Block 14, Continuation

Do not exceed the amounts in this modification without approval from the undersigned via a modification to increase this amount. Notify the undersigned in writing with your rationale if the NTE amount is insufficient for you to proceed with the identified work. WCH is authorized to perform the work identified in this modification up to this NTE amount.

A., Continued: Site-wide Chronic Beryllium Disease Prevention Program (CBDPP). Washington Closure Hanford LLC (WCH) is hereby given notice-to-proceed with participation on the chartered site-wide CBDPP committee. WCH shall follow the requirements for program development as outlined in Richland Requirements Document (RRD) 007, Rev 0. Implementation of the resultant site-wide plan will be authorized under a separate notice-to-proceed. See attached Financial Plan #2

C., Continued: Burial Grounds 618-10 & 618-11 Nonintrusive Characterization. Washington Closure Hanford LLC (WCH) is hereby given notice-to-proceed to perform preparatory work for the nonintrusive characterization of the 618-10 Burial Grounds and revision to the 618-10 and 618-11 Basis for Interim Operations (BIO) and Emergency Preparedness Hazards Assessment (EPHA) to support the requirements of the Energy Northwest operating license. The preparatory work will include all work necessary to obtain a subcontractor to perform the workscope and shall be complete by March 1, 2009 in order to support start of characterization activities in the 618-10 burial ground by May 30, 2009. Field implementation of the nonintrusive characterization will be authorized under a separate notice to proceed. The Request for Equitable Adjustment (REA) shall be delivered by January 15, 2009. RL recognizes that the authorized budget not-to-exceed value does not include the area hotel costs and the schedule extension costs; however, these costs may be included in the REA. A new level 6 Work Breakdown Structure element will also be added.

DOE-RL requests that a revised project schedule for nonintrusive and intrusive characterization be submitted for both the 618-10 and 618-11, reflecting the focus on 618-10 and the resulting delay at 618-11. This schedule will be provided to the EPA for inclusion in the Sampling and Analysis Plan currently under review by the EPA. RL has obtained EPA agreement with this revised approach for performing the necessary characterization activities at the 618-10/11 burial grounds.

Funding for this work was provided under contract modification A063. DOE-RL considers the characterization activities to be new workscope under CLIN 1 of the contract.
