MICROFILM ORDER

Microfilm publication numbers (preceded by an M, T, etc.) are assigned to each microfilm publication. Please enter the microfilm publication number and roll number(s) in the proper columns. Because we accept orders for individual rolls, as well as for complete microfilm publications, we must know which rolls you wish to purchase.

Microfilm is available as a roll or digitized on a DVD. The price for each roll of digitized (300 dpi) microfilm on DVD is \$125 for U.S. orders, \$135 for international orders (Microfilm rolls are also \$125 U.S orders/\$135 international orders). Shipping is included. These prices are subject to change without notice. For current price information, call 1-866-272-6272 (in the Washington, DC area, call 301-837-2000) or visit www.archives.gov.

PRIVACY ACT STATEMENT

Collection of this information is authorized by 44 U.S. C. 2108. Disclosure of the information is voluntary; however, we will be unable to respond to your request if you do not furnish your name and address and the minimum required information about the records. The information is used by NARA employees to search for the record; to respond to you; to maintain control over information requests received and answered; and to facilitate preparation of internal statistical reports. If you provide credit card information, that information is used to bill you for copies.

REFUND POLICY

Due to the age, original media type, and general condition of many of the items in NARA's holdings, it is occasionally difficult to make a legible reproduction. NARA staff will notify customers if they anticipate that the original will result in a reproduction of questionable legibility before requesting the reproduction and after approval of the customer. After a records reproduction is completed, the product undergoes a review to determine if it is an accurate representation of the original item. Because of the preapproval process, NARA does not provide refunds except in special cases. If a customer requests a refund, a review is made of the order to determine if the customer was properly notified of the questionable nature of the original and if the product is a true representation of the original. If the customer authorized proceeding and the product is a true representation of the original will be issued.

REPRODUCTION QUALITY STATEMENT

All NARA microfilm contains the best available image of the original archival documents. Due to age, physical deterioration and equipment available at the time the original documents were imaged, some images may not be up to today's standards of clarity. NARA makes every effort to provide customers a clear and accurate duplicate of the original microfilm master.
