to recognize an entry to "Advances from Others" 541, 2210:

e) Other (please specify): _____

2. When will the **ADVANCES FROM OTHERS** be liquidated?

a) At fiscal year end: b) As expenses occur: c) Periodically. Periodic: Monthly Quarterly Yearly Upon Completion

d) Other (please specify): _____

3. If an advance is recognized, the ED Finance POC will be notified quarterly via fax or email of the advance liquidation and balance for elimination and expense recognition purposes.

a) Agree: b) Disagree and have discussed with ED Finance POC: Comment: _____

4. When will **REVENUE** be recognized?

a) Upon signing of agreement: b) Upon receipt of PAC cash: c) As expenses occur: d) Periodically. Periodic: Monthly Quarterly Yearly Upon Completion

e) Other (please specify): _____

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 1 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to reflect the reprogramming of \$6,000 of American Recovery and Reinvestment Act (Recovery Act) of 2009 funds (from operating to capital) under the project entitled “Recovery Act Bioenergy Research Centers Capital Equipment: BioEnergy Science Center (Project Code 2005095)”.
- B. The total amount of funds obligated under this contract since its inception is unchanged and remains at \$11,499,588,220.73.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorization:

Work Authorization Number	Work Authorization Title
WA No. KP/OR41/9/ARRA-1 (See Modification 244) (Number from Block 8 of the Work Authorization)	Recovery Act Bioenergy Research Centers Capital Equipment: BioEnergy Science Center (Project Code 2005095)

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work identified in this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 1 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to de-obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds from the Dover Air Force Base sponsored projects listed in Section C below.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” funds in the amount of \$9,374,373.87 are hereby de-obligated from the Recovery Act activities identified in section C below. The total amount of funds obligated under this contract since its inception is decreased from \$11,499,588,220.73 to \$11,490,213,846.86.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the eWFO system under the Project Numbers listed in the table below.

eWFO Project Number	Project Title
2237-V055-09 (Version No. 0003) De-obligate: \$4,201,270.29	Decentralization of Facilities from Central Heat Plant, Phase 2 West of Atlantic Ave. at Dover Air Force Base
2237-V056-09 (Version 0007) De-obligate: \$2,011,153.21	Installation of Natural Gas Lines for Decentralization from Central Heat Plant (East of Atlantic Ave) at Dover Air Force Base
2237-V057-09 (Version No. 0003) De-obligate: \$3,161,950.37	Decentralization of Facilities from Central Heat Plant, Phase 2 East of Atlantic Ave. at Dover Air Force Base
(Numbers from Block 5 of the MIPR)	

- D. All other terms and conditions remain unchanged.

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 1 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to de-obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$37,853.77 from the contract involving the Work for Others (WFO) activities entered into with the National Institute of Health identified in section C below.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” funds in the amount of \$38,963.34 are hereby de-obligated from the project entitled “Accurate Mass Analysis of Singly-Charged Intact Proteins” and funds in the amount of \$1,109.57 are obligated in support of the project entitled “DNA Transport and Sequencing Through a Quadrupole Gate – Administrative Support”. The total amount of funds obligated under this contract since its inception is decreased from \$11,490,213,846.86 to \$11,490,175,993.09.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced WFO Project Number(s):

WFO Project Number	WFO Project Title
NFE-10-02711 (Version No. 0008)	Accurate Mass Analysis of Singly-Charged Intact Proteins
NFE-10-02714 (Version No. 0008)	DNA Transport and Sequencing Through a Quadrupole Gate-Administrative Supplement

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification. Note: Financial Plan Number 14 of Attachment 2 reflects a \$200,000 correction to a Work Authorization (No. TD-470002-20803-10, Revision No. 1) issued under contract modification 445. A revised Work Authorization for the Office of Energy Efficiency and Renewable Energy (EERE) project entitled “M&O Support - Technical Support” will be issued at a later date.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$19,916,635 to the contract. This action involves the obligation, de-obligation and reprogramming of Recovery Act funding involving multiple EERE projects. The Work Authorizations for these projects are reflected in section C below.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” additional funds in the amount of \$19,916,635 are hereby obligated in support of Recovery Act activities. The total amount of funds obligated under this contract since its inception is increased from \$11,490,175,993.09 to \$11,510,092,628.09.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorizations (Attachment 1):

		13. Expected Completion Date: 09/30/2010 <i>2011</i> <i>WCL</i>	
14. Statement of Work: Specific Recovery Act Statement of Work Carryover funding in the amount of \$30,000 is authorized for WI1001020-05796-1005116-EECBG Form Grants TA (2009). These funds are made available for Project #20458 - EECBG ARRA Formula Grants Technical Assistance. These funds are to be distributed to Agreement #22885, FY 10 ORNL EECBG Quality Assurance Program ARRA in accordance with FWP #ORNL EECBG. ORNL will administer an Energy Efficiency Community Block Grants Program quality assurance program to assure successful application of EECBG grants by having quality controls in place to ensure safe installation and construction practices by grantees. This task piggybacks on the ORNL contractor work that is currently being carried out under the national Weatherization Assistance Program Quality Assurance Plan. The objectives of the Plan are to: 1) To provide an oversight system to ensure the appropriateness of services, quality workmanship, materials, and compliance with relevant regulations and EECBG programs and other program requirements; 2) To assure that grantees use appropriate plans, procedural controls (including quality control protocols), and processes; 3) To ensure consistent application of program standards nationwide; 4) To encourage and enhance best management practices; 5) To provide clear and transparent guidelines for program, grantee, and sub-grantee management, monitoring, and communications. Funding provided in this work authorization is not approved for obligation of any type of support service contract either as a prime or subcontract award. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to EERE.

<p>Specific Recovery Act Statement of Work Carryover funding in the amount of \$10,000 is authorized for WI0302000-05798-1004902-SEP Special Projects (2009). These funds are made available for Project #20440 - SEP/EECBG ARRA 2009-2012 Integration Projects. These funds are to be distributed to Agreement #22734 - FY 10 ORNL SEP Quality Assurance Visits ARRA in accordance with AOP #ORNL WAP. ORNL will administer a State Energy Program grants quality assurance program to assure successful application of SEP grants by having quality controls in place to ensure safe installation and construction practices by grantees. This task piggybacks on the ORNL contractor work that is currently being carried out under the national Weatherization Assistance Program Quality Assurance Plan. The objectives of the Plan are to: 1) To provide an oversight system to ensure the appropriateness of services, quality workmanship, materials, and compliance with relevant regulations and SEP programs and other program requirements; 2) To assure that grantees use appropriate plans, procedural controls (including quality control protocols), and processes; 3) To ensure consistent application of program standards nationwide; 4) To encourage and enhance best management practices; 5) To provide clear and transparent guidelines for program, grantee, and sub-grantee management, monitoring, and communications. Funding provided in this work authorization is not approved for obligation of any type of support service contract either as a prime or subcontract award. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to EERE.</p>

Attachment A - Contractor Recovery Act Performance Requirements

Section A: Contractor Recovery Act Schedule or Milestone Requirements: <i>BY 1/31/2011, NCL</i>
Provide an ORNL Quality Assurance Program plan for soliciting contractor bids. (This work in an add-in to on-going WAP Quality Assurance Program.) Develop a Quality Assurance Program solicitation. Administer the Quality Assurance Program over the life of the program. Provide a final report on the success of the SEP Quality Assurance Program. <i>BY 6/30/2011, NCL</i>
Section B: Contractor Recovery Act Performance Outcomes and Measures:
Program Plan - Timely submission of Plan in coordination with DOE SEP program manager. Solicitation - Timely execution of solicitation to deploy contractor(s) to audit SEP program projects. Meet quantity goals of SEP program review of projects. <i>BY 2/28/11, NCL</i>
Section C: Contractor Recovery Act Deliverables:
Intermediate and Final drafts of Quality Assurance Program plan. Copy of Quality Assurance Program solicitation and response information. Monthly reports on Quality Assurance Program activities.

Specific Recovery Act Statement of Work			
<p>Carryover funding in the amount of \$475,000 is authorized for WI0302000-05798-1004902-SEP Special Projects (2009). These funds are made available for Project #20440 - SEP/EECBG ARRA 2009-2012 Integration Projects. These funds are to be distributed to Agreement #22734 - FY 10 ORNL SEP Quality Assurance Visits ARRA in accordance with AOP #ORNL WAP. SEP ARRA Grantee and Subrecipient/Subgrantee Monitoring. The contractor will provide subject experts to provide needed capability to HQ and Field Project Officers during On-Site visits. Approximately 41 such visits are planned for the last quarter of FY2010 and 112 visits will be required for FY2011. There is no current Federal excess capacity or capability for utilization as part of a team approach to examine critical risk-areas at the grantee and subrecipient levels for demographically- and geographically-large states, states with known issues, states which have taken a position which may have risk implications, and states who have utilized third-party administrators or providers for financial lending. Specifically, experienced expertise in due diligence is needed for vertical and horizontal assessments in the areas of: 1) financial management and accounting; 2) procurement operations and invoice processes; 3) Banking or financial examiner; and 4) special technical subject matter practitioner skills (e.g., industrial process changeout, termsheets, large-scale renewable arrays). These support staff would be deployed on-site accompanying and under the administration of Federal Project Officers for each visit and would participate in all aspects of formulating conclusory concerns, findings, and corrective actions and documentation of the same.</p> <p>Funding provided in this work authorization is not approved for obligation of any type of support service contract either as a prime or subcontract award. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to EERE.</p>

14. Statement of Work: WCL			
<p>Specific Recovery Act Statement of Work Carryover funding in the amount of \$1,343,921 is authorized for WI1001020-05796-1005116-EECBG Form Grants TA (2009). These funds are made available for Project #20440 - SEP/EECBG ARRA 2009-2012 Integration Projects . These funds are to be distributed to Agreement #19019 - ORNL SEP, WAP, and EECBG Evaluation & Analysis - The American Recovery and Reinvestment Act of 2009 2004370 TAS#8909/100331.91 in accordance with FWP #tbd. ORNL will develop a detailed study implementation plan and timeline and will provide ongoing management and oversight of an independent contractor evaluation of the State Energy Program (SEP), Energy Efficient Competitive Block Grants Program(EECBG), and Weatherization Assistance Program (WAP). The evaluation will address 16 broad types of energy efficiency and renewable energy programs supported by SEP. The primary outcome of the three-year study will be an in-depth report describing the achievements of SEP in terms of four key metrics: energy and demand savings; renewable energy capacity and generation; carbon emissions reductions; and job creation. Funding provided in this work authorization is not approved for obligation of any type of support service contract either as a prime or subcontract award. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to EERE.</p>			
<p>ARRA funding information: Fund: 05796, Appropriation: 89-09/10-0331, Allottee: 30 B&R Code/Program Value: WI1001020-1005116 Project Code: 1004902</p>

Attachment A - Contractor Recovery Act Performance Requirements

Section A: Contractor Recovery Act Schedule or Milestone Requirements:
Provide an ORNL Quality Assurance Program plan for soliciting contractor bids. Develop a Quality Assurance Program solicitation. Administer the Quality Assurance Program over the life of the program. Provide a final report on the success of the Quality Assurance Program.
Section B: Contractor Recovery Act Performance Outcomes and Measures:
Program Plan - Timely submission of Plan in coordination with DOE WAP T& TA manager. Solicitation - Timely execution of solicitation to deploy contractor(s) to audit WAP weatherized homes. Meet quantity goals of WAP program review of homes weatherized.
Section C: Contractor Recovery Act Deliverables:
Intermediate and Final drafts of Quality Assurance Program plan. Copy of Quality Assurance Program solicitation and response information. Monthly reports on Quality Assurance Program activities. All dates remain the same as original funding action.

Attachment A - Contractor Recovery Act Performance Requirements

Section A: Contractor Recovery Act Schedule or Milestone Requirements:
Evaluate and test the candidate scintillators. The tests will start at room temperature and increase up to 400oC. Target Date: 09/30/2010. Evaluate and test the candidate neutron detectors for temperature. Target date: 05/30/2011. Perform environmental tests, including shock and vibration, on the detectors that passed the temperature tests. Target Date: 07/30/2011. Perform simulations to determine the neutron and photon detector response for varying parameters including temperature, formation lithology, porosity, and water content. Generate the nuclear data. Perform benchmark calculations, against measured data, for a subset of the data. Target date: 07/30/2011
Section B: Contractor Recovery Act Performance Outcomes and Measures:
Determination of the operating range for scintillators and neutron detectors with measurements. Determination of the respond for different environments and temperatures using simulations/modeling.
Section C: Contractor Recovery Act Deliverables:
A report that summarizes the photon detector temperature tests and findings. Deliverable Date: 11/30/2010. A report that summarizes the neutron detector temperature tests and findings. Deliverable Date: 07/30/2011. A report that summarizes the environmental tests and findings. Deliverable Date: 08/30/2011. A report that summarizes the simulation, modeling results. Deliverable Date: 09/30/2011

Attachment A - Contractor Recovery Act Performance Requirements

Section A: Contractor Recovery Act Schedule or Milestone Requirements:
ORNL will have performed wear tests using abrasive wear loop apparatus, salt fog tests for corrosion, and fracture toughness/impact tests to compare coatings and bulk samples with H13 steel, 316 stainless steel, and WC/ 20% Co. (12/30/10) In addition, ORNL will develop, validate and create baseline data using a unique testing apparatus for simulating geothermal conditions. Samples of the optimized coating and bulk samples will be tested. (06/30/2011)
Section B: Contractor Recovery Act Performance Outcomes and Measures:
The coatings/bulk samples must have equal or better salt fog test results than the 316 stainless steel, equal or better abrasive wear test results than H13 steel, and equal or better fracture toughness results than WC/20%Co. (06/30/2011).
Section C: Contractor Recovery Act Deliverables:
A final project report containing metallurgical, mechanical, laboratory tribology data, and corrosion results will be provided. (09/15/2011)

Attachment A - Contractor Recovery Act Performance Requirements

<p>Section A: Contractor Recovery Act Schedule or Milestone Requirements:</p> <p>Milestone: Proof-of-principle tests completed for fluid behavior in confined pores using static vibrating tube densimeter (VTD) (09/30/2010) Milestone: Complete upgrades and testing of high-temperature, high pressure flow VTD (12/31/2010) Milestone: Measure fluid phase behavior and densities for H₂O + CO₂ between 150 °C and 250 °C. (09/30/2011) Milestone: Characterize mineralogy and chemistry of representative geothermal rocks (09/30/2010) Milestone: Determine structure of geothermal rocks using neutron scattering (12/31/2010) Milestone: Measure CO₂ fluid behavior in a representative geothermal rock at reservoir conditions (09/30/2011) Milestone: Characterize representative geothermal rocks with X-ray micro-CT tomography (09/30/2010) Milestone: Design and construct high-pressure and high-temperature cell for neutron tomographic imaging (12/30/2010) Milestone: Complete neutron imaging of a working fluid in a representative geothermal rock (09/30/2011)</p>
<p>Section B: Contractor Recovery Act Performance Outcomes and Measures:</p> <p>For Milestone 1.1: Demonstration for the first time for direct VTD measurements of confined fluid densities and phase equilibrium shifts relative to bulk fluid (09/30/2010) For Milestone 1.2: Demonstrated capability of rapid detection of vapor-liquid phase boundaries of both H₂O and CO₂-rich phases (12/31/2010) For Milestone 1.3: Accurate new density and vapor-liquid equilibrium data set for the key binary system H₂O + CO₂ between 150 oC and 250 oC (09/30/2011) For Milestone 2.1: Document detailed mineralogy and major element chemistry of geothermal rocks (09/30/2010) For Milestone 2.2: Conduct neutron scattering experiments and analyze data (12/31/2010) For Milestone 2.3: Determine structure of a pure working fluid (CO₂) in a geothermal rock (9/30/2011) For Milestone 3.1: Document pore structure from analysis of X-ray micro-tomographic images (09/30/2010) For Milestone 3.2: Test high pressure-high temperature neutron imaging cell (12/31/2010) For Milestone 3.3: Generate images of pore fluid in a geothermal rock (9/30/2011)</p>
<p>Section C: Contractor Recovery Act Deliverables:</p> <p>Thermophysical data on a confined fluid in a porous matrix (12/31/2010). Thermophysical data on CO₂+H₂O binary fluids between 150-250oC (9/30/2011). Pore structures and pore distribution in representative geothermal rocks (12/31/2010). Sorption properties and densities of sorbed working fluid in a geothermal rock (09/30/2011). A high pressure-high temperature cell for in situ imaging of rock-fluid interactions (12/31/2010). Neutron tomographic images of a working fluid in a geothermal rock (09/30/2011)</p>

Attachment A - Contractor Recovery Act Performance Requirements

Section A: Contractor Recovery Act Schedule or Milestone Requirements:
Milestone 1: 09/30/2010 – Choose a typical site and thermal conditions for a feasible binary geothermal power plant. Select a typical working fluid combination, CO ₂ , and CO ₂ -SF ₆ . Milestone 2: 03/31/2011 – Perform sensitivity analysis for thermophysical variables on thermodynamic efficiency for target cycle and geological formation. Milestone 3: 07/31/2011 – Complete thermodynamic simulations of a power plant using for a mixture of supercritical CO ₂ -SF ₆ . Milestone 4: 09/2011 - Obtain the full vapor-liquid equilibrium envelopes and critical points for one set of mixtures. Complete final report.
Section B: Contractor Recovery Act Performance Outcomes and Measures:
For milestone 1: Identify thermal conditions for the working fluids specific to each site based on review of different sites in US. Select a typical site for which the geothermal energy can be utilized in more sites across the country. Indicate requirements on thermodynamic properties for working fluids that would improve plant efficiency. Performance measure: Select a typical site for which the geothermal energy can be utilized in more sites across the country Performance outcomes: For the site chosen, formulate desired requirements on the thermodynamic properties of working fluids that would improve plant efficiency and identify potential new working fluids, such as mixtures of supercritical CO ₂ -SF ₆ . For milestone 2: Identify which thermophysical properties are important for improving plant efficiency. Performance measure: Identify the effect of several thermophysical properties on plant efficiency. Performance outcomes: Identify the most relevant thermophysical properties for improving geothermal plant efficiency. For milestone 3: Obtain the thermodynamic efficiency of the selected plant type for different mixtures of supercritical CO ₂ -SF ₆ . Performance measure: Assess how much the composition of CO ₂ /SF ₆ affects the plant efficiency. Performance outcomes: Identify the composition CO ₂ /SF ₆ for which the geothermal plant will be more efficient. For milestone 4: Verification that complete mixing and thermodynamic equilibrium between components can be obtained so that the appearance of a new phase can be reliably detected. Performance measure: how well the appearance of a new phase can be reliably detected; Performance outcomes: Confidence in experimental apparatus for measuring the thermodynamic properties of new fluids. Write the final report.
Section C: Contractor Recovery Act Deliverables:
Thermodynamic properties for several binary mixtures of pure working fluids 9/30/11. Computational toolboxes for the prediction of thermodynamic properties of fluid mixtures and ensuing geothermal plant performance, 9/30/11. Recommendations for new working fluids. 9/30/11

<p>Specific Recovery Act Statement of Work</p> <p>Carryover funding in the amount of (\$513,300) is redirected from ED1904032-05794-1004383-IMF (2009). These funds were made available for Solicitation #20421 - <i>Advanced Materials RD&D in Support of EERE Needs to Advance Clean Energy Technologies</i>. These redirected funds will cover the additional cost of the sheer rolling mill. Success of the ARRA-funded project "Shear Rolling of Magnesium Sheet for Energy, Transportation and Defense Applications" hinges on purchase of a mill capable of operating the opposing rolls independently at significantly different velocities to provide the shear deformation. Preliminary experiments at ORNL showed that process conditions require torque 10 times higher than conventional rolling and maintenance of sheet temperature at 300 C. The cost of the required rolling mill is approximately twice that originally budgeted. As an aside, collaboration on magnesium casting and sheer rolling is the centerpiece of the recently signed MOU between ORNL and Natural Resources Canada's CANMET Materials Technology Laboratory (CANMET-MTL) in support of the Canada-U.S. Clean Energy Dialogue that will focus on clean energy research and development.</p> <p>Funding provided in this work authorization is not approved for obligation of any type of support service contract either as a prime or subcontract award. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to EERE.</p> <p>ARRA funding information:</p> <p>Fund: 05794, Appropriation: 89-09/10-0331, Alloties: 30 B&R Code/Program Value: ED1904032-1004383 Project Code: 2004320</p> <p>Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act</p>			

Schedule or Milestones, Performance Outcomes and Measures and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of EERE laboratory appraisal process.

Attachment A - Contractor Recovery Act Performance Requirements

Section A: Contractor Recovery Act Schedule or Milestone Requirements:
Section B: Contractor Recovery Act Performance Outcomes and Measures:
Section C: Contractor Recovery Act Deliverables:

ATTACHMENT A – CONTRACTOR RECOVERY ACT PERFORMANCE REQUIREMENTS

Section A: Contractor Recovery Act Schedule or Milestone Requirements

Task 1 - Commercialization of Titanium Heat Exchangers Fabricated from New Powders.

Milestone 5.1 Complete and install at least one heat exchanger system with cold formed Ti sheets for evaluation at a company site for testing and evaluation in a test loop system; Month 19

Task 2 - Shear Rolling of Magnesium Sheet for Energy, Transportation, and Defense Applications.

Milestone 5.1: Successfully fabricate component 1 using materials fabricated through new processing technology; Month 21

Task 3 - Commercialization of New Carbon Fiber Materials Based on Sustainable Resources for Energy Applications. Milestone 3.2 Demonstration of scaled up production of carbon materials for energy storage application; Month 19

Task 4 - AFA Steels. Milestone 2.4 Report relative performance of AFA steels in four application relevant environments; Month 24

Task 5 - CF8C-Plus Cast Stainless Steels. Milestone 4.1 Report on the potential for cast AFA components based on creep and environmental resistance; Month 22

Task 6 - Materials & Processing for Advanced Batteries. Milestone 4.1 Scaling of processing; Month 25

Task 7 - Photovoltaic Materials. Milestone 1.7 Third round research completed; Month 20

Task 8 - Magnetic Processing of Steel Strip and Next Generation Alloys. Milestone 4.1 Develop process parameters for continuous feed production line that includes a TMP magnetic processing stage; Month 19

Section B: Contractor Recovery Act Performance Outcomes and Measures

All tasks described under this effort will be completed by 9-30-2011, within the budget allocated to each task. Completion of each task will be determined by the submission of a final task report to the sponsor's designated representative.

Section C: Contractor Recovery Act Deliverables

Task 1 - Commercialization of Titanium Heat Exchangers Fabricated from New Powders.

Deliverable, Final Report

Task 2 - Shear Rolling of Magnesium Sheet for Energy, Transportation, and Defense Applications.

Deliverable, Final Report

Task 3 - Commercialization of New Carbon Fiber Materials Based on Sustainable Resources for Energy Applications.

Deliverable, Establish Commercialization Plans

Task 4 - AFA Steels.

Deliverable, Completed evaluation of as-cast AFA steel properties for cast components.

Task 5 - CF8C-Plus Cast Stainless Steels.

Deliverable, Completed evaluation of slurry-coated CF8C-Plus steel properties

Task 6 - Materials & Processing for Advanced Batteries.

Deliverable, Develop deposition and drying procedure for lithium ion battery coatings (electrodes and ceramic composite separators) maintaining nano-scale feature and lab-scale performance

Task 7 - Photovoltaic Materials.

Deliverable, Final Report

Task 8 - Magnetic Processing of Steel Strip and Next Generation Alloys.

Deliverable, Final Report

14. Statement of Work:			
<p>Specific Recovery Act Statement of Work</p> <p>Funding in the amount of \$1,750,000 is authorized for EB3603000-05794-1005301-Lab Call Facilities. These funds are made available for Project #20886 - Carbon Fiber Technology Center. These funds are to be distributed to Agreement #20921 - Carbon Fiber Technology Center - Equipment Portion. The purpose of this action is to move funds from capital equipment to operating funds to support the Carbon Fiber Technology Center. These funds will be used to help establish an open but controlled-access national facility that can be used by industry, academia, and national laboratories in partnership with ORNL researchers to: (i) demonstrate scalability of LCCF technology; (ii) produce quantities of LCCF needed for material and process evaluations by original equipment manufacturers and their suppliers in multiple industries; and (iii) demonstrate low-cost, high volume PMC technology. Funding provided in this work authorization is not approved for obligation of any type of support service contract either as a prime or subcontract award. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to EERE.</p> <p>ARRA funding information:</p> <p>Fund: 05794, Appropriation: 89-09/10-0331, Allottee: 30 B&R Code/Program Value: EB3603000-1005301 Project Code: 2004140</p> <p>Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule or Milestones, Performance Outcomes and Measures and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of EERE laboratory appraisal process.</p>
