June 14, 2007

NRC TO MEET WITH FIRST ENERGY IN ROCKVILLE, MD JUNE 27 TO DISCUSS DEMAND FOR INFORMATION

The Nuclear Regulatory Commission will hold a public meeting Wednesday, June 27, in Rockville, Md., with FirstEnergy Nuclear Operating Company. The company will describe its response to the agency's recent Demand for Information (DFI) regarding a new technical analysis of the corrosion event at the Davis-Besse nuclear power plant in Ohio.

The meeting will run from 9 a.m. until noon in the Commissioners' Hearing Room, One White Flint North, 11555 Rockville Pike, Rockville. The public is invited to observe the meeting, and NRC staff are making teleconference arrangements for interested members of the public. Final details for the teleconference will be part of the meeting notice, available on the NRC's Web site here: <http://www.nrc.gov/public-involve/public-meetings/index.cfm> .

A DFI is meant to generate information, provided under oath or affirmation by a licensee, to help the NRC determine whether it needs to take further action, up to revising, suspending or revoking existing operating licenses. The issues covered in the DFI were described in a May 14 [press release](#).
