That seems reasonable from my end, but... can you wrap it up that quickly, given your team has until the 12th to respond to the review comments?

Hi Bill,

The reviewers certainly did a very thorough job. I saw many very positive statement about your Team's work, and of course some technical specifics as

well.

Anne Castle has asked for an update on our overall FRTG progress and timeline. Given the level of review comments and your plans to address them, what do you have as a target date to wrap up the Plume Analysis Team final report and delivery to the FRTG?
