We got some input from Vic this morning.

From this mornings meeting is sounds as though we will be working on  
Vic's report first. After that, we will continue modifying your mapping  
routine and results. I don't think we will have anything to review for  
a little while. Gregg might have a better timeline though.

Todd

Subject: oil paper and aviris update?

---

Gregg, Todd,

How about an update?

What is the status of the paper? Can I see the latest draft before it goes into review?

Did either of you attend the aviris telecon about the future of aviris on the spill? If so, what happened?

Roger
