The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended. Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)
See Page 2. Net Increase: \$2,700,000.00

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) 970.5232-4 OBLIGATION OF FUNDS (DEC 2000), P.L. 111-5, and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return _____ 0 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

MANAGEMENT AND OPERATION OF THE OAK RIDGE NATIONAL LABORATORY
The administrative office (administrative contracting activity) for this award/modification is 00005. The administrative office (administrative contracting activity) code is needed by the contractor/recipient for reporting to FederalReporting.gov concerning awards made with funding from the American Recovery and Reinvestment Act of 2009 (ARRA or Recovery Act). Recovery TAS::89 0328::TAS

See Page 2.
FOB: Destination
Period of Performance: 04/01/2000 to 03/31/2015

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print)	16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) Mark A. Million
15B. CONTRACTOR/OFFEROR (Signature of person authorized to sign)	15C. DATE SIGNED

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification. The attached Financial Plan includes Office of Electricity Delivery and Energy Reliability (EDER) Work Authorization No. TD-470002-20803-10, Revision No. 1, for the project entitled “M&O Support - Technical Support”. This Work Authorization was initially included in the financial plan issued under contract modification 445 for Office of Energy Efficiency and Renewable Energy activities followed by a corrective adjustment in a financial plan included with contract modification 452,

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$2,700,000 to the contract. This action involves the obligation and reprogramming of Recovery Act funding involving EDER projects. The Work Authorizations for these projects are reflected in section C below.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” additional funds in the amount of \$2,700,000 are hereby obligated in support of Recovery Act activities. The total amount of funds obligated under this contract since its inception is increased from \$11,510,092,628.09 to \$11,512,792,628.09.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorizations (Attachment 1):

Work Authorization Number	Work Authorization Title
TD-470002-20800-10 (Revision No. 1) Agreement #20117	M&O Support - Analysis
TD-470002-20800-10 (Revision No. 2) Agreement #20117	M&O Support - Analysis
TD-470002-20803-10 (Revision No. 1) Agreement #21793	M&O Support – Technical Support
(Number from Block 8 of the Work Authorization)	

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.

- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.

- F. All other terms and conditions remain unchanged.

14. Statement of Work: <i>WCL</i>			
<p>Specific Recovery Act Statement of Work Carryover funding in the amount of \$12,000,000 is authorized for TD5011000-05846-3123742-Smart Grid Invest Prg (2009). These funds are made available for Project #20800 - M&O Support - Analysis. These funds are to be distributed to Agreement #20117 - ORNL Consumer Behavior Study and Cost/Benefit Analysis for Smart Grid Investment Grant Applications in accordance with AOP #999. The effort is to provide data management and analysis support for ARRA smart grid project activities, including conducting benefits estimation. The effort also includes reviewing and providing recommendations to award recipients' metrics and benefits plans, supporting the establishment of data and analysis requirements, performing analysis, and packaging and conveying results. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to OE.</p> <p>ARRA funding information: Fund: 05846, Appropriation: 89-09/10-0331, Allottee: 30 B&R Code/Program Value: TD5011000-3123742 Project Code: 2006000</p> <p>Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule of Milestones, Performance Outcomes and Measures and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of OE laboratory appraisal process.</p>			
15. Reporting Requirements (Status reports, scientific and technical information or similar):

SGIG Smart Grid Metrics and Benefits Analysis

Attachment A: Contractor Recovery Act Performance Requirements

Section A: Contractor Recovery Act Schedule or Milestone Requirements

- | | |
|---|-----------------------------|
| 1. Completion and DOE OE Acceptance of "Metrics and Benefits Data Reporting Plans" for selected SGIG projects (approximately 20) | 12/31/2010 |
| 2. Successful inputting of initial sets of build and impact metrics data for selected SGIG projects into the smartgrid.gov data hub | 9/30/2011 |
| 3. Completed analyses of metrics and benefits of the SGIG program, including (but not limited to): | 9/30/2015, or as determined |
| a) Estimates of ARRA SGIG impacts and benefits | by mutual |
| b) OE ARRA SGIG Performance Metrics | agreement of |
| c) Job creation and retention | the contractor |
| d) Other analyses as listed under Section B, Item 3 below | and DOE |

Section B: Contractor Recovery Act Performance Outcomes and Measures

1. Reviews and memoranda that provide critiques and recommendations for selected SGIG award recipients' Metrics and Benefits Reporting Plans (approximately 20); supported by Guidance Memoranda on data and analysis requirements, methods for estimating key build and impact metrics.
2. Support of data compilation and data submission activities for selected SGIG projects-- in terms of their providing quality-assured metrics and benefits data on their projects' performance to the smartgrid.gov web site
3. Results of analyses, and presentations and reports, on:
 - a) Impacts and benefits of ARRA projects
 - Interim estimates of the build, impacts and benefits of the SGIG program based in interim data provided by projects
 - Final estimates of the build, impacts and benefits of the SGIG program, following the benefits framework that defines a breakdown of benefits (i.e., economic, reliability, environmental, and different types of security benefits) -- along with identifying the different groups that benefit (i.e., utilities and others delivering electricity, consumers, and society at large)
 - b) Estimated and/or calculated OE ARRA Performance Metrics, e.g., --
 - Number of smart meters deployed.
 - Number of automated distribution circuits
 - The portion of transmission system visible with synchrophasor technology
 - % reduction in annual bill for consumers with smart meters, enabling technologies, and dynamic pricing
 - % reduction in peak demand from consumers with smart meters, enabling technologies, and dynamic pricing

- % decrease in annual operations and maintenance costs for distribution circuits with automated equipment
 - % average reduction in the length of power outages experienced by customers on distribution circuits with distribution automation
 - Reduction in geographic scope, frequency and duration of power outages caused by problems on the bulk power system (transmission system)
 - Annual reduction in wasted energy (line losses) in distribution circuits with advanced control technology (as measured in kilowatt hours) and associated reduction in emissions of CO₂, NO_x and SO_x
 - % reduction in emissions of CO₂, NO_x and SO_x associated with decreased electricity consumption and peak demand by customers with smart meters, enabling technologies, and dynamic pricing
- c) Job creation and retention – the numbers and types of jobs, and the types of Smart Grid projects and deployments that create and retain these jobs
 - d) Consumers' attitudes and concerns about smart metering and dynamic pricing, and recommendations on ways of addressing concerns
 - e) Lessons learned about enhancing market acceptance and use of distributed generation resources and renewable energy technologies, including plug-in vehicles
 - f) Projected benefits of SGIG projects after deployments are they are completed, and extrapolated estimates of nationwide build-out of Smart Grid systems
 - g) Findings on the types of Smart Grid deployments which are more effective under different circumstances, based on SGIG project data
 - h) Lessons learned with respect to issues, barriers and solutions to deploying Smart Grid technologies
 - i) Improving the bases for business-case calculations, which electric utilities perform to support their rate-request submissions to state regulators
 - Summarizing results and meta-analysis of the behavioral analyses on changes in consumer behavior, and the factors affecting those changes, in response to different types of smart meter technologies, information, and rates
 - Estimates of the benefits to consumers
 - j) Other SGIG program progress, findings and accomplishments

Section C: Contractor Recovery Act Deliverables

1. Technical memoranda evaluating and making recommendations for revisions (if needed) of selected SGIG projects' Metrics and Benefits Reporting Plans (approximately 20)
2. Input data sets on the first quarterly build metrics submission and the first semi-annual submission successfully uploaded onto smartgrid.gov
3. (a) Technical memoranda and reports on impacts and benefits of selected ARRA SGIG projects
 (b) Submission of OE ARRA SGIG Performance Metrics to OMB
 (c) Technical memoranda and reports on each of the analyses and studies listed under Section B, Item 3 above.

Abbreviations used in Attachment A	Meaning
ARRA:	American Recovery and Reinvestment Act of 2009
CO ₂ , NO _x and SO _x :	Carbon dioxide, nitrogen oxides and sulfur oxides
DOE:	U.S. Department of Energy
OE:	Office of Electricity Delivery and Energy Reliability
OMB:	Office of Management and Budget
SGIG:	Smart Grid Investment Grant (program funded by ARRA)

U.S. DEPARTMENT OF ENERGY CONTRACT WORK AUTHORIZATION			
1a. Solicitation/Project Title: M&O Support - Analysis		1b. Work Proposal Number (if applicable): AOP #999

 Smart Grid Investment Grant – Transmission Project Analyses

Attachment A: Contractor Recovery Act Performance Requirements

Section A: Contractor Recovery Act Schedule or Milestone Requirements

- | | |
|---|---|
| 1. Reviews and workshops, with NASPI, NERC and other national organizations on SGIG transmission projects | 12/31/2010 |
| 2. Annual on-site reviews of SGIG transmission projects | 9/30/2011 and 9/30/2010 |
| 3. Completed analyses of metrics and benefits of the SGIG transmission projects | 9/30/2011 and 9/30/2012, or as determined by mutual agreement of the contractor and DOE |

Section B: Contractor Recovery Act Performance Outcomes and Measures

1. Participation in reviews and workshops, and development of recommendations, on SGIG transmission projects
2. Participation in on-site reviews and submission of reports on project performance, metrics, and/or innovative technical advancements so that SGIG transmission project performance, findings and accomplishments are more widely communicated
3. Review and assessment of SGIG transmission project metrics, including (but not limited to):
 - a) Calculations of the portion of each project's transmission system that is visible with synchrophasor technology
 - b) Reduction in the geographic scope, frequency and duration of power outages caused by problems on the bulk power system (transmission system)

Section C: Contractor Recovery Act Deliverables

1. Technical memoranda summarizing and making recommendations on SGIG transmission projects
2. Technical memoranda and reports on SGIG transmission project performance
3. Report on transmission system "build" and "impact" metrics, as described in Section B, Item 3

Abbreviations used in Attachment A	Meaning

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (if required) Net Increase: \$30,569,553.39

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) 970.5232-4 OBLIGATION OF FUNDS (DEC 2000) and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return 0 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
Pursuant to the provisions of Clause I.153, the first sentence of paragraph (a) is hereby changed to read as follows: The amount presently obligated by the Government with respect to this contract is \$11,543,362,181.48. This represents an increase of \$30,569,553.39, from \$11,512,792,628.09 to \$11,543,362,181.48.

Included in this obligation are Non-Appropriated Funds (NAF) in the amount of \$6,800,415.74. Cumulative obligations of NAF since Modification 234 are \$122,942,012.43.

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$119,425 to the contract for an Office of Energy Efficiency and Renewable Energy (EERE) project entitled “EECBG ARRA Formula Grants Technical Assistance”.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” additional funds in the amount of \$119,425 are hereby obligated in support of Recovery Act activities. The total amount of funds obligated under this contract since its inception is increased from \$11,572,003,747.13 to \$11,572,123,172.13.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorization (Attachment 1):

Work Authorization Number	Work Authorization Title
WI-470002-20458-10 (Revision No. 6) Agreement #22885 (Number from Block 8 of the Work Authorization)	EECBG ARRA Formula Grants Technical Assistance

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

Carryover funding in the amount of \$119,425 is authorized for WI1001020-05796-1005116-EECBG Form Grants TA (2009). These funds are made available for Project #20458 - EECBG ARRA Formula Grants Technical Assistance . These funds are to be distributed to Agreement #22885 - FY 10 ORNL EECBG Quality Assurance Program ARRA in accordance with FWP #ORNL EECBG. ORNL will administer an Energy Efficiency Community Block Grants Program quality assurance program to assure successful application of EECBG grants by having quality controls in place to ensure safe installation and construction practices by grantees. This task piggybacks on the ORNL contractor work that is currently being carried out under the national Weatherization Assistance Program Quality Assurance Plan. The objectives of the Plan are to: 1) To provide an oversight system to ensure the appropriateness of services, quality workmanship, materials, and compliance with relevant regulations and EECBG programs and other program requirements; 2) To assure that grantees use appropriate plans, procedural controls (including quality control protocols), and processes; 3) To ensure consistent application of program standards nationwide; 4) To encourage and enhance best management practices; 5) To provide clear and transparent guidelines for program, grantee, and sub-grantee management, monitoring, and communications.			
Funding provided in this work authorization is not approved for obligation of any type of support service contract either as a prime or subcontract award. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to EERE.

Attachment A - Contractor Recovery Act Performance Requirements

Section A: Contractor Recovery Act Schedule or Milestone Requirements:

1) Develop oversight system to ensure the appropriateness of services, quality workmanship, materials, and compliance with relevant regulations and EECBG programs and other program requirements; 2) Select contractors to review grantees work to assure use of appropriate plans, procedural controls (including quality control protocols), and processes; 3) Review contractors work to ensure grantees consistent application of program standards nationwide; 4) Assist contractors in encouraging and enhancing best management practices; 5) Ensure contractors provide grantees clear and transparent guidelines for program, grantee, and sub-grantee management, monitoring, and communications.

Section B: Contractor Recovery Act Performance Outcomes and Measures:

Development and application of an oversight system to ensure the appropriateness of services, quality workmanship, materials, and compliance with relevant regulations and EECBG programs and other program requirements

Section C: Contractor Recovery Act Deliverables:

Monthly Reports from contractos that demonstrate that grantees are using appropriate plans, procedural controls (including quality control protocols), and processes that result in ensure consistent application of program standards nationwide, and encourage and enhance best management practices.

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended. Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing items 8 and 15, and returning copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

Net Decrease:

-\$9,563.58

See Page 2.

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

Table with 2 columns: CHECK ONE, and options A, B, C, D for modification types. Option D is selected with 'X'.

E. IMPORTANT: Contractor is not, is required to sign this document and return 0 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

MANAGEMENT AND OPERATION OF THE OAK RIDGE NATIONAL LABORATORY

The administrative office (administrative contracting activity) for this award/modification is 00005. The administrative office (administrative contracting activity) code is needed by the contractor/recipient for reporting to FederalReporting.gov concerning awards made with funding from the American Recovery and Reinvestment Act of 2009 (ARRA or Recovery Act). Recovery TAS::89 0240::TAS

See Page 2.

FOB: Destination

Period of Performance: 04/01/2000 to 03/31/2015

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 1 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to de-obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds from the Dover Air Force Base sponsored projects listed in Section C below.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” funds in the amount of \$9,563.58 are hereby de-obligated from the Recovery Act activities identified in section C below. The total amount of funds obligated under this contract since its inception is decreased from \$11,572,123,172.13 to \$11,572,113,608.55.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the eWFO system under the Project Numbers listed in the table below.

eWFO Project Number	Project Title
2237-V055-09 (Version No. 0005) De-obligate: \$3,881.16	Decentralization of Facilities from Central Heat Plant, Phase 2 West of Atlantic Ave. at Dover Air Force Base
2237-V057-09 (Version No. 0005) De-obligate: \$5,682.42	Decentralization of Facilities from Central Heat Plant, Phase 2 East of Atlantic Ave. at Dover Air Force Base
(Numbers from Block 5 of the MIPR)	

- D. All other terms and conditions remain unchanged.

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 1 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to reflect the reprogramming of \$3,000 of American Recovery and Reinvestment Act (Recovery Act) of 2009 funds (from operating to capital) under the project entitled “Recovery Act Bioenergy Research Centers Capital Equipment: BioEnergy Science Center (Project Code 2005095)”.
- B. The total amount of funds obligated under this contract since its inception is unchanged and remains at \$11,590,269,279.64.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorization:

Work Authorization Number	Work Authorization Title
(Number from Block 8 of the Work Authorization)	WA No. KP/OR41/9/ARRA-1 (See Modification 244) Recovery Act Bioenergy Research Centers Capital Equipment: BioEnergy Science Center (Project Code 2005095)

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work identified in this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

Mr. Quinn Windham, Director
Prime Contract Administration
UT-Battelle, LLC
P.O. Box 2008
Oak Ridge, TN 37831-6262

Dear Mr. Windham:

CONTRACT NO. DE-AC05-00OR22725: MODIFICATION NO. 472

A fully executed copy of the subject contract modification is enclosed for your retention. This modification includes the revised Appendix E of the contract by incorporating Requirement Change Notice No. OR-42.

If you have any questions regarding this modification, please contact me at 576-4523.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Million".

Mark A. Million
Contracting Officer

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE
A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
D. OTHER (Specify type of modification and authority)
X 970.5204-2 LAWS, REGULATIONS AND DOE DIRECTIVES (DEC 2000) and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return 2 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

The purpose of this modification is to revise Appendix E by incorporating Requirement Change Notice No. OR-42 attached hereto. Requirement Change Notice No. OR-42 includes those directive which have been accepted through August 31, 2010.

Period of Performance: 04/01/2000 to 03/31/2015

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended.
 Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required) Net Increase: \$156,282,562.49

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
	D. OTHER (Specify type of modification and authority)
X	970.5232-4 OBLIGATION OF FUNDS (DEC 2000) and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
 Pursuant to the provisions of Clause I.153, the first sentence of paragraph (a) is hereby changed to read as follows: The amount presently obligated by the Government with respect to this contract is \$11,746,551,842.13. This represents an increase of \$156,282,562.49, from \$11,590,269,279.64 to \$11,746,551,842.13.

Included in this obligation are Non-Appropriated Funds (NAF) in the amount of \$2,565,338.49. Cumulative obligations of NAF since Modification 234 are \$128,432,425.60.

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended.
 Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)	Net Increase:	\$698,543.69
---	---------------	--------------

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) 970.5232-4 OBLIGATION OF FUNDS (DEC 2000) and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
 Pursuant to the provisions of Clause I.153, the first sentence of paragraph (a) is hereby changed to read as follows: The amount presently obligated by the Government with respect to this contract is \$11,748,327,672.88. This represents an increase of \$698,543.69, from \$11,747,629,129.19 to \$11,748,327,672.88.

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 1 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to reflect the reprogramming of \$9,662.55 of American Recovery and Reinvestment Act (Recovery Act) of 2009 funds (from operating to capital) under the project entitled “Recovery Act Bioenergy Research Centers Capital Equipment: BioEnergy Science Center (Project Code 2005095)” and the reprogramming of \$77.02 of Recovery Act funds (from capital to operating) under the project entitled “Knowledgebase R&D (Project Code 2005115)”.
- B. The total amount of funds obligated under this contract since its inception is unchanged and remains at \$11,748,327,672.88.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorization:

Work Authorization Number	Work Authorization Title
WA No. KP/OR41/9/ARRA-1 (See Modification 244)	Recovery Act Bioenergy Research Centers Capital Equipment: BioEnergy Science Center (Project Code 2005095)
WA No. KP/OR41/9/ARRA-2 (See Modification 244)	Knowledgebase R&D (Project Code 2005115)
(Number from Block 8 of the Work Authorization)	

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work identified in this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to reflect the reallocation of \$1,343,921 of American Recovery and Reinvestment Act (Recovery Act) of 2009 funds from Agreement No. 22655 to Agreement No. 19423 in accordance with Attachment 1 (Agreement Fund Transfer) to this modification.
- B. The total amount of funds obligated under this contract since its inception is unchanged and remains at \$11,748,327,672.88.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorization:

Work Authorization Number	Work Authorization Title
WA No. WI-470002-20458-10 (See Modification 452)	EECBG ARRA Formula Grants Technical Assistance (Project Code 2004350)
WA No. WI-470002-20458-09 (See Modification 365)	EECBG ARRA Formula Grants Technical Assistance (Project Code 2004350)
(Number from Block 8 of the Work Authorization)	

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work identified in this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

E. IMPORTANT: Contractor is not, is required to sign this document and return 2 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

The purpose of this modification is to replace Appendix B of Section J with the attached revised list of key personnel. The revised list reflects the elimination of the Energy and Engineering Sciences Directorate, the Biological and Environmental Sciences Directorate, and the Nuclear Operations Directorate. The functions performed in these three directorates are being consolidated into the Nuclear Science and Engineering Directorate (NSED) and the Energy and Environmental Sciences Directorate (EESD). The Associate Laboratory Directors for NSED and EESD will be Kelly Beierschmitt and Martin Keller, respectively.

Period of Performance: 04/01/2000 to 03/31/2015

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to obligate American Recovery and Reinvestment Act (Recovery Act) of 2009 funds in the amount of \$1,000,000 to the contract for an Office of Energy Efficiency and Renewable Energy (EERE) project entitled “EERE Recovery Act Bridge Program Direction (Management and Oversight)”.
- B. Accordingly, pursuant to Section I Contract Clause – DEAR 970.5232-4 entitled “Obligation of Funds,” additional funds in the amount of \$1,000,000 are hereby obligated in support of Recovery Act activities. The total amount of funds obligated under this contract since its inception is increased from \$11,769,510,071.65 to \$11,770,510,071.65.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorization (Attachment 1):

Work Authorization Number	Work Authorization Title
470002-21280-11 (Revision No. 1) Agreement #23599 (Number from Block 8 of the Work Authorization)	EERE Recovery Act Bridge Program Direction (Management and Oversight)

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work funded by this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

FED 11-12164 DEC

MEMORANDUM FOR: Johnny O. Moore, Assistant Manager for Laboratories/ORNL Site Manager

SUBJECT: FY 2011 EE Bridge Recovery Program Approved Funding for Oak Ridge National Laboratory (ORNL)

In accordance with the approved EERE EE Bridge Recovery Program FY 2011 spend plan, budget authority of \$1,000,000 is authorized for obligation and expenditure in accordance with program guidance as indicated below. Any required changes must be approved in writing by the appropriate headquarters program manager with a copy to the EERE HQ budget execution staff. Field transfers must be coordinated through the Corporate Planning System (CPS). The laboratory receiving the funds authorized in this letter will be responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level, and the data must be made available to EERE.

PROGRAM GUIDANCE:

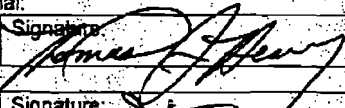

Program Activity & Key Activity	B&R Code-Fund Value-Program Code	BA(\$)
Recovery Act EE Bridge	BR0100000-06500-1005560 (2009)	\$1,000,000 ✓

Carryover funding in the amount of \$1,000,000 is authorized for BR0100000-06500-1005560-EE Bridge Recovery (2009). These funds are made available for CPS Project #21280 - *EERE Recovery Act Bridge Program Direction (Management and Oversight)*. These funds are to be distributed to CPS Agreement #23599 - ORNL ARRA Bridge Program. ARRA Project Code is 2007000. Funding for technical assistance to the EERE Recovery Act Energy Star Appliance Rebate Program and Energy Star Program, and to provide support for the continued development and application of activities related to the Energy Star Appliance Rebate Program. The headquarters technical point of contact is Lani MacRae who can be reached on (202) 586-9193. The field point of contact is Mary Rawlins who can be reached on (423) 576-4507.

Should you have any questions regarding budget matters, please contact Thomas Heavey who can be reached on (202) 586-4501.

Funds Obligated for Recovery Act Projects:

There are no additional funds obligated or financial plan changes required for this modification since all tasks are funded within the same American Recovery and Reinvestment Act (Recovery Act) of 2009 project.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to reflect the reprogramming of \$283,000 of Recovery Act funds under the Office of Energy Efficiency and Renewable Energy (EERE) project entitled “BTP4-2004080-National Accounts Acceleration in Support of the Commercial Buildings Initiative”.
- B. The total amount of funds obligated under this contract since its inception is unchanged and remains at \$11,898,961,302.90.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorization (Attachment 1):

Work Authorization Number	Work Authorization Title
WA No. BT-470002-20743-10 (Rev. 1)	BTP4-2004080-National Accounts Acceleration in Support of the Commercial Buildings Initiative
(Number from Block 8 of the Work Authorization)	

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work identified in this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

6. Responsible Field Organization: Oak Ridge Operations Office		
7a. Site and Facility Management Contractor University of Tennessee - Battelle (Oak Ridge National Laboratory)		7b. Contractor Point of Contact. Name: Patrick J. Hughes Telephone No.: (865) 574-9337
8. Work Authorization Number: BT-470002-20743-10		9. Revision Number: 1 WCL
10. Funds Authorized (\$ in thousands). B&R Code: BT0201000-05794-1004211 Previous: \$0 ^{WCL} \$500,000 Change: \$500,000 ^{\$0} _{WCL} Current: \$500,000		
11. Performance Period Covered by Funds. From: 10/1/2009 To: 2/30/2013	12. Work Start Date: 10/1/2009	13. Expected Completion Date: 2/30/2013
14. Statement of Work: This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009, (Pub. L. 111-5) (Recovery Act). All contract terms and conditions apply to the work identified herein, in particular contract provision H.- <u>50</u> applies. The work described in this work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act and as such is subject to special statutory conditions. MAN <u>Specific Recovery Act Statement of Work:</u> Carryover funding in the amount of \$500,000 is authorized for Commercial Research & Development. These funds are made available for Project # 20743 - BTP4 - 2004080 - National Accounts Acceleration in Support of the Commercial Buildings Initiative. These funds are to be distributed to Agreement # 20429 - ORNL - Construction Automation - Analytics and Road-Mapping/ Low Cost Wireless Sensor Networks for Efficient Building Energy Management in accordance with Project Code 2004080 - National Accounts Acceleration in Support of the Commercial Buildings Initiative. The objective of this project is to provide a thorough review and benefit analysis of emerging construction automation approaches to determine their business case and evaluate their potential for market adoption and avenues for further development. The buildings envelope construction process accounts for the greatest share of the disparity between predicted and as-built performance of commercial buildings. This objective will be accomplished through two major tasks: 1) Analytics, benefits and business case evaluation, 2) Technology road map. Additionally, The goal of the DOE BTP is to maximize the cost-effective energy efficiency of commercial buildings. More importantly, the ability to improve existing building stocks with easily retrofitted sensors and controls will also result in dramatic energy efficiency improvements. Buildings need to be designed, built, operated, and maintained as an integrated system to achieve more energy efficient performance. To accomplish these goals, buildings should rely on sensors and controls to optimize and sustain performance. This effort will enable buildings to adapt energy usage profiles based upon mission context (e.g., occupancy, environmental conditions, equipment condition monitoring, etc). The team will conduct a demonstration		

Note: Only \$283,000 of the original \$500,000 is available under this Reprogramming Action.

10-9029-RA

Mark C. Mellon 12/14/10

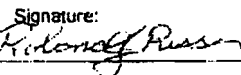

at one or more commercial buildings, producing verifiable energy savings. Funding provided in this work authorization is not approved for obligation of any type of support service contract either as a prime or subcontract award. The laboratory recipient of the funds is responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to EERE.

15. Reporting Requirements (Status reports, scientific and technical information or similar):

The recipient of funding in this Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act of 2009.

16. Work Authorization Program Official.

Date: 12/14/10

10-9029-RA

ATTACHMENT A – CONTRACTOR RECOVERY ACT PERFORMANCE REQUIREMENTS

Section A : Contractor Recovery Act Schedule or Milestone Requirements

- Complete initial taxonomy of benefits documented for construction automation in a summary briefing presentation (June 30, 2010 or 6 months from contract award).
- Milestone (2/2011): Integrated SuperMote demonstrated in lab test bed..
- Milestone (3/2011): Bench-test demonstration of PNNL and ANL+SAIC HVAC sensor mote version 1 working in consort with ORNL developed SuperMotes. This bench-test demonstration will show the integrated system including prototypes of all components
- Milestone (5/2011): Four or more SuperMotes fabricated, tested and ready for building deployment.
- Milestone (5/2011): Initiate Study Group on Commercial Building sensors within ISA100 (the standard for industrial wireless). Engage building automation companies.
- Milestone (6/2011): Prototype wireless sensor system installed in test building and ready for DOE demonstration

Section B: Contractor Recovery Act Performance Outcomes and Measures

- All project documents/reports free of technical, grammatical and delivery errors
- Milestone completed with schedule dates
- Ensure briefings, webinars and reports provide qualitative documentation of benefits

Section C: Contractor Recovery Act Deliverables

- Deliverable (12/2010): Draft conceptual design and functional specification for SensorMote and SuperMote. Deliver architecture and inside-the-mesh data protocol.
- Deliverable (12/2010): Establish radio technology for sensor-side and system-side of SuperMote.
- Deliverable (4/2011): Conduct webinar for DOE on system design and performance characteristics.
- Deliverable (7/2011): Presentation of project findings at ACEEE conference.
- Deliverable (8/2011): PowerPoint file and EERE (Save Energy Now) broadcast webinar presentation on project findings and implications for commercial buildings.

**BUILDING TECHNOLOGIES PROGRAM
 FISCAL YEAR 2011 ANNUAL OPERATING PLAN**

Statement of Work

Date: November 4, 2010

Project Title: Low Cost Wireless Sensor Networks for Efficient Building Energy Management

Performer: Oak Ridge National Laboratory (ORNL)

Performer Project Manager/Principal Investigator:

Project Manager - Tim McIntyre

Principal Investigators - Teja Kuruganti, Peter Fuhr

Performer Management Point of Contact: Patrick Hughes

HQ Technology Development Manager (TDM): Alan Schroeder

B&R Code/Program Element: BT0201

Performer Project Funding

ORNL will contribute technical expertise and real world experience to the formulation of a sensors, controls and communications architecture (SC&CA) to accelerate cost effective energy efficiency solutions for the commercial buildings sector. The SC&CA will promote deployment of easy to retrofit, open architecture, low power, self organizing sensor networks that enable controls and energy management. This effort will also provide demonstrations with verifiable energy savings for the Office of Buildings Technology. Coordinated by Argonne National Laboratory (ANL), and in cooperation with Pacific Northwest National Laboratory (PNNL) and the School of the Art Institute of Chicago (SAIC), ORNL will contribute to the development of energy significant and cyber secure device designs and network architectures that can be ready leveraged by industry.

Justification for FFRDC Involvement

The development of a low-cost, small form factor, integrated, wireless, multi-sensor network is a highly multi-disciplinary endeavor. ORNL has demonstrated its ability to propel the sensors and controls marketplace when revolutionary solutions cannot be provided by private industry alone due to the depth and breadth of knowledge required to quickly and effectively overcome technical and economic constraints.

Summary of Project

The proposed effort will demonstrate the feasibility and path to commercialization of low cost, wireless, multi-sensor networks for efficient building energy management. Building upon and enabling the integration of sensor motes (temperature, humidity and light level) developed by PNNL, ANL and SAIC, ORNL will create a sensor network architecture that includes design of a super-mote network coordinator module, a mesh networking schema that maximizes network resiliency and cyber security, data acquisition routines and associated software and a building energy management system automation interface. The super-mote will serve as a universal communications gateway, supporting the integration of the sensor motes as well as providing a bridge to legacy systems. Additionally, the super-mote will also provide a platform for the integration of additional sensor and diagnostic capabilities such as CO₂, electrical current signatures, air flow, damper position, etc.

Project Context and Relevance to BTP

The goal of the DOE BTP is to maximize the cost-effective energy efficiency of commercial buildings. More importantly, the ability to improve existing building stocks with easily retrofitted sensors and controls will also result in dramatic energy efficiency improvements. Buildings need to be designed, built, operated, and maintained as an integrated system to achieve more energy efficient performance. To

accomplish these goals, buildings should rely on sensors and controls to optimize and sustain performance.

Technical Approach

This effort will enable buildings to adapt energy usage profiles based upon mission context (e.g., occupancy, environmental conditions, equipment condition monitoring, etc). The team will conduct a demonstration at one or more commercial buildings, producing verifiable energy savings. The general role of ORNL, PNNL, and ANL+SAIC are diagrammed in Figure 1. In this context, the wireless commercial building sensors will rely on a mesh network topology and associated communication protocol for battery-operated, easy to deploy edge sensors.

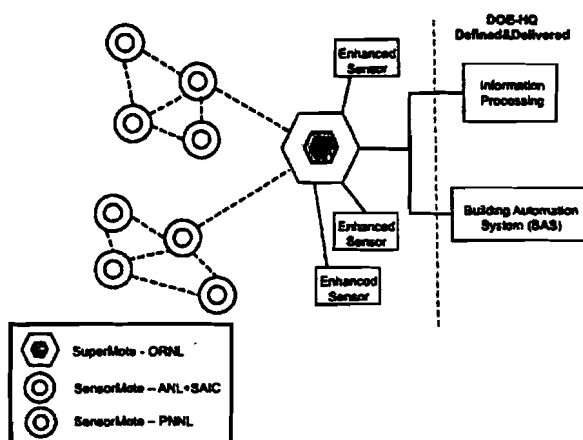

Figure 1. Building technology system architecture utilizes components/devices provided by ORNL, PNNL, and ANL + SAIC.

ORNL Project Goals: Design the network architecture for the SensorMotes and SuperMotes (of Figure 1). Determine the correct radio technology (Figure 2) for the sensor-side and system-side of the SuperMote (gateway) device. Perform a technical assessment of the 40+ “available” mesh networking algorithms to determine the optimum solution for the motes. Design, develop and deploy a building automation wireless sensors and controls module (super-mote). Oversee the radio transceiver designs for the project’s wireless sensor modules.

Figure 2. There are a number of standards-based radio technologies that could be used for the sensor-side wireless transport of SensorMote information.

Develop the “inside-the-mesh” data protocol, see Figure 3, as well as determine the optimal networking algorithm for the building automation environment. Explore feasibility of enhanced sensor suite (e.g. CO₂, electrical current signatures, air flow, damper position, VOCs, etc.).

Figure 3. The “inside-the-mesh” data protocol will rely on a virtual container structure. In this Figure, the possible structure for an 802.15.4-based transport is shown.

Tasks:

Task 1: Design the super-mote and system interface module core components to optimize wireless sensor module communications within a building control system.

Task 2: Coordinate the logical integration of the super-mote output data stream into a DOE-HQ defined building automation visualization tool.

Task 3: Oversee the integration of sensor modules developed at PNNL, ANL and SAIC with the ORNL-developed super-mote..

Task 4: Create conceptual design for 1 or more sensor enhancements to super-mote.

Task 5: Participate with other Project labs in the deployment of the developed system into a building (location to be determined) with a live-demonstration in June 2011..

Deliverables and Milestones

FY2011 Deliverable and Milestones

Deliverable (12/2010): Draft conceptual design and functional specification for SensorMote and SuperMote sensor mote. Deliver architecture and inside-the-mesh data protocol to ANL and PNNL.

Deliverable (12/2010): Establish radio technology for sensor-side and system-side of SuperMote. This will allow PNNL and ANL to then know what radio platform their SensorMotes are to be based on.

Milestone (2/2011): Integration of enhanced sensor into SuperMote.

Milestone (3/2011): Bench-test demonstration of PNNL and ANL+SAIC HVAC sensor mote version 1 working in consort with ORNL developed SuperMotes. This bench-test demonstration, conducted at ORNL, will show the integrated system including prototypes of all components

Milestone (4/2011): Conduct webinar for DOE on system design and performance characteristics.

Milestone (5/2011): At least four SuperMotes will be fabricated and ready for building deployment.

Milestone (5/2011): Initiate Study Group on Commercial Building sensors within ISA100 (the standard for industrial wireless). Engage building automation companies.

Milestone (6/2011): Prototype wireless sensor system installed in test building and ready for DOE demonstration

Deliverable (7/2011): Presentation of project findings at ACEEE conference.

Deliverable (8/2011): PowerPoint file and EERE (Save Energy Now) broadcast webinar presentation on project findings and implications for commercial buildings.

Post-FY2011 Deliverables and Milestones

Milestone (10/2011): Building field test completed

Milestone (10/2011): ISA100.SG xx (Building Automation) meeting at ISA100 Annual Meeting (Houston).

Deliverable (01/2012): Draft report on building field test and results for building automation system

Deliverable (3/2012): Reference design document for all aspects of system.

Deliverable (4/2012): Software/firmware code released to ISA100.SGxx (ensures distribution to worldwide community).

Milestone (6/2012): 20 reference SuperMotes fabricated and ready for deployment in operational building

Milestone (9/2012): HVAC sensor network installed on HVAC units on a test building rooftop (e.g., building of a member of one of the Commercial Building Energy Alliances) with no less than ten packaged units for purposes of testing

U.S. Department of Energy

Energy Efficiency and Renewable Energy

*Bringing you a prosperous future where energy is
clean, abundant, reliable, and affordable*

Milestone (12/2012): Successful completion of field testing of enhanced wireless sensor network on rooftop units

Deliverable (2/2013): Draft report on field testing of wireless HVAC sensor network on rooftop units

International Travel

None planned.

I certify that the funds stated herein are available for obligation and the work scope is consistent with the intent of Congress.

David J. Smith
David J. Smith
Lead Budget Analyst, EE-3B

FED 10-9029-RA DEC

MEMORANDUM FOR: Johnny O. Moore, Assistant Manager for Laboratories/ORNL Site Manager

SUBJECT: FY 2010 Buildings Technologies Program Approved Funding for Oak Ridge National Laboratory (ORNL) – ARRA Project Code: 2004080

In accordance with the approved EERE Buildings Technologies Program FY 2010 spend plan, budget authority of \$500,000 in operating expenses is authorized for obligation and expenditure in accordance with program guidance as indicated below. Any required changes must be approved in writing by the appropriate headquarters program manager with a copy to the EERE HQ budget execution staff. Field transfers must be coordinated through the Corporate Planning System (CPS). Funding authorized in this letter is not approved for support service contracts; either as a prime or subcontract award. The laboratory receiving the funds authorized in this letter will be responsible for reporting all funding obligations and costs to headquarters. The laboratory recipient must maintain obligations and cost data at the agreement level and the data must be made available to EERE.

PROGRAM GUIDANCE

<u>Program Activity & Key Activity</u>	<u>B&R and Program Codes</u>	<u>BA(\$)</u>	<u>Fund Value</u>
Buildings Technologies Program Commercial Research & Development	BT0201000-05794- 1004211	\$500,000	05794

Carryover funding in the amount of \$500,000 is authorized for Commercial Research & Development. These funds are made available for Project # 20743 - BTP4 – 2004080 - *National Accounts Acceleration in Support of the Commercial Buildings Initiative*. These funds are to be distributed to Agreement # 20429 - ORNL - Construction Automation – Analytics and Road-Mapping in accordance with Project Code 2004080. The objective of this project is to provide a thorough review and benefit analysis of emerging construction automation approaches to determine their business case and evaluate their potential for market adoption and avenues for further development. The buildings envelope construction process accounts for the greatest share of the disparity between predicted and as-built performance of commercial buildings. This objective will be accomplished through two major tasks: 1) Analytics, benefits and business case evaluation, 2) Technology road map. The headquarters technical point of contact is Drury Crawley who can be reached on (202) 586-2344. The field point of contact is Patrick J. Hughes who can be reached on (865) 574-9337.

Should you have any questions regarding budget matters, please contact Sheila Traynham who can be reached on (202) 586-9487.

Funds Obligated for Recovery Act Projects:

There are no additional funds obligated or financial plan changes required for this modification since all tasks are funded within the same American Recovery and Reinvestment Act (Recovery Act) of 2009 project.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to reflect the reprogramming of Recovery Act funds involving multiple tasks under the Basic Energy Sciences project entitled “Nanoscale Science Research Centers (Project Code 2005040)”.
- B. The total amount of funds obligated under this contract since its inception is unchanged and remains at \$11,960,499,758.83.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorization (Attachment 1):

Work Authorization Number	Work Authorization Title
WA No. KC/OR41/9/ARRA-1 (Rev. 02) (Number from Block 8 of the Work Authorization)	Nanoscale Science Research Centers (Project Code 2005040)

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work identified in this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

Attachment A – Contractor Recovery Act Performance Requirements
Nanoscale Science Research Centers – Recovery Act Project # 2005040

Section A: Contractor Recovery Act Schedule or Milestone Requirements

- Milestone 1: FY 09 – end of 4th quarter
- Milestone 2: FY 10 – end of 1st quarter
- Milestone 3: FY 10 – end of 2nd quarter
- Milestone 4: FY 10 – end of 3rd quarter
- Milestone 5: FY 11 – end of 2nd quarter (6 Instruments)
- Milestone 6: FY 12 – end of 2nd quarter (2 Instruments)

Section B: Contractor Recovery Act Performance Outcomes and Measures

- Measure for Milestone 1: All instrument specifications completed, reviewed, and submitted to procurement organization.
- Measure for Milestone 2: One or more instrument orders awarded to vendor(s)
- Measure for Milestone 3: All instrument orders awarded to vendors.
- Measure for Milestone 4: One or more instruments received and available for use.
- Measure for Milestone 5: 6 instruments received and available for use.
- Measure for Milestone 6: 2 instruments received and available for use.

Section C: Contractor Recovery Act Deliverables

Quarterly progress reports from the contractor indicate procurement of instruments is proceeding as planned.

**ATTACHMENT A – CONTRACTOR RECOVERY ACT PERFORMANCE REQUIREMENTS
R&D on Alternative Isotope Production Techniques (2005280)**

Section A: Contractor Recovery Act Schedule or Milestone Requirements

1Q FY10

- Initiate research and development for all awards under Isotope Production and Development for Research and Applications (FWP #s ERST001, ERST004, and ERST005).

2Q FY10

- Report on first quarter progress due.

Progress reports are due each quarter through project completion.

Section B: Contractor Recovery Act Performance Outcomes and Measures

- Perform research and development according to proposals, consistent with approved budgets.

Federal Program Director will verify research and development performance through quarterly progress reports, and conference calls as needed.

Section C: Contractor Recovery Act Deliverables

- Quarterly progress reports on the activities conducted for each research and development project.
- Final report on each research and development project (FWP #s ERST001, ERST004, and ERST005).

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT		1. CONTRACT ID CODE	PAGE OF PAGES 1 1
2. AMENDMENT/MODIFICATION NO. 508	3. EFFECTIVE DATE See Block 16C	4. REQUISITION/PURCHASE REQ. NO. 11SC002373	5. PROJECT NO. (If applicable)
6. ISSUED BY Oak Ridge U.S. Department of Energy P.O. Box 2001 Oak Ridge TN 37831	CODE 00518	7. ADMINISTERED BY (If other than Item 6) Oak Ridge U.S. Department of Energy P.O. Box 2001 Oak Ridge TN 37831	CODE 00518
8. NAME AND ADDRESS OF CONTRACTOR (No., street, county, State and ZIP Code) UT-BATTELLE, LLC Attn: Quinn Windham, Director Prime Contract Administration Post Office Box 2008 OAK RIDGE TN 37831-6231		(x) 9A. AMENDMENT OF SOLICITATION NO.	9B. DATED (SEE ITEM 11)
CODE 099114287	FACILITY CODE	x 10A. MODIFICATION OF CONTRACT/ORDER NO. DE-AC05-000R22725	10B. DATED (SEE ITEM 13) 10/18/1999

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended. Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required) Net Increase: \$45,154,454.95

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) 970.5232-4 OBLIGATION OF FUNDS (DEC 2000) and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return 0 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

Pursuant to the provisions of Clause I.153, the first sentence of paragraph (a) is hereby changed to read as follows: The amount presently obligated by the Government with respect to this contract is \$12,005,654,213.78. This represents an increase of \$45,154,454.95, from \$11,960,499,758.83 to \$12,005,654,213.78.

Included in this obligation are Non-Appropriated Funds (NAF) in the amount of \$6,505,115.10. Cumulative obligations of NAF since Modification 234 are \$154,510,496.81.

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required) Net Decrease: -\$389.47

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

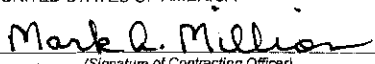

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) 970.5232-4 OBLIGATION OF FUNDS (DEC 2000) and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return 1 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
Pursuant to the provisions of Clause I.153, the first sentence of paragraph (a) is hereby changed to read as follows: The amount presently obligated by the Government with respect to this contract is \$12,009,479,271.63. This represents a decrease of \$389.47, from \$12,009,479,661.10 to \$12,009,479,271.63.

FOB: Destination
Period of Performance: 04/01/2000 to 03/31/2015

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

FOB: Destination

Period of Performance: 04/01/2000 to 03/31/2015

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print) J: Scott Branham Chief Financial Officer		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) Mark A. Million	
15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED 4-7-11	16B. UNITED STATES OF AMERICA 	16C. DATE SIGNED 4/7/2011

The purpose of this modification is to amend the contract as follows: 1) replace contract clause H-40, Advance Understandings Regarding Additional Item of Allowable Costs, with new clause entitled "Advance Understandings Regarding Additional Items of Allowable Costs" to include the allowance of certain training and education costs for researchers and students who are not employed under the contract, and 2) replace Appendix G, Performance Evaluation and Measurement Plan, for FY 2010 in Section J of the contract with the Performance Evaluation and Measurement Plan for FY 2011.

All other terms and conditions other than those specified in this modification remain unchanged.

Therefore, the contract is modified as follows:

- 1) Clause H-40, Advance Understandings Regarding Additional Item of Allowable Costs, is deleted in its entirety and replaced with the following:

"H-40 Advance Understandings Regarding Additional Items of Allowable Costs

- (a) Imputed interest costs relating to leases classified and accounted for as capital leases under generally accepted accounting principles (GAAP) are allowable, provided that the decision to enter into a capital leasing arrangement has been specifically authorized and approved in writing by the DOE Contracting Officer in accordance with applicable procedures and such interest costs are recorded in an appropriately specified DOE account established for such purpose.
- (b) Training and Education costs described in subparagraphs (b)(1) and (b)(2) below that the Contractor incurs in complying with the requirements of paragraph C-4 (d), Mission-Related Partnerships, of the contract will not be unallowable due solely to non-compliance with the FAR cost principle at FAR 31.205-44 titled "Training and education costs." In order to be allowable, however, such Training and Education costs must comply with all other contract terms and conditions, including reasonableness, allocability, and the limitations of FAR Subpart 31.2.
 - (1) Notwithstanding the provisions of FAR cost principle 31.205-44(e), stipends and payments made to reimburse travel or other expenses of researchers and students who are not employed under this contract but are participating in research, educational or training activities under this contract to the extent such costs are incurred in connection with fellowship, international agreements, or other research, educational or training programs approved by the Contracting Officer.
 - (2) Notwithstanding the provisions of FAR cost principle 31.205-44(e), payments to educational institutions for tuition and fees, or institutional allowances, in connection with fellowship or other research, educational or training programs

approved by the Contracting Officer for researchers and students who are not employed under this contract.”

- 2) Appendix G, “FY 2010 UT-Battelle Performance Evaluation and Measurement Plan” dated September 2009, of Section J is deleted and replaced with the attached “FY 2011 UT-Battelle Performance Evaluation and Measurement Plan” dated September 2010.

INTRODUCTION

This document, the Performance Evaluation and Measurement Plan (PEMP), primarily serves as DOE's Quality Assurance/Surveillance Plan (QASP) for the evaluation of UT-Battelle, LLC (hereafter referred to as "the Contractor") performance regarding the management and operations of the Oak Ridge National Laboratory (hereafter referred to as "the Laboratory") for the evaluation period from October 1, 2010, through September 30, 2011. The performance evaluation provides a standard by which to determine whether the Contractor is managerially and operationally in control of the Laboratory and is meeting the mission requirement and performance expectations/objectives of the Department as stipulated within this contract.

This document also describes the distribution of the total available performance-based fee and the methodology for determining the amount of fee earned by the Contractor as stipulated within the clauses entitled, "Conditional Payment of Fee, Profit, and Other Incentives – Facility Management Contracts" and "Total Available Fee: Base Fee Amount and Performance Fee Amount." The Total Available FY 2011 Fee is \$11,200,000 (Base Fee: \$0, Performance Fee: \$11,200,000). In partnership with the Contractor and other key customers, the Department of Energy (DOE) Headquarters (HQ) and the Site Office have defined the measurement basis that serves as the Contractor's performance-based evaluation and fee determination.

The Performance Goals (hereafter referred to as Goals), Performance Objectives (hereafter referred to as Objectives) and set of Notable Outcomes (Performance Measures/Targets) discussed herein were developed in accordance with contract expectations set forth within the contract. The Notable Outcomes for meeting the Objectives set forth within this plan have been developed in coordination with HQ program offices as appropriate. Except as otherwise provided for within the contract, the evaluation and fee determination will rest solely on the Contractor's performance within the Performance Goals and Objectives set forth within this plan.

The overall performance against each Objective of this performance plan, to include the evaluation of Notable Outcomes, shall be evaluated jointly by the appropriate HQ office, major customer and/or the Site Office as appropriate. This cooperative review methodology will ensure that the overall evaluation of the Contractor results in a consolidated DOE position taking into account specific Notable Outcomes as well as all additional information available to the evaluating office. The Site Office shall work closely with each HQ program office or major customer throughout the year in evaluating the Contractor's performance and will provide observations regarding programs and projects as well as other management and operation activities conducted by the Contractor throughout the year.

Section I provides information on how the performance rating (grade) for the Contractor, as well as how the performance-based incentives fee earned (if any) will be determined. As applicable, also provides information on the award term eligibility requirements.

Section II provides the detailed information concerning each Goal, their corresponding Objectives, and Notable Outcomes identified, along with the weightings assigned to each Goal and Objective and a table for calculating the final grade for each Goal.

I. DETERMINING THE CONTRACTOR'S PERFORMANCE RATING, PERFORMANCE-BASED FEE AND AWARD TERM ELIGIBILITY (as applicable)

The FY 2011 Contractor performance grades for each Goal will be determined based on the weighted sum of the individual scores earned for each of the Objectives described within this document for Science and Technology (S&T) and for Management and Operations (M&O). No overall rollup grade will be provided. The rollup of the performance of each Goal will then be utilized to determine the Contractor numerical score for S&T and M&O

(see Table A below). These initial numerical scores for S&T and M&O will then be adjusted based on the numerical score for Goal 4.0 (see Table B below). The resulting overall final numerical score derived for S&T will be utilized to determine the amount of available fee that may be earned (see Table D). The resulting overall final numerical score derived for M&O will be utilized to determine the multiplier to be applied (see Table D) to the S&T fee earned to determine the final amount of fee earned for FY 2011. Each Goal is composed of two or more weighted Objectives and each Objective has set definitions and/or Notable Outcomes, which are linked to an Objective or set of Objectives to assist the reviewer in determining the Contractor's overall performance in meeting an Objective(s). Where utilized each of the Notable Outcomes highlight key aspects/areas of performance deserving special attention for the upcoming fiscal year and are utilized as a means of determining the Contractor's success in meeting the Objective along with other performance information available to the evaluating office from other sources to include, but not limited to, operational awareness (daily oversight) activities; "For Cause" reviews (if any); and other outside agency reviews (OIG, GAO, DCAA, etc.), as needed. The following describes the methodology for determining the Contractor's grade for each Goal.

Performance Evaluation Methodology:

The purpose of this section is to establish a methodology to develop grading at the Objective level. Each Objective within a Goal shall be assigned a grade and corresponding numerical score by the evaluating office. Each evaluation will measure the degree of effectiveness and performance of the Contractor in meeting the corresponding Objectives based on all performance information available to the evaluating office.

For the three S&T Goals (1.0 – 3.0) the Contractor shall be evaluated against the defined levels of performance provided for each Objective under the S&T Goals. The Contractor performance under Goal 4.0 will also be evaluated using the defined levels of performance described for the three Objectives under Goal 4.0. The descriptions for these defined levels of performance are included in Section II.

It is the DOE's expectation that the Contractor provides for and maintains management and operational (M&O) systems that efficiently and effectively support the current mission(s) of the Laboratory and assure the Laboratory's ability to deliver against DOE's future needs. In evaluating the Contractor's performance DOE shall assess the degree of effectiveness and performance in meeting each of the Objectives provided under each of the Goals. For the four M&O Goals (5.0 – 8.0) DOE will rely on a combination of the information through the Contractor's own assurance systems, the ability of the Contractor to demonstrate the validity of this information, and DOE's own independent assessment of the Contractor's performance across the spectrum of its responsibilities. The latter might include, but is not limited to operational awareness (daily oversight) activities; formal assessments conducted; "For Cause" reviews (if any); and other outside agency reviews (OIG, GAO, DCAA, etc.).

The mission of the Laboratory is to deliver the science and technology needed to support Departmental missions and other sponsor's needs. Operational performance at the Laboratory meets DOE's expectations (defined as the grade of B+) for each Objective if the Contractor is performing at a level that fully supports the Laboratory's current and future science and technology mission(s). Performance that has, or has the potential to, 1) adversely impact the delivery of the current and/or future DOE/Laboratory mission(s), 2) adversely impact the DOE and or the Laboratory's reputation, or 3) does not provide the competent people, necessary facilities and robust systems necessary to ensure sustainable performance, shall be graded below expectations as defined in Figure I-1 below.

The Department sets our expectations high, and expects performance at that level to optimize the efficient and effective operation of the Laboratory. Thus, the Department does not expect routine Contractor performance above expectations against the M&O Goals (5.0 – 8.0). Performance that might merit grades above B+ would need to reflect a Contractor's unexpectedly strong improvement in a particular area, significant contributions to the management and operations at the system of Laboratories, or recognition by external, independent entities as exemplary performance.

Definitions for the grading scale for the Goal 5.0 – 8.0 Objectives are provided in Figure I-1, below:

Letter Grade	Numerical Grade	Definition
A+	4.3-4.1	Significantly exceeds expectations of performance against all aspects of the Objective in question. The Contractor’s systems function at a level that fully supports the Laboratory’s current and future science and technology mission(s). Performance is notable for its significant contributions to the management and operations across the SC system of laboratories, and/or has been recognized by external, independent entities as exemplary.
A	4.0-3.8	Notably exceeds expectations of performance against all aspects of the Objective in question. The Contractor’s systems function at a level that fully supports the Laboratory’s current and future science and technology mission(s). Performance is notable for its contributions to the management and operations across the SC system of laboratories, and/or as been recognized by external, independent entities as exemplary.
A-	3.7-3.5	Exceeds expectations of performance against all aspects of the Objective in question. The Contractor’s systems function at a level that fully supports the Laboratory’s current and future science and technology mission(s).
B+	3.4-3.1	Meets expectations of performance against all aspects of the Objective in question. The Contractor’s systems function at a level that fully supports the Laboratory’s current and future science and technology mission(s). No performance has, or has the potential to, adversely impact 1) the delivery of the current and/or future DOE/Laboratory mission(s), 2) the DOE and/or the Laboratory’s reputation, or does not 3) provide a sustainable performance platform.
B	3.0 -2.8	Just misses meeting expectations of performance against a few aspects of the Objective in question. In a few minor instances, the Contractor’s systems function at a level that does not fully support the Laboratory’s current and future science and technology mission, or provide a sustainable performance platform.
B-	2.7-2.5	Misses meeting expectations of performance against several aspects of the Objective in question. In several areas, the Contractor’s systems function at a level that does not fully support the Laboratory’s current and future science and technology mission, or provide a sustainable performance platform.
C+	2.4-2.1	Misses meeting expectations of performance against many aspects of the Objective in question. In several notable areas, the Contractor’s systems function at a level that does not fully support the Laboratory’s current and future science and technology mission or provide a sustainable performance platform, and/or have affected the reputation of the Laboratory or DOE.
C	2.0-1.8	Significantly misses meeting expectations of performance against many aspects of the Objective in question. In many notable areas, the Contractor’s systems do not support the Laboratory’s current and future science and technology mission, nor provide a sustainable performance platform and may affect the reputation of the Laboratory or DOE.
C-	1.7- 1.1	Significantly misses meeting expectations of performance against most aspects of the Objective in question. In many notable areas, the Contractor’s systems demonstrably hinder the Laboratory’s ability to deliver on current and future science and technology mission, and have harmed the reputation of the Laboratory or DOE.
D	1.0-0.8	Most or all expectations of performance against the Objective in question are missed. Performance failures in this area have affected all parts of the Laboratory; DOE leadership engagement is required to deal with the situation and help the Contractor.
F	0.7-0	All expectations of performance against the Objective in question are missed. Performance failures in this area are not recoverable by the Contractor or DOE.

Figure I-1. Letter Grade and Numerical Grade Definitions

This year, a set of Notable Outcomes have been identified under each Goal to highlight the Contractor key aspects/areas of performance deserving special attention for the upcoming fiscal year. Each Notable Outcome is linked to one or more Objectives, and failure to meet expectations against any Notable Outcome will result in a grade less than B+ for that Objective(s). Performance above expectations against a Notable Outcome will be considered in the context of the Contractor's entire performance with respect to the relevant Objective.

Calculating Individual Goal Scores and Letter Grades:

Each Objective is assigned the earned numerical score by the evaluating office as stated above. The Goal rating is then computed by multiplying the numerical score by the weight of each Objective within a Goal. These values are then added together to develop an overall numerical score for each Goal. For the purpose of determining the final Goal grade, the raw numerical score for each Goal will be rounded to the nearest tenth of a point utilizing the standard rounding convention discussed below and then compared to Table C. A set of tables is provided at the end of each Performance Goal section of this document to assist in the calculation of Objective numerical scores to the Goal grade. Utilizing the raw numerical grade for each Goal within Table A, below, the scores for each of the S&T and M&O Goals are then multiplied by the weight assigned and these are summed to provide an overall raw numerical score for each.

As stated above the raw numerical score from each calculation shall be carried through to the next stage of the calculation process. The raw numerical score for Science and Technology and Management and Operations will be rounded to the nearest tenth of a point for purposes of determining fee as indicated in Table C. A standard rounding convention of x.44 and less rounds down to the nearest tenth (here, x.4), while x.45 and greater rounds up to the nearest tenth (here, x.50).

S&T Performance Goal	Numerical Score	Letter Grade	Weight ¹	
1.0 Mission Accomplishment			TBD%	
2.0 Construction and Operations of User Research Facilities and Equipment			TBD%	
3.0 Science and Technology Research Project/Program Management			TBD%	
Initial S&T Score				
4.0 Leadership and Stewardship of the Laboratory ²				
M&O Performance Goal	Numerical Score	Letter Grade	Weight	
5.0 Integrated Safety, Health, and Environmental Protection			30%	
6.0 Business Systems			25%	
7.0 Operating, Maintaining, and Renewing Facility and Infrastructure Portfolio			25%	
8.0 Integrated Safeguards and Security Management and Emergency Management Systems			20%	
Initial M&O Score

Table C. FY 2011 Contractor Letter Grade Scale

¹ The final weights to be utilized for determining the overall S&T score will be determined following the end of the performance period and will be based on actual cost for FY 2011.

² The Goal 4.0 score will only be used as an adjustment factor to determine the final S&T and M&O scores for the laboratory as shown in Table B.

Determining the Amount of Performance-Based Fee Earned:

The percentage of the available performance-based fee that may be earned by the Contractor shall be determined based on the overall weighted numerical score for the S&T Goals (see Table B, above) and then compared to Table D, below. The overall numerical grade of the M&O Goals from Table B shall then be utilized to determine the final fee multiplier (see Table D), which shall be utilized to determine the overall amount of performance-based fee earned for FY 2011 as calculated within Table D.

Overall Final Score from Table B.	Percent S&T Fee Earned	M&O Fee Multiplier

Adjustment to the Letter Grade and/or Performance-Based Fee Determination:

The lack of performance objectives and notable outcomes in this plan do not diminish the need to comply with minimum contractual requirements. Although the performance-based Goals and their corresponding Objectives shall be the primary means utilized in determining the Contractor’s performance grade and/or amount of performance-based fee earned, the Contracting Officer may unilaterally adjust the rating and/or reduce the otherwise earned fee based on the Contractor’s performance against all contract requirements as set forth in the Prime Contract. While reductions may be based on performance against any contract requirement, specific note should be made to contract clauses which address reduction of fee including, Standards of Contractor Performance Evaluation, DEAR 970.5215-1 – “Total Available Fee: Base Fee Amount and Performance Fee Amount”, and DEAR 970.5215-3 – “Conditional Payment of Fee, Profit, and Other Incentives – Facility Management Contracts”. Data to support rating and/or fee adjustments may be derived from other sources to include, but not limited to, operational awareness (daily oversight) activities; “For Cause” reviews (if any); and other outside agency reviews (OIG, GAO, DCAA, etc.), as needed.

The adjustment of a grade and/or reduction of otherwise earned fee will be determined by the severity of the performance failure and consideration of mitigating factors. DEAR 970.5215-3 Conditional Payment of Fee, Profit, and Other Incentives – Facility Management Contracts is the mechanism used for reduction of fee as it relates to performance failures related to safeguarding of classified information and to adequate protection of environment, health and safety. Its guidance can also serve as an example for reduction of fee in other areas.

The final Contractor performance-based grades for each Goal and fee earned determination will be contained within a year-end report, documenting the results from the DOE review. The report will identify areas where performance improvement is necessary and, if required, provide the basis for any performance-based rating and/or fee adjustments made from the otherwise earned rating/fee based on Performance Goal achievements.

II. PERFORMANCE GOALS, OBJECTIVES & NOTABLE OUTCOMES

Background

The current performance-based management approach to oversight within DOE has established a new culture within the Department with emphasis on the customer-supplier partnership between DOE and the laboratory contractors. It has also placed a greater focus on mission performance, best business practices, cost management, and improved contractor accountability. Under the performance-based management system the DOE provides clear direction to the laboratories and develops annual performance plans (such as this one) to assess the contractors performance in meeting that direction in accordance with contract requirements. The DOE policy for implementing performance-based management includes the following guiding principles:

- Performance objectives are established in partnership with affected organizations and are directly aligned to the DOE strategic goals;
- Resource decisions and budget requests are tied to results; and

- Results are used for management information, establishing accountability, and driving long-term improvements.

The performance-based approach focuses the evaluation of the Contractor's performance against these Performance Goals. Progress against these Goals is measured through the use of a set of Objectives. The success of each Objective will be measured based on demonstrated performance by the laboratory, and on a set of Notable Outcomes that focus laboratory leadership on the specific items that are the most important initiatives and highest risk issues the laboratory must address during the year. These Notable Outcomes should be objective, measurable, and results-oriented to allow for a definitive determination of whether or not the specific outcome was achieved at the end of the year.

Performance Goals, Objectives, and Notable Outcomes

The following sections describe the Performance Goals, their supporting Objectives, and associated Notable Outcomes for FY 2011.

GOAL 1.0 Provide for Efficient and Effective Mission Accomplishment

The science and technology programs at the Laboratory produce high-quality, original, and creative results that advance science and technology; demonstrate sustained scientific progress and impact; receive appropriate external recognition of accomplishments; and contribute to overall research and development goals of the Department and its customers.

The weight of this Goal is TBD%.

The Provide for Efficient and Effective Mission Accomplishment Goal measures the overall effectiveness and performance of the Contractor in delivering science and technology results which contribute to and enhance the DOE's mission of protecting our national and economic security by providing world-class scientific research capacity and advancing scientific knowledge by supporting world-class, peer-reviewed scientific results, which are recognized by others.

Each Objective within this Goal is to be assigned the appropriate numerical score by the Office of Science, other cognizant HQ Program Offices, and other customers as identified below. The overall Goal score from each HQ Program Office and/or customer is computed by multiplying numerical scores earned by the weight of each Objective, and summing them (see Tables 1.1, 1.2, & 1.3). The final weights to be utilized for determining weighted scores will be determined following the end of the performance period and will be based on actual cost for FY 2011.

- Office of Science (SC) (TBD%)
- Office of Defense Nuclear Nonproliferation (DNN) (TBD%)
- Department of Homeland Security (DHS) (TBD%)
- Assistant Secretary for Energy Efficiency and Renewable Energy (EERE) (TBD%)
- Assistant Secretary for Fossil Energy (FE) (TBD%)
- Office of Nuclear Energy (NE) (TBD%)
- Office of Electricity Delivery and Emergency Reliability (OE) (TBD%)
- Nuclear Regulatory Commission (NRC) (TBD%)

The overall performance score and grade for this Goal will be determined by multiplying the overall score assigned by each of the offices identified above by the weightings identified for each and then summing them (see Table 1.4 below). The overall score earned is then compared to Table 1.5 to determine the overall letter grade for this Goal. The Contractor's success in meeting each Objective shall be determined based on the Contractor's performance as viewed by the Office of Science, other cognizant HQ Program Offices, and other customers for which the Laboratory conducts work. Should one or more of the HQ Program Offices choose not to provide an evaluation for this Goal and its corresponding Objectives the weighting for the remaining HQ Program Offices shall be recalculated based on their percentage of cost for FY 2011 as compared to the total cost for those remaining HQ Program Offices.

Objectives

1.1 Provide Science and Technology Results with Meaningful Impact on the Field

In assessing the performance of the Laboratory against this Objective, the following assessment elements should be considered:

- Performance of the Laboratory with respect to proposed research plans;

- Performance of the Laboratory with respect to community impact and peer review; and
- Performance of the Laboratory with respect to impact to DOE mission needs.

The following is a sampling of factors to be considered in determining the level of performance for the Laboratory against this Objective. The evaluator(s) may consider the following as measured through progress reports, peer reviews, Field Work Proposals (FWPs), Program Office reviews/oversight, etc.

- Impact of publications on the field, as measured primarily by peer review;
- Impact of S&T results on the field, as measured primarily by peer review;
- Impact of S&T results outside the field indicating broader interest;
- Impact of S&T results on DOE or other customer mission(s);
- Successful stewardship of mission-relevant research areas;
- Delivery on proposed S&T plans;
- Significant awards (Nobel Prizes, R&D 100, FLC, etc.);
- Invited talks, citations, making high-quality data available to the scientific community; and
- Development of tools and techniques that become standards or widely-used in the scientific community.

Letter Grade	Definition
A+	<p>In addition to satisfying the conditions for B+</p> <ul style="list-style-type: none"> • There are <i>significant research areas for which the Laboratory has exceeded the expectations of the proposed research plans in significant ways through creative, new, or unconventional methods that allow greater scientific reach than expected.</i> • S&T conducted at the Laboratory <i>has resolved one of the most critical questions in the field, or has changed the way the research community thinks about a particular field through paradigm shifting discoveries that would be considered the most influential discovery of the decade for that field.</i> • S&T conducted at the Laboratory <i>provided major advances that significantly accelerate DOE or other customer mission(s).</i>
A	<p>In addition to satisfying the conditions for B+</p> <ul style="list-style-type: none"> • There are <i>important examples</i> where the Laboratory <i>exceeded the expectations of the proposed research plans in significant ways through creative, new, or unconventional methods that allow greater scientific reach than expected.</i> • <i>All areas</i> of S&T conducted at the Laboratory are of <i>exceptional or outstanding</i> merit and quality. • S&T conducted at the Laboratory has <i>significant positive impact</i> to DOE or other customer missions.
A-	<p>In addition to satisfying the conditions for B+</p> <ul style="list-style-type: none"> • There are <i>important examples</i> where the Laboratory <i>exceeded the expectations of the proposed research plans.</i> • <i>Significant areas</i> of S&T conducted at the Laboratory are of <i>exceptional or outstanding</i> merit and quality. • S&T conducted at the Laboratory <i>significantly impact</i> DOE or other customer missions.

Letter Grade	Definition
B+	<p>The Laboratory has achieved each of the following objectives:</p> <ul style="list-style-type: none"> • The Laboratory has successfully executed proposed research plans. • S&T conducted at the Laboratory are of <i>high</i> scientific merit and quality • S&T conducted at the Laboratory <i>advance</i> DOE or other customer missions.
B	<ul style="list-style-type: none"> • The Laboratory has successfully executed proposed research plans. • S&T conducted at the Laboratory <i>advance</i> DOE or other customer missions. <p>BUT the Laboratory fails to meet the conditions for B+ for <i>at least one</i> of the following reasons:</p> <ul style="list-style-type: none"> • S&T conducted at the Laboratory are <i>not uniformly of high</i> merit and quality OR <i>some areas of research, previously supported, have become uncompetitive</i> OR <i>the Laboratory does not produce sufficiently competitive proposals to receive program support at a level commensurate with its unique capabilities.</i>
B-	<p>The Laboratory fails to meet the conditions for B+ for <i>at least one</i> of the following reasons:</p> <ul style="list-style-type: none"> • The Laboratory has <i>failed to successfully execute</i> proposed research plans <i>but contingencies were in place such that no funding was or will be terminated.</i> OR S&T conducted at the Laboratory <i>does little to advance</i> DOE or other customer missions. • <i>Significant areas of</i> S&T conducted at the Laboratory are <i>not of high</i> merit and quality OR <i>some areas of research, previously supported, have become uncompetitive</i> OR <i>the Laboratory do not produce sufficiently competitive proposals to receive program support at a level commensurate with its unique capabilities.</i>
C	<p>The Laboratory fails to meet the conditions for B+ for <i>at least one</i> of the following reasons:</p> <ul style="list-style-type: none"> • <i>In several significant aspects,</i> the Laboratory <i>failed to deliver</i> on proposed research plans <i>using available resources such that some funding was or will be terminated</i> OR S&T conducted at the Laboratory <i>failed to contribute to</i> DOE or other customer missions • <i>Significant areas of</i> S&T conducted at the Laboratory are <i>of poor</i> merit and quality OR <i>some areas of research, previously supported, have become uncompetitive</i> AND <i>the Laboratory does not produce sufficiently competitive proposals to receive program support at a level commensurate with its unique capabilities.</i>

Letter Grade	Definition
D	<p>The Laboratory fails to meet the conditions for B+ for <i>at least one</i> of the following reasons:</p> <ul style="list-style-type: none"> • <i>Multiple program elements at the Laboratory failed to deliver on proposed research plans using available resources such that significant funding was or will be terminated.</i> • <i>Multiple significant areas of S&T conducted at the Laboratory are of poor merit and quality OR some areas of research, previously supported, have become uncompetitive AND the Laboratory does not produce sufficiently competitive proposals to receive program support at a level commensurate with its unique capabilities.</i> • <i>S&T conducted at the Laboratory failed to contribute to DOE or other customer missions.</i>
F	<p>The Laboratory fails to meet the conditions for B+ for <i>at least one</i> of the following reasons:</p> <ul style="list-style-type: none"> • <i>Multiple program elements at the Laboratory failed to deliver on proposed research plans using available resources resulting in total termination of funding.</i> • <i>Multiple significant areas of S&T conducted at the Laboratory are of poor merit and quality OR some areas of research, previously supported, have become uncompetitive AND the Laboratory does not produce sufficiently competitive proposals to receive program support at a level commensurate with its unique capabilities OR the Laboratory has been found to have engaged in gross scientific incompetence and/or scientific fraud.</i> • <i>S&T conducted at the Laboratory failed to contribute to DOE or other customer missions.</i>

1.2 Provide Quality Leadership in Science and Technology that Advances Community Goals and DOE Mission Goals.

In assessing the performance of the Laboratory against this Objective, the following assessment elements should be considered:

- Innovativeness / Novelty of research ideas put forward by the Laboratory;
- Extent to which Laboratory staff members take on substantive or formal leadership roles in their community;
- Extent to which Laboratory staff members take on formal leadership roles in DOE and SC activities; and
- Extent to which Laboratory staff members contribute thoughtful and thorough peer reviews and other research assessments as requested by DOE and SC.

The following is a sampling of factors to be considered in determining the level of performance for the Laboratory against this Objective. The evaluator(s) may consider the following as measured through progress reports, peer reviews, Field Work Proposals (FWPs), Program Office reviews/oversight, etc.:

- Willingness to pursue novel approaches and/or demonstration of innovative solutions to problems;

- Willingness to take on high-risk/high payoff/long-term research problems, evidence that previous risky decisions by the PI/research staff have proved to be correct and are paying off;
- The uniqueness and challenge of science pursued, recognition for doing the best work in the field;
- Extent and quality of collaborative efforts;
- Staff members visible in leadership positions in the scientific community;
- Involvement in professional organizations, National Academies panels and workshops,
- Effectiveness in driving the direction and setting the priorities of the community in a research field; and
- Success in competition for resources.

Letter Grade	Definition
A+	<p>In addition to satisfying the conditions for B+, the following conditions hold for ALL Laboratory staff:</p> <ul style="list-style-type: none"> • Laboratory staff members have <i>leadership positions</i> in professional organizations AND <i>in National Academy or equivalent panels to discuss and determine further research directions</i>; • Laboratory staff members have <i>leadership positions</i> in DOE sponsored workshops and strategic planning activities, for example, Laboratory staff members chair or co-chair DOE-sponsored workshops and strategic planning activities. • The Laboratory program consistently produces and submits competitive proposals that challenge convention and open <i>significant new fields</i> for research that are well aligned with DOE mission needs and <i>the Laboratory has a strong recognized role in setting priorities and driving the direction in key research areas and are internationally recognized leaders in the field</i>. • Laboratory staff hold <i>leadership positions</i> in multi-institutional research collaborations.
A	<p>In addition to satisfying the conditions for B+</p> <ul style="list-style-type: none"> • Laboratory staff members have <i>leadership positions</i> in professional organizations AND <i>staff has contributing role in National Academy or equivalent panels to discuss further research directions</i>; • Laboratory staff members have <i>leadership positions</i> in DOE sponsored workshops and strategic planning activities. • The Laboratory program consistently produces and submits competitive proposals that challenge convention and open <i>significant new fields</i> for research that are well aligned with DOE mission needs and <i>the Laboratory has a strong recognized role in setting priorities and driving the direction in key research areas</i>. • Laboratory staff hold <i>leadership positions</i> in multi-institutional research collaborations.

Letter Grade	Definition
A-	<p>In addition to satisfying the conditions for B+</p> <ul style="list-style-type: none"> • Laboratory staff members have <i>leadership positions</i> in professional organizations OR <i>staff has contributing role in National Academy or equivalent panels to discuss further research directions</i>; • Laboratory staff members have <i>leadership positions</i> in DOE sponsored workshops and strategic planning activities. • The Laboratory program consistently submits competitive proposals that challenge convention and open <i>significant</i> new avenues for research that are well aligned with DOE mission needs. • Laboratory staff hold <i>leadership positions</i> in multi-institutional research collaborations.
B ⁺	<p>The Laboratory has achieved each of the following objectives:</p> <ul style="list-style-type: none"> • Laboratory staff members are <i>active participants</i> in professional organizations, committees, and activities, and take on leadership responsibilities commensurate with experience and expertise. • Laboratory staff members are <i>active participants</i> in DOE sponsored workshops and strategic planning activities. • Laboratory staff members contribute thoughtful and thorough peer review in a timely manner, when requested by DOE. • The Laboratory program consistently provides competitive proposals that challenge convention and open new avenues for research that are well aligned with DOE mission needs. • Laboratory staff are <i>active participants</i> in multi-institutional research collaborations
B	<ul style="list-style-type: none"> • Laboratory staff members contribute thoughtful and thorough peer review in a timely manner, when requested by DOE. • The Laboratory program consistently provides competitive proposals that challenge convention and open new avenues for research that are well aligned with DOE mission needs. <p>BUT the Laboratory fails to meet the conditions for B+ for <i>at least one</i> of the following reasons:</p> <ul style="list-style-type: none"> • Although <i>regular participants</i> in professional organizations, committees, and activities, <i>the extent to which staff take on leadership roles falls short of what would be expected, given the level of experience and expertise of the staff.</i> • Although <i>regular participants</i> in DOE sponsored workshops and strategic planning activities, <i>the extent to which staff take on leadership roles falls short of what would be expected, given the level of experience and expertise of the staff.</i> • Although <i>active members</i> of multi-institutional research collaborations, <i>the extent to which staff take on leadership roles falls short of what would be expected, given the level of experience and expertise of the staff.</i>

Letter Grade	Definition
B-	<ul style="list-style-type: none"> • Laboratory staff members contribute thoughtful and thorough peer review in a timely manner, when requested by DOE. <p>BUT the Laboratory fails to meet the conditions for B+ for <i>at least one</i> of the following reasons:</p> <ul style="list-style-type: none"> • The Laboratory program submits competitive proposals <i>but these either lack innovation or are not well aligned with DOE mission needs.</i> • Laboratory staff are <i>infrequent participants</i> in professional organizations, committees, and activities, and <i>the extent to which staff take on leadership roles falls short of what would be expected, given the level of experience and expertise of the staff.</i> • Laboratory staff are <i>infrequent participants</i> in DOE sponsored workshops and strategic planning activities, and <i>the extent to which staff take on leadership roles falls short of what would be expected, given the level of experience and expertise of the staff.</i> • Although <i>active members of multi-institutional research collaborations, the extent to which staff take on leadership roles falls short of what would be expected, given the level of experience and expertise of the staff.</i>
C	<p>The Laboratory fails to meet the conditions for B+ for <i>at least one</i> of the following reasons:</p> <ul style="list-style-type: none"> • Laboratory staff members <i>do not reliably</i> contribute thoughtful and thorough peer review in a timely manner, when requested by DOE. • <i>Some areas of research, previously supported, are no longer competitive.</i> • Laboratory staff members are <i>infrequent participants</i> in professional organizations, committees, and activities, AND <i>the extent to which staff take on leadership roles falls short of what would be expected, given the level of experience and expertise of the staff.</i> • Laboratory staff members are <i>infrequent participants</i> in DOE sponsored workshops and strategic planning activities, and <i>the extent to which staff take on leadership roles falls short of what would be expected, given the level of experience and expertise of the staff.</i> • Although Laboratory staff members are <i>active members of multi-institutional research collaborations, the extent to which staff take on leadership roles falls short of what would be expected, given the level of experience and expertise of the staff.</i>
D	<p>The Laboratory fails to meet the conditions for B+ because <i>the Laboratory staff are working on problems that are no longer at the forefront of science and are considered mundane.</i></p>
F	<p>Review has found the Laboratory staff to be <i>guilty of gross scientific incompetence and/or scientific fraud.</i></p>

Notable Outcomes

- **BES:** Deliver impactful science for the Energy Frontier Research Center: “Fluid Interface Reactions, Structures and Transport (FIRST) Center” and “Energy Frontier Center for Defect Physics in Structural Materials (CDP).” (Objective 1.1)

⁶ The final weights to be utilized for determining weighted scores will be determined following the end of the performance period and will be based on actual cost for FY 2011.

GOAL 2.0 Provide for Efficient and Effective Design, Fabrication, Construction and Operations of Research Facilities

The Laboratory provides effective and efficient strategic planning; fabrication, construction and/or operations of Laboratory research facilities; and are responsive to the user community.

The weight of this Goal is TBD%.

The Provide for Efficient and Effective Design, Fabrication, Construction and Operations of Research Facilities Goal shall measure the overall effectiveness and performance of the Contractor in planning for and delivering leading-edge specialty research and/or user facilities to ensure the required capabilities are present to meet today's and tomorrow's complex challenges. It also measures the Contractor's innovative operational and programmatic means for implementation of systems that ensures the availability, reliability, and efficiency of these facilities; and the appropriate balance between R&D and user support.

Each Objective within this Goal is to be assigned the appropriate numerical score by the Office of Science, other cognizant HQ Program Offices, and other customers as identified below. The overall Goal score from each HQ Program Office and/or customer is computed by multiplying numerical scores earned by the weight of each Objective, and summing them (see Tables 2.1, 2.2, & 2.3). The final weights to be utilized for determining weighted scores will be determined following the end of the performance period and will be based on actual cost for FY 2011.

- Office of Science (SC) (TBD%)
- Assistant Secretary for Energy Efficiency and Renewable Energy (EERE) (TBD%)
- Office of Nuclear Energy (NE) (TBD%)
- Office of Electricity Delivery and Emergency Reliability (OE) (TBD%)

The overall performance score and grade for this Goal will be determined by multiplying the overall score assigned by each of the offices identified above by the weightings identified for each and then summing them (see Table 2.4 below). The overall score earned is then compared to Table 2.5 to determine the overall letter grade for this Goal. The Contractor's success in meeting each Objective shall be determined based on the Contractor's performance as viewed by the Office of Science, other cognizant HQ Program Offices, and other customers for which the Laboratory conducts work. Should one or more of the HQ Program Offices choose not to provide an evaluation for this Goal and its corresponding Objectives the weighting for the remaining HQ Program Offices shall be recalculated based on their percentage of cost for FY 2011 as compared to the total cost for those remaining HQ Program Offices.

Objectives

2.1 Provide Effective Facility Design(s) as Required to Support Laboratory Programs (i.e., activities leading up to CD-2)

In assessing the performance of the Laboratory against this Objective, the following assessment elements should be considered:

- The Laboratory's delivery of accurate and timely information required to carry out the critical decision and budget formulation process;
- The Laboratory's ability to meet the intent of DOE Order 413.3, Program and Project Management for the Acquisition of Capital Assets;
- The extent to which the Laboratory appropriately assesses risks and contingency needs; and

- The extent to which the Laboratory is effective in its unique management role and partnership with HQ.

The following is a sampling of factors to be considered in determining the level of performance for the Laboratory against this Objective. The evaluator(s) may consider the following as measured through progress reports, peer reviews, Field Work Proposals (FWPs), Program Office reviews/oversight, etc.

- The quality of the scientific justification for proposed facilities resulting from preconceptual R&D;
- The technical quality of conceptual and preliminary designs and the credibility of the associated cost estimates
- The credibility of plans for the full life cycle of proposed facilities including financing options;
- The leveraging of existing facilities and capabilities of the DOE Laboratory complex in plans for proposed facilities; and
- The novelty and potential impact of new technologies embodied in proposed facilities.

Letter Grade	Definition
A+	<p>In addition to satisfying all conditions for B+; the Laboratory <i>exceeds expectations</i> in <i>all</i> of these categories:</p> <ul style="list-style-type: none"> • The Laboratory is recognized by the research community as the leader for making the science case for the acquisition; • The Laboratory takes the initiative to demonstrate and thoroughly document the potential for transformational scientific advancement. • Approaches proposed by the Laboratory are widely regarded as innovative, novel, comprehensive, and potentially cost-effective. • Reviews repeatedly confirm strong potential for scientific discovery in areas that support the Department’s mission, and potential to change a discipline or research area’s direction. • The Laboratory identifies, analyzes and champions novel approaches for acquiring the new capability, including leveraging or extending the capability of existing facilities and financing and these efforts result in significant cost estimate and/or risk reductions without loss or, or while enhancing capability.
A	<p>In addition to satisfying all conditions for B+, <i>all</i> of the following conditions are also met:</p> <ul style="list-style-type: none"> • The Laboratory is recognized by the research community as a leader for making the science case for the acquisition; • The Laboratory takes the initiative to demonstrate the potential for revolutionary scientific advancement working in partnership with HQ • The Laboratory identifies, analyzes, and champions, to HQ and Site office, novel approaches for acquiring the new capability, including leveraging or extending the capability of existing facilities and financing.

Letter Grade	Definition
A-	<p>In addition to satisfying all conditions for B+, <i>all</i> of the following conditions are also met:</p> <ul style="list-style-type: none"> • The approaches proposed by the Laboratory are widely regarded as innovative, novel, comprehensive, and potentially cost-effective • Reviews repeatedly confirm potential for scientific discovery in areas that support the Department’s mission, and potential to change a discipline or research area’s direction.
B+	<p>The Laboratory has achieved each of the following objectives:</p> <ul style="list-style-type: none"> • The Laboratory displays leadership and commitment in the development of quality analyses, preliminary designs, and related documentation to support the approval of the mission need (CD-0), the alternative selection and cost range (CD-1) and the performance baseline (CD-2). • Documentation requested by the programs is provided in a timely and thorough manner. • The Laboratory keeps DOE apprised of the status, near-term plans and the resolution of problems on a regular basis; anticipates emerging issues that could impact plans and takes the initiative to inform DOE of possible consequences. • The Laboratory solves problems and addresses issues to avoid adverse impacts to the project.
B	The Laboratory fails to meet expectations in one of the areas listed under B+.
B-	The Laboratory fails to meet expectations in several of the areas listed under B+
C	The Laboratory fails to meet the expectations in several of the areas listed under B+ AND the required analyses and documentation developed by the Laboratory are EITHER not innovative, OR reflect a lack of commitment and leadership.
D	The Laboratory fails to meet the expectations in several of the areas listed under B+ AND the Laboratory fails to provide a compelling justification for the acquisition.
F	The Laboratory fails to meet the expectations in several of the areas listed under B+ AND the approaches proposed by the Laboratory are based on fraudulent assumptions; the science case is weak to non-existent, and the business case is seriously flawed.

2.2 Provide for the Effective and Efficient Construction of Facilities and/or Fabrication of Components (execution phase, post CD-2 to CD-4)

In assessing the performance of the Laboratory against this Objective, the following assessment elements should be considered:

- The Laboratory’s adherence to DOE Order 413.3 Project Management for the Acquisition of Capital Assets;
- Successful fabrication of facility components by the Laboratory;
- The Laboratory’s effectiveness in meeting construction schedule and budget;
- The quality of key Laboratory staff overseeing the project(s); and
- The extent to which the Laboratory maintains open, effective, and timely communication with HQ regarding issues and risks.

Letter Grade	Definition
A+	<p>In addition to satisfying all conditions for A,</p> <ul style="list-style-type: none"> • There is high confidence throughout the execution phase that the project will be completed <i>significantly</i> under budget and/or ahead of schedule while meeting or exceeding all performance baselines;
A	<p>In addition to satisfying all conditions for B+,</p> <ul style="list-style-type: none"> • The Laboratory has identified and implemented practices that would allow the project scope to be <i>significantly expanded</i> if such were desirable, without impact on baseline cost or schedule; • The Laboratory <i>always</i> provides <i>exemplary</i> project status reports on time to DOE and takes the initiative to communicate emerging problems or issues. • Reviews identify environment, safety and health practices to be <i>exemplary</i>. • There is high confidence throughout the execution phase that the project will meet its cost/schedule performance baseline;
A-	<p>In addition to satisfying all conditions for B+,</p> <ul style="list-style-type: none"> • The Laboratory has identified practices that would allow for the project scope to be expanded if such were desirable, without impact on baseline cost or schedule; • Problems are identified and corrected by the Laboratory promptly, with no impact on scope, cost or schedule • The Laboratory provides <i>particularly useful</i> project status reports on time to DOE and regularly takes the initiative to communicate emerging problems or issues. • Reviews identify environment, safety and health practices to <i>exceed expectations</i>. • There is high confidence throughout the execution phase that the project will meet its cost/schedule performance baseline;
B+	<p>The Laboratory has achieved each of the following objectives</p> <ul style="list-style-type: none"> • The project meets CD-2 performance measures; • The Laboratory provides sustained leadership and commitment to environment, safety and health; • Reviews regularly recognize the Laboratory for being proactive in the management of the execution phase of the project; • To a large extent, problems are identified and corrected by the Laboratory with little, or no impact on scope, cost or schedule; • DOE is kept informed of project status on a regular basis; reviews regularly indicate project is expected to meet its cost/schedule performance baseline.
B	<p>The Laboratory provides sustained leadership and commitment to environment, safety and health BUT</p> <ul style="list-style-type: none"> • The project fails to meet expectations in <i>one</i> of the remaining areas listed under B+.
B-	<p>The Laboratory provides sustained leadership and commitment to environment, safety and health BUT</p> <ul style="list-style-type: none"> • The project fails to meet expectations in <i>several</i> of the areas listed under B+

Letter Grade	Definition
C	<p>The Laboratory provides sustained leadership and commitment to environment, safety and health BUT The project fails to meet expectations in <i>several</i> of the areas listed under B+ AND</p> <ul style="list-style-type: none"> • Reviews indicate project remains at risk of breaching its cost/schedule performance baseline; • Reports to DOE can vary in degree of completeness
D	<p>The project fails to meet conditions for B+ in at least one of the following areas:</p> <ul style="list-style-type: none"> • Reviews indicate project is likely to breach its cost/schedule performance baseline; • Laboratory commitment to environment, safety and health issues is inadequate; • Reports to DOE are largely incomplete; Laboratory commitment to the project has subsided.
F	<p>The project fails to meet conditions for B+ in at least one of the following areas:</p> <ul style="list-style-type: none"> • Laboratory falsifies data during project execution phase; • Shows disdain for executing the project within minimal standards for environment, safety or health, • Fails to keep DOE informed of project status; • Recent reviews indicate that the project is expected to breach its cost/schedule performance baseline.

2.3 Provide Efficient and Effective Operation of Facilities

In assessing the performance of the Laboratory against this Objective, the following assessment elements should be considered:

- The availability, reliability, performance, and efficiency of Laboratory facility(ies);
- The degree to which the facility is optimally arranged to support the user community;
- The extent to which Laboratory R&D is conducted to develop/expand the capabilities of the facility(ies);
- The Laboratory’s effectiveness in balancing resources between facility R&D and user support; and
- The quality of the process used to allocate facility time to users.

Letter Grade	Definition
A+	<p>In addition to satisfying all conditions for B+; <i>all</i> of the following conditions are also met</p> <ul style="list-style-type: none"> • Performance of the facility <i>exceeds</i> expectations as defined before the start of the year in all of these categories: cost of operations, users served, availability, and capability; • The schedule and the costs associated with the ramp-up to steady state operations are <i>significantly less</i> than planned and are acknowledged to be ‘leadership caliber’ by reviews; • Data on environment, safety, and health continues to be exemplary and widely regarded as among the ‘best in class’ • The Laboratory took extraordinary means to deliver an extraordinary result for the users and the program in the performance/ review period.
A	<p>In addition to satisfying all conditions for B+; <i>all</i> of the following conditions are also met</p> <ul style="list-style-type: none"> • Performance of the facility <i>exceeds</i> expectations as defined before the start of the year in most of these categories: cost of operations, users served, availability, and capability; • The schedule and the costs associated with the ramp-up to steady state operations are <i>less</i> than planned and are acknowledged to be ‘leadership caliber’ by reviews; • Data on environment, safety, and health continues to be <i>exemplary</i> and widely regarded as among the ‘best in class’.
A-	<p>In addition to satisfying all conditions for B+, <i>one</i> of the following conditions is met:</p> <ul style="list-style-type: none"> • Performance of the facility <i>exceeds</i> expectations as defined before the start of the year in any of these categories: cost of operations, users served, availability, and capability; • The schedule and the costs associated with the ramp-up to steady state operations are <i>less</i> than planned and are acknowledged to be among the best by reviews;
B+	<p>The Laboratory has achieved each of the following objectives:</p> <ul style="list-style-type: none"> • Performance of the facility <i>meets</i> expectations as defined before the start of the year in all of these categories: cost of operations, users served, availability, capability (for example, beam delivery, luminosity, peak performance, etc), • The schedule and the costs associated with the ramp-up to steady state operations occur as planned; • Data on environment, safety, and health continues to be very good as compared with other projects in the DOE. • User surveys meet program expectations and reflect that the Laboratory is responsive to user needs.
B	The project fails to meet expectations in <i>one</i> of the areas listed under B+.
B-	The project fails to meet expectations in <i>more than one</i> of the areas listed under B+.

Letter Grade	Definition
C	<p>Performance of the facility fails to meet expectations in <i>many</i> of the areas listed under B+; for example,</p> <ul style="list-style-type: none"> • The cost of operations is unexpectedly high and availability of the facility is unexpectedly low, the number of users is unexpectedly low, capability is well below expectations. • The facility operates at steady state, on cost and on schedule, but the reliability of performance is somewhat below planned values, or the facility operates at steady state, but the associated schedule and costs exceed planned values. • Commitment to environment, safety, and health is satisfactory.
D	<p>Performance of the facility fails to meet expectations in <i>many</i> of the areas listed under B+; for example,</p> <ul style="list-style-type: none"> • The cost of operations is unexpectedly high and availability of the facility is unexpectedly low; capability is well below expectations. • The facility operates somewhat below steady state, on cost and on schedule, and the reliability of performance is somewhat below planned values, or the facility operates at steady state, but the associated schedule and costs exceed planned values. • Commitment to environment, safety, and health is inadequate.
F	<ul style="list-style-type: none"> • The facility fails to operate; the facility operates well below steady state and/or the reliability of the performance is well below planned values. • Laboratory commitment to environment, safety, and health issues is inadequate.

2.4 Utilization of Facility(ies) to Provide Impactful S&T Results and Benefits to External User Communities

In assessing the performance of the Laboratory against this Objective, the following assessment elements should be considered:

- The extent to which the facility is being used to perform influential science;
- The Laboratory's efforts to take full advantage of the facility to generate impactful S&T results;
- The extent to which the facility is strengthened by a resident Laboratory research community that pushes the envelope of what the facility can do and/or are among the scientific leaders of the community;
- The Laboratory's ability to appropriately balance access by internal and external user communities; and
- The extent to which there is a healthy program of outreach to the scientific community.

Letter Grade	Definition
A+	<p>In addition to meeting all measures under A,</p> <ul style="list-style-type: none"> • The Laboratory took extraordinary means to deliver an extraordinary result for a new user community.

Letter Grade	Definition
A	In addition to satisfying all conditions for B+; <i>all</i> of the following conditions are met <ul style="list-style-type: none"> • An <i>aggressive</i> outreach programs is in place and has been documented as attracting new communities to the facility; • Reviews consistently find that the facility capability or scope of research potential <i>significantly</i> exceeds expectations for example, due to newly discovered capabilities or exposure to new research communities; OR Reviews find that multiple disciplines are using the facility in new and novel ways that the facility is being used to pursue influential science.
A-	In addition to satisfying all conditions for B+, all of the following conditions are met <ul style="list-style-type: none"> • A <i>strong</i> outreach program is in place; • Reviews find that the facility capability or scope of research potential exceeds expectations for example, due to newly discovered capabilities or exposure to new research communities; OR Reviews document how multiple disciplines are using the facility in new and novel ways and/or that the facility is being used to pursue important science.
B+	The Laboratory has achieved each of the following objectives: <ul style="list-style-type: none"> • Reviews find / validate that the facility is being used for influential science; • The scope of facility capabilities is challenged and broadened by resident users; • The Laboratory effectively manages user allocations; • The Laboratory effectively maintains the facility to required performance standards (for example, runtime, luminosity, etc) • A healthy outreach program is in place.
B	The Laboratory fails to meet expectations in <i>one</i> of the areas listed under B+
B-	The Laboratory fails to meet expectations in <i>several</i> of the areas listed under B+
C	The Laboratory fails to meet expectations in <i>many</i> of the areas listed under B+
D	Reviews find that there are few facility users, few of whom are using the facility in novel ways to produce impactful science; research base is very thin.
F	Laboratory staff does not possess capabilities to operate and/or use the facility adequately.

Notable Outcomes

- **FES:** Plan and execute the U.S. contributions to the ITER Project. (Objective 2.1)
- **ASCR:** Deliver a plan, with options, for meeting mid-term and long-term OLCF infrastructure needs. (Objective 2.3)
- **ASCR:** Successfully manage the INCITE selection process to optimize scientific impact, as determined by expert review in FY 2011. (Objective 2.4)
- **NP:** Develop and initiate a strategic plan to improve the reliability of HRIBF operation. (Objective 2.3)
- **BES:** Successfully operate SNS and HFIR as premier user facilities, increasing the number of users to reflect the increase in the number of instruments and enhancing the scientific impact of the facilities. Complete and begin implementation of a Science Strategic Plan for Neutron

Sciences aimed at transforming SNS into a “facility known for its scientific excellence.”

Table 2.5 – Goal Final Letter Grade

¹⁰ The final weights to be utilized for determining weighted scores will be determined following the end of the performance period and will be based on actual cost for FY 2011.

GOAL 3.0 Provide Effective and Efficient Science and Technology Program Management

The Laboratory provides effective program vision and leadership; strategic planning and development of initiatives; recruits and retains a quality scientific workforce; and provides outstanding research processes, which improve research productivity.

The weight of this Goal is TBD%.

The Provide Effective and Efficient Science and Technology Program Management Goal shall measure the Contractor's overall management in executing S&T programs. Dimensions of program management covered include: 1) providing key competencies to support research programs to include key staffing requirements; 2) providing quality research plans that take into account technical risks, identify actions to mitigate risks; and 3) maintaining effective communications with customers to include providing quality responses to customer needs.

Each Objective within this Goal is to be assigned the appropriate numerical score by the Office of Science, other cognizant HQ Program Offices, and other customers as identified below. The overall Goal score from each HQ Program Office and/or customer is computed by multiplying numerical scores earned by the weight of each Objective, and summing them (see Table 3.1, 3.2, & 3.3). The final weights to be utilized for determining weighted scores will be determined following the end of the performance period and will be based on actual cost for FY 2011 provided by the Program Offices listed below.

- Office of Science (SC) (TBD%)
- Office of Defense Nuclear Nonproliferation (DNN) (TBD%)
- Department of Homeland Security (DHS) (TBD%)
- Assistant Secretary for Energy Efficiency and Renewable Energy (EERE) (TBD%)
- Assistant Secretary for Fossil Energy (FE) (TBD%)
- Office of Nuclear Energy (NE) (TBD%)
- Office of Electricity Delivery and Emergency Reliability (OE) (TBD%)
- Nuclear Regulatory Commission (NRC) (TBD%)

The overall performance score and grade for this Goal will be determined by multiplying the overall score assigned by each of the offices identified above by the weightings identified for each and then summing them (see Table 3.4 below). The overall score earned is then compared to Table 3.5 to determine the overall letter grade for this Goal. The Contractor's success in meeting each Objective shall be determined based on the Contractor's performance as viewed by the Office of Science, other cognizant HQ Program Offices, and other customers for which the Laboratory conducts work. Should one or more of the HQ Program Offices choose not to provide an evaluation for this Goal and its corresponding Objectives the weighting for the remaining HQ Program Offices shall be recalculated based on their percentage of cost for FY 2011 as compared to the total cost for those remaining HQ Program Offices.

Objectives

3.1 Provide Effective and Efficient Strategic Planning and Stewardship of Scientific Capabilities and Program Vision

In assessing the performance of the Laboratory against this Objective, the following assessment elements should be considered:

- The quality of the Laboratory’s strategic plan;
- The extent to which the Laboratory shows strategic vision for research
- The extent to which programs of research take advantage of Laboratory capabilities—research programs are more than the sum of their individual project parts;
- The extent to which the Laboratory undertakes research for which it is uniquely qualified;
- The extent to which lab plans are aligned with DOE mission goals;
- The extent to which the Laboratory programs are balanced between high-/low- risk research for a sustainable program; and
- The extent to which the Laboratory is able to retain and recruit staff for a sustainable program

The following is a sampling of factors to be considered in determining the level of performance for the Laboratory against this Objective. The evaluator(s) may consider the following as measured through progress reports, peer reviews, Field Work Proposals (FWPs), Program Office reviews/oversight, etc.

- Articulation of scientific vision;
- Development and maintenance of core competencies,
- Ability to attract and retain highly qualified staff;
- Efficiency and effectiveness of joint planning (e.g., workshops) with outside community;
- Creativity and robustness of ideas for new facilities and research programs; and
- Willingness to take on high-risk/high payoff/long-term research problems, evidence that the Laboratory “guessed right” in that previous risky decisions proved to be correct and are paying off.
- The depth and breadth of Laboratory research portfolio and its potential for growth.

Letter Grade	Definition
A+	<p>In addition to satisfying the conditions for B+, the execution of the Laboratory’s strategic plan has enabled the Laboratory to achieve each of the following:</p> <ul style="list-style-type: none"> • <i>Most</i> of the Laboratory’s core competencies are recognized as world leading; • The Laboratory has attracted and retained world-leading scientists in <i>most</i> programs; • There is evidence that previous decisions to pursue high-risk/high-payoff research proved to be correct and are paying off; • The Laboratory has succeeded in developing new core competencies of <i>outstanding</i> quality in areas both exploratory, high-risk research and research that is vital to the DOE/SC missions;
A	<p>In addition to satisfying the conditions for B+, the execution of the Laboratory’s strategic plan has enabled the Laboratory to achieve the following:</p> <ul style="list-style-type: none"> • <i>Several</i> of the Laboratory’s core competencies are recognized as world leading; • The Laboratory has attracted and retained world-leading scientists in <i>several</i> programs; • There is evidence that previous decisions to pursue high-risk/high-payoff research proved to be correct and are paying off • The Laboratory has succeeded in developing <i>new</i> core competencies of <i>high</i> quality in areas both exploratory, high-risk research and research that is vital to the DOE/SC missions

Letter Grade	Definition
A-	<p>In addition to satisfying the conditions for B+, the execution of the Laboratory's strategic plan has enabled the Laboratory to achieve at least one of the following:</p> <ul style="list-style-type: none"> • At least one of the Laboratory's core competencies is recognized as <i>world-leading</i>; • The Laboratory has attracted and retained <i>world-leading</i> scientists in one or more programs; • The Laboratory has a coherent plan for addressing future workforce challenges.
B+	<p>The execution of the Laboratory's strategic plan has enabled the Laboratory to achieve each of the following objectives:</p> <ul style="list-style-type: none"> • The Laboratory has articulated a coherent and compelling strategic plan that has been developed with input from external research communities and headquarters guidance, which, where appropriate, includes a coherent plan for building smaller research programs into new core competencies; and reallocates resources away from less effective programs. • The Laboratory has demonstrated the ability to attract and retain professional scientific staff in support of its strategic vision. • The portfolio of Laboratory research balances the needs for both high-risk/ high-payoff research and stewardship of mission-critical research. • The Laboratory's research portfolio takes advantage of unique capabilities at the Laboratory. • The Laboratory's research portfolio includes activities for which the Laboratory is uniquely capable.
B	<p>The Laboratory fails to satisfy one of the conditions for B+; for example</p> <ul style="list-style-type: none"> • The Laboratory's strategic plan is only <i>partially</i> coherent and is not entirely well-connected with external communities; • The portfolio of Laboratory research does <i>not</i> appropriately balance high-risk/ high-payoff research and stewardship of mission-critical research; • The Laboratory has developed and maintained <i>some, but not all</i>, of its core competencies. • The plan to attract and retain professional scientific staff is <i>lacking</i> strategic vision.
B-	<p>The Laboratory fails to satisfy <i>several</i> of the conditions for B+, including at least one of the following:</p> <ul style="list-style-type: none"> • Weak programmatic vision insufficiently connected with external communities; • Development and maintenance of only a few core competencies • little attention to maintaining the correct balance between high-risk and mission-critical research; • inability to attract and retain talented scientists in some programs.

Letter Grade	Definition
C	<p>The Laboratory fails to satisfy <i>several</i> of the conditions for B+, including at least one of the following reasons:</p> <ul style="list-style-type: none"> • The Laboratory’s strategic plan lacks strategic vision and lacks appropriate coordination with appropriate stakeholders including external research groups. • The Laboratory’s strategic plan does not provide for sufficient maintenance of core competencies • Plan to attract and retain professional scientific staff is unlikely to be successful or does not focus on strategic capabilities.
D	<p>The Laboratory fails to satisfy <i>several</i> of the conditions for B+, and specifically</p> <ul style="list-style-type: none"> • The Laboratory has demonstrated little effort in developing a strategic plan. • The Laboratory has done little to develop and maintain core competencies • The Laboratory has had minimal success in attracting and retaining professional scientific staff.
F	<p>The Laboratory has:</p> <ul style="list-style-type: none"> • Made limited or ineffective attempts to develop a strategic plan; • Not demonstrated the ability to develop and maintain core competencies, has failed to propose high-risk/high-reward research and has failed to steward mission-critical areas; • Failed to attract even reasonably competent scientists and technical staff.

3.2 Provide Effective and Efficient Science and Technology Project/Program/Facilities Management

In assessing the performance of the Laboratory against this Objective, the following assessment elements should be considered:

- The Laboratory’s management of R&D programs and facilities according to proposed plans;
- The extent to which the Laboratory’s management of projects/programs/facilities supports the Laboratory strategic plan
- Adequacy of the Laboratory’s consideration of technical risks;
- The extent to which the Laboratory is successful in identifying/avoiding technical problems;
- Effectiveness in leveraging across multiple areas of research and between research and facility capabilities;
- The extent to which the Laboratory demonstrates a willingness to make tough decisions (i.e., cut programs with sub-critical mass of expertise, divert resources to more promising areas, etc.); and
- The use of LDRD and other Laboratory investments and overhead funds to improve the competitiveness of the Laboratory.

The following is a sampling of factors to be considered in determining the level of performance for the Laboratory against this Objective. The evaluator(s) may consider the following as measured through progress reports, peer reviews, Field Work Proposals (FWPs), Program Office reviews/oversight, etc.

- Laboratory plans that are reviewed by experts outside of lab management and/or include broadly-based input from within the Laboratory.

Letter Grade	Definition
A+	<p>In addition to meeting the all expectations under A,</p> <ul style="list-style-type: none"> The Laboratory has taken extraordinary measures to deliver an extraordinary result of critical importance to DOE missions, which could include the delivery of a critical technology or insight in response to a National emergency
A	<p>In addition to satisfying the conditions for B+,</p> <ul style="list-style-type: none"> The Laboratory’s implementation of project/program/facility plans has led directly to effective R&D programs/facility operations that exceed program expectations in <i>several</i> programmatic areas. Examples are listed under A-.
A-	<p>In addition to satisfying the conditions for B+,</p> <ul style="list-style-type: none"> The Laboratory’s implementation of project/program/facility plans has led directly to effective R&D programs/facility operations that exceed program expectations in <i>more than one</i> programmatic area. Examples of performance that exceeds expectations include: The Laboratory’s implementation of project/program/facility plans has led directly to significant cost savings and/or significantly higher productivity than expected; Project/program/facility plans prove to be robust against changing scientific and fiscal conditions through contingency planning; The Laboratory has demonstrated creativity and forceful leadership in development and/or proactive management of its project/program/facility plans to reduce or eliminate risk; The Laboratory’s proposals for new initiatives are funded through reallocation of resources from less effective programs. Research plans and management actions are proactive, not reactive, as evidenced by making hard decisions and taking strong actions; and Management is prepared for budget fluctuations and changes in DOE program priorities – multiple contingencies are planned for; and LDRD investments, overhead funds, and other Laboratory funds are used to strengthen lab plans and fill critical gaps in the Laboratory portfolio enabling it to respond to future DOE initiatives and/or national emergencies;
B+	<p>The Laboratory has achieved each of the following objectives:</p> <ul style="list-style-type: none"> Project/program/facility plans exist for all major projects/programs/facilities. Project/program/facility plans are consistent with known budgets, are based on reasonable assessments of technical risk, are well-aligned with DOE interests, provide sufficient flexibility to respond to unforeseen directives and opportunities, and effectively leverage other Laboratory resources and expertise. The Laboratory has implemented the project/program/facility plans and has effective methods of tracking progress. The Laboratory demonstrates willingness to make tough decisions (i.e., cut programs with sub-critical mass of expertise, divert resources to more promising areas, etc.). The Laboratory’s implementation of project/program/facility plans has led directly to effective R&D programs/facility operations. LDRD investments and other overhead funds are managed appropriately.

Letter Grade	Definition
B	<ul style="list-style-type: none"> Project/program/facility plans exist for all major projects/programs/facilities. The Laboratory has implemented the project/program/facility plans. BUT the Laboratory fails to meet <i>at least one of</i> the conditions for B+.
B-	<ul style="list-style-type: none"> Project/program/facility plans exist for all major projects/programs/facilities. The Laboratory has implemented the project/program/facility plans. BUT the Laboratory fails to meet <i>several of</i> the conditions for B+.
C	<ul style="list-style-type: none"> Project/program/facility plans exist for most major projects/programs/facilities. BUT the Laboratory has failed to implement the project/program/facility plans AND the Laboratory fails to meet <i>several of</i> the conditions for B+.
D	<ul style="list-style-type: none"> Project/program/facility plans do not exist for a significant fraction of the Laboratory's major projects/programs/facilities; OR <ul style="list-style-type: none"> Significant work at the Laboratory is not in alignment with the project/program/facility plans
F	The Laboratory has failed to conduct project/program/facility planning activities.

3.3 Provide Efficient and Effective Communications and Responsiveness to Headquarters Needs

In assessing the performance of the Laboratory against this Objective, the following assessment elements should be considered:

- The quality, accuracy and timeliness of the Laboratory's response to customer requests for information;
- The extent to which the Laboratory provides point-of-contact resources and maintains effective internal communications hierarchies to facilitate efficient determination of the appropriate point-of-contact for a given issue or program element;
- The effectiveness of the Laboratory's communications and depth of responsiveness under extraordinary or critical circumstances; and
- The effectiveness of Laboratory management in accentuating the importance of communication and responsiveness.

Letter Grade	Definition
A+	In addition to meeting the all expectations under A, <ul style="list-style-type: none"> The Laboratory's effective communication and extraordinary responsiveness in the face of extreme situations or a national emergency had a materially positive impact on the outcome of the event and/or DOE mission objectives

Letter Grade	Definition
A	<p>In addition to satisfying the conditions for B+, the Laboratory also meets all of the following:</p> <ul style="list-style-type: none"> • Laboratory management has instilled a culture throughout the lab that emphasizes good communication practices; • Communication channels are well-defined and information is effectively conveyed; • Responses to HQ requests for information from all Laboratory representatives are prompt, thorough, correct and succinct; important or critical information is delivered in real-time; • Laboratory representatives <i>always</i> initiate a communication with HQ on emerging Laboratory issues; headquarters is never surprised to learn of emerging Laboratory issues through outside channels.
A-	<p>In addition to satisfying the conditions for B+,</p> <ul style="list-style-type: none"> • Laboratory management has instilled a culture throughout the lab that emphasizes good communication practices; and • Responses to requests for information are prompt, thorough, and economical/succinct at all levels of interaction; • Laboratory representatives <i>often</i> initiate communication with HQ on emerging Laboratory issues; • under critical circumstances, essential information is delivered in real-time
B ⁺	<p>The Laboratory has achieved each of the following objectives:</p> <ul style="list-style-type: none"> • Staff throughout the Laboratory organization engage in good communication practices; • Responses to requests for information are prompt and thorough; • The accuracy and integrity of the information provided is never in doubt; • Up-to-date point-of-contact information is widely available for all programmatic areas; • Headquarters is always and promptly informed of both positive and negative events at the Laboratory
B	<p>The Laboratory failed to meet the conditions for B+ <i>in a few instances</i></p>
B-	<p>The Laboratory fails to meet the conditions for B+ for <i>one</i> of the following reasons:</p> <ul style="list-style-type: none"> • Responses to requests for information do not provide the minimum requirements to meet HQ needs; <p>While the integrity of the information provided is never in doubt, its accuracy sometimes is;</p> <ul style="list-style-type: none"> • Laboratory representatives do not take the initiative to alert HQ to emerging Laboratory issues.

Letter Grade	Definition
C	The Laboratory fails to meet the conditions for B+ for <i>one or more</i> of the following reasons: <ul style="list-style-type: none"> • Responses to requests for information frequently fail to provide the minimum requirements to meet HQ needs • The Laboratory used outside channels or circumvented HQ in conveying critical information; • The integrity and/or accuracy of information provided is sometimes in doubt; • Laboratory management fails to demonstrate that its employees are held accountable for ensuring effective communication and responsiveness; • Laboratory representatives failed to alert HQ to emerging Laboratory issues.
D	The Laboratory fails to meet the conditions for B+ for one of the following reasons: <ul style="list-style-type: none"> • Laboratory staff are generally well-intentioned in communication but consistently ineffective and/or incompetent; • The Laboratory management fails to emphasize the importance of effective communication and responsiveness
F	The Laboratory fails to meet the conditions for B+ for one of the following reasons <ul style="list-style-type: none"> • Laboratory staff are openly hostile and/or non-responsive to requests for information – emails and phone calls are consistently ignored; • Responses to requests for information are consistently incorrect, inaccurate or fraudulent – information is not organized, is incomplete, or is fabricated.

Notable Outcomes

- BER: Complete a draft plan for the next generation large-scale, long-term manipulative field experiment. (Objective 3.1)

GOAL 4.0 Provide Sound and Competent Leadership and Stewardship of the Laboratory

This Goal evaluates the Contractor’s Leadership capabilities in leading the direction of the overall Laboratory, the responsiveness of the Contractor to issues and opportunities for continuous improvement, and corporate office involvement/commitment to the overall success of the Laboratory.

In measuring the performance of the above Objectives, the DOE evaluator(s) shall consider performance trends, outcomes and continuous improvement in overall Contractor Leadership’s planning for, integration of, responsiveness to and support for the overall success of the Laboratory. This may include, but is not limited to, the quality of Laboratory Vision/Mission strategic planning documentation and progress in realizing the Laboratory vision/mission; the ability to establish and maintain long-term partnerships/relationships with the scientific and local communities as well as private industry that advance, expand, and benefit the ongoing Laboratory mission(s) and/or provide new opportunities/capabilities; implementation of a robust assurance system; Laboratory and Corporate Office Leadership’s ability to instill responsibility and accountability down and through the entire organization; overall effectiveness of communications with DOE; understanding, management and allocation of the costs of doing business at the Laboratory commensurate with associated risks and benefits; utilization of corporate resources to establish joint appointments or other programs/projects/activities to strengthen the Laboratory; and advancing excellence in stakeholder relations to include good corporate citizenship within the local community.

Objectives:

4.1 Leadership and Stewardship of the Laboratory

By which we mean: The performance of the laboratory’s senior management team as demonstrated by their ability to do such things as:

- Define an exciting yet realistic scientific vision for the future of the laboratory,
- Make progress in realizing the vision for the laboratory,
- Establish and maintain long-term partnerships/relationships that maintain appropriate relations with the scientific and local communities, and
- Develop and leverage appropriate relations with private industry to the benefit of the laboratory and the U.S. taxpayer.

Letter Grade	Definition
A+	The Senior Leadership of the laboratory has made outstanding progress (on an order of magnitude scale) over the previous year in realizing their vision for the laboratory, and has had a demonstrable impact on the Department and the Nation. Strategic plans are of outstanding quality, have been externally recognized and referenced for their excellence, and have an impact on the vision/plans of other national laboratories. The Senior leadership of the laboratory may have been faced very difficult challenges and plotted, successfully, its own course through the difficulty, with minimal hand-holding by the Department. Partners in the scientific and local communities applaud the laboratory in national fora, and the Department is strengthened by this.
A	The Senior Leadership of the laboratory has made significant progress over the previous year in realizing their vision for the laboratory, and has through this has had a demonstrable positive impact on the Office of Science and the Department. Strategic plans are of outstanding quality, and recognize and reflect the vision/plans of other national laboratories. Faced with difficult challenges, actions were taken by the Senior leadership of the laboratory to redirect laboratory activities to enhance the long-term future of the laboratory. Partners in the scientific and local communities applaud the laboratory in national fora, and the Department is strengthened by this.
A-	The laboratory senior management performs better than expected (B+ grade) in these areas.

Letter Grade	Definition
B+	The Senior Leadership of the laboratory has made significant progress over the previous year in realizing their vision for the laboratory. Strategic plans present long range goals that are both exciting and realistic. Decisions and actions taken by the lab leadership align work, facilities, equipment and technical capabilities with the laboratory vision and plan. The Senior leadership of the laboratory faced difficult challenges and successfully plotted its own course through the difficulty, with help from the Department. Partners in the scientific and local communities are supportive of the laboratory.
B	The Senior Leadership of the laboratory has made little progress over the previous year in realizing their vision for the laboratory. Strategic plans present long range goals that are exciting and realistic; however DOE is not fully confident that the laboratory is taking the actions necessary for the goals to be achieved. The Laboratory is not fully engaged with its partners/relationships in the scientific and local communities to maximize the potential benefits these relations have for the laboratory.
C	The Senior Leadership of the laboratory has made no progress over the previous year in realizing their vision for the laboratory or aligning work, facilities, equipment and technical capabilities with the laboratory vision and plan. Strategic plans present long range goals that are either unexciting or unrealistic. Business plans exist, but they are not linked to the strategic plan and do not inspire DOE's confidence that the strategic goals will be achieved. Partnerships with the scientific and local communities with potential to advance the laboratory exist, but they may not always be consistent with the mission of or vision for the laboratory. Affected communities and stakeholders are mostly supportive of the laboratory and aligned with the management's vision for the laboratory.
D	The Senior Leadership of the laboratory has made no progress or has back-slid over the previous year in realizing their vision for the laboratory or in aligning work, facilities, equipment and technical capabilities with the laboratory vision and plan. Strategic plans present long range goals that are neither exciting nor realistic. Partnerships that may advance the Laboratory towards strategic goals are inappropriate, unidentified, or unlikely. Affected communities and stakeholders are not adequately engaged with the laboratory and indicate non-alignment with DOE priorities.
F	The Senior Leadership of the laboratory has made no progress or has back-slid over the previous year in realizing their vision for the laboratory or in or aligning work, facilities, equipment and technical capabilities with the laboratory vision and plan. Strategic plans present long range goals that are not aligned with DOE priorities or the mission of the laboratory. Partnerships that may advance the Laboratory towards strategic goals are inappropriate, unidentified, and unlikely, and/or the senior management team does not demonstrate a concerted effort to develop, leverage, and maintain relations with the scientific and local communities to assist the laboratory in achieving a successful future. Affected communities and stakeholders are openly non-supportive of the laboratory and DOE priorities.

4.2 Management and Operation of the Laboratory

By which we mean: The performance of the laboratory's senior management team as demonstrated by their ability to do such things as:

- Implement a robust contractor assurance system,

- Understand the costs of doing business at the laboratory and prioritize the management and allocation of these costs commensurate with their associated risks and benefits,
- Instill a culture of accountability and responsibility down and through the entire organization;
- Ensure good and timely communication between the laboratory and SC headquarters and the Site Office so that DOE can deal effectively with both internal and external constituencies.

Letter Grade	Definition
A+	<p>The laboratory has a nationally or internationally recognized contractor assurance system in place that integrates internal and external (corporate) evaluation processes to evaluate risk, and is working to help others internal and external to the Department establish similarly outstanding practices. The laboratory understands the drivers of cost at their lab, and are prioritizing and managing these costs commensurate with the associated risks and benefits to the laboratory and the SC laboratory system.</p> <p>Laboratory management and processes reflect a sense of accountability and responsibility with is evident down and through the entire organization. Communication between the laboratory and SC headquarters and the Site Office is such that all the national laboratories and the Department as a whole benefits.</p>
A	<p>The laboratory has improved dramatically in the last year in all of the following: building a robust and transparent contractor assurance system that integrates internal and external (corporate) evaluation processes to evaluate risk; demonstrating the use of this system in making decisions that are aligned with the laboratory’s vision and strategic plan; understanding the drivers of cost at their lab, and prioritizing and managing these costs consistent with their associated risks and benefits to the laboratory and the SC laboratory system; demonstrating laboratory management and processes reflect a sense of accountability and responsibility with is evident down and through the entire organization; assuring communication between the laboratory and SC headquarters that is beneficial to both the lab and SC.</p>
A-	<p>The laboratory senior management performs better than expected (B+ grade) in these areas.</p>
B+	<p>The laboratory has a robust and transparent contractor assurance system in place that integrates internal and external (corporate) evaluation processes to evaluate risk. The laboratory can demonstrate use of this system in making decisions that are aligned with the laboratory’s vision and strategic plan. The laboratory understands the drivers of cost at their lab, and are prioritizing and managing these costs commensurate with the associated risks and benefits to the laboratory and the SC laboratory system.</p> <p>Laboratory management and processes reflect a sense of accountability and responsibility with is evident down and through the entire organization.</p> <p>Communication between the laboratory and SC headquarters and the Site Office is such that there are no surprises or embarrassments.</p>
B	<p>The laboratory has a contractor assurance system in place but further improvements are necessary, or the link between the CAS and the laboratory’s decision-making processes are not evident. The laboratory understands the drivers of cost at their lab, but they are not prioritizing and managing these costs as well as they should to be commensurate with the associated risks and benefits to the laboratory and the SC laboratory system.</p> <p>Laboratory management and processes reflect a sense of accountability and responsibility with is mostly evident down and through the entire organization.</p> <p>Communication between the laboratory and SC headquarters and the Site Office is such that there are no significant surprises or embarrassments.</p>

C	The laboratory lacks a robust and transparent contractor assurance system in place that integrates internal and external (corporate) evaluation processes to evaluate risk. The laboratory cannot demonstrate use of this system in making decisions that are aligned with the laboratory’s vision and strategic plan. The laboratory does not fully understand the drivers of cost at their lab, and thus are not prioritizing and managing these costs as well as they should to be commensurate with the associated risks and benefits to the laboratory and the SC laboratory system. Communication between the laboratory and SC headquarters and the Site Office is such that there has been at least one significant surprise or embarrassment.
D	The laboratory lacks a contractor assurance system, doesn’t understand the drivers of cost at their lab, and is not prioritizing and managing costs. SC HQ must intercede in management decisions. Poor communication between the laboratory and SC headquarters and the Site Office has resulted in more than one significant surprise or embarrassment.
F	Lack of management by the laboratory’s senior management has put the future of the laboratory at risk, or has significantly hurt the reputation of the Office of Science.

4.3 Contractor Value-added

By which we mean: the additional benefits that accrue to the laboratory and the Department of Energy by virtue of having this particular M&O contractor in place. Included here, typically, are things over which the laboratory leadership does not have immediate authority, such as:

- Corporate involvement/contributions to deal with challenges at the laboratory;
- Using corporate resources to establish joint appointments or other programs/projects/activities that strengthen the lab, and
- Providing other contributions to the laboratory that that enable the lab to do things that are good for the laboratory and its community and that DOE cannot supply.

Letter Grade	Definition
A+	The laboratory has been transformed as a result of the many, substantial, additional benefits that accrue to the lab as a result of this contractor’s operation of the laboratory.
A	Over the past year, the laboratory has become demonstrably stronger, better and more attractive as a place of employment as a result of the many, substantial, additional benefits that accrue to the lab as a result of this contractor’s operation of the laboratory.
A-	The laboratory senior management performs better than expected (B+ grade) in these areas.
B+	The laboratory enjoys additional benefits above and beyond those associated with managing the laboratory’s activities, that accrue as a result of this contractor’s operation of the laboratory.
B	The laboratory enjoys few additional benefits that accrue as a result of this contractor’s operation of the laboratory; help by the contractor is needed to strengthen the laboratory.
C	The laboratory enjoys few additional benefits that accrue as a result of this contractor’s operation of the laboratory; the contractor seems unable to help the laboratory.

Letter Grade	Definition
D	The laboratory enjoys few additional benefits that accrue as a result of this contractor's operation of the laboratory; the contractor's efforts are inconsistent with the interests of the laboratory and the Department.
F	The laboratory enjoys no additional benefits that accrue as a result of this contractor's operation of the laboratory; the contractor's efforts are counter-productive to the interests of the Department.

Notable Outcomes

- Make measurable progress in identifying and deploying methods for reducing the cost of doing business, in a manner that makes additional resources available for mission. (Objective 4.2)
- Demonstrate the use of the full suite of resources at their disposal (including the expertise of laboratory scientists and engineers) to develop innovative, crosscutting strategies for meeting the Executive Order 13514 Goals. (Objectives 4.2, 4.3)

ELEMENT	Letter Grade	Numerical Score	Objective Weight	Total Points	Total Points
Goal 4.0 – Provide Sound and Competent Leadership and Stewardship of the Laboratory					
4.1 Leadership and Stewardship of the Laboratory			33%		
4.2 Management and Operation of the Laboratory			33%		
4.3 Contractor Value-Added			34%

Table 4.2 – 4.0 Goal Final Letter Grade

GOAL 5.0 Sustain Excellence and Enhance Effectiveness of Integrated Safety, Health, and Environmental Protection

The weight of this Goal is 30%.

This Goal evaluates the Contractor’s overall success in deploying, implementing, and improving integrated ES&H systems that efficiently and effectively support the mission(s) of the Laboratory.

- 5.1 Provide an Efficient and Effective Health and Safety Program
- 5.2 Provide Efficient and Effective Environmental Management System

In measuring the performance of the above Objectives, the DOE evaluator(s) shall consider performance trends, outcomes and continuous improvement in protecting workers, the public, and the environment. This may include, but is not limited to, minimizing the occurrence of environment, safety and health (ESH) incidents; effectiveness of the Integrated Safety Management (ISM) system; effectiveness of contractor assurance, work planning, feedback, and improvement processes; the strength of the safety culture throughout the Laboratory; the effective development, implementation and maintenance of an efficient Environmental Management system; and the effectiveness of responses to identified hazards and/or incidents.

ELEMENT	Letter Grade	Numerical Score	Objective Weight	Total Points	Total Points
Goal 5.0 - Sustain Excellence and Enhance Effectiveness of Integrated Safety, Health, and Environmental Protection.					
5.1 Provide an Efficient and Effective Health and Safety Program			60%		
5.2 Provide an Efficient and Effective Environmental Management System			40%

Table 5.2 – 5.0 Goal Final Letter Grade

GOAL 6.0 Deliver Efficient, Effective, and Responsive Business Systems and Resources that Enable the Successful Achievement of the Laboratory Mission(s)

The weight of this Goal is 25%.

This Goal evaluates the Contractor’s overall success in deploying, implementing, and improving integrated business systems that efficiently and effectively support the mission(s) of the Laboratory.

- 6.1 Provide an Efficient, Effective, and Responsive Financial Management System(s)
- 6.2 Provide an Efficient, Effective, and Responsive Acquisition Management System
- 6.3 Provide an Efficient, Effective, and Responsive Property Management System
- 6.4 Provide an Efficient, Effective, and Responsive Human Resources Management System and Diversity Program
- 6.5 Provide Efficient, Effective, and Responsive Management Systems for Internal Audit and Oversight; Quality; Information Management; Assurance System and Other Administrative Support Services as Appropriate
- 6.6 Demonstrate Effective Transfer of Technology and Commercialization of Intellectual Assets

In measuring the performance of the above Objectives, the DOE evaluator(s) shall consider performance trends, outcomes and continuous improvement in the development, deployment and integration of foundational program (e.g., Quality, Financial Management, Acquisition Management, Requirements Management, and Human Resource Management) systems across the Laboratory. This may include, but is not limited to, minimizing the occurrence of management systems support issues; quality of work products; continual improvement and improvement driven by the results of audits, reviews, and other performance information; the integration of system performance metrics and trends; the degree of knowledge and appropriate utilization of established system processes/procedures by Contractor management and staff; benchmarking and performance trending analysis. The DOE evaluator(s) shall also consider the stewardship of the pipeline of innovations and resulting intellectual assets at the Laboratory along with impacts and returns created/generated as a result of technology transfer, work for others and intellectual asset deployment activities.

Notable Outcomes

- Demonstrate efficient and effective execution of all American Recovery and Reinvestment Act (ARRA) activities at the laboratory. (Objectives 6.2)
- Leverage improvements in the Assurance and Assessment system, providing DOE with sufficient high confidence in performance that DOE’s oversight investment can be re-structured to focus on fewer, higher risk activities. (Objective 6.5)

ELEMENT	Letter Grade	Numerical Score	Objective Weight	Total Points	Total Points
Goal 6.0 - Deliver Efficient, Effective, and Responsive Business Systems and Resources that Enable the Successful Achievement of the Laboratory Mission(s)					
6.1 Provide an Efficient, Effective, and Responsive Financial Management System(s)			20%		
6.2 Provide an Efficient, Effective, and Responsive Acquisition Management System			20%		
6.3 Provide an Efficient, Effective, and Responsive Property Management System			5%		
6.4 Provide an Efficient, Effective, and Responsive Human Resources Management System and Diversity Program			15%		
6.5 Provide Efficient, Effective, and Responsive Management Systems for Internal Audit and Oversight; Quality; Information Management; Assurance System; and Other Administrative Support Services as Appropriate			30%		
6.6 Demonstrate Effective Transfer of Technology and Commercialization of Intellectual Assets			10%

Table 6.2 – 6.0 Goal Final Letter Grade

GOAL 7.0 Sustain Excellence in Operating, Maintaining, and Renewing the Facility and Infrastructure Portfolio to Meet Laboratory Needs

The weight of this Goal is 25%.

This Goal evaluates the overall effectiveness and performance of the Contractor in planning for, delivering, and operations of Laboratory facilities and equipment needed to ensure required capabilities are present to meet today’s and tomorrow’s mission(s) and complex challenges.

- 7.1 Manage Facilities and Infrastructure in an Efficient and Effective Manner that Optimizes Usage, Minimizes Life Cycle Costs, and Ensures Site Capability to Meet Mission Needs
- 7.2 Provide Planning for and Acquire the Facilities and Infrastructure Required to Support the Continuation and Growth of Laboratory Missions and Programs

In measuring the performance of the above Objectives, the DOE evaluator(s) shall consider performance trends, outcomes and continuous improvement in facility and infrastructure programs. This may include, but is not limited to, the management of real property assets to maintain effective operational safety, worker health, environmental protection and compliance, property preservation, and cost effectiveness; effective facility utilization, maintenance and budget execution; day-to-day management and utilization of space in the active portfolio; maintenance and renewal of building systems, structures and components associated with the Laboratory’s facility and land assets; management of energy use and conservation practices; the integration and alignment of the Laboratory’s comprehensive strategic plan with capabilities; facility planning, forecasting, and acquisition; the delivery of accurate and timely information required to carry out the critical decision and budget formulation process; quality of site and facility planning documents; and Cost and Schedule Performance Index performance for facility and infrastructure projects.

Notable Outcomes

- Utilize an integrated infrastructure management program that ensures effective coordination within ORNL and with DOE and effectively integrates work scope from multiple external funding sources, as well as SC. (Objective 7.1)

ELEMENT	Letter Grade	Numerical Score	Objective Weight	Total Points	Total Points
Goal 7.0 - Sustain Excellence in Operating, Maintaining, and Renewing the Facility and Infrastructure Portfolio to Meet Laboratory Needs.					
7.1 Manage Facilities and Infrastructure in an Efficient and Effective Manner that Optimizes Usage, Minimizes Life Cycle Costs, and Ensures Site Capability to Meet Mission Needs			50%

Table 7.2 – 7.0 Goal Final Letter Grade

GOAL 8.0 Sustain and Enhance the Effectiveness of Integrated Safeguards and Security Management (ISSM) and Emergency Management Systems

The weight of this Goal is 20%.

This Goal evaluates the Contractor’s overall success in safeguarding and securing Laboratory assets that supports the mission(s) of the Laboratory in an efficient and effective manner and provides an effective emergency management program.

- 8.1 Provide an Efficient and Effective Emergency Management System
- 8.2 Provide an Efficient and Effective System for Cyber-Security and National Security Systems (NSS)
- 8.3 Provide an Efficient and Effective System for the Physical Security and Protection of Special Nuclear Materials, Classified Matter, and Property
- 8.4 Provide an Efficient and Effective System for the Protection of Classified and Sensitive Information

In measuring the performance of the above Objectives, the DOE evaluator(s) shall consider performance trends, outcomes and continuous improvement in the safeguards and security, cyber security and emergency management program systems. This may include, but is not limited to, the commitment of leadership to strong safeguards and security, cyber security and emergency management systems; the integration of these systems into the culture of the Laboratory; the degree of knowledge and appropriate utilization of established system processes/procedures by Contractor management and staff; maintenance and the appropriate utilization of Safeguards, Security, and Cyber risk identification, prevention, and control processes/activities; and the prevention and management controls and prompt reporting and mitigation of events as necessary.

15C. DATE SIGNED 4/26/11	16C. DATE SIGNED 04/27/2011

The purpose of this modification is to amend contract clause **H-49, DEFINITION OF UNUSUALLY HAZARDOUS OR NUCLEAR RISK FOR FAR CLAUSE 52.250-1 INDEMNIFICATION UNDER PUBLIC LAW 85-804**, to include activities responding to the Japan Earthquake and Tsunami to the definition of unusually hazardous or nuclear risk for which the contractor has been provided Public Law 85-804 indemnification. On March 31, 2011, the Secretary of Energy issued a Secretarial Determination Authorizing Public Law 85-804 Indemnification for Contractors involved in the response to the earthquake, tsunami and related events, including efforts to address and assess damage to nuclear power plants and potential releases from these plants now and in the future. This authorization may be exercised retroactively in applicability with respect to tasks or activities on or after March 11, 2011.

All other terms and conditions remain unchanged.

Therefore, the contract is modified as follows:

- 1) Clause **H-49, DEFINITION OF UNUSUALLY HAZARDOUS OR NUCLEAR RISK FOR FAR CLAUSE 52.250-1 INDEMNIFICATION UNDER PUBLIC LAW 85-804** is amended to incorporate under section (a) of the clause the following:
 - (6) Participation in tasks or activities by UT-Battelle or its subcontractors on or after March 11, 2011 that is directed or authorized by the U.S. Department of Energy or the U.S. Department of Energy National Nuclear Security Administration as an element of activities taken in response to the Japanese earthquake and tsunami, including efforts to address and assess damage to nuclear power plants and potential radioactive releases from these plants now and in the future.

6. ISSUED BY Oak Ridge U.S. Department of Energy P.O. Box 2001 Oak Ridge TN 37831	CODE 00518	7. ADMINISTERED BY (if other than Item 6) Oak Ridge U.S. Department of Energy P.O. Box 2001 Oak Ridge TN 37831	CODE 00518
8. NAME AND ADDRESS OF CONTRACTOR (No., street, county, State and ZIP Code) UT-BATTELLE, LLC Attn: Quinn Windham, Director Prime Contract Administration Post Office Box 2008 OAK RIDGE TN 37831-6231		(x) 9A. AMENDMENT OF SOLICITATION NO.	9B. DATED (SEE ITEM 11)
CODE 099114287	FACILITY CODE	x 10A. MODIFICATION OF CONTRACT/ORDER NO. DE-AC05-00OR22725	10B. DATED (SEE ITEM 13) 10/18/1999

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (if required) Net Increase: \$90,432.11

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) 970.5232-4 OBLIGATION OF FUNDS (DEC 2000) and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return _____ 0 _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

Pursuant to the provisions of Clause I.153, the first sentence of paragraph (a) is hereby changed to read as follows: The amount presently obligated by the Government with respect to this contract is \$12,288,417,019.85. This represents an increase of \$90,432.11, from \$12,288,326,587.74 to \$12,288,417,019.85.

FOB: Destination

Period of Performance: 04/01/2000 to 03/31/2015

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

STANDARD FORM 30 (REV. 10-83)
Prescribed by GSA
FAR (48 CFR) 53.243

The purpose of this modification is to replace contract clause **H-46, OTHER PATENT RELATED MATTERS**, in its entirety. This modification finalizes the parties' agreement during contract extension negotiations to amend the clause primarily to reduce the contractor's spending commitment over the five-year extension period, to change the division of income from "net income" to "adjusted gross income," and to increase the time for the contractor to elect inventions under the Privately Funded Technology Transfer (PFTT) program. The Department of Energy (DOE) used this modification effort to align the PFTT clause components more closely to the PFTT clause language and requirements found in other DOE Science Laboratory contracts.

All other terms and conditions remain unchanged.

Therefore, the contract is modified as follows:

Clause **H-46, OTHER PATENT RELATED MATTERS**, is deleted in its entirety and replaced with the following:

H-46 Other Patent Related Matters

(a) Contractor's Commitment

For the Contractor's privately-funded technology transfer (PFTT) effort during the 5-year term of this Contract beginning on April 1, 2010, the Contractor shall commit to at least \$1,750,000 of private monies for expenses including those related to patenting, marketing, licensing, and development of Subject Inventions during the 5-year period and prior to the contract expiration date of March 31, 2015. Inventions elected into PFTT program after April 1, 2005 and prior to March 31, 2010, including those inventions listed in Modification No. M158 (April 13, 2007), shall be governed by the terms of the Contractor's Prime Contract Number DE-AC05-00OR22725 in effect at that time.

(b) Transfer of Patent Rights to a Successor Contractor

As consideration for the Contractor's commitment defined in paragraph (a) of this clause, the Parties agree that at the termination or expiration of this Contract, the following terms and conditions shall apply to Subject Inventions which were elected to be pursued under the Contractor's PFTT program after March 31, 2010, and to the licenses and royalties generated therefrom:

- (1) In the event the Contractor has executed a license, assignment or other commercialization agreement to a Subject Invention prior to termination or expiration of this Contract in which royalties, fees, equity or other consideration is to be or has been paid (hereinafter "agreement"), the distribution of income from royalties, equity, or any other consideration received or to be received under such agreement shall remain as prior to

Contract termination or expiration and shall continue for the duration of such agreement. Distribution of income to the Successor Contractor for use at the Facility pursuant to its contract (or to such other entity designated by the Government) shall be as set forth in paragraph (e) below. Administration of agreements and title to such Subject Invention shall remain with the Contractor provided the Contractor has fulfilled the commitments set forth in paragraph (a) above. If the Contractor has not fulfilled the commitments set forth in paragraph (a) above, upon request, administration of agreements and title to such Subject Invention shall be transferred to the Successor Contractor, or such other entity designated by the Government.

- (2) In the event Contractor has not executed an agreement (as defined in paragraph (1) above) to a Subject Invention, upon request, title to such Subject Invention shall be transferred to the Successor Contractor, or to such other entity designated by the Government, unless Contractor can demonstrate that it has expended at least twenty thousand dollars (\$20,000) of private monies in its PFTT program toward the patenting, licensing, marketing and/or development of such Subject Invention, and the Contractor has fulfilled the commitments set forth in paragraph (a) above. In the event Contractor retains title to a Subject Invention under this paragraph, the distribution of royalties, fees, equity, or other consideration from such agreement shall be as set forth in paragraph (e) below.
- (3) In the event Contractor retains title to Subject Inventions under paragraphs (1) or (2) above, and executes an agreement (as defined in paragraph (1) above) to such Subject Inventions after the termination or expiration of this Contract, the distribution of royalties, fees, equity or other consideration from such agreement shall be as set forth in paragraph (e) below.
- (4) The Contractor and the Government shall enter negotiations prior to such termination or expiration with respect to retention of the title to Subject Inventions. Such negotiations shall consider the equities of the Parties with respect to each Subject Invention and shall take into consideration the presence of private investment, DOE's need for continued operation of the Facility, potential commercial use, assumption of patent related liabilities, effective technology transfer, and the need to market the technology. Such negotiations shall not change the disposition of title provided for in paragraphs (1) and (2) above unless mutually agreed by the Contractor and the Government.
- (5) For any Subject Invention to which the Contractor maintains title or administration of an agreement under paragraphs (b)(1)-(2) above, the

Contractor agrees that, to the extent it is able to do so in view of prior licenses or assignments, it will negotiate in good faith to enable the Successor Contractor to practice such subject invention in the performance of CRADAs, Work For Others agreements, licenses or other appropriate agreements, in order to fulfill the missions and programs of the Facility. It is the intent of the Contractor to enable the Successor Contractor to continue operation of the Facility, including the Facility's technology transfer program. In any event, the Successor Contractor retains the nonexclusive royalty-free right to practice the Subject Invention on behalf of the U.S. Government.

- (6) The provisions of paragraph (b)(1), (2), (3), and (5) above survive expiration or termination of the Contract.
- (c) Costs
- (1) Except as otherwise specified in the clause of this Contract entitled, *Technology Transfer Mission*, as allowable costs for conducting activities pursuant to provisions of that clause, no costs are allowable as direct or indirect costs for the preparation, filing, or prosecution of patent applications or the payment of maintenance fees, licensing, marketing and development costs after the Contractor elects to pursue commercialization of a Subject Invention under its PFTT program pursuant to paragraph (g) below.
 - (2) If an extension of time for election of a Subject Invention for PFTT is approved in accordance with paragraph (g) below, Contractor shall reimburse all allowable costs incurred with respect to such Subject Invention during the time period of the extension. The Contractor shall also reimburse all patent costs that are incurred under the Contract for all Subject Inventions elected to be treated under PFTT regardless, of when such costs are incurred.
 - (3) In the case of Contractor's PFTT program, the Contractor shall certify annually that all costs incurred, including, but not limited to, those for licensing, marketing, and development after the Contractor elects to treat a subject invention as PFTT have been and will be paid solely from the Contractor's PFTT program.
 - (4) Within 90 days after the end of each Fiscal Year or at contract termination or expiration, the Contractor shall submit a report covering the previous Fiscal Year which:
 - (i) lists the invention disclosures elected and/or patent applications filed under its PFTT program;

- (ii) certifies the total amount of private monies it expended during the Fiscal Year, including those expenses related to patenting, marketing, licensing and development of Subject Inventions as required by Section H entitled, *Other Patent Related Matters*, subsection (a); and
 - (iii) certifies the amount of gross income received from its PFTT program during the Fiscal Year.
- (d) Liability of the Government
 - (1) All costs, including litigation costs, associated with and attributed to Contractor's privately funded technology transfer program are unallowable regardless of the stage of technology development or background intellectual property existing at the time the Subject Invention is chosen for management under the PFTT program, and notwithstanding the inclusion of publicly funded intellectual property in the Contractor's PFTT program activities.
 - (2) The Contractor shall not include in any license agreement or assignment any guarantee or requirement that would obligate the Government to pay any costs or create any liability on behalf of the Government.
 - (3) The Contractor shall include in all licensing agreements and in any assignment of title the following clauses unless otherwise approved or directed by the Contracting Officer following consultation with DOE Patent Counsel:
 - (i) "This agreement is entered into by UT-Battelle, LLC (UT-Battelle) in its private capacity. It is understood and agreed that the U.S. Government is not a party to this agreement and in no manner whatsoever shall be liable for nor assume any responsibility or obligation for any claim, cost or damages arising out of or resulting from this agreement or the subject matter licensed or assigned."
 - (ii) "Nothing in this Agreement shall be deemed to be a representation or warranty by UT-Battelle or the U.S. Government of the validity of any of the patents or the accuracy, safety, or usefulness for any purpose, of any TECHNICAL INFORMATION, techniques, or practices at any time made available by UT-Battelle. Neither the U.S. Government nor UT-Battelle nor any member company of UT-Battelle shall have any liability whatsoever to LICENSEE or any other person for or on account of any injury, loss, or damage of any kind or nature sustained by, or any damage assessed or

asserted against, or any other liability incurred by or imposed upon LICENSEE or any other person, arising out of or in connection with or resulting from:

- (A) The production, use, or sale of any apparatus or product, or the practice of the INVENTIONS;
- (B) The use of any TECHNICAL INFORMATION, techniques, or practices disclosed by UT-Battelle; or
- (C) Any advertising or other promotional activities with respect to any of the foregoing, and LICENSEE shall hold the U.S. Government, UT-Battelle, and any member company of UT-Battelle harmless in the event the U.S. Government, UT-Battelle, or any member company of UT-Battelle is held liable.

UT-Battelle represents that it has the right to grant all of the rights granted herein, except as to such rights as the Government of the United States of America may have or may assert."

(e) Distribution of Adjusted Gross Income

For purposes of this clause "Adjusted Gross Income" equals all revenue received by Contractor minus the inventor's share less any payments (royalties, fees, etc.) to third parties by virtue of license agreements or inter-institutional agreements with third parties (e.g., joint university or other collaboration with for-profit company) which obligates Contractor to share royalties with those third parties.

In the event the Contractor engages in a PFTT program under this clause such that private funds are utilized for technology transfer after the Contractor elects to pursue privately-funded commercialization of a Subject Invention elected after March 31, 2010 or after the Contractor has received permission from the Contracting Officer to assert statutory copyright in a software program after March 31, 2010 and received DOE approval to commercialize such software under its PFTT program under paragraph (i) below, Adjusted Gross Income from such PFTT program shall be distributed as follows:

(1) Basic Distribution

For annual Adjusted Gross Income less than one million dollars (\$1 million), thirty percent (30%) of Adjusted Gross Income shall be returned and used at the Facility for scientific research, development and education consistent with the research and development objectives of the Facility. The remainder of such Adjusted Gross Income may be used as the Contractor deems appropriate consistent with 35 USC 200 *et seq.* The amount of Adjusted Gross Income to be returned and used at the Facility

shall be calculated on an annual basis consistent with the Contractor's accepted accounting practices.

(2) Adjustment of Distribution

In the event the annual Adjusted Gross Income under the Contractor's privately funded technology program is in excess of one million dollars (\$1 million) during any one year, the percentage of Adjusted Gross Income to be returned and used at the Facility for that year shall be as follows:

In excess of \$1 million, up to \$3 million	30% of Adjusted Gross Income up to \$1 million; plus 25% of Adjusted Gross Income in excess of \$1 million, up to \$3 million
In excess of \$3 million, up to \$5 million	30% of Adjusted Gross Income up to \$1 million; plus 25% of Adjusted Gross Income in excess of \$1 million, up to \$3 million; plus 20% of Adjusted Gross Income in excess of \$3 million, up to \$5 million
In excess of \$5 million	30% of Adjusted Gross Income up to \$1 million; plus 25% of Adjusted Gross Income in excess of \$1 million, up to \$3 million; plus 20% of Adjusted Gross Income in excess of \$3 million, up to \$5 million; plus 15% of Adjusted Gross Income in excess of \$5 million

(3) The foregoing distribution shall also apply to equity interests received from third parties pursuant to paragraph (f).

(4) If this distribution of income structure is determined by the Parties to be detrimental to attracting investors and growing the laboratory's technology commercialization program, the Parties agree to negotiate a new structure more favorable to the investment community at the time such determination is made.

(f) Equity Plan

It is the intent of the Government and the Contractor that the Contractor shall, in its discretion, take reasonable and prudent actions from both a commercial and stewardship of the Facility's technology transfer perspective related to the ownership of equity received from third parties under this Contract. Contractor shall submit to the Contracting Officer a plan, which shall set forth principles for

the Contractor's acquisition, retention, and disposition of equity received from third parties as consideration for licenses or assignments granted to such third parties. Such plan shall consider, at a minimum:

- (1) The manner in which the Contractor shall acquire such equity in a third party, including the manner in which Contractor shall apportion capital contributions to such third party between the relative value of private Contractor contributions and the value of contributions representing a license under a Subject Invention;
 - (2) The manner in which the Contractor shall hold such equity, given that the Government has an undivided interest in that portion of such equity representing the value of contributions resulting from a license to such Subject Invention;
 - (3) The manner in which the Contractor shall dispose of such equity, giving due consideration to the potential for a conflict of interest between the interests of the Government and the Contractor; and
 - (4) The manner in which Contractor's inventors are compensated.
- (g) The Contractor shall indicate whether a Subject Invention will be pursued under its government-funded technology transfer program or its PFTT program within nine (9) months after the Subject Invention is reported to the DOE, unless an extension is otherwise agreed in writing by the DOE Patent Counsel.
- (h) In its PFTT program, the Contractor shall be substantially guided by the principles of U.S. Competitiveness and Fairness of Opportunity as set forth herein.
- (i) When requesting approval from DOE to assert statutory copyright in a particular software package pursuant to the clause entitled, *Rights in Data—Technology Transfer*, Contractor may request that commercialization of such software proceed under the provisions of Section H entitled, *Other Patent Related Matters*. If approved, no costs of such commercialization thereafter shall be allowable, and the proceeds of such commercialization shall be treated in accordance with paragraph (a) above as if such proceeds had resulted from the commercialization of a Subject Invention. Upon termination or expiration of the Contract, such software will be treated as if such software were a Subject Invention elected under Contractor's PFTT program. Disposition of title to such software will be governed by the provisions of paragraphs (b)(1)-(b)(5) above, except that the \$20,000 expenditure requirement for Subject Inventions set forth in paragraph (b)(2) is not applicable to such software.

- (j) Contractor's PFTT program shall be conducted so as to avoid interference with or adverse effects on Contractor's performance of other activities authorized by the Contract, including its government-funded technology transfer program.
- (k) The Contractor shall have procedures implementing its PFTT program. Such implementing procedures shall be provided to the Contracting Officer for review and approval within ninety (90) days after execution of the contract modification authorizing PFTT. The Contractor shall provide any proposed changes to such procedures to the Contracting Officer for review and approval prior to implementation. The Contracting Officer shall have thirty (30) days thereafter to approve or require specific changes to such procedures.
- (l) To the extent DOE unilaterally determines:
 - (1) The Laboratory's mission or function is being negatively impacted; or
 - (2) It provides the most effective technology transfer program,

DOE retains the right to require all or certain portions of Contractor's PFTT program to be administered by a non-laboratory employee(s). Non-laboratory employees shall not utilize any Laboratory facilities without the prior written approval of the Contracting Officer.

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT		1. CONTRACT ID CODE	PAGE OF PAGES 1 1	
2. AMENDMENT/MODIFICATION NO. 542	3. EFFECTIVE DATE See Block 16C	4. REQUISITION/PURCHASE REQ. NO. 11SC004237	5. PROJECT NO. (If applicable)	
6. ISSUED BY Oak Ridge U.S. Department of Energy P.O. Box 2001 Oak Ridge TN 37831	CODE 00518	7. ADMINISTERED BY (If other than Item 6) Oak Ridge U.S. Department of Energy P.O. Box 2001 Oak Ridge TN 37831	CODE 00518	
8. NAME AND ADDRESS OF CONTRACTOR (No., street, county, State and ZIP Code) UT-BATTELLE, LLC Attn: Quinn Windham, Director Prime Contract Administration Post Office Box 2008 OAK RIDGE TN 37831-6231		(x) 9A. AMENDMENT OF SOLICITATION NO.	9B. DATED (SEE ITEM 11)	
CODE 099114287 FACILITY CODE		x 10A. MODIFICATION OF CONTRACT/ORDER NO. DE-AC05-000R22725	10B. DATED (SEE ITEM 13) 10/18/1999	

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended. Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
	D. OTHER (Specify type of modification and authority)
X	952.215-70 KEY PERSONNEL (DEC 2000), P.L. 95-91, and Mutual Agreement

E. IMPORTANT: Contractor is not, is required to sign this document and return 2 copies to the issuing office.

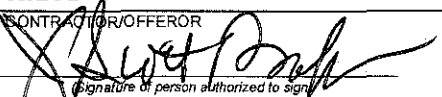

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

The purpose of this modification is to replace Appendix B of Section J in the contract with the attached revised list of key personnel. The revised list reflects the replacement of Greg Turner with Scott Branham as Chief Financial Officer, Business and Information Services.

FOB: Destination

Period of Performance: 04/01/2000 to 03/31/2015

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

PROJECT: Contract Baseline Documentation

LOCATION: Oak Ridge, Tennessee

CONTRACTOR: UT-Battelle, LLC

CONTRACT NO.: DE-AC05-00OR22725, Clause I-124, Laws,
Regulations, and DOE Directives (DEC
2000), DEAR 970.5204-2

DATE OF CONTRACT: April 1, 2010

This Requirements Change Notice (RCN) No. OR-45 incorporates into Appendix E, Contract No. DE-AC05-00OR22725, the attached list of applicable documents, which have been assessed against the terms and conditions of the subject contract in accordance with the above-referenced clause. This is a complete numbered list of administrative requirements and a representation of environment, safety, and health (ES&H) requirements. Information regarding ES&H-related directives and their applicability can only be obtained from specific WSS sets. ES&H-related directives in WSS sets have an ES&H footnote. Changes to Appendix E are indicated by bold type. Below is a list of the directives incorporated herein:

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended. Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required) Net Increase: \$296,476,837.03

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) 970.5232-4 OBLIGATION OF FUNDS (DEC 2000) and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

Pursuant to the provisions of Clause I.153, the first sentence of paragraph (a) is hereby changed to read as follows: The amount presently obligated by the Government with respect to this contract is \$12,713,412,586.26. This represents an increase of \$296,476,837.03, from \$12,416,935,749.23 to \$12,713,412,586.26.

Included in this obligation are Non-Appropriated Funds (NAF) in the amount of \$8,571,919.59. Cumulative obligations of NAF since Modification 234 are \$192,816,113.99.

Period of Performance: 04/01/2000 to 03/31/2015

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print) J. Scott Branham Chief Financial Officer		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) Mark A. Million	
15B. CONTRACTOR/OFFEROR  (Signature of person authorized to sign)	15C. DATE SIGNED 7-14-11	16B. UNITED STATES OF AMERICA  (Signature of Contracting Officer)	16C. DATE SIGNED 7/14/11

This modification is issued to reflect definitization of negotiations on the Contractor's proposal entitled "Removal and Disposition of Certain Legacy Materials from 9204-3", dated July 30, 2010. In accordance with the "Changes" clause in the contract, DOE and the Contractor mutually agree that this work represents a material increase in the level of the Contractor's management effort under the contract; therefore, the Contractor is due an equitable fee for such additional services. The total estimated cost agreed to by the parties during negotiations, including fee but exclusive of management reserve, is \$4,111,489.

Therefore, the contract is modified as follows:

1. The third paragraph of clause **B-2, Fixed Fee**, is deleted in its entirety and replaced as follows:

"The fixed fee amounts agreed to by DOE and the Contractor are as follows:

- 1) \$400,000 for the project entitled "Demolition of the Wooden Superstructure for Facilities 3026 C and D at the Oak Ridge National Laboratory" (funds obligated under WA No. FD/04019/OR/41);
- 2) \$378,000 for the project entitled "Demolition of the 2000 Complex Facilities Project at the Oak Ridge National Laboratory" (funds obligated under WA No. FE/01019/OR/41); and
- 3) \$123,657 for the project entitled "Removal and Disposition of Certain Legacy Materials from 9204-3", (funds obligated under WA No. FE/01010/OR/41)."

2. All other terms and conditions other than those specified in this modification remain unchanged.

CONTRACTOR'S STATEMENT OF RELEASE: In consideration of the modification agreed to herein as complete equitable adjustment for the Contractor's Proposal entitled "Removal and Disposition of Certain Legacy Materials from 9204-3", dated July 30, 2010, the Contractor hereby releases the Government from any and all liability for further equitable adjustments in fixed fee attributable to such facts or circumstances giving rise to the Proposal.

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code, is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to reflect the reprogramming of American Recovery and Reinvestment Act (Recovery Act) of 2009 funds involving three of the tasks identified in the project entitled “ARRA Site Support to the IDIQ EM Contractors and Utility Reroutes/Isolations at ORNL for Defense Funded Work (Project Code 2002101)”.
- B. The total amount of funds obligated under this contract since its inception is unchanged and remains at \$12,722,696,960.46.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorization:

Work Authorization Number	Work Authorization Title
WA No. FD/04029/OR/41 (Rev. 5) Note: Revision No. 4 of this WA was incorporated into the contract under contract modification 428 (Number from Block 8 of the Work Authorization)	ARRA Site Support to the IDIQ EM Contractors and Utility Reroutes/Isolations at ORNL for Defense Funded Work (Project Code 2002101)

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work identified in this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

14. Statement of Work: This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009, (Pub. L. 111-5)(Recovery Act). All contract terms and conditions apply to the work identified herein, in particular contract provision H.50 applies. The work described in this work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act and as such is subject to special statutory conditions.

The Office of Science (SC) is committed to conducting all work authorized herein, in a manner that ensures protection of the workers, the public, and the environment. Protecting the workers, the public, and the environment is a direct and individual responsibility of all SC managers and SC-supported contractors. Funds provided by ORO EM to SC will be applied as necessary to ensure that all supported activities are conducted safely and in an environmentally conscientious manner. Only work conducted in this manner will be supported.

Rev 3 – Issued to reallocate funds between the sub projects. No net change in funding. Justification provided in BCP IntegDef001-R0

Revision 4 - issued to extend task to 9/30/2012, add support for utility and characterization support in Isotope facilities and add funding. Detailed revised SOW will be incorporated as the revised workscope is

definitized.

Rev 5 – Correct Block 8. (“OR” had been left out). Realign funds per BCP IntegDef002. See attached SOW dated 9/15/2010 for scope.

Specific Recovery Act Statement of Work:

UT-B will provide the following general services for the EM projects listed below:

- Coordination with Laboratory Operations including integration of EM work into overall master plan and schedule for ORNL Central Campus activities.
 - Perform Utility Isolations/Reroutes for facilities to be demolished or planned to be demolished in the near future, as coordinated with ORNL Site Operations.
 - Provide for Surveillance and Maintenance of the 3026 site during 2010.
 - Provide a point of contact for establishing RPP interfaces/boundaries for controlling radiological hazards.
 - Provide Fire Protection Engineering review/support for potential impacts on ORNL operations/facilities.
 - Provide ES&H and Technical Subject Matter experts to review and resolve impacts on ORNL operations/facilities and ensure that interface points are established and understood.
 - Coordinate Environmental Compliance Activities involving Site-wide issues.
 - Coordinate site space usage including 3025M.
 - Provide for minor repairs for incidental damage done by IDIQ contractor work.
- Provide for Excavation/penetration Permits.
- Provide applicable records/drawings etc. as required to support the IDIQ contractor in their efforts.

Specific IDIQ Contractor Support/Coordination activities and Isotope Row Utilities Work Supported by this authorization is as follows:

1. Bethel Valley Isotope Facilities (Building 3026 Demolition-Hot Cells and perform S&M of Hot Cells during 2010.) – (\$1,230,538)
2. ORNL Small Facilities Completion Demolition – (\$3,386,186)
3. Core hole 8 Remediation – (\$338,609)
4. Bethel Valley Burial Grounds (Cap SWSA 1 And 3) – (\$200,000)
5. Bethel Valley Groundwater Early Actions (Pump and Treat) – (\$5,978)
6. Melton Valley Sentinel Wells – (\$1,500)
7. Bethel Valley Isotope Facilities – Perform utility Isolation/Reroute, characterization support as directed by DOE. (Specific facilities and priorities to be as directed in writing by the COR.), and support to 3038 Legacy Material Removal and Demolition - (\$3,797,835)

(Attach a detailed description of work to be performed or reference to a work proposal, project plan, or similar document that describes the scope of work, milestones, deliverables, and performance measures/expectations.)

15. Reporting Requirements (Status reports, scientific and technical information or similar):

The recipient of funding in the Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act of 2009.

 10B. DATED (SEE ITEM 13)
 10/18/1999

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended.
 Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (if required)

See Page 2.

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE

A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.

B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).

C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:

D. OTHER (Specify type of modification and authority)
 X 970.5232-4 OBLIGATION OF FUNDS (DEC 2000), P.L. 111-5, and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return 0 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

MANAGEMENT AND OPERATION OF THE OAK RIDGE NATIONAL LABORATORY
 The administrative office (administrative contracting activity) for this award/modification is 00005. The administrative office (administrative contracting activity) code is needed by the contractor/recipient for reporting to FederalReporting.gov concerning awards made with funding from the American Recovery and Reinvestment Act of 2009 (ARRA or Recovery Act).

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code, is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to reflect the reprogramming of \$104,091 of American Recovery and Reinvestment Act (Recovery Act) of 2009 funds from the project entitled “Demolition of the 2000 Facilities Complex at Oak Ridge National Laboratory (Project Code 2002230)” to the project entitled “ARRA Site Support to the IDIQ Contractor Work at ORNL for Non-Defense Funded Work (Project Code 2002230)”.
- B. The total amount of funds obligated under this contract since its inception is unchanged and remains at \$12,722,696,960.46.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorizations (Attachment 1):

Work Authorization Number	Work Authorization Title
WA No. FE/01029/OR/41 (Rev. 5)	ARRA Site Support to the IDIQ EM Contractor Work at ORNL for Non-Defense Funded Work (Project Code 2002230)
WA No. FE/01019/OR/41 (Rev. 2) (Number from Block 8 of the Work Authorization)	Demolition of the 2000 Facilities Complex at Oak Ridge National Laboratory (Project Code 2002230)

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work identified in this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

11. Performance Period Covered by Funds.

12. Work Start Date:

13. Expected Completion Date:

From: 6/12/09

To: 9/30/2012

6/2009

9/2012

14. Statement of Work: This Work Authorization is issued for the sole purpose of authorizing work in support of the American Recovery and Reinvestment Act of 2009, (Pub. L. 111-5) (Recovery Act). All contract terms and conditions apply to the work identified herein, in particular contract provision H.50 applies. The work described in this work authorization shall be performed using funds obligated under the contract, appropriated under the Recovery Act and as such is subject to special statutory conditions.

The Office of Science (SC) is committed to conducting all work authorized herein, in a manner that ensures protection of the workers, the public, and the environment. Protecting the workers, the public, and the environment is a direct and individual responsibility of all SC managers and SC-supported contractors. Funds provided by ORO EM to SC will be applied as necessary to ensure that all supported activities are conducted safely and in an environmentally conscientious manner. Only work conducted in this manner will be supported.

Rev 2 – Issued to reallocate funds between the sub projects. No net change in funding. Justification provided in BCP IntegnonDef001-R0

Rev 3 – Issued to extend duration through 9/30/2012 and add funding. Detailed revised SOW will be incorporated as the revised workscope is definitized.

Rev 4 – Corrected Block 8 (“OR” had been left out.). Added \$483,493 to funding (\$53,000 to subtask 3 and \$430,493 to subtask 4). No change to SOW.

Rev 5 - Added \$104,091 to WA for isolation of the utilities associated with legacy material removal (HVAC unit duct work, etc.)) in the basement of the 4501 building. (Ref. BCP IntegNonDef003) Also realigned funding between projects as requested per BCP IntegNonDef002. See attached SOW dated 9/15/11 for scope.

Specific Recovery Act Statement of Work:

UT-B will provide the following general services for the IDIQ projects listed below:

- Coordination with Laboratory Operations including integration of EM work into overall master plan and schedule for ORNL Central Campus activities.
 - Provide Utility Isolation for facilities to be demolished or as required for legacy material removal.
 - Provide a point of contact for establishing RPP interfaces/boundaries for controlling radiological hazards.
 - Provide Fire Protection Engineering review/support for potential impacts on ORNL operations/facilities.
 - Provide ES&H and Technical Subject Matter experts to review and resolve impacts on ORNL operations/facilities and ensure that interface points are established and understood.
 - Coordinate Environmental Compliance Activities involving Site-wide issues.
 - Coordinate site space usage, including 3025M.
 - Provide for minor repairs for incidental damage done by IDIQ contractor work.
- Provide for Excavation/penetration Permits.
- Provide applicable records/drawings etc., as required to support the IDIQ contractor in their efforts
 - Provide technical support during transition of facility 2026 from UT-B to the EM IDIQ contractor.

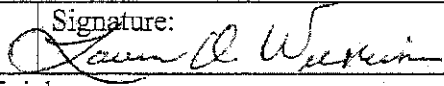

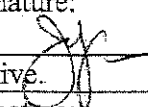

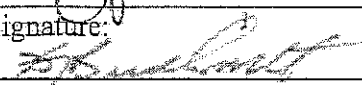

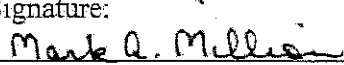

Specific IDIQ Work Supported by this authorization is as follows

1. Central Campus Legacy Material Removal Project – (\$1,175,027)
2. General Maintenance Facilities Demolition Project – (\$1,331,520)
3. Southeast Laboratory Complex Demolition Project – (\$973,110)
4. 2026 Complex Legacy Material Removal Project - (\$1,064,905)

(Attach a detailed description of work to be performed or reference to a work proposal, project plan, or similar document that describes the scope of work, milestones, deliverables, and performance measures/expectations.)

15. Reporting Requirements (Status reports, scientific and technical information or similar):

The recipient of funding in the Work Authorization is responsible for meeting all reporting requirements established by the Department of Energy for activities funded by the American Recovery and Reinvestment Act of 2009.

16. Work Authorization Program Official		
Name (typed): L. O. Wilkerson	Signature: 	Date: 6/23/11

Name (typed): Johnny O. Moore	Signature: 	Date: 6/21/11
18. Contractor's Authorized Representative.		
Name (typed): Kelly J. Beierschmitt	Signature: 	Date: 6/22/11
19. DOE Contracting Officer (or delegated representative).		
Name (typed): Mark A. Million	Signature: 	Date: 7/5/11

ATTACHMENT A – CONTRACTOR RECOVERY ACT PERFORMANCE REQUIREMENTS

Section A: Contractor Recovery Act Schedule or Milestone Requirement

This Work Authorization provides for level of effort support to the DOE ORO EM Non Defense funded ARRA work. As such, in a supporting role, there are no specific schedules or milestones. Specific facilities included in the effort are listed in the SOW

Section B: Contractor Recovery Act Performance Outcomes and Measures

Provide support to EM by providing services to the EM Non Defense contractors according to the schedules developed.

Section C: Contractor Recovery Act Deliverables

NA

Only work conducted in this manner will be supported.</p> <p>Rev 1 – Funding of \$920,000 is being removed from this project because the Estimate at Completion (\$11,880,000) is less than the obligations (\$12,800,000).</p> <p>Rev 2 – Funding of \$104,091 is being removed to add to the ARRA UT-B Integration Task (FE/01029/OR/41)</p> <p><u>Specific Recovery Act Statement of Work:</u> The 2000 Complex is located on the Northwest Side of the Oak Ridge National Laboratory (ORNL) along Bethel Valley Road. The ORNL 2000 Complex comprises eight facilities totaling approximately 59,966 square feet. The complex includes Buildings 2000, 2001, and 2024 and ancillary support facilities 2019, 2087, 2088 and 2092. The complex is in severe disrepair and has been vacant for approximately 6 years. Contaminants of concern include friable and non-friable asbestos, beryllium,</p>			

been vacant for approximately 6 years. Contaminants of concern include friable and non-friable asbestos, beryllium, heavy metals, (e.g., cadmium and lead), polychlorinated biphenyls (PCBs), and radiological contamination. Buildings 2000 and 2001 "Quonset Huts" are steel framed with metal sheeting. Building 2024 is a 2 story facility constructed of structural steel and concrete block with a built up roof. Building 2000 was originally developed for use as the Metallurgy Laboratories and was later used by the Manhattan Research Project in the late 1940s. The Metals and Ceramics Division used the facility in the 1950s, and was then occupied by the Solid States Division and Quality Services Division until the facility was deactivated pending demolition in 2002. There is extensive contamination within most of the air-handling systems (i.e., HVAC and hood exhaust units) and bonded to many building surfaces. Original drawings show that activities included fuel rod research, and there is radiological evidence of work involving U235, U238, Thorium, Cd109, Cs137, Am241 and Pu239. Beryllium operations were also conducted in this facility. Building 2001 was constructed in 1947 in support of the Manhattan Project. Building 2001 was originally developed as the Health Physics Laboratories for research in health electroscopes, electrometers, proportional counters and Geiger Mueller counters. It was later used by the Environmental Sciences Division for basic research until the late 1970s. The building was remodeled and then used as the Information Division Complex from the early 1980s to 1992 and then finally was used as temporary offices from 1992-1999. Building 2024 was originally developed as the Metallurgy Laboratories Annex. The facility continued to house operating laboratories as well as provide additional office space for the Information, Solid States, and Quality Services Divisions through 2003. The building contains at least five contaminated hoods and supporting exhaust systems, as well as sparse fixed contamination in several labs. Beryllium welding is known to have been conducted in Building 2024 on the 2nd floor in the 1960s; Rooms 42 and 43 are known to have been used for Beryllium Fluoride research and development. The objective of the 2000 Complex facilities demolition project is to: Abate all hazardous materials; remove contaminated HVAC equipment and duct; demolish all facilities to the slab; and, properly dispose of all wastes.

Attachment A, Contractor Recovery Act Performance Requirements, identifies the Contractor Recovery Act Schedule or Milestones, Performance Outcomes and Measures and Deliverables for this Work Authorization. The contractor's performance against the identified requirements in Attachment A will be evaluated under the Office of Science laboratory appraisal process.

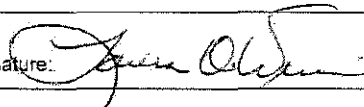

15. Reporting Requirements (Status reports, scientific and technical information or similar):

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT		1. CONTRACT ID CODE	PAGE OF PAGES 1 1
2. AMENDMENT/MODIFICATION NO. 568	3. EFFECTIVE DATE See Block 16C	4. REQUISITION/PURCHASE REQ. NO. 11SC006763	5. PROJECT NO. (if applicable)
6. ISSUED BY Oak Ridge U.S. Department of Energy P.O. Box 2001 Oak Ridge TN 37831	CODE 00518	7. ADMINISTERED BY (if other than Item 6) Oak Ridge U.S. Department of Energy P.O. Box 2001 Oak Ridge TN 37831	CODE 00518
8. NAME AND ADDRESS OF CONTRACTOR (No., street, county, State and ZIP Code) UT-BATTELLE, LLC Attn: Quinn Windham, Director Prime Contract Administration Post Office Box 2008 OAK RIDGE TN 37831-6231		(x) 9A. AMENDMENT OF SOLICITATION NO.	9B. DATED (SEE ITEM 11)
CODE 099114287 FACILITY CODE		x 10A. MODIFICATION OF CONTRACT/ORDER NO. DE-AC05-00OR22725	10B. DATED (SEE ITEM 13) 10/18/1999

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended.
 Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (if required) Net Increase: \$74,114,017.57

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) 970.5232-4 OBLIGATION OF FUNDS (DEC 2000) and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return 0 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

Pursuant to the provisions of Clause I.153, the first sentence of paragraph (a) is hereby changed to read as follows: The amount presently obligated by the Government with respect to this contract is \$12,796,810,978.03. This represents an increase of \$74,114,017.57, from \$12,722,696,960.46 to \$12,796,810,978.03.

Included in this obligation are Non-Appropriated Funds (NAF) in the amount of \$14,457,528.20. Cumulative obligations of NAF since Modification 234 are \$207,273,642.19.

Block 12 “ACCOUNTING AND APPROPRIATIONS DATA,” continued.

Funds Obligated for Recovery Act Projects:

All required accounting and appropriations data, including the Treasury Accounting Symbol and Fund Code is hereby provided as Attachment 2 to this modification.

Block 14 “DESCRIPTION OF AMENDMENT/MODIFICATION,” continued.

- A. This modification is issued to reflect the reprogramming of \$3,023,500 of American Recovery and Reinvestment Act (Recovery Act) of 2009 funds (from capital to operating) under the Office of Energy Efficiency and Renewable Energy project entitled “Carbon Fiber Technology Center” (Agreement #20921).
- B. The total amount of funds obligated under this contract since its inception is unchanged and remains at \$12,890,972,834.14.
- C. The specific Contractor Recovery Act Statement of Work, Milestones, Outcomes and Measures, and Deliverables impacted by this modification are identified in the following referenced Work Authorization (Attachment 1):

Work Authorization Number	Work Authorization Title
WA No. BA-470002-20886-10 (Revision No. 7) (Number from Block 8 of the Work Authorization)	Carbon Fiber Technology Center (Agreement #20921)

- D. The work described in this modification shall be performed using funds obligated under this contract, which have been appropriated under the Recovery Act of 2009, (Pub. L. 111-5), and as such, is subject to the special statutory conditions and the additional contractual terms and conditions that are listed in section E below and previous contract modifications related to the Recovery Act. The funds obligated hereunder shall only be used to accomplish the work as set forth in section C above and may not be used for any other purpose without the prior written consent of the Contracting Officer.
- E. The Contractor shall complete all Recovery Act Work identified in this modification in accordance with Recovery Act requirements, including the required completion dates specified therein, and by the completion date identified in the approved work authorization for the activity.
- F. All other terms and conditions remain unchanged.

15A. NAME AND TITLE OF SIGNER (Type or print) J. S. Branham Chief Financial Officer		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) Mark A. Million	
15B. CONTRACTOR OFFEROR  (Signature of person authorized to sign)		16B. UNITED STATES OF AMERICA *  (Signature of Contracting Officer)	
15C. DATE SIGNED 9/14/11		16C. DATE SIGNED 9/14/11	

This modification is issued to reflect definitization of negotiations on the Contractor's proposal entitled "4500 Area Gaseous System Reconfiguration and Stabilization Project," dated October 22, 2010. On March 10, 2011, the proposal was supplemented with additional information supporting the Contractor's request for additional fee. In accordance with the "Changes" clause in the contract, DOE and the Contractor mutually agree that this work represents a material increase in the level of the Contractor's management effort under the contract; therefore, the Contractor is due an equitable fee for such additional services. The total estimated cost agreed to by the parties during negotiations, including fee but exclusive of management reserve, is \$9,573,048.

Therefore, the contract is modified as follows:

1. The third paragraph of clause **B-2, Fixed Fee**, is deleted in its entirety and replaced as follows:

"The fixed fee amounts agreed to by DOE and the Contractor are as follows:

- 1) \$400,000 for the project entitled "Demolition of the Wooden Superstructure for Facilities 3026 C and D at the Oak Ridge National Laboratory" (funds obligated under WA No. FD/04019/OR/41);
- 2) \$378,000 for the project entitled "Demolition of the 2000 Complex Facilities Project at the Oak Ridge National Laboratory" (funds obligated under WA No. FE/01019/OR/41);
- 3) \$123,657 for the project entitled "Removal and Disposition of Certain Legacy Materials from 9204-3", (funds obligated under WA No. FE/01010/OR/41); and
- 4) \$267,518 for the project entitled "4500 Area Gaseous System Reconfiguration and Stabilization Project," (funds obligated under WA No. FE/01010/OR/41)."

2. All other terms and conditions other than those specified in this modification remain unchanged.

CONTRACTOR'S STATEMENT OF RELEASE: In consideration of the modification agreed to herein as complete equitable adjustment for the Contractor's Proposal entitled "4500 Area Gaseous System Reconfiguration and Stabilization Project," dated October 22, 2010, the Contractor hereby releases the Government from any and all liability for further equitable adjustments in fixed fee attributable to such facts or circumstances giving rise to the Proposal.

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 6 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted, or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required) Net Increase: \$1,233,009.71

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) 970.5232-4 OBLIGATION OF FUNDS (DEC 2000) and P.L. 95-91

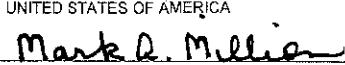

E. IMPORTANT: Contractor is not, is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

Pursuant to the provisions of Clause I.153, the first sentence of paragraph (a) is hereby changed to read as follows: The amount presently obligated by the Government with respect to this contract is \$12,986,740,854.61. This represents an increase of \$1,233,009.71, from \$12,985,507,844.90 to \$12,986,740,854.61.

		X	10A. MODIFICATION OF CONTRACT/ORDER NO. DE-AC05-000R22725	
			10B. DATED (SEE ITEM 13) 10/18/1999	
11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS				
<input type="checkbox"/> The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers <input type="checkbox"/> is extended, <input type="checkbox"/> is not extended. Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.				
12. ACCOUNTING AND APPROPRIATION DATA (If required)		Net Increase:		\$111,878,567.85
13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.				
CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.			
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).			
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:			
X	D. OTHER (Specify type of modification and authority) 970.5232-4 OBLIGATION OF FUNDS (DEC 2000) and P.L. 95-91			
E. IMPORTANT: Contractor <input checked="" type="checkbox"/> is not, <input type="checkbox"/> is required to sign this document and return _____ copies to the issuing office.				
14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.) Pursuant to the provisions of Clause I.153, the first sentence of paragraph (a) is hereby changed to read as follows: The amount presently obligated by the Government with respect to this contract is \$13,100,120,732.21. This represents an increase of \$111,878,567.85, from \$12,988,242,164.36 to \$13,100,120,732.21.				
DOE Appropriated and Non-Appropriated Funding: Included in this obligation are Non-Appropriated Funds (NAF) in the amount of \$2,340,617.76. Cumulative obligations of NAF since Modification 234 are \$238,746,381.98.				
FOB: Destination				
Period of Performance: 04/01/2000 to 03/31/2015				
Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

Period of Performance: 04/01/2000 to 03/31/2015

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print) J. Scott Branham Chief Financial Officer		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) Mark A. Million	
15B. CONTRACTOR/OFFEROR  (Signature of person authorized to sign)		16B. UNITED STATES OF AMERICA  (Signature of Contracting Officer)	
15C. DATE SIGNED 11-10-11		16C. DATE SIGNED 11/15/11	

This modification is issued to reflect definitization of negotiations on the Contractor's proposal entitled "Legacy Material Removal in Selected Facilities in Isotope Row," dated January 20, 2011. In accordance with the "Changes" clause in the contract, DOE and the Contractor mutually agree that this work represents a material increase in the level of the Contractor's management effort under the contract; therefore, the Contractor is due an equitable fee for such additional services. The total estimated cost agreed to by the parties during negotiations, including fee but exclusive of management reserve, is \$1,942,834.

Therefore, the contract is modified as follows:

1. The third paragraph of clause **B-2, Fixed Fee**, is deleted in its entirety and replaced as follows:

"The fixed fee amounts agreed to by DOE and the Contractor are as follows:

- 1) \$400,000 for the project entitled "Demolition of the Wooden Superstructure for Facilities 3026 C and D at the Oak Ridge National Laboratory" (funds obligated under WA No. FD/04019/OR/41);
- 2) \$378,000 for the project entitled "Demolition of the 2000 Complex Facilities Project at the Oak Ridge National Laboratory" (funds obligated under WA No. FE/01019/OR/41);
- 3) \$123,657 for the project entitled "Removal and Disposition of Certain Legacy Materials from 9204-3", (funds obligated under WA No. FE/01010/OR/41);
- 4) \$267,518 for the project entitled "4500 Area Gaseous System Reconfiguration and Stabilization Project," (funds obligated under WA No. FE/01010/OR/41); and
- 5) \$52,334 for the project entitled "Legacy Material Removal in Selected Facilities in Isotope Row" (funds obligated under WA No. FD/04010/OR/41)."

2. All other terms and conditions other than those specified in this modification remain unchanged.

CONTRACTOR'S STATEMENT OF RELEASE: In consideration of the modification agreed to herein as complete equitable adjustment for the Contractor's Proposal entitled "Legacy Material Removal in Selected Facilities in Isotope Row," dated January 20, 2011, the Contractor hereby releases the Government from any and all liability for further equitable adjustments in fixed fee attributable to such facts or circumstances giving rise to the Proposal.

FOB: Destination

Period of Performance: 04/01/2000 to 03/31/2015

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print) J. Scott Branham Chief Financial Officer	16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) Mark A. Million
15B. CONTRACTOR/OFFEROR  (Signature of person authorized to sign)	15C. DATE SIGNED 11/15/11
16B. UNITED STATES OF AMERICA  (Signature of Contracting Officer)	16C. DATE SIGNED 11/16/11

The purpose of this modification is to: 1) incorporate into Section H of the contract the clause entitled "STANDARDS OF CONTRACTOR PERFORMANCE EVALUATION", and 2) modify clause I.128, "970.5215-1 TOTAL AVAILABLE FEE: BASE FEE AMOUNT AND PERFORMANCE FEE AMOUNT (DEC 2000) - ALTERNATE II and ALTERNATE III (DEC 2000)" to replace Alternate III with Alternate IV language. All other terms and conditions other than those specified in this modification remain unchanged

Therefore, the contract is modified as follows:

1. Clause H-35, STANDARDS OF CONTRACTOR PERFORMANCE EVALUATION, is hereby incorporated into the contract as follows:

H-35 STANDARDS OF CONTRACTOR PERFORMANCE EVALUATION

- (a) Use of objective standards of performance, self-assessment and performance evaluation:
 - (1) The Parties agree that the Contractor will utilize a comprehensive performance-based management approach for overall Laboratory management. The performance-based management approach will include the use of objective performance goals and indicators, agreed to in advance of each performance evaluation period, as standards against which the Contractor's overall performance of the scientific and technical mission obligations under this Contract will be assessed. The performance criteria will be limited in number and focus on results to drive improved performance and increased effective and efficient management of the Laboratory.
 - (2) The Parties agree to utilize the process described within Part III, Section J, Appendix G - "Performance Evaluation and Measurement Plan" (PEMP) to evaluate the performance of the Laboratory. The Parties further agree that the evaluation process described in Appendix G will be reviewed annually and modified, if necessary, by agreement of the Parties. If agreement of the Parties cannot be reached, the Contracting Officer has the unilateral right to establish the evaluation process.
 - (3) The Parties agree that the Contractor will conduct an ongoing self-assessment process as the principal means of determining its compliance with the Contract Statement of Work and performance indicators identified within Part III, Section J, Appendix G. To assist the DOE in accomplishing the appropriate level of oversight, the Contractor shall work in partnership and cooperation with DOE and other external organization, as appropriate, in the self-assessment process. This work includes, but is not limited to, the development and execution of self-

assessments and the utilization of the results for continuous improvement.

- (4) The Contractor shall provide periodic updates, as requested by the DOE, on the performance against the Appendix G. The Contractor shall provide a formal status briefing at mid-year and year-end. Specific due dates and formats for the above-mentioned briefings shall be agreed to by the Laboratory Director and the DOE Oak Ridge National Laboratory Site Office Manager.
- (5) DOE, as a part of its responsibility for oversight, evaluation, and information exchange, shall provide an annual programmatic appraisal and other appraisals, and reviews of the Contractor's performance of authorized work in accordance with the terms and conditions of this Contract. The Office of Science, through the DOE Oak Ridge National Laboratory Site Office Manager, has the lead responsibility for oversight of the programs and activities conducted by the Contractor.
- (6) The Contracting Officer shall annually provide a written assessment of the Laboratory's performance to the Contractor, which shall be based upon the process described in Appendix G. The Parties acknowledge that the performance levels achieved against the specific performance objectives and measures shall be the primary, but not sole, criteria for determining the Contractor's final performance evaluation and rating. The Contractor's self-assessment results, to include results of any third party reviews which may have been conducted during the evaluation period, will be considered at all levels to assess and evaluate the Contractor's performance. The Contracting Officer may also consider other relevant information not specifically measured by the objectives and measures established within Appendix G that is deemed to have an impact (either positive or negative) on the Contractor's performance. Other relevant information that may be used by the Contracting Officer may include, but is not limited to, information gained from peer reviews, operational awareness, outside agency reviews (i.e., Office of Inspector General (OIG), Government Accountability Office (GAO), Defense Contract Audit Agency (DCAA), etc.) conducted throughout the year, annual reviews (if needed), and DOE "for cause" reviews. Contractor success in meeting or exceeding performance expectations in a particular management or operations functional area may be rewarded with less frequent – or no – review of the functional area. Conversely, marginal performance or "for cause" situations may result in more frequent reviews.

(b) Standards of performance measure review:

- (1) The Parties agree to review the PEMP elements (goals, objectives, performance indicators, and expected levels of performance) contained in Appendix G annually and to modify them upon the agreement of the Parties; provided, however, that if the Parties cannot reach agreement on all the goals, objectives, performance indicators, and expected levels of performance for the next period, the Contracting Officer shall have the unilateral right to establish reasonable new goals, objectives, performance indicators and expected levels of performance and/or to modify and/or delete existing goals, objectives, performance indicators, and expected levels of performance. It is expected that the goals, objectives, performance indicators, and expected levels of performance will be modified by the Contractor and the DOE as new areas of emphasis or priorities emerge which the Parties may agree warrant recognition in the performance-based integrated management approach.
- (2) Failure to include an objective or performance indicator in the contract Appendix G does not eliminate the Contractor's obligation to comply with all applicable terms and conditions as set forth elsewhere within the contract.
- (3) In the event the Contracting Officer decides to exercise the rights set forth in paragraphs (a)(6) or (b)(1) above, he/she will notify the Contractor, in writing, of the intended decision ten days prior to issuance.

(c) DOE Quality Assurance Surveillance Plan

DOE's Quality Assurance Surveillance Plan (QASP) for evaluating the Contractor's performance under the contract shall consist primarily of the PEMP as called for within the Part II, Section I (I.120 DEAR 970.5203-1). The QASP establishes the process DOE shall use to ensure that the Contractor has performed in accordance with the performance standards and expectations and acceptable quality levels for each task, describes how performance will be monitored and measured; describes how the results will be evaluated; and states how the results will affect contract payment.

2. Clause I.128, 970.5215-1 TOTAL AVAILABLE FEE: BASE FEE AMOUNT AND PERFORMANCE FEE AMOUNT (DEC 2000) - ALTERNATE II and ALTERNATE III (DEC 2000), of the contract is hereby modified to remove Alternate III, paragraph (f) and replace it with Alternate IV, paragraph (f) as follows:

“(f) Contractor self-assessment. Following each evaluation period, the Contractor may submit a self-assessment, provided such assessment is submitted within 45 calendar days after the end of the period. This self-assessment shall address both the strengths and weaknesses of the Contractor's performance during the evaluation period. Where deficiencies in performance are noted, the Contractor shall describe the actions planned or taken to correct such deficiencies and avoid their recurrence. The DOE Operations/Field Office Manager, or designee, will review the Contractor's self-assessment, if submitted, as part of its independent evaluation of the Contractor's management during the period. A self-assessment, in and of itself may not be the only basis for the award fee determination.”

16B. UNITED STATES OF AMERICA  (Signature of Contracting Officer)	16C. DATE SIGNED 12/7/11

This modification is issued to reflect definitization of negotiations on the Contractor's proposal entitled "Soil and Slab Characterization and Removal," dated March 10, 2011. In accordance with the "Changes" clause in the contract, DOE and the Contractor mutually agree that this work represents a material increase in the level of the Contractor's management effort under the contract; therefore, the Contractor is due an equitable fee for such additional services. The total estimated cost agreed to by the parties during negotiations, including fee but exclusive of management reserve, is \$3,718,209.

Therefore, the contract is modified as follows:

1. The third paragraph of clause **B-2, Fixed Fee**, is deleted in its entirety and replaced as follows:

"The fixed fee amounts agreed to by DOE and the Contractor are as follows:

- 1) \$400,000 for the project entitled "Demolition of the Wooden Superstructure for Facilities 3026 C and D at the Oak Ridge National Laboratory" (funds obligated under WA No. FD/04019/OR/41);
- 2) \$378,000 for the project entitled "Demolition of the 2000 Complex Facilities Project at the Oak Ridge National Laboratory" (funds obligated under WA No. FE/01019/OR/41);
- 3) \$123,657 for the project entitled "Removal and Disposition of Certain Legacy Materials from 9204-3", (funds obligated under WA No. FE/01010/OR/41);
- 4) \$267,518 for the project entitled "4500 Area Gaseous System Reconfiguration and Stabilization Project," (funds obligated under WA No. FE/01010/OR/41);
- 5) \$52,334 for the project entitled "Legacy Material Removal in Selected Facilities in Isotope Row" (funds obligated under WA No. FD/04010/OR/41); and
- 6) \$100,609 for the project entitled "Soil and Slab Characterization and Removal" (funds obligated under WA No. FE/01010/OR/41)."

2. All other terms and conditions other than those specified in this modification remain unchanged.

CONTRACTOR'S STATEMENT OF RELEASE: In consideration of the modification agreed to herein as complete equitable adjustment for the Contractor's Proposal entitled "Soil and Slab Characterization and Removal," dated March 10, 2011, the Contractor hereby releases the Government from any and all liability for further equitable adjustments in fixed fee attributable to such facts or circumstances giving rise to the Proposal.

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended. is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE

A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.

B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).

C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:

D. OTHER (Specify type of modification and authority)

X 970.5204-2 LAWS, REGULATIONS AND DOE DIRECTIVES (DEC 2000) and P.L. 95-91

E. IMPORTANT: Contractor is not, is required to sign this document and return 2 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

The purpose of this modification is to revise Appendix E by incorporating Requirement Change Notice No. OR-47 attached hereto. Requirement Change Notice No. OR-47 includes those directives which have been accepted through November 30, 2011.

FOB: Destination

Period of Performance: 04/01/2000 to 03/31/2015

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.
