Subject: spill measurements techniques

Hi Heidi and David,

I'm a Houston-based BloombergNews reporter writing about the oil spill and planning to describe the methodologies that will be applied to estimate the final, most precise flow rate.

I believe Marcia McNutt is currently in Houston, working on this. Do you think you could help me get an interview with her about this today or next week?

I would appreciate your help with getting something arranged, you can reach me at 713.651.4608 or  (cell).

Regards,

6184126-13332-16560-171-213
