No. 08-017

January 29, 2008

### **NRC FINDS NO SIGNIFICANT ENVIRONMENTAL IMPACTS FROM EXTENDED OPERATION OF JAMES A. FITZPATRICK NUCLEAR PLANT**

The Nuclear Regulatory Commission has issued its final environmental impact statement on the proposed renewal of the operating license for the James A. FitzPatrick Nuclear Power Plant. The report contains the NRC's finding that there are no environmental impacts that would preclude license renewal for an additional 20 years of operation.

The FitzPatrick plant is a boiling water reactor located eight miles northeast of Oswego, N.Y. The current operating license expires Oct. 17, 2014. The operator, Entergy Nuclear Operations, Inc., submitted an application for renewal of the license Aug. 1, 2006.

As part of its environmental review of the application, the NRC held public meetings near the plant to discuss the scope of the review and the draft version of the environmental impact statement. Comments were received and considered from members of the public, local officials, and representatives of state and federal agencies.

Publication of the final environmental impact statement does not represent final NRC action on the license renewal application. The agency staff is completing its safety evaluation report, and the NRC's Advisory Committee on Reactor Safeguards will evaluate that report and make its recommendation before the agency makes a final decision.

The James A. FitzPatrick final environmental impact statement is available on the NRC's Web site at this address: <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1437/supplement31/>.

The FitzPatrick license renewal application is posted at:  
<http://www.nrc.gov/reactors/operating/licensing/renewal/applications/fitzpatrick.html>.  
Additional information about the license renewal process is available at:  
<http://www.nrc.gov/reactors/operating/licensing/renewal.html>.

The report is also available for review at the Oswego Public Library, 140-142 E. Second St., Oswego, and the Penfield Library, located at SUNY Oswego, at 7060 State Route 104, Oswego.
