MISSION

To improve the human condition through objective, innovative, multidisciplinary research, development and technical services, setting the standard for scientific and professional excellence.

VISION

To become the world's premier independent research institute, recognized as the best in all that we do.

VALUES

Integrity - We perform with the highest principles of individual and group integrity and honesty. We communicate openly, sensitively, and realistically with each other and with our clients.

Excellence - We conduct our research, administrative, and support activities with excellence as a fundamental goal, providing our customers with exceptional value and delivering on our promises.

Innovation - We encourage the independent thinking and entrepreneurship of our staff. We employ the team approach to foster a vision for the future and we utilize multidisciplinary collaboration to produce innovative approaches to meet the requirements of our clients.

Respect for the Individual - We treat one another fairly, with dignity and equity, and maintain a work environment that motivates each of us to develop to our full potential.

Fiscal Responsibility - We operate with the fiscal responsibility that assures cost competitiveness and continuing financial strength.

Respect for the Institute - We recognize that the strength of RTI is our collective commitment to its values, goals, and practices.
