

DEPARTMENT OF THE INTERIOR**National Park Service****Notice of Scoping for Completion of El Portal Road Rehabilitation; Yosemite National Park, Mariposa County, CA**

SUMMARY: Notice is hereby given, in accord with the provisions of the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) that public scoping has been initiated for a conservation planning and environmental impact analysis process for the completion of road improvements to the El Portal Road in Yosemite National Park. The purpose of the scoping process is to elicit public comment regarding applicable issues and concerns, a suitable range of alternatives, and the nature and extent of potential environmental impacts and appropriate mitigating measures which should be addressed. This project would result in completion of the Highway 140 improvements which began in 1997 following floods which extensively damaged the road. The proposed reconstruction would improve the one mile segment of the El Portal Road from the intersection of the Big Oak Flat Road (Highway 120) and the El Portal Road (Highway 140) to the west, and Pohono Bridge to the east (also known as Segment D). The pending environmental analysis will evaluate alternatives, including a no-action alternative, and one or more action alternatives. Some of the project elements that may be evaluated include:

- Reconstructing failing retaining walls and undercut road sections;
- Altering the lane and/or the shoulder to enhance traffic safety;
- Replacing portions of the existing stone wall with a reinforced concrete guardwall;
- Improving the El Portal Road-Big Oak Flat Road intersection;
- Improving, relocating, and/or removing some parking spaces;
- Improving road drainage with new culverts and drainage ditches;
- Repaving road surfaces; and
- Maintaining the road's essential historic character as a winding, narrow mountain road.

Public Involvement: As noted, the NPS will conduct an environmental review of feasible alternatives and potential impacts on rehabilitation of segment of road corridor. At this time, it has not been determined whether an Environmental Assessment or an Environmental Impact Statement will be prepared, however, this scoping process will aid in the preparation of either document. This environmental review of a reasonable range of alternatives for

rehabilitation this segment of the El Portal Road is being conducted by Yosemite National Park. As a key step for initiating this environmental review, the park invites the public, other Federal agencies, American Indian tribes, State and local governments, and all other interested parties to participate in the initial scoping and alternative development process. For initial scoping and alternatives development, the most useful comments are those which aid the park in identifying environmental issues, public concerns, and pertinent information that can be used to help:

- Determine resource issues and visitor concerns that may need to be evaluated;
- Formulate alternatives for fulfilling the purpose and need for the proposed project; and/or
- Identify potential cumulative actions and/or appropriate mitigation strategies which should be considered.

Responses to this Scoping Notice will also be used to establish a mailing list of people and organizations interested in receiving further information as the environmental document is developed. Please contact the park by mail, e-mail, or fax (see below) to request placement on the mailing list; for all types of requests please be sure to include your full mailing address. In addition to direct mailings, additional information about this conservation planning and environmental impact analysis process will be regularly distributed via regional and local news media and by posting to the Yosemite National Park Web page (<http://www.nps.gov/yose/planning>).

The public scoping period for this Segment D environmental review will be open for 45 days from the date of publication of this Scoping Notice in the Federal Register—immediately upon confirmation of this date it will be announced on the park's Web site. Scoping meetings and public open houses will be held on a regular basis in Yosemite National Park, California. Specific locations and dates for these meetings will be announced in local and regional media and via direct mailings. Interested individuals, organizations, and agencies wishing to provide written comments on issues and concerns or provide pertinent information may by mail to: Superintendent, ATTN: El Portal Road Rehabilitation, Yosemite National Park, PO Box 577, Yosemite National Park, CA 95389; via Fax at (209) 379-1294; or electronically via yose_planning@nps.gov.

Our practice is to make comments, including names, home addresses, home phone numbers, and e-mail addresses of respondents, available for public

review. Individual respondents may request that we withhold their names and/or home addresses, etc., but if you wish us to consider withholding this information you must state this prominently at the beginning of your comments. In addition, you must present a rationale for withholding this information. This rationale must demonstrate that disclosure would constitute a clearly unwarranted invasion of privacy. Unsupported assertions will not meet this burden. In the absence of exceptional, documentable circumstances, this information will be released. We will always make submissions from organizations or businesses, and from individuals identifying themselves as representatives of or officials of organizations or businesses, available for public inspection in their entirety.

Decision Process: Availability of the forthcoming environmental document for public review and written comment will be announced by local and regional news media, via the above listed Web site, and by direct mailing. At this time, the document is anticipated to be available for public review and comment in summer of 2007. All comments received will be duly considered in the environmental decision-making process and responded to as appropriate. At this time, it is anticipated that a final decision will be recommended during autumn of 2007. The official responsible for the decision is the Regional Director, Pacific West Region, National Park Service; subsequently, the official responsible for implementation is the Superintendent, Yosemite National Park.

Dated: August 29, 2006.

Jonathan B. Jarvis,

Regional Director, Pacific West Region.

BILLING CODE 4312-FY-M

DEPARTMENT OF JUSTICE**Foreign Claims Settlement Commission****Privacy Act of 1974; Systems of Records**

AGENCY: Foreign Claims Settlement Commission; Justice.

ACTION: Revisions of Notice of Privacy Act Systems of Records.

SUMMARY: Pursuant to the provisions of the Privacy Act of 1974, 5 U.S.C. 552a, notice is given that the Foreign Claims Settlement Commission proposes to modify all of its Privacy Act Systems of Records, as identified in the revised

Table of Contents set forth below, to include a new routine use that allows disclosure to appropriate persons and entities for purposes of response and remedial efforts in the event that there has been a breach of the data contained in the systems. This routine use will facilitate an effective response to a confirmed or suspected breach by allowing for disclosure to those individuals affected by the breach, as well as to others who are in a position to assist in the Department's response efforts, either by assisting in notification to affected individuals or otherwise playing a role in preventing, minimizing, or remedying harms from the breach.

In accordance with 5 U.S.C. 552a(e)(4) and (11), the public is given a 30-day period in which to comment; and the Office of Management and Budget (OMB), which has oversight responsibility under the Privacy Act, requires a 40-day period in which to conclude its review of the systems. Therefore, please submit any comments by December 26, 2006. The public, OMB, and the Congress are invited to submit any comments to David E. Bradley, Chief Counsel, Foreign Claims Settlement Commission, Washington, DC 20579 (Room 6002, Bicentennial Building). In accordance with 5 U.S.C. 552a(r), the Commission has provided a report to OMB and the Congress.

This Notice also includes an updated Table of Contents of the Commission's Privacy Act Systems of Records, in order to reflect the deletion of four of its records systems: Justice/FCSC-2, Bulgaria, Claims Against (2nd Program); Justice/FCSC-13, Italy, Claims Against (2nd Program); Justice/FCSC-18, Rumania, Claims Against (2nd Program); and Justice/FCSC-20, Yugoslavia, Claims Against (2nd Program), due to the release of the records in those systems to the National Archives for permanent retention.

1. Accordingly, pursuant to the provisions of 5 U.S.C. 552a, the Foreign Claims Settlement Commission hereby publishes notice of its proposal to supplement the list of Routine Uses of the Records Maintained in each of its Privacy Act Systems of Records, including the Categories of Users and the Purposes of Such Uses, by including the following additional Routine Use: "Release to appropriate agencies, entities, and persons when (1) It is suspected or confirmed that the security or confidentiality of information in the system of records has been compromised; (2) the Commission has determined that as a result of the suspected or confirmed compromise there is a risk of harm to economic or

property interests, identity theft or fraud, or harm to the security or integrity of this system or other systems or programs (whether maintained by the Commission or another agency or entity) that rely upon the compromised information; and (3) the disclosure made to such agencies, entities, and persons is reasonably necessary to assist in connection with the Commission's efforts to respond to the suspected or confirmed compromise and prevent, minimize, or remedy such harm."

2. In addition, the Commission hereby publishes a revised Table of Contents of the systems of records as currently maintained by the agency, as set forth below. This Table of Contents replaces the Table of Contents included as part of the Privacy Act Systems of Records Notice published by the Foreign Claims Settlement Commission in the **Federal Register** on June 10, 1999 (64 FR 31296). With the exception of the deletions reflected in this revised Table of Contents, the information in that Notice remains accurate and up-to-date.

DEPARTMENT OF LABOR

Employment and Training Administration

Proposed Collection for the ETA 218, Benefit Rights and Experience; Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration is soliciting comments concerning the proposed extension of the ETA 218, Benefits Rights and Experience. A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the **ADDRESSEES** section of this notice or by accessing: <http://www.doleta.gov/OMB/CN/OMBControlNumber.cfm>.

DATES: Submit comments on or before January 16, 2007.

SUPPLEMENTARY INFORMATION:

I. Background

Attachment to the labor force, usually measured as amount of past wages earned, is used to determine eligibility for State unemployment compensation programs. The data in the ETA 218, Benefit Rights and Experience Report, includes numbers of individuals who were and were not monetarily eligible, those eligible for the maximum benefits, those eligible based on classification by potential duration categories, and those exhausting their full entitlement as classified by actual duration categories. These data are used by the National
