1-CDC Study on Smoke-Free Multi-Unit Housing Policies, by Carol Kawecki, Study Project Manager, Healthy Housing Solutions, Inc. -- The CDC Study on Smoke-Free Multi-Unit Housing Policies is a 3-year project conducted in Los Angeles County, Maine, Minnesota and Florida. The purpose of the project is to: (a) study the adoption and implementation of voluntary and regulatory smoke-free policies in market-based (non-financed) and subsidized (publicly-financed) multi-unit housing, to understand how best to implement smoke-free policies to protect MUH residents from the adverse effects of secondhand smoke; and (b) assess the health benefits of smoke-free multi-unit housing policies in communities with a mix of regulatory and voluntary policies (30-40 minutes; followed by Q&A).

Wednesday, October 3rd 2012

Q&A on *CDC Study on Smoke-Free Multi-Unit Housing Policies*

2-Healthy Efficient Homes: Research and Guidance for Health-Based Ventilation Standards, by Brett C. Singer, Environmental Energy Technologies Division, Lawrence Berkeley National Laboratory (LBNL). This brief presentation will review progress by HUD, EPA and DOE to develop scientific guidance for health-risk-based residential ventilation standards that simultaneously and robustly satisfy human health and energy efficiency objectives (10-15 minutes; followed by Q&A).
