

Vertical Team Meeting
Welcome Comments for Col. Peter Rowan
June 3-5, 2003

Welcome

Crazy schedule but we're now at this point...

Ambitious two days ahead.

Importance of meeting:

- to establish the basis for the content for the remaining portion of the final report
- how to engage various stakeholders in determining a coast-wide alternative plan for inclusion in the final report.
- provide us with a better idea of each agency's position on the most efficient alternatives.

We expect a positive outcome...one that will further the process on this important study.

Thanks for participating.
