

# 2ND ANNUAL FERMILAB PLANT AND BULB EXCHANGE EVENT

NALWO & FERMILAB GARDEN CLUB

Contact person: Annamaria Feher at [annamaria.feher@me.com](mailto:annamaria.feher@me.com)

Here is the autumn section of the successful spring flower and seed exchange!

Do you have bulb flowers which are ready to be divided?

Did you end up with too many bulbs to plant?

Do you have small shrubs in the wrong places?

Would you like to try some new plants without a lot of cost?

## **We have a solution!**

Dig up the bulbs that need dividing and thinning, count your leftover bulbs, pot your extra shrubs or perennials, and bring them to exchange or give away.

Maybe something is unneeded in your garden but others would be happy to take it from your hands. You can come to give and come to receive!  
You don't have to bring bulbs or plants to attend.

Please include some basic information with your bulbs or plants --- like what color the flowers will be, whether shade or sun-loving, how tall when grown (5 inches or 2 feet), etc.

Plants and bulbs can be given away or exchanged; nothing may be sold.

Please spread the word!

Hope to see you at the event!

**THURSDAY, OCTOBER 11TH      NOON TO 1 P.M.**

**USERS' CENTER AND KUHN BARN PARKING LOT**

**RAIN DATE FRIDAY, OCTOBER 12TH**
